THE INDUSTRIAL COURT

CAUSE NO. 24 OF 1970

Parties:—

Kenya Chemical Workers' Union
and
Vitafoam (E.A.) Ltd.

Issues in dispute:—

1. Wage increases to employees/staff already earning the minimum rates of pay each year and those ones earning above such minimum rates of pay.
2. Gratuity/retirement or service benefits to employees not covered by the National Social Security Fund.
3. Injury by accident—full pay to cover the whole period of sickness.

1. The Kenya Chemical Workers' Union shall hereinafter be referred to as the Claimants and Vitafoam (E.A.) Ltd. shall hereinafter be referred to as the Respondents.

2. The parties were heard in Nairobi on the 18th day of September 1970, and relied on their written and verbal submissions.

AWARD

3. The Respondents commenced production in Mombasa in August 1967, as manufacturers of Polyurethane foam products which covers the field of mattresses, pillows, bathmats, cushions and sponges. They employ over 80 employees.

The Claimants approached the Respondents for recognition on or about 19th November 1968, but in view of the fact that the Tailors and Textiles Workers' Union also claimed recognition, the matter was referred to a Joint Demarcation Committee. This Committee carried out its own investigations and on 7th January 1970, ruled that tailoring work was incidental to the manufacture of foam products and that workers employed by the Respondents were properly represented by the Claimants. The recognition agreement was drawn up and was signed on 9th February 1970. Thereafter the Claimants submitted their memorandum of demands relative to terms and conditions of employment by letter dated 3rd March 1970. After several meetings of the Joint Negotiating Committee many items were settled including grades and it was agreed that there would be two grades for factory workers and two for office workers. During subsequent meetings a few more items were settled but the parties could not agree on the rates for the various grades.

The Claimants reported the dispute to the Minister for Labour on 16th April 1970, and a conciliator was appointed on 30th April. During conciliation it was agreed that the effective date for the agreement would be 1st May 1970, and that it would be for a duration period of 36 months. It was also agreed to establish rates of wages for the various job grades as follows:—

	From 1.5.70	From 1.5.71	From 1.5.72
	Sh.	Sh.	Sh.
<i>Factory workers</i>			
Grade I ..	270	295	320
Grade II ..	235	260	285
<i>Office workers</i>			
Grade I ..	330	355	380
Grade II ..	270	295	320

The dispute before the Court is in respect of those employees who are in the aforesaid grades but are earning higher wages than the rates agreed for these grades, such employees are commonly referred to as "red circle employees". The Claimants' contention was that these workers, who are about 26 in number, should all get an annual increase of Sh. 30 p.m. for the duration of the agreement. In support of their demand they quoted several agreements in the chemical industry where this principle had been established and also referred to several Court awards. They stated that during conciliation the Respondents' representative had in fact at one stage agreed to an increase of Sh. 25 for the aforesaid "red circle employees" but later on, after consulting the Factory Manager he had withdrawn his offer with the result that the parties had to come to the Court.

The Respondents reminded the Court that this was the first agreement between themselves and the Claimants and that persons engaged since March 1970, would receive increases of approximately Sh. 60 p.m. On the other hand any persons engaged from the commencement of the company's activities in August 1967, had already received increases as follows:—

In August 1968, an increase was freely given of Sh. 60.

In October 1969, a further increase was given of Sh. 20.

The Respondents submitted that the rates which they had agreed for the different grades compared favourably with the rates which the Court had awarded in respect of two firms in the plastic industry. For these reasons they asked the Court to make a nil award on the Claimants' demand, although they conceded that they may consider awarding increases to employees on a basis of merit and productivity.

The Court after a careful consideration of all the arguments put forward by the parties, awards that all those workers who are in receipt of a wage which is higher than the rate for their grades should get an increase of Sh. 15 p.m. with effect from 1st May 1970, with similar increases every year for the duration of the agreement.

On the issue of gratuity the dispute relates only to two female workers in respect of whom no contributions have been made to the National Social Security Fund (hereinafter referred to as the Fund), and although the Respondents submitted that since there was every possibility that within the next two years the female employees would be covered by the Fund the Court should make a nil award. The Court is not prepared to do that. The Court awards that the female employees, since they are not covered by the Fund at present, should be entitled to a gratuity at the rate of 14 days' pay for each completed year of service with the Respondents until such time as they are covered by the Fund. This award would apply to them from the commencement of their service with the Respondents but they would not be entitled to it if they resign from their employment or are dismissed for gross misconduct.

On the final issue in dispute the Claimants demanded that in the event of a worker being injured on duty he should be entitled to full pay for all the period that he is not able to resume duty due to such injury. They maintained that there was nothing in the Workmen's Compensation Act which debarred them from negotiating superior benefits to those laid down in the said Act.

The attitude of the Respondents on the other hand was that the capital available for improving terms and conditions of employment had already been expanded in the direction of wages and other agreed fringe benefits. In any event, the Workmen's Compensation Act places a statutory obligation on employers which was usually covered by insurance. They reminded the Court that in the previous awards such claims had been rejected.

The Court notes that the parties have already agreed that in the event of a worker being sick, he would be entitled to full pay for the first 30 days and half pay for the next 30 days and the Court can see no reason why a worker who is injured by accident during work should get a lesser benefit than that under the sick pay. The Court awards that a worker who is injured by accident on duty should be granted the sick pay benefits after which he would be entitled to his statutory rights.

Given in Nairobi this 29th day of October 1970.

GAZETTE NOTICE No. 3241

THE TRADE MARKS ACT
(Cap. 506)

NOTICE is hereby given that any person who has grounds of opposition to the registration of any of the trade marks advertised herein according to the classes may, within 60 days from the date of this Gazette, lodge notice of opposition on Form T.M. No. 6 (in duplicate) together with a fee of Sh. 50.

Notice is also hereby given that official objection will be taken under rule 21 (3) to all applications in which the specification claims all the goods included in any class unless the Registrar is satisfied that the claim is justified by the use of the mark which the applicant has made, or intends to make, if and when it is registered. Where an applicant considers that a claim in respect of all the goods included in a class can be justified it will save unnecessary delay in examining applications if a claim is filed simultaneously with the application, accompanied in appropriate cases by supporting documents.

The period for lodging notice of opposition may be extended by the Registrar as he thinks fit and upon such terms as he may direct. Any request for such extension should be made to the Registrar so as to reach him before the expiry of the period allowed.

Formal opposition should not be lodged until after reasonable notice has been given by letter to the applicant for registration so as to afford him any opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Where it is stated in the advertisement of the applicant that the mark, upon its registration, is to be limited to certain colours, the colours are, as far as possible, indicated in the accompanying representations of the mark in the usual heraldic manner.

Representations of the marks advertised herein can be seen at the Trade Marks Registry, State Law Offices, Nairobi.

Applications for registration in Part A of the Register are shown with the official number unaccompanied by any letter. Applications for Part B are distinguished by the letter B prefixed to the official number.

The undermentioned applications are proceeding in the name of WINDMILL FERTILIZERS EAST AFRICA LIMITED, a company duly organized and existing under the laws of the Republic of Kenya, manufacturers and merchants, of P.O.
