KILIFI CHEMBE KIBABAMSHE SCHEME

INTRODUCTION

The outstanding historical land issues affecting the Coastal Region and land complaints emanating from Kilifi County informed the concern by the National Land Commission (NLC) on the need for a plot verification exercise in three land registration sections namely Kilifi Chembe/Kibabamshe, Kilifi/Jimba and Kilifi/Madeteni in Kilifi County where land adjudication and registration had taken place. The Commission then undertook hearings as per section 14 of the National Land Commission Act at Chembe Kibabamshe section between 7th September–17th September, 2015 and 3rd February–5th February, 2016 at Malindi where land owners appeared before the Commission sitting at Malindi.

Land Adjudication in Kilifi District

The Minister for Lands and Settlement applied the adjudication Act (Cap. 284) vide Legal Notice No. 155 of 1970 to Land within the former protectorate of Kenya of Kilifi District, Kilifi/Chembe /Kibabamshe, Kilifi/Madeteni, Kilifi/Jimba and Kilifi/Mtondia Roka Adjudication sections. the effect of the Minister's action was that the aforementioned areas were adjudicated and registered between 1974 and 1986. The areas were Trust lands and therefore the land adjudication programme was applied and sections declared as adjudication sections. After the finalization of the adjudication exercise, the sections were registered in 1978 and titles issued under Registered Land Act cap 300. However, the then Commissioner of Lands through his Circular Ref. 113936/55 of 28th May, 1986 and Gazette Notice No. 2505 of 1986 declared the areas as Government Land and therefore not subject to the application of the Adjudication Act (Cap. 284).

The Commissioner of Lands then instructed the District Land Registrar, Kilifi to cancel titles already registered and re issue individuals with Registered Land Act (RLA) titles. Land owners were asked to return their titles in exchange of RLA titles, but in the process some returned and never got RLA titles instead plots were issued to new individuals.

This action led to many complaints and this necessitated a presidential directive that land owners should be given land, and the government initiated a Settlement programme on the sections. Due to the confusion on the three registration regimes being applied on the sections, an embargo was placed on the sections in 1986, where land transactions could not be applied on the plots despite the many task force reports that have been produced.

BACKGROUND HISTORY FOR KILIFI CHEMBE KIBABAMSHE SECTION;

Chembe Kibabamshe was declared an adjudication section on 2nd October, 1974, and finalized on 26th May, 1978 with a total of 440 parcels. Registration took place in 1978 and titles issued under Registered Land Act Cap. 300 (Repealed). However the registration was nullified by the government triggering numerous Court suits which continue up to-date.

Settlement programme was also applied in the same section in 1998, there was a presidential directive that land owners be allocated land owing to many complaints from the region. A total of 443 parcels were re allocated to land owners covering an area of 1,107.5 Ha.

The former Commissioner of Lands through a gazette notice in 1986 declared the areas as falling under government land and ordered cancellation of the registrations where land owners returned their titles in exchange of titles under Registration of Titles Act.

Justification;

The Commission after the public hearings to determine the legality and propriety of the allocations and registration concluded as follows;

1. The government erred by applying three registration regimes in an area thus resulting in various types of allocations and registration. the tenure system that the Chembe Kibabamshe area falls is trust land and not government land and therefore the adjudication regime should be upheld.
2. It's on the basis of public interest that the commission initiated the public hearings in a view of lifting the embargo.
3. The historical injustice to the land owners.
