THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED ECOTOURISM CAMPSITE &
HEADQUARTERS FOR NARUPA COMMUNITY WILDLIFE
CONSERVANCY, ISIOLO COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Narupa Community Wildlife Conservancy) is proposing to put up the Headquarters and a Campsite within a 10 acre plot located within Narasha and Rumate areas of the conservancy. The Headquarters will comprise of a meeting hall with two offices on the

sides, reception/radio room, sanitation and water storage tanks, and parking area; while the Camp will include tourism accommodation facilities, a dining room, staff quarters, a parking lot and other supporting amenities such as a sanitation system. Water supply for the campsite and company headquarters will be supplied from outside the sites using water boozers and stored in water tanks to be installed at the sites.

The following are the anticipated impacts and proposed mitigation measures:

Environmental Impact Mitigation Measures

- | | |
|------------------------|--|
| Hydrology and drainage | <ul style="list-style-type: none"> • All new vehicle tracks should have provision for side drains, mitre drains and culverts. • The drains must lead to the safest point of discharge and maintained regularly. |
| Soil Erosion | <ul style="list-style-type: none"> • Minimal bush clearing should be undertaken in designated sites. • Excavations to be confined within the construction sites. • Excavated earth should be held away from locations susceptible to surface runoff of storm water. • Re-vegetate exposed areas to mitigate further erosion of soil. |
| Water resources | <ul style="list-style-type: none"> • Rainwater harvesting should be undertaken during wet seasons. • Recycle of water and sensitize visitors and staff on minimizing water usage. • Use water conservation signs at the washrooms and install water conservation taps. |
| Noise and vibrations | <ul style="list-style-type: none"> • Contractors to use the best operating equipment to minimise noise during construction. • Guests must be advised to keep noise levels down, especially when watching game. • Playing radios, ghetto-blasters and vehicle hooting must be prohibited. • Driver guides should adhere to Kenya Association of Tour Operators codes of ethics during game drives. • During construction, workers should be provided with noise protective equipment. • The back-up power generator if required should be installed in acoustically designed structures. |
| Air quality | <ul style="list-style-type: none"> • Any stockpiles of earth should be enclosed/covered/watered to reduce dust emissions. • Construction trucks delivering cement during construction should be covered during transportation. • Sprinkle the construction area with water to keep dust levels down. • Provide personal protective equipment (PPE) to all personnel during construction. • Maintain all machinery and equipment to minimize emissions of carbon monoxide, NO_x, and SO_x. • Use low sulphur fuels for the back-up power generators • No burning of waste materials should be done during construction and operation. • All refrigerators and freezers in the Campsite should use coolants that are free of ozone depleting substances. |
| Solid waste | <ul style="list-style-type: none"> • Follow NEMA regulations on solid |

	<p>wastes management.</p> <ul style="list-style-type: none">• Ensure contracted garbage handlers are registered with NEMA.• All construction debris and solid waste generated by the workforce must be taken out of the Conservancy• The “3Rs” philosophy of reuse, recycle and reduce should be adopted in solid waste management at the sites• Install solid waste bins at the sites which should be covered to minimize wildlife attractions• Staff should be trained as to what types of waste should be put into solid waste bins.• Hazardous and non-hazardous wastes should be stored separately.• A specific and secure area should be allocated for the segregation and storage of garbage before disposal.	<p>vehicles do not go off the roads and tracks during game watching.</p> <ul style="list-style-type: none">• No non-exotic plant species should be planted at the sites.• If firewood is to be used, then it must be ensured that the source of wood is sustainable.• Good site practices can serve to minimize energy consumption, for example, turning off lights and electrical equipment when leaving tents, using LED bulbs.
	<p>Energy/water conservation</p>	<p>The full report of the proposed project is available for inspection during working hours at:</p> <p>(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839–00200, Nairobi.</p> <p>(b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.</p> <p>(c) County Director of Environment, Isiolo County.</p> <p>The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.</p> <p>ROBERT ORINA, for Director-General, National Environment Management Authority.</p> <p>MR/2836525</p>
Liquid waste	<ul style="list-style-type: none">• The drains from kitchens should have sumps to prevent grease from entering the environment.• Foul water should be disposed of through via a “roto” plastic septic tank.• The sludge should be frequently treated with bio-augmentation products to facilitate the breakdown.• The reservoir water tanks should be designed and built according to recognised industry standards.• Use of corrosion protection in water tanks and piping system.• The water tanks should undergo periodic inspection for corrosion and structural integrity.• LPG cylinders should be stored erect in bays, and secured at all times.	
Construction and borrow materials	<ul style="list-style-type: none">• No hardwood should be used in the Campsite for construction or for furniture.• No hazardous materials such as leaded paint should be used	
Workers’ health, safety and awareness	<ul style="list-style-type: none">• Workers should be provided with suitable personal protective gear during construction.• A fully equipped first aid kit should be provided at the site.• Sensitize resident communities/workers on environmental management.• Workers and staff should be sensitized on occupational health and safety and first aid administration.• The Proponent should ensure adequate security to construction workers during the construction period.	
Wildlife/fauna	<ul style="list-style-type: none">• Care must be taken during clearing activities not to disturb any nesting sites, burrows or dens.• Limit numbers of tourists/vehicles entering specific areas, as per the conservancy Management Plan.	
Vegetation/flora	<ul style="list-style-type: none">• Minimize vegetation clearing and only target the construction areas within the sites.• Under no circumstances should trees be felled.• Campsite Management must ensure that	

	<ul style="list-style-type: none"> avoid siltation and wash offs. • Compact loose soils. • Landscaping. • Ensure management of excavation activities. • Control activities especially during rainy conditions. • Provide soil erosion control and conservation structures where necessary. • Proper disposal of excavated loose soil (sandy loamy soils). 				<ul style="list-style-type: none"> Aid administration. • Train staff on LPG handling. • Sensitise workers on HIV and AIDS. • Landscaping and planting all disturbed areas. • Planting flowers / grassing should be done just before the rains or irrigated on dry spells.
Air pollution through dust and gaseous emissions	<ul style="list-style-type: none"> • Prohibit idling of vehicles. • Water should be sprayed during the construction phase of excavated areas. • Regular maintenance of construction plant and equipment. • Engage sensitive construction workers. • Proper use of PPEs. 		Vegetation		
Noise pollution	<ul style="list-style-type: none"> • Maintain plant equipment (if present/used). • Construction activities to be restricted to daytime. • Workers in the vicinity of or involved in high-level noise to wear respective safety & protective gear i.e. earplugs & earmuffs. 		Fire Safety Training/ Emergency response procedures (ERPS)		<ul style="list-style-type: none"> • Construct firewalls where safety distances have been compromised. • To enhance health and safety preparedness among stakeholders. • Ensure equipment is in good working condition. • Put up emergency response contacts. • Put up ERP notification instructions. • Put up simple instructions on how to handle fires, product spills, LPG incidents, armed robbery and product contaminations.
Oil pollution	<ul style="list-style-type: none"> • Appropriate selection of machinery. • Proper storage, handling and disposal of new oil and used oil and related wastes • Maintain plant and equipment to avoid leaks • Provide oil interceptors along the drains leading from LPG filling area 		Record keeping		<ul style="list-style-type: none"> • Collection and analysis of relevant environmental data at the site. • Data of maintenance of firefighting equipment. • Monthly product reconciliation (stock loss control). • Staff Training records. • Incidents and accidents registers. • Weekly inspection records of oil water interceptor and drainage systems.
Water resource	<ul style="list-style-type: none"> • Management of water usage. • Recycling of water at the construction phase where possible. • Use of water conservation signs at the washrooms and install water conserving taps. 		Internal audits		<ul style="list-style-type: none"> • Monitoring will involve measurements, observations, evaluations, assessment of changes in water quality, waste management, Noise levels, contractor safety etc
Contractors lay down area	<ul style="list-style-type: none"> • Special attention should be paid to the sanitary facilities on site especially disposal of human waste. • Garbage should be disposed off in accordance with the County Council of Kilifi requirements. 		Fire outbreak		<ul style="list-style-type: none"> • Install an underground tank of 100,000 litres capacity. • Install fire-fighting equipment as provided by local authority's fire department. • Install an automated fire fighting system. • Sensitize the residents on fire risks i.e. conduct regular fire drills. • Adopt effective emergency response plans. • Provide emergency numbers at strategic points.
Road safety	<ul style="list-style-type: none"> • Enforce speed limits for construction vehicles especially along road links leading to the site. • Provide bill boards at the site/entrance to notify motorists/pedestrians about the development. 		Water quality/waste management		<ul style="list-style-type: none"> • Follow NEMA regulations. Ensure registration of contracted garbage handlers with NEMA for compliance with the prevailing regulations.

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Dr Thuo Mathenge intends to install three underground storage tanks of the capacity of 40,000litres, 20,000litres and 10,000 for Unleaded Super, Diesel and Kerosene respectively, a fully automated filling system, loading and offloading area, Office block and fire fighting system and other associated civil and electrical works. There will also be dispensing pumps, car wash, tyre centre, shops and stores, an ablution block, acceleration and deceleration lanes and other associated civil and electrical works.

The following is a summary of the anticipated impacts and the proposed mitigation measures:

Possible Impacts	Proposed Mitigation Measures
Loss of Biodiversity and soil erosion	<ul style="list-style-type: none"> Minimize disturbance to the adjacent areas Apply soil erosion control measures and carryout landscaping
Air and noise pollution	<ul style="list-style-type: none"> Ensure that noisy machineries are insulated/temporary fenced. Ensure strict enforcement of on-site speed limits Avoid excavation works in dry weather and sprinkle water to reduce dust. Restrict construction activities to day time only.
Waste Management	<ul style="list-style-type: none"> Contract a licensed waste collection and disposal company Segregate, separate and re-use construction wastes. Connect to a proper septic system and internal sewer network Provide an efficient drainage system and oil interceptor Fit hoses with improved nozzle to minimize fuel spills
Traffic	<ul style="list-style-type: none"> Provide acceleration and deceleration lanes Provide proper warning signs
Fire safety	<ul style="list-style-type: none"> Install proper fire fighting equipments and sensitize workers on fire safety. Avoid storage of flammable materials near possible fire source
Occupational health and safety, security	<ul style="list-style-type: none"> Hazardous areas should be secured and all workers should be provided with PPEs and their use enforced; All workers should be trained in fire

response and basic first aid procedures;

- Provide first-aid facilities;
- Hazardous areas should be well secured.
- Ensure that all workers have insurance covers.
- All lifting equipments should be inspected and well maintained.
- Use stable and safe ladders/scaffolds & display safety signs on site.
- Harvest rain water & reuse water where possible.
- Install water conserving taps and energy conserving lighting system.
- Raise awareness on water and energy conservations
- All building, equipments, structures and partitions that will not be used for other purposes must be removed and recycled/reused as far as possible.
- All foundations must be removed and recycled, reused or disposed of at a licensed disposal site.
- Where recycling/reuse of the equipments, implements, structures, partitions and other demolition waste is not possible; the materials should taken to a licensed waste disposal site.
- Donate reusable demolition waste to charitable organizations, individuals and institutions

Water & energy use

Decommissioning impacts

DISTRICT, ELGEYO MARAKWET COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed petrol service station at plot No. Elgeyo Marakwet/Iten Township/53, Iten township along D329 Iten-Kapsowar road, Keiyo District, Elgeyo Marakwet County.

The Proponent (Edward Peter Kipyator) of the proposed project is proposing to construct a petrol service station on plot No. 53 in Iten

Township. The service station will consist of four units i) the fuel pumps units; ii) a unit for the manager's office, a store and auto spares shop; and iii) a service bay unit; iv) a unit that will house a hardware, a supermarket and office units.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Maintain the occupational health of the construction workers	<ul style="list-style-type: none"> • Provide toilets for the workers which should be kept clean at all times. • Provide clean water at the construction site for use by the workers. • Hire only licensed construction workers on the site • Workers to undergo medical check-ups.
Reduce dust pollution	<ul style="list-style-type: none"> • Provide dust masks and noise mufflers to workers in the course of their daily construction activities with priority being given to those most exposed to loud noise levels. • Sprinkle water when the surfaces are dry and likely to be blown by wind.
Solid waste management	<ul style="list-style-type: none"> • Install litter bins as per design. • Hiring licensed solid waste collector to dispose waste collected to designated dumpsites.
Reduce nuisance such as noise and dust to neighbouring publics and passersby and traffic obstruction	<ul style="list-style-type: none"> • Erect temporary hoarding of a height of not less than 6 metres all around the site in accordance with the Council by laws. • Erect on entrance gate and have it manned all the time. • Sprinkle water on loose soil to prevent it from being blown away. • Use heavy excavation machinery after working hours. • Do not leave construction materials during off peak hours.
Reduce possible resident/construction members conflict	<ul style="list-style-type: none"> • Make provision for site lunches and snacks to workers to avoid loitering around the project area.
Reduce accidents among construction workers	<ul style="list-style-type: none"> • Contracting qualified and experienced builders. • Providing written instructions on how to respond during accidents. • Provide a list of contact persons and hospitals to be contacted during accidents.
Complete all construction work as approved	<ul style="list-style-type: none"> • All works is to be done as shown in the architectural plans and civil/engineering drawings. • Certifications of compliance and occupation to be issued as defined by the law.
Fire risk and control	<ul style="list-style-type: none"> • Avoid naked fires (post visible notices to prohibit smoking within the station). • Install fire control appliances (portable fire extinguisher; both CO₂ and water type, and sand buckets) and employees be adequately instructed in the use of the various fire appliances.

The full report of the proposed project is available for inspection during working hours at:

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Sea Palace Limited) is proposing to establish apartments in two (2) blocks comprising of eight floors, each proposed block will accommodate sixteen (16) three-bedroom en-suite, a total of thirty-two (32) residential units.

The following are the anticipated impacts and proposed mitigation measures:

Environmental Impact	Mitigation Measures
Destruction of biodiversity	<ul style="list-style-type: none"> • Construction activities should be controlled to minimize the damage. • Use friendly technology both in the construction and operational phases of the project. • Revegetation and landscaping. • Support conservation efforts of the remaining natural vegetation (Mangrove forest) in the upper Tudor Creek area.
Damage to soil texture	<ul style="list-style-type: none"> • Ensure that all scooped areas are landscaped to take the flow of previous natural land form.
Contamination of water resources	<ul style="list-style-type: none"> • Proper waste management tools to be employed during construction and operational phases of the project.
Damage to the access network	<ul style="list-style-type: none"> • Raw materials transport lorries to use designated access roads when going to collect the materials to the sites. • Access road maintenance shall be an ongoing concern.
Occupational health and safety	<ul style="list-style-type: none"> • Post warning signs near loading points. • Contactor to wear personal protective equipment like nose masks and goggles where appropriate. • Workers who are exposed to noise should work in shifts of 6 hours each to limit duration of exposure. • A well equipped first aid kit must be kept at loading site with a designated First Aid trained person. • The area should be guarded, fenced and warning signs erected.
Noise pollution	<ul style="list-style-type: none"> • All Lorries transporting materials shall switch off engines while at the site. • Hours of transporting material to site is shall be 6:00 AM to 6:00 PM. • Material transport vehicles shall be well maintained so as not to emit excessive noise.

- Increased waste generation
- All construction works to be carried out during the day.
 - Recycle and reuse waste including water.
 - Exercising appropriate waste handling and good housekeeping practices and procedures.

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed upgrading of Garsen - Witu- Lamu - Kiunga Road project (C112/D568/E865).

The Proponent (Kenya National Highways Authority) is proposing to upgrade to Bitumen standard the Garsen - Witu- Lamu - Kiunga Road project (C112/D568/E865).

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Vegetation, ecosystem integrity and wildlife management	<ul style="list-style-type: none"> • Comply with all directives and rules to protect flora, fauna and habitats. • Develop baseline flora and fauna index. • Replant any scarred areas with vegetation which closely resemble the type in the area unless special provisions permit otherwise. • Eliminate by appropriate and environmentally friendly means any invasive species. • Encourage the development of helpful natural habitats; and • Encourage the use of cleaner fuels at camps instead of charcoal and wood fuel.
Air, noise and vibrations management	<ul style="list-style-type: none"> • All construction activities to be limited to between 7am to 6pm. • All equipment used to be maintained to manufacturers specifications to ensure efficient operation. • Use of personnel protective equipment (PPE) by operations staff.

Aquatic resources and water quality

Land contamination, erosion and materials management

Waste management

- Use environmentally friendly fuels.
- Minimise the period for machinery idling.
- Pursue good practices in energy use during operations and sensitise staff.
- Dampen using water work areas materials heaps and mulch bare ground to minimise dust emissions.
- Provide appropriate and adequate drainage infrastructure where required.
- Ensure machinery is regularly serviced to avoid leakages and / or spillages.
- Provide clean, neat and sanitized accommodation for labour.
- Dispose of all waste and refuse following laid down rules.
- Oils, fuels and other materials to be stored in accordance with the manufacturers' safety data sheets (MSDS).
- Train staff on spill response. and
- Implement erosion and sedimentation controls.
- Proper handling of liquid waste.
- Develop an erosion and sediment control plan prior to commencement of works.
- Provide for proper storage facilities in camps, workshops and other work areas and follow proper procedures for chemical handling and dispensing.
- Provide for run-off and tidal overflow diversions as appropriate.
- Maintain as much vegetation as may be practical at work sites and cover exposed areas with mulch to minimise erosion.
- Mark out stock pile areas and provide for appropriate measures.
- Commence landscaping as soon as practical.
- Closely manage materials loading, transportation and offloading. and
- Minimise dust emissions at crush plants and related facilities.
- All wastes shall be contained on site prior to disposal using appropriate storage containers.
- Consider recycling as an option in waste management hence always test alternative uses.
- All wastes shall be regularly cleared from the site and disposed of in approved manner.
- Disclose to the community the design and what it aspires to achieve.
- Provide for traffic control and construction signs.
- Provide for restrictions signs, fences around materials sites and install temporary traffic control devices.
- Provide appropriate personnel protective equipment (PPE) to workers and any visitors.
- HIV/AIDS campaigns to sensitise people about the scourge. and
- Develop and implement a detailed site specific Emergency Response Plans.

- Archaeology
- Liaise with the Department of Coastal Archaeology (National Museum of Kenya) to establish site of archaeological significance.
 - Liaise with the local communities to establish areas of cultural and religious significances (including shrines, graves and established villages).
 - Map out all areas of archaeological and cultural importance and realign the road off these locations.
 - Engage the communities and the Department Coastal Archaeology in consultations. and
 - In the event that a find is struck, liaise with the Coastal Archaeology to establish its status.
- Fire management
- Locate camps, workshops and garage facilities in areas less prone to fires.
 - Provide fire breaks at camps, workshops and where equipment are temporarily parked.
 - Liaise with the local communities in fire incidence management and abatement.
 - Carry out rehabilitation to avoid long term resultant damage including erosion.
 - Routinely remove materials that could feed fires along the Road Project. and
 - Upgrade fire preparedness and plan at fuel and chemical storage areas.
- Air and water quality
- Encourage the use of cleaner fuels and phase out of leaded fuels.
 - Encourage proper maintenance of motor vehicles and provision of legal clauses to punish offenders.
 - Monitoring of air quality along the Road Project and key centres.
 - Carry out regular surface and groundwater monitoring and analysis.
 - Make physical checks on water sources during scouting and note physical indicative parameters. and
 - Maintain the road drainage system to ensure that the intrusion of storm water in community water pans and rivers is eliminated.
- Surveillance and development control
- Maintain road reserve markings.
 - Clear road reserves of vegetation and temporary structures.
 - Maintain road reserves by regular landscape provisions.
 - Educate the residents and local administration on laws and regulations governing road reserves. and
 - In liaison with Physical Planner update all physical plans and maps accordingly.
- Institutional strengthening and training
- Training courses & audiovisual aids.
 - Campaigns to sensitise communities on key issues such as road safety, job announcement, routes closure and HIV/AIDS awareness.
 - Promote equal opportunities for all groups and beneficiaries.
 - Input of long term technical assistance & training experts in the fields of road management, ii road maintenance.
 - Supervision and guidance of the Project by a joint supervision team.

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED UPGRADING OF OYUGIS – RODI KOPANY - KARUNGU (C 18) ROAD TO BITUMEN STANDARDS

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed upgrading of Oyugis – Rodi Kopany - Karungu (C 18) road to bitumen standards.

The Proponent (Kenya National Highways Authority) of the proposed project is proposing to upgrade Oyugis – Rodi Kopany - Karungu (C 18) road to bitumen standards.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Public anxiety	<ul style="list-style-type: none"> • Free flow of information has been achieved through public barazas to inform public about project.
Fire hazards associated with fuel storage	<ul style="list-style-type: none"> • Deploy qualified supervisors, good warehousing practices, install fire warning signs, fire prevention measures backed by fire fighting equipment and drilled personnel.
Possible proliferation of social vices	<ul style="list-style-type: none"> • Local recruitment where possible. • Enhanced sensitisation programmes
Trampling, dust and noise disturbance along transit route	<ul style="list-style-type: none"> • Programmed activity to reduce pressure
Damage to existing bitumen roads due to high axle load weight	<ul style="list-style-type: none"> • Delivery trucks should stick to specified axle load weights
Land degradation through creation of quarry spoils	<ul style="list-style-type: none"> • Rehabilitation of all quarry spoils • All blasting to adhere to requirements of Cap 115 and its Legal Notices (Blasting , Explosives Rules)
OH Hazards e.g. drowning, attack by wildlife etc.	<ul style="list-style-type: none"> • Occupational Safety and Health Act, 2007 to be applied and supervised. Contractor to install safety devices especially for river crossing during construction. All workers to be covered under the Workman's Compensation Act.
Possible accumulation of solid waste	<ul style="list-style-type: none"> • All solid waste generated to be corrected and disposed appropriately. No wastes to be discarded locally. • All waste spares and oils to be stored and disposed as per LN. 121 of EMCA

- (September 2006).
- Displacement of settlements through Land acquisition for road construction
- All PAPs to be adequately compensated before ground breaking.
- Potential for increased crime given ability to quickly cross over the river
- The same roads will improve service delivery including crime prevention and control.
 - Installation and use of relevant road safety signs, construction of road bumps, and road safety awareness program.
 - Use alternative materials that will deter theft of signage
 - Quality control in design and construction works. Routine maintenance
- Erosion along cut and fill areas
- Stabilisation of all Cut and Fill areas with grass cured to

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED CONSTRUCTION OF A PETROL STATION ON PLOT L.R. NO. MN/1/9647 SHANZU, OFF MOMBASA- MALINDI HIGHWAY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Gulf Energy Limited) intends to construct a petrol station with underground fuel tanks, three pump isles with electronic fuel dispensers, a steel canopy, a kerosene shade, a shop, a restaurant, two stores, a kitchen, sanitary facilities, oil water interceptor tank and stabilizing tank, associated civil and piping works.

The following are the anticipated impacts and proposed mitigation measures:

Environmental Impacts Mitigation Measures

- Noise
- Barricading the area (erecting a boundary wall).
 - Construction activities to be conducted during the day.
 - Provision of appropriate Personal Protective equipment to protect workers from occupational noise.
 - Regular maintenance of plant and equipment.

- Shutting down of engines of vehicles when not in use
 - Conducting noise mapping within and outside the workplace to establish noise levels and instituting appropriate mitigation measures.
- Air pollution
- Use of dump method to mitigate on dust by sprinkling water on areas to be excavated.
 - Soil compaction.
- Pressure on existing Infrastructure (roads, power, water etc.)
- Erection of warning and informative signs i.e. notices and billboards at the site during the construction phase and traffic control along the connecting road.
- Increased wastes (liquid and solid)
- Proper designing of drainage channels and regular maintenance of the same.
- Contamination of the ground
- Maintenance should be carried out at designated service bays to avoid contamination of environment by resultant oil and greases.
- Oil leaks and spills
- Regular inspection of underground tanks for leakages.
 - Construction of a three pit oil interceptor tanks to separate oil from sludge.
 - Double-walling of underground tanks to guard against leaks.
 - Protecting the underground tanks with corrosion prevention materials.
 - Prioritizing the upgrade of equipment and installation of existing facilities of a network after a defined age.
 - Careful citing of the project to ensure that it lies in an environment that is far from environmental receptors including sewers, tunnels, vaults, surface water reservoirs etc.
- Destruction of soil structure
- Ensure use of manual labor and hand tools where appropriate.
 - Ensure the contractor takes the shortest time possible.
- Soil and ground water contamination
- Regular hydraulic pressure testing of the underground tanks.
 - Non destructive testing, for example, ultrasound testing.
- Fire/explosion
- The facility shall be kept clean and free from fire hazards and litter.
 - Avoid naked fires (prohibit smoking within the station).
 - Electrical installations shall be carried out by competent and licensed electricians.
 - Install firefighting equipment (fire extinguisher; CO₂, dry powder and water type, and sand buckets etc.
 - Employees shall be adequately instructed periodically in the use of the various firefighting equipment and techniques.
 - Conduct regular drills at least once a year.
 - Institute a repair and maintenance program for all equipment.
 - Install leakage detection mechanisms.
 - LPG gas cylinders (if any) shall be kept in an open area (not inside a building).
 - Conduct daily leakage checks.

- Observe safety measures e.g. use of mobile phones, lighting etc.
- Full compliance with Fire Risk Reduction Rules, 2007.

Contaminated waste
water and storm water

- Minimization of volume of storm water generated from vehicle fueling stations and AST containment areas through installation of roofs or other types of covers.
- Implementation of secondary containment procedures that avoid accidental or intentional releases of contaminated containment fluids.
- Segregation of clean drainage and potentially contaminated drainage, treating the latter through oil/water separators.
- Oil water separators may include baffle type or coalescing plate type.
- Oil separators shall be properly designed, operated, and maintained to achieve the desired water treatment results.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
