GAZETTE NOTICE NO. 14142

THE ENERGY ACT

(No. 12 of 2006)

IN THE MATTER OF RECENT INCREASES OF RETAIL
PETROLEUM PRICES

PUBLIC NOTICE

The Energy Regulatory Commission has noted with concern that local petroleum marketing companies have a tendency of increasing pump prices of petroleum products even when there are no corresponding increases in the related input costs.

The functions of the Commission under the Energy Act, No. 12 of 2006, include monitoring, ensuring implementation of, and the observance of the principles of fair competition and; the protection of the interests of consumers and investors in the energy sector.

In the month of October 2010, many petroleum marketing companies increased pump prices despite the fact that the international prices of both crude oil and refined petroleum products had remained almost unchanged during the previous five months.

In this month of November 2010, the Abu Dhabi National Oil Company (ADNOC) fixed the price of Murban crude oil lifted in October at US Dollars 81.50 per barrel (one barrel is approximately 159 liters), compared to the previous price of US Dollars 75.9 per barrel, for loadings made in the month of September, 2010. During the month of October, 2010 there were also increases in the international prices of refined petroleum products.

Even after taking into account the increases in international prices during month of October, 2010, the quantum of many of the increases in pump prices over the months of September and October 2010 were unjustified and the petroleum marketing companies are making abnormally high profits at the expense of petroleum consumers.

According to the Commission's calculations, the current pump prices of petroleum products for Nairobi should not exceed the following prices:

Super Petrol	Kenya shillings 95.00 per liter
Kerosene	Kenya shillings 76.00 per liter
Diesel	Kenya shillings 88.00 per liter

The Commission advises consumers to procure their petroleum products requirements from those marketing companies posting lower prices. In this way consumers will encourage competition among the petroleum marketing companies.

The Commission further requests the petroleum marketing companies to desist from effecting arbitrary price increases without corresponding increases in their input costs.

GAZETTE NOTICE NO. 14143

THE ENERGY ACT

(No. 12 of 2006)

IN THE MATTER OF A DISPUTE UNDER THE ENERGY ACT,
2006

BETWEEN

CHANDARIA INDUSTRIES LIMITED (CONSUMER)

AND

THE KENYA POWER & LIGHTING COMPANY LIMITED
(LICENSEE)

DECISION

On 8th November 2007, the Energy Regulatory Commission (ERC) received a complaint from Chandaria Industries Limited (Chandaria) pertaining to errors in the connection of instrument transformers for the metering system at their Baba Dogo Factory by the Kenya Power and Lighting Company Limited (KPLC).

Chandaria complained that in 1998 after KPLC replaced the electromechanical meters with electronic ones at their factory, the power factor and maximum demand went up. In 2006, Chandaria installed their own check meters to enable comparison with the KPLC meters and realized that their check meters were recording between 15% and 24% lower than the KPLC meters and reported the same to KPLC.

Following visits and investigations by various teams, KPLC found out that some current transformers (CT) were not properly connected and some voltage transformer (VT) circuits were mismatched. These errors were corrected on 30th October, 2006. From then on, the two sets of meters have been recording similar readings.

Correspondence from KPLC to Chandaria was not consistent as to which CTs were not properly connected and which VT circuits were mismatched.

It was Chandaria's case that from 1998 to 2006, for about 8 years, they were over billed by KPLC by between 15% and 24% and should get a corresponding refund. Average billings during this period were about KShs.5.5 million per month.

In the correspondence, KPLC agreed with Chandaria on its complaint but disagreed that the overbilling could be as high as claimed by Chandaria.

At a meeting held with the parties on 11th June 2008 at the ERC offices, it was agreed that KPLC be allowed by Chandaria to simulate the wiring situation, as it were, before correction and compare readings from the simulated wiring with those from the existing one so as to arrive at a reasonable quantum that could be the basis for refund to Chandaria.

However, later, Chandaria declined to allow KPLC to effect the simulation stating that they could not trust KPLC due to the conflicting correspondence from KPLC as to the defects in the meter wiring prior to the correction.

At a further meeting held with the parties on 30th September 2008 at Chandaria Industries, it was decided that due to the complexity of the dispute, a Dispute Resolution Panel (DRP) be constituted in accordance with sections 11.2.5 to 11.2.12 of the *Grid Code* to assist ERC arrive at a fair decision.

On 4th June 2009, and following consultations with Chandaria and KPLC, ERC constituted a Dispute Resolution Panel (the DRP) comprising three experienced engineers namely, Eng Victor Ongewe (proposed by Chandaria), Eng Dr Maurice Mangoli (proposed by KPLC) and Eur Ing Joab Odeny (proposed by ERC).

The DRP conducted their investigation and gathered evidence on the dispute and after thorough analysis came up with the final report (the report), comprising Six Hard Copies and an Electronic Version, which was presented to ERC on 20th August, 2010.

The DRP in the report, *inter alia*, NOTED that-

- (1) On 26th June, 1998, KPLC replaced their electromechanical meter with an electronic unit type *Landis & Gyr ZFB410CT* at the 11kV meter station PM2 at the premises of Chandaria Industries Limited in Baba Dogo Road, Nairobi. An error occurred during the operation as Chandaria's electricity bills went up and the unity power factor shot up and remained there until a corrective measure was taken several years later on 30th October, 2006.
- (2) The high electricity bills and power factor events generated a complaint by Chandaria which later turned into a dispute after Chandaria lost trust in KPLC's explanations of what went wrong, and the parties decided to approach ERC for assistance.
- (3) Following the change of meter on 30th October 2006, neither Chandaria nor KPLC noticed or acted on the anomalies in the bills, especially the persistent unity power factor, until much later.
- (4) Information supplied by both parties pointed to a mistake in the wiring of the meter from the auxiliary current and voltage transformers.
- (5) Test bench simulations established that the blue phase current supply into the meter had been reversed and the voltage leads of the yellow and blue phases had been interchanged.
- (6) The defect in wiring had the effect of inflating the kVA and kVAh readings by a constant error of 15.47% while inflating the kW and kWh readings by an error which depended on the load and the power factor angle (ϕ).

$$\text{Error} = \tan\phi / \sqrt{3} \times 100\%$$

According to the report, the DRP worked with data supplied by KPLC and Chandaria and determined a representative power factor for the period under dispute to be 0.9503 which enabled the flawed meter readings to be corrected.

According to the report, the DRP calculated charges based on the flawed meter readings and the adjusted readings under each and all of the charge headings and the amounts overbilled determined under the same, with billing rates supplied by KPLC.,

According to the DRP report, actual hard copy bills tendered to Chandaria by KPLC were scrutinised and any discrepancies built back into both sets of calculations. In this way, the refundable differences between the two sets would be only those arising from the meter wiring problems.

According to the DRP report, the influence on the calculated figures was minimal; reducing the total bill by only 0.04% and the total VAT levied by only 0.12%, but the purpose was achieved to ensure that any refunds payable are of moneys actually already paid against the metering flows.

According to the DRP report, KPLC overbilled Chandaria by a total of KShs 57,609,494.85, which included VAT (KShs 7,785,721.87) as well as levies for the defunct Electricity Regulatory Board and the Rural Electrification Programme (REP).

A summary of findings by the DRP is as set out in the Table here-below-.

	ERB LEVY	REP LEVY	VAT	TOTAL	TOTAL LESS VAT
Charges based on Flawed meter readings	1,560,318.20	10,846,688.65	49,660,703.03	367,626,847.69	317,966,144.66
Charges based on Corrected meter readings	1,318,902.92	9,163,716.29	41,874,981.16	310,017,352.83	268,142,371.67
Variance	241,415.28	1,682,972.36	7,785,721.87	57,609,494.85	49,823,772.99

ANALYSIS OF BILLINGS IN KSHILLINGS

Following the above, the DRP recommended that:-

- (a) KPLC should refund a sum of KShs 49,823,772.99 to Chandaria, being the total overbilled amount exclusive of VAT and Chandaria is entitled to claim back directly from the Kenya Revenue Authority VAT in sum of KShs 7,785,721.87;
- (b) KPLC should recover a sum of KShs 241,415.28 from ERC, being ERB levy erroneously collected from Chandaria and remitted to ERC, and
- (c) KPLC should recover a sum KShs 1,682,972.36 from Rural Electrification Authority (REA), being REP levy erroneously collected from Chandaria and remitted to REA or its predecessor.

At its 29th meeting held on 28th October 2010, the Commission deliberated on the report of the DRP. After deliberations, the Commission approved the report of the DRP and its recommendations.

Consequently, the following is the decision of the Commission on this long outstanding dispute-

1. THAT KPLC shall refund a sum of KShs 49,823,772.99 to Chandaria, being the total overbilled amount exclusive of VAT and Chandaria shall claim back directly from the Kenya Revenue Authority VAT in the sum of KShs 7,785,721.87.
2. THAT KPLC shall recover a sum of KShs 241,415.28 from ERC, being ERB levy erroneously collected from Chandaria and remitted to ERC.
3. THAT KPLC shall recover a sum KShs 1,682,972.36 from Rural Electrification Authority (REA), being REP levy erroneously collected from Chandaria and remitted to REA or its predecessor.

Dated the 28th October, 2010.

THE NATIONAL ENVIRONMENT MANAGEMENT
AUTHORITYENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED CONSTRUCTION OF A NEW SUGAR
MILL IN MIWANI, KENYA

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed new sugar mill.

The proposed project comprises a feasibility study for the construction and operation of a privately owned sugar mill in Miwani. The proposed sugar mill is designed to process 3,000 tonnes of cane per day. The proposed development entails the construction of the complete sugar mill, cogeneration plant, administration office, maintenance workshop and warehousing.

The project site will be adjacent to the defunct sugar mill in Miwani, Nyanza Province, Kenya.

The following are the anticipated impacts and mitigation measures:

Possible Impact	Mitigation
Ground water	<ul style="list-style-type: none"> All effluent discharge must be strictly controlled and tested on a regular basis to ensure compliance with standards. All activities involving hydrocarbons must take place on sealed surfaces and oil traps installed.
Air quality	<ul style="list-style-type: none"> Surface treatments such as wet suppression. The application of hygroscopic materials such as chloride salts or chemical soil stabilizers. Application of organic or synthetic compounds, such as calcium lignosulphonate that physically bind the dust particles together. Regular maintenance of road surrounding the mill and efficient handling of product.

Possible Impact

Mitigation

	<ul style="list-style-type: none"> The loading, transfer and discharge of materials should take place with a minimum height of fall and be shielded against the wind as well as the use of dust suppression spray systems. Controls to reduce emissions from unpaved roads include vehicle restrictions which limit the speed and weight and number of vehicles on the road and surface improvements (paving or adding gravel to the road). Wind erosion from open areas can be minimized through vegetation and the use of wind-breaks. Vehicle tail pipe emissions can be minimized through the regular maintenance of all vehicles. Regular maintenance of stacks and other equipment to ensure that emissions remain within the required standards. Thorough investigations into implications on emissions prior to changing any equipment in the plant.
Noise	<ul style="list-style-type: none"> Silencers applied to all relevant equipment. Regular maintenance of noisy equipment. Thorough investigation into noise implications of any new equipment to be used to ensure compliance with relevant standards.
Biodiversity	<ul style="list-style-type: none"> No discharge policy to be maintained. Any discharges that do occur must be with the water quality guidelines and tested regularly. All surface water runoff must be channeled and treated prior to leaving the site and not be allowed to enter the surrounding areas if contaminated. A natural landscaping approach must be applied which entails the planting of locally indigenous species around the plant in areas not used for cane. This will encourage the return of bird species and smaller animal species.
Surface water	<ul style="list-style-type: none"> All crossings must be appropriately managed with no water flow interruptions. Roads must be well maintained to reduce siltation risks. All discharges into rivers must be maintained so as not to result in erosion of river banks. Regular maintenance of these areas must be undertaken with natural landscaping to manage erosion risks.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Permanent Secretary, Ministry of Environment and Mineral Resources, N.H.I.F. Community, P.O. Box 30521, Nairobi.
- Provincial Director of Environment, Nyanza Province.
- District Environment Officer, Nyando District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed low cost housing scheme.

The proposed project will comprise of 450 housing units which will be multi-storied blocks, each block comprising 16 number flats with three floors each. The project will be undertaken within a period of five years, in the first year 150 housing units will be constructed and the rest in the preceding year's.

The specific site is on Block No. 20/ 285 within Nakuru Municipality, Nakuru District. The Site lies about 1.5km to the North from the town centre.

The following are the anticipated impacts and proposed mitigation measures

<i>Impact</i>	<i>Proposed Mitigation</i>
Changes in hydrology/impended drainage	<ul style="list-style-type: none"> • Proper installation of drainage structure. • Ensure efficiency of drainage structures through proper design and maintenance.
Soil erosion	<ul style="list-style-type: none"> • Control earthworks • Install drainage • Compact loose soil • Landscaping • Management of excavation activities • Control activities during rainy conditions • Provide soil erosion control structures on the steep sides during construction phase
Air Pollution	<ul style="list-style-type: none"> • Control speed and operation regular maintenance of construction vehicles/plant equipment • Sprinkling of water during construction phase
Noise Pollution	<ul style="list-style-type: none"> • Sensitize drivers on noise management • Maintenance of plant equipment • Construction activities to be restricted to daytime • Workers in the vicinity of high level noise to wear safety and protective gear. • Provide noise buffers such as walls and trees around site.
Oil Pollution	<ul style="list-style-type: none"> • Proper storage handling and disposal of oil waste. • Maintain plant and equipment to avoid leaks • Maintenance of construction vehicles shall be carried out in the contractor's yard of the site. • Provide oil interceptors along the drains leading from the carwash and service bays
High water demand	<ul style="list-style-type: none"> • Management of water use to avoid unnecessary wastage • Recycling of water at the construction phase where possible. • Rainwater harvesting

*Impact**Proposed Mitigation*

Contractors lay down area	<ul style="list-style-type: none"> • Install automatic water taps • Special attention shall be paid to sanitary facilities on site • Garbage shall be disposed off periodically at approved dumpsites
Road Safety	<ul style="list-style-type: none"> • Enforce speed limits for construction vehicles especially along roads leading to the site • Provide bill boards at the site entrance to notify motorists about the development
Public health and occupational safety	<ul style="list-style-type: none"> • Ensure proper solid waste disposal facilities • Ensure effective waste water management • Sensitize residents on environmental management • Provision of Personal Protective Equipment (PPE)

GAZETTE NOTICE NO. 14152

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED 66/11KV KIAMBU ROAD SUBSTATION

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority has received an Environmental Impact Assessment Study Report for the implementation of the proposed 66 KV substation.

The proposed sub-station will have a 66kV high voltage incoming sub-transmission line with several 11kV feeder lines going out. The incoming 66kV voltage will be stepped down to 11kV through two 23MVA transformers. The stepped down 11kV will be evacuated to the existing distribution system and will leave the Substation through underground cables.

The proposed Kiambu Road 66/11KV Sub-Station will be located on Plot No. L.R. 27/366, off Ridgeways Road, off Kiambu Road in Nairobi City.

The following are the anticipated impacts and proposed mitigation measures

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Vegetation disturbance	<ul style="list-style-type: none"> • Ensure proper demarcation and delineation of the project area to be affected by construction works; • Specify locations for vehicles and equipment, and areas of the site which shall be kept free of traffic, equipment, and storage; • Designate access routes and parking within the site; • Introduction of vegetation (trees, shrubs and grass) on open spaces and around the project site and their maintenance; • Design and implement an appropriate landscaping programme to help in revegetation of part of the project area after construction.
Increased storm water, runoff and soil erosion	<ul style="list-style-type: none"> • Surface runoff and roof water shall be harvested and stored in reservoirs so that it can be used for wetting and/or cooling purposes for refurbishing and use in other projects; • A storm water management plan that minimizes impervious area infiltration by use of recharge areas and use of detention and/or retention with graduated outlet control structure shall be designed; • Apply soil erosion control measures such as leveling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil; • Ensure that construction vehicles are restricted to use existing graded roads; • Ensure that any compacted areas are ripped to reduce run-off;

- Site excavation works to be planned such that a section is completed and rehabilitated before another section begins.
 - Use of an integrated solid waste management system i.e. through a hierarchy of options: 1. Reduction at source 2. Recycling 3. Reusing 4. Incineration 5. Sanitary landfilling;
 - Through accurate estimation of the dimensions and quantities of materials required;
 - Use of durable, long-lasting materials that shall not need to be replaced as often, thereby reducing the amount of construction waste generated over time;
 - Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements;
 - Use building materials that have minimal or no packaging to avoid the generation of excessive packaging waste;
 - Reuse packaging materials such as cartons, cement bags, empty metal and plastic containers to reduce waste at site;
 - Dispose waste more responsibly by contracting a registered waste handler who will dispose the wastes at designated sites or landfills only;
 - Waste collection bins to be provided at designated points on site.
- Increased solid waste generation**
- Ensure strict enforcement of on-site speed limit regulations;
 - Sprinkle water during excavation works by heavy machines;
 - Sprinkle water on graded access routes when necessary to reduce dust generation by construction vehicles;
 - Dust masks to be provided to employees and worn.
- Dust emission**
- Sensitise construction vehicle drivers and machinery operators to switch off engines of vehicles or machinery not being used;
 - Sensitise construction drivers to avoid revving of vehicle engines or hooting;
 - Ensure that construction machinery are kept in good condition to reduce noise generation;
 - Ensure that all generators and heavy duty equipment are insulated or placed in enclosures (containers) to minimize ambient noise levels;
 - Sound barriers to be erected around the construction areas;
 - The noisy construction works shall entirely be planned to be during day time.
- Noise and vibration**
- Provide portable toilets at the construction site;
 - Provide adequate and safe means of
- Generation of wastewater**

handling/treating sewage generated at the plant – connect to the city sewerage system;

- Conduct regular inspections for sewage pipe blockages or damages and fix appropriately;
- Ensure regular monitoring of the sewage discharged from the project to ensure that the stipulated sewage/effluent discharge rules and standards are not violated.

Minimize occupational health and safety risks

- Ensure compliance with Occupational Safety and Health Act (OSHA) 2007 and its subsidiary legislation (Building Operations and Works of Engineering Construction Rules), L.N. 40 of 1984;

- Employees to be provided with appropriate PPE and first aid facility;

Oil spills

- Install oil trapping equipments in areas when there is a likelihood of oil spillage such as during the maintenance of construction equipment;

- Soil in such an area shall be well protected from contamination.

Fire Safety

- Install smoke/fire detectors and fire alarms;
- Install dry powder and Carbon dioxide fire extinguishers;
- Have a fire evacuation and emergency response plan;
- Train substation operators on fire fighting.

The full report of the proposed project is available for inspection during working hours at:

- (a) Director General, National Environment Management Authority, Popo Road, off Mombasa Road, P O Box 67839 – 00200, Nairobi.
- (b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P O Box 30521, Nairobi.
- (c) Provincial Director of Environment, Nairobi Province.
- (d) District Environment Officer, Kasarani.

The National Environmental Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director General, NEMA, to assist the Authority in the approval process of the project.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
