GAZETTE NOTICE No. 8181

THE WATER ACT, 2016

(Section 139)

PUBLIC TO SUBMIT COMMENTS ON THE REGULAR TARIFF APPLICATION FOR NAIROBI CITY WATER AND SEWERAGE COMPANY LIMITED (NCWSC)

NOTICE is given to the general public that Nairobi City Water and Sewerage Company (NCWSC) which provides water services by authority of a license issued by WASREB has applied to the Water Services Regulatory Board (WASREB) for a regular tariff review.

Further, that NCWSC proposes an upward tariff review to enable the utility water to operate at full cost recovery and meet conditions necessary for improving service delivery.

Please note that due to the challenge posed by the COVID 19 Pandemic, the WSP will hold hybrid public consultation meetings; face to face meetings for few stakeholders and virtual meetings for the rest of the stakeholders as outlined below;

Water Service Provider	Venue		Day Date and Time
Nairobi City Water and Sewerage Company Limited (NCWSC)	Physical meeting	Kenyatta International Conference Centre (K.I.C.C.)	Friday, 29th July 2022 10.00 a.m.
	Virtual Meeting	NCWSC to provide links	

Participants should be seated by 10.00 a.m. Personal identification of participants will be required. Members of the public in respective areas are invited to make oral and written submissions and ask any questions that may relate to the provision of water services in their areas.

Details of the current tariff and the proposed tariff can be obtained from www.wasreb.go.ke. and/or <https://www.nairobiwater.co.ke/>

Premises where details of the proposed action can be obtained:

Water Services Regulatory Board, NHIF Building, 5th Floor, Wing "A" and Head Office, Nairobi City Water and Sewerage Company Limited Offices Kampala Road, off Enterprise Road, Nairobi, Kenya and all its Regional Offices.

Written comments on the application shall be emailed to tariffs@wasreb.go.ke or info@wasreb.go.ke or send in hard copy to:

The Chief Executive Officer,
Water Services Regulatory Board,
5th Floor, NHIF Building,
Ngong Road,
P.O Box 41621 -00100,
Nairobi.

The closing date for receipt of comments is thirty (30) days after the publication of this notice.

High demand of raw material	<ul style="list-style-type: none"> Source building materials from local suppliers who use environmentally friendly processes in their operations. Ensure accurate budgeting and estimation of actual construction material requirements to ensure that the least amount of material necessary is ordered. Ensure that damage or loss of materials at the construction site is kept minimal through proper storage.
Loss of Biodiversity	<ul style="list-style-type: none"> Retain trees where feasible and plant along perimeter; plant flower beds.
Increased storm water, runoff and soil erosion	<ul style="list-style-type: none"> Surface runoff and roof water to be harvested and stored in underground reservoir for reuse. A storm water management plan that minimizes impervious area infiltration by use of recharge areas and use of detention and/or retention with graduated outlet control structure will be designed.
Increased solid waste generation	<ul style="list-style-type: none"> Use of an integrated solid waste management system i.e. through a hierarchy of options: <ol style="list-style-type: none"> 1. Use of durable, long-lasting materials that will not need to be replaced as often, thereby reducing the amount of construction waste generated over time. Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements. Use building materials that have minimal or no packaging to avoid the generation of excessive packaging waste. Donate redundant but serviceable equipment to charities and institutions. Incorporate macerators to handle contaminated waste before flushing into the sewer system. Have a contract with an approved medical waste handler to transport other medical waste such as sharps to an approved handling/treatment site or other medical institution such as Thika Level 5 Hospital. Provide labelled and colour coded waste receptacles at the relevant generation sites. Comply with the provisions of Environmental Management and Co-ordination (Solid Waste) Regulations, 2007.
Medical waste generation	
Liquid waste release into the environment	<ul style="list-style-type: none"> Provide adequate and safe means of handling liquid waste at the premises. Conduct regular inspections for pipe blockages or damages and fix appropriately; maintenance of sewer system & quality testing of waste water. Comply with the provisions of Environmental Management and Co-ordination (Water Quality) Regulations, 2006. Ensure proper disposal of all wastes, so as not to contaminate water bodies; dilute and treat lab wash before disposal and conduct regular monitoring of its quality. Adhere to MCG by-laws standards.
Dust emission	<ul style="list-style-type: none"> Ensure strict enforcement of on-site speed limit regulations. Avoid excavation works in extremely dry weathers. Sprinkle water on graded access routes when necessary to reduce dust generation by construction vehicles. Personal Protective equipment to be worn.
Exhaust emission	<ul style="list-style-type: none"> Vehicle idling time shall be minimised. Alternatively fuelled construction equipment shall be used where feasible equipment shall be properly tuned and maintained.

Noise and vibration	<ul style="list-style-type: none"> Sensitise truck drivers to avoid unnecessary racing of vehicle engines at loading/offloading points and parking areas, and to switch off or keep vehicle engines at these points. Sensitise construction vehicle drivers and machinery operators to switch off engines of vehicles or machinery not being used. Sensitise construction drivers to avoid gunning of vehicle engines or hooting especially when passing through sensitive areas such as churches, residential areas and schools. Ensure that construction machinery are kept in good condition to reduce noise generation. Ensure that all generators and heavy duty equipment are insulated or placed in enclosures to minimize ambient noise levels. The noisy construction works will entirely be planned to be during day time when most of the neighbours will be at work. 		<ul style="list-style-type: none"> be trained to use the equipment. Implement all necessary measures to ensure health and safety of workers, patients, visitors and the general public during construction of project as stipulated in OSHA 2007; Covid-19 protocols should this be necessary in the future. Safe handling of HCW; Good housekeeping, PPE use. Training of staff on use of MSDs (for tissue preservatives in lab – formaldehyde and benzene). Well stocked first aid box which is easily available and accessible should be provided within the premises. Provision must be made for persons to be trained in first aid, with a certificate issued by a recognised body.
Increased energy consumption	<ul style="list-style-type: none"> Switch off electrical equipment, appliances and lights when not being used. Install occupation sensing lighting at various locations such as the parking areas and washrooms. Install energy saving lights at all lighting points within the building instead of bulbs which consume higher electric energy. Monitor energy use during the operation of the project and set targets for efficient energy use, including consumption audits. Sensitise workers and hospital workers to use energy efficiently. 	Fire protection	<ul style="list-style-type: none"> Firefighting equipment such as fire extinguishers and hose rills should be provided at strategic locations such as stores and construction areas. Regular inspection and servicing of the equipment must be undertaken by a reputable service provider and records of such inspections maintained. Signs such as “NO SMOKING” must be prominently displayed within the premises, especially in parts where inflammable materials are stored. External and safe storage of gas with requisite warning signs.
High water demand	<ul style="list-style-type: none"> Promptly detect and repair of water pipe and tank leaks. Ensure taps are not running when not in use. Install a discharge meter at water outlets to determine and monitor total water usage. - (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the National or county Governments. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly, Senate or county Assemblies.
- (4) *Act Supplement* contains Acts passed by the National Assembly, Senate or county Assemblies.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typed with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.
