EAST AFRICA PROTECTORATE.

AN ORDINANCE

Enacted by the Acting Commissioner for the East Africa Protectorate.

F. J. JACKSON
Acting Commissioner.

Mombasa, Dated this 9th day of October 1905.

No. 9 of 1905.

Coffee Leaf Disease.

IT is hereby enacted as follows:—

1. This Ordinance may be cited as "The Coffee Leaf Disease Ordinance 1905"
2. The Coffee Leaf Diseases Ordinance 1904 shall not apply to coffee beans introduced into the East Africa Protectorate from German East Africa for (1), human consumption in the East Africa Protectorate; (2), transit through the East Africa Protectorate and not for sale or use as seed or otherwise in the East Africa Protectorate.
3. No coffee beans shall be introduced into the East Africa Protectorate from German East Africa for the purpose of human consumption within the East Africa Protectorate unless such coffee beans have been previously roasted.
The roasting required by this section shall be such roasting as is, in the opinion of the Customs Officer in charge at the place of entry, sufficient to prevent the germination of the beans and to destroy any spores which might carry disease.
4. Coffee beans may be introduced into British East Africa from German East Africa for the purpose of transit through the East Africa Protectorate and not for use as seed or otherwise in the East Africa Protectorate subject to the following conditions:—
 - (1) The person intending to introduce such coffee beans must satisfy the Customs Officer at the place of entry that such coffee beans will not be sold or used as seed or otherwise in the East Africa Protectorate.
 - (2) The coffee beans must be securely packed in tin lined cases or in bags of substantial double sacking to the satisfaction of the Customs Officer at the place of entry.
 - (3) Every case or bag containing such coffee beans must be sealed at the place of entry by the Customs Officer and no such case or bag shall thereafter be opened within the limits of the East Africa Protectorate.
 - (4) Should any case or bag containing such coffee beans become so damaged in the course of transit through the East Africa Protectorate as to render it probable that the coffee beans or some of them may escape therefrom, such case or bag and any coffee beans therein or therefrom shall be immediately destroyed and no compensation shall be payable by the Government for or in respect of such destruction.
5. Any breach of the provisions of this Ordinance shall be punishable with a fine not exceeding Rs. 1,000, and any coffee beans introduced into the East Africa Protectorate in contravention of this Ordinance may be immediately seized and destroyed by the Chief of Customs, or any person acting on his behalf.

AN ORDINANCE

Enacted by the Acting Commissioner for the East Africa Protectorate.

F. J. JACKSON

Acting Commissioner.

Mombasa, Dated this 9th day of October, 1905.

No. 10 of 1905.

East Africa Plague Ordinance 1905.

IT is hereby enacted as follows:—

1. This Ordinance may be cited as “The East Africa Plague Ordinance 1905” and shall be read as one with the “East Africa Plague Regulations 1900.”

2. In this Ordinance the term “Native” means any person who is not of European or American origin.

3. No Native, being a passenger or member of the crew of any ship arriving from an infected port, or which is otherwise likely to be carrying infection shall land at the ports of Mombasa, Lamu, or Kismayu without the written sanction of the Medical Officer of Health.

4. The Medical Officer of Health may grant to any Native passenger or member of the crew of such ship permission to land in any of the following cases:—

(1) If ten days have elapsed since such ship left an infected port.

(2) If the ship has been in quarantine at the infected port or has been granted pratique since leaving such port.

(3) If all the Native passengers and members of the crew of such ship have been inoculated with Haffkine's serum, or other recognised and approved plague serum and if not more than six weeks and not less than five days have elapsed since such inoculation.

5. A Native being the member of the crew of such ship may, at the direction of the Medical Officer of Health, and subject to such conditions and restrictions as the Medical Officer of Health shall impose, be allowed to land for the purpose of loading or unloading cargo.

OBITUARY NOTICE.

The death of Sir Donald Stewart, His Majesty's Commissioner and Commander-in-Chief, is announced with deep regret. The deceased was on Saturday, September 23rd, taken ill with Pneumonia at Nairobi on his return from a tour of inspection in the Kenya and Naivasha Provinces and the illness terminated fatally on the morning of Sunday, October 1st.

After many years service in various parts of the world including 14 years on the West Coast of Africa, Sir Donald Stewart was appointed Commissioner of the East Africa Protectorate in July 1904. Although he had only occupied this position for a little over a year, Sir Donald Stewart had done much towards solving some of the difficult problems connected with the administration of a new country such as East Africa.

From the following which has been received from the Secretary of State it will be seen in what high esteem the late Commissioner was held by the authorities at the Colonial Office :—

"I have received with great regret your telegram reporting the death of Sir Donald Stewart, through which the Public Service has sustained a heavy loss."

Socially Sir Donald deservedly enjoyed a wide spread popularity among all classes alike, and his charming personality will be keenly missed by many. All the officials who have served under him feel that they have lost a respected chief and sincere friend.

E. BROWN

Officer-in-Charge.

Reuter's Telegrams.

OCTOBER 2ND.—Canada has invited Australia to establish preferential trade relations and the matter is now being considered by the two Governments.

There is much talk in Russian and German Press with regard to a new close rapprochement between the two Empires as a rejoinder to the Anglo-Japanese Alliance, and an attempt is being made to connect Signor Tittoni's meeting with Prince von Buelow with a scheme for the reconstruction of the balance of power.

Propitiatory utterances made by the Austrian Premier and other Statesmen of influence have contributed to appease the moderate Hungarian party and separate them from the coalition.

The Tsar has created M. de Witte a Count.

The British Revenue for the half year shows an increase of £74,350 compared with 1904 despite the reduction in the tea duty.

At the King's special request Lord Curzon will stay in India to welcome the Prince and Princess of Wales.

It is expected that traffic will be resumed in the Canal for all ships about the 8th instant.

Paris is apparently on the eve of the acutest controversy regarding Congo Scandals. M. Gentil who will be in Paris shortly is at present suffering from fever. He has many partisans and is expected to throw himself into the controversy.

The body of M. de Brazza has arrived in Marseilles and was received with military honours.

The French Press affirms that the Morocco Agreement between France and Germany is largely due to M. de Witte's representations to Germany.

The Anglo-Japanese Alliance has been favourably received in Paris, and it is considered that the safety of French Indo-China is considerably strengthened thereby.

The Kaiser has personally decorated Count de Witte with the Grand Cross of the Red Eagle.

Reuter's Agent at Tokio states that great preparations are being made to welcome the British China Squadron which is due to arrive in Japanese waters on the 8th instant, and remains a fortnight. Admiral Noel and his officers will be received and entertained to luncheon by the Emperor.

The suggestion of a Russo-German Alliance has been coolly received by many prominent Russian papers including the Novosti Russ. This latter paper advocates an understanding with England in preference to an alliance with Germany which it believed will involve Russia in fresh difficulties.

OCTOBER 3RD.—Fire destroyed 27 Army Stores Buildings at Hiroshima and the conflagration is still blazing, incendiarism is suspected, present damage is estimated at between five to ten million yen.

A brand new steamer the "Hsiehho" officered by foreigners was sunk by a mine in the Yellow Sea on Saturday last and fifteen were drowned.

The Tsar has returned to Peterhof.

Mr. Roosevelt returned to Washington yesterday for the first time since peace was arrived at, he was greeted by hundreds of thousands and given a demonstration unequalled since the time of Mr. President Lincoln.

M. Loubet opened in Paris yesterday the most important Congress that has been ever held of Experts on Tuberculosis. Sixty seven foreign delegations comprising three thousand Doctors and scientists have already arrived.

OCTOBER 4TH.—The Tsar in an Ukase has ordered the immediate preparation of regulations dealing with the elections for the National Assembly.

At Duma in Poland twice within the last few days armed men have raided the dynamite stores belonging to the coal mines and decamped with a quantity of explosives. Depots of arms and munitions are continually being discovered in Finland.

Repeated night attacks by bands of wandering Chinese miners on isolated houses in the Rand are causing grave uneasiness. There was another attack on a lonely store in Klipfontein last night and of the Jewish occupants one was killed and 3 injured.

OCTOBER 5TH.—Prince von Buelow interviewed by one of the Staff of a Paris Newspaper stated that Germany's action with regard to Morocco was purely unaggressive and defensive, that she could not afford to see Morocco a second Tunis, he advocated the abandonment of the idea that France and Germany were traditional enemies and said that both the Governments desire to see an increase of confidence between the two Nations, he affirmed that the existence of a Russo-German friendship must please France by the assurance that her ally had one friend more.

It is reported from Paris that Bankers are negotiating the simultaneous issue in France, Germany, Great Britain, and America of a Russian 4 o/o Loan for seventy two millions sterling. The issue price will be at about 90 and the loan will probably be out near the end of the month.

Prince von Buelow stated to a member of the Staff of the Temps that Germany has no idea of obstructing French colonial policy provided Germany's commercial interests and dignity are respected, that the talk of the inevitableness of an Anglo-German conflict is nonsense, that both the Governments were too alive to the disastrous consequences of such a conflict to be influenced by outbursts from the Press, that international solidarity was now too deeply founded to allow of any one becoming "tertius gaudens" over any quarrel whatsoever. He was convinced that the Anglo-German prejudices would vanish and that the present Anglo-French "Entente Cordiale" was an example of this, that the possibility of an Anglo-German reconciliation in which France took the opportunity of assisting would be hoped cause a relaxation in the Franco German relations and be a prelude to mutual confidence, this Germans would welcome once they were convinced that France had ceased trying to isolate Germany.

OCTOBER 6TH.—The English paper while agreeing with Prince Von Buelow that an Anglo German conflict is not inevitable comment on the gruffness and cynicism of German diplomacy and are inclined to be sceptical with the Prince's assurances of good will.

Sir Wm Manning has been appointed Commissioner for British Central Africa and leaves for Zomba on the 26th instant.

At the great Tuberculosis Conference now being held in Paris M. Behring. Discoverer of the

OCTOBER 9TH.—The French Government have increased Ranavaloa's allowance to 50,000 Francs a year. The Socialists have started a vigorous anti-Military campaign in Paris. They have issued inflammatory posters urging recruits not to perform their Military duties.

The employes of the Paris Mint have declined to strike for an increase of pay.

M. Heredia, member of the French academy, is dead.

The "Matin" continues its disclosures with regard to the Morocco imbroglio. It affirms that England had offered M. Delcassé to mobilise her fleet and seize the Kiel Canal, also to land a hundred thousand men at Schleswig-Holstein, and states that she would confirm this offer in writing if France desired.

The Canal has been re-opened for traffic.

An advance portion of British Officers and crew numbering 600 arrived at Kioto on Saturday and were fêted by the Municipality and citizens. Osaka has also been visited.

British Imports for September show an increase of £2,658,642. Exports an increase of £3,421,801.

M. Behring described to the Tuberculosis Conference his new remedy which chiefly consists of impregnating the living cells of the body with a substance extracted from the virus of Tuberculosis.

OCTOBER 10.—It is reported that Russia intends to station 300,000 troops on the Chinese Frontier once peace is finally settled. Her reasons are believed to be partly owing to apprehension that the troops on returning home may join the malcontents, and partly to be an intimidation to the Chinese.

It is believed that the articles in the "Matin" are inspired by M. Delcassé. They have caused a profound sensation in France and tend to augment the animosity in France towards Germany.

The English Press are sceptical with regard to Britains having volunteered support.

Brief telegrams from Tiflis report that several bombs have been thrown on a detachment of Cossacks that troops fired on the mob and that many were killed and wounded; there is general panic.

The general opinion amongst the Doctors with regard to M. Behring's remedy for Tuberculosis is that it will be a long time before any practical stage is reached though they admit its merits.

OCTOBER 11TH.—An inspired article in the "Koelnische Gazette" disbelieves the statement that England offered France military assistance, but reserves its verdict with reference to the role ascribed to Great Britain until the British Press have offered explanations. The German papers generally demand explanations from the British Government.

On the occasion of the ceremonious opening of the new thoroughfares from Alawych and Kingsway debouching on the strand on the 18th inst., His Majesty will receive a deputation of the Poplar unemployed.

Moscow is quieting down and the strikes seems partially subsiding but a sharp conflict took place on Monday between the crowd and the Cossacks and the people stoned the Cossacks who dismounted and fired two volleys killing ten and injuring many.

The British Squadron left Kobe for Yokohama accompanied by a Japanese fleet. The farewell given was a magnificent spectacle including fireworks and bazouais, etc. During the visit a special service of trains was run between Tokio and Yokohama.

The output of Sugar from Europe during 1905 is estimated at 6,625,000 tons as compared with 4,690,000 tons in 1904.

The Editor of the "Matin" states that M. Delcassé is in no way responsible for the statements published in the paper with regard to France, England and Germany.

OCTOBER 12TH.—The "Times" correspondent in Paris has reason to believe that an Anglo-Russian rapprochement is being strongly advocated by France and being favourably considered in Russia. Further that there is no likelihood of a Russo-German Alliance which is strenuously opposed in Russia.

The Japanese have seized the German steamers "Struve" and "Haus Wagner" bound for Vladivostok alleging that they have contraband on board.

The Duke of Saxe Coburg was married yesterday to Princess Adelaide of Schleswig-Holstein at Gluecksburg. The Kaiser was present and the ceremony was quite simple.

OCTOBER 13TH.—M. Delcassé interviewed by a member of the Staff of the Echo de Paris disclaimed the "Matin's" revelations but when asked if these revelations were imaginary he smiled and beg the interviewer to put no further questions.

Mr. Jaures in an article published in the "Humanité" declares that he knows that immediately after the Kaiser's visit to Tangier M. Delcassé informed the French Cabinet that Great Britain had offered assistance to France in the event of a conflict, and had stated that she was prepared to engage to assist France by a written Treaty.

The inspired German Press treats the "Matin's" revelations with great gravity and displays great irritation at the hostile disposition imputed to Great Britain by the Matin.

Admiral Noel, his staff and a thousand men arrived yesterday morning in Tokio and were received in a most enthusiastic manner. The whole city was beflagged as after a great Victory and a General holiday was proclaimed. The members of the Cabinet, Count Ito, and other high Naval and military officers met Admiral Noel at the station and drove with him in imperial carriages through cheering crowds to Hibiya Park where the Mayor entertained the visitors at lunch. Athletic and other displays followed.

The Cape Government in a despatch received from Upington learn that the Hottentot Marengo captured the German Camp at Jerusalem after severe fighting. The Germans had a Lieutenant and six men killed and 8 wounded. Others were captured and disarmed but subsequently released. The Hottentots suffered no loss and captured all the stock and stores in the camp.

OCTOBER 14TH.—Over a hundred British Officers were entertained at dinner by the Maple Club at Tokio last night, a ball followed British Officers dancing spiritedly with the Japanese ladies, the Blue-jackets and the population fraternizing.

It is understood from Berlin that Great Britain has informally assured Germany of the baselessness of the revelations in the "Matin" but from the tone of the semiofficial German Press it would appear that Germany is not satisfied with this and wishes an official repudiation.

Reuter's Agent at Tokio telegraphs that the Mikado received Admiral Noel and his staff also the Captains of all the ships with marked cordiality and invited them to luncheon at the Palace of Shiba. The Royal palace has been placed at the disposal of Admiral Noel and his officers.
