GENERAL NOTICE No. 2905

EUROPEAN AGRICULTURAL SETTLEMENT BOARD

ACCOUNTS FOR THE YEAR ENDED 31ST MARCH, 1954

THE accounts of the Board's activities presented herewith are prepared in accordance with the Regulations made by the Hon. The Member for Agriculture and Natural Resources under the provisions of the European Agricultural Settlement Ordinance, 1948, and subsequent amendments thereto.

The following notes are in amplification of the accounts and should be referred to as indicated thereon:—

Note 1.—Farms Leased to Tenants

Two hundred and twelve farms are leased to tenant farmers as at date. The amount shown consists of the lease valuations of the land plus certain of the permanent improvements, at cost, erected thereon by the Board, on the combined totals of which the rent of the farms is calculated. Average investment per farm: £5,422.

The Board's policy is to encourage satisfactory tenant farmers to purchase an interest in their farms as early as possible, providing development is not prejudiced thereby. To this end, a new scheme was recently inaugurated whereby the improvements to the farm could be purchased by the tenant by means of a Settlement Loan repayable over a maximum of 30 years.

This scheme has proved to be very successful, and to date 61 tenants have taken advantage of it. Thus, the total investment under the heading "Farms Leased to Tenant Farmers" shows a slight drop despite the increase in the number of farms, but this reduction is more than offset by the large increase under the heading of "Settlement Loans to Farmers".

Note 2.—Land Unoccupied

At date, seven unoccupied farms are held by the Board. In the case of three, negotiations for sale, or lease to tenants, are in progress.

Note 3.—Sitoten Road

In order to provide a road of access for use, *inter alia*, by the Board's tenants in the Sitoten area, £6,000 of the Board's funds were utilized. Of this sum £3,960 was refunded by the Road Authority, £926 was added to the value of the four Sitoten farms owned by the Board, and the remainder was treated as the Board's contribution to the cost of the road.

Note 4.—Loans to Farmers

As at date, 160 loans made to tenant farmers and 15 to assisted owners, are outstanding. The majority of these loans are repayable over a period of from 30 to 42 years. The average loan per farmer is £2,474. A large proportion of the total represents advances for the construction of improvements to farms, (*vide* Note 1).

Note 5.—Livestock on Loan to Tenants

The Board's policy is that every tenant under the Settlement Scheme should engage in mixed farming. To assist certain tenants, a Cattle Stocking Scheme was initiated in 1950 as follows: Cattle were loaned under an agreement, for a period not exceeding five years, interest at 4½ per cent per annum being payable on the capital cost. At the end of the period, the tenant has the option to purchase the cattle at the original cost, or to return to the Board cattle to the value of the loan. As at date, of these accounts, 14 tenants have been assisted under this Scheme. Subsequently, tenants were given the option of converting the debts to settlement loans, and nine tenants availed themselves of this option, hence the reduction in the total outstanding.

Note 6.—Livestock for Breeding at Konza

In 1952, the Board inaugurated a four-year scheme for the breeding by insemination of higher grade heifers from their existing herd of half-breds, and for the purchasing of boran heifers for insemination by pure-bred bulls. Until the end of the four-year period the farm will not be in full production in regard to sales of cattle, for which reason expenditure is at present in excess of income. During the year under review, purchases of native Somalia stock, and of a Sahiwal Bull, were made.

Note 7.—Survey Charges

The Board endeavours to obtain survey of its farms as and when it is possible to do so. If a private surveyor is employed, only 75 per cent of his charges are paid till the Director of Surveys has checked and approved the work. The amount shown is held in suspense till then, after which allocation to the farms concerned is made. All costs of survey are recoverable when the farms are sold.

Note 8.—Sundry Debtors

The Board has sold various farms to settlers outside its Tenant Farming Scheme. In some cases, the purchasers are permitted to retain ten per cent of the purchase price pending survey and the issue of the grant of title. In others, purchasers are allowed up to a maximum of 15 years in which to pay the agreed sale price by instalments. In all cases, the unpaid balances bear interest.

The instalments of rent and/or interest on loans payable by tenants and assisted owners fall due on the 30th September and 31st March in each year. A very large proportion of the total, therefore, became due on the day of account, and of the £38,452 shown, only £4,079 is overdue.

Note 9.—Sundry Creditors

In cases when the Board purchase farms for settlement, and the precise acreages of such farms are unknown, a proportion of the cost is withheld pending survey.

Note 10.—Prepayments

Certain tenant farmers have deposited sums to the credit of their accounts to provide for the payment of rent, etc., to fall due in the future.

Note 11.—Reserve for Administrative Expenditure

As the last contribution by Government towards the Board's administrative expenditure covers the six months ending 30th June, 1954, an amount proportionate to the remaining three months has been reserved.

Note 12.—Reserve for Waivure of Charges

In accordance with the provisions of White Paper No. 1 of 1950, the Board granted periods of moratoria on rent and interest payments to certain tenants and assisted owners. Subject to certain safeguards which have been devised, payment of the sums accruing as rent and interest during these periods may be waived, and during the year of account, the sum of £24,067 was written off.

Note 13.—Reserve for Bad and Doubtful Debts

During the year of account, the failure of three farmers involved the Board in a loss of £4,422. In view of unsettled conditions generally it has been decided to augment the sum reserved under this head.

Note 14.—Reserve for Repairs and Renewals

During the year of account, an expenditure of £2,961 was incurred in repairing and/or renewing various farm buildings damaged or destroyed by fire or other causes for which no one could be held responsible. This figure also includes 40 per cent of the cost of one unsuccessful borehole, as the Government subsidy covered only 60 per cent of its cost.

12th April, 1954.

ARTHUR LEVINSON,
Senior Accountant.
