The following are the anticipated impacts and proposed mitigation measures:

Impacts	Proposed Mitigation Measures
Noise and excessive vibration pollution	<ul style="list-style-type: none"> Provide PPEs such as ear protectors to the contractors and all exposed workers. Engineering controls through regular servicing of equipment and machinery. Conduct annual audiometric test to workers exposed to high noise levels as per recommendation of the noise survey report. Conduct annual noise survey and implement recommendations. Ensure that noise and excessive vibration from operation activities are within permissible levels

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
	as per the provision of EMCA (Noise and Excessive Vibration Pollution) (Control) Regulations, 2009.
Air quality monitoring and control	<ul style="list-style-type: none"> Ensure that the furnace is functioning properly, and the air control system is fully functional. Rigorously segregate waste so that no unnecessary waste is charged into the furnace. Ensure that the furnace is preheated adequately and that supplementary fuel is added whenever necessary to maintain the burning temperature above 800°C. Load the furnace according to the recommended "Best Practices". Raise the chimney to an height of 10M above the roof. Undertake an air quality analysis annually.
Water quality	<ul style="list-style-type: none"> Regular checking and maintenance of the plant water reticulation system. Register the facility as a waste handling site. Source scrap metals from authorized dealers only.
Fire risks/health and safety	<ul style="list-style-type: none"> Avail a well-stocked first aid kit on site. Provide appropriate personal protective equipment (PPEs) to all site workers. Ensure that the operational manuals are available and accessible for every equipment/machinery used at the site. Regular inspection to identify hazards such as unsafe electrical connections and eliminating them. Only properly trained workmen to operate equipment or machinery and proper instructions on their safe operation provided. Install well serviced firefighting equipment e.g., Fire extinguishers. Provide containment of hazardous materials such as used oils. Provide adequate protective gears to all workers.
