THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED CONSTRUCTION OF J.K.I.A. TURNOFF – LIKONI ROAD (A104) IN NAIROBI CITY COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kenya National Highways Authority is proposing to enhance capacity of part of the A104 Road from J.K.I.A. Turnoff to Likoni Road junction. The enhancement includes upgrading of the Airport South, access to JKIA (B10), Barabara Plaza, Container Depot and East Gate roads. The project will include the following:

- Construction of three major interchanges at Enterprise Road, Elephant Roundabout and access to Greenfield/access to Terminal 1 together with their associated ramps.
- Incorporating Bus Rapid Transit on the median corridor along A104 between Eastern Bypass Junction and Likoni Road Junction.
- Construction of 920 m dual 2x7.0 m carriageway with 1.5 m hard shoulders to access the Inland Container Terminal.
- Construction of 2.6 km dual 2x7.0 carriageway for Airport South Road from Elephant Roundabout to Outer Ring Ring/Airport North Junction, and
- Construction of covered drains and outfalls.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Mitigation Measures</i>
Traffic congestion due to road closure	<ul style="list-style-type: none"> • The contractor will be required to plan itineraries for site traffic on a daily basis. • Temporary road signs visible both during the day and at night indicating road works and restrictions will be installed. • The contractor will set aside footpaths, cycle lanes and parking bays for heavy goods vehicles and public transport vehicles as necessary. • Traffic management and control is mandatory throughout the project.
Private land acquisition	<ul style="list-style-type: none"> • KeNHA will fully compensate land owners as per agreements. Compensation should not be less than the market land value, buildings and any other valued item. • Ensure involvement of all the affected persons during negotiation. • KeNHA will implement the requirements in the RAP report before the start of construction.
Noise and vibration	<ul style="list-style-type: none"> • Construction workers will be required to wear ear muffs in areas exposed to excessive noise levels. • Equipment should be maintained regularly to reduce noise resulting from friction. • Work within time frame of 8 a.m.-5 p.m.

<i>Impacts</i>	<i>Mitigation Measures</i>
Air pollution	<ul style="list-style-type: none"> Dust suppression by regularly spraying water on roads and work sites. Proper location of material stockpiles away from habitation and business premises. Workers shall be sensitized on management of air pollution from vehicles and machinery. The removal of vegetation shall be avoided until such time as clearance is required and exposed surfaces shall be re-vegetated or stabilized as soon as practically possible. Undertake regular air quality monitoring and conduct corrective adjustments where necessary.
Solid wastes	<ul style="list-style-type: none"> The contractor should enforce the appropriate management methods based on the Three Rs (Reduce, Reuse, and Recycle). For waste handling the Contractor should provide litter collection facilities such as bins. The Contractor should not burn any wastes on site or dump in open pits.
Liquid wastes	<ul style="list-style-type: none"> All grey water runoff or uncontrolled discharges from the site/working areas (including wash down areas) to water courses should be contained and properly channeled. Potential pollutants of any kind and in any form shall be kept, stored and used in such a manner that any escape can be contained and the water table not endangered. Wash areas shall be placed and constructed in such a manner so as to ensure that the surrounding areas (including groundwater) are not polluted.
Oil spills	<ul style="list-style-type: none"> Vehicle maintenance should be done on purpose-built impervious concrete platforms with oil and grease traps. All above surface tanks should be bunded and mounted on paved surfaces. Oil spill containment and cleanup equipment should be kept at the contractor's camps.
Occupational health and public health	<ul style="list-style-type: none"> Contractor to establish and implement the Health and Safety Plan. Ensure compliance with all standards and legally required health and safety regulations. Establish an emergency response procedure and display on all work areas. Provision of a standard first aid kit at the site office at all times. Provision of fire-fighting equipment available at the workers camp.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Natural Resources, N.H.I.F. Building, Community, P.O. Box 30126-00100, Nairobi.

(c) County Director of Environment, Nairobi City County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED UPGRADING OF THE NGINYANG'- LOKORI-LOKICHAR ROAD (C113/C46) TO BITUMEN STANDARDS TRAVERSING TURKANA AND BARINGO COUNTIES

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kenya National Highways Authority is proposing the upgrading of the Nginyang'-Lokori-Lokichar Road (C113/C46) to bitumen standards. The road is an existing alignment and it traverses several sub-counties namely; East Pokot, Turkana Central, Turkana East and Turkana South located in two counties namely; Baringo and Turkana County. The project shall follow the existing alignment as much as possible and the road shall be provided with drainage structure and road furniture and amenities. The drainage structures to be developed shall include bridges and culverts. The road furniture to be developed shall include road crossing, service roads, bus bays and provisions for wayside amenities among others.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Mitigation Measures</i>
Destruction of physical environment	<ul style="list-style-type: none"> Limit the circulation of heavy machinery to minimal areas to reduce soil compaction and vegetation clearance. Locate access roads perpendicularly or diagonally to the slope rather than along steep slopes. Salvage the rock materials on the existing road alignment especially between Lokori and Kapedo in order to reduce need of excavating or sourcing new material. Rehabilitate, landscape/levelling, tree planting and re-vegetation once the construction or excavation activities are complete. Some critical sites may need fencing to promote faster regeneration of lost cover and avoid erosion.
Increased water demand/supply and water quality	<ul style="list-style-type: none"> Develop and implement water management plans to include measures on conservation and controlled usage of the resource such as rain water harvesting and underground water exploration. Obtain water abstraction permit and use metering methods to ensure water is abstracted to recommended limit.

- Develop site effluent control and management plans which should include appropriate collection, treatment and disposal of generated effluent, strategic locations of outfall to natural drains to avoid impacts of flooding or water logging.
- Develop appropriate methods of handling uprooted plants to avoid spreading of invasive species.
- Collaboration with wildlife specialists such as the Kenya Wildlife Service who are already operating in the area to protect wildlife.
- Preserve indigenous plants as much as possible and those uprooted should be replaced with appropriate tree species adapted to the area and those that protect soil and conserve water near watering points.
- Install appropriate drainage structures across river crossings or natural storm water ways such as culverts, bridges and mitre drains.
- Undertake periodic maintenance of drainage structures to avoid blockage due to vegetation growth, siltation and solid waste.
- Bund all fuel storage tanks and concrete floors of garage and areas where fuel is being handled.
- All waste oil, lubricant and their packages should be collected in non-leaking containers for recycling or disposal at designated area or by a NEMA registered waste handler.
- All waste water from oil handling areas should be channeled through an oil/water separator
- Insulate noisy machines when working near animal habitats and settlements.
- Maintain vehicles and machinery in good condition in order to minimize gaseous emissions and noise.
- Avoid bitumen melting activities in open spaces use certified enclosed systems to melt and transport bitumen.
- Provide road safety facilities including road signs, speed breaks, bus stops, footpath, foot bridges among other safety facilities.
- Provide workers with protective professional clothing and equipments.
- Conduct social awareness campaign in the project areas.
- Recruit locals as skilled and non-skilled labourers as much as possible or as required.
- Implement HIV/AIDS and other communicable diseases awareness and prevention programmes in conjunction with relevant ministries.
- Provide housing and appropriate sanitation facilities to project workers including mobile toilets at road side sites.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Natural Resources, N.H.I.F. Building, Community, P.O. Box 30126-00100, Nairobi.

(c) County Director of Environment, Turkana County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED LAMU – GARISSA ROAD

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kenya National Highways Authority is proposing to construct the Lamu – Garissa Road. The project road falls under the Lamu and Garissa counties and is a section of LAPSET Corridor, having total length of about 250 Kilometers. The road starts at Mokowe (GPS: 2°14'S, 40°50'E) and traverses on the eastern side of River Tana following, in some of its sections, the existing D568 Road through the trading centres of Hindi, Bargoni, Bodhei, Ijara, Roka, Bura East, Nanighi and Korakora before terminating at Junction (A3/C81), 13kms from Garissa Town called as Modika (GPS: 0°25'S, 39°40'E). The project road will be a gateway to the LAPSET Corridor which will provide connectivity to other parts of Kenya through railway and highway.

The following are the anticipated impacts and proposed mitigation measures:

Impact	Proposed Mitigation Measure
Air quality	<ul style="list-style-type: none"> • Ensure deviations and dry materials are kept damp at all times. • Material delivery trucks to comply with established emission standards. • Prohibit idling of vehicles. • To avoid toxic fumes, residences should be at least 500 m from windward side of asphalt mixing sites. • Water should be sprayed during the construction phase on excavated areas, deviations routes, and temporary access roads leading to borrow pits, and asphalt mixing sites. • In filling sub-grade water spraying is needed to moisten the material and to assist in compaction. After compaction, water spraying should be regular to prevent dust. • Regular maintenance of plant and equipment. • Sensitize motorists/road users.
Changes in hydrology/ drainage; and use of water resources	<ul style="list-style-type: none"> • Install proper and efficient drainage structures. • Consult local residents in siting of boreholes.

	<ul style="list-style-type: none"> • Proper and management of water usage. • Plan for harvesting and storage of water during rains by construction of water pans for use later. • Abstraction from rivers and streams are not to be done during low flow. • Groundwater abstraction be on permits conditions (locations to be identified). • Ensure the public at target water sources gets priority. 		<ul style="list-style-type: none"> • signs shall be provided along all the deviation roads for enhanced safety.
Soil erosion	<ul style="list-style-type: none"> • Install soil erosion control measures. • Landscape embankments and re-vegetate gravel sites. • Proper management of excavation activities. 		<ul style="list-style-type: none"> • Enforce vehicular speed limits. • Monitor road accidents. • Enforcement of Traffic Act.
Material sites	<ul style="list-style-type: none"> • Inform people living at/near the sites that the pits have been selected for exploitation. • Plan, control and restrict access to gravel sites (e.g. by fencing). 	Socio-economic/Resettlement Action Plan	<ul style="list-style-type: none"> • Enhance collaboration with communities on construction activities affecting them through established Community Liaison Committees. • Provide deviations and accesses to affected premises during construction throughout the corridor. • The Contractor to establish and manage environmental and social initiatives to oversee mitigation measures developed under this report.
Noise pollution	<ul style="list-style-type: none"> • Sensitize workforce. • Supervise construction traffic. • Workers in the vicinity of high level noises to wear safety and protective gear. 		<ul style="list-style-type: none"> • Provide safe crossings and walkways during the construction works backed up with appropriate signage. • Provision for community improvement services under social responsibility including health, education, water supply, sanitation, access roads, etc. • The Contractor to prepare and consult on an employment plan and implement in accordance to Kenyan labour law.
Garbage or solid wastes	<ul style="list-style-type: none"> • Sufficient measures will be taken in the construction camps i.e. provision of garbage bins and sanitation facilities. If septic tanks are installed, waste will be cleared periodically. • The contractor to develop waste management plans and provide appropriate facilities for their operations. • Prepare signed agreements with landowners where spoil earth is to be disposed indicating conditions and responsibilities for restoration and management. • The spoil disposal sites should be approved by NEMA before dumping commence. • Consider re-use of used/waste asphalt concrete for public access roads in the neighbouring urban areas. 		<ul style="list-style-type: none"> • At least 60% of employment (casuals) to involve the local population, especially the youth and women. • Follow-up on the implementation of RAP.
		Water pollution	<ul style="list-style-type: none"> • Solid waste at construction camps, and equipment maintenance workshops should not be dumped in or near any water bodies (rivers, streams, etc.) along the project road or area of influence. • Proper disposal of wastewater / sewage at Contractor's/ workmen's camps. • Maintenance and repair of construction vehicles/plants should be carried out at dedicated areas at the Contractor's camp.
		Oil pollution	<ul style="list-style-type: none"> • Proper handling, storage and disposal of oil and oil wastes. • Maintenance and repair of construction vehicles/plants should be carried out at dedicated areas at the contractor's camp.
Health (Public health and occupational safety) and Safety HIV/AIDS	<ul style="list-style-type: none"> • Special attention shall be paid to the sanitary conditions of camps. • Sensitization campaign on STDs & HIV/AIDS will be mandatory at the camps and in the community. • Preventives measures like use of condoms, voluntary testing for HIV/AIDS. • Provide safety programmes for material sites and working areas including emergency response mechanisms. • Awareness, prevention and training on HIV/AIDS and other social diseases such as TB. • Adoption of pre-identified health centres within the road corridor. • Provide group medical insurance and Personal Protective Equipment (PPEs) for the construction workers. • Provide police security to the contractor. 	Wildfires	<ul style="list-style-type: none"> • Install warning signs along the road not light fires near bushes as this could result in wild fires.
		<p>The full report of the proposed project is available for inspection during working hours at:</p> <p>(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. ASSESSMENT (SEA) FOR THE MOMBASA CITY GATE
MASTER PLAN

INVITATION OF PUBLIC COMMENTS

IN LIGHT of the provisions of section 57 A of the Environment Management and Co-ordination Act (EMCA) Cap 387, Regulation 42 and 43 of Environmental (Impact Assessment and Audit) Regulations, Legal Notice No. 101 of 2003, the National Environmental Management Authority (NEMA) has received a Draft Strategic Environmental Assessment Report for the Mombasa City Gate Master Plan. The SEA findings are expected to integrate the existing sectoral plans and programs to establish sustainable economic zone development mechanisms.

County Government of Mombasa is the PPP owner. The objective of the MGC MP is to formulate a Comprehensive Master Plan for the Mombasa Gate City including implementation and management program, and prioritize intervention areas/flagship projects through collaborative work with Mombasa County Government and concerned organizations. The MP will cover the entire Mombasa County, of a total area of 287 sq. kilometres consisting of 222 km² land area and 65 km² of water. However consideration will be taken of the surrounding areas that are closely relevant to appropriate development of the county.

The MGC MP seeks to address the following challenges: shortage of affordable and quality housing, especially for low and middle income households, limited tourism products, insufficient sewerage infrastructure and other urban services, poor linkage of road networks resulting into port related traffic congestion, inadequate basic education facilities, inadequate health service delivery points and growth of informal settlements among others.

The plan covers nine tasks, namely: 1) Understanding of current situation and issues (situational analysis), 2) Formulation of development vision, 3) Establishment of social and economic framework, 4) Formulation of structure plan, 5) Formulation of land use plan, 6) Formulation of strategy of infrastructure development, 7) Selection of priority areas and projects, 8) Preparation of Draft Master plan, and 9) Strategic Environmental Assessment (SEA)/Stakeholder Consultation. From the urban planning perspective and environmental concerns the plan has taken into consideration green transport solutions such as provision of Non-Motorized Transport (NMT) infrastructure through proposal for construction of pedestrian paths and cycling lanes as approaches to reduce the impacts of climate change.

The specific objectives for this SEA Study are:

- Ensure that the Master Plan is compatible with sustainable planning and environmental management.
- Enhance the consistency of the Master Plan across different Policy.
- Plan, or Program (PPP) sectors; Identify the potential environmental, socioeconomic and cultural impacts of the Master Plan.
- Support decision-making and incorporate emerging environmental issues into sustainable development.

Key environmental and social impacts and mitigation measures.

*Environmental aspects Detailed priority areas of concern***Water quality**

- Lack of sufficient water supply to ensure good sanitary conditions in Mombasa. The City heavily relies on water from outside the County e.g. Mzima springs, Baricho Wellfield, Marere Springs and Tiwi Wellfield.
- Inadequate sewer line with Mainland South totally lacking sewerage system.

Air quality

- Vulnerability to floods given that storm water drainage only covers 10% of the total planning area.
- Pollution of the sea and beaches especially leachates (polluted water) polluting the sea from Kibarani dumping site and the defunct Kipevu waste treatment plant.
- Little concentration on water resources (the blue economy) – water resources have not been exploited despite potential such as water transport, use of desalination to alleviate water shortage etc.
- Emissions from vehicles (mixture of urban function and logistic function, particularly Changamwe and Jomvu areas where airport, port, CFS, industry, warehouse and residential function are mixed. Heavy traffic generated from and to port is the main cause of traffic congestion and air pollution which is considered as a disturbing factor for the local people).

- Dust from poorly maintained roads.
- Poor linkage of road network and land use.
- Health risks for residents from air pollutants.

Solid waste management

- Increased solid waste generation and poor management.
- Lack of waste recycling facilities.
- Land/soil contamination from chemicals
- Foul odors from waste – some waste collection points are located close to residential areas.

Biodiversity conservation and protected areas

- Threat to sensitive natural and cultural heritage sites such as the Mombasa Marine Park, Mangrove Creek, Kaya Forests, Old Town, Fort Jesus and Mbaraki Pillar etc.

Landscaping

- The transformed built environment will change the mobility system of the city - this was in line with the proposed Likoni bridge.
- Urban sprawl and expansion of uncontrolled urban development.

Socio-economic issues

- Inadequate social amenities (schools, health facilities, children play ground, recreation facilities, football field, entertainment, social halls) as a result of the anticipated population increase.
- Limited employment opportunities in the county especially for women and youth.
- Low community participation in development activities.
- High crime, insecurity and other antisocial behaviors that is also likely to increase as a result of the anticipated increased population.
- Fear of evicting slum dwellers to pave way for other development.
- Possible displacement of persons currently leaving on land earmarked for different functions.
- Poor road, water and electricity infrastructure in the county.
- Limited land area for future city expansion as a result of the rapid population growth and the sea to the East.

Human settlements and cultural issues

- Reduction of unemployment in the city by attracting more investors
- Provision of adequate social amenities such as schools, health facilities and community halls.

• Improve and upgrade level of services for various facilities such by easing the urban function from the island by adopting multi-core urban development as a basic structure.

- Reduction of negative impacts of wastes on the health of the people and the environment by improving waste management at Kibarani and Mwakirunge dumping site and need for a sanitary land fill.

- All key stakeholders including the poor, physically challenged, youth and women should be involved in the development and implementation of the Mombasa City Plan.

The protection and conservation of scenic beauty and the protection and conservation of the built environment, and historic or cultural significant areas.

- Enhancement of landscape resources.

• Protection and conservation of cultural heritage such as Fort Jesus, Old Town, Mbaraki Pillar, Mackinnon market, Kengelani and Kongowea market and any other additional sites which will be identified as having significant cultural position by the stakeholders.

- Consideration of design works of the built environment.

The full report of the proposed project is available for inspection during working hours at:

(a) Cabinet Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.

(b) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(c) County Director of Environment, Mombasa County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D--

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the *Gazette*.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
