THE INDUSTRIAL COURT

CAUSE No 7 OF 1975

Parties —

Kenya Local Government Workers' Union
and

Murang'a County Council

Issue in dispute — Wrongful dismissal of Joseph Mbugua Njeru

1 The Kenya Local Government Workers' Union shall hereinafter be referred to as the Claimants and the Murang'a County Council shall hereinafter be referred to as the Respondents

2 The parties were heard in Nairobi on 2nd and 28th April, 1975, and relied on their written and verbal submissions

AWARD

3 The Notification of Dispute Form "A" dated 6th November, 1974, was received by the Court on 24th January, along with the statutory certificates signed by the Minister for Labour and the Labour Commissioner

Mr J M Njeru started working for the Respondents as an ungraded clerk on 13th June, 1949, and over the years rose to the post of an executive officer in July, 1964, and posted to Kangema Area Council

During all these years the Respondents have conceded that they had a good relationship with him

In July, 1968, he was transferred from the executive officer post to a general stores clerk at his own request. He asked for this demotion on 15th May, 1968, and he was sent to the County Council medical stores as stores clerk.

In the meantime the Internal Auditor with the Respondents had discovered during a routine check serious irregularities which it is alleged had been committed by Mr Njeru while he was the Executive Officer of Kiharu Area Council.

The main accusation against him which led to his suspension and subsequent dismissal was in relation to a contract for the construction of a lavatory in Makuyu Market. It was alleged that he made arrangements with a private contractor to carry out this work at a cost of Sh 1,284 without following the standing procedure as specified in the Local Government Regulations, 1963, which provided that an estimate had to be obtained from an appropriate officer before any work could be executed on behalf of a Council. The Respondents maintained that the work would have cost only Sh 635/85 as worked out by their Works Superintendent and the Internal Auditor. When the irregularity was discovered and it was drawn to the attention of Mr Njeru on 7th November, 1967, by the Respondents' Treasurer, Mr Njeru quietly certified another payment voucher for the revised cost of Sh 646/15.

He was suspended from duty on 30th December, 1968, and the reason for the suspension was the irregularity regarding the aforesaid contract work at Makuyu.

His suspension was discussed at a Staff Committee meeting on 27th February, 1969, when the decision to terminate his services was taken which decision was later confirmed and adopted by the Respondents' Full Council meeting on 26th March, 1969, and he was paid a sum of Sh 3,272/70, the details of which appear in the Respondents' written submission. Prior to the Respondents' meeting on 26th March, 1969, the Private Secretary to H E the President wrote and informed the Permanent Secretary, Ministry of Local Government, that Mr Njeru had made a petition to H E the President dated 14th March, 1969, on the subject of his impending dismissal from the services of the Respondents. The Permanent Secretary was asked to look into the matter and to write back to H E the President the result of his action.

The Court was informed that the Ministry of Local Government had looked into the case of Mr Njeru and had come to the conclusion that the services had been properly terminated and there was nothing further that could be done to help him.

The Claimants submitted that the Respondents did not lose even a single cent on the Makuyu contract because the error was discovered and rectified in time. Further that Mr Njeru had served the Respondents for a period of 20 years of continuous service during which period he had handled large sums of money and had incurred no loss and that he had a very clean record since he had received not a single warning about his work.

The Claimants stated that the Respondents had violated the principles of natural justice and that in any case if his services were to be terminated then it should have been a normal termination which would entitle him to all his terminal benefits.

The Claimants demanded that the Court should award that Mr Njeru should be paid a sum of Sh 13,925/80 made up as follows —

	Sh	cts
"Council's contribution to Provident Fund together with interest thereof (Sh 6,972 15— Sh 3,486 05)	3,486	10
Gratuity for the period 13th June, 1949 to 31st December, 1962 (13 years), at half a month's salary for every completed year of service	5,622	50
One month's salary (Sh 865) in lieu of notice	865	00
Salary for March, April, May and June, 1969 (16 days) at Sh 865 p m	3,056	30
Refund of half salary for January and February, 1969 (January balance 432 50, February balance 463 40)	895	90
	13,894	90
	30	90
	13,925	80 "

The Respondents in their detailed written submission on which they elaborated during the hearing submitted that Mr Njeru from 1965 had failed to discharge his duties satisfactorily and had moved from bad to worse. They gave all the

details of the alleged irregularities which they attributed to Mr Njeru but maintained that the real reason for his dismissal was the very grave irregularity which became apparent during the construction of the lavatory at the Makuyu Market.

The Court notes that the parties did not sign the Notification of Dispute Form "A" until 6th November, 1974, and that the dispute was not received by the Court until 24th January, 1975. The parties did not explain this extraordinary delay before the Notification of Dispute Form "A" was signed.

The Court finds that the Claimants in fact are pleading on behalf of Mr Njeru for the Court to exercise leniency because of Mr Njeru's long service with the Respondents and to award him a sum of over Sh 13,000 by way of his terminal benefits. The Court has come to this conclusion because the Claimants have really put forward no concrete submissions which could persuade the Court to find that Mr Njeru's services had been terminated wrongfully.

As stated earlier, at the behest of the Private Secretary to H E the President, the Permanent Secretary in the Ministry of Local Government had also instituted inquiries into this dispute and had been satisfied that there was no irregularity in the termination of the services. The Court has noted that Mr Njeru had given a long explanation to the Respondents' Clerk on 15th January, 1969, in which he had also made certain requests for a favourable treatment regarding the incident which led to his suspension and dismissal. So the Staff Committee at which the Claimants are represented had all the points put forward by Mr Njeru before it when it took its decision to terminate his services.

The Court is satisfied that Mr Njeru was given every opportunity of putting forward his defence and the Respondents therefore did not violate any principles of natural justice.

After a careful consideration of all the submissions the Court is satisfied that the Respondents acted properly and in accordance with the legal and statutory provisions in terminating Mr Njeru's services.

The Court notes that in the amount that was paid to him by the Respondents his Provident Fund contributions were also included.

The Court concurs with the Respondents' submission that since Mr Njeru was dismissed for a disciplinary offence he is not entitled to any gratuities. Further that he is not entitled to any salary in lieu of notice.

The Court is satisfied that Mr Njeru's services were terminated properly and that he had not suffered a wrongful dismissal and that whatever was due to him has been paid by the Respondents. The Claimants' demand is accordingly rejected.

THE INDUSTRIAL COURT

CAUSE NO 12 OF 1975

Parties —

E A Federation of Building & Construction Workers Union
and
Tracon Limited

Issue in dispute —

Wrongful declaration of redundancy and subsequent termination of employment of 25 union members

1 The E A Federation of Building & Construction Workers' Union shall hereinafter be referred to as the Claimants and Tracon Ltd, shall hereinafter be referred to as the Respondents

2 The parties were heard in Nairobi on the 30th day of April, 1975, and relied on their written and verbal submissions

AWARD

3 The Notification of Dispute Form "A" dated 23rd December, 1974, was received by the Court on 14th February along with the statutory certificate signed by the Labour Commissioner

On 7th and 8th August, and 21st September, 1973, some 25 employees whose names will appear hereinafter in the award

lost their services as the Respondents informed them that their services were being dispensed with due to material shortage and insufficient work and in some cases the reason stated was that the Respondents had decided to cease carrying out all contract work

These employees were also told that their services were being terminated in accordance with para 17 of the relevant regulation of Wages (Building and Construction) Order (hereinafter referred to as the Building Industry Order)

When the notices dated 7th August, 1973, were served on some of the employees the Claimants took up the matter on their behalf and wrote to the Respondents on 10th August, stating that the Respondents' action was unlawful in that these employees were being declared redundant and the Respondents therefore had to follow the procedure as laid down by the Ministry of Labour prior to getting the approval of the Industrial Court to these redundancies. The Respondents maintained that they could terminate their services in accordance with the Building Industry Order

The Claimants having reported that matter to the Ministry of Labour the parties made the following agreement on 6th September, 1973, in the presence of a Labour Officer —

"In a meeting held between the Union and Traccon Ltd, on 6th September, 1973, it was agreed that the parties go back to discuss the matters relating to the intended redundancies by the firm. The parties agree to observe and adhere to the procedure as communicated in the Permanent Secretary Ministry of Labour Circular Reference Letter ML/B/82 (86) of 27th January, 1972"

Subsequently the Respondents allege that the Claimants were using delaying tactics and warned the Claimants on 14th September, 1973, that they would wait for a few more days after which they would be free to terminate the services of these employees as planned

On 21st September, 1973, the Respondents served further notices of termination as stated hereinabove

On 22nd October, 1973, the Claimants reported to the Minister for Labour the existence of a trade dispute over the issue as stated hereinabove in respect of the following 25 employees whose dates of engagement and monthly wages as at September, 1973, and date of termination are also specified —

During the hearing the Claimants submitted that the services of these employees had not been terminated as was customary in the building industry on the completion of a contract or on the completion of a portion of the contract work. They had therefore pressed with this dispute because they were convinced that the Respondents' work did not fall in the category of the work generally in the building industry, and these employees had in fact been declared redundant due to shortage of materials

The Claimants stated that since Industrial Court's approval had not been obtained prior to these employees being declared redundant their services should be deemed to have been terminated unlawfully and the Court should order their reinstatement without loss of seniority or privileges and each of them should be paid a further Sh 10,000 as compensation

The Respondents made it clear that they were contesting this hearing on a matter of principle as they did not want the standing practice in the building industry to be disturbed in any manner as otherwise it would have very far reaching unfavourable implications both to the workers and the employers in this industry

The Respondents referred to para 17 of the Building Industry Order and submitted that the conditions specified therein were designed to meet the particular conditions of employment in the building trade where employees are engaged for particular sections of the work and their employment may be terminated when that section is completed unless the employer has other contracts to which the worker may be transferred. They maintained that this was not designated redundancy but was termination of employment either due to—

- 1 completion of a section of the work,
- 2 completion of the whole contract,
- 3 temporary hold up because of shortage of materials

The Court is satisfied that the aforesaid 25 employees have lost their services on the ground of redundancy and that their case is not one which falls within the normally accepted custom in the building industry where the employees' services may be terminated due to the completion of a section of work or completion of the whole contract or temporary hold up because of shortage of materials

The Court endorses the Respondents' plea that in the aforesaid circumstances in the building industry there would be no redundancy but it would be termination of employment but in this particular case these employees have been in employment from 1966, 1967, 1968, 1970 and 1971. It could not be argued that they had been taken on for the duration of a particular contract or a portion of a contract. They were in regular employment and the Respondents terminated their services due to shortage of materials and also in some cases because the Respondents decided to cease carrying out all contract work

Having established that these employees have lost their services because of redundancy the Court further finds that the Respondents did not follow the procedure as laid down by the Ministry of Labour and did not seek the Industrial Court approval before declaring such employees redundant. The Respondents therefore have committed a breach of the law and the 25 employees as stated above have suffered wrongful terminations

The Court finds itself in some difficulty because during the hearing the Respondents submitted that a number of these 25 employees had been given work on sub-contracts but the Claimants strongly challenged that statement and insisted that the majority of them were unemployed. The Court accordingly arranged for both the parties to submit full details in respect of each one of these 25 employees and the information that the Court has received is indeed contradictory

In the aforesaid circumstances the Court has decided to make the following award. All those of the 25 aforesaid employees who were either given work on sub-contracts by the Respondents or were re-engaged should be given two months' pay by way of compensation for the wrongful dismissal that they have suffered. All other employees shall be given four months' pay by way of compensation for their wrongful dismissal

The aforesaid compensation is to be in addition to all the benefits to which these employees were entitled under para 17 of the relevant Building Industry Order and if any of them have received any payments from the Respondents then such payments will be deducted from their dues

In view of the contradictory statements made by the parties regarding the activities of these 25 employees after their services were terminated the Court directs the Senior Labour Officer, Nairobi, to investigate the cases of each one of these 25 employees as mentioned hereinabove in the award to determine whether or not they are entitled to two or four months' compensation as awarded by the Court. The Court further rules that the Senior Labour Officer's decision in this respect shall be final provided the Senior Labour Officer carries out his inquiries in consultation with both the parties

Given in Nairobi this 23rd day of May, 1975

GAZETTE NOTICE No 1738

THE TRADE MARKS ACT
(Cap 506)

NOTICE is hereby given that any person who has grounds of opposition to the registration of any of the trade marks advertised herein according to the classes may, within 60 days from the date of this Gazette, lodge notice of opposition on Form T M No 6 (in duplicate) together with a fee of Sh 50

Notice is also hereby given that official objection will be taken under rule 21 (3) to all applications in which the specification claims all the goods included in any class unless the Registrar is satisfied that the claim is justified by the use of the mark which the applicant has made, or intends to make if and when it is registered. Where an applicant considers that a claim in respect of all the goods included in a class can be justified it will save unnecessary delay in examining applications if a claim is filed simultaneously with the application, accompanied in appropriate cases by supporting documents.

The period for lodging notice of opposition may be extended by the Registrar as he thinks fit and upon such terms as he may direct. Any request for such extension should be made to the Registrar so as to reach him before the expiry of the period allowed.

Formal opposition should not be lodged until after reasonable notice has been given by letter to the applicant for registration so as to afford him any opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Where it is stated in the advertisement of the applicant that the mark, upon its registration, is to be limited to certain colours, the colours are, as far as possible, indicated in the accompanying representations of the mark in the usual heraldic manner.

Representations of the marks advertised herein can be seen at the Trade Marks Registry, State Law Office, Nairobi.

Applications for registration in Part A of the Register are shown with the official number unaccompanied by any letter. Applications for Part B are distinguished by the letter B prefixed to the official number.

The undermentioned applications are proceeding in the name of HENKEL & CIE GmbH, a West German company, manufacturers and merchants, of 67 Henkelstrasse, Dusseldorf Holthausen, Germany, and c/o Messrs Daly & Figgis, advocates, P O Box 40034, Nairobi.

MANUFACTURERS AND
PRODUCTS****THIRD EDITION 1972****PUBLISHED BY
MINISTRY OF COMMERCE
AND INDUSTRY**

This edition illustrates the pace of progress and industrial advancement which Kenya has made since independence in 1963

Besides underlining the record of industrial progress in recent years, the Index aims at bringing to the notice of buyers within Africa and overseas the diversity of products available in Kenya and the scope for mutually profitable business opportunities that exist. The Index, therefore, is a standard book of reference on what Kenya can produce and make and should, therefore, be useful to businessmen and students for the valuable information that it contains
