CHAIRMAN'S STATEMENT

Foreword

It is my pleasure to present the Annual Report and Financial Statements of the Kenya Revenue Authority for the Financial Year 2019/20. This is the second Annual Report prepared within the implementation period of the Authority's Seventh Corporate Plan (2018/2019 - 2020/2021). The 7th plan provides the corporate strategic direction aimed at mobilizing government's revenue; having a competent, performance-driven, customer-focused and motivated staff; and simplifying tax administration to improve on service delivery and compliance.

The year 2019 was characterized by decelerated growth both in the global economy and in Sub-Saharan Africa. Sub-Saharan Africa's growth slightly slowed to 3.1 percent in 2019 from 3.3 percent growth in 2018. The growth in Sub-Saharan Africa was mostly supported by favorable weather conditions that led to increased agricultural production as well as high infrastructural investments.

Like Sub-Saharan Africa, Kenya experienced a decelerated growth in 2019. Most sectors recorded decelerated growth with Agriculture, Forestry, and Fishing sector accounting for a sizeable proportion of the slowdown followed by the manufacturing sector. On the other hand, the economy was supported by accelerated growth in Financial and Insurance and Real Estate activities among others. Kenya continues to be ranked favourably in the ease of doing business and as a top investment destination. In the 2020 World Bank's Doing Business Report, Kenya was ranked position 56 in 2019 moving five places from position 61 in 2018.

Kenya Economy

Based on the 2020 Budget Policy Statement, the Kenyan economy remained resilient and grew by an average of 5.5 percent in the first three quarters of 2019, mostly supported by strong performance in the services sector. The growth was expected to pick up to 5.6 percent in 2019, 6.1 percent in 2020 and further to 7.0 percent over the medium term supported by a strong rebound in the agricultural output, steady recovery in industrial activities, robust performance in the services sector, and investments in strategic areas under the "Big Four" Plan. However, growth decelerated to 5.4 percent in 2019 compared to 6.3 in 2018.

The 2020 Economic survey shows that Agriculture, Forestry, and the Fishing sector accounted for the largest proportion of the slowdown, from 6.0 percent growth in 2018 to 3.6 percent in 2019. This was followed by the manufacturing sector, which grew by 3.2 percent in 2019 compared to 4.3

percent growth in 2018. The decelerated performance of the agriculture sector was due to mixed weather phenomenon in 2019 characterized by drought during the first half of the year, followed by high rainfall in the second half of the year. The value of marketed production at current prices contracted by 6.5 percent from Kshs. 498.3 billion in 2018 to Kshs. 465.7 billion in 2019. The manufacturing sector experienced a decline in the production of wood and products of wood, sugar, electrical equipment, and other non-metallic mineral products. Formal employment in the manufacturing sector rose by 1.6 percent in 2019, and accounted for 12.1 percent of the total number of persons engaged in the formal sector in the country.

Though most sectors of the economy posted slowed growths in 2019 compared to the performance in 2018, the 2019 performance was to a considerable extent, supported by accelerated growths in Financial and Insurance Activities (6.6 percent) and Public Administration and Defense (8.1 percent). It is important to note that 2019 saw service activities contribute about two-thirds of the overall economic growth. Some of the specific service activities that significantly contributed to growth in 2019 include Wholesale and Retail Trade (9.4 percent); Transport and Storage (10.3 percent); Finance and Insurance (7.4 percent); Public Administration and Defense (5.8 percent) and Real Estate (8.3 percent).

Kenya confirmed the first COVID-19 case on 12th March 2020 and in response to the pandemic, the government announced a number of measures which included: imposition of a curfew which reduced working hours as employers and businesses; suspension of international flights which adversely affected tourism sector, accommodation, restaurant services and international trade leading to decline in imports; directive to public transport sector to operate at 60 per cent, among others.

These measures led drop in imports, devastating effect on tourism, massive job losses thus impacting negatively on tax revenue. In addition, quarterly GDP (Jan-March) reduced from 5.5% in 2019 to 4.9% in 2020. The sectors that registered substantial decline over the period are: accommodation and restaurant services (from 11% to -9.3%); manufacturing (3.5 % to 2.9%) and construction (6.1% to 5.3%).

Global Economy

World real GDP recorded a decelerated growth of 2.9 percent in 2019 compared to a growth of 3.5 percent in 2018. Advanced economies are estimated to have expanded by 1.2 percent in 2019 compared to a growth of 2.2 percent in 2018. Sub-Saharan Africa's growth slightly slowed to 3.1 percent in the review period from 3.3 percent growth in 2018. The growth was mostly supported by favorable weather conditions that led to increased agricultural production as well as high infrastructural investments.

Revenue Performance

During the financial year 2019/20, the Authority collected Kshs. 1,607.3 billion against a target of Kshs. 1,641.0 billion. This translates into a performance rate of 97.9%. Exchequer revenue amounted to Kshs. 1,509.7 billion against a target of Kshs. 1,530.9 billion translating to a performance rate of 98.6%, while Kshs. 97.1 billion was collected as Agency revenue against a target of Kshs. 110.1 billion.

Future Outlook

Global

World Bank projects a decline of global economic growth to around -3.0% in 2020, signaling the worst recession since the great depression. This is a drop from the annual global GDP growth of 2.9% in 2019, with growth possibly even being negative in the first quarter of 2020. This decline is because of the COVID-19 pandemic, which has weakened global trade, disrupted the global supply chains and transport; and is projected to adversely affect global remittances.

Average growth in Africa is expected to decline from 2.4 percent in 2019 to a range of between -2.1 and -5.1 percent in 2020. This translates to a loss in output of between US\$ 37 billion and US\$ 79 billion. EAC economic growth prospects remain positive but expected to decline to an average of 2.9 percent in 2020, down from about 6.0 percent in 2019.

Kenya

Kenya's real GDP decelerated to 5.4 percent in 2019 compared to 6.3 percent in 2018. The slow growth is attributed to among other factors, the declined growth in Agriculture Sector resulting from erratic weather conditions, and the distressed Manufacturing Sector. The year 2020 GDP growth is less optimistic due to the effects brought about by COVID-19 pandemic, invasion of desert locusts and floods. It is estimated that Kenya's economic growth will decline to 2.5 percent in 2020, down from a growth of 5.4 percent in 2019.

To mitigate the risk of not meeting the revenue targets due to subdued economic performance, KRA is implementing a number of revenue enhancement measures. These include revamping the audit function, tax base expansion, enhanced debt programme under Domestic Taxes, and the implementation of post clearance audits; review of the end use of exempt products; comprehensive audit of all exemptions, enhanced scanning and conducting intelligence led verification of cargo on the Customs side.

Appreciation

On behalf of the entire Board of Directors, I wish to extend my appreciation to the National Treasury for supporting the KRA Vision of being 'A globally trusted revenue agency facilitating tax and customs compliance'. I would like to take this opportunity to recognize the support of my fellow Board members, KRA management, and staff who worked tirelessly and collected over one trillion in revenue. The Authority registered 1.7% growth in revenue collection despite the Covid-19 pandemic coupled with tough macroeconomic conditions in the Country.

Lastly but most importantly, I wish to sincerely thank our taxpayers who have complied with their tax obligations and made it possible for us to collect the revenues. Customers are our pride and we have redesigned our Customer Service Delivery Model to ensure that the services rendered to our customers at all touchpoints are seamless and consistent, hence more satisfaction. We strongly believe that with your continued support we will weather through the storm of Covid-19 pandemic and build our nation together in the 2020/21 FY.

AMB. (DR.) FRANCIS MUTHAURA, EGH

Chairman.

COMMISSIONER GENERAL'S STATEMENT

1. Introduction

I am pleased to present the highlights of the Kenya Revenue Authority's performance for the FY 2019/20, which is prepared against a backdrop of a weak economy owing to the COVID-19 pandemic. This is the second financial year in the 7th Corporate Plan themed as "Revenue Mobilization through Transformation, Data-Driven decision-making, and Tax Base expansion". KRA's target is to raise Revenue/GDP ratio from 18.3 percent as recorded within the 2017/18 financial year to 19.2 percent by the 2020/21 financial year.

2. Operating Environment

Kenya's GDP growth rate decelerated to 5.4 percent in 2019 compared to 6.3 in 2018. According to the World Bank, the GDP is projected to decelerate further in 2020 to 1.5 percent due to the negative impact of the COVID-19 pandemic.

Key elements of the macro-economic environment included the following:

- The overall rate of inflation increased from 4.6 percent in the financial year 2018/19 to 6.0 percent in the financial year 2019/20.
- The exchange rate of Kenya Shilling to US Dollar increased to an average of 103.6 in 2019/20 FY compared to 101.2 for the 2018/19 FY.
- The CIF value of imports declined by 2.8 percent from Kshs. 1,309.9 billion in 2018/19 to Kshs. 1,272.7 billion in 2019/20.
- The average yield rate for the 91-day Treasury bill rate declined from 7.3 percent in 2018/19 FY to 6.92 percent in 2019/20FY indicating a general decline in interest rates in the economy.
- The Nairobi Securities Exchange (NSE) 20 share index moved from 2,633 points in June 2019 to 2,654 points in December 2019 but dipped to 1,966 points in March 2020 and 1,942 points in June 2020.

3. Revenue Performance

In the financial year 2019/2020, KRA collected a total of Kshs. 1,607.3 billion thereby achieving a 1.7 percent growth in collections over the Kshs. 1,580.1 billion collected in the financial year 2018/19. Table 1 presents the revenue performance by department:

Table 1: Revenue Collection (Kshs. billion)

Department	Actual 2019/20	Target 2019/20	Performance Rate	Actual 2018/19	Growth over 2018/19
Customs Services	510.63	518.813	98.4%	525.337	-2.80%
Domestic Taxes	1,092.686	1,117.106	97.8%	1,050.42	4.00%
Road Transport	4.007	5.102	78.5%	4.302	-6.80%
TOTAL	1,607.341	1,641.021	97.9%	1,580.06	1.70%

3.1. Customs and Border Control Department

Total exchequer and agency customs collections during FY 2019/20 amounted to Kshs. 510.630 billion against a target of Kshs. 514.309 billion translating to a performance rate of 98.4 percent and a reduction of 2.8 percent over FY 2018/19.

Net import duty declined by 6.7% to Kshs. 98.1 billion while net excise duty grew by 0.4 percent to Kshs. 88.8 billion. Annual collections in Petroleum Taxes amounted to Kshs. 168.5 billion, a 1.5 percent decline compared to FY 2018/19 while Trade Taxes declined by 3 percent to Kshs. 324.4 billion over the same period.

3.2. Domestic Taxes Department

Total domestic exchequer and agency collections during FY 2019/20 amounted to Kshs. 1,092.686 billion against a target of Kshs. 1,117.106 billion translating to a performance rate of 97.8% and a growth of 4.0% over FY 2018/19.

Direct domestic taxes collected during the financial year amounted to Kshs. 757 billion representing a growth of 7.9% over FY 2018/19. Direct domestic taxes included PAYE-53%; Corporate Taxes -23%, withholding taxes -16%, and the remaining 8% comprised of individual taxes, Turn-Over-Tax, Betting/ lotteries tax, Capital Gains Tax, Rental Income Tax, and surplus funds.

Indirect taxes collected during the Financial Year amounted to Kshs. 334.65 billion representing a decline of 3.9% over FY 2018/19. This decline in indirect taxes was mainly due to a 7 % decline in domestic VAT from Kshs. 230 billion to Kshs. 214 billion and a 6.4% decline in domestic excise duty from Kshs. 59.5 billion in 2018/19 to Kshs. 55.7 billion in 2019/20. The total domestic VAT declined by 7% from Kshs. 230 billion to Kshs. 214 billion over the same period.

3.3. Transport Department

Transport revenue for the 2018/19 FY was Kshs. 4.01 billion and accounted for 0.25% of the total collections during the year. The collection declined by 6.8% compared to Kshs. 4.01 billion collected in 2018/19 FY.

3.4. Revenue performance (Pre and Post Covid-19)

A breakdown of performance of some of the tax heads pre-covid and after the pandemic is as shown in the following table.

Table 2: Revenue Performance (Pre – and Post – Covid-19)

	Growth over 2018/19		Reason for under-performance
	Pre-Covid-19 (Jul 2019- Feb 2020)	After the start of Covid-19 (Mar 2020 -June 2020)	
Petroleum Taxes	12%	-24%	Decline in petroleum prices and decline in business operations
Trade Taxes (imports)	3%	-16%	Decline in imports for both finished goods and raw materials
VAT	3%	-26%	Reduction in rate from 16% to 14%, Reduction in demand and output
Excise Duty	4%	-28%	Decline in sales due to COVID-19 policy measures
PAYE	11%	-14%	Lay-offs, unpaid leave and salary/wages adjustments, reduction in rate from 30% to 25%
Income tax (CIT)	8%	1%	Depressed business activities marked by decline PMI, decline in turnover, reduction in rate from 30% to 25%

3.5. Overview of factors underpinning revenue performance in 2019/20

Revenue performance during the 2019/20 FY was on an upward trajectory for the period preceding the COVID-19 pandemic having registered a performance rate of 101% and a growth of 11.2%. However, the pandemic and measures taken to curb its spread have had an impact on revenue collection, which saw the performance rate drop to 80% and a decline of 15.2% compared to similar period in 2018/19 FY.

Such measures include cessation of movement to and from the larger Nairobi metropolitan area, Mandera county, coastal counties of Mombasa, Kilifi and Kwale; imposition of a nationwide curfew; and enforcement of social distancing. This has affected normal business operations and resulted to shut down of some businesses and job losses. As such, tax collection has been negatively impacted by the pandemic.

In addition, the government efforts to mitigate the economic effects of the pandemic instituted a number of tax measures. These include the reduction in PAYE rates from 30% to 25%, reduction of corporate tax from 30% to 25%, reduction of VAT from 16% to 14% and reduction of ToT from 3% to 1% among others. This reduction in rates reduced the expected revenue collections.

4. Key Achievements in the Financial Year 2019/20

The key achievements during the FY 2019/20 include:

Broadening the tax base

During the 2019/20 FY, active taxpayers increased to 5.77 million by the end of June 2020. KRA is making efforts at continuous data matching and using 3rd party data to identify active taxpayers who are not yet recruited.

Automation

The Authority continued to leverage on technology and systems integration. Automation levels stood at 93% while business process automation at the end of June 2020 was 87%. Further, iTax has been integrated with several systems in government agencies, including the Public Procurement Regulatory Authority (PPRA), Business Registration Service (BRS), and Integrated Financial Management Information System (IFMIS).

Having launched iScan in October 2018, the Authority implemented an integrated scanner strategy. Ten Scanners - 5 scanners in Mombasa, 4 at the Inland Container Depot (ICD), and 1 at Namanga were integrated into the iScan System over the period under review. The scanners are a mix of drive-through, mobile, and rail scanners.

Besides, Jomo Kenyatta International Airport, Mombasa (Kilindini Port), and Namanga One-Stop Border Post Joint Operation Centers have been fully operationalized. Multi-agency teams in all International airports and one-stop border ports are also carrying out joint cargo verification.

Strengthening debt and accounts management

Within two years of implementing the 7th Corporate plan, the Authority fully operationalized the debt module on the iTax system and debt cases from the compliance program are automatically flowing to Debt office, leading to improved debt collection. Indeed, the collectable has significantly reduced to 7.2% of total revenue collection. The authority has also embraced data analytics in debt management with priority being on more recent debt cases, high-value cases, and agency revenue debt cases.

VAT Refunds Strategy

During the 2019/20 FY, the authority reviewed the manual refunds risk-rating framework and shared with Data Warehouse and Business Intelligence (DWBI) the project team to have the risk profiling rules developed and automated. The automation of refunds risk profiling is 95% complete. Further, the authority has endeavored to clear the backlog of VAT refunds to cushion businesses from the adverse impacts of the Covid-19 pandemic.

5. Human Resources Review

(a) Senior Management changes

1. Mr. John Njiraini who was the Commissioner General retired from the Authority and was succeeded by Mr. Githii Mburu who took over with effect from 1st July 2019.

2. Mr. Ezekiel Saina was the Commissioner, Corporate Support Services until his retirement on 29th September, 2019, and was replaced by Dr. David Kinuu from 1st November, 2019.

3. Mr. Githii Mburu was Commissioner, Intelligence & Strategic Operations until his appointment as the Commissioner General. Dr. Terra Saidimu replaced him as the Commissioner, Intelligence & Strategic Operations from 2nd December, 2019.

(c) Staff Motivational and Welfare Programs

In the financial year 2019/20, the Authority addressed staff motivation by implementing various welfare activities that include wellness programs, health talks, health hikes, gym services, Alcohol and Drug abuse prevention programs, provision of Mothers'/Lactation Room, Work Environment Audits and Annual Staff Team building activities. Motivational benefits include Mortgage as well as car and laptop loans for staff.

(d) Competency Development

The Authority facilitated delivery of 82 technical and cross cutting programs for 1,307 staff and 71 Continuous Professional Development programmes for 487 staff (153 courses for 1,794 staff at a total cost of Kshs. 64,943,010). KESRA facilitated training for 1,872 staff. Total staff trained 3666.

(e) Human Resource Projects

A Job Evaluation exercise was conducted in the year to rank jobs and functions, and also develop Job Descriptions and grading structures.

6. Statement of Performance against Predetermined Objectives

The Authority is currently implementing the 7th Corporate Plan covering the period 2018/19 to 2020-21. The financial year 2019/20 marked the end of the second year of implementation. The key strategic objectives during this period and the performance is summarized as follows:

(a) Tax Base Expansion

The aim was to raise the number of active taxpayers from 3.94 million to 6 million. This would be achieved through recruitment of informal sector taxpayers, registered companies, professionals, landlords and individuals trading online. The active taxpayers are currently 5.77 million. In addition, on-time payment rose to 91.5% while on-time filing rose to 62.5%.

(b) Data driven decision making

The strategy was on using data and technology to drive compliance initiatives in order to reduce the VAT gap from 45% to 40%. A data driven VAT compliance strategy was developed and is currently under implementation. The VAT gap has reduced to 43%.

(c) More Effective Dispute Resolution

With the operationalization of the Alternative Dispute Resolution (ADR), the aim was to implement measures to enhance its efficiency and effectiveness thereby increasing the number of cases resolved through ADR from 38% to 55%. The performance currently stands at 52%.

(d) Strengthening Debt and Accounts Management

During this plan period, the aim was to reduce the debt to revenue ratio in line with international best practice levels. The target was to reduce collectable debt to total revenue from 25% to 15%. This would be achieved through utilization of the debt module in iTax, data analytics and fast tracking debt recovery times. This period recorded the highest performance with a ratio of 7.2%

(e) Improved Border Management

This is aimed at improving security at the border stations and reducing the level of identified illicit trade. Key initiatives that have been implemented include operationalization of two One Stop Border Posts at Namanga and Moyale; and operationalization of three Joint operation centers at JKIA, Namanga and Mombasa Port. The Integrated Scanner Command Center was also operationalized.

(f) Implementation of 3rd KRA ICT strategy

The focus was on enhancing existing systems to offer integrated, simple, cost effective and reliable services. During this period, iTax was integrated with IFMIS phase II, PAYE, NTSA, iCMS Phase II, AGPO; while iCMS was integrated with Single Window and iScan. The current automation level stands at 93%

(g) Implementation of Data Governance Strategy

The aim was to ensure central management and coordination of corporate data and provision of security and privacy thus building confidence in the quality of data. A corporate data office was operationalized and risk profiling and case management modules of the Data Warehouse and Business Intelligence project is in the process of implementation. The main task was to clean up and maintain a credible master and transactional data. The Enterprise data warehouse in place with data from iTax, Simba, iCMS and Legacy while master data cleaning almost completed while transactional data cleaning ongoing. The data utilization index also rose from a baseline of 62% to 73%.

7. Outlook

The Treasury revenue target for the financial year 2020/21 is Kshs. 1.7 trillion, of which Kshs. 1.6 trillion (94.3%) is Exchequer revenues and Kshs. 98 billion (5.7%) being the agency revenues that KRA collects. The Treasury target represents a growth of 7% over the revenue collection in FY 2019/20 (Kshs. 1.6 trillion).

Although the 2020 BPS projected the economy to expand by above 6.1 percent in 2020 and 7.0 percent over the medium term, the performance of Kenya's economy in 2020, like most economies all over the world, will largely be determined by how long life and economic activities are going to be disrupted by the COVID -19 pandemic. The revised growth projections for in 2020, accounting for the impact of COVID-19 is 1 percent. Most of the economic activities have been slowed down by restrictions resulting from containment and cessation of sections of the population, the nationwide curfew, and the stoppage of international passenger travel.

Besides, locust invasion witnessed in the country in late 2019 and early 2020 poses a risk to agricultural production and food security. These shocks are likely to dampen energy generation and agricultural output leading to higher inflation that could slow down economic growth.

FY 2020/21 marks the 3rd and final year of the Authority's 7th Corporate Plan for the FY2018/19 to 2020/21. As the Authority continues with the implementation of the initiatives outlined in the 7th Plan geared to improved revenue collection, the risks facing the economy will adversely impact on revenue collections in the coming periods. In addition, the policy measure adopted to cushion the public from the adverse effects of the pandemic such as the reduction in VAT and PAYE rates will see the tax revenues dip below the projected figures at the beginning of the plan period. However, we are implementing a raft of measures under the Revenue Enhancement Initiatives to facilitate the achievement of the Revenue Targets for FY 2020/21. These include;

- Enhanced Debt Programme
- Revamped Audit Function
- Tax Base Expansion
- Customs Enforcement including post clearance audits, expanded exemption and remissions
- Intelligence and Enforcement operations

8. Conclusion

In conclusion, I would like to thank our Board of Directors, the KRA management and all staff for their hard work, which has enabled the Authority to effectively implement its mandate as the principal revenue collector for the Government of Kenya. Your dedication and commitment led to a positive revenue growth over FY 2018/19 despite the adverse conditions prevailing in the year. I also thank the National Treasury and Planning for according us strong support. Lastly, I extend our gratitude to our taxpayers and all our stakeholders, for their patriotism and unwavering support, without which we would not have achieved our strategic goals.

I am confident that together and guided by our common vision, KRA is headed for greater heights.

GITHII MBURU,
Commissioner-General

CORPORATE SOCIAL RESPONSIBILITY (CSR) STATEMENT*Introduction*

Organizations world over contribute to the national and global economy and thus directly and indirectly improve livelihoods of communities around them.

The Kenya Revenue Authority (KRA)'s Corporate Social Responsibility (CSR) aims to achieve an endearing, sustainable and meaningful partnership with the publics that it interacts with to enhance the focus on KRA's core mandate that is revenue mobilization.

KRA plays a key role in the country's development agenda and is central in achieving the national policy objectives outlined in various policy documents that include Vision 2030, the 'Big Four' Agenda and the Sustainable Development Goals (SDGs). The outlined objectives are related and the pillars include healthcare and environmental initiatives.

During the 2019/2020 Financial Year, KRA carried out various CSR initiatives in line with the national priorities aimed at achieving economic prosperity and achieved the following milestones:

Health Pillar Initiatives

During 2019/2020 financial year, KRA focused its Taxpayers Month CSR (TPM, CSR) initiatives on the Health pillar. Through the KRA Regional Offices, KRA renovated a pediatric ward at Rongo Level 4 hospital & a male ward at the Naivasha Level 5 hospital.

In support of the fight against cancer, KRA participated at the Faraja white water rafting annual fundraising event. The event was scheduled to take place at Tana River, Sagana, Muranga. However, due the Covid-19 Pandemic the participation of staff in the water rafting activity was suspended.

Environmental Pillar Initiatives

In regards to environment, KRA involved staff and other stakeholders to plant trees in support of the Government of Kenya initiative on increasing the forest cover.

KRA planted 6,400 trees at Mukuru Promotional Centre schools (Nairobi), 5,000 trees with Save our Rivers Initiative in Nkubu (Meru County), 600 trees at KESRA (Mombasa), 500 trees at Ruiru sports club (Kiambu) and 1000 trees at Railways Golf Club (Nairobi). Over 13,500 trees were planted during the financial year 2019/2020.

World Rally Championship (WRC), Safari rally Secretariat which is a GOK project had partnered with KRA to plant 18,000 trees at Kasarani Super spectator stage to mark the return of World Rally Championship in Kenya after 18 years' absence. However, this event was postponed to October rains due to the outbreak of Covid-19 Pandemic.

Sports Marketing Pillar Initiatives

On Sports Marketing, KRA focused on Golf with the aim of improving partnership with taxpayers

KRA sponsored/co-sponsored five (5) golf tournaments; KRA golf tournament at Ruiru Sports Club, Captains Prize at Railways Golf Club, Rotary Club of Karen tournament at Karen Golf Club, upstream oil and gas golf tournament at Vet lab Golf tournament and Qatar Airways Golf tournament at Muthaiga Golf Club. Over 50 Staff golfers participated in these tournaments.

Ushuru FC continued to play at the National Super League. The team played 26 matches across the country and finished position 6. COVID-19 Pandemic halted all football activities.

KRA Choir performance

The KRA Choir performance was exemplary. The choir performed at various internal and external functions. The external functions were at the invitation of the Permanent Presidential Music Commission. They performed at Siaya County during Jamhuri Day. The choir also did live Christmas carols in media houses. The Choir also participated in Madaraka day celebrations through recorded music.

Staff Engagement

KRA involved staff directly by participating in the staff football tournament & national tree planting. Staff also participated in the Madoka Half Marathon, Beyond Zero Marathon and Stanchart Marathon. Staff participated in various Regional CSR engagements during the year.

Conclusion.

In conclusion, staff involvement and stakeholders' engagement in CSR helped to improve the overall KRA stakeholder relationship and reputation.

Date: 19th August, 2021.

STATEMENT OF DIRECTORS' RESPONSIBILITIES

Section 81 of the Public Finance Management Act, 2012 and the Kenya Revenue Authority Act require the Directors to prepare financial statements in respect of the Authority, which give a true and fair view of the state of affairs of the Authority at the end of the financial year and the operating results of the Authority for that year. The Directors are also required to ensure that the Authority keeps proper accounting records which disclose with reasonable accuracy the financial position of the Authority. The Directors are also responsible for safeguarding the assets of the Authority.

The Directors are responsible for the preparation and presentation of the Authority's financial statements, which give a true and fair view of the state of affairs of the Authority for and as at the end of the financial year ended on June 30, 2020. This responsibility includes: (i) maintaining adequate financial management arrangements and ensuring that these continue to be effective throughout the reporting period; (ii) maintaining proper accounting records, which disclose with reasonable accuracy at any time the financial position of the entity; (iii) designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements, and ensuring that they are free from material misstatements, whether due to error or fraud; (iv) safeguarding the assets of the Authority; (v) selecting and applying appropriate accounting policies; and (vi) making accounting estimates that are reasonable in the circumstances.

The Directors accept responsibility for the Authority's financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in conformity with International Public Sector Accounting Standards (IPSAS), and in the manner required by the PFM Act, 2012 and The KRA Act. The Directors are of the opinion that the Authority's financial statements give a true and fair view of the state of Authority's transactions during the financial year ended June 30, 2020, and of the Authority's financial position as at that date. The Directors further confirm the completeness of the accounting records maintained for the Authority, which have been relied upon in the preparation of the Authority's financial statements as well as the adequacy of the systems of internal financial control.

Nothing has come to the attention of the Directors to indicate that the Authority will not remain a going concern for at least the next twelve months from the date of this statement.

Approval of the financial statements

The Authority's financial statements were approved by the Board on 19/8/2021 and signed on its behalf by:

REPORT OF THE AUDITOR-GENERAL ON KENYA REVENUE AUTHORITY FOR THE YEAR ENDED 30 JUNE, 2020

Report On the Financial Statements

Opinion

I have audited the accompanying financial statements of Kenya Revenue Authority set out herein, which comprise of the statement of financial position as at 30 June, 2020, and the statement of financial performance, statement of changes in net assets, statement of cash flows and statement of comparison of budget and actual amounts for the year then ended, and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 35 of the Public Audit Act, 2015. I have obtained all the information and explanations, which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

In my opinion, the financial statements present fairly, in all material respects, the financial position of Kenya Revenue Authority as at 30 June, 2020 and of its financial performance and its cash flows for the year then ended, in accordance with International Public Sector Accounting Standards (Accrual Basis) and comply with the Public Finance Management Act 2012 and the Kenya Revenue Authority Act, 1995.

Basis for Opinion

The audit was conducted in accordance with International Standards of Supreme Audit Institutions (ISSAIs). I am independent of the Kenya Revenue Authority Management in accordance with ISSAI 130 on Code of Ethics. I have fulfilled other ethical responsibilities in accordance with the ISSAI and in accordance with other ethical requirements applicable to performing audits of financial statements in Kenya. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of Matter

Land without Title Documents

As reported in the previous year, the statement of financial position reflects a balance of Kshs.30,786,129,000 under property, plant and equipment which, as disclosed in Note 8(ii) to the financial statements, includes fourteen (14) pieces of leasehold land with a total acreage of 40.08 hectares and which the Authority is yet to receive title documents. The properties, with a net book value of Kshs.1,028,544,182 as detailed below, are said to be at various stages of registration with the National Land Commission even though the issue of title documents has been outstanding for a long period of time.

Description	Location	Acreage	Net Book Value (Kshs.)	Remarks

Total Net Book Value		40.08	1,028,544,182	

Further information indicates that the transfer process for a title deed currently in the name of East Africa Common Services Authority is on-going. In addition, the Authority was allocated five (5) plots of land in Hulugho, Amuma, Gerille, Elwak, and Diffu which has been gazetted as border entry points as detailed below:

Location	Acreage	Remarks
Diffu Site - Wajir County	7.0 acres	Proposed site for One Stop Border Point
Gerille Site - Wajir County	13 acres	Proposed site for One Stop Border Point
Amuma Site - Garissa County	7.6 acres	Proposed site for One Stop Border Point
Hulugho Site - Garissa County	1.3 acres	Proposed site for One Stop Border Point
Elwak Site - Mandera County	30 acres	Proposed site for One Stop Border Point

The five (5) plots have not been valued and are therefore excluded from the property, plant and equipment balance of Kshs.30,786,129,000.

Under the circumstances, the completeness and accuracy of the property, plant and equipment balance of Kshs.30,786,129,000 as at 30 June, 2020 could not be confirmed as fairly stated. Further, in the absence of title documents, it has not been possible to ascertain that all the above properties and improvements thereon belong to the Authority.

My opinion is not modified in respect of this matter.

REPORT ON LAWFULNESS AND EFFECTIVENESS IN USE OF PUBLIC RESOURCES

Conclusion

As required by Article 229 (6) of the Constitution of Kenya 2010, based on the audit procedures performed, I confirm that, nothing has come to my attention to cause me to believe that public resources have not been applied lawfully and in an effective way.

Basis for Conclusion

The audit was conducted in accordance with ISSAI 4000. The standard requires that I comply with ethical requirements and plan and perform the audit to obtain assurance about whether the activities, financial transactions and information reflected in the financial statements are in compliance, in all material respects, with the authorities that govern them. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

REPORT ON EFFECTIVENESS OF INTERNAL CONTROLS, RISK MANAGEMENT AND GOVERNANCE

Conclusion

As required by Section 7(1)(a) of the Public Audit Act, 2015, based on the audit procedures performed, I confirm that, nothing has come to my attention to cause me to believe that internal controls, risk management and overall governance were not effective.

Basis for Conclusion

The audit was conducted in accordance with ISSAI 2315 and ISSAI 2330. The standards require that I plan and perform the audit to obtain assurance about whether effective processes and systems of internal control, risk management and overall governance were operating effectively, in all material respects. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

Responsibilities of Management and those Charged with Governance

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (Accrual Basis) and for maintaining effective internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error and for its assessment of the effectiveness of internal control, risk management and overall governance.

In preparing the financial statements, Management is responsible for assessing the Authority's ability to continue to sustain services, disclosing, as applicable, matters related to sustainability of services and using the applicable basis of accounting unless Management is aware of the intention to terminate the Authority or cease operations.

Management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 47 of the Public Audit Act, 2015.

In addition to the responsibility for the preparation and presentation of the financial statements described above, Management is also responsible for ensuring that the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities which govern them, and that public resources are applied in an effective way.

Those charged with governance are responsible for overseeing the Authority's financial reporting process, reviewing the effectiveness of how the entity monitors compliance with relevant legislative and regulatory requirements, ensuring that effective processes and systems are in place to address key roles and responsibilities in relation to governance and risk management, and ensuring the adequacy and effectiveness of the control environment.

Auditor-General's Responsibilities for the Audit

The audit objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion in accordance with the provisions of Section 48 of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement and weakness when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken based on these financial statements.

In addition to the audit of the financial statements, a compliance audit was planned and performed to express a conclusion about whether, in all material respects, the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities that govern them and that public resources are applied in an effective way, in accordance with the provisions of Article 229 (6) of the Constitution and submit the audit report in compliance with Article 229(7) of the Constitution.

Further, in planning and performing the audit of the financial statements and audit of compliance, I consider internal control in order to give an assurance on the effectiveness of internal controls, risk management and overall governance processes and systems in accordance with the provisions of Section 7(1)(a) of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229 (7) of the Constitution. My consideration of the internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under the ISSAIs. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Because of its inherent limitations, internal control may not prevent or detect misstatements and instances of non-compliance. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

As part of an audit conducted in accordance with ISSAIs, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management's use of the applicable basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Authority's ability to continue to sustain its services. If I conclude that a material uncertainty exists, I am required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my audit report. However, future events or conditions may cause the Kenya Revenue Authority to cease to continue to sustain its services.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information and business activities of the Authority to express an opinion on the financial statements.
- Perform such other procedures, as I consider necessary in the circumstances.

I communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that are identified during the audit.

I also provide Management with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

NOTES TO THE FINANCIAL STATEMENTS

1. STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION

The financial statements have been prepared on a historical cost basis except for the measurement at re-valued amounts of certain items of property, plant and equipment, marketable securities and financial instruments at fair value, impaired assets at their estimated recoverable amounts and actuarially determined liabilities at their present value. The preparation of financial statements in conformity with International Public Sector Accounting Standards (IPSAS) allows the use of estimates and assumptions. It also requires management to exercise judgement in the process of applying the entity's accounting policies. The areas involving a higher degree of judgement or complexity, or where assumptions and estimates are significant to the financial statements, are disclosed in Note 1 (o).

The financial statements have been prepared and presented in Kenya Shillings which is the functional and reporting currency of the Authority and all values are rounded to the nearest thousand (Kshs. 000).

The financial statements have been prepared in accordance with the PFM Act, the Kenya Revenue Authority Act and International Public Sector Accounting Standards (IPSAS). The accounting policies adopted have been consistently applied to all the years presented.

ADOPTION OF NEW AND REVISED STANDARDS

i. Relevant new standards and amendments to published standards effective for the year ended 30 June 2020

IPSAS 40: Public Sector Combinations	Applicable: 1st January 2019: The standard covers public sector combinations arising from exchange transactions in which case they are treated similarly with IFRS 3 (applicable to acquisitions only) Business combinations and combinations arising from non-exchange transactions which are covered purely under Public Sector combinations as amalgamations. The provisions of this standard do not apply to the Authority.
--------------------------------------	--

ii. Relevant new standards and amendments to published standards but not yet effective for the year ended 30 June 2019

<i>Standard</i>	<i>Impact</i>
IPSAS 41: Financial Instruments	Applicable: 1st January 2022: The objective of IPSAS 41 is to establish principles for the financial reporting of financial assets and liabilities that will present relevant and useful information to users of financial statements for their assessment of the amounts, timing and uncertainty of an entity's future cash flows. IPSAS 41 provides users of financial statements with more useful information than IPSAS 29, by: • Applying a single classification and measurement model for financial assets that considers the characteristics of the asset's cash flows and the objective for which the asset is held; • Applying a single forward-looking expected credit loss model that is applicable to all financial instruments subject to impairment testing; and • Applying an improved hedge accounting model that broadens the hedging arrangements in scope of the guidance. The model develops a strong link between an entity's risk management strategies and the accounting treatment for instruments held as part of the risk management strategy.
IPSAS 42: Social Benefits	Applicable: 1st January 2022 The objective of this Standard is to improve the relevance, faithful representativeness and comparability of the information that a reporting entity provides in its financial statements about social benefits. The information provided should help users of the financial statements and general purpose financial reports assess: (a) The nature of such social benefits provided by the entity; (b) The key features of the operation of those social benefit schemes; and (c) The impact of such social benefits provided on the entity's financial performance, financial position and cash flows.

iii. Early adoption of standards

The Authority did not early – adopt any new or amended standards in year 2020.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**(a) Revenue Recognition****i) Agency Income**

In accordance with the Kenya Revenue Authority Act CAP 469, income to the Authority is “such amounts not exceeding 2% as may be determined by the Minister each financial year” of the total estimated revenue to be collected by the Authority on behalf of the Exchequer. In addition, the Authority is entitled to a Bonus of 3% of the surplus revenue collected above the estimates and also earns income from other activities. Agency Income is recognised

ii) Revenue from exchange transactions**Finance Revenue**

Finance revenue comprises interest receivable on fixed and security deposits. The revenue is recognised as it accrues in using the effective yield method. Interest income is derived from short term placements held in approved commercial banks.

Rental income

Rental income is recognised on a straight line basis over the lease term.

Commission revenue

Commission income comprises agency fees charged on collections made on behalf of other regulatory bodies.

Other operating income

Other income is recognised when significant risks and rewards of ownership are transferred to the recipient and the amounts of revenue can be reliably measured.

(b) Development funding and capital grants by the Treasury

Grants by the Treasury in form of assets or funding for acquisition of major assets or development projects are recognized as a financing reserve when received. No repayment of the financing is expected by the Authority.

(c) Property, Plant and Equipment

All categories of property, plant and equipment are stated at cost or valuation less accumulated depreciation and annual impairment losses. Depreciation is calculated to write off the cost or valuation of each asset to its residual value where applicable, over the expected useful life of the asset in equal instalments. A full year's depreciation is charged in the year of purchase but no charge is made in the year of disposal.

The estimated useful life is as follows: -

Plant & Machinery	8 years
Equipment/Furniture/Fittings	8 years
Boats	8 years
Motor Vehicles	5 years (with a 10% residual value)
Computers	3 years
Computer Software	3 Years
Buildings	40 years
Leasehold land	Over the remaining lease period

Gains or losses on property, plant and equipment are determined by reference to their carrying value and are taken into account in determining the surplus / (deficit) for the year.

(d) Intangible Assets

Intangible assets consist of various computer software systems purchased for use by the Authority. The Authority recognises Intangible Assets acquired separately at cost less accumulated amortisation. Amortisation is charged on a straight-line basis over their useful lives as estimated by management from time to time.

(e) Cash and Cash equivalents

For purposes of the cash flow statement, cash and cash equivalents comprise cash in hand and short-term deposits held with banks.

(f) Translation of foreign currencies

Transactions in foreign currencies during the year are converted into Kenya Shillings at rates ruling at the transaction dates. Assets and liabilities at the balance sheet date, which are expressed in foreign currencies, are translated into Kenya Shillings at the rate ruling on that date. The resulting foreign exchange gains and losses are recognized on a net basis, differences are dealt with in the income and expenditure statement in the financial year in which they arise.

(g) Employee benefits costs**(i) Retirement benefit obligations**

The Authority operates an hybrid pension scheme with a defined contribution plan for the permanent and pensionable employees. Payments to the scheme by the Authority are recognised as an expense when employees have rendered service entitling them to the contributions. The scheme is funded by contributions from both the entity and the employees. The entity and all employees also contribute to the National Social Security Fund, which is a defined contribution scheme.

ii) Other entitlements

Employees' entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for outstanding leave at the reporting date.

(h) Inventories

Inventories are stated at the lower of cost and net realisable value. The cost of inventories comprises purchase price, import duties, transportation and handling charges, and is determined on the weighted average price. Inventories are recognized as an expense when deployed for utilization or consumption in the ordinary course of operations of the Entity.

(i) Receivables

Receivables are stated at their nominal value as reduced by appropriate allowances for estimated irrecoverable amounts. Objective evidence of impairment of the receivables is when there is significant financial difficulty of the counter party or when there is a default or delinquency in payment according to agreed terms. When a receivable is considered uncollectible it is written off. Subsequent recoveries of amounts previously written off are credited in the Statement of Financial Performance. Changes in the carrying amount of the allowance account are recognized in the Statement of Financial Performance.

(j) Payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer), otherwise they are presented as non-current liabilities.

Trade payables are recognized initially at the transaction price and subsequently measured at amortized cost using the effective interest method.

(k) Provisions

Provisions for liabilities are recognised when there is a present obligation (legal or constructive) resulting from a past event, and it is probable that an outflow of economic resources will be required to settle the obligation and a reliable estimate can be made of the monetary value of the obligation.

(l) Budget information

The original budget for FY 2019-2020 was approved by the KRA Board of Directors on 12th September 2019. An additional funding of 4.0 Billion was received from the National Treasury to fund operations. The additional funding was incorporated in the original Adjusted Budget FY2019-20 and a Revised Budget prepared, presented to and approved by the Board on 9th December 2019. Further budget reviews to address urgent priority needs were presented to the Board on 12th March 2020, 8th April 2020, 14th May 2020 and 18th June 2020 and the same approved. The budget reprioritizations were necessary to address the Covid-19 requirements and take-over of Nairobi City County Revenue collections by the Authority

The entity's budget is prepared on a different basis to the actual income and expenditure disclosed in the financial statements. The financial statements are prepared on accrual basis using a classification based on the nature of expenses in the statement of financial performance, whereas the budget is prepared on a cash basis. A comparison of budget and actual amounts, prepared on a comparable basis to the approved budget, is presented in the statement of comparison of budget and actual amounts.

In addition to the Basis difference, adjustments to amounts in the financial statements are made for differences in the formats and classification schemes adopted for the presentation of the financial statements and the approved budget.

A statement to reconcile the actual amounts on a comparable basis included in the statement of comparison of budget and actual amounts and the actuals as per the statement of financial performance has been presented under Statement of Comparison of Budget and Actual Amounts of these financial statements.

(m) Nature and Purpose of Reserves

The Authority creates and maintains reserves in terms of specific requirements. The Authority has created Capital Grants from the National Treasury reserves to represent the National Treasury's input by directly funding capital development for the Authority.

The Revaluation reserves represent the surplus arising from the revaluation of the Authority's Property, Plant and Equipment.

(n) Related Parties

The Authority regards a related party as a person or an entity with the ability to exert control individually or jointly, or to exercise significant influence over the Entity, or vice versa.

(o) Critical Accounting Estimates and Judgements in applying the Authority's accounting policies

In the process of applying the entity's accounting policies, management has made estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial period. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. These are dealt with below:

Critical accounting judgments in applying the Authority's policies

Impairment losses

At each reporting date, the entity reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the entity estimates the recoverable amount of the cash generating unit to which the asset belongs.

Plant and equipment

Property and equipment is depreciated over its useful life taking into account residual values, where appropriate. The actual lives of the assets and residual values are assessed at the reporting date and may vary depending on a number of factors. In reassessing asset lives, factors such as technological innovation, product life cycles and maintenance

programmes are taken into account. Residual value assessments consider issues such as future market conditions, the remaining life of the asset and projected disposal values.

Contingent liabilities

The directors evaluate the status of any exposures on a regular basis to assess the probability of the entity incurring related liabilities. However, provisions are only made in the financial statements where, based on the directors' evaluation, a present obligation has been established.

(ii) Land & buildings

The Authority received several leasehold properties (land and buildings) from the government at inception in 1995. The Authority was not required to pay for the property hence did not incur any cost on the same. To recognize the property in its books, the Authority did a professional valuation of the land and building in 1996 and the values were adopted in the Authority's statement of financial position. This was done by recognizing land and buildings assets in the statement of Financial Position. The assets were revalued again in Financial Year 2016/17.

The Authority is yet to receive title documents for 14 pieces of leasehold land from the Government. These properties are at various stages of registration with the Commissioner of Lands. Another title deed is in the name of East African Common Services Authority (EACSA) and the process transfer of the title is ongoing. The Authority was allocated 5 plots of land in Halugho, Amuma, Gerille, Elwak & Diff which have been gazetted as border entry points. The plots are yet to be valued and the Authority is in the process of acquiring title documents.

The disposal in the Financial Year relates to write off of one vehicle due to an accident.

27. FINANCIAL RISK AND CAPITAL MANAGEMENT

The Authority's activities expose it to a variety of financial risks including credit and liquidity risks and effects of changes in foreign currency. The Authority's overall risk management programme focuses on unpredictability of changes in the business environment and seeks to minimise the potential adverse effect of such risks on its performance by setting acceptable levels of risk.

The Authority's financial risk management objectives and policies are detailed below:

(i) Credit risk

The Authority has exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due. Credit risk arises from cash and cash equivalents, and deposits with banks, as well as agency and other receivables.

The carrying amount of financial assets recorded in the financial statements representing the Authority's maximum exposure to credit risk is made up as follows:

	Fully Performing	Past Due	Impaired
	Kshs 000	Kshs 000	Kshs 000
At 30 June 2020			
Receivables	438,571	-	-
Security Deposits	2,565,951	-	-
Bank Balances	5,508,924	-	-
At 30 June 2019			
Receivables	402,100	-	-
Security Deposits	2,487,810	-	-
Bank Balances	7,791,756	-	-

The credit risk associated with these receivables is minimal hence no allowance for uncollectible amounts has been recognised in the financial statements.

(ii) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the Authority's directors, who have built an appropriate liquidity risk management framework for the management of the Authority's short, medium and long-term funding and liquidity management requirements. The Authority manages liquidity risk through continuous monitoring of forecasts and actual cash flows.

The table below represents cash flows payable by the company under non-derivative financial liabilities by their remaining contractual maturities at the reporting date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

Total	320,784	2,284,572	2,171,514	4,776,870

(iii) Market risk

The board has put in place an internal audit function to assist it in assessing the risk faced by the Authority on an ongoing basis, evaluate and test the design and effectiveness of its internal accounting and operational controls.

Market risk is the risk arising from changes in market prices, such as interest rate, equity prices and foreign exchange rates which will affect the Authority's income or the value of its holding of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. Overall responsibility for managing market risk rests with the Audit Committee.

The Authority's Corporate Risk Department is responsible for the development of detailed risk management policies and for the day to day implementation of those policies.

There has been no change to the Authority's exposure to market risks or the manner in which it manages and measures the risk.

(a) Foreign currency risk

The Authority has transactional currency exposures. Such exposure arises from foreign denominated bank balances.

The carrying amount of the Authority's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

		2019/2020	2018/2019
		Kshs '000	Kshs '000
KRA US Dollar Account (NBK)		20,794	46,303
KESRA US Dollar Account (NBK)		7,546	8,345
		28,340	54,648
Liabilities / Payables		68	200
Net Foreign currency liability		28,272	54,448

(b) Interest rate risk

Interest rate risk is the risk that the Authority's financial condition may be adversely affected as a result of changes in interest rate levels. The Authority's interest rate risk arises from fixed and security deposits. This exposes the Authority to cash flow interest rate risk.

Management of interest rate risk

To manage the interest rate risk, management has endeavoured to bank with institutions that offer favourable interest rates.

Sensitivity analysis

The Authority analyses its interest rate exposure on a dynamic basis by conducting a sensitivity analysis. The sensitivity analysis for interest rate risk assumes that all other variables, in particular foreign exchange rates, remain constant. The analysis has been performed on the same basis as the prior year.

Using the end of the year figures, the sensitivity analysis indicates the impact on the statement of financial performance if current floating interest rates increase/decrease by five percentage (5% as a decrease/increase of Kshs. 223,163,000 (2019: Kshs. 195,503,000).

(c) Price risk

The Authority does not hold investments that would be subject to price risk; hence this risk not relevant.

28. CONTINGENT LIABILITIES

These include:-

- An amount of Kshs. 2 million included in utility deposits representing a bank guarantee to Kenya Power and Lighting for Times Tower power supply.
- An amount of Kshs 1,297,759 representing a guarantee to Telkom Kenya Limited for supply of telephone facilities in the Times Tower building.
- Pending cases arising from Revenue and staff related matters. 39 undetermined cases have a specified claim amounting to Kshs 2,079 million while 14 cases have no specified quantum and will be determined by the Court after hearing. 5 cases amounting to Kshs 693 million have been concluded against the Authority and the National Treasury has been engaged to provide funds for settling the awards as they materialize.
