(b) Special Conditions

1. The grantee shall erect complete for occupation within 24 months of the date of the commencement of the term buildings of approved design on proper foundations constructed of stone, burnt brick or concrete with roofing of tiles or other permanent materials approved by the Commissioner of Lands and shall maintain the same in good and substantial, tenantable repair and condition, including the external paintwork during the continuance of the term.

2. The buildings shall not be erected until plans (including block plans showing the positions of the buildings and a system of drainage for disposing of sewage, surface and sullage water on the land), drawings, elevations and specifications thereof shall have been approved in writing by the Local Authority and the Commissioner of Lands or such other person as he may appoint. Such plans, drawings, elevations and specifications shall be submitted in triplicate to the Local Authority within three months of the date of the commencement of the term.

3. In the event of the grantee failing to comply with any condition herein contained any proceedings that may be necessary will forthwith be instituted for the recovery of the land. Moneys that may have been paid in respect of the plot will be forfeited to the Crown.

4. The grantee shall, at his own expense, duly and suitably connect such drainage system with any town drainage system when, in the opinion of the Local Authority, the latter system is so far completed as to enable the grantee reasonably so to do.

5. Any building erected on the plot shall conform to a building line decided upon by the Local Authority.

6. The land shall be used for private residential purposes only and not more than one private dwelling-house with the necessary offices and outbuildings appurtenant thereto (excluding a guest house) shall be erected on the land.

7. The buildings shall not cover more than 50 per centum of the area of the land or such lesser area as may be laid down by the Local Authority in its by-laws.

8. The grantee shall not subdivide the land.

9. The grantee shall not sell, transfer, sublet, charge or part with the possession of the land or any part thereof or any buildings thereon except with the prior consent in writing of the Governor; no application for such consent (except in respect of a loan required for building purposes) will be considered until Special Condition No. 1 has been performed.

10. The grantee shall pay to the Commissioner of Lands on demand such sum as the Commissioner may estimate to be the proportionate cost of constructing all roads and drains and sewers serving or adjoining the land and shall on completion of such construction and the ascertainment of the actual proportionate cost either pay (within seven days of demand) or be refunded the amount by which the actual proportionate cost exceeds or falls short of the amount paid as aforesaid.

11. The grantee shall from time to time pay to the Commissioner of Lands on demand such proportion of the cost of maintaining all roads and drains serving or adjoining the land as the Commissioner may assess.

12. Should the Commissioner of Lands at any time require the said roads to be constructed to a higher standard the grantee shall pay to the Commissioner on demand such proportion of the cost of such construction as the Commissioner may assess.

13. The grantee shall pay such rates, taxes, charges, duties, assessments or outgoings of whatever description as may be imposed, charged or assessed by any Government or Local Authority upon the land or the buildings erected thereon, including any contribution or other sum paid by the Governor in lieu thereof.

14. The Governor or such person or authority as may be appointed for the purpose shall have the right to enter upon the land and lay and have access to water mains, service pipes and drains, telephone or telegraph wires and electric mains of all descriptions, whether overhead or underground, and the grantee shall not erect any building in such a way as to cover or interfere with any existing alignments of main or service pipes or telephone or telegraph wires and electric mains.

GAZETTE NOTICE No. 655

(AGR. 32/3/10)

MAIZE PRICES

1959 PLANTINGS

IT IS notified for general information that, with the agreement of the Council of Ministers, the Minister for Agriculture, Animal Husbandry and Water Resources has fixed the following prices for such quantity of maize, planted in 1959, as is required for the internal requirements of the Colony, at present estimated at one million bags:—

Grade II	Sh. 37/90 per 200 lb. in a new bag (f.o.r. sender's station).
Grades III and IV ..	Sh. 35/90 per 200 lb. in a new bag (f.o.r. sender's station).

2. It will be noted that the prices are published "in a new bag", and provision has been made in the prices set out above for the cost of the bag. In previous years the price was published "naked", i.e. without bag.

3. These prices mean that, compared with the price of Sh. 37 for the 1958 planted crop, there will be a reduction to producers of Sh. 1/50 per bag in the price of maize required for internal consumption, and this reduction will eventually be passed on to consumers.

4. It is emphasized that the above prices are for maize purchased for the internal requirements of the Colony. These prices will apply to the following regional allocations:—

Scheduled Areas 425,000 bags.

Non-Scheduled Areas—

Nyanza	440,000 bags.
Central	80,000 bags.
Southern	7,500 bags.
Rift	25,000 bags.
Coast	2,500 bags.
Forest	20,000 bags.

5. The price to be paid for maize purchased in excess of the internal requirements will be decided later in the year and will depend on the following factors—

- the amount of maize estimated for delivery by each region in excess of the above allocation;
- the estimated price at which maize may be sold on the overseas market.

6. In effect, therefore, the price payable in each region to individual producers will be a regional "pool" price arrived at by taking into consideration the factors set out in paragraph 5 above.

7. If the total quantity of maize needed for the internal requirements of the Colony in the 1959/60 season should be greater or less than the present estimated figure of one million bags, the appropriate adjustment to the price will be made in the 1960/61 season.

8. The price for Roiekob maize, or maize of similar characteristics which in the opinion of the Minister for Agriculture is not acceptable for the internal requirements of the Colony, will be as follows:—

All Grades	Sh. 17/90 per 200 lb. in a new bag (f.o.r. sender's station).
------------------	--

9. Attention is drawn to the fact that all the above prices are f.o.r. sender's station.

10. In respect of the 1958 planted crop the producers in the Scheduled Areas are paying a cess of Sh. 10 per bag to meet an estimated deficit in the Maize Export Fund at 31st July, 1959; the producers in the Non-Scheduled Areas are paying a similar cess of Sh. 8 per bag. It is now estimated that the Sh. 10 cess paid in the Scheduled Areas will be sufficient to meet deficits arising from exports up to 31st July, 1959. It is estimated that the Sh. 8 cess in the Non-Scheduled Areas may leave an outstanding deficit of a maximum of £50,000 arising from exports up to 31st July, 1959. A cess of 50 cents per bag will therefore be imposed on the 1959 planted crop in the Non-Scheduled Areas only in order to meet the estimated deficit arising from exports up to 31st July, 1959.

11. For the purpose of determining the price to be paid at markets in the Non-Scheduled Areas, the following deductions may be made from the f.o.r. price:—

- Trader's commission and transport charges.
- Contributions to marketing services.
- Grade differential.
- Shrinkage and storage charges.

12. Attention is drawn to the fact that there may be deductions from the price for any cess which may be imposed by an African district council.

Dated this 13th day of February, 1959.

Permanent Secretary to the Ministry of Agriculture,
Animal Husbandry and Water Resources.
