Eliud Mwaura (Dr.)	<i>Chairperson</i>
Jane Njeri Maina	<i>Vice-Chairperson</i>

REVIEW OF FIRST NYANDARUA COUNTY GOVERNMENTS: 2013 TO 2017

Inter-Relations in the County

The first county fiscal budget of 2013/2014 was already in place when the Board was inaugurated. The Board took it upon itself to critique the budget. It was, and still is, the feeling of the Board that public resources should be spent in the most efficient and effective manner. There is a lot that needs to be streamlined in the budget-making process. Fundamental activities need to be agreed upon and possibly distributed within the five Sub-counties rather than small projects in the twenty five (25) wards as it happens currently. The result is that some of them are not completed because of the meagre budget allocation. As such, members of the public view the county as not doing much since the mutilated budget leads to ineffective projects in the wards which have diminished impact on their livelihoods.

Although the Boards are body corporates, the County Executive in many instances disregard them. Other than lack of allocation of funds to carry out the mandatory activities, the Executive at times prevails upon the Board and/or carries out the functions of the Board. This is against the County Governments Act. There has been unnecessary correspondences in matters that urgently require to be dealt with. The County Assembly plays its role as and when called upon, or when it finds that all is not well. Perhaps it is increasingly important to have a joint workshop with the three entities; the County Executive, the County Assembly and the County Public Service Board, with an aim of going over the obvious and agreeing on the need for mutual respect amongst the three entities and respect for the law.

Professionalization of the Public Service

Nyandarua County public service has grown since 2013 and more importantly, professionals have been recruited to fill in the gaps that have been identified. New officers have been recruited in almost all the ten departments. The number of all staff members at close of the year stood at 1652.

Health Services Department has the highest number of staff members that have been recruited while numerous employees in the Department of Agriculture were absorbed from the National Government.

The Executive is encouraged to regularly sponsor short courses for all the members of staff. These courses should, however, be geared towards addressing the emerging issues in the county and country. The Board is alive to the fact that some members of staff in the Department of Finance and Economic planning have attended many short courses whose marginal utility to the county is low, while others have not even had a five day seminar in a year as required in the public service.

A centralized training unit to handle this would be recommended as there would be more value for county resources and fairness to all staff.

Major Planned Activities

In addition to strengthening capacity of the Board's Secretariat by filling established positions with a qualified office manager, administrative officers, legal officer, HR personnel, internal auditor, and ICT officers, among others, the Board intends to undertake the following, as detailed in the Strategic Plan—

Ethics and Governance.

The Public Officer Ethics Act, 2003 requires public officers to make initial, biannual, and final declaration of incomes, assets and liabilities on existing and exiting service respectively. The Board ensured that the staff of the County Government completed the wealth declaration forms as provided for by the Act. The report on declaration is in progress and shall be submitted to the EACC and Public Service Commission for appropriate action.

The Board carried out an assessment of the Early Child Development in the County with a view of assessing and inspecting the status of compliance with values and principles referred to in Articles 10 and 232 of the Constitution of Kenya (2010).

COUNTY PUBLIC SERVICE

Objective

Provide for evaluation and reporting on the extent to which the values and principles referred to in Articles 10 and 232 of the Constitution are complied with in the county public service.

In relation to the above objective, the CPSB members engaged the Early Childhood Development and Education (ECDE) teachers who were recruited by the Board. Some of the findings of the members were that—

- the status of the classrooms, (especially those which were funded by the County Government) furniture, the pupils' population, water and sanitation, etc;
- the relationship between the teacher and the head teacher - whether the teacher is actually teaching in the ECDE class and cases of transfers;
- whether the activities of the ECDE are well coordinated in all the Sub-Counties. E.g., timetables, teachers guide books, reporting and closing time, feeding programmes, playing things, etc;
- the level of remuneration of ECDE teachers over and above the top-up of KSh. 10,000 that the County Government is paying them; and
- the achievements and challenges of each of the schools funded by the County Government since devolution.

The CPSB Members who visited the above institutions compiled a preliminary report which is presented here below. Due to lack of funds and the political state of affairs in the county, the exercise is yet to be completed.

Preliminary Report on ECDE Visits by CPSB Members: July 2017

As per the resolution of the Board meeting held on 13th March, 2017, the Members took the task as directed and visited the ECDE Centres as from 12th July, 2017. The following Members visited the ECDE Centres as follows:

Eddah Wanjiru Wangaru-Ol'Kalou Sub-County with 5 Wards, and Kipipiri Sub-County with four (4) Wards

Jane Njeri Maina-Kinangop Sub-County with eight (8) Wards

Boniface M. Mukuria-Ndaragwa Sub-County with 4 Wards and Ol' Joro Orok Sub-County with four (4) Wards

By the end of schools' term, the above Members had visited slightly over half of the Centres, and observed the following:

- Induction training of the ECDE teachers was never carried out; they went out to do what they thought was in their favor. That has caused a lot of friction between them and the schools' administration.
- Most of the ECDE teachers do not receive the remuneration they used to get from the parents after the introduction of the top-up from the County Government.

3. Some of the head teachers are placing the ECDE teachers employed by the County Government in the primary section, leaving the ECDE children under teachers who are paid meager salary and sometimes not qualified.
4. The issue of collection of school fees from the parents was too politicized that some of the parents have flatly refused to pay. As a result they are withdrawing their children from the ECDE centres. Some good head teachers are facilitating the ECDE centres by assisting the with Teaching/Learning (T/L) materials from their kitty while some ECDE teachers buy using the top up.
5. Political interference has confounded parental responsibilities such as, feeding programs, provision of T/L materials, buying of school uniforms, general maintenance, etc.
6. The choices of primary schools in which to build ECDE Classrooms were not based on merit but on political considerations; some deserving centres were left out even when the mother school had more than enough land for the ECDE class.
7. Some ECDE classrooms were not completed while others were fully completed but were closed by the contractors for unpaid bills by the County Government. Shoddy work is also evident such as cracked floors, poor roofing, windows with no window panes and no chalk-board just to mention but a few.
8. The ECDE centres which have not benefited from the County Government are in pathetic state; some are temporarily housed in one of the primary school's classrooms with expectation that sooner than later the County Government will construct them one. As if that is not enough, some head teachers are leasing the ECDE centre per classroom without the knowledge of the parents.
9. Misuse of ECDE classrooms built by the County Government (CG) by the school administration. For example, they use a classroom as a strong room for the laptops.
10. Supervision of the centres has been selective in some areas. Some of the ECDE centres have never been visited and some only saw the Supervisor when they brought the furniture and/or came to see the built classrooms by the CG.
11. Some of the head teachers disregard ECDE teachers while some ECDE teachers are disrespectful to the school management at large.
12. There exists no clear direction on issues such as maternity leave, sick-offs, or any other leave.
13. Some ECDE teachers have absconded duties since May 2016 to date yet the cases have never been reported.
14. A serious case such as the death of an ECDE teacher has occurred with no communication being made to the authorities.
15. No clear transfer policy for the ECDE teachers.
16. Non-performing teachers are still on payroll with no work to do because all the parents have withdrawn their children.
17. Serious allegations have been levelled against some ECDE teacher by both the school's administration and the parents; some require serious and urgent actions (See attached).
18. Some ECDE teachers are engaged in other activities that consume much of their time implying that they dedicate very little to teaching.
19. Cases of teachers' absenteeism are rampant mainly due to head teachers' failure to incorporate them into the system alongside their colleagues in the primary school section. Other are absent because of conflict of interest as they operate their own ECDE centres.
20. There are only very few centres with proper latrines for the ECDE pupils; they share the latrines designed for the primary school children.
21. Most ECDEs use tests to evaluate learners yet there are different ways of evaluating ECDE learners such as the use of activity-based evaluation.
22. Transition from ECDE to class one has not been smooth.
23. There exist poor reporting structures. Most of them are not harmonized.
24. The ECDE teachers' have no Performance Appraisal Mechanism that would commit them more to their duties.
25. The enrolment statistics are plummeting in most of centres since 2014. This is especially so where there exists no good relationship between the ECDE teacher and the school management.
26. There is a lack of clean water for the pupils' use in most centres.
27. There exists no feeding program in most centres. While some children take cold packed lunch, others carry nothing and are fed by other pupils.

Recommendations

1. A special induction course should be organized very urgently to harmonize the working relationship between head teachers of primary schools and ECDE supervisors and teachers.
2. The department of education should fast-track the ECDE teachers' Scheme of Service for them to enjoy their full benefits.
3. The ECDE Supervisors should ensure that the ECDE teacher are teaching only in the ECDE Centres and not in primary schools.
4. The County Government should provide ECDE centres with teaching and learning materials.
5. Parents should be sensitized on the importance of ECDE programs, their responsibilities, and the need for to support ECDE Centres.
6. All stakeholders in ECDE should discourage political influence/interference.
7. The locations of ECDE classrooms should be based on merit not on political interests.
8. ECDE classrooms should be put-up in the mother school to ensure close supervision and smooth transition.
9. All the key players/stakeholders should be involved in awarding of contracts and supervision.
10. The contractors who complete their work satisfactorily should be paid forthwith to avoid wastage of County Government resources.
11. The County Government should have a bigger budget allocation for more classrooms to provide a conducive learning environment for the ECDE pupils.

12. The ECDE supervisors should ensure the ECDE classrooms are used only for the intended purposes.
13. The Chief Officer in charge of the department of education should ensure the ECDE supervisors are facilitated for frequent visitation; the supervisors should make periodic reports to the Chief Officer and a copy to CPSB, on the visits.
14. The ECDE supervisor should ensure there is cordial relationship and harmony between the parties.
15. Due process should be followed when applying for maternity leave and sick-off(s); the head teacher should manage the leave-out as it is done for other teachers.
16. Cases of indiscipline, desertion, long-term illnesses, death, non-performance, chronic absenteeism, should be reported to the Chief Officer immediately for urgent action.
17. ECDE teachers should be incorporated in the clock-in/clock-out system by the head teachers. They should not be allowed to operate their private ECDE centres whatsoever.
18. No transfers of ECDE teachers should be effected unless they are directed through the County Human Resource Advisory Committee on disciplinary action; thus all the transfers done should be revoked forthwith.
19. The ECDE teachers who are serving in other offices such as BOMs and Liquor Licensing Board should decide which work is appropriate for them and resign immediately (the resignation letter should be forwarded to the County Public Service Board through the Chief Officer).
20. The County Government should construct proper latrines for the ECDE pupils together with the classrooms.
21. Evaluation tools should be harmonized as per their syllabus to include activity-based evaluation.
22. Transition from ECDE to class one should be well managed.
23. Reporting structures for the ECDE teachers should be harmonized.
24. ECDE teachers' Performance Appraisal System should be put in place.
25. The ECDE Supervisors should ensure quality education is enhanced in the ECDE centres in collaboration with the head teacher to attract more pupils.
26. The County Government should provide a water-tank in every ECDE centre, and
27. Parents should be encouraged to provide a feeding program but the County Government should budget to provide porridge in all ECDE centres.

It is of great importance that the exercise be completed as soon as possible, preferably in January, 2018, so that the County Government be informed on the real situation in one of its devolved functions. The report will also serve as advisory document on one of the CPSB's mandates.

Provide for the organization, staffing and functioning of the county public service in ways that ensure efficient, quality and productive services for the people of the county

In July, the Health department requested the CPSB to appoint, directly, five medical doctors and absorb twenty two nurses who were hired by the CHS and were on their payroll. After lengthy discussions, the members unanimously agreed that the department should request the doctors and the nurses to apply for the said positions for competitiveness. The members felt that the direct appointments and absorption of the CHS staff might be an abuse of the powers of the CPSB on recruitment.

Tourism, Youth and Sports department has been operating without staff. While the CPSB has all along been advising the CECM in charge to put their request forward, the same has not taken place. The County Secretary wrote to the Board requesting some staff in the Governor's office to be deployed in the department. The Board declined due to the need of keeping the wage bill in check.

Suitability tests were also conducted for various departments in line with the requirements of the suitable grades. The Board also looked at their suitability as directed by their individual schemes of service. The department of Agriculture was the biggest beneficiary of the exercise that brought great joy to the officers who had stagnated for a long time, and, had almost despaired.

In the department of Agriculture, Livestock Development and Fisheries, the requests of three posts of veterinary officers and five meat inspectors was put forward to the Board. The advertisement was circulated in the daily newspapers and shortlisted candidates recruited. The CECM in-charge then had written to the Board to suspend any recruitment for the department without consultation. Thus, when it became apparent that meat inspectors were all retiring at the same time, there was panic and the Board had to act fast to avoid any vacuum in regards to capacitating the department. It was a great relief within the public service.

Conflicting request of a Principal Legal Officer, Job Group N or P rendered the Board helpless. Communication was left to the chairperson to sort out with the department for clarity.

The recruitment of fifteen Chief Officers is a growing concern. It started badly as the Ag. County Secretary advertised for the positions without involving the Board but directed the applicants to hand-in their application letters to the Secretary of the Board. It was very unfortunate that the Ag. County Secretary performed one of the Board's mandate and the members sort clarification. It was after the meeting convened by H.E. the Governor that a roundtable discussion between the Board and staff in the Governors' office that saw the indents revised and another advertisement done. This has however been marred by dissatisfaction by those who were not shortlisted and have petitioned the County Assembly and the High Court at Nakuru.

On re-designation, the Board has done so only to the staffs that were not changing the job group and did not have any financial implication. It became very difficult for the Board to carry out promotions and re-designations at the same time. Due to the long period the employees had taken since their last promotions, it was only fair to promote them first and then look at the ones that need re-designation. The Board hopes to carry out the re-designation from early 2018. Those who have advanced their education will also be considered after liaising with departments because of financial implications.

It is again the hope of the Board that the office of the County Secretary that carried out a HR audit will have finalized the data as we enter 2018 so that we can put the HR issues to rest.

There is a great need for the organograms to be improved to match the changes enacted by the County Government. These will capture the additional five Chief Officers.

The Board has been having issues with county departments when they put forward their requests. Some departments do not justify the need which can only be done through an approved departmental establishment. This will show the gaps of the positions to fill through recruitment process. The Board is entrusted to advise the County Government on budget controls and unjustified recruitment can be one way of bloating the workforce.

Provide for institutions, systems and mechanisms for human resource utilization and development in a manner that best enhances service delivery by county public service institutions

To achieve the above objective, the CPSB in conjunction with the Human Resource Management unit sat for many days from March, 2016 and came up with the 1st Draft of the County's Human Resource Policies and Procedures Manual. The Board has been following it up with the Cabinet for its approval and forwarding to the County Assembly in vain. This has complicated issues which can be dealt by the HR unit and also the CPSB in matters of disciplinary control, leave allowances, among others. It is the hope of the Board, in particular to finalize the HR Manual as it will give guidance to the public service. The manual will give standardized norms in the HR issues.

Provide a framework of uniform norms and standards to be applied in all sub-counties

The current CPSBs were the first to be established in the country. Many have argued that the Boards are a replica of the Public Service Commission, which is not true. In as much as the mandates seem to be the same, the County Government Act, 2012, set different ways of dealing with different issues. These have been evident in our CPSBs Forum where we discuss issues as they affect different counties. We have been assisting each other since our Annual General Meetings present learning environment from one another. The worst nightmare has been dealing with the already negotiated CBAs like the staff from the defunct local authorities who are ahead in terms of remuneration. The CPSB experienced a lot of challenges when dealing with promotions. There arose differences from various categories of staff: those employed by the Board, the seconded staff from the national government, and the staff from defunct local authorities. The biggest problem has been getting the schemes of service which were not availed to the Board upon its inauguration into office in August, 2013. The Board has been able to work on almost ninety percent of promotions and given advice to the respective departments on the necessary processes required for promotions. So far, some departments acted swiftly and their staff members were able to get promotions.

Some promotions have been pending due to lack of schemes of service, such as the Senior Charge Hand staff. The National CPSB Forum is following up on this matter with the Public Service Commission so as to formulate frame work for career progression.

The framework will help the Boards in providing human resource management and career development practices. Recently, there has been an overwhelming requests for career advancement especially in health department. This is more common with medical doctors who in quick succession request to be released for post-graduate courses.

The other common requests are inter-county transfers that are made even before one has served in his position for two years.

Lastly, the staff who were enjoying lack of close monitoring and evaluation have a long way to go as they adjust to the systems in the County Governments. Some staffs still feel that they have little to do with the CPSB and are always seeking assistance from the PSC or their mother ministries. That requires the county government to inform the county officers about the systems they are exposed to. There is need to train registered unions on how to put their members' grievances across.

The office of the County Secretary, who is also the head of county public service, should work harmoniously with the CPSB to educate the public and the public service on the values and principles as set out in Articles 10 and 232 of the Constitution.

Sub-County and Ward Offices

It has been very unfortunate that the Sub County Administrators and Ward Administrators have been operating without offices. Some are hosted by the M.C.A.s or other government officers. The administrators are very crucial officers in the devolved system and there is need for urgent measures to create their conducive working environment. Since they represent the County Government in the sub-units, the County Secretary should budget for their offices.

Branding the County

The Board has been feeling that although Nyandarua is known for the two commodities, i.e., milk and potatoes, there are many more unique things that can market and brand the County. Branding was done hurriedly and with minimal consultations. There is a need to rebrand the County taking into account its uniqueness. The office of the County Secretary should initiate the rebranding process and involve all other departments.

Another avenue of branding Nyandarua is roads' signages. Besides, the County is known for great sportsmen and women. Perhaps this is a high time we developed high altitude training center. This will attract local and international athletes, thereby marketing the county.

General Overview of Public Service

The CPSB has been on the receiving end from the workers who have taken long to adapt to the changes that came with devolution. Most of them were used to pushing their interests through their union officials or their elected leaders. There was general apathy in the defunct local authorities. Recruitment process was not known to 'Wanjiku'. With devolution, came the establishment of County Public Service Board and enactment of its powers and functions as well as recruitment procedures. As a result, the Board has been erroneously thought of as the defunct local authority for the benefit of persons known to the political and business elite.

In some occasions, union officials visit the Board offices with unreasonable demands, using disrespectful language, while mounting pressure on timelines. While the Board has been patient enough to accord them time to air their members' complains, it has become evident that the same have been engaging in politics to have their way. The union officials have been a stumbling block by misinforming their members on the advice given by the Board. An example is the issue on filling the bio-data forms which the Board designed so as to work on promotions. The workers refused to fill the forms until the Board gave them deadlines and things started moving fast when the first to fill the forms got their long awaited promotions. The worst hit was the health staff who took time to act. They raised queries on the forms, but, they held a series of meetings with the Board chairperson accompanied by some members. Even after all that, most of the staff did not attach the required documents making it difficult to work on their promotions. Some ugly incidences have been witnessed. An example is when an exhauster lorry full of raw sewage was brought to Boards offices and poured its contents there. In addition, some invaded a medical facility where they destroyed government records as they intimidated those who wanted to work against the strikes.

It is the view of the Board that the office of the County Secretary should work hand-in-hand with the CPSB as he is the head of public service. On the other hand, CPSB has the mandate to educate the public and the public service on values and principles as enshrined in the Constitution. The other mandate of CPSB is disciplinary controls. A public service that is well informed will minimize the mistakes as they have better understanding. It calls for concerted efforts in dealing with challenges emanating from the public service. The County Secretary should facilitate trainings and workshops in consultations with the CPSB.

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED ISHIARA-CHOGORIA HIGH TRANSMISSION LINE AND ASSOCIATED SUB-STATIONS IN EMBU AND THARAKA NITHI COUNTIES

INVITATION OF PUBLIC COMMENTS

Pursuant to regulation 21 of the Environmental Management and Coordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kenya Electricity Transmission Company Limited, is proposing to build 132kV Ishiara-Chogoria Transmission Line Project. The project is aimed at enhancing the adequacy, reliability, and security of electricity power supply in Embu and Tharaka Nithi Counties. The transmission line will start at the KETRACO Ishiara Sub-station which is located at Kyeniri Village in Ishiara, a distance of about 7 kilometres from the Ena-Mitunguu tarmac road and terminates at the proposed KETRACO Chogoria Sub-station about 4 kilometres from Chogoria town.

The following are the anticipated impacts and proposed mitigation measures:

Impacts

Noise and vibration

Proposed Mitigation Measures

- Contractor to ensure that noise levels emanating from machinery, vehicles and noisy construction activities (e.g. excavation, blasting) are kept at a minimum.
- Regular servicing of engines and machine parts to reduce noise generation.
- The noisy construction works will entirely be planned to be during day time when most of the neighbors will be at work.
- Comply with EMCA (Noise and excessive Vibration Pollution Control) Regulations 2009.

Air pollution

- Ensure strict enforcement of on-site speed limit regulations.
- Sprinkle water on graded access routes when necessary to reduce dust generation by construction and vehicles.
- PPE to be provided to employees and ensure proper and constant use.
- Sensitize truck drivers and machine

	<ul style="list-style-type: none"> Regular servicing of engines and machine parts to reduce exhaust emission generation. Strict adherence to Air Quality Regulations, 2014. 		<ul style="list-style-type: none"> With Assistant from community, KWS and KFS, initiate a tree planting exercise. Support community initiatives in tree planting and school greening programs.
Increased solid waste generation	<ul style="list-style-type: none"> Use of an integrated solid waste management system i.e. the 3 R's: 1. Reduction at source 2. Reuse 3. Recycle. Ensuring that, all remnants of loose gravel and concrete are effectively collected from the tower bases and re-used or disposed of in an environmentally friendly manner. Waste collection bins to be provided at designated points on site Dispose waste more responsibly by contracting a registered waste handler who will dispose the waste at designated sites or landfills only and in accordance with the existing laws. Strict adherence to Waste Management Regulations, 2006. 	Disturbance on wildlife	<ul style="list-style-type: none"> Ensure no worker engage in acts of poaching. Restrict construction to day time. Observe applicable protected areas regulations. Bush clearing to be selective. Only tall trees on the wayleave corridor or vegetation on the footprints of the towers to be removed. Consult the local KFS and KWS officer for advice on construction timings to avoid disturbing wildlife.
Release of sewage into the environment	<ul style="list-style-type: none"> Provide means for handling sewage generated at the construction site Conduct regular checks for sewage pipe blockages or damages since such vices can lead to release of the effluent into the land and water bodies. Monitor effluent quality regularly to ensure that the stipulated discharge rules and standards are not violated. Strict adherence to Water Quality Regulations, 2006. 	Soil erosion and storm-water runoff	<ul style="list-style-type: none"> Surface runoff and roof water shall be harvested and stored in tanks so that it can be used for cleaning purposes. A storm water management plan that minimizes impervious area infiltration by use of recharge areas and use of detention and/or retention with graduated outlet control structure will be designed. Apply soil erosion control measures such as levelling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil.
Air quality	<ul style="list-style-type: none"> Secure the site using appropriate dust screens. Sprinkle dust producing materials with water before use. Retain sediment binding grass. Provide employees with appropriate dust masks. Strict adherence to Air Quality Regulations, 2014. 	Visual and aesthetic impacts	<ul style="list-style-type: none"> Extensive public consultation during project planning. Structures at the site should be designed in such a way that they will improve the beauty of the surroundings. Restore site area through backfilling, landscaping and planting of trees, shrubs and grass on the open spaces to re-introduce visual barriers.
Oil spills hazards	<ul style="list-style-type: none"> Install oil trapping equipment in areas where there is a likelihood of oil spillage e.g. during maintenance of vehicles. In case of an oil spill, immediate clean up measures will be instituted. Storage and liquid impoundment areas for fuels, raw and in-process material solvents, wastes and finished products should be designed with secondary containment to prevent spills and the contamination of soil, ground and surface water. Collected used oils should be re-used, disposed of appropriately by licensed waste handlers, or be sold for reuse to licensed firms. 	Increase in social vices including HIV/AIDS	<ul style="list-style-type: none"> Periodic sensitization forums for employees on ethics, morals; general good behavior and the need for the project to co-exist with the neighbors. Destruction of existing vegetation and habitat	<ul style="list-style-type: none"> Conduct selective clearing of vegetation on the way-leave corridor. Avoid unnecessary vegetation clearing; only tall trees that poses a danger to the transmission line and vegetation on the foot plinth of the tower to be removed. Designate access routes and parking 	Cultural heritage and Archaeological finds	<ul style="list-style-type: none"> Upon discovery of a heritage site or an Archaeological find, the construction site will be stopped, the site if possible will be restricted using tapes or local materials, and relevant authorities including local administration officers and the museums of Kenya informed for further instructions.
		Resettlement and loss of use	<ul style="list-style-type: none"> Conduct consultation meetings with Project Affected Persons and ensure timely compensation for loss of property and land use. Ensure adherence to country legal legislations and World Bank Safeguard Policy 4.12 on Involuntary Resettlement.

Impacts

Occupational Health and Safety

Proposed Mitigation Measures

- Identify all hazards before undertaking a process and conduct and continually review a risk assessment.
- Train all employees and regularly sensitize them on safe working procedures.
- Hold daily morning toolkit talks where safety is the key issue.
- Only use experienced workers during erection of towers and stringing. Before climbing the towers, the workers should be reminded of the danger ahead and the need for being careful. Strict supervision on those on top of towers should be the norm. Ensure use of double harness while atop the towers.
- Periodic community sensitization of the dangers posed by the project.
- Place warning signs where necessary.
