Policies formulated

Disciplinary Cases

2.6 Exercise of Disciplinary Control in the Public Service Section 59 Sub- Section 1 (c) of the County Governments Act, 2012, mandates the Board to exercise disciplinary control over, and remove, persons holding or acting in offices in public service. During the period under review, the Board received 5 discipline cases from departments, out of which one (1) case was finalized. The remaining four (4) disciplinary cases are awaiting Court verdicts

Industrial Relations

2.6 The Board has played its key role in enhancing good labor relations in the public service of Busia. In many instances, the Board has engaged the Trade Unions on specific issues. The Board has also continued to offer advisory to the Government on labour relations issues and labour disputes. In some other cases, the Board was expected to seek for a compromise between the parties involved, thereby organizing for meetings between the concerned parties. Reports were done and filed to the Industrial Court. Further, the Board was deeply involved in arbitration of labor disputes, which included the strike by the Health Workers on September 2016 and an imminent strike by the Doctors on October 2016. Various advisories were given to the Government on the nature of industrial relations in the County public service, and as well, on other areas that are geared

towards an improved and harmonious human resource management. These advisories were given through circulars, and as well, through meetings with respective officers in the public service.

The following are the labor cases that the Board has been fully involved:

(a) Industrial Court Case: Case 35 of 2016

This case involves the employees of the County Assembly who were to be seconded to the Executive Arm of the Government Vs the County Assembly, County Public Service Board. The matter is still in Court.

CHAPTER THREE: ACHIEVEMENTS AND CHALLENGES

Key achievements

3.1. The following are the key achievements of the Board for the Year ending December 2016:

- (a) formulation and implementation of—
 - (i) casual Staff Engagement Handbook;
 - (ii) discipline manual;
 - (iii) code of conduct and ethics for officers in the County Public Service and;
 - (iv) recruitment policy;
- (b) attainment of industrial harmony—the Board has participated in bringing industrial harmony, by engaging Unions' representatives, and in giving advisory to the Government on matters that could bring labor disputes. Despite the clerical nature of the work, the Board perused hundreds of personnel files, carefully studying each and every document in each of the files for purposes of ascertaining claims on overtime, leave and uniforms, merit for promoting discipline, etc;
- (c) recruitment of candidates for various positions—The Board successfully recruited and selected candidates to fill various positions advertised;
- (d) growth in the attainment of diversity in terms of gender, regional balancing and age;
- (e) putting controls on the recruitment of casual workers, an avenue that used to stretch the wage costs in the County;

Challenges

3.2. In the discharge of its mandate the Board continues to experience and/or has experienced a number of challenges and key among them are—

- (a) inadequate funding adversely affected implementation of planned HR development programmes and activities. The Board had budgeted for Kshs 168 million to fund its operations and various human resource development programmes but received only Kshs 60,437,732 forcing it to scale down and postpone many important Human Resource programmes which ultimately curtail service delivery to the public. The Board is forced to rely on individual Departments to fund some of its activities while the Departments have not budgeted for the same. The Board urges the County Executive and County Assembly to allocate more funding to the Board to facilitate HR development and performance management;
- (b) inadequate office accommodation for the Board and staff in the public service leading to unfavorable working conditions such as congestion, overstretched sanitation facilities and high cost of renting additional office space;
- (c) inadequate storage facilities for Board records, completed declaration of income, assets and liabilities forms and staff files. All interview records, applications, CVs and score sheets, e.t.c are to be stored for a period as legally prescribed, at the initial and after every two years and final declarations of income, assets and liabilities are made by all public officers. By law the forms are expected to be stored at the Board for the period one is in employment and 5 years after the employee exits the service subject to the Public Procurement and Assets Disposal Act on disposal of Government records. The forms, staff files, applications, interview records, etc. are accumulating and posing challenge of storage due to limited office space. The way forward is for digitization of some of the records and archiving electronically, but this requires funding;
- (d) accessibility of the offices for Persons Living with Disability is a challenge, as the Board offices are located on the second floor of Port Victoria Plaza, and there is no provision for accessibility by People Living With Disability;
- (e) industrial Conflict. During the year under review, there was a strained labour relation between county government and health sector unions concerning promotion of nurses and implementation of Doctors CBA of 2013;
- (f) the secondment of staff from the County Assembly to the County Executive was stopped by a case filed in court before completion of the exercise;
- (g) lack of a Negotiating Framework. Lack of a clear negotiating framework for addressing industrial disputes between County Government and employees has led to delays in resolving disputes between the Parties and subsequent signing of Collective Bargaining Agreement. The Board expects that the current discussions at Council of Governors level will soon find a solution to this matter as the issue is cross-cutting in all counties;
- (h) shortage of requisite numbers of professional staff experienced in management of Government at senior executive levels and technical staff such as engineers, architects, surveyors, advocates, doctors etc continue to be a challenge;
- (i) performance Management in the service is yet to be fully embraced. This can partly be attributed to negative performance management culture in the service and delayed design and implementation of a Performance Management Plan under Section 47 sub-section 1 and 2 of the County Governments Act with effective performance measurement tools to evaluate performance of the County Public service and implementation of various Government policies awaiting executive action vide section 47 sub-section 1 and 2 of the County Government Act;
- (j) schemes of Service: Gratuity and County Pension scheme. There is need to establish/update appropriate schemes of service and a Pension scheme. The Board had anticipated that the Pension Bill before the Senate would by now have been finalized and enacted into law as the issues of staff retirement benefits are critical and very important to employees and the economy as a whole. There is therefore need for a comprehensive legal framework to guide all Parties involved;
- (k) status of the Secretariat staff. The Board Secretariat has nine officers, who are deployed at the Board from various Departments. There is need to absorb the staff on a full time basis for stability in operations;

Way Forward

3.3. The Board is mandated to manage the human resource in the County Public Service and ensure that the service is efficient and effective. In order to achieve this, the Board will endeavor to transform the Public Service to be professional, ethical, efficient and effective in service delivery. In this regard, the Board will inter alia, focus on the following interventions—

- (a) development and Review of Human Resource Policies and Guidelines. The Board will continue to play its executive and advisory role by issuing human resource management policies, regulations and guidelines to the service to provide direction on managing the human resource function. Accordingly the Board will—
- (i) develop, review and consolidate all the Human Resource policies and guidelines among other initiatives and align them to the Constitution and other legislative framework;
 - (ii) undertake impact assessment on guidelines issued to the service;
- (b) discharge of delegated powers and functions. In order to ensure that the delegated powers and functions are effectively discharged, the Board will: develop and effect a delegation instrument and will continue to support the Authorized Officers in the implementation of the decentralization policy on human resource management in the service through regular consultation and sensitization programmes to all actors. Further, the Board will strengthen its capacity to undertake the oversight role of ensuring that delegated powers and functions are effectively discharged in line with existing laws, policies and legislation for effective service delivery. In this regard the Board will implement a monitoring and evaluation framework that will provide feedback on the implementation of the human resource functions in the public service;
- (c) performance Management is critical to productivity and socio-economic development of the county. To enhance productivity in the public service, the Board will—
- (i) continually review the organization structures of the Departments to ensure they are aligned to County Integrated Development Programme, Strategic Plans and their respective mandates and are adequately staffed for effective service delivery;
 - (ii) review the Staff Performance Appraisal System to ensure that it is objective and in line with the Performance Management Plan and sensitize staff and key actors on the revised system;
 - (iii) collaborating with County Government to introduce a rewards and sanction framework;
 - (iv) in collaboration with County Government develop and issue a competency framework and career progression guidelines that will ensure that advancement is pegged on performance;
 - (v) in order to ensure that the public service delivers prompt and quality service to the citizens the Board in collaboration with County Government will put in place strategies to ensure that Departments develop, launch, and review and comply with their respective citizen delivery service charters;
- (d) Promotion of Values and Principles in Articles 10 and 232 of the Constitution to enhance promotion and compliance with values and principles in Articles 10 and 232, the Board will develop appropriate strategies and programmes for promotion and compliance. Such strategies will include—
- (i) conducting a baseline survey on awareness and compliance;
 - (ii) developing and launching of a Code of Conduct for Public Service;
 - (iii) introduction of targets on promotion and compliance with public service values and principles in Department Performance Contracts;
 - (iv) build capacity for promotion and ensuring compliance with values and principles in compliance with Public Service (Values & Principles) Act, 2015;
 - (v) Establishment of a platform to engage citizens on service delivery;
 - (vi) Undertake annual citizens' satisfaction with the public service survey;
 - (vii) Address the concerns raised;
- (e) training Needs Analysis (TNA). The Board will in collaboration with County Government carry out a TNA in the departments so as to give necessary training to improve staff performance and delivery of service. The TNA exercise will take into account the report from Salaries and Remuneration Commission on job evaluation which is expected in early 2017 as per the Board's Performance Contract;
- (f) diversity in Recruitment. The Board intends to improve on its diversity by attracting candidates from various regions. Apart from advertising in the print media and uploading the adverts in the county website, the Board will develop networks within the County Public Service Board's Consultative Forum;
- (g) Engaging the Salaries and Remuneration Commission;
- (h) The Board will continually engage with Salaries and Remuneration Commission with a view to:
- (i) developing a comprehensive road map for establishment of a pension scheme for the County and transfer of services of seconded staff;
 - (ii) harmonization on matters relating to remuneration of officers in the public service of Busia;
 - (iii) follow up will be carried out in early 2017 on the results of the job evaluation exercise undertaken by SRC.
- (i) publishing the Human Resource Guidelines;
- (j) the Board intends to print the human resource guidelines and policies that have already been formulated, and the ones that will be formulated in 2017. These booklets will be printed in adequate numbers for issuance to officers in the service. The officers will therefore be cognizant of what is expected of them and their employer, and will know the procedures to be adopted in the public service on matters pertaining to handling of human resource issues. This too requires funding;
- (k) office space;

The Board requires additional office space to enhance storage of documents eg; Wealth Declarations, applications and CVs, Score sheets, staff files and other essential records are safely and properly kept. In addition with availability of funds electronic archiving of some records will be considered. This too requires funding.

CONCLUSION

The Board is committed to discharging its mandate and supporting the County Government in delivering professional, ethical and efficient services to the people of Busia through its employees. Every effort will continue to be made by the Board and its Secretariat to ensure that the public service is transformed to satisfy the expectations of the citizens who seek the services of the County Government of Busia. To achieve this, the Board will continue to seek for more funding and other forms of support so that programmes and activities that are geared towards transforming the County Public Service are facilitated and implemented effectively and efficiently. To this end, the Board will count on the continued support of the Executive as a critical partner in transforming the County Public Service.

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED MWACHE DAM AT FULUGANI AND MIYANI AREAS IN KWALE COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Ministry of Water and Irrigation is proposing to construct Mwache Dam at Fulugani and Miyani areas in Kwale County. The project will involve the dam construction, water related infrastructure (supply and sanitation in Kwale and Mombasa counties) and irrigation component (commencing with a 100 ha pilot).

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Mitigation Measures</i>
Sedimentation	<ul style="list-style-type: none"> Construction activities should take place during the dry conditions. Provide a soil trap downstream the dam site to intercept excessive silt during the construction. Provide sand check dams upstream of the dam and more specifically along Mwacheriver basin to intercept excessive silt from the catchment and effectively increase the capacity of the dam in the long term.
Water quality and water loss	<ul style="list-style-type: none"> All vegetation materials at the dam site shall be cleared and removed before the area is excavated and inundated. Indigenous trees and shrubs with low water dissipation capacity should be encouraged around the dam buffer zone to minimize loss of water through evapo-transpiration processes. Ensure enhanced monitoring maintenance of the transmission and distribution pipelines upon commissioning to ensure minimal loss of water through leakages. Introduce economic and financial initiatives towards water saving and responsible utilization at all consumer points.
Loss of species diversity	<ul style="list-style-type: none"> Develop a database of animal and plant species found in the dam area as a basis for conservation and monitoring of newly introduced species in the future. The role of the Kenya Wildlife Services (KWS), Kenya Marine and Fisheries Research Institute (KMFRRI) and the Kenya Forest Service (KFS) would be crucial in monitoring the new habitats in

Hydrology

the river basin and the Mwache Forest characteristics around the dam area.

- Ensure compliance with the water resources regulations at all times. At least 30% of the base flow should always flow in the stream to sustain ecological and social requirements downstream. The flow would be necessary for sustenance of Mwache Creek ecosystem.
- River gauging stations around the dam and upstream including the key tributaries may require to be reactivated (or installed where none exists) to monitor effects of the dam to the river basin over time as well as enable taking stock of water balances at any given time against the rainfall in the catchments.

Social

- Involvement of the residents through consultations and participation will be necessary to ensure acceptability and ownership of the project by all stakeholders, irrespective of the implications to the individuals.
- An all inclusive participatory Land Acquisition and Resettlement Action Plan (LAP and RAP) should be systematically conducted to establish who owns (interested parties and shareholders) what so as to determine the rightful owners who should benefit and the share each should receive.
- Preparation and inclusion of the affected persons into existing social associations of their choice in the “new” settlement alternatives through education, awareness creation and facilitation. There may be need to pay for disturbance costs to those affected.
- Provide appropriate alternative watering points for the communities and their animals for any facility disrupted.

Safety issues

- It will be necessary fence-up the dam and its buffer zone to isolate it from the public for their safety.
- Provide safe access points to the water for the local residents and their livestock to enhance their safety from drowning and potential attacks by wild animals.
- In order to ensure safety, there is need to fence the dam and educate the communities on co-existence with wildlife.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839–00200, Nairobi.
- Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126–00100, Nairobi.
- County Director of Environment, Kwale County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.
