CHAIRMAN'S STATEMENT

Foreword

It is my pleasure to present the Annual Report and Financial Statements of the Kenya Revenue Authority for the Financial Year 2018/19. This is the first Annual Report prepared within the implementation period of the Authority's Seventh Corporate Plan (2018/2019 - 2020/2021). One of the fundamental drivers that will guide the 7th Corporate Plan is the transformation agenda. The key focus of this transformation agenda is to become more customer-focused with a view to enhancing compliance among the taxpayers.

The year 2018 was characterized by decelerated growth in the global economy though the Sub-Saharan Africa region remained on a recovery path. Despite the slow economic growth globally and in the region, Kenya recorded an improved growth. The growth was attributable to increased agricultural production, accelerated manufacturing activities, sustained growth in transportation and vibrant service sector activities. Kenya continues to be ranked favorably in the ease of doing business and as a top investment destination. In the 2019 World Bank's Doing Business Report, Kenya was ranked position 61 in 2018 moving 19 places from position 80 in 2017.

OVERVIEW OF ECONOMIC PERFORMANCE IN 2018/19

Global Economy

The global economy experienced decelerated growth of 3.6% in 2018 compared to a 3.8% growth in 2017. The slowdown was as a result of the weakening growth rate in both the advanced and emerging market economies mainly due to the negative effects of trade tensions between the United States and China.

The Budget Policy Statement for 2019 shows that the Sub-Saharan Africa economy grew by 2.9% in 2018 up from 2.7% in 2017. The growth was largely attributed to favorable commodity prices, stable macroeconomic environment, ongoing infrastructure investments, and strong private sector consumption.

Kenya Economy

Based on the 2019 Budget Policy Statement, Kenyan economy remained resilient during the first three quarters of 2018. The economy registered an average growth of 6.0% after it grew by 5.8%, 6.2% and 6.0% during the first, second and third quarters of 2018, respectively. Economic growth for 2019 is projected to improve further to 6.2% partly supported by the increased agricultural production, accelerated manufacturing activities, sustained growth in transportation and vibrant service sector.

Growth in sectoral output was recorded across the major sectors of the economy. The 2019 Economic survey shows that the agricultural, manufacturing, transport and storage, tourism, information, and communication sectors all registered growth and expansion for the period under review. However, there was a decelerated growth in the construction sector during the period under review. Growth in agricultural value added products, at constant prices increased to 6.6% in 2018 from 1.8% in 2017 partly attributed to the favorable weather conditions for both crop and livestock.

Similarly, manufacturing sector registered a growth of 4.2% compared to a revised growth of 0.5% recorded in 2017. This was partly attributed to agro-processing activities and production of beverages that recovered from considerable declines in 2017. Formal employment in the manufacturing sector grew by 1.4% during 2018 to 307,592 persons accounting for 11.1% of the total formal employment.

During the review period, transport and storage sector expanded by about 8.8% compared to 7.2% it recorded in 2017. The growth was partly due to the increased activity in railway transport that has been performing well since the introduction of the Standard Gauge Railway (SGR) train services. In addition, the sectoral growth was supported by the increased water transport activities, with the number of throughput and the volume of container traffic handled at the port of Mombasa increasing from 2.2% and 9.6%, respectively, in 2018.

There was also an expanded growth in the information and communication sector. The value of Information and Communication Technology expanded by about 12.9% in 2018 to record KSh. 390.2 billion up from KSh. 345.6 billion in 2017. The growth was driven by growth in the digital economy. The total number of mobile transceivers grew by 16.9 from 184,149 in 2017 to 215,276 in 2018. Similarly, the number of fourth generation (4G) technology mobile transceivers also grew by about 93% from 3,873 in 2017 to 7,469 in 2018.

Revenue Performance

During the financial year 2018/19, KRA collected KSh. 1,580 billion against a target of KSh. 1,643 billion. This represents a performance rate of 96.2% and revenue growth of 11.3% over KSh. 1,419 billion collected in financial year 2017/18.

Exchequer Revenue

KRA collected a total of KSh. 1,477 billion against a target of KSh. 1,553 billion translating to a performance rate of 95.1%.

Agency Revenue

KSh. 103.1 billion was collected as Agency revenue against a target of KSh. 89.7 billion translating to a performance rate of 114.9%.

FUTURE OUTLOOK

Globally

The global economic growth is projected to slow down to 3.5% in 2019 from an estimate of 3.7% in 2018. This slowdown will primarily be as a result of weakening growth rate in both the advanced and emerging market economies mainly due to the negative effects of trade tensions between the United States and China.

However, in sub-Saharan Africa growth is expected to improve from 2.9% in 2018 to 3.5% in 2019, supported by higher commodity prices, improved capital market access and contained fiscal imbalances in many countries. Further, growth in the East African Community (EAC) region is estimated to improve from 5.9% in 2018 to 6.3% in 2019 supported by a stable macroeconomic environment, rebound in agricultural activities on the backdrop of favorable weather conditions, ongoing infrastructure investments, and strong private consumption.

Kenya

Kenya's real GDP is estimated to have expanded by about 6.3% in 2018 compared to a revised growth of 4.9% in 2017. This growth is attributed to among other factors, increased agricultural production, sustained growth in the transportation, accelerated manufacturing activities and vibrant service sector activities. However, the growth for 2019 looks less optimistic on account of delayed long rains and depressed rainfall in most parts of the country. Nevertheless, the World Bank macroeconomic outlook estimates the economy to grow by 5.7% in the year 2019, 0.1% point below IMF projection.

Appreciation

On behalf of the entire Board of Directors, I wish to thank all the taxpayers who complied with their tax obligations and our strategic stakeholders who have partnered with us in our transformation journey to enhance revenue mobilization and more efficient customer service. We are optimistic that with your continued support, KRA will continue to effectively carry out its mandate and mobilize the much-needed resources to finance Government expenditure. I also wish to extend my appreciation to the management and staff of the Authority for their continued hard work, commitment and dedication which enabled KRA to increase revenue collection thereby registering growth of 11.3% despite the challenging macroeconomic conditions in the country.

In my capacity as the Chairman of the Board, I wish to take this opportunity, on behalf of other Board members, to thank H. E. The President, the National Government, the National Treasury and Planning Ministry, Counties, and Parliament for the invaluable support we continue to receive from them in the performance of our duties.

In conclusion, I wish to express my sincere appreciation to my fellow Board Members for their unwavering support and hard work during the year. It is my firm belief that the team will steer the Authority to an even better Performance in the 2019/2020 financial year.

AMB. (DR.) FRANCIS MUTHAURA, EGH
Chairman.

COMMISSIONER GENERAL'S STATEMENT

1. Introduction

It gives me great pleasure to present to you the highlights of the Kenya Revenue Authority performance for FY 2018/19. This was the first financial year in the 7th Corporate Plan themed as "Revenue Mobilization through Transformation, Data-Driven decision-making, and Tax Base

expansion". KRA's contribution will be mapped out through revenue mobilization with a view to raising the Revenue/GDP ratio from 18.3% recorded during the 2017/18 financial year to 19.2% by the 2020/21 financial year.

2. Operating Environment

Kenya's GDP growth rate was estimated at 6.3% in 2018 compared to a forecast of 6.1% based on the 2019 Budget Policy Statement. The GDP growth is expected to rise to 6.2% in 2019.

Key elements of the macro-economic environment included the following:

- The overall rate of inflation increased from 4.3% in June 2018 to 5.7% in June 2019.
- The foreign exchange market has remained relatively stable. The exchange rate of Kenya Shilling to US Dollar averaged at 101.1 during the Financial Year compared to 102.4 for the FY 2017/18.
- The FOB value of total exports decreased by 13% from KSh.. 53.8 billion in June 2018 to KSh.. 46.4 billion in June 2019. On the other hand, the CIF value of imports increased marginally from KSh.. 134.5 billion in June 2018 to KSh.. 134.6 billion in June 2019.
- The average yield rate for 91-day Treasury bill rate declined from 7.83% in June 2018 to 6.90% in June 2019 indicating a general decline in interest rates in the economy.
- The Nairobi Securities Exchange (NSE) 20 share index decreased from 3,286 points in June 2018 to 2,834 points in December 2018 and 2633 points in June 2019.

3. Revenue Performance

Cumulative revenue collections (July 2018 - June 2019) stood at KSh.. 1, 580 billion against a target of KSh..1,643 billion, a performance rate of 96.2% and a growth of 11.3% as presented in the Table 1 below.

Table 1: Revenue Collection (KSh. Billion)

Department	Actual 2018/19	Target 2018/19	Performance Rate (%)	Actual 2017/18	Growth Over 2017/18 (%)
Customs Services	525.34	522.78	100.5	470.07	11.8%
Domestic Taxes	1,050.42	1,116.4	94.1	945.94	11.0 %
Road Transport	4.30	4.01	107.4	3.37	27.8 %
TOTAL	1,580.06	1,643.2	96.2	1,419.37	11.3 %

3.1. Customs and Border Control Department

Total exchequer and agency customs collections during FY 2018/19 amounted to KSh..525.34 billion against a target of KSh..522.78 billion translating to a performance rate of 100.5% and a growth of 11.8% over FY 2017/18. Net import duty grew by 12% to KSh.. 105.2 billion while net excise duty grew by 6% to KSh.. 88.5 billion. Annual collections in Petroleum Taxes amounted to KSh.. 170.9 billion while Trade Taxes amounted to KSh.. 334.6 billion recording a growth of 16.3% and 9.3%, respectively, over FY 2017/18.

3.2. Domestic Taxes Department

Total domestic exchequer and agency collections during FY 2018/19 amounted to KSh.. 1,050.42 billion against a target of KSh..1,116.4 billion translating to a performance rate of 94.1% and a growth of 11.0% over FY 2017/18.

Direct domestic taxes collected during the financial year amounted to KSh.. 701.8 billion representing a growth of 8.7% over FY 2017/18. Direct domestic taxes included: PAYE-56%; Corporate Taxes-24%, withholding taxes-15%, and the remaining 5% comprised of individual taxes, Turn-Over-Tax, Capital Gains Tax and Rental Income Tax.

Indirect taxes collected during the Financial Year amounted to KSh.. 348.2 billion representing a growth of 16.2% over FY 2017/18. This growth in indirect taxes was mainly driven by a 60.8% growth in excise duty on airtime from KSh.. 15.6 billion to KSh.. 25.1 billion and 42.4% growth of excise tax on money transfer from KSh..15.9 billion in 2017/18 to KSh.. 22.6 billion in 2018/19.

3.3. Transport Department

Transport revenue for the 2018/19 FY was KSh.. 4.30 billion and accounted for 0.27% of the total collections during the year. The collection was a 27.8% growth compared to KSh.. 3.37 billion collected in 2017/18 FY.

4. REVENUE ADMINISTRATION TRANSFORMATION

KRA continues to scale up reforms that will transform the organization to be fully integrated and customer-focused. The key reform initiatives implemented during the financial year are detailed below:

4.1. iTax System Improvement

This is a web-based system that offers services including electronic registration of taxpayers, electronic filing, self-service ledger accounts, electronic receipting of tax payments and back office functions for Domestic Taxes Department. During this financial year, key improvements on the iTax system included:

- Delivery of Debt module.
- Invoice auto reconciliation module.
- Implementation of online customer support framework.
- Personal Identification Number Business Process Reengineering (PIN BPR) completed.

4.2. New Data Centre (NDC)

This project aims at implementing an enterprise risk management framework that will build resilience for business processes recovery and resumption in case of a disaster. The project will also improve IT operational efficiency and reliability. The New Data Centre facility, which is complete, will enhance availability, continuity and response times of business systems. Progress made so far include:

- Systems migration, testing and changeover.
- Integration with iTax and payment gateway.

- Prioritization of systems migration order completed. Migrations include iSupport, Corporate Website and Integrated Customs Management System (iCMS).

4.3. *Integrated Customs Management System (iCMS)*

The Integrated Customs Management System (iCMS) is an integrated system that consolidates all customs procedures for the clearance of cargo and border control. The aim of the iCMS project is to automate all Customs processes while adopting best technology practices for facilitation of trade by integrating the different systems used for Customs processes in the Authority.

The system has two-way integration with the iTax system which enables data sharing on importers to monitor domestic tax declarations. The progress made in implementation of iCMS includes:

- 80% completion of the development work (including integrations with stakeholder systems). Go live for Air achieved in April 2019 with go live for Sea and Air scheduled for July 2019).
- One year pilot for Air completed.

4.4. *iSupport System*

The KRA iSupport system is an Enterprise Resource Planning (ERP), whose aim is to replace the standalone systems by integrating their functions into a single automated system that runs off a single database. The system is expected to facilitate management of corporate operational performance to improve KRA's performance and employee productivity through the following solutions:-

- Providing timely and accurate information to support efficient tax administration operations, planning and reporting for the KRA;
- Stimulating integration of financial and operational activities through streamlined and efficient workflows and documents management;
- Building centralised service capability;
- Providing better business insight and
- Tracking key operational performance indicators on a real time basis for prompt management decision making.

The iSupport system implementation is complete and the rolled out modules include Travel Management, Payroll, Performance Management, Medical Management, e-Recruitment, and Assets Disposal.

4.5. *Tax Invoice Management System (TIMS)*

KRA is in the process of developing Tax Invoice Management System (TIMS) to safeguard tax revenue against electronic sales suppression while allowing for real-time tax collections at traders' tills. The TIMS implementation aims at addressing the challenge posed by the rapidly changing business environment requiring the use of electronic sales systems and digital payments. Under the VAT enhancement strategy, the need for ensuring simplicity and accuracy in input, output, credit VAT information and reconciliation between filed returns and payments is paramount. Once TIMS is fully implemented, KRA will be able to operationalize real-time VAT collections to enhance compliance for mobile and electronic business transactions. TIMS will also enhance capability for reporting projections on VAT collections.

The implementation of TIMS will ensure;

- Real time validation of invoices at the trader tills prior to issuance to the customer and KRA tax system.
- Standardization of tax invoices and receipts for compliance with tax legislation.
- Simplification of return filing in order to enhance voluntary compliance.
- Improve accuracy of VAT data for transactional purchases and sales information.

4.6. *Integrated Scanner Management Solution (iScan)*

The integrated scanner management solution (iScan) seeks to enhance security of containers on transit, improve reliability and reduce the risks faced by the inspection staff. The objective of this project is to provide a centralized integrated scanner management solution with real time processing, inspection information collection, inspection data management and advanced analysis capability. The following interventions have been undertaken:

- Establishment of a centralised command centre and scanner integration.
- Installation and operationalization of additional 9 scanners – this aims at operationalizing scanners at Kapenguria and Kilindini port (G-section), operationalizing 10 baggage (mobile) scanners from the Chinese government; procuring scanners (SGR component), relocating the Inland Container Depot (ICD) scanner to Malaba and constructing scanner shed.
- CCTV Integration – this involves CCTV Integration for 22 Container Freight Station (CFS) and Inland Container Depot.

4.7. *Data Warehouse and Business Intelligence (DWBI) Solution*

KRA is implementing the Data Warehouse and Business Intelligence (DWBI) Project. The main objective of the project is to enable KRA's Transformation to an efficient Data and Intelligence driven Tax Administration. The DWBI solution will enable KRA to aggregate relevant data from both internal and external sources for enhanced information on taxpayers thereby facilitating evidence based decision making. The Business Intelligence component will provide useful insights from the aggregated data for efficiency through enhanced Tax Administration Strategies.

In addition, the DWBI is expected to deliver the following benefits;

1. Fact based decision making: Linking data from multiple KRA systems to enable better reporting, analysis and knowledge based decision making;
2. Enhanced tax compliance by enabling single view of the taxpayer and providing access to strategic third party data; and
3. Enhanced operational efficiency by enabling fast and easy access to data and information; increase KRA's capacity to detect fraud by providing tools to detect trends and patterns.

The DWBI Project is being implemented in 3 phases as follows;

Phase 1 Deliverables;

1. Centralized data repository (Data warehouse) & Integrations
2. Risk Analysis module
3. Case Management module

The capabilities delivered by the completed Phase 1 of the DWBI include ability to read and upload third Party Data, Case Selection, Taxpayer risk based Profiling, and Workflow automation.

Phase 2 Deliverables

1. Business Intelligence
2. Reports
3. Dashboards

This phase is 40% completed.

Phase 3 Deliverable

Advanced Analytics

5. KEY ACHIEVEMENTS IN THE FINANCIAL YEAR 2018/19

The key achievements during the FY 2018/19 include:

5.1 Broadening the tax base

During the 2018/19 FY, active taxpayers increased to 4.65 million by the end of the third quarter. From July 2018 to April 2019, 32,333 landlords were recruited into the tax net of which 26,042 was through Block Management System (BMS) and 6,291 through the use of third party data.

The launch of iScan from 1st October 2018 led to improved voluntary compliance as there was no case for Gross mis-declarations from November, 2018 to May 2019. Further, compliance in terms of proper declarations increased from 86% (Before the launch of iScan) to 97% (After the launch of iScan).

KRA continued to leverage on government automation where various third-party systems (NTSA-TIMS, e-ProMIS, NHIF, NSSF and IFMIS including IFMIS County Compliance) were

identified to further drive recruitment. KRA's integration with these systems is at different levels of implementation with PPRA fully integrated.

5.2 Revamped debt program

During the Financial Year, the debt module on the iTax system was fully utilized. It facilitated a single view of all taxpayers' transactions and improved debt collection. To fast-track the debt recovery process timelines for hard-core cases, operation of debt enforcement was decentralised to all regional offices with effect from 1st January 2019.

During the year, KRA implemented Data Analytics to enhance debt collections by focusing on key priority debts that are easier to recover as follows: Current debts cases (i.e. 0-6 Months), debts emanating from agency taxes (i.e. VAT, PAYE, WHT and Excise) and debts with high values for each of the TSOs. The total debt collections for the period July- May, 2019 was KSh.. 36,054 Million.

5.3 Creation of a Tax Dispute Resolution (TDR) Division

During the FY 2018/19, a full-fledged TDR division was created and resourced. There was also recruitment of independent experts to handle disputes. There was also the roll out of restructured tax objections process as well as regular engagements with the stakeholders.

5.4 Enhancing integrity

KRA aspired to attain a Corruption Perception Index of 10% by 2021 through a raft of interventions including creation of awareness for the stakeholders, system reviews and automation and efficient inter-agency collaboration. During the financial year, 5,599 individuals were sensitized, 158 individuals were prosecuted, and collaboration with two agencies achieved.

6. HUMAN RESOURCE REVIEW

6.1 Senior Staff Changes

Mr. John Njiraini's contract ended on 30th June, 2019 as the KRA Commissioner General with Mr. James Githii Mburu being appointed to take over as the new Commissioner General with effect from 1st July, 2019. Mr. Kevin Lewis Safari was appointed as Commissioner, Customs and Border Control Department from 18th February, 2019 while Mrs. Elizabeth Odundo Meyo was appointed Commissioner, Domestic Taxes Department from 5th April, 2019. Mr. Paul Muema Matuku was appointed as the Commissioner, Legal Services and Board Co-ordination and Dr. Fred Mugambi Mwirigi was appointed as Head of KESRA, both appointments taking effect from 15th May, 2019.

6.2 Staff Complement as at 30.06.2019

<i>Department</i>	<i>Count</i>	<i>Percentage (%)</i>
Corporate Support Services	1,260	15.98%
Customs and Border Control	2,101	26.65%

Strategy, Innovation and Risk Management	268	3.40%
CG/1	27	0.34%
Transformation Leadership Office		
GRAND TOTAL	7,885	100.00%

6.3 Staff Motivational and Welfare Programs

In the financial year 2018/19, KRA addressed staff motivation by implementing various welfare activities that include wellness programs, health talks, health hikes, Alcohol and Drug abuse prevention programs. The authority has also provided motivational benefits which include Mortgage as well as car and laptop loans for staff.

6.4 Competency Development

KRA facilitated delivery of 24 technical and cross cutting programs for 594 staff and 41 Continuous Professional Development programs for 254 staff at a total cost of 34,779,506. This was possible through re-allocation from Departments and reimbursement from National Industrial Training Authority (NITA).

6.5 Human Resource Projects

During the year, KRA undertook a Job Evaluation exercise through a consultant. The exercise also included validation of all Job descriptions in the Authority.

7. FUTURE OUTLOOK

The Treasury revenue target for the financial year 2018/19 is KSh.. 1.94 trillion. From this set target, KSh.. **1.85** trillion (95.2%) is Exchequer revenues while KSh.. 92.2 billion (4.8%) is the agency revenue. The National Treasury target represents a growth of 22.7% over the revenue collection in FY 2018/19 (KSh.. 1.58 trillion).

Over the medium term, the 2019 Budget Policy Statement projects economic growth to rise gradually to 7.0% per annum due to investments in strategic areas under the “Big Four Agenda”, these include job creation through the manufacturing sector, achieving the universal health coverage, ensuring food security and improved nutrition as well as providing affordable houses to Kenyans. These efforts will support the business environment, create jobs and ultimately promote broad based inclusive growth. FY 2019/20 marks the second year of the implementation of the 7th Corporate Plan for the FY2018/19 to 2020/21. It is expected that full implementation the plan initiatives will lead to the following outcomes:

- (a) enhanced revenue through improved compliance,
- (b) improved business climate with respect to taxation and trading across borders,
- (c) data and intelligence driven organization, and
- (d) Public confidence in the integrity, professionalism, competence and customer focus of our staff.

8. CONCLUSION

In conclusion, I would like to thank our taxpayers and all stakeholders for the show of patriotism and unwavering support which has enabled us register success and achievement of our strategic goals. I also acknowledge and thank the Board of Directors, Management and staff of KRA for their hard work which has enabled KRA to effectively implement its mandate as the principal revenue collector for the Government of Kenya. This dedication and commitment has led to the achievement of a revenue growth of 11.3% over FY 2017/18, despite the challenging economic conditions. Lastly, I would like to thank the National Treasury for the strong support accorded to KRA throughout the year.

I am confident that together and guided by our common vision of being *A Globally Trusted Revenue Agency facilitating Tax and Customs Compliance*, KRA is headed for greater heights.

GITHII MBURU

Commissioner-General.

CORPORATE SOCIAL RESPONSIBILITY (CSR) STATEMENT

Introduction

Corporate Social Responsibility (CSR) is a commitment that is undertaken by organizations globally to contribute to the development of the economy of any country. This is done to improve the well-being of the communities around the organization.

The goal of the Kenya Revenue Authority CSR is to achieve an endearing, sustainable and meaningful partnership with the publics that it interacts with to enhance focus on KRA's core values.

KRA has sustainably supported strategic initiatives that are in line with the Sustainable Development Goals (SDGs) and linked to Vision 2030, which emphasizes on Education, Environment, Health and Sports Marketing.

In this regard, KRA achieved the following milestones in CSR activities during the financial year 2018/2019:

Health Pillar Initiatives

During 2018/2019 financial year, KRA focused its Taxpayers Month CSR (TPM CSR) initiatives on Health pillar. Through the KRA regional offices, KRA renovated pediatric wards at Kisumu Level 5 hospital, Mwingi Level 5 hospital, Naivasha Level 5 hospital and Laikipia Level 5 hospital. We also constructed a hospital wing (with three rooms) at Bokole level 2 hospital in Mombasa.

In support of the fight against cancer, KRA participated at the Faraja white water rafting annual fundraising event at Tana River, Sagana, Muranga. KRA emerged 4th overall at the challenge.

Environmental Pillar Initiatives

On Environment, KRA involved staff to plant trees as per the presidential directive on National Tree. The staff managed to plant about 10,000 trees.

Sports Marketing Pillar Initiatives

On Sports Marketing, KRA focused on Golf with the aim of improving partnership with taxpayers. KRA sponsored/co-sponsored eight (8) golf tournaments at Ruiru Golf Club, Railways Golf Club, Nakuru Golf Club, upstream oil and gas golf tournament at Karen Golf tournament, ICPAK golf tournament at Muthaiga and Qatar Airways Golf tournament at Karen Golf. Over 50 Staff golfers participated in these tournaments.

Ushuru FC continued to play at the National Super League. The team played 38 matches across the country and finished position four.

KRA Choir performance

The KRA Choir performance was exemplary. The choir performed at various internal and external functions. External functions were at the invitation of Permanent Presidential Music Commission. They performed at Busia during Madaraka Day.

Conclusion

In conclusion, staff involvement and stakeholders' engagement in CSR helped to improve the overall relationship and image of KRA. In this particular financial year, KRA involved staff directly by participating at the KRA jungle run & national tree planting. Staff also participated at the Madoka Half Marathon, Beyond Zero Marathon and Stanchart Marathon. KRA staff golfers were also facilitated in all KRA sponsored/co-sponsored tournament.

The Directors are also responsible for safeguarding the assets of the Authority.

The Directors are responsible for the preparation and presentation of the Authority's financial statements, which give a true and fair view of the state of affairs of the Authority for and as at the end of the financial year ended on June 30, 2019. This responsibility includes: (i) maintaining adequate financial management arrangements and ensuring that these continue to be effective throughout the reporting period; (ii) maintaining proper accounting records, which disclose with reasonable accuracy at any time the financial position of the entity; (iii) designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements, and ensuring that they are free from material misstatements, whether due to error or fraud; (iv) safeguarding the assets of the Authority; (v) selecting and applying appropriate accounting policies; and (vi) making accounting estimates that are reasonable in the circumstances.

The Directors accept responsibility for the Authority's financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in conformity with International Public Sector Accounting Standards (IPSAS), and in the manner required by the PFM Act, 2012 and The KRA Act. The Directors are of the opinion that the Authority's financial statements give a true and fair view of the state of Authority's transactions during the financial year ended June 30, 2019, and of the Authority's financial position as at that date. The Directors further confirm the completeness of the accounting records maintained for the Authority, which have been relied upon in the preparation of the Authority's financial statements as well as the adequacy of the systems of internal financial control.

Nothing has come to the attention of the Directors to indicate that the Authority will not remain a going concern for at least the next twelve months from the date of this statement.

Approval of the Financial Statements

The Authority's financial statements were approved by the Board on 9th 2019 and signed on its behalf by:

GITHII MBURU
Commissioner-General.

REPORT OF THE AUDITOR-GENERAL ON KENYA REVENUE AUTHORITY FOR THE YEAR ENDED 30 JUNE, 2019

REPORT ON THE FINANCIAL STATEMENTS

Qualified Opinion

I have audited the accompanying financial statements of Kenya Revenue Authority set out on pages 41 to 71, which comprise of the statement of financial position as at 30 June, 2019 and the statement of financial performance, statement of cash flows, statement of changes in net assets, statement of comparison of budget and actual amounts for the year then ended, and the summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 35 of the Public Audit Act, 2015. I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

In my opinion, except for the effects of the matter described in the Basis for Qualified Opinion section of my report, the financial statements present fairly, in all material respects, the financial position of Kenya Revenue Authority as at 30 June, 2019, and of its financial performance and its

cash flows for the year then ended, in accordance with International Public Sector Accounting Standards (Accrual Basis) and comply with the Kenya Revenue Authority Act, 1995.

Basis for Qualified Opinion

Uncollected Rental Income

The statement of financial performance for the year ended 30 June, 2019 reflects other incomes balance of KSh. 501,689,000 which as disclosed in Note 4(b) to the financial statements includes rental income totalling KSh. 166,547,000. However, the rental income of KSh.166,547,000 does not include uncollected rent totalling KSh.126,171,000 as detailed below:

<i>Estate</i>	<i>Amount (KSh.)</i>
Soweto, Miritini I, Migadini, Buxton, Nyerere, Miritini II, Changamwe	2,652,000
Oceanic - Kizingo	27,495,000
Busia Border	636,000
Miritini Estate	84,240,000
Robert Ouko	11,148,000
TOTAL	126,171,000

Management has attributed non-collection of the rental income to disputes in ownership of land which the Authority is seeking the approval of the Board of Directors for engagement of an Inter-Ministerial Committee to resolve the ownership disputes.

Under the circumstances, the completeness and accuracy of the rental income balance of KSh.166,547,000 as at 30 June, 2019 could not be confirmed.

Basis for Opinion

The audit was conducted in accordance with International Standards of Supreme Audit Institutions (ISSAIs). I am independent of Kenya Revenue Authority Management in accordance with ISSAI 130 on Code of Ethics. I have fulfilled other ethical responsibilities in accordance with the ISSAI and in accordance with other ethical requirements applicable to performing audits of financial statements in Kenya. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

Emphasis of Matter

Land without Title Documents

The statement of financial position reflects a balance of KSh.30,785,938,000 under property, plant and equipment which as disclosed under Note 8 to the financial statements, includes fourteen (14) pieces of leasehold land which the Authority is yet to receive title documents. The properties, with a net book value of KSh.1,043,252,262 as detailed below, are said to be at various stages of registration with The National Land Commission even though the issue of title documents have been outstanding for a long period of time.

<i>Description</i>	<i>Location</i>	<i>Acreage</i>	<i>Net Book Value (KSh.)</i>	<i>Remarks</i>
Block 6/171	Kisumu (Robert Ouko)	0.3483 Ha.	2,019,231	Residential flats

Busia - OSBP	Busia	0.40 Ha.	14,687,500	Office blocks
Total Net Book Value			1,043,252,262	

Further information indicates that the transfer process for a title deed currently in the name of East Africa Common Services Authority is on-going. In addition, the Authority was allocated five (5) plots of land in Halugho, Amuma, Gerille, Elwak, and Diffu which has been gazetted as border entry points as detailed below:

<i>Location</i>	<i>Acreage</i>	<i>Remarks</i>
Diffu Site - Wajir County	7.0 acres	Proposed site for One Stop Border Point
Gerille Site - Wajir County	1.3 acres	Proposed site for One Stop Border Point
Amuma Site - Garissa County	7.6 acres	Proposed site for One Stop Border Point
Halugho Site - Garissa County	1.3 acres	Proposed site for One Stop Border Point
Elwak Site - Mandera County	30 acres	Proposed site for One Stop Border Point

The five (5) plots have not been valued and are therefore excluded from the property, plant and equipment balance of KSh.30,785,938,000.

Under the circumstances, the completeness and accuracy of the property, plant and equipment balance of KSh.30,785,938,000 as at 30 June, 2019 could not be confirmed. Further, in the absence of title documents, it has not been possible to ascertain that all the above properties and improvements thereon belong to the Authority.

My opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, are of most significance in the audit of the financial statements. There were no key audit matters to report in the year under review.

REPORT ON LAWFULNESS AND EFFECTIVENESS IN USE OF PUBLIC RESOURCES

Conclusion

As required by Article 229(6) of the Constitution, based on the audit procedures performed, I confirm that, nothing else has come to my attention to cause me to believe that public resources have not been applied lawfully and in an effective way.

Basis for Conclusion

The audit was conducted in accordance with International Standard of Supreme Audit Institution (ISSAI) 4000. The standard requires that I comply with ethical requirements and plan and perform the audit to obtain assurance about whether the activities, financial transactions and information reflected in the financial statements are in compliance, in all material respects, with the authorities that govern them. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

REPORT ON EFFECTIVENESS OF INTERNAL CONTROLS, RISK MANAGEMENT AND GOVERNANCE

Conclusion

As required by Section 7(1)(a) of the Public Audit Act, 2015, based on the audit procedures performed, I confirm that, nothing has come to my attention to cause me to believe that internal controls, risk management and overall governance were not effective.

Basis for Conclusion

The audit was conducted in accordance with ISSAI 2315 and ISSAI 2330. The standards require that I plan and perform the audit to obtain assurance about whether effective processes and systems of internal controls, risk management and overall governance were operating effectively, in all material respects. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

Responsibilities of Management and those Charged with Governance

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (Accrual Basis) and for maintaining effective internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error and for its assessment of the effectiveness of internal control, risk management and overall governance.

In preparing the financial statements, Management is responsible for assessing the Authority's ability to continue to sustain services, disclosing, as applicable, matters related to sustainability of services and using the applicable basis of accounting unless Management is aware of the intention to terminate the Authority or cease operations.

Management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 47 of the Public Audit Act, 2015.

In addition to the responsibility for the preparation and presentation of the financial statements described above, Management is also responsible for ensuring that the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities which govern them, and that public resources are applied in an effective way.

Those charged with governance are responsible for overseeing the Kenya Revenue Authority financial reporting process, reviewing the effectiveness of how the entity monitors compliance with relevant legislative and regulatory requirements, ensuring that effective processes and systems are in place to address key roles and responsibilities in relation to governance and risk management, and ensuring the adequacy and effectiveness of the control environment.

Auditor-General's Responsibilities for the Audit

The audit objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion in accordance with the provisions of Section 48 of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement and weakness when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

In addition to the audit of the financial statements, a compliance audit was planned and performed to express a conclusion about whether, in all material respects, the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities that govern them and that public resources are applied in an effective way, in accordance with the provisions of Article 229(6) of the Constitution and submit the audit report in compliance with Article 229(7) of the Constitution.

Further, in planning and performing the audit of the financial statements and audit of compliance, I consider internal control in order to give an assurance on the effectiveness of internal controls, risk management and overall governance processes and systems in accordance with the provisions of Section 7(1)(a) of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. My consideration of the internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under the ISSAIs. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Because of its inherent limitations, internal control may not prevent or detect misstatements and instances of non-compliance. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

As part of an audit conducted in accordance with ISSAIs, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management's use of the applicable basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Authority's ability to continue to sustain its services. If I conclude that a material uncertainty exists, I am required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my audit report. However, future events or conditions may cause the Kenya Revenue Authority to cease to continue to sustain its services.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information and business activities of the Authority to express an opinion on the financial statements.
- Perform such other procedures as I consider necessary in the circumstances.

I communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that are identified during the audit.

I also provide Management with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

Notes:

- (a) Increase in operational incomes is attributable to deferred income amortised, KESRA income and Road Maintenance Levy.
There was a reduction of interest income due to capping of interest rates and less deposits held with commercial banks.
- (b) The variance in staff costs is due to performance bonus budgeted but not paid
- (c) The budget included roll over funding from the previous financial year for pending bills related to scanners, enforcement expenses and computer software
- (d) The adjustments to the budget are due to additional funding from the National Treasury

NOTES TO THE FINANCIAL STATEMENTS

1. *Statement of Compliance and Basis of Preparation*

The financial statements have been prepared on a historical cost basis except for the measurement at re-valued amounts of certain items of property, plant and equipment, marketable securities and financial instruments at fair value, impaired assets at their estimated recoverable amounts and actuarially determined liabilities at their present value. The preparation of financial statements in conformity with International Public Sector Accounting Standards (IPSAS) allows the use of estimates and assumptions. It also requires management to exercise judgement in the process of applying the entity's accounting policies. The areas involving a higher degree of judgement or complexity, or where assumptions and estimates are significant to the financial statements, are disclosed in Note 1 (o).

The financial statements have been prepared and presented in Kenya Shillings which is the functional and reporting currency of the Authority and all values are rounded to the nearest thousand (KSh.. 000).

The financial statements have been prepared in accordance with the PFM Act, the Kenya Revenue Authority Act and International Public Sector Accounting Standards (IPSAS). The accounting policies adopted have been consistently applied to all the years presented.

ADOPTION OF NEW AND REVISED STANDARDS

- (i) Relevant new standards and amendments to published standards effective for the year ended 30 June 2019

IPSAS 40: Public Sector Combinations	Applicable: 1st January 2019: The standard covers public sector combinations arising from exchange transactions in which case they are treated similarly with IFRS 3 (applicable to acquisitions only) Business combinations and combinations arising from non exchange transactions which are covered purely under Public Sector combinations as amalgamations. The provisions of this standard do not apply to the Authority.
--------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

- (ii) Relevant new standards and amendments to published standards but not yet effective for the year ended 30 June 2019

<i>Standard</i>	<i>Impact</i>
IPSAS 41: Financial Instruments	Applicable: 1st January 2022: The objective of IPSAS 41 is to establish principles for the financial reporting of financial assets and liabilities that will present relevant and useful information to users of financial statements for their assessment of the amounts, timing and uncertainty of an entity's future cash flows. IPSAS 41 provides users of financial statements with more useful information than IPSAS 29, by: <ul style="list-style-type: none"> • Applying a single classification and measurement model for financial assets that considers the characteristics of the asset's cash flows and the objective for which the asset is held; • Applying a single forward-looking expected credit loss model that is applicable to all financial instruments subject to impairment testing; and

Standard	Impact
	<ul style="list-style-type: none"> Applying an improved hedge accounting model that broadens the hedging arrangements in scope of the guidance. The model develops a strong link between an entity's risk management strategies and the accounting treatment for instruments held as part of the risk management strategy.
IPSAS 42: Social Benefits	<p>Applicable: 1st January 2022</p> <p>The objective of this Standard is to improve the relevance, faithful representativeness and comparability of the information that a reporting entity provides in its financial statements about social benefits. The information provided should help users of the financial statements and general purpose financial reports assess:</p> <p>(a) The nature of such social benefits provided by the entity;</p> <p>(b) The key features of the operation of those social benefit schemes; and</p> <p>(c) The impact of such social benefits provided on the entity's financial performance, financial position and cash flows.</p>

(iii) *Early adoption of standards*

The Authority did not early – adopt any new or amended standards in year 2019.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) *Revenue Recognition*

(i) *Agency Income*

In accordance with the Kenya Revenue Authority Act CAP 469, income to the Authority is “such amounts not exceeding 2% as may be determined by the Minister each financial year” of the total estimated revenue to be collected by the Authority on behalf of the Exchequer. In addition, the Authority is entitled to a Bonus of 3% of the surplus revenue collected above the estimates and also earns income from other activities. Agency Income is recognised

(ii) *Revenue from exchange transactions*

Finance Revenue

Finance revenue comprises interest receivable on fixed and security deposits. The revenue is recognised as it accrues in using the effective yield method. Interest income is derived from short term placements held in approved commercial banks.

Rental income

Rental income is recognised on a straight line basis over the lease term.

Commission revenue

Commission income comprises agency fees charged on collections made on behalf of other regulatory bodies.

Other operating income

Other income is recognised when significant risks and rewards of ownership are transferred to the recipient and the amounts of revenue can be reliably measured.

(b) *Development funding and capital grants by the Treasury*

Grants by the Treasury in form of assets or funding for acquisition of major assets or development projects are recognized as a financing reserve when received. No repayment of the financing is expected by the Authority.

(c) *Property, Plant and Equipment*

All categories of property, plant and equipment are stated at cost or valuation less accumulated depreciation and annual impairment losses. Depreciation is calculated to write off the cost or valuation of each asset to its residual value where applicable, over the expected useful life of the asset in equal instalments. A full year's depreciation is charged in the year of purchase but no charge is made in the year of disposal.

The estimated useful life is as follows: -

Plant and Machinery	8 years
Equipment/Furniture/Fittings	8 years
Boats	8 years
Motor Vehicles	5 years (with a 10% residual value)
Computers	3 years
Computer Software	3 Years
Buildings	40 years
Leasehold land	Over the remaining lease period

Gains or losses on property, plant and equipment are determined by reference to their carrying value and are taken into account in determining the surplus / (deficit) for the year.

(d) *Intangible Assets*

Intangible assets consist of various computer software systems purchased for use by the Authority. The Authority recognises Intangible Assets acquired separately at cost less accumulated amortisation. Amortisation is charged on a straight-line basis over their useful lives as estimated by management from time to time.

(e) *Cash and Cash equivalents*

For purposes of the cash flow statement, cash and cash equivalents comprise cash in hand and short-term deposits held with banks.

(f) *Translation of foreign currencies*

Transactions in foreign currencies during the year are converted into Kenya Shillings at rates ruling at the transaction dates. Assets and liabilities at the balance sheet date, which are expressed in foreign currencies, are translated into Kenya Shillings at the rate ruling on that date. The resulting foreign exchange gains and losses are recognized on a net basis, differences are dealt with in the income and expenditure statement in the financial year in which they arise.

(g) Employee benefits costs

(i) Retirement benefit obligations

The Authority operates an hybrid pension scheme with a defined contribution plan for the permanent and pensionable employees. Payments to the scheme by the Authority are recognised as an expense when employees have rendered service entitling them to the contributions. The scheme is funded by contributions from both the entity and the employees. The entity and all employees also contribute to the National Social Security Fund, which is a defined contribution scheme.

(ii) Other entitlements

Employees' entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for outstanding leave at the reporting date.

(h) Inventories

Inventories are stated at the lower of cost and net realisable value. The cost of inventories comprises purchase price, import duties, transportation and handling charges, and is determined on the weighted average price. Inventories are recognized as an expense when deployed for utilization or consumption in the ordinary course of operations of the Entity.

(i) Receivables

Receivables are stated at their nominal value as reduced by appropriate allowances for estimated irrecoverable amounts. Objective evidence of impairment of the receivables is when there is significant financial difficulty of the counter party or when there is a default or delinquency in payment according to agreed terms. When a receivable is considered uncollectible it is written off. Subsequent recoveries of amounts previously written off are credited in the Statement of Financial Performance. Changes in the carrying amount of the allowance account are recognized in the Statement of Financial Performance.

(j) Payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer), otherwise they are presented as non-current liabilities.

Trade payables are recognized initially at the transaction price and subsequently measured at amortized cost using the effective interest method.

(k) Provisions

Provisions for liabilities are recognised when there is a present obligation (legal or constructive) resulting from a past event, and it is probable that an outflow of economic resources will be required to settle the obligation and a reliable estimate can be made of the monetary value of the obligation.

(l) Budget information

The original budget for FY 2018-2019 was approved by the KRA Board of Directors on 27th August 2018. An additional funding of 3.141 Billion was received from the National Treasury to fund Revenue Enhancement Initiatives. The additional funding was incorporated in the original Adjusted Budget FY2018-19 and a Revised Budget prepared, presented to and approved by the Board on 14th February 2019. A further budget review to address urgent priority needs was presented to the Board on 16th May 2019 and approved.

The entity's budget is prepared on a different basis to the actual income and expenditure disclosed in the financial statements. The financial statements are prepared on accrual basis using a classification based on the nature of expenses in the statement of financial performance, whereas the budget is prepared on a cash basis. A comparison of budget and actual amounts, prepared on a comparable basis to the approved budget, is presented in the statement of comparison of budget and actual amounts.

In addition to the Basis difference, adjustments to amounts in the financial statements are made for differences in the formats and classification schemes adopted for the presentation of the financial statements and the approved budget.

A statement to reconcile the actual amounts on a comparable basis included in the statement of comparison of budget and actual amounts and the actuals as per the statement of financial performance has been presented under Statement of Comparison of Budget and Actual Amounts of these financial statements.

(m) Nature and Purpose of Reserves

The Authority creates and maintains reserves in terms of specific requirements. The Authority has created Capital Grants from the National Treasury reserves to represent the National Treasury's input by directly funding capital development for the Authority.

The Revaluation reserves represent the surplus arising from the revaluation of the Authority's Property, Plant and Equipment.

(n) Related Parties

The Authority regards a related party as a person or an entity with the ability to exert control individually or jointly, or to exercise significant influence over the Entity, or vice versa.

(o) Critical Accounting Estimates and Judgements in applying the Authority's accounting policies

In the process of applying the entity's accounting policies, management has made estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial period. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. These are dealt with below:

Critical accounting judgments in applying the Authority's policies

Impairment losses

At each reporting date, the entity reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the entity estimates the recoverable amount of the cash generating unit to which the asset belongs.

Plant and equipment

Property and equipment is depreciated over its useful life taking into account residual values, where appropriate. The actual lives of the assets and residual values are assessed at the reporting date and may vary depending on a number of factors. In reassessing asset lives, factors such as technological innovation, product life cycles and maintenance programmes are taken into account. Residual value assessments consider issues such as future market conditions, the remaining life of the asset and projected disposal values.

Contingent liabilities

The directors evaluate the status of any exposures on a regular basis to assess the probability of the entity incurring related liabilities. However, provisions are only made in the financial statements where, based on the directors' evaluation, a present obligation has been established.

(ii) Land & buildings

The Authority received several leasehold properties (land and buildings) from the government at inception in 1995. The Authority was not required to pay for the property hence did not incur any cost on the same. To recognize the property in its books, the Authority did a professional valuation of the land and building in 1996 and the values were adopted in the Authority's statement of financial position. This was done by recognizing land and buildings assets in the statement of Financial Position. The assets were revalued again in Financial Year 2016/17.

The Authority is yet to receive title documents for 14 pieces of leasehold land from the Government. These properties are at various stages of registration with the Commissioner of Lands. Another title deed is in the name of East African Common Services Authority (EACSA) and the process transfer of the title is ongoing. The Authority was allocated 5 plots of land in Halugho, Amuma, Gerille, Elwak & Diff which have been gazetted as border entry points. The plots are yet to be valued and the Authority is in the process of acquiring title documents.

26. RELATED PARTIES

Nature of Related Party Relationships

Entities and other parties related to the Authority include those parties who have ability to exercise control or exercise significant influence over its operating and financial decisions. Related parties include management personnel, their associates and close family members.

Government of Kenya

The Government of Kenya is the principal shareholder of Kenya Revenue Authority, holding 100% of the Authority's equity interest. The Government of Kenya has provided full guarantees to all long-term lenders of the entity, both domestic and external. Other related parties include;

- (i) The National Treasury
- (ii) Key Management
- (iii) Board of Directors

During the year, the following transactions were carried out with related parties as analysed as follows:-

27. FINANCIAL RISK AND CAPITAL MANAGEMENT

The Authority's activities expose it to a variety of financial risks including credit and liquidity risks and effects of changes in foreign currency. The Authority's overall risk management programme focuses on unpredictability of changes in the business environment and seeks to minimise the potential adverse effect of such risks on its performance by setting acceptable levels of risk.

The Authority's financial risk management objectives and policies are detailed below:

(i) Credit risk

The Authority has exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due. Credit risk arises from cash and cash equivalents, and deposits with banks, as well as agency and other receivables.

The carrying amount of financial assets recorded in the financial statements representing the Authority's maximum exposure to credit risk is made up as follows:

	Fully Performing KSh. 000	Past Due KSh. 000	Impaired KSh. 000
At 30 June 2019			
Receivables	410,019	-	-
Security Deposits	2,487,810	-	-
Bank Balances	7,785,354	-	-
At 30 June 2018			
Receivables	459,310	-	-
Security Deposits	2,434,671	-	-
Bank Balances	7,892,677	-	-

The credit risk associated with these receivables is minimal hence no allowance for uncollectible amounts has been recognised in the financial statements.

(ii) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the Authority's directors, who have built an appropriate liquidity risk management framework for the management of the Authority's short, medium and long-term funding and liquidity management requirements. The Authority manages liquidity risk through continuous monitoring of forecasts and actual cash flows.

The table below represents cash flows payable by the company under non-derivative financial liabilities by their remaining contractual maturities at the reporting date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

(iii) Market risk

The board has put in place an internal audit function to assist it in assessing the risk faced by the Authority on an ongoing basis, evaluate and test the design and effectiveness of its internal accounting and operational controls.

Market risk is the risk arising from changes in market prices, such as interest rate, equity prices and foreign exchange rates which will affect the Authority's income or the value of its holding of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. Overall responsibility for managing market risk rests with the Audit Committee.

The Authority's Corporate Risk Department is responsible for the development of detailed risk management policies and for the day to day implementation of those policies.

There has been no change to the Authority's exposure to market risks or the manner in which it manages and measures the risk.

(a) Foreign currency risk

The Authority has transactional currency exposures. Such exposure arises from foreign denominated bank balances.

The carrying amount of the Authority's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

	2018/2019
	KSh. '000
KRA US Dollar Account (NBK)	8,346
KESRA US Dollar Account (NBK)	39,693
	48,039
Liabilities / Payables	200
Net Foreign currency liability	47,839

(b) Interest rate risk

Interest rate risk is the risk that the Authority's financial condition may be adversely affected as a result of changes in interest rate levels. The Authority's interest rate risk arises from fixed and security deposits. This exposes the Authority to cash flow interest rate risk.

Management of interest rate risk

To manage the interest rate risk, management has endeavoured to bank with institutions that offer favourable interest rates.

Sensitivity analysis

The Authority analyses its interest rate exposure on a dynamic basis by conducting a sensitivity analysis. The sensitivity analysis for interest rate risk assumes that all other variables, in particular foreign exchange rates, remain constant. The analysis has been performed on the same basis as the prior year.

Using the end of the year figures, the sensitivity analysis indicates the impact on the statement of financial performance if current floating interest rates increase/decrease by five percentage (5% as a decrease/increase of KSh.. 48,038,575 (2018: KSh.. 88,757,182).

(c) Price risk

The Authority does not hold investments that would be subject to price risk; hence this risk not relevant.

28. CONTINGENT LIABILITIES

These include:

- An amount of KSh. 2 million included in utility deposits representing a bank guarantee to Kenya Power and Lighting for Times Tower power supply.
- An amount of KSh. 1,297,759 representing a guarantee to Telkom Kenya Limited for supply of telephone facilities in the Times Tower building.

- Pending legal cases arising from Revenue and staff related matters. 51 undetermined cases have a specified claim amount of KSh. 7,737 million while 37 cases have no specified quantum and will be determined by the Court after hearing. 2 cases amounting to KSh. 896 million have been determined against the Authority and the National Treasury has been engaged to provide funds for settling the awards as they materialize.
