THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY

REPORT FOR THE PROPOSED CONSTRUCTION KIAMBU
ROAD SHOPPING MALL ON L.R. 5989/16, KIAMBU ROAD

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Construction of Kiambu Road Shopping Mall, on L.R. No. 5989/16, Kiambu Road.

The proposed project intends to construct a shopping mall (commercial centre) that will include a supermarket, coffee and food courts, a banking hall, offices, departmental stores, a theatre, aerobics hall(gymnasium) and adequate parking facility for up to 81 cars.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Loss of biodiversity	<ul style="list-style-type: none"> During the decommissioning stage the proponent shall rehabilitate the land by removing any unnecessary materials that shall be covering the land and preventing the natural biodiversity. After completion of the project the proponent will rehabilitate the land by planting trees and ornamental flowers on the disturbed areas. The grass cover that does not interfere with the siting of the project will be left intact.
Air quality/particulate matter (dust)	<ul style="list-style-type: none"> Vehicle speeds in the construction area will be limited to minimize dust in the area. Discourage idling of vehicles i.e. vehicle and equipment engines will be turned off when not in direct use to reduce exhaust emissions. Regular maintenance of construction plant and equipment. The management will sensitize the employees on sound environmental management. Provide Personal Protective Equipments such as nose masks to the workers on site. The construction contractor will water the site with exposed soil surfaces twice each day during dry weather.
Occupational health and safety	<ul style="list-style-type: none"> All workers should be provided with full protective gear. These include working boots, overalls, helmets, goggles, earmuffs, masks and gloves. Construction crew at the site will be sensitized on social issues such as drugs, alcohol and diseases. A first aid kit should be provided within the site. This should be fully equipped at all times and should be managed by qualified persons

Possible Impacts

Mitigation Measures

	<ul style="list-style-type: none"> • The contractor should have workmen's compensation cover. It should comply with Workman Injury benefits Act, as well as ordinances, Regulations and Union Agreements. • Adequate sanitary facilities should be provided and standard cleanliness maintained. • Food handlers preparing food for the workers at the site should be controlled and monitored to ensure that food is hygienically prepared. • Regular maintenance of machinery on site in line with the provisions of the Factories and other Places of Work Act CAP 514. 		<ul style="list-style-type: none"> • The proposed capacity of the sewerage treatment plant is big enough to accommodate the number of anticipated people • Proper construction of the sewage treatment plant will be done to meet the standards required by City Council • Quality building materials will be used to meet the standards of Kenya Bureau of Standards (KEBS)..
Soil erosion	<ul style="list-style-type: none"> • Avoid unnecessary movement of soil materials from the site. • Provide soil conservation structures on the areas prone to soil erosion mostly to reduce impact by the run-off. • Control construction activities especially during rainy conditions. • Re-surface open areas after completion of the project and introduce appropriate vegetation. • Provide suitable storm water drainage channels to effectively discharge water to safe areas. Channels need to be regularly maintained and repaired to avoid point discharge in case of breakages or blockages. • Conduct landscaping after the project completion to maximally control any possible chance of soil movement 	Surface drainage	<ul style="list-style-type: none"> • During construction, the design of the drainage system should ensure that surface flow is drained suitably into the public drains provided to control flooding within the site. • Drainage channels should be installed in all areas that generate or receive surface water such as car parking, drive ways and along the building block-edges of the roofs. • Channels should be covered by approved materials to prevent occurrence of accidents and entry of dirt that would compromise flow of run-off. • Drainage channels should ensure safe disposal of run-off/surface water and should be self-cleaning. • Paving of the side walkways, driveways and other open area should be done using pervious materials to encourage recharge and thus reducing water run-off volume.
Fire, oil spills contamination of underground water by effluent from generator room	<ul style="list-style-type: none"> • To curb fire the proponent should install fire fighting equipments which should be serviced regularly. • Workers who will work on the commercial centre including the storage facilities and supermarket should be trained on fire fighting skills and fire drills should be conducted at least once year. • Annual Environmental Audits will be conducted on the facility. • Assembly point and fire exists should be identified clearly within the proposed commercial centre. • A canopy should be constructed to allow proper air circulation to safeguard the health of workers. • Warning signs should be well labelled and deposited at appropriate places. These should include such warnings as "do not smoke", "switch off engine", "switch off phone" etc. • There should be a well stocked first aid kit. 	Solid waste	<ul style="list-style-type: none"> • The resulting debris will be collected, transported and disposed off at the appropriate and suitable dumpsites. • The materials should be properly segregated and separated to encourage recycling of some of wastes. Demolished stones can be used as backfills.
Sewage and effluent disposal	<ul style="list-style-type: none"> • Routine checkups and monitoring of the sewage treatment plant to avoid leakages and blockages. 	Noise	<ul style="list-style-type: none"> • Construction works should be carried out only during the specified time of 0800 hrs to 1700 hrs. • Machineries should be maintained regularly to reduce noise resulting from friction. • There should not be unnecessary honking of the involved machinery. • Provision of bill boards at the construction site giving notice to the construction activity and timings. • Sensitize drivers of construction machinery on effects of noise. • Billboards will be suitably erected on the start of the project to psychologically prepare the people in the vicinity. • Construction activities to be restricted to daytime. • Workers in the vicinity of high-level noise to wear safety and protective gears. • Provide barriers such as walls around site boundaries to provide some buffer against noise propagation.
<i>Possible impacts</i>	<i>Mitigation measures</i>	<i>Possible impacts</i>	<i>Mitigation measures</i>

- Increased water demand
- Avoid wasting the water supplied to the site during construction activities.
 - Encourage water reuse/recycling during both construction and operational phases.
 - Roof catchments should be provided with rainwater harvesting systems to enhance collection and storage of rain water

*Possible impacts**Mitigation measures*

- In order to encourage water conservation during operational phase the proponent should install water conserving taps that turn off automatically when water is not in use.
- The existing dam should be conserved and the water used for watering of flowers etc.
- The contractors should use water dowsers to bring in water for construction activities especially during periods of high water demand subject to authorization by existing water Regulatory Board.
- Provide notices and information signs on means and needs to conserve water resource to awaken the civic consciousness with regard to water usage and management.

Increased power demand

Use energy detectors for lighting systems to conserve energy.

All electrical appliances should be switched off when not in use.

Put off all lights immediately when not in use/required or are not needed

Use energy conserving electric lamps for general lighting.

Utilize natural light inside buildings to avoid using electricity for lighting during the day.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

REPORT FOR THE PROPOSED ASPHALT PROCESSING PLANT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed asphalt processing plant.

The proposed project will involve production and processing of asphalt. The facility will be situated on plot L.R. No. 20211 in Katana Location, Athi River Division, Machakos District.

The project anticipates the following impacts and mitigation measures:

*Possible Impacts**Mitigation Measures*

ENVIRONMENTAL IMPACT ASSESSMENT STUDY
REPORT FOR THE PROPOSED ELIDAS RANCH

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Eldas Ranch.

The proposed project intends to introduce better livestock management; more productive livestock breeds provide training and market opportunities to livestock in the area.

- Fencing the project area with a barbed wire supported by Concrete poles.
- Development of ground water supply through drilling of a borehole within the ranch.
- Development of paddocks.
- Introduction of Livestock specifically, Borana cattle, Galla and Somali goats, Somali, Gabra and Turkana camels.
- The ranch will engage in production of fodder to supplement the natural vegetation.
- Construction of a ranch house to house the ranch manager
- The developers intend to construct a 1.2 km long air strip within the ranch for private use where light aircraft can land.
- Other infrastructure facilities include: water storage tanks, pump house, communal water point, animal trough and water supply distribution network within the ranch.

The proposed ranch consists of 3665 ha of fenced range land, near the town of Eldas, 104 km west of Wajir.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Loss of access of pastoral land by the community	<ul style="list-style-type: none"> • Commitment from developer that the land will not be used other than for pastoral development and /or to seek permit for change of use. • Ranch to have higher livestock carrying capacity than free range • Avail grass and other vegetation seeds to be replanted in the free range during rainy season as compensation to the community. • Incorporate District Pastoral Association, District Livestock Development on Advisory Board for the Ranch. • Demarcate additional livestock access route on the western boundary corridor of the ranch that links to Kilikiley wells from the main Wajir-Eldas Road.
Introduction of new breeds of livestock	<ul style="list-style-type: none"> • Controlled experiments within the ranch before releasing into the public pasture lands. Approval of such breeds by district livestock officer • Develop training programme for local pastoralist who may want such breeds.
Vegetation degradation	<ul style="list-style-type: none"> • Conserve ranch as a Green Belt to compensate depletion in other areas around Eldas.
Possible Impacts	Mitigation Measures
Occupational Health and	<ul style="list-style-type: none"> • Incorporate Fire breaks within ranch to

Safety

limit risk of spreading to the range land

- Secure fuel for generator and other purposes in safe custody.
- Restrict burnings and fires within ranch.
- Install Livestock Crossing Warning Signs along the Wajir-Eldas Road within proximity of ranch.
- No visible buildings near the road side to limit stress to unaccustomed livestock.
- Provide illumination along the fence using solar power.
- Use safer fencing material.

Noise from Light Aircraft • Traffic distracting livestock in surrounding habitat.

Develop guidelines to pilots using the facility to use best practice in aircraft noise reduction as they approach livestock habitat both in ranch and outside.

Livestock straying into air strip

- Fence off air strip to keep off animals

Birds on air craft landing Zone

- Modify flight path, use noise generators or other established methods to avoid bird hazards.

REPORT FOR THE PROPOSED DEVELOPMENT OF BULK
MOUNDED LPG STORAGE FACILITY IN MIRITINI
DIVISION OF KILINDINI DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed development of a bulk moulded LPG storage facility in Miritini Division of Kilindini District.

The storage facility will consist of bulk LPG moulded storage tanks, a pipeline emanating from common user manifold (CUM) and connected to the LPG storage tanks, infrastructure and utilities.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
------------------	---------------------

- Geology and topography
- Prevent soil erosion all non-built up areas should be landscaped and appropriate soil bind grass planted.
 - LPG storage tanks will be constructed on top of a hill, construct and maintain retaining walls, stone pitching, gabions, etc. to prevent upstream run-on deposition of soil.
 - Grout all existing pipes after excavation of the 5m high topsoil.
- Surface water
- Ensure that spills emanating from construction plant and equipment are cleaned immediately.
 - If possible undertake initial construction activities during the dry season to prevent water/soil run-off especially on side slopes.
 - Water should be diverted away from the project footprint areas through properly constructed drainage channels.
- Air quality
- Develop and implement effective measures for minimization of dust during the preconstruction and construction phase, followed by rehabilitation in a timely manner.
 - Contractor to ensure that construction plant and equipment is in a good state of repair at all times to prevent adverse exhaust air emission.
- Waste
- Develop and implement safe procedures for management of non-hazardous and hazardous wastes in accordance with L.N. 121: Waste Management Regulations, 2006.
 - Contractor is responsible for this during the construction phase and proponent during the operational phase of the project.
- Noise and vibration
- Contractor's plant and equipment should comply as a minimum with requirements of L.N. 25: Noise prevention and control Rules, 2005.
- Traffic
- Develop and implement measures to repair regularly used roads to the project site especially the Magongo Road turn-off to the project site.
 - Ensure that contractor vehicles comply with axle loads limits.
 - Develop and implement a traffic management plan to take advantage of off-peak hours for delivery of construction materials and abnormal loads during the construction phase.
 - Contractor drivers should possess defensive driving skills gotten from a reputable training consultancy.
- Occupational health and safety
- Develop and implement contractor safety programme which includes the relevant provisions of OSHA, WIBA and their respective subsidiary legislation.
 - Specifically ensure that the construction complies with L.N. 40: Building Operations and Work of Engineering Construction Rules, 1984.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY
REPORT FOR THE PROPOSED NAIROBI WEST HOUSING
SCHEME PROJECT ON PLOT L.R. NO. 209/18566 OFF
LANGATA ROAD IN NAIROBI PROVINCE

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Nairobi West Housing Scheme Project by National Housing Corporation.

The proposed project intends to complete the stalled existing four blocks of two and three bedroom flats which had been started by the Kenya Railways Staff Pension Scheme, and in addition to constructing an additional 150 modern three bedroom units of 15 blocks. The project is located at L.R. No. 209/18566 in Nairobi West off Langata Road in Nairobi West District within the Province of Nairobi.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Air quality	<ul style="list-style-type: none"> • Watering all active construction areas as and when necessary to lay dust. • Cover all trucks hauling soil, sand and other loose materials or require all trucks to maintain at least two feet of freeboard. • Pave, apply water when necessary, or apply (non-toxic) soil stabilizers on all unpaved access roads, parking areas and staging areas at construction sites. • Sweep daily (with physical sweepers) all paved access roads, parking areas and staging areas at construction sites. • Fast growing trees will be planted around the project area to act as wind breaks to reduce the uplift of particulate matter that lead to respiratory diseases.
Noise emitted from the site	<ul style="list-style-type: none"> • Install portable barriers to shield compressors and other small stationary equipment where necessary.

Possible Impacts	Mitigation Measures
	<ul style="list-style-type: none"> • Use quiet equipment (i.e. equipment designed with noise control elements).

	<ul style="list-style-type: none"> • Co-ordinate with relevant agencies regarding all substation construction activities in the residential areas. • Install sound barriers for pile driving activity • Limit pick up trucks and other small equipment to a minimum idling time and observe a common-sense approach to vehicle use, and encourage workers to shut off vehicle engines whenever possible. • Construction/Demolition works should be done during the day when people are away and also the outside environment is also noisy. • Adhere to the provisions of Noise Prevention and Control Rules 2005, Legal Notice No. 24 regarding noise limits at the workplace.
Exhaust emission	<ul style="list-style-type: none"> • Vehicle idling time shall be minimized. • Alternatively fuelled construction equipment shall be used where feasible. • Equipment shall be properly tuned and maintained.

the construction works for enhanced self responsibility on personal safety

- The proponent should ensure that the completed buildings are fitted with safety facilities including fire detectors, fire fighting equipments, fire exits, adequate access and buffer between the residential premises.
- Disabled access features and safety signage should be placed strategically around and within the buildings.
- Appropriate sanitation conveniences should be provided at the site as required in the OSHA, 2007 and echoed in the Public Health Act.

- Waste water management
- It will also be important to ensure that sewage pipes are not blocked or damaged so that the waste can be directed to the sewer line.
 - Blockages or damages will be fixed expeditiously.
 - Waste water shall be disposed in compliance with the provisions of the Environmental Management and Coordination (Water Quality), Regulations 2006.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED BUSINESS CENTRE AND PETROLEUM FILLING/SERVICE STATION AT NEW KITUSURU ALONG GITATHIRU ROAD

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed development.

The proposed project entails the construction of a business centre and petroleum filling/service centre on Block 101/169 and 170 bordering Mwimuto Shopping Centre, New Kitusuru Estate.

The project anticipates the following impacts and mitigation measures:

<i>Possible Impacts</i>	<i>Mitigation Measures</i>	
Soil erosion	<ul style="list-style-type: none"> • Control earthworks. • Remediate contaminated soil. • Compact loose soils. • Landscaping. • Ensure management of excavation activities. • Control activities especially during rainy conditions. • Provide soil erosion control and conservation structures where necessary. • Proper disposal of excavated loose soil. 	<ul style="list-style-type: none"> • Ensure effective wastewater management. • Design of disposal system shall be as provided in the plans. • Provide First Aid kits on the site. • Sensitize residents/workers on environmental management. • Ensure there is no ponding to eliminate breeding of mosquitoes during construction. • Workers should be trained on occupational health and safety and first Aid administration. • Train staff on petroleum product handling. • Sensitize workers on HIV and AIDS.
Air pollution through dust and gaseous emissions	<ul style="list-style-type: none"> • Prohibit idling of vehicles at site during construction. • Water shall be sprayed during the construction phase of excavated areas. • Regular maintenance of construction plant and equipment. • Enclosing the site. 	Fire outbreaks <ul style="list-style-type: none"> • Install fire-fighting equipment as provided by local authority fire department. • Sensitize the residents on fire risks i.e. conduct regular fire drills. • Adapt effective emergency response plan. • Provide emergency telephone numbers at strategic points.
Noise pollution	<p>The measures to reduce noise pollution should include:</p> <ul style="list-style-type: none"> • Construction activities to be restricted to daytime. • Workers in the vicinity of or involved in high level noise to wear respective safety and protective gear i.e. earplugs and earmuffs. • Low noise selection of machinery. • Enclose the site. • Use low noise equipment. 	Fire safety training/emergency response procedures (ERPs) <ul style="list-style-type: none"> • To enhance health and safety preparedness among stakeholders. • Ensure equipment is in good working condition. • Put up emergency response contracts. • Put up ERP notification instructions
Oil pollution	<ul style="list-style-type: none"> • Proper storage, handling and disposal of new oil and used oil and related wastes. • Maintain plant and equipment to avoid leaks. • Maintenance of construction vehicles shall be carried out in the contractors yard (off the site). • Provide oil interceptors along the drains leading from car wash, service bays, oil storage areas and dispensing pump. • Test tank for integrity and product lines pressure. 	<ul style="list-style-type: none"> • Put up simple instructions on how to handle fires, product spills LPG incidents, armed robbery and product contaminations.
Water resource/water quality/waste management	<ul style="list-style-type: none"> • Management of water usage. Avoid unnecessary wastage especially at the car washing bay. • Recycling of water at the construction phase where possible. • Rain water harvesting to be done. • Use of water conservation signs at the wash rooms and install water conservation taps. • Follow the NEMA regulations on water quality and waste management. 	<p>The full report of the proposed project is available for inspection during working hours at:</p> <p>(a) Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
