## Colony and Protectorate of Kenya

---

### GOVERNMENT NOTICE No. 322

His Excellency the Governor in Council has approved of the following Bill being introduced into the Legislative Council.

J. F. G. TROUGHTON,  
*Acting Clerk of the Legislative Council.*

### **A Bill to Legalize the Payment of a Gratuity and a Reduced Pension to Horace Blackwell, Esquire.**

BE IT ENACTED by the Governor of the Colony of Kenya, with the advice and consent of the Legislative Council thereof, as follows :—

1. This Ordinance may be cited as the Blackwell Pension Ordinance, 1934. Short title.

2. Anything in the European Officers' Pensions Ordinance, 1927, and the European Officers' Pensions (Consolidation) Regulations, 1930, to the contrary notwithstanding, it shall be lawful for the Treasurer to pay out of the revenues of the Colony to Horace Blackwell, Esquire, such gratuity and reduced pension as would have been payable to him if he had exercised his option to receive a gratuity and a reduced pension in manner provided by Regulation 16 of the European Officers' Pensions (Consolidation) Regulations, 1930. Amount of gratuity and reduced pension to H. Blackwell.

---

### OBJECTS AND REASONS.

The object of this Bill is to enable effect to be given to Mr. Blackwell's wish to receive on ultimate retirement a gratuity and reduced pension in respect of his service under the Government of Kenya.

Mr. Blackwell was retrenched in 1932 and, although he had failed to exercise his option within the period specified in the Pensions Regulations, he was permitted, as were other officers in similar circumstances, to exercise his option on retrenchment. This payment to him of a gratuity and reduced pension was approved by Resolution of Legislative Council in March, 1933.

Mr. Blackwell was subsequently engaged by the Uganda Government and, as his case is being treated as a transfer from Kenya to Uganda and his service is being counted as continuous for pension purposes, it is necessary to make legislative provision in regard to the exercise of his option.

No expenditure of public money will be occasioned if this Bill becomes law until the date of Mr. Blackwell's ultimate retirement from the Colonial Service. On his retirement, the initial payment will be greater but the rate of annual pension payable thereafter will be correspondingly less in accordance with the regulations governing the commutation of one quarter of the pension due.

## GOVERNMENT NOTICE No. 323

J. F. G. TROUGHTON,

1. This Ordinance may be cited as the 1933 Supplementary Appropriation Ordinance, 1934. Short title.

2. The Public Revenue for the period 1st January to 31st December, 1933, and other funds of the Colony and Protectorate of Kenya are hereby charged towards the service of the period 1st January to 31st December, 1933, with a further sum of eighty-two thousand, six hundred and ninety-two pounds, sixteen shillings and seventy cents, in addition to the sums provided by the 1933 Appropriation Ordinance, 1933. #### GENERAL NOTICE NO. 565

LOCUST REPORT, 26TH APRIL, 1934.

KENYA.

##### *The Red Locust.*

*Coast Province.*—Small bands of hoppers are hatching out here and there in the Shimba Hills, but are being destroyed by beating as they appear. No large hatchings have yet taken place in Shimba, and no hatchings, large or small, have been reported elsewhere in the district, though reports of layings in the Mafisini area and near Ramisi have been received. At the request of the officer in charge a poison spray unit has been despatched to Digo for experimental purposes.

Malindi reports emergencies on a small scale in the Dagamar and Madunguni locations. These outbreaks are being dealt with and poison bait has been despatched to the officer in charge. Hoppers have also appeared during the last few days in the vicinity of Bura, on the Moshi line; the extent of this infestation is not yet known but measures have been adopted to deal with the situation.

Small swarms of flyers, reported to be in the laying stage are still circling to and fro over the railway line in the neighbourhood of Cherangwe, near Mombasa.

*Masai-Machakos Area.*—Though no hatchings have as yet been reported it is known that extensive layings have taken place in the country between Simba Station and the Tanganyika border, and particularly in the South Chyulu area. While this is not an easy territory to deal with, owing to lack of labour, roads and water, the situation is being investigated, and the necessary steps taken to cope with any eventual outbreak.

To the north of the railway in the Emali-Keiti River district the hopper infestation has increased considerably due to daily hatchings over a large area. The Locust Officer in charge reports that large numbers of natives are turning out daily on the work of destruction, and that the campaign in

the Matiliku district is progressing satisfactorily. As it is feared that the area of infestation may prove greater than one man can handle a special officer has been deputed to investigate the position on the spot, and should it be found that further assistance is required the necessary action will be taken without delay.

*Kisii-Sotik-Mara River Area.*—The honorary officer operating in the Mara River district reports that all hopper bands over an extensive area to the east of the river have now been exterminated by beating, burning and baiting. The whole of the country from the Mara to the Kisii border is covered with scattered bands of hoppers, and the above-named officer has now turned his attention to this infestation. It is hoped that it will be possible to report further satisfactory progress of this campaign next week, but owing to the large number of fresh daily hatchings the work can only progress comparatively slowly.

Over the border in the Kisii-Sotik district a report of a further hatching on a one-mile front along the Kipsonoi River has been received. This outbreak is being investigated and it is not expected that any difficulty will be encountered in dealing with the emergence.

From Kisii it is reported that the hopper infestation is spreading and that the appointment of a European Locust Officer with full equipment is essential. The necessary action has been taken and a sufficient supply of poison bait and equipment despatched.

*General.*—It will be gathered from the above that hatchings are general in practically all areas, and that as extensive daily emergencies are now in progress it is still too early to gauge the gravity of the situation as a whole. All that can be said at present is that every effort is being made to deal with each infestation as it arises and that the concerted measures have so far proved effective.

H. J. CARLISLE,

for Director of Agriculture.
