3. The grantee shall at his own expense suitably connect the said drainage system and also the water supply system with any town drainage and/or town water supply system when in the opinion of the local authority the latter systems are so far completed as to enable the grantee to do so.

4. The grantee shall maintain in good and substantial repair and condition all buildings at any time erected on the land.

13. The grantee shall from time to time pay to the Commissioner of Lands on demand such proportion of the cost of maintaining roads and drains serving or adjoining the land as the Commissioner may assess.

GAZETTE NOTICE No. 2485

THE INDUSTRIAL COURT

CAUSE No. 19 OF 1970

Parties:—

E.A. Federation of Building and Construction Workers' Union
and

Craelius (E.A.) Drilling Co. Ltd.

Issue in dispute:—

Union agreement on basic minimum wages—Nairobi employees.

1. The E.A. Federation of Building and Construction Workers' Union shall hereinafter be referred to as the Claimants and the Craelius (E.A.) Drilling Co. Ltd. shall hereinafter be referred to as the Respondents.

2. The parties were heard in Nairobi on the 22nd day of July 1970, and relied on their written and verbal submissions.

AWARD

3. The dispute before the Court has arisen during negotiations which were carried out between the parties on the expiry of an agreement which they had entered into effective from 1st May 1966, expiring on 30th April 1968. In this agreement and prior to it, the parties had accepted the principle that the Respondents' employees should be covered by two agreements—one in respect of workers engaged on drilling and the other for the remaining unionisable employees.

In Part I under the heading of wages, different rates were laid down for different categories of workers with further differentials based on the areas of employment split up as follows:—

"A. Nairobi Area and Mombasa Municipality.

B. Eldoret, Kisumu, Kitale, Nakuru and Thika Municipalities, the Urban Councils of Kericho, Masaku, Nanyuki, Nyeri, Thomson's Falls, Embu and Kakamega, the former Township of Naivasha.

C. The Urban Councils of Fort Hall, Kiambu, Kisii, Lamu, Meru, Karatina. The area of the former Townships of Kitui, Homa Bay, Limuru, Gilgil, Ruiru and Malindi.

D. All other areas."

Since the expiry of the aforesaid agreement, the parties have amicably concluded an agreement covering all those unionisable employees not engaged on drilling operations effective from 1st March 1969, for a duration period of 24 months but the parties have not been able to come to an agreement on the wages issue regarding the drilling labour force.

There is an unusual background of protracted negotiations in this dispute which started with the Claimants' revised demands which they submitted to the Respondents on 3rd December 1968, proposing amendments both to the drilling and workshop agreements. They also gave three months' notice of their intention to vary the agreements as laid down. Subsequently the parties agreed to the effective date being 1st March 1969, for both agreements and also to the duration period of two years. At a Joint Industrial Council meeting on 3rd April 1969, the parties further agreed and accepted to apply to the Respondents' employees the going rate for the building industry in Kenya as laid down in the relevant Wages Council Order but during the subsequent JIC meetings, which were held in September 1969 on 9th, 18th and 25th and at a final meeting on 22nd December 1969, the Respondents could not be persuaded by the Claimants to pay all their mobile staff the Nairobi rates as laid down in the Wages Council Order.

The Claimants reported the existence of the trade dispute to the Ministry of Labour on 23rd December 1969, and an investigator was appointed on 31st December 1969, whose findings were as follows:—

"(a) The issue in dispute was over the union's demand for 'Revision of Part I of the 1968 Wages Agreement between the parties' which agreement expired on 30th April 1968;

(b) the number of those employed in the drilling section during the year 1969 averaged about 22 persons per month;

(c) recruitment of labour in Nairobi was entirely carried out at the discretion of the management and, for their convenience only;

(d) the principal places of employment of unskilled drilling staff were mainly outside Nairobi or outside other urban areas; majority were confined to areas known as 'column D' by the parties;

(e) normally, the drilling staff are not residents of Nairobi whilst in the management's employ but a 'rest house' of two rooms was always left vacant for use by these employees who are in transit;

(f) I also find that both parties are anxious to conclude an agreement on this question of drilling staff wages which formed the main subject of the union's submission."

The Permanent Secretary, Ministry of Labour, made further recommendations to the parties which could form the basis of a settlement. The Claimants accepted the findings and the recommendations but the Respondents while accepting the findings stated that the recommendations were not acceptable as they appeared to be contradictory.

On 23rd April 1970, they wrote to the Claimants' General Secretary as follows:—

"We are not prepared to change the previous order of areas, i.e. A, B, C, D, as per the expired agreement and have no fresh views to express. In the circumstances our proposal remains open that we are willing to pay the rates of pay of the Wages Council Order for the Building and Construction Industry where appropriate except that we will not pay the Nairobi rate to employees engaged in Nairobi and sent to work in other areas, who will be paid the appropriate rate applicable to the areas where work is actually carried out."

This in brief has been the Respondents' main contention in this dispute. They further asked the Court to bear in mind that they need not recruit their workers in Nairobi and if they were ordered to pay the Nairobi rate then quite logically they would take alternative measures of recruiting persons at the drilling site as the permanent workers were only the head operators and drivers. They maintained that the Claimants' approach was not realistic and was uneconomic bearing in mind that the majority of bore hole work is done for Government or Quasi-Government bodies and is, for obvious reasons, concentrated in areas of low economic value.

The Claimants on the other hand submitted that their demand was very simple and straightforward in that they wanted all drilling staff employed by the Respondents, who have their headquarters in Nairobi, to be paid Nairobi rates as stipulated in the relevant Wages Council Order for the building industry. They stated it was immaterial where the workers were sent for drilling. The fact remained that they had their houses in Nairobi where they also paid GPT and where they were engaged.

The Court notes that under the method which the Respondents have suggested and in fact are operating a worker engaged on drilling would never know what his monthly earnings would be as the sum at the end of the month would vary depending on the number of days a worker worked in a different area earning different rates. This is indeed most unsatisfactory. The Respondents have accepted in principle that the wage rates for their workers would be the same as laid down in the Regulation of Wages (Building and Construction Industry) Order 1969. In that very Order *vide* Legal Notice No. 236 in section 3, under the heading "Basic Minimum Wage", it is clearly stated that an employee who is taken by his employer to another area shall not be paid less than the basic minimum wage payable in the area where the employer engaged him. The Court has carefully considered the argument put forward by the Respondents that most of the time their workers are engaged in operations in remote areas but the Court is not prepared to accept that this is a sufficient argument to allow a situation which would be contrary to the standard practice under the Regulation of Wages Orders. In fact the Court finds that there is no merit at all in the Respondents' submission as quoted hereinabove in their letter to the Claimants' General Secretary when rejecting the Permanent Secretary's recommendations for settling this dispute.

After a careful consideration of all the facts the Court awards that since the parties have agreed to pay their workers engaged on drilling the current rates contained in the Regulation of Wages (Building and Construction Industry) Order 1969, the Respondents should strictly comply with section 3 (2) of the said Order and should pay their workers the statutory minimum wage payable in the area where the Respondents engaged such workers.

Given in Nairobi this 20th day of August 1970.

THE TRADE MARKS ACT
(Cap. 506)

NOTICE is hereby given that any person who has grounds of opposition to the registration of any of the trade marks advertised herein according to the classes may, within 60 days from the date of this Gazette, lodge notice of opposition on Form T.M. No. 6 (in duplicate) together with a fee of Sh. 50.

Notice is also hereby given that official objection will be taken under rule 21 (3) to all applications in which the specification claims all the goods included in any class unless the Registrar is satisfied that the claim is justified by the use of the mark which the applicant has made, or intends to make if and when it is registered. Where an applicant considers that a claim in respect of all the goods included in a class can be justified it will save unnecessary delay in examining applications if a claim is filed simultaneously with the application, accompanied in appropriate cases by supporting documents.

The period for lodging notice of opposition may be extended by the Registrar as he thinks fit and upon such terms as he may direct. Any request for such extension should be made to the Registrar so as to reach him before the expiry of the period allowed.

Formal opposition should not be lodged until after reasonable notice has been given by letter to the applicant for registration so as to afford him any opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Where it is stated in the advertisement of the applicant that the mark, upon its registration, is to be limited to certain colours, the colours are, as far as possible, indicated in the accompanying representations of the mark in the usual heraldic manner.

Representations of the marks advertised herein can be seen at the Trade Marks Registry, State Law Office, Nairobi.

Applications for registration in Part A of the Register are shown with the official number unaccompanied by any letter. Applications for Part B are distinguished by the letter B prefixed to the official number.
