The Proponent, National Irrigation Board is proposing the Model Farm at Galana - Kulalu in Tana River and Kilifi counties. It is to be implemented in three phases; a 10,000 acres Model Farm in the first phase which is to be developed into 100,000 acres pilot farm in the second phase, and later up-scaled to the larger 1.75 million acres Galana-Kulalu Food Security Project in the third phase. This is the first phase of the Galana-Kulalu Food Security Project; 10,000 acres Model Farm which is proposed to mirror the greater Galana-Kulalu Food Security Project. The Model Farm is located in Kilifi County within the land delineated as the Pilot Farm in the larger proposed Galana-Kulalu Food Security Project which is located in the existing Galana-Kulalu Ranches which are on Government (GOK) land.

The following are the anticipated impacts and proposed mitigation measures:

Impacts	Mitigation Measures
Workers' accidents	<ul style="list-style-type: none"> All workers will be sensitized before construction begins, on how to control accidents related to construction. A comprehensive contingency plan will be prepared before construction begins, on accident response. Accordingly, adherence to safety

Air pollution

procedures will be enforced.

- All workers to wear protective gear during construction, including helmets.
- Construction work should be limited to daytime only
- All personnel working on the project will be trained prior to starting construction on methods for minimizing air quality impacts during construction.
- Construction heavy earth moving vehicle drivers will be under strict instructions to minimize unnecessary trips, refill petrol fuel tanks in the afternoon and minimize idling of engines.

- Trucks used at construction site shall be routed away from noise sensitive areas where feasible.
- Idling time for pick-up trucks and other small equipment will be minimized to limited time.

- All workers operating in noisy areas or operating noisy equipment will be provided with earpieces to protect against extreme noise.
 - Comply with L.N. 25: Noise Prevention and Control Rules, 2005
- Generation of solid waste
- Wastes to be collected regularly to control air pollution and vermin/insects etc.
 - Receptacles will be provided for waste storage prior to collection.
 - Resource recovery will be encouraged once the project takes off so as to shrink waste stream and recover non-recyclables.
 - Refuse collection vehicles will be covered to prevent scatter of wastes by wind.
 - Wastes will be collected by a licensed operator to avoid illegal final dumping at unauthorized sites.
 - All persons involved in refuse collection shall be in full protective attire.
- Pollution from hazardous waste
- Handling of the materials using the material safety data provided by the manufacturers.
 - Appoint a safety officer to ensure that proper disposal guideline are observed.
 - In case of spillage emergency spillage control measures to be instituted.
 - Containerization of any wastes and disposal through a licensed waste handler.
