THE COMPETITION ACT
(No. 12 of 2010)

EXEMPTION

IT IS notified for the general information of the public—

THAT in exercise of the powers under section 26 of the Competition Act, the Competition Authority has exempted the seven-years' Joint Venture Agreement between Kenya Airways Limited and KLM Royal Dutch Airline from the provisions of section 21 of the Act.

THAT the Authority shall revoke or amend the exemption if there is a material change in circumstances since the exemption was granted, including changes which may result from renewals of the Joint Venture Agreement, and that the parties shall furnish the Authority with a copy of the Agreement on the date of every renewal of the Agreement.

THAT the exemption does not grant parties immunity from the Competition Act regarding any conduct that is not covered under the Joint Venture Agreement; and

THAT the Authority has granted the exemption because—

- the Joint Venture Agreement and similar agreements are indispensable in airline industry worldwide; and
- the Joint Venture Agreement will promote technical stability through improved technology, skills and expertise resulting from technology transfer, staff exchanges and training avenues between the parties to the benefit of Kenya's economy.

Dated the 17th June, 2013.

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED WATERMAN PETROL STATION ON PLOT L.R. NO. MAVOKO TOWN BLOCK II/367, IN KATANI TOWN, MACHAKOS COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Waterman Katani Ltd.) is proposing to put up a petrol station On Plot L.R. No. Mavoko Town Block II/367, in Katani Town, Machakos County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Environmental Impact</i>	<i>Mitigation Measures</i>
Poor Housekeeping While Dispensing	<ul style="list-style-type: none"> Provision to pave the pump island and remote filling area with reinforced concrete as per the designs. Regular training of staff on pump island operations.
Leakage of Tanks and Product Lines	<ul style="list-style-type: none"> Insurance against the consequences of a spill contaminating groundwater, soil and surface water. The tank and lines will be used as per their design life of 30 years and a UST / line replacement programme put in to ensure tanks and lines are replaced prior to failure in timely fashion. Monitor daily reconciliation of wet stock

and inventory records.

Waste Water and Waste Oil Management Practices	<ul style="list-style-type: none"> In case of suspect losses, institute tank and line integrity testing. Conduct a soil gas survey to check the extent of contamination from the leaks. Carefully collect used oil in drums and dispose of by licensed refuse contractor. Adhere to wastewater management regulation of the legal Notice 121 and Water quality regulations of the Legal Notice 120. Conduct wastewater monitoring to check compliance on monthly basis and submit the results to NEMA District Office for immediate approval of the station operations. Document and train staff in the emergency spill response plan.
Solid waste management.	<ul style="list-style-type: none"> Comply with the requirements of the Environmental Management (Waste Management) Regulations Legal Notice 120. Prepare a waste management plan. Stop deposition of waste in open pits. Clearly designate and construct an appropriate waste collection facility or provide covered refuse skips. Segregate waste at source. Monitor waste volumes. Identify licensed waste disposal contractor to remove from site and monitor performance. Carefully collect used oil in drums and dispose of by licensed refuse contractor.
Fire and accident	<ul style="list-style-type: none"> Provision and placement of appropriate fire extinguishers and training of personnel to handle emergency situations. Provision of fully equipped First Aid box on site at all times. Display warning signs at suitable locations. Prohibit unauthorized persons at the station. Weatherproof fittings for all lighting and power points located outside the fuel station.
Air pollution	<ul style="list-style-type: none"> Ensure that the generators are maintained to manufacturer's specifications, records maintained and availed whenever there is need. Ensure that tank vents are located away from sensitive receptors.
Power Consumption	<ul style="list-style-type: none"> Develop an energy management plan.
Traffic Congestion	<ul style="list-style-type: none"> Ensure adequate entry and exit lane design and appropriate signage.
Road Traffic and Safety Implications	<ul style="list-style-type: none"> Lane and junction design and signage to meet appropriate standards. Movement of construction vehicles timed to avoid peak periods.
Erosion Control	<ul style="list-style-type: none"> Earthworks should be controlled so that land that is not required for the construction works is not disturbed. Wherever possible, earthworks should be carried out during the dry season to prevent soil from being washed away by the rain. Excavated materials and excess earth

	will be kept at appropriate sites approved by the supervising engineer and the earth dumping sites designed in such a manner as to facilitate natural water discharge.		corrective actions for their prevention are instigated as appropriate (Section 62 of the Factories and Other Places of Work Act).
Air and Noise Pollution	<ul style="list-style-type: none"> The Contractor shall protect areas susceptible to erosion by installing necessary temporary and permanent drainage works as soon as possible. Noise level is within acceptable limits and construction activities shall, where possible, be confined to normal working hours. All construction machinery are maintained and serviced in accordance with the contractor's specifications. Dust generating activities (excavation, handling and transport of soils) are not carried out during times of strong winds. Water is applied whenever dust emissions are visible at the site in the opinion of the Supervising Engineer. Vehicles delivering soil materials are covered to reduce spills and windblown dust and speeds limited to minimize the generation of dust on site. 	Traffic Management	<ul style="list-style-type: none"> Site personnel should be encouraged to report "near-miss incidents" in order to avoid potential problems and increase safety awareness. The Contractor should plan and implement traffic management programme on daily basis. Comply with all applicable legislation and by-laws with regard to road safety and transport.
Water and Soil Contamination	<ul style="list-style-type: none"> No grey water runoff or uncontrolled discharges from the site/working areas (including wash down areas) shall be permitted. Water containing pollutants such as cements, concrete, lime, chemicals and fuels shall be discharged into a conservancy tank for removal from site. Potential pollutants of any kind and in any form shall be kept, stored and used in such a manner that any escape can be contained and the water table not endangered. The Contractor shall take reasonable measures to control storm water and the erosive effects. No construction materials shall be stockpiled within areas that are at risk of flooding. Plastic sheeting, sandbags or geofabric approved by the Supervising Engineer shall be used to prevent the migration of fines. 	Water Utilization	<ul style="list-style-type: none"> The Contractor should monitor water consumption and utilization. The Contractor should sensitise construction workers on the importance of proper water management.
Public Health and Occupational Health and Safety	<ul style="list-style-type: none"> Develop a site safety action plan detailing safety equipment to be used, emergency procedures, restrictions on site, frequency and personnel responsible for safety inspections and controls. Daily site inspections should be done to ensure safe work practices are adhered to. All workmen should be provided with personal protective Equipment. The Conditions of Contract in the tender documents should stipulate health, safety and environment regulations and work procedures. The Contractor must appoint a foreman with knowledge on health, safety and environment regulations. All injuries that occur on site must be recorded in the accident registers and 	Energy Utilization	<ul style="list-style-type: none"> Develop an energy management plan. Construction machinery and vehicles should be maintained and used in accordance with manufacturer's specifications, to maximize efficiency and lower use of energy. Construction workers should be sensitized on the importance of energy management.
		Production of Waste	<ul style="list-style-type: none"> Comply with the requirements of the Environmental Management (Waste Management) Regulations. Develop a solid waste management plan prior to project commencing, identifying optimal waste re-use options and disposal areas. Waste should not be burned on site or dumped in undesignated waste disposal areas. Minimize waste production by utilizing best available techniques for site preparation. Clearly designate and construct an appropriate waste collection facility or provide covered refuse skips. Re-use construction waste to the maximum extent possible. Proper handling and storage procedures for hazardous wastes e.g. used oil should be stored in areas with hard standing and containment to handle spills.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED SILVER SERVICE STATION ON L.R. NO.
MGUMOPATSA/MAZERAS/46/KILIFI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Goldnest Trading Co. Ltd.) is proposing to construct a fuel service station on Plot L.R. No. Mgumopatsa/Mazeras/46/Kilifi County consisting of 4 fuel dispensing pumps, 3 underground tanks, carwash, lube store, tyrecentre, service bay, generator and compressor rooms and washrooms.

The following are the anticipated impacts and proposed mitigation measures:

Environmental Impacts Proposed Mitigation Measures

Excavated soils	<ul style="list-style-type: none"> Control construction activities especially during rainy/wet conditions. Landscaping. Compact loose soil. Dispose excavated loose soils properly.
Compromising safety and health of workers, neighbors, pedestrians and visitors	<ul style="list-style-type: none"> Fence off the site. Display warning signs of construction work. Construct scaffolds as per the standards with safe means of access to prevent falls and should be placed strategically. Issue workers with safety appliances. Remove and cart away earthworks as soon as it's generated. Maintain a regular inspection schedule with the Municipal Council engineers. Wet all dust generating activities. Comply with OSHA 2007.
Traffic and transport	<ul style="list-style-type: none"> Construct acceleration and deceleration lanes. Deliver materials on need basis. Ensure workers observe road safety. Persons on ground should guide traffic movements. Provide first aid facilities. Drainage should be repaired and maintained.
Increased human activities and increased solid waste generation	<ul style="list-style-type: none"> Hire a critical numbers of workers. Place litterbins at the site. Source materials on need basis. Ensure that there are elaborate programs of waste removal frequently. Avail first aid facilities. Waste generated should be contained appropriately. Encourage segregation of waste.
Air quality	<ul style="list-style-type: none"> Wet or cover dust generating activities. Provide PPE to the workers. Switch off idle vehicle engines and machinery. Dispose solid waste generated in accordance with best practices.

Noise and vibration levels	<ul style="list-style-type: none"> Encourage visitors to switch off vehicle engines when not in use. Avoid burning waste openly. Noise assessment should be done. Use of PPE. Mark areas where hazardous noise is suspected. Work with machinery should be limited to day time only. Ensure that construction equipment is well maintained.
Damage to underground utility facilities	<ul style="list-style-type: none"> Consult relevant agencies on presence of underground utilities. Liaise with Municipal Council for drainage maintenance. Protect any underground water pipes/replace exposed PVC pipes with GI pipes.
Impacts on surface water geology	<ul style="list-style-type: none"> Use serviceable machinery and equipment. Service machinery and vehicles at designated areas. Avoid use of machinery and instead employ manual labor where possible.
Solid waste and unused building materials	<ul style="list-style-type: none"> Ensure all the waste, damaged and unused building materials are removed safely from the site and sold out, reused or disposed properly. Landscape the site and road reserve especially drainage system.
Waste generated during operation and maintenance of the facility	<ul style="list-style-type: none"> Ensure general cleaning of the compound and disposal of solid wastes. Use oil receptors for containing waste oil. Provide litterbins for trash and solid wastes. Encourage segregation of waste and regular disposal of solid wastes. Waste water should be directed to septic tanks. Liaise with waste handlers especially tyres recyclers to collect worn out tyres for disposal or retread. Service vehicles at the service bay to minimize oil spills. Recover waste and split oil into oil receptors.
Safety while working with hazardous Materials/ Condition	<ul style="list-style-type: none"> Train workers on emergency procedures. Provide suitable PPE. Store hazardous materials appropriately. Insure the property and workers.
Electricity supply and use	<ul style="list-style-type: none"> Service regularly all fittings and equipment by qualified electrical contractor. Provide adequate means of fighting electrical fire by means of CO₂ or ABC fire extinguishing agents. All power panels should be suitably restricted by location or other suitable means.
Emergency preparedness	<ul style="list-style-type: none"> Provide suitable fire extinguishers and place them strategically. Warning signs should be in place. Instruct workers fire safety. Store flammable substances safely. Sources of fire should be restricted to

- all.
- Smoking, ignition sources and open fires should be prohibited from site.
- Accumulation of storm water
- Harvest and store roof water catchment.
 - Directing storm water to the drainage channel through paved open channel.
- Water supply
- Building should have back up water supply.
 - Settle water bills promptly.
 - Emergency water tank should be constructed and completely enclosed.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED ECOTOURISM CAMPSITE & HEADQUARTERS FOR NARUPA COMMUNITY WILDLIFE CONSERVANCY, ISIOLO COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Narupa Community Wildlife Conservancy) is proposing to put up the Headquarters and a Campsite within a 10 acre plot located within Narasha and Rumate areas of the conservancy. The Headquarters will comprise of a meeting hall with two offices on the sides, reception/radio room, sanitation and water storage tanks, and parking area; while the Camp will include tourism accommodation facilities, a dining room, staff quarters, a parking lot and other supporting amenities such as a sanitation system. Water supply for the campsite and company headquarters will be supplied from outside the sites using water boozers and stored in water tanks to be installed at the sites.

The following are the anticipated impacts and proposed mitigation measures:

Environmental Impact Mitigation Measures

- Hydrology and drainage
- All new vehicle tracks should have provision for side drains, mitre drains and culverts.
 - The drains must lead to the safest point of discharge and maintained regularly.
- Soil Erosion
- Minimal bush clearing should be undertaken in designated sites.
 - Excavations to be confined within the construction sites.
 - Excavated earth should be held away

- from locations susceptible to surface runoff of storm water.
- Re-vegetate exposed areas to mitigate further erosion of soil.
- Water resources
- Rainwater harvesting should be undertaken during wet seasons.
 - Recycle of water and sensitize visitors and staff on minimizing water usage.
 - Use water conservation signs at the washrooms and install water conservation taps.
- Noise and vibrations
- Contractors to use the best operating equipment to minimise noise during construction.
 - Guests must be advised to keep noise levels down, especially when watching game.
 - Playing radios, ghetto-blasters and vehicle hooting must be prohibited.
 - Driver guides should adhere to Kenya Association of Tour Operators codes of ethics during game drives.
 - During construction, workers should be provided with noise protective equipment.
 - The back-up power generator if required should be installed in acoustically designed structures.
- Air quality
- Any stockpiles of earth should be enclosed/covered/watered to reduce dust emissions.
 - Construction trucks delivering cement during construction should be covered during transportation.
 - Sprinkle the construction area with water to keep dust levels down.
 - Provide personal protective equipment (PPE) to all personnel during construction.
 - Maintain all machinery and equipment to minimize emissions of carbon monoxide, NO_x, and SO_x.
 - Use low sulphur fuels for the back-up power generators
 - No burning of waste materials should be done during construction and operation.
 - All refrigerators and freezers in the Campsite should use coolants that are free of ozone depleting substances.
- Solid waste
- Follow NEMA regulations on solid wastes management.
 - Ensure contracted garbage handlers are registered with NEMA.
 - All construction debris and solid waste generated by the workforce must be taken out of the Conservancy
 - The "3Rs" philosophy of reuse, recycle and reduce should be adopted in solid waste management at the sites
 - Install solid waste bins at the sites which should be covered to minimize wildlife attractions
 - Staff should be trained as to what types of waste should be put into solid waste bins.
 - Hazardous and non-hazardous wastes should be stored separately.
 - A specific and secure area should be

- allocated for the segregation and storage of garbage before disposal.
- Liquid waste
- The drains from kitchens should have sumps to prevent grease from entering the environment.
 - Foul water should be disposed of through via a “roto” plastic septic tank.
 - The sludge should be frequently treated with bio-augmentation products to facilitate the breakdown.
 - The reservoir water tanks should be designed and built according to recognised industry standards.
 - Use of corrosion protection in water tanks and piping system.
 - The water tanks should undergo periodic inspection for corrosion and structural integrity.
 - LPG cylinders should be stored erect in bays, and secured at all times.
- Construction and borrow materials
- No hardwood should be used in the Campsite for construction or for furniture.
 - No hazardous materials such as leaded paint should be used
- Workers’ health, safety and awareness
- Workers should be provided with suitable personal protective gear during construction.
 - A fully equipped first aid kit should be provided at the site.
 - Sensitize resident communities/workers on environmental management.
 - Workers and staff should be sensitized on occupational health and safety and first aid administration.
 - The Proponent should ensure adequate security to construction workers during the construction period.
- Wildlife/fauna
- Care must be taken during clearing activities not to disturb any nesting sites, burrows or dens.
 - Limit numbers of tourists/vehicles entering specific areas, as per the conservancy Management Plan.
- Vegetation/flora
- Minimize vegetation clearing and only target the construction areas within the sites.
 - Under no circumstances should trees be felled.
 - Campsite Management must ensure that vehicles do not go off the roads and tracks during game watching.
 - No non-exotic plant species should be planted at the sites.
- Energy/water conservation
- If firewood is to be used, then it must be ensured that the source of wood is sustainable.
 - Good site practices can serve to minimize energy consumption, for example, turning off lights and electrical equipment when leaving tents, using LED bulbs.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED DEVELOPMENT OF A LIQUEFIED PETROLEUM GAS (LPG) STORAGE AND FILLING PLANT ON PLOT L.R. NO. MGUMOPATSA/MAZERAS/1125, IN MAZERAS, KILIFI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Midland Energy Limited) is proposing to develop an LPG plant.

The following are the anticipated impacts and proposed mitigation measures:

<i>Environmental Impact</i>	<i>Mitigation Measures</i>
Changes in hydrology/impended drainage	<ul style="list-style-type: none"> • Proper Installation of drainage structures. • Install cascades to break the impact of water flowing in the drains. • Ensure efficiency of drainage structures through proper design and maintenance. • Provide gratings to the drainage channels. • Regular checks on any sludge along drainage channels. • Visual checks of oil interceptors and drainage channel for any leaks.
Soil erosion	<ul style="list-style-type: none"> • Control any earthworks. • Control removal of trees and vegetation –uproot trees only where necessary. • Rehabilitate degraded environment to avoid siltation and wash offs. • Compact loose soils. • Landscaping. • Ensure management of excavation activities. • Control activities especially during rainy conditions. • Provide soil erosion control and conservation structures where necessary. • Proper disposal of excavated loose soil (sandy loamy soils).
Air pollution through dust and gaseous emissions	<ul style="list-style-type: none"> • Prohibit idling of vehicles. • Water should be sprayed during the construction phase of excavated areas. • Regular maintenance of construction

	<ul style="list-style-type: none"> plant and equipment. Engage sensitive construction workers. Proper use of PPEs. 		
Noise pollution	<ul style="list-style-type: none"> Maintain plant equipment (if present/used). Construction activities to be restricted to daytime. Workers in the vicinity of or involved in high-level noise to wear respective safety & protective gear i.e. earplugs & earmuffs. Appropriate selection of machinery. 		<ul style="list-style-type: none"> Ensure equipment is in good working condition. Put up emergency response contacts. Put up ERP notification instructions. Put up simple instructions on how to handle fires, product spills, LPG incidents, armed robbery and product contaminations.
Oil pollution	<ul style="list-style-type: none"> Proper storage, handling and disposal of new oil and used oil and related wastes Maintain plant and equipment to avoid leaks Provide oil interceptors along the drains leading from LPG filling area 		<ul style="list-style-type: none"> Collection and analysis of relevant environmental data at the site. Data of maintenance of firefighting equipment. Monthly product reconciliation (stock loss control). Staff Training records. Incidents and accidents registers. Weekly inspection records of oil water interceptor and drainage systems.
Water resource	<ul style="list-style-type: none"> Management of water usage. Recycling of water at the construction phase where possible. Use of water conservation signs at the washrooms and install water conserving taps. 	Internal audits	<ul style="list-style-type: none"> Monitoring will involve measurements, observations, evaluations, assessment of changes in water quality, waste management, Noise levels, contractor safety etc
Contractors lay down area	<ul style="list-style-type: none"> Special attention should be paid to the sanitary facilities on site especially disposal of human waste. Garbage should be disposed off in accordance with the County Council of Kilifi requirements. 	Fire outbreak	<ul style="list-style-type: none"> Install an underground tank of 100,000 litres capacity. Install fire-fighting equipment as provided by local authority's fire department. Install an automated fire fighting system. Sensitize the residents on fire risks i.e. conduct regular fire drills. Adopt effective emergency response plans. Provide emergency numbers at strategic points.
Road safety	<ul style="list-style-type: none"> Enforce speed limits for construction vehicles especially along road links leading to the site. Provide bill boards at the site/entrance to notify motorists/pedestrians about the development. 		
Public health and occupational safety	<ul style="list-style-type: none"> Ensure proper solid waste disposal and collection facilities Ensure effective wastewater management. Design of sewerage system should be as provided in the plans. Provide First Aid kits on the site. Sensitize residents/workers on environmental management Ensure there is no ponding to eliminate breeding of mosquitoes during construction. Workers should be trained on occupational health & safety and first Aid administration. Train staff on LPG handling. Sensitise workers on HIV and AIDS. 	Water quality/waste management	<ul style="list-style-type: none"> Follow NEMA regulations. Ensure registration of contracted garbage handlers with NEMA for compliance with the prevailing regulations.
		Security	<ul style="list-style-type: none"> Provide security guards and facilities during construction period. Security men should always be available to alleviate cases of robbery.

MUNICIPALITY, NYERI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Dr Thuo Mathenge intends to install three underground storage tanks of the capacity of 40,000litres, 20,000litres and 10,000 for Unleaded Super, Diesel and Kerosene respectively, a fully automated filling system, loading and offloading area, Office block and fire fighting system and other associated civil and electrical works. There will also be dispensing pumps, car wash, tyre centre, shops and stores, an ablution block, acceleration and deceleration lanes and other associated civil and electrical works.

The following is a summary of the anticipated impacts and the proposed mitigation measures:

Possible Impacts	Proposed Mitigation Measures
Loss of Biodiversity and soil erosion	<ul style="list-style-type: none"> Minimize disturbance to the adjacent areas Apply soil erosion control measures and carryout landscaping
Air and noise pollution	<ul style="list-style-type: none"> Ensure that noisy machineries are insulated/temporary fenced. Ensure strict enforcement of on-site speed limits Avoid excavation works in dry weather and sprinkle water to reduce dust. Restrict construction activities to day time only.
Waste Management	<ul style="list-style-type: none"> Contract a licensed waste collection and disposal company Segregate, separate and re-use construction wastes. Connect to a proper septic system and internal sewer network Provide an efficient drainage system and oil interceptor Fit hoses with improved nozzle to minimize fuel spills
Traffic	<ul style="list-style-type: none"> Provide acceleration and deceleration lanes Provide proper warning signs
Fire safety	<ul style="list-style-type: none"> Install proper fire fighting equipments and sensitize workers on fire safety. Avoid storage of flammable materials near possible fire source
Occupational health and safety, security	<ul style="list-style-type: none"> Hazardous areas should be secured and all workers should be provided with PPEs and their use enforced; All workers should be trained in fire response and basic first aid procedures; Provide first-aid facilities; Hazardous areas should be well secured. Ensure that all workers have insurance covers. All lifting equipments should be inspected and well maintained. Use stable and safe ladders/scaffolds & display safety signs on site.
Water & energy use	<ul style="list-style-type: none"> Harvest rain water & reuse water where possible.

Decommissioning
impacts

- Install water conserving taps and energy conserving lighting system.
- Raise awareness on water and energy conservations
- All building, equipments, structures and partitions that will not be used for other purposes must be removed and recycled/reused as far as possible.
- All foundations must be removed and recycled, reused or disposed of at a licensed disposal site.
- Where recycling/reuse of the equipments, implements, structures, partitions and other demolition waste is not possible; the materials should taken to a licensed waste disposal site.
- Donate reusable demolition waste to charitable organizations, individuals and institutions

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
