THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED IMPROVEMENT TO BITUMEN
STANDARDS OF KAMATIRA – CHEPTONGEI ROAD IN WEST
POKOT AND ELGEYO/MARAKWET COUNTIES

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kenya Rural Roads Authority, is proposing to improve to bitumen standards of Kamatira–Cheptongei Road in West Pokot and Elgeyo/Marakwet counties. The Kamatira–Cheptongei Road improvement project measures approximately 81 km long and traverses West Pokot and Marakwet Counties. The road from Kamatira Junction (JcnA1) to Kapsait is in West Pokot County and measures approximately 39.5 km, while the section from Kapsait to Cheptongei junction is in Elgeyo Marakwet County and covers a length of approximately 41.5 km.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Proposed mitigation measures</i>
Material Sites (storage areas, borrow pits and quarries)	<ul style="list-style-type: none"> • Inspections for soil stability should be carried out for proposed sites. • The Contractor will be responsible for ensuring that consents and authorizations for material sites are obtained prior to commencing works. • The Contractor will develop site specific rehabilitation plans to be approved by the resident engineer before excavating any material. Such a plan must contain photos of the site before excavation and indicate the site coordinates. • Material sites shall be located at least 10 meters from watercourses to minimize sediment transportation by runoff. • The Contractor shall give notice to site neighbors of his intention to excavate. • All sites will be cordoned off for the safety of animals and the public. • Prepare an emergency preparedness and response plan for quarries. Satisfactory • The Contractor shall reinstate and decommission all material sites immediately they are disused. • Top soil will be stripped and piled with the intention of using for rehabilitation of material sites. • Upon completion of works, borrow areas should be graded and backfilled with top soil.

Interference with cultural site	<ul style="list-style-type: none"> • The sites should be planted with indigenous species where its deemed feasible. • In case blasting is required, the Contractor will seek authorization from the Department of Mines and Geology. • The Contractor should engage a licensed blaster for all blasting and rock-splitting operations. • The Contractor shall notify neighbors before blasting. • Adequate notices to be given for owners of structures on the road reserve to remove them. • Provide retaining walls and a fence where structures are near the road for example Kabichbich health centre in the short run and relocating it in the long run. • Erect gabions where there are deep cuts that block access to properties and facilities. • The contractor should erect access lanes where there are deep cuts on the roadside that interfere with access to properties.
Interference with structures at the road reserve	<ul style="list-style-type: none"> • Adequate notices to be given for owners of structures on the road reserve to remove them. • Provide retaining walls and a fence where structures are near the road for example Kabichbich health centre in the short run and relocating it in the long run. • Erect gabions where there are deep cuts that block access to properties and facilities. • The contractor should erect access lanes where there are deep cuts on the roadside that interfere with access to properties.
Air Pollution	<ul style="list-style-type: none"> • Regularly service and maintain vehicles and construction machinery in accordance with the owner's manual to minimize gaseous emissions. • Spray all earthworks areas and transport routes depending on prevailing weather conditions. • Workers should be provided with dust masks in dusty work environments. • Clear vegetation only from those areas necessary for construction work to occur. • Sprinkle stock piles with water and keep them covered in dry weather. Prohibit unnecessary idling of motorized equipment. • Use clean and low sulphur fuels for vehicles and machinery. • Bulk-soil transporting trucks should be covered to avoid spills and wind-blown dust. • Complaints regarding decline in air quality as a result of project activities should be recorded and communicated to the resident engineer for monitoring. • Project vehicles should observe speed limits to keep down dust. • Comply with all the provisions of Air Quality Regulations (2014).
Drainage system and outfalls	<ul style="list-style-type: none"> • Integrate drainage system in the overall road planning and construction. • Harmonize drainage with all point

	sources of surface runoff.				management plan.
	<ul style="list-style-type: none"> • Relevant authorities are requested to address enhanced sanitation. • All culverts be designed on the basis of hydrological studies such to carry peak runoff. • Drainage outfalls should not be directed into private plots or premises. • The relevant Authorities to enforce control of discharging polluting effluent into the open drains during construction period. 				<ul style="list-style-type: none"> • All personnel shall be instructed to dispose of all waste in a proper manner. • Contractor shall provide litter collection facilities. • The final disposal of the site waste shall be done by approved waste disposal agents. • Provision for responsible management of any hazardous waste generated according to NEMA regulations on waste management.
Noise and vibrations	<ul style="list-style-type: none"> • Where possible, confine construction activities to day time hours. • Regularly service and maintain vehicles and construction machinery in accordance with the owner's manual to minimize noise nuisance. • Sensitive noise receptors such as schools, hospitals and homesteads should be notified by the Contractor if construction is likely to cause more noise than usual. • Construction workers should be provided and encouraged to use PPE appropriately. • Avoid unnecessary hooting by project vehicles within 200 m of noise sensitive receptors. • Any complaints regarding noise and vibrations by project activities should be recorded and communicated to the resident engineer for monitoring. • Comply with all provisions of the EMCA (Noise and Excessive Vibrations) Regulations 2009. 				<ul style="list-style-type: none"> • The spoil designated area need to be more than 20 meters from watercourses. • The development and rehabilitation of spoil areas shall include the following activities. • Stripping and stockpiling of topsoil. • Contouring of spoil site to approximate natural topography and drainage and/or reduce erosion impacts on the site. • Placement of excavated subsoil and then topsoil over spoil material. • Contouring and re-vegetation. • Strict adherence to Waste Management Regulations, 2006.
		Liquid wastes			<ul style="list-style-type: none"> • Potential pollutants of any kind and in any form shall be kept, stored and used in such a manner that any escape can be contained and the water table not endangered. • Wash areas shall be placed and constructed in such a manner so as to ensure that the surrounding areas (including groundwater) are not polluted. • The Contractor shall notify the RE of any pollution incidents on site • No grey water runoff or uncontrolled discharges from the site/working areas. • Water containing such pollutants as cements, concrete, lime, chemicals and fuels shall be discharged into a conservancy tank for removal from site. • The Contractor shall also prevent runoff loaded with sediment and other suspended materials from the site/working areas.
Wildlife corridors poaching	<ul style="list-style-type: none"> • Erection of electric fence along the road corridor. • Posting warning signs on dangers of encroaching on wildlife crossings. • Community education on wildlife conservation Wildlife corridors should have speed bumps to prevent accidents. • Poaching must not be allowed under any circumstance. • Authorities to closely monitor construction activities at the forested sections. 				<ul style="list-style-type: none"> • Adherence to Water Quality Regulations, 2006. • Concrete batching plant shall be located more than 20 m from the nearest stream/river channel. • Topsoil shall be removed from the batching plant site and stockpiled. • Concrete shall not be mixed directly on the ground. • The concrete batching works shall be kept neat and clean at all times • Suitable screening and containment shall be in place to prevent windblown contamination associated with any bulk cement silos, loading and batching. • Waste concrete and cement sludge shall be scraped off the site of the batching plant and removed to an approved disposal site. • All visible remains of excess concrete shall be physically removed on completion and disposed at an approved disposal site. Washing the remains into the ground is not acceptable.
Vegetation loss	<ul style="list-style-type: none"> • Site clearance for construction shall be kept to a minimum. It is encouraged that open grounds should be given first consideration for use over vegetated areas. • Trees should be trimmed rather than completely cut wherever possible. • Consider planting grass in areas not of active works. • Clearance should be done in such a way that that damage to adjacent areas to the site is prevented or minimized. • Clearance especially at material sites should be done with the intention of noting the type of species native to that area for purposes of re-vegetating during reinstatement. • Areas with threatened or endangered plant should be avoided and only used as a last resort. • Use of fuel wood for any project associated activity should be highly discouraged. 		Cement/ Concrete Batching		
Solid wastes	<ul style="list-style-type: none"> • The contractor should develop a waste 				

Diversion and access roads to properties	<ul style="list-style-type: none"> • All excess aggregate and sand shall also be removed. • Adequate signage should be erected where there are diversions and workers manning diversions should wear reflective clothing. • Bumps should be installed at all sharp corners. • Road improvement should not block access to properties, where the contractor interferes with the same, the he should provide access. • Where there is a deep cut, an access lane should be provided. • The Contractor should adhere to the road reserve as much as possible in locating the diversion if required. If diversion routes go beyond the road reserve, necessary permission should be sought. • Where possible the diversion must be limited to already connecting routes in the area. • The Contractor shall comply with all applicable laws and bylaws in Kenya with regard to road safety and transport. • Access to the construction site and works area shall utilize existing roads and tracks where possible. 	Sanitation and management of septic waste	<ul style="list-style-type: none"> • Involve local community and administration in site selection. • Decommission the camps and Reinstate the land to its natural. • Mobile toilets should be provided to workers. • The Contractor shall comply with laws and by-laws relating to public health and sanitation. • All temporary/ portable toilets or pit latrines shall be secured to the ground. • All toilets shall be maintained by the Contractor in a clean sanitary condition. • A wash basin with adequate clean water and soap shall be provided alongside each toilet. • Ensure that solid/liquid effluents are disposed by licensed agents or through approval by the local Public Health Office.
Soil Erosion and Embankments	<ul style="list-style-type: none"> • All earthworks should be avoided during wet seasons to reduce susceptibility of soil erosion and collapse of embankments. • Earth dumping sites should be designed in such a manner as to facilitate natural water discharge. • Excavated materials and excess earth should be kept at appropriate sites approved by the Resident Engineer. • Cut areas susceptible to landslides should be protected immediately after the works, and works should not be prolonged at such sites unnecessarily. • The Contractor should protect areas susceptible to severe erosion such as across steep slopes by installing necessary temporary and permanent drainage works. • Areas affected by construction related activities and are susceptible to erosion or landslides must be monitored regularly. 	Public Health	<ul style="list-style-type: none"> • The Contractor shall be responsible for the protection of the public and public property from any dangers associated with construction activities. • All works which may pose a hazard to humans and domestic animals are to be protected, fenced, demarcated or cordoned off as instructed by the RE. If appropriate, warning signs must be erected. • The HIV/AIDS prevention campaigns should be conducted at the camps as well as in the trading / market centers. • The contractor shall take an active role in civic and public health education to his employees.
Water resources use conflicts and interference with natural springs	<ul style="list-style-type: none"> • The contractor should not interfere with community natural springs near some sections of the road. • The Contractor must adhere to water quality regulations described in Legal Notice No. 120 of the Kenya Gazette Supplement No. 68 of September 2006. • Ensure community complaints related to water abstraction activities are promptly mitigated. • Liaise with the community leaders to address any water use conflicts. • Where water scarcity is acute, drill boreholes to augment available supply. 	Relocation of public utilities such power lines	<ul style="list-style-type: none"> • No road improvement activities should take place where there are utilities on the road reserve i.e. power posts. • Undertake inventory of existing utilities in the project area before beginning construction. • Relocation of services, if needed, should be provided for in the Bill of Quantities • Notice should be given to the utility users prior to any interruption in supply.
Construction camps	<ul style="list-style-type: none"> • The site for the Contractor's Camp shall be determined in collaboration with the Roads Engineer taking into consideration the following: • The security situation in the area (expressed authority must be given by the Officer Commanding Police Division. 	Emergence of unplanned settlements	<ul style="list-style-type: none"> • To forestall the growth of unplanned settlements around the construction camps and other work sites, KeRRA and the local administration will need to undertake routine and strict surveillance around the work sites. • To mitigate against the potential increase of persons who may be affected by the project, presently and in future, the KeRRA should inform the local administration to help in stopping further informal developments within the project areas.
		Increased incidence of water borne diseases due to possible pollution	<ul style="list-style-type: none"> • Public sensitization on domestic water treatment. • Pollutants must not be allowed to enter into rivers. • Where the contractor pollutes rivers, the Polluter Pays Principle applies.
		Alterations in downstream flow of rivers	<ul style="list-style-type: none"> • Regulating water flow while abstracting for road works to mimic the natural flooding regime and maintain ecologically sustainable flow conditions.
		Occupational Health & Safety	<ul style="list-style-type: none"> • The Contractor shall comply with all standard and legally required health and safety regulations as promulgated by Factories and Other Places of Work Act,

ILO Guidelines on Safety and Public Health in the construction activities and Occupational Health and Safety Act 2007.

- The Contractor shall provide a standard first aid cupboard at the site office.
- There should be a Safety Officer on site who has first aid training and knowledge of safety procedures.
- Speed limits appropriate to the vehicles driven are to be observed at all times on access and haul roads.
- Appropriate firefighting appliances shall be provided on site.
- The Contractor shall provide the appropriate Personal Protective Equipment for staff.
- The contractor must have insurance cover for the workmen.
- The Contractor shall take all reasonable and precautionary steps to ensure that fires are not started as a consequence of his activities on site.
- The Contractor shall ensure that there is basic fire-fighting equipment available on site.
- The Contractor shall ensure that some workers are trained as fire marshals.
- Flammable materials should be stored under conditions that will limit the potential for ignition and the spread of fires.
- 'Hot' work activities shall be restricted to a site approved by the RE.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
