### NOTES.

On Monday May 25th the new Fourth Order Dioptric single flashing Light at Ras Seraui was worked for the first time, Sir Charles Eliot and Mrs. Pidcock performing the inauguration ceremony. The light, which is visible for 15 miles, gives a flash of  $\frac{1}{10}$  of a second every five seconds, rapidity of revolution being obtained by floating the apparatus in mercury and thus avoiding almost all friction. It will be a great addition to the advantages of Mombasa harbour and will practically obviate all danger of ships missing the port in the night and having to return over their previous course.

— : o : —

The following report on a sample of fibre from Tanaland, sent home by Messrs. Smith Mackenzie at the request of H. M. Commissioner has been received from Messrs. Gray Dawes & Co., London :

"Referring to the sample of Fibre sent with your letter No. G03/24 of 19th March, our Brokers report that this is a useful material. It is quite clean, but the colour should be white not yellow. Also more care is desirable in preparing it, i.e. :—it should be kept straight and free from tangle. The length and strength are moderate, and present value would be about £ 22 to £25 per ton."

# Reuter's Telegrams.

MAY 15TH.—It is stated in Brussels that an arrangement has been concluded whereby Great Britain reoccupies Lado and King Leopold renounces all claims to acquire or reoccupy land on the banks of the Nile receiving in compensation for this a part of the Bahr-el-Ghazal. Thus the Nile becomes wholly Anglo-Egyptian.

During a discussion in the House of Commons on the Naval Estimates, Sir Charles Dilke urged the Government to cultivate in every way possible friendship between France and Great Britain and to utilise this friendship to obtain an agreement between France, Russia, and Great Britain with a view to reduce Naval armaments. Replying Mr. Arnold Forster said that the Admiralty must deal with facts as they are, and not as they might be, that all the Powers were increasing their activity with regard to armaments, and notably that Power from whom the suggestion of a reduction had originally emanated, and that the Admiralty were only fulfilling their plain duty in preparing for any emergency.

MAY 16TH.—The following is the result of the Preston Election:—

Kerr, Unionist	8,639	Votes
Hodge, Labour	6,490	„

Another Military convoy has been attacked near Duvevier on the Southern Franco-Moorish Frontier, forty seven camels were captured.

The strike at Melbourne is at an end, the strikers having submitted unconditionally.

The Bulgarian Government have addressed a Note to their representatives abroad requesting them to call the attention of the Powers to the excesses being perpetrated by the Turks in Macedonia. These excesses render useless Bulgaria's efforts to restrain the Macedonians.

MAY 18TH.—Mr. Chamberlain speaking at Birmingham strongly condemned the interpretation of free trade which prevented Great Britain from favouring her Colonies or retaliating against other countries that penalized the Colonies for favouring Great Britain. He hinted that the consolidation of the Empire by relations of interest would be the main issue at the next General Election.

The Moorish troops sent to Tetuan on board a British steamer have entered the town unopposed to the great joy of the inhabitants and to the utter demoralization of the Rebels who have suffered very heavy losses. The garrison will now be able to assume the offensive.

Some Turkish troops advancing to Ireek, the Albanian stronghold, were attacked by Albanians many being killed and wounded on both sides. The inhabitants of Ireek themselves have submitted to the troops but numbers of Albanians still hold the mountains.

Anticlerical demonstrations were held in Paris and in the Provinces yesterday generally near the Churches. These demonstrations led to free fights and a number of persons were injured, mostly Free-thinkers.

The Melbourne Strikers being dissatisfied with the stringent conditions laid down by Government which will prevent the most prominent strikers from returning to work, intend holding a meeting to-day to decide whether or not to resume work.

MAY 19TH.—Mr. Chamberlain's speech apparently took the London papers by surprise and articles on Saturday were written in a studiously non-committal tone. All the "Dailies" yesterday had fresh articles; the "Morning Post," the "Telegraph" and the "Times" heartily supported the modifications in the fiscal policy while the "Daily News" and the "Chronicle" vigorously condemned the proposed change. The "Standard" is silent.

Mr. Brodrick stated in the House of Commons that owing to transport difficulties the Government has ordered General Manning to concentrate all troops at Bohotle which place forms a more favourable base for our co-operation with the Abyssinians.

The Melbourne Strikers have resolved to resume work.

MAY 20TH.—The draft of the Municipal Ordinance for submission to the Transvaal Legislative Council grants municipal franchise to educated and socially qualified coloured persons (this will affect about 250 in Johannesburg alone).

Lord Milner in addressing a Congress of Transvaal Municipal Delegates at Pretoria appealed for more liberal treatment to educated coloured persons. He sympathized himself he said with the feeling against the indiscriminate influx of Asiatics as traders and settlers, but thought that the opposition to such a course should be based on sound social and economic reasons and not on a question of colour. He protested strongly against the blind hostility shown to coloured people which went so far as to deny to educated and civilised Asiatics already living in South Africa not only political rights but other privileges which were given to white men.

It is officially announced that Lord Onslow has been appointed Minister for Agriculture in succession to the late Mr. Hanbury.

Bogdanovitch the Governor of Ufa has been assassinated. This is another symptom showing the seething unrest at present rampant in Russia.

The Tsar has dismissed the Governor of Kischineff for failing to check an anti-semitic outbreak there when a hundred Jews were killed.

MAY 21ST.—Lord Rosebery speaking at Burnley questioned the possibility of presenting a practicable scheme of preferential tariffs which would really bind the Empire closer together and he also doubted whether the advantages would counterbalance the detrimental effects such a scheme would have on our foreign trade and on our foreign relations, that however pending details of Mr. Chamberlain's policy he would preserve an open mind and that he did not regard free trade as a "divine dispensation."

The new Bulgarian Cabinet is composed of members who hold sentiments of a more friendly nature to Turkey and their policy is likely to be less subservient to Russia than that of their predecessors.

The assassins of Bagdanovitch escaped by threatening their pursuers with revolvers. The crime occurred in a park crowded by people.

MAY 22<sup>ND</sup>.—After an animated debate, the French Chamber has approved of the Government policy in regard to Ecclesiastical matters by 313 votes to 237 votes.

Mr. Samuel moved in the House of Commons that the Congo State having guaranteed that the natives should be governed humanely and that no trading monopoly should be permitted requested His Majesty's Government to confer with the signatories of the Berlin Act with a view to taking measures to abate the evils prevalent in the Congo. After a long debate wherein no member defended the Congo Administration and when the gravest statements were made regarding the atrocities there and ruin to British trade, the Government accepted the motion.

Mr. Brodriek stated in the House of Commons that there were 35,500 troops in South Africa and that this total was 4,000 in excess of what was required and that the extra number would be gradually withdrawn.

The "Westminster Gazette" in an authoritative statement declares that the interpretation placed on Lord Rosebery's extraordinary speech as supporting Mr. Chamberlain in his Zollverein policy is incorrect, that his Lordship adheres to his former statements that the Liberals are bound to Free Trade and that anything in the nature of an Imperial Commercial League would weaken the Empire and would excite permanent hostility in the world against her.

MAY 23<sup>RD</sup>.—Lord Spencer speaking at the National Liberal Club urged all Liberals to unite and oppose this scheme for preferential duties. He said that the Liberals wished to treat the Colonies fairly, but that they must not neglect the great interests at home.

Mr. Asquith speaking at Doncaster regarding Mr. Chamberlain's proposals said that this was the first shot in the campaign, that the proposals would be received with undivided hostility by the Liberal party, that their adoption in his opinion would further handicap British competition and lead to war and reprisals throughout the world.

Over 200 Bulgarian Officers have recently crossed the Macedonian Frontier, Commanding bands aggregating 2,600; same are destined to operate in the various districts.

The House of Commons read for the second time the bill providing pensions for the aged and deserving poor through the existing Poor Law Administration. Mr. Long on behalf of the Government assented to the principles of the Bill, but declined to promise further support. Mr. Chamberlain said the Government must know how the money is to be obtained before adopting a scheme of old age pensions. He said that he did not consider it impossible to find the funds, though no doubt to do so would necessitate a general review of our fiscal system, this as he had already indicated he considered necessary and desirable, and hoped that the question would be gone into at an early date.

MAY 25<sup>TH</sup>.—Great sensation has been caused owing to serious outbreaks of typhoid at Purfleet and Manchester. The epidemic has been traced to disused army blankets sold by the authorities in South Africa shipped to England and resold throughout the country. The authorities have already seized thirty thousand blankets in stores and warehouses in Whitechapel and quantities have also been traced to various other big towns. These have all been destroyed as the bulk were found infected and many in a most filthy condition.

Lord Milner denies the report about his quitting South Africa to take up a position in India, Canada or elsewhere, he intends taking a holiday but will return to South Africa.

Mr. Chamberlain's brief but significant statement of the 23<sup>rd</sup> inst. has given rise to great discussion and is generally regarded as a definite affirmation of the principles apparently only tentatively advanced at Birmingham on the 15<sup>th</sup>.

MAY 26<sup>TH</sup>.—Max O'Rell is dead.

Yesterday the Motor race between Paris and Madrid started. During the journey Paris to Bordeaux one French, one English competitor and 3 Chauffeurs were killed, two French competitors and two Chauffeurs were severely injured while another Englishman is dying. Eight persons were overrun four of whom are dead. The French Government have stopped the race so far as the French Territory is concerned.

The Spanish Government have forbidden Motor racing in its territory.

Mr. Balfour announced in the House of Commons the withdrawal of clause 11 of the Education Bill, thus leaving the executive control entirely to the County Council and the local management to the Borough Council.

The second fundamental change in connection with the Policy concerning the principal measure of the session which is the outcome of the recent various division in Committee of the Education Bill is regarded as having considerably weakened the position of the Government.

A great meeting of Indians was held at Cape Town yesterday to protest against the proposed Town Council Bill which establishes special locations for Indians.

Mr. Brodriek speaking in the House of Commons stated that the sale of blankets in South Africa was contrary to the special orders issued from home and that he was taking the necessary steps to investigate the matter.

MAY 27<sup>TH</sup>.—The Opposition intend calling attention to Mr. Chamberlain's declaration with regard to our fiscal policy and pressing Mr. Balfour to say whether he and his colleagues share Mr. Chamberlain's views.

Mr. Chamberlain stated in the House of Commons that no preferential trade proposals were being made to the Colonies and that no recent negotiations have passed on the subject.

Mr. Balfour replying to questions urging the Government to assist to relieve the "Discovery" at present ice bound in the Antarctic Ocean, stated that Government were prepared to contribute. He however strongly censured the Royal Geographical Society and the other Societies for not counting the cost when equipping such an Expedition.

MAY 28<sup>TH</sup>.—The King of Italy will arrive in London on the 8<sup>th</sup> July and will visit President Loubet on his way to London.

The Education Bill has passed through Committee after a prolonged discussion, the Government made further concessions both to the Opposition and to the Ministerialists.

The following is the result of the Derby.

- 1st. Rock Sand.
- 2nd. Vinicius.
- 3rd. Flotsam.

The Emir of Sokoto on the 30th ulto. raised a revolt and there was sharp fighting with the British. The enemy were dispersed but we lost many wounded, the outlying posts are now being reinforced.

MAY 29.—H.M.S. "King Alfred" a First class Cruiser has been selected to convey the Prince and Princess of Wales to India on their long promised visit there. She is expected to sail either in August or September.

In view of the recent disasters an Automobile Bill will be introduced in the Parliament after Whitsuntide in connection with the Motor races for the Gordon Bennett Cup to be held in Ireland in July in connection with which races a special Bill was recently passed through Parliament. Mr. Wyndham stated that the utmost precaution would be observed, large forces of troops, police, Civilians and Officials, will guard the route which will be absolutely cleared.

Lord George Hamilton speaking in the House of Commons stated that deaths from Plague in the Punjab between the 1st January and 2nd May amounted to 141,789 out of a total population of twenty-two and a half millions.

The "Temps" announces that President Louhet will visit King Edward next July after King Victor Emmanuel's visit.

On the motion to adjourn the House of Commons for Whitsuntide holidays Sir Charles Dilke raised a discussion on Mr. Chamberlain's "Fiscal Policy." Mr. Balfour replied at length and advocated the re-casting of our commercial policy in the direction of reciprocity. Mr. Chamberlain justified his action in taking the country's opinion on same in view of the resolutions carried at the late Colonial Conference.

Belated news has reached Constantinople that Malazgueird in Armenia was destroyed by an earthquake on the 29th April. The whole population consisting of some 2,000 persons has perished.

The House of Commons have read for the first time the Sugar Convention Bill by 142 votes to 82.

Shamrock I and Shamrock III left the Clyde yesterday for America amidst a scene of great enthusiasm.

MAY 30TH.—It is officially announced that M. Loubet proceeds to London between the 18th and 20th of July and will stay there three or four days.

In view of the magnitude of the issue involved the Unionist newspapers as well as members of the House are chary of committing themselves to any definite opinion, but it appears certain that while Mr. Chamberlain's proposals enlisted the warm support of a section of the Unionist Party he has ventured further than a number of Ministerialists are prepared to go including also some members of the Government.

The following is the result of the Oaks:—

- 1st Our Lassie.
- 2nd Hammerkop.
- 3rd Sky Scraper.

Rear Admiral Atkinson-Willes has been appointed Commander-in-Chief of the East India Squadron in place of Rear Admiral Drury who goes to the Admiralty.

Enquiries show that the recent positive announcement with regard to the visit of the Prince and Princess of Wales to India lacks foundation.
