THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED PETROL STATION AT KISUMU/
MANYATTA B/3068 ALONG NAIROBI-KISUMU HIGHWAY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed petrol station.

The proposed project entails redesigning of the existing MGS filling station and will include underground tanks, oil receptor tank, general room, compressor room, tyre centre, office block, water tanks and a sewer disposal.

The Kisumu Filling Station is situated along Nairobi – Kisumu Highway about 1.5 km from Kisumu Town and 900m from Nyamasaria centre on plot Kisumu/Manyatta B/3068.

Possible Impact	Mitigation Measures
Solid waste management	<ul style="list-style-type: none"> Provide different types of bins to contain different types of solid waste produced after which they shall be disposed accordingly by a licensed waste handler.
Air pollution	<ul style="list-style-type: none"> Ensure that all the kerbside breathers are raised high to facilitate air circulation thereby reducing cases of air pollution. Regular washing of the toilets and urinals to control bad odor from forming
Occupational health and safety	<ul style="list-style-type: none"> Provide toilets for the workers which shall be kept clean at all times. Provide clean water at the construction site for use by the workers. Hire only licensed construction workers

Possible Impact

Mitigation Measures

	<ul style="list-style-type: none"> on the site Workers to undergo medical check –ups. Contracting qualified and experienced builders Providing written instructions on how to respond during accidents Provide a list of contact persons and hospitals to be contacted during accidents All the employees to undergo regular medical check-ups.  ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
 FOR THE PROPOSED CONSTRUCTION OF SIBED PETROL
 STATION ON PLOT NO. L.R. 209/13959 KILIMAMBOGO/
 JOGOO ROAD, KALOLENI ESTATE, NAIROBI EAST
 DISTRICT, NAIROBI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Sibed petrol station.

The proposed Sibed Petrol Service Station shall comprise installation of four underground storage tanks, fuel filler points and three pump islands. Construction of the service station on a hard standing layer which shall include a canopied forecourt area above the fuel dispensing points and will also include:

Basement

- 25 parking slots.
- Generator room.
- Water tanks (2 lots).
- Ramp.

Ground floor

- A lower floor chemist
- Lower floor restaurant with an adjust kitchenette
- Bank on lower floor with an adjust ablution block
- An ablution block with separate facilities for ladies and gents.
- Space over lamp.
- A covered verandah
- Parking lot

Mezzanine

- 2nd floor
- Executive office space
- Ablution block

The proposed petrol service station shall be constructed in Kaloleni area along Jogoo Road on plot No. L.R. 209/13959 adjacent Kilimambogo Road, Eastlands in Nairobi Province. The site is opposite the Kenol/Kobil petrol station.

Possible Impact

Mitigation Measures

Waste management

- Contractor/developer to engage a private waste handler that is NEMA certified to handle solid waste generated during construction phase.
- Garbage chute to be constructed for the project to handle solid waste emanating from the project during the implementation phase.
- Awareness will be created on waste management including segregation of waste materials.
- NEMA certified waste management company to be awarded the contract of managing waste within the proposed premises.

Sewer management

- CNN sewer line shall be used but septic waste tank will be constructed into which waste water from the swimming pool shall be regularly emptied.
- Appropriate technology need to be incorporated during the design and construction phases of the septic tank to ensure that rainy conditions do not adversely affect the sustainability of the septic tank.

Possible Impact

Mitigation Measures

Dust emission

- A dust wall shall be built to reduce chances of dust being carried away by wind and spreading to the

neighbourhood.

- Manual labour shall be used instead of machines especially in the construction.
- Cover all trucks hauling soil, and other loose materials or require all trucks to maintain at least two feet freeboard.

Increased traffic

- During construction phase, there shall be increased traffic. To cater for this, the developer is expected to do construction between 8.00 a.m. to 5.00 p.m. with hour break at 1.00 p.m. for minimum interference to the normal flow of the traffic along Jogoo Road during peak hours of the day.

Security

- A perimeter wall shall be built. The contractor shall recruit persons of good-standing during construction period.
- There shall be controlled access to the site only through the gate.
- Guards at the gate shall also ensure security is beefed up.

Noise generation

- The machines to be used shall be those that shall be of low noise production levels.
- Construction to take place during the day i.e. 8.00 a.m. to 5.00 p.m. when the majority of the neighbours are at work.

General development of the area

- This is a positive impact and its welcome.
- The development shall also open up the area to other investors in commercial building.

Job creation

- The fact that manual labour shall be sourced from the area; shall create employment to the locals especially the youth.
- Once the project is complete, it shall also employ people to assist in its daily cores. This is a positive outcome and it is a positive outcome and it is welcome.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Permanent Secretary, Ministry of Environment and Mineral Resources, N.H.I.F. Community, P.O. Box 30521, Nairobi.

NO. MAVOKO BLOCK 2/4193-4225 IN KATANI AREA,
SYOKIMAU OFF MOMBASA ROAD, MLOLONGO,
MACHAKOS DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed housing development.

The proposed development entails construction of residential housings for sale on a 10 acre piece of land located on Plot L.R. No. Mavoko Block 2/4193-4225 in Katani area, Syokimau. The Estate will consist of 125 housing units, a shopping center, swimming pool, security fence round the estate, waste treatment plant amongst other amenities.

Possible Impact	Mitigation Measures
Land	<ul style="list-style-type: none"> Ensuring vegetative cover on unpaved surfaces to maintain the integrity of soil structure within the project area and where the vegetation has been destroyed landscaping shall be undertaken. Proper waste management (both solid and liquid) to avoid polluting the soil and unsightly environment
Biological diversity	<ul style="list-style-type: none"> Maintain where possible trees and the larger flora Planting of more trees at or near the site during and after the construction phase of the development Creation and maintenance of a buffer between the project and other land uses to mitigate micro climate modification
Air	<ul style="list-style-type: none"> Maintaining low dust levels during construction through either surfacing the non-surfaced portion of the road or/and water regions not paved. This will reduce the amount of dust generated. Installation of scrubbers on the exhausts of emitting machinery Erection of screens and buffer fences (noise barriers) to reduce the amount of dust and noise generated during construction reaching neighboring utilities Use of noise absorbent padding in fixed plant installations Use of silencers/mufflers in Heavy Earth Moving Machines (HEMM) Use of ear-muffs by employees to reduce any exposure from noise Retain and continue planting green- belts to create barriers between source and receiver this strategy is a long term measure as trees take a long time to be effective in creating noise barriers. Flower bushes and shrubs can be planted around noise emitting utilities
Water	<ul style="list-style-type: none"> Ensure conservation of water in the construction phase through wise and only necessary use as well as recycling where applicable and appropriate Management of any liquid and solid wastes to ensure that they do not lead to the contamination of surface water in the nearby streams and the underground

waters

- Employing water catchments measures such as roof catchments where water harvested this way can be used for cleaning or lawn maintenance purposes
- Maintaining vegetative cover within the non- paved area so as to reduce direct evaporation and
- Maintain the micro- climate of the area.

Hazards

Hazards especially from moving vehicles and trucks in and out of the site could be handled in a number of ways

- Erecting hazards warning signs
- Using smaller trucks that make narrow turnings
- Construct storm water drains to channel flood waters given the steep slope of the site
- Keep the percentage of the area of impervious surface as low as possible to reduce runoff during storm periods

The full report of the proposed project is available for inspection during working hours at:

- Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Kyeni-Embu 132kv electrical transmission line and associated substations.

The proposed project involves construction of a 21kms 132 kV electrical transmission line from Kyeni to Embu. This transmission line is a t-off of the Ishiara 132kV transmission line. The components of the proposed project include:

- A 21km 132Kv electrical transmission line from Kegonge in Kyeni Division to Gatondo in North Location of Embu West District.

- A 132/33kV electrical sub-station at Kegonge in Kyeni Division of Embu East District.
- A 132Kv electrical sub-station at Gatondo in Embu West District

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Terrestrial habitat Alteration	<ul style="list-style-type: none"> • Re-vegetation of disturbed areas with native plant species; • Undertake selective clearance by removing tall woody species leaving saplings, for quick regeneration of vegetation along the way-leave • The selective removal of tall-growing tree species and the encouragement of low growing grasses and shrubs in transmission line rights-of-way. • Removal of alien invasive plant species, • Cultivating native plant species; • Avoiding clearing in riparian areas; • Vegetation management should not eradicate all vegetation
Noise and vibration	<ul style="list-style-type: none"> • Sensitise the workforce and truck drivers on issues of equipment maintenance. Supervise construction traffic, maintain plant and equipment, undertake construction only during the daytime for peace of the neighbours, workers to wear ear plugs, muffs as part of the personal protective gear. • Consider the possibility of investing in silencers to reduce quantity of noise produced • Create a barrier well beyond the perimeter of the high level noise area and the community
Aquatic habitat alteration	<ul style="list-style-type: none"> • Minimizing clearing and disruption to riparian vegetation.
Risk of leaks or spills	<ul style="list-style-type: none"> • Regular maintenance of site equipment • Investigate the possibility of catalytic converters • Safety procedures for fuel storage and refuelling
Road safety	<ul style="list-style-type: none"> • Enforce speed limits for construction vehicles during construction, design a separate vehicle entry different from the common entrance with the residents, streamline traffic flow into and out of the premises, initiate changes in traffic flow in the micro-area upon commissioning, install approximate cautionary signage for motorists entering the premises. • Ensure appropriate road safety signage • Ensure all drivers adhere to the traffic laws and requirements • Erection of bumps where human and vehicular traffic have high interaction opportunities
<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Power line related avifauna mortalities	<ul style="list-style-type: none"> • To minimize collision, undertake wire-marking to alert birds to the presence of power line, allowing them time to avoid the collision. • Build raptors platforms on top of pylons for roosting and nesting

Soil erosion	<ul style="list-style-type: none"> • Soils excavated for the erection of towers should be used for re-filling and should not be left exposed to wind or water for long periods • The contractor should avoid steep terrain during the transportation of construction material by using alternative routes or use light vehicles where appropriate • Riverine vegetation should be minimally disturbed during the construction phase to reduce soil erosion and safeguard riverbank protection • Re-plant degraded areas with local species common in the area to complement natural vegetation regeneration to improve ground cover.
Air Pollution (dust, fuel emissions)	<ul style="list-style-type: none"> • Control speed of construction vehicles • Prohibit idling of vehicles • Water should be sprayed during the construction phase on excavated areas • Regular maintenance of plant and equipment. • Provision of dust masks for use when working in dusty conditions
Contamination of ground and surface water	<ul style="list-style-type: none"> • Maintenance of construction vehicles should be carried out in the Contractor's camp and a recognized garage • Proper storage, handling and disposal of oil wastes from machinery, discourage servicing of machinery and vehicles
Management of Solid Waste	<ul style="list-style-type: none"> • Contractor must dispose solid wastes away from the site to an approved disposal site. • Temporary pit latrine for construction workers
Risk of fire	<ul style="list-style-type: none"> • Establishing a network of fuel breaks of less flammable materials or cleared land to slow progress of fires and allow fire fighting access. • Provision of fire safety system that includes training, firefighting equipment; regular maintenance of machinery, vehicles and equipment; and no burning activities to be allowed close to or within the site • Controlled burning of vegetation in transmission line rights-of-way should adhere to applicable burning regulations, fire suppression equipment requirements, and typically must be monitored
Electrocution from Live Power Lines	<ul style="list-style-type: none"> • A maintenance system to ensure physical integrity of structures is maintained • Deactivating and properly grounding live power distribution lines before work is performed on, or in close proximity, to the lines;

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED JUPITER SERVICE STATION ON PLOT NUMBER LR/KAK/MUN BIV/487 ALONG KAKAMEGA- KISUMU ROAD, KAKAMEGA DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed service station.

The project involves construction of a petrol station consisting of pumps, storage tanks, parking area, service bay facilities on a 0.2297 hectare plot situated along Kakamega-Kisumu Road 0.5 Km from Kakamega Town in Kakamega Municipality Division, Kakamega Central District, on Plot Number LR/KAK/MUN BIV/487.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Minimize vegetation disturbance	<ul style="list-style-type: none"> • Ensure proper demarcation and delineation of the project area to be affected by construction works. • Designate access parking for the vehicles. • Design and implement an appropriate landscaping programme to help in re-vegetation of part of the project area after construction.
Storm-water, runoff and soil erosion	<ul style="list-style-type: none"> • Apply soil erosion control measures such as leveling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil. • Ensure that any compacted areas are ripped to reduce run-off. • Open drains all interconnected to be provided on site.
Solid waste management	<ul style="list-style-type: none"> • Use of an integrated solid waste management system i.e. through, recycling, reuse, Combustion and Sanitary land filling. • Comprehensive BOM • Ensure that construction materials left over at the end of construction to be used in other projects rather than being disposed off. • Ensure that damaged or wasted construction materials including timber made doors, plumbing and lighting fixtures, and glass be recovered for refurbishing and use in other projects • Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements

Possible Impacts

Mitigation Measures

- Purchase of perishable construction materials such as paints should be done incrementally to ensure reduced spoilage of unused materials
- Use building materials that have minimal or no packaging to avoid the

	<ul style="list-style-type: none"> generation of excessive packaging waste Waste collection bins to be provided at designated points on site Private waste disposal company to be contracted to transport and dispose the stubborn solid waste from site Provide solid waste handling facilities such as waste bins and skips Ensure that solid waste generated is regularly disposed of appropriately at authorised dumping sites Ensure efficient waste management through recycling, reuse and proper disposal procedures. Donate redundant but serviceable equipment to charities and institutions Ensure strict enforcement of on-site speed limit regulations Avoid excavation works in extremely dry weathers Sprinkle water on graded access routes when necessary to reduce dust generation by construction vehicles Personal Protective equipment to be worn Vehicle idling time shall be minimized Equipment shall be properly tuned and maintained Sensitize truck drivers to avoid unnecessary racing of vehicle engines at loading/offloading points and parking areas, and to switch off or keep vehicle engines at these points
Dust and exhaust emissions	
Noise and Vibration	<ul style="list-style-type: none"> Sensitize construction vehicle drivers and machinery operators to switch off engines of vehicles or machinery not being used, to avoid gunning of vehicle engines or hooting especially when passing through sensitive areas such as churches, residential areas and hospitals Ensure that construction machinery are kept in good condition to reduce noise generation Ensure that all generators and heavy duty equipment are insulated or placed in enclosures to minimize ambient noise levels. Plant trees around the site so as they can act as buffer against noise propagation The noisy construction works will entirely be planned to be during day time when most of the neighbours will be at work.
Energy Consumption	<ul style="list-style-type: none"> Ensure electrical equipment, appliances and lights are switched off when not being used Install energy saving fluorescent tubes at all lighting points instead of bulbs which consume higher electric energy Monitor energy use during construction and set targets for reduction of energy use.
Possible Impacts	Mitigation Measures
Wastewater management	<ul style="list-style-type: none"> Provide means for handling sewage generated by construction workers Conduct regular checks for sewage pipe blockages or damages since such vices can lead to release of the effluent into

	<ul style="list-style-type: none"> the land and water bodies Provide sanitary facilities for the construction workers Firefighting equipment such as fire extinguishers and hydrant systems shall be provided at strategic locations such as stores and construction areas. Regular inspection and servicing of the equipment must be undertaken by a reputable service provider and records of such inspections maintained Signs such as "NO SMOKING" must be prominently displayed within the site, especially in parts where inflammable materials are stored
Fire protection	

The full report of the proposed project is available for inspection during working hours at:

Storm-water, runoff and soil erosion	<ul style="list-style-type: none"> Plant trees around the site so as they can act as buffer against noise propagation Apply soil erosion control measures such as leveling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil. Ensure that any compacted areas are ripped to reduce run-off. Open drains all interconnected to be provided on site.
Solid waste management	<ul style="list-style-type: none"> Use of an integrated solid waste management system i.e. through, recycling, reuse, Combustion and Sanitary land filling. Ensure that construction materials left over at the end of construction to be used in other projects rather than being disposed off. Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements Purchase of perishable construction materials such as paints shall be done incrementally to ensure reduced spoilage of unused materials Use building materials that have minimal or no packaging to avoid the generation of excessive packaging waste
Dust and exhaust emissions	<ul style="list-style-type: none"> Avoid excavation works in extremely dry weathers Sprinkle water on graded access routes when necessary to reduce dust generation by construction vehicles Personal Protective equipment to be worn Vehicle idling time shall be minimized Equipment shall be properly tuned and maintained Sensitize truck drivers to avoid unnecessary racing of vehicle engines at loading/offloading points and parking areas, and to switch off or keep vehicle engines at these points
Noise and Vibration	<ul style="list-style-type: none"> Sensitize construction vehicle drivers and machinery operators to switch off engines of vehicles or machinery not being used, to avoid gunning of vehicle engines or hooting especially when passing through sensitive areas such as churches, residential areas and hospitals Ensure that construction machinery are kept in good condition to reduce noise generation Ensure that all generators and heavy duty equipment are insulated or placed in enclosures to minimize ambient noise levels. The noisy construction works will entirely be planned to be during day time when most of the neighbours will be at work.
Possible Impacts	Mitigation Measures
Energy Consumption	<ul style="list-style-type: none"> Ensure electrical equipment, appliances and lights are switched off when not being used Install energy saving fluorescent tubes at all lighting points instead of bulbs which consume higher electric energy Monitor energy use during construction

Fire and explosion hazard prevention	<ul style="list-style-type: none"> and set targets for reduction of energy use. Regular inspection of the fire extinguishers. Installation of at least six (6) 10 litre dry sand buckets or proper position at the front and inside the premises. Put more hazard –warning signs – “NO SMOKING/SWITCH OFF ENGINE” install audible fire alarm systems; Train staff on fire/accident emergency procedures and carry out review drills
Spill and leak prevention	<ul style="list-style-type: none"> Construction of waste oil and spill interceptors and collection system; Purchase standby evacuation/section pump as additional emergency measure to contain spillage
Water quality	<ul style="list-style-type: none"> Regular maintenance of drains both inside and outside the depot to avoid blockage and overflows. Regularly monitor affluents according to the Butere council by laws standards.

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
