ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED PETROL FILLING STATION ON L.R. NO.
337/2311 & 2312 IN MAVOKO MUNICIPALITY IN ATHI RIVER,
MACHAKOS COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the

proposed petrol filling station on L.R. No. 377/2311 and 2312 in Mavoko Municipality, Athi River Town, Machakos County.

The Proponent (Lali Kathuli) of the proposed project is proposing to put up a petrol filling station on L.R. No. 377/2311 and 2312 in Mavoko Municipality, Athi River Town, Machakos County.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact

Noise pollution

Mitigation measures

- The construction site to be hoarded during the entire construction period.
- Working hours to be during day time only (Monday-Saturday).
- The building contract to be mainly labour intensive with low level noise construction equipment.
- Construction workers to be provided with personal protective equipment including ear protection devices.
- Workers will be provided with ear protective devices.
- Construction work to be done during daytime only (Monday-Saturday).
- The site to be wholly hoarded during construction.
- Contractor to use machines with low noise levels.
- The contractor to conduct regular noise measurements and take corrective action where necessary as per the requirements of the "noise rules".
- The contractor to service the machines regularly and have them maintained in good condition all the time.

Fire

- Serviced Fire extinguishers to be put in place.
- Contracted building employees to be trained and be conversant in fire fighting skills.
- Connection to emergency alarm systems of the local fire brigade, police and hospitals.

Solid wastes

- Excavation waste to be carted away on a daily basis for disposal at the approved Municipal Council dump site.
- Building debris to be reused or taken away for disposal at the approved Municipal Council dump site.
- Bins for solid waste collection and disposal will be placed at strategic places within the facility.
- These will be emptied regularly and the wastes taken for disposal by the refuse collection trucks of the Municipal Council of Mavoko.

Social factors

- Provision of safe drinking water for all workers at the construction site.
- Provision of separate clean toilet facilities for ladies and gentlemen.
- Security to be provided on 24-hour basis to guard both life and property for employer and employees alike.
- Provide fully equipped first aid box.
- Formally train some of the construction workers on First Aid skills.

Occupational health and safety

- Workers to be provided with personal protective equipment which will be worn at all times during construction.
- Workers and staff to observe all safety

	measures put in place and as required for construction activities.
	<ul style="list-style-type: none"> • Availability of vehicles to handle any emergency which may arise. • The management to initiate and conduct regular joint safety arrangements with the neighboring business community. • Employment of people from the local community at the facility. This will create bondage with the local people and enhance safety for the business.
Fauna and flora	<ul style="list-style-type: none"> • A flower garden to be incorporated into the facility not only for beautification but also to enhance the environment.
Air pollution	<ul style="list-style-type: none"> • Sprinkle the construction area with water. • Provide construction workers with dust masks.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED WAA WHALE SHARK SANCTUARY, IN WAA/KWALE COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed project.

The Proponent (Sea Quarium Ltd.) intends to construct a petrol service station in Waa/Kwale County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Environmental Impacts</i>	<i>Proposed Mitigation Measures</i>
Environmental/marine conservation	<ul style="list-style-type: none"> • The proponent should ensure that technical and fiscal capacity of the community is built in conjunction with conservation measures of the marine resources at Waa Location. • Women must also be given opportunities to participate on the project.
Community involvement	<ul style="list-style-type: none"> • Involvement should lead to decision making process being inclusive of the community views and wishes in order to

make the project suitable.

	<ul style="list-style-type: none"> • Involvement should include but not limited to the following: the Local leaders, the BMU, the Kaya Waa elders, the local County Council Representatives as well as the Imam of the Waa Mosque/community.
Economic development	<ul style="list-style-type: none"> • The project should bring diversification of economic activities in the Waa community.
Research and innovation	<ul style="list-style-type: none"> • An MoU with universities and other research institutions should be put in place to ensure involvement in learning more about the Whale Shark Species. • The MoU should seek to avail the Sea Quarium to researchers from these institutions to undertake joint research projects.
Fatal threat of the whale	<ul style="list-style-type: none"> • The project proponent should have in its team qualified Marine Biologists and Veterinary Doctors to take care of the welfare of the whale sharks in the enclosure. • The whale sharks should be kept in their normal habitat in the open sea, not in superficial environment. • Regular cleaning incase of any foreign materials at the sanctuary by the visiting persons (student or tourists).
Safety of the tourists	<ul style="list-style-type: none"> • Safety procedures should be properly taken care of. • The safety of the whale sharks and tourists should be a priority. • All PPE used by the participants should be owned and managed by the Sea Quarium. The project proponent will routinely sanitize all PPE hence mitigate concerns that something undesirable or unsanitary would be exposed to the whale sharks and other marine flora and fauna. • During the pre-dive orientation, safety rules should be carefully explained to the visitors and swimming. • Guests should be instructed to stay together in buddy pairs and to follow the lead Dive Masters and Lead Dive Master should carry visual and physical barrier i.e. hard nets for the animals if necessary. A fourth Dive Master on deck will monitor the dive and will be prepared to enter the water and activate emergency response if necessary. • The above safety rules are in order to avoid inflicting any and all unnecessary stress to the whale shark is completely harmless to humans.
Mitigation of the whale shark	<ul style="list-style-type: none"> • The project provides a very good avenue for research in migration patterns of the as the captured whales will be tagged and released after every 6 months. • Upon release they should mapped using GPS as they mitigate.
Skills development	<ul style="list-style-type: none"> • Identification and training of youth within the project area on skill sets required for the marine conservation job market. This can be done with

partnerships with local institutions such as Mombasa Polytechnic University College and University of Nairobi (Dept. of Marine Conservation Studies- Diani).

- Sea Quarium Ltd. Should have guided tours (of university, polytechnic, secondary schools) within its sanctuary to initiate interest among the youth.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED SHREEJI PETROLEUM STATION ON PLOT NO. BUKHAYO/MUNDIKA/9772 BUSIA TOWN

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Development of Shreeji Petroleum Station on plot no. Bukhayo/Mundika/9772, Busia Town.

The proponent, Shreeji Service Station of P.O Box 2220-50100, Kakamega, is proposing to construct a petroleum service station that will include a petroleum storage and supply facility, tyre center, puncture repair, car wash, car service bay, vehicle parking space, quick-shops and a mini-supermarket.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impacts	Proposed Mitigation measures
Solid and liquid waste management	<ul style="list-style-type: none"> • To be segregated into recyclable and non-recyclable wastes at source. • Provision of solid waste storage bins and skips. • Ensure that the solid waste collected within the petrol station is disposed of in an approved dumpsite. • Monitor exhaustible septic tanks so that they do not become overfilled. • Weekly inspection of the entire supermarket to check for blockages and breaks. This should be followed by regular repairs and servicing of the within the supermarket.
Sludge management	<ul style="list-style-type: none"> • Apply quicklime treatment to dewatered sludge in order to create a pathogen and

odor free product.

- | | |
|-------------------------|--|
| Water usage | <ul style="list-style-type: none"> • Avoid storing dewatered sludge in the facility. • Use the services of NEMA-licensed sludge disposal facilities. • Due to high costs related to water usage and irregular supply, the management and users are advised to control water usage to avoid wastage. • The management is strongly advised to install large water tanks and reticulation infrastructure for water harvesting and distribution within the service station. |
| Air and noise pollution | <ul style="list-style-type: none"> • To maintain air quality, within and outside the station, good ventilation coupled with good housekeeping should be done to stem dust and odors. • Social forestry and gardening within the vicinity of the facility are highly recommended. • Create space by demolishing any unsightly illegal structures on site. • Noise and air pollution can be reduced by use of acoustic internal design materials and planting of ornamental trees and shrubs. • Operate noise-generating equipment during regular working hours (e.g. 7 am – 7 pm) so as to reduce the potential of creating noise nuisance during the night. |
| Fire hazards | <ul style="list-style-type: none"> • Installation of fire extinguishers. • Hazard warnings signs and safety installations shall be clearly posted. • Install audible alarm systems especially in areas with gas usage. • Train workers on fire and safety precautions during and emergency preparedness. • Designate conspicuous fire exits coupled with clear signs to guide escape during fires. • Put NO SMOKING signs and install smoke detectors. |
| Health and safety | <ul style="list-style-type: none"> • Provide First Aid Kits in the facility and provide workers with protective clothing. • Train staff on health, safety and emergency procedures on a regular basis. • Make prior arrangements with health care facilities such as a Health Centre in proximity. • Design and implement an emergency response plan. |
| Energy use | <ul style="list-style-type: none"> • Develop contingency plans for power failures, outflows, equipment malfunctioning and other conditions which may affect the proper functioning of the station. • Institute a preventive maintenance scheme for the equipment and machinery. |

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED BAHARINI ELECTRA WINDS WIND
FARM PROJECT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed project.

The Proponent (Electrawinds Kenya Limited) intends to construct and operate a wind farm consisting of a maximum of 45 wind turbines (each turbine expected to generate between 1.8-3MW) which will generate a total of 90MW, including access roads, crane platforms, underground and overhead electricity cables for the distribution of electricity generated in Baharini Location at Mpeketoni Division, Lamu County.

The following are the anticipated impacts and proposed mitigation measures:

Environmental Impacts Proposed Mitigation Measures

Air pollution	<ul style="list-style-type: none"> • Spray of water during construction activities. • Control of speed and movement of construction vehicles and those transporting construction materials. • Use of low-sulphur diesel for diesel-operated machinery. • Covering loose materials such as soil piles at the site to prevent dust pollution and spreading by wind. Vehicles transporting such materials should also be covered. • Use of dust masks by the constructions workers.
Noise pollution	<ul style="list-style-type: none"> • Control the noise levels at all the times. • Use of ear protection aids by construction workers. • No unnecessary hooting by construction vehicles. • Restriction of construction activities to day time. • Use of equipment designed with noise control elements. • Temporary fencing-off noisy machinery such as vibrators. • Limit idling of pickup trucks and other small equipment. • Encourage workers to turn off vehicle engines whenever possible.
Clearing of vegetation and trees	<ul style="list-style-type: none"> • Minimal clearance of trees and vegetation.

Disturbance of soil structure	<ul style="list-style-type: none"> • Planting grass to cover open/bare grounds. • Maintain vegetation and trees in areas not affected. • Put soil traps around perimeter fence and on steep areas. • Landscaping with indigenous trees and grass planting. • Maintaining specified routes for construction vehicles. • Control earthworks. • Use of light machinery and equipments during construction.
Destruction of habitat	<ul style="list-style-type: none"> • No off-road driving. • Control of earthworks. • Minimal clearance of vegetation. • No destruction of bird nests.
Generation of solid waste	<ul style="list-style-type: none"> • Provision of waste collection bins at the project site. • Re-use of soil, construction debris and other waste where applicable. • Proper containment and disposal of solid waste. • Contracting a licensed waste collection and disposal company. • Creation of awareness on proper solid waste disposal.
Occupational health and safety risks	<ul style="list-style-type: none"> • Use of suitable personal protective equipment. • Site to be sprinkled with water to minimize dust. • Use of stable ladders and other climbing/support structures. • Sensitise workers on construction safety measures. • Cleanliness and organization at the proposed site. • Fencing or covering of risky areas such as deep pits. • Safety signs/posters. • Engagement of skilled laborers.
Fire hazards and accidents	<ul style="list-style-type: none"> • Acquire fire fighting facilities for different types of fires. • Sensitise workers on fire safety. • Keep well-stocked first aid box. • Proper handling and use of tools and machinery. • Store all hazardous chemicals in their original containers and obtain their Material Safety Data Sheets.
Increase in traffic flow	<ul style="list-style-type: none"> • Adequate road warning signs to traffic regulations. • Set driving speed limits. • Choice of access routes during construction phase should take into account minimum disturbance to the neighbours.
Security	<ul style="list-style-type: none"> • Guarding of site by a reputable security firm. • Collaboration with existing security machinery. • Partnership with neighbours and police in community policing.
Generation of waste water and water pollution	<ul style="list-style-type: none"> • Encourage re-use and recycle of water where possible (during construction phase). • Proper storage, handling and disposal of

- oils and oil wastes from construction machinery.
- Prevent soil/silt wash down into open drains.
- Public health and safety
- Proper handling and disposal of solid waste.
 - Operation of noisy machinery at daytime only.
 - Control of visitors to the site.
 - Provide appropriate PPEs for the workers.
 - Electrical installations should be made as safe as possible.
 - Installation of adequate water supply.
 - Provide adequate sanitation during all the stages of the project.
 - Ensure public/community awareness on proposed project from planning to operational phase.
- Economic and social
- Contractor and Proponent to involve the local youth for unskilled labor.
 - Involve women in the project to the extent possible.
 - Use of local goods and services where possible.
 - Educate those involved in construction activities on HIV/AIDS and other sexually transmitted diseases.
- Compliance
- Apply for all required approvals, licenses and permits before commencement of the proposed project.
 - Environmental monitoring of the project during construction phase.
 - Establish a register with clear environmental laws and regulations.
 - Carry out annual environmental audits during operation phase of the proposed project.

GAZETTE NOTICE NO. 3100

KENYA REVENUE AUTHORITY**REPORT OF THE AUDITOR-GENERAL ON THE FINANCIAL STATEMENTS OF KENYA REVENUE AUTHORITY
FOR THE YEAR ENDED 30 JUNE 2012**

I have audited the accompanying financial statements of Kenya Revenue Authority (KRA) set out below, which comprise the statement of financial position as at 30 June, 2012 and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 14 of the Public Audit Act, 2003. I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

Management's Responsibility for the Financial Statements

The Management of the Kenya Revenue Authority is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

The management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 12 of the Public Audit Act, 2003.

Auditor-General's Responsibility

My responsibility is to express an opinion on these financial statements based on the audit and report in accordance with the provisions of Section 15 of the Public Audit Act, 2003. The audit was conducted in accordance with International Standards on Auditing. Those standards require compliance with ethical requirements and that the audit be planned and performed with a view to obtaining reasonable assurance that the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Authority's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence obtained is sufficient and appropriate to provide a basis for my qualified audit opinion.

Basis for Qualified Opinion**Property, Plant and Equipment**

- (i) As disclosed under note 8(i) to the financial statements, the balance as at 30 June, 2012 of Kshs. 6,992,766,000.00 in respect of land and buildings does not include the value of various parcels of land located at different parts of the country. According to the Management, these parcels of land have been excluded from the financial statements because they were transferred by the Government to KRA at no purchase consideration and with no title documents.
- (ii) The Authority has also not obtained ownership documents for eighteen (18) parcels of leasehold land with buildings, whose carrying value as at 30 June 2012 was Kshs. 829,050,000 (2010/2011 twenty (20) parcels of leasehold land with a carrying value of Kshs. 851,650,000.00).

Qualified Opinion

In my opinion, except for the effect of the matters described in the Basis for Qualified Opinion paragraph, the financial statements present fairly, in all material respects, the financial position of the Authority as at 30 June, 2012 and of its financial performance and cash flows for the year then ended, in accordance with International Financial Reporting Standards and comply with Kenya Revenue Authority Act, Cap 469 of the Laws of Kenya.

In addition, I also report that;

- (i) The information and explanations that were required to perform the examination and audit were received;
- (ii) Proper books of account are in agreement therewith; and
- (iii) The accounts present a true and fair view of the financial position of the Authority.

EDWARD R. O. OUKO**Auditor-General****Nairobi**

20 December, 2012

MANAGEMENT'S RESPONSIBILITY STATEMENT

The Kenya Revenue Authority Act requires Management to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Authority and its operating results for that year. It also requires Management to ensure that the Authority keeps proper accounting records which disclose, with reasonable accuracy, the financial position of the Authority. Management is also responsible for safeguarding the assets of the Authority and maintenance of adequate system of internal financial control.

Management accepts the responsibility for the annual financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in accordance with International Financial Reporting Standards and the requirements of the Kenya Revenue Authority Act. Management is of the opinion that the financial statements give a true and fair view of the state of the financial affairs of the Authority and of its operating results.

Nothing has come to the attention of Management to indicate that the Authority will not remain a going concern for at least the next twelve months from the date of this statement.

NOTES TO THE FINANCIAL STATEMENTS

1. ESTABLISHMENT

Kenya Revenue Authority was established by an Act of Parliament, The Kenya Revenue Authority Act, (Cap 469). The Authority's objectives are the assessment and collection of revenue, administration, enforcement of laws relating to and accounting for revenue collected under the Act.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Preparation

The financial statements are prepared under the historical cost basis of accounting as modified by the revaluation of certain items of property, plant and equipment and fair value adjustments to investments. They are presented in Kenya Shillings (Kshs.) rounded to the nearest thousand shillings and comply with the International Financial Reporting Standards (IFRS).

(b) Income Recognition**(i) Agency Income**

In accordance with the Kenya Revenue Authority Act CAP 469, income to the Authority is “such amounts not exceeding 2% as may be determined by the Minister each financial year” of the total estimated revenue to be collected by the Authority on behalf of the Exchequer. In addition, the Authority is entitled to a Bonus of 3% of the surplus revenue collected above the estimates and also earns income from other activities.

(ii) Other Income

Interest Income is recognised on a time basis at the effective interest rate applied on the principal amounts outstanding

Rental income is recognised on accrual basis.

Other incomes are recognised when earned.

(c) Development funding and asset Contributions by the Treasury

Contributions by the Treasury in form of assets or funding for acquisition of major assets or development projects are recognized as a financing reserve when received. No repayment of the financing is expected by the Authority.

(d) Property, Plant and Equipment

The value of land is not reflected as prepaid lease rentals as the land was allocated to the Authority at no purchase consideration.

All categories of property, plant and equipment are stated at cost or valuation less accumulated depreciation and annual impairment losses. No depreciation is provided on freehold land. Depreciation is calculated to write off the cost or valuation of each asset to its residual value where applicable, over the expected useful life of the asset in equal instalments. A full year's depreciation is charged in the year of purchase but no charge is made in the year of disposal.

The estimated useful life is as follows: -

Plant & Machinery	8 years
Equipment/Furniture/Fittings	8 years
Boats	8 years
Motor Vehicles	5 years (with a 10% residual value)
Computers	3 years
Computer Software	3 Years
Buildings	40 years

Gains or losses on property, plant and equipment are determined by reference to their carrying value and are taken into account in determining the surplus / (deficit) for the year.

(e) Intangible Assets

Intangible assets consist of various computer software systems purchased for use by the Authority. The Authority recognises Intangible Assets acquired separately at cost less accumulated amortisation. Amortisation is charged on a straight-line basis over their useful lives as estimated by management from time to time.

(f) Translation of foreign currencies

Transactions in foreign currencies during the year are converted into Kenya Shillings at rates ruling at the transaction dates. Assets and liabilities at the balance sheet date, which are expressed in foreign currencies, are translated into Kenya Shillings at the rate ruling on that date. The resulting foreign exchange gains and losses are recognized on a net basis, differences are dealt with in the income and expenditure statement in the financial year in which they arise.

(g) Retirement Benefits Obligations

The Authority operates a hybrid pension scheme with a defined benefit section and a defined contribution section for the permanent and pensionable employees. The pension costs relating to this scheme are assessed in accordance with the advice of a qualified actuary. The assets of the scheme are held in a separate trustee-administered fund. The cost of providing pension and other post-retirement benefits for employees is charged to the income and expenditure account.

(h) Cash and Cash equivalents

For purposes of the cash flow statement, cash and cash equivalents comprise cash in hand and short-term deposits held with banks.

(i) Accrued Leave Days Provision

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by the employees up to the balance sheet date.

(j) Taxation

The Authority is exempt from taxation on investment income.

(k) Inventories

All consumable stocks held for use in operations are expensed on purchase

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
