THE NATIONAL ENVIRONMENT MANAGEMENT
AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED CONSTRUCTION OF EDUCATION
INSTITUTION – AL JAMAE TUS SAIFAYA CAMPUS ON PLOT
L.R. NO. 19983/9, KAREN AREA, NAIROBI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Dawaat F. Hadiyah) is proposing to construct an Educational Institution Campus (Al JamaeTusSaifiya Campus) around Saiffer Park to serve the community. The educational Institution will be installed with modern equipment, computer section, library, hostels, cafeteria, mosque, and associated amenities on Plot L.R No. 19983/9, in Karen Area, Nairobi County.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impacts	Proposed Mitigation Measures
Hydrology and Water supply quality Degradation	<ul style="list-style-type: none"> Hazardous substance control and emergency response plan that will include preparation for quick and safe cleanup of accidental Identify areas where refueling and vehicle maintenance activities and storage of hazardous material is well maintained and protected.
Dust and exhaust emission	<ul style="list-style-type: none"> Ensure strict enforcement of onsite speed limit regulations Sprinkle water on graded access routes when necessary to reduce dust generation by construction vehicles Personal protective equipment shall be used Equipment shall be properly tuned and maintained
Noise pollution and vibration	<ul style="list-style-type: none"> Sensitive construction vehicle drivers, machinery operators to switch off vehicles or machinery not in use. Ensure that construction machinery is kept in good condition to reduce noise generation. Buffer the site against noise propagation. Construction to be undertaken during the day when most of the neighbors are at work
Incidents, accidents and dangerous occurrences	<ul style="list-style-type: none"> Ensure that provisions for reporting incidental and dangerous occurrences during construction using prescribed forms obtained from the local occupational health and safety office (OHSO) are in place. Enforcing adherences to safety procedures and preparing contingency plan for accidental response in addition to safety education and training shall be emphasized. Ensure the premises is insured as per statutory requirements (Third party and workman's compensation Develop efficient, clean well-lit and adequate sanitary conveniences have been provided for construction workers

Oil Spills	<ul style="list-style-type: none"> A designated garage section of the site fitted with trapping equipment to be planned for changes. Such an area shall be well protected from contaminating the soil 	<ul style="list-style-type: none"> Build a buffer/ security wall and provide entrance to the area
Solid waste generation	<ul style="list-style-type: none"> Use of an integrated solid waste management system i.e. recover, recycle and reuse Through accurate estimation of the sizes and qualities of materials required, order materials in sizes and qualities of materials Ensure that damaged or wasted construction materials are recovered for refurbishing and use in other projects Donate recyclable/ reuse or residual materials to local community groups, institutions, and individual local residents or home owners. Provide facilities for proper handling and storage of construction material to reduce the amount of waste caused by damage or exposure. Use building materials that have minimal or no packaging to avoid the generation of excessive packaging waste. Reuse packaging materials such as cartoons, cement bags among others Dispose waste more responsibly by dumping at designated points on site or landfill only Waste collection bins to be provided at designated points on site. Running educational campaign amongst residents. 	<p>The full report of the proposed project is available for inspection during working hours at:</p> <p>(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.</p> <p>(b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.</p> <p>(c) County Director of Environment, Nairobi County.</p> <p>The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.</p> <p style="text-align: right;">B. M. LANGWEN, for Director-General,</p> <p>MR/3113893 National Environment Management Authority.</p>
Increased Storm water runoff and soil erosion	<ul style="list-style-type: none"> Roof water harvesting and storing in underground reserves for use in cleaning common areas and watering gardens A storm water management plan that minimizes impervious area infiltration by use of recycled areas and use of detention and / or retention with graduated outlet control structures shall be designed Apply soil erosion control measures such as leveling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil. Ensure those construction vehicles are restricted to existing roads to avoid soil compaction within and around the project site. Ensure that any compaction areas are ripped to reduce run-off. 	
Generation of waste water	<ul style="list-style-type: none"> Provision of means for handling sewerage generated by construction workers Conduct regular checks for sewage pipe blockages or damages since vices can lead to release of the effluent into the land water bodies Monitor effluent quality regularly to ensure that the stipulated discharge rules and standards are not violated 	
Vegetation	<ul style="list-style-type: none"> Landscaping, and planting of all disturbed area, Planting flowers/ exotic trees and grassing 	
Security	<ul style="list-style-type: none"> Secure site by providing security guard

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT
AUTHORITYENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED RESETTLEMENT SITE AT GATHIGIRIRI
IN GATHIGIRIRI SUB-LOCATION, TEBERE LOCATION, MWEA
DIVISION, KIRINYAGA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (National Irrigation Board) is proposing to improve the infrastructure (including road network, electricity, piped water and residential houses) of the Gathigiriri site to make it habitable for the resettlement of displacement persons from Kabare at the sites of the proposed Thiba Dam and Mutithi Irrigation scheme.

The following are the anticipated impacts and proposed mitigation measures:

<i>Environmental Impacts</i>	<i>Mitigation Impacts</i>
Landscape visual impact	<ul style="list-style-type: none"> Design of infrastructure that conforms to the project site features
Soil and water contamination	<ul style="list-style-type: none"> Design appropriate sanitary facility considering efficacy and sustainability.
Potential lack of support from project area community	<ul style="list-style-type: none"> Timely dissemination of project facts to PAPs, host community and other stakeholders. Convening of meetings with PAPs and Host Community to disseminate project facts.
Vegetation damage, habitat loss and invasion by exotic species	<ul style="list-style-type: none"> Utilize appropriate clearing techniques e.g. by using human labour as opposed to heavy machinery. Maintain native ground cover by selective removal of tree which cannot be incorporated in the project design. Minimizing clearing and disruption to riparian vegetation.
Generation of Solid Waste	<ul style="list-style-type: none"> Provide strategically located solid waste collection container. Collect together all generated waste from site clearing. Transport and dispose all waste away from site.

Noise pollution (excess noise and vibration)	<ul style="list-style-type: none"> • Liaise with local authority on suitable dumping site for spoils. • Use of noise reduction/ hearing protection devices when working with noisy equipment. • Use of serviceable chain saws (low noise emission). • Instruct machinery operators to avoid raving of engines. • Carry out site preparation activities during the day. 	acquisition	<ul style="list-style-type: none"> • Sensitize local population and PAPs on planned project activities. • Sensitize workers on proper waste management.
Soil Erosion	<ul style="list-style-type: none"> • Soils excavated are to be used for backfilling construction areas while the excess soil is disposed of away from site. • Soils are not to be left exposed to wind/water. • Riverine vegetation to be minimally disturbed when carrying out soil excavation activities during construction. • Soil erosion is to be reduced and riverbank protection enhanced. 	Temporary road use risk to local population	<ul style="list-style-type: none"> • Pre-notification on the intension to move large equipment by road. • Observe strict code of conduct by the transporters.
Air Pollution (dust, fuel emissions)	<ul style="list-style-type: none"> • Control speed of construction vehicles. • Prohibit idling of vehicles. • Water is to be sprayed during the construction phase on dusty areas to reduce dust emission. • Regular maintenance of vehicle & equipment. • Provision of dust masks for use in dusty conditions. • Use of serviceable vehicles and machinery to avoid excessive smoke emission. 	Working at heights	<ul style="list-style-type: none"> • Use of construction site barrier tapes to isolate the site(working) area to bar intruders from accessing the area in case of a dropping object. • Testing of structures for integrity prior to undertaking work. • Provision harnesses and scaffolds for working at heights. • Inspection, maintenance, and replacement of fall protection equipment. • Use of helmets and other protective devices to mitigate against injuries due to dropping objects. • Provide first aid facilities at the site.
Excess noise and vibration	<ul style="list-style-type: none"> • Use of noise reduction/ hearing protection devices when working with noisy equipment or noisy environment. • Use serviceable equipment with low noise emission. • Instruct truck/machinery operators to avoid raving engines. 	Loss of farm crops at the resettlement site	<ul style="list-style-type: none"> • Discuss with the crop owners. • Develop and provide a resettlement plan to crop owners and farmers at the resettlement site area.
Generation of Solid Waste	<ul style="list-style-type: none"> • Provide communal solid waste collection containers. • Liaise with local authority on suitable dumping site for waste. • Use of the excavated soil to backfill. 	Community misconceptions	<ul style="list-style-type: none"> • Awareness creation amongst the PAP and locals on the project facts. • Community issues responded to promptly. • Project progress reports and monitoring reports to be prepared and recommendations implemented. • Hold at least two meetings annually to sensitize local community.
Risk of fire	<ul style="list-style-type: none"> • Carry out monitoring of the vegetation that is more susceptible to fire. • No burning of materials is to be permitted at the site. 	Increase in social vices/ Security Concerns	<ul style="list-style-type: none"> • Conduct Information Education and Communication amongst the community and the project staff. • Hold meetings between Host and PAP community. • Have regular police patrols at the beginning of infrastructure development.
Site Area & Groundwater	<ul style="list-style-type: none"> • No domestic waste is to be disposed of at the project area. 	Surface run-off and Sedimentation from Construction activities	<ul style="list-style-type: none"> • Ensure that access roads, sanitation facilities, and houses are not constructed in riparian land, floodplain, waterways and wetlands. • Installation of sediment traps/screens to control runoff and sedimentation. • Construction of effective drainages and culverts.
Water Pollution	<ul style="list-style-type: none"> • Provision of used oil containers at a central point. • Use of waste bins/proper waste management. 	Health issues for construction workers	<ul style="list-style-type: none"> • Sensitize workers on use of protection facilities like mosquito nets appropriate gear when working in waterlogged areas to avoid Bilharzia. • Provide workers on sexually transmitted diseases and emphasize on use of condoms.
Injury to Workers	<ul style="list-style-type: none"> • Appropriate head, hand and foot protection (PPE) during the manual clearing of vegetation and construction activities. • Adopting ergonomic work flow designs that fit physical tasks to employees and not vice versa while maintaining a balance with productivity. 	Sanitary facilities for PAPs	<ul style="list-style-type: none"> • Installation of appropriate sanitary facilities. • Installation of appropriate sewage works. • Installation of conservancy tanks.
Loss of land use, loss of property, population relocation, Land	<ul style="list-style-type: none"> • Inform and provide a plan to farmers currently cultivating land to be used for resettlement. 	Maintenance of facilities	<ul style="list-style-type: none"> • Use of barrier tapes to isolate the maintenance areas. • Provide harnesses and scaffolds for working at heights.

Risk of fire	<ul style="list-style-type: none"> Inspection, maintenance, and replacement of fall protection equipment. Induction on safety tips to PAPs. No burning of any materials is to be permitted at the site.
Community misconceptions	<ul style="list-style-type: none"> Awareness creation amongst the community on the project facts. Ensure community issues/questions are responded to promptly. Preparation of project progress and monitoring reports and recommendations implemented. Hold meetings between PAPs and host community before PAPs resettle at the site.
Pollution of surface water and Waste management	<ul style="list-style-type: none"> No waste is to be disposed of at the project site. It is to be ensured that used oil from vehicles is not released to the ground. Used oil is to be put into containers and appropriately disposed of by a NEMA approved agent. Provision of used oil containers at a central point.
Disruption of schooling activities	<ul style="list-style-type: none"> Expansion/ equipping of AHITI Ndomba Primary School to be able to accommodate new students from the resettlement site.
No Health Centre at resettlement for PAPs	<ul style="list-style-type: none"> Expansion/equipping of Kutus Dispensary to be able to offer health services to the PAPs and Local community.
Cutting down of trees/ Deforestation to get firewood	<ul style="list-style-type: none"> Consider energy-saving stoves; Sensitize workers and PAPs on conservation; Consideration for designing and installing a biogas system that is going to generate cooking gas for the PAPs using sewage waste from the households at the site. Provision of alternative energy source to PAPs including: NIB to facilitate identification of sponsor in the health sector who can support the project and reduce URTI prevalence in the project area.
Household Solid Waste	<ul style="list-style-type: none"> Provision of communal solid waste containers (skip). Regular disposal waste depending rate fill up.
Pollution of air from kerosene lamp causing URTI	<ul style="list-style-type: none"> Provision of electricity network connection for the PAPs. Use of electricity for lighting; Significant reduction of air pollution at the household level hence reduction in URTI prevalence.
Air Pollution (dust, fuel emissions)	<ul style="list-style-type: none"> Control of construction vehicle speed. Prohibition of idling of vehicles. Water is to be sprayed on building undergoing demolition during decommissioning o reduce dust emission. Regular maintenance of vehicles and equipment. Provision of dust masks for use in dusty conditions.

Noise pollution	<ul style="list-style-type: none"> Use of serviceable vehicles and machinery to avoid excessive smoke emission. Noise reduction/ hearing protection devices when working with noisy equipment. Use of serviceable equipment with low noise emission; Instruction to truck/machinery operators to avoid raving of engines. Use of noise protection (ear muff) during demolition.
Injury to Workers	<ul style="list-style-type: none"> Use of appropriate head, hand and foot protection (PPE) during demolition of structures. Adopting ergonomic work flow designs that fit physical tasks to employees.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Kirinyaga County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED RESETTLEMENT SITE AT AHITI NDOMBA IN MWEA EAST DISTRICT, KIRINYAGA COUNTY INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (National Irrigation Board) is proposing to improve the infrastructure (including road network, electricity, piped water and residential houses) of the Ahiti Ndomba site to make it habitable for the resettlement of displacement persons from Kabare at the sites of the proposed Thiba Dam and Mutithi Irrigation scheme.

The following are the anticipated impacts and proposed mitigation measures:

<i>Environmental Impacts</i>	<i>Mitigation Impacts</i>
Landscape visual impact	<ul style="list-style-type: none"> Design of infrastructure that conforms to the project site features
Soil and water contamination	<ul style="list-style-type: none"> Design appropriate sanitary facility considering efficacy and sustainability.
Potential lack of support from project area community	<ul style="list-style-type: none"> Timely dissemination of project facts to PAPs, host community and other stakeholders. Convening of meetings with PAPs and Host Community to disseminate project facts.

Vegetation damage, habitat loss and invasion by exotic species	<ul style="list-style-type: none"> Utilize appropriate clearing techniques e.g. by using human labour as opposed to heavy machinery. Maintain native ground cover by selective removal of tree which cannot be incorporated in the project design. Minimizing clearing and disruption to riparian vegetation. 		<ul style="list-style-type: none"> Provision of used oil containers at a central point. Use of waste bins/proper waste management.
Generation of Solid Waste	<ul style="list-style-type: none"> Provide strategically located solid waste collection container. Collect together all generated waste from site clearing. Transport and dispose all waste away from site. Liaise with local authority on suitable dumping site for spoils. 	Injury to Workers	<ul style="list-style-type: none"> Appropriate head, hand and foot protection (PPE) during the manual clearing of vegetation and construction activities. Adopting ergonomic work flow designs that fit physical tasks to employees and not vice versa while maintaining a balance with productivity.
Noise pollution (excess noise and vibration)	<ul style="list-style-type: none"> Use of noise reduction/ hearing protection devices when working with noisy equipment. Use of serviceable chain saws (low noise emission). Instruct machinery operators to avoid raving of engines. Carry out site preparation activities during the day. 	Loss of land use, loss of property, population relocation, Land acquisition	<ul style="list-style-type: none"> Inform and provide a plan to farmers currently cultivating land to be used for resettlement. Sensitize local population and PAPs on planned project activities. Sensitize workers on proper waste management.
Soil Erosion	<ul style="list-style-type: none"> Soils excavated are to be used for backfilling construction areas while the excess soil is disposed of away from site. Soils are not to be left exposed to wind/water. Riverine vegetation to be minimally disturbed when carrying out soil excavation activities during construction. Soil erosion is to be reduced and riverbank protection enhanced. 	Temporary road use risk to local population	<ul style="list-style-type: none"> Pre-notification on the intension to move large equipment by road. Observe strict code of conduct by the transporters.
Air Pollution (dust, fuel emissions)	<ul style="list-style-type: none"> Control speed of construction vehicles. Prohibit idling of vehicles. Water is to be sprayed during the construction phase on dusty areas to reduce dust emission. Regular maintenance of vehicle & equipment. Provision of dust masks for use in dusty conditions. Use of serviceable vehicles and machinery to avoid excessive smoke emission. 	Working at heights	<ul style="list-style-type: none"> Use of construction site barrier tapes to isolate the site(working) area to bar intruders from accessing the area in case of a dropping object. Testing of structures for integrity prior to undertaking work. Provision harnesses and scaffolds for working at heights. Inspection, maintenance, and replacement of fall protection equipment. Use of helmets and other protective devices to mitigate against injuries due to dropping objects. Provide first aid facilities at the site.
Excess noise and vibration	<ul style="list-style-type: none"> Use of noise reduction/ hearing protection devices when working with noisy equipment or noisy environment. Use serviceable equipment with low noise emission. Instruct truck/machinery operators to avoid raving engines. 	Loss of farm crops at the resettlement site	<ul style="list-style-type: none"> Discuss with the crop owners. Develop and provide a resettlement plan to crop owners and farmers at the resettlement site area.
Generation of Solid Waste	<ul style="list-style-type: none"> Provide communal solid waste collection containers. Liaise with local authority on suitable dumping site for waste. Use of the excavated soil to backfill. 	Community misconceptions	<ul style="list-style-type: none"> Awareness creation amongst the PAP and locals on the project facts. Community issues responded to promptly. Project progress reports and monitoring reports to be prepared and recommendations implemented. Hold at least two meetings annually to sensitize local community.
Risk of fire	<ul style="list-style-type: none"> Carry out monitoring of the vegetation that is more susceptible to fire. No burning of materials is to be permitted at the site. 	Increase in social vices/ Security Concerns	<ul style="list-style-type: none"> Conduct Information Education and Communication amongst the community and the project staff. Hold meetings between Host and PAP community. Have regular police patrols at the beginning of infrastructure development.
Site Area & Groundwater Water Pollution	<ul style="list-style-type: none"> No domestic waste is to be disposed of at the project area. 	Surface run-off and Sedimentation from Construction activities	<ul style="list-style-type: none"> Ensure that access roads, sanitation facilities, and houses are not constructed in riparian land, floodplain, waterways and wetlands. Installation of sediment traps/screens to control runoff and sedimentation. Construction of effective drainages and culverts.
		Health issues for construction workers	<ul style="list-style-type: none"> Sensitize workers on use of protection facilities like mosquito nets appropriate gear when working in waterlogged areas to avoid Bilharzia.

Sanitary facilities for PAPs	<ul style="list-style-type: none"> • Provide workers on sexually transmitted diseases and emphasize on use of condoms. • Installation of appropriate sanitary facilities. • Installation of appropriate sewage works. • Installation of conservancy tanks.
Maintenance of facilities	<ul style="list-style-type: none"> • Use of barrier tapes to isolate the maintenance areas. • Provide harnesses and scaffolds for working at heights. • Inspection, maintenance, and replacement of fall protection equipment.
Risk of fire	<ul style="list-style-type: none"> • Induction on safety tips to PAPs. • No burning of any materials is to be permitted at the site.
Community misconceptions	<ul style="list-style-type: none"> • Awareness creation amongst the community on the project facts. • Ensure community issues/questions are responded to promptly. • Preparation of project progress and monitoring reports and recommendations implemented. • Hold meetings between PAPs and host community before PAPs resettle at the site.
Pollution of surface water and Waste management	<ul style="list-style-type: none"> • No waste is to be disposed of at the project site. • It is to be ensured that used oil from vehicles is not released to the ground. • Used oil is to be put into containers and appropriately disposed of by a NEMA approved agent. • Provision of used oil containers at a central point.
Disruption of schooling activities	<ul style="list-style-type: none"> • Expansion/ equipping of AHITI Ndomba Primary School to be able to accommodate new students from the resettlement site.
No Health Centre at resettlement for PAPs	<ul style="list-style-type: none"> • Expansion/equipping of Kutus Dispensary to be able to offer health services to the PAPs and Local community.
Cutting down of trees/ Deforestation to get firewood	<ul style="list-style-type: none"> • Consider energy-saving stoves; • Sensitize workers and PAPs on conservation; • Consideration for designing and installing a biogas system that is going to generate cooking gas for the PAPs using sewage waste from the households at the site. • Provision of alternative energy source to PAPs including: • NIB to facilitate identification of sponsor in the health sector who can support the project and reduce URTI prevalence in the project area.
Household Solid Waste	<ul style="list-style-type: none"> • Provision of communal solid waste containers (skip). • Regular disposal waste depending rate fill up.
Pollution of air from kerosene lamp causing URTI	<ul style="list-style-type: none"> • Provision of electricity network connection for the PAPs. • Use of electricity for lighting; • Significant reduction of air pollution at the household level hence reduction in

Air Pollution (dust, fuel emissions)	<ul style="list-style-type: none"> • URTI prevalence. • Control of construction vehicle speed. • Prohibition of idling of vehicles. • Water is to be sprayed on building undergoing demolition during decommissioning to reduce dust emission. • Regular maintenance of vehicles and equipment. • Provision of dust masks for use in dusty conditions. • Use of serviceable vehicles and machinery to avoid excessive smoke emission.
Noise pollution	<ul style="list-style-type: none"> • Noise reduction/ hearing protection devices when working with noisy equipment. • Use of serviceable equipment with low noise emission; • Instruction to truck/machinery operators to avoid raving of engines. • Use of noise protection (ear muff) during demolition.
Injury to Workers	<ul style="list-style-type: none"> • Use of appropriate head, hand and foot protection (PPE) during demolition of structures. • Adopting ergonomic work flow designs that fit physical tasks to employees.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Kirinyaga County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED BG GROUP OFFSHORE EXPLORATORY DRILLING IN BLOCK L10A & L10B

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (BG Kenya) is proposing to explore for the presence of hydrocarbons in blocks L10A and L10B. The project involves the mobilization of drill ships, drilling of wells, testing, plugging or abandoning of wells (depending on results) and demobilization, transfer of supplies by support vessels and personnel by helicopter.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Mitigation Measures</i>
Release of hydrocarbons and chemicals into the ocean	<ul style="list-style-type: none"> Implement Chemicals and Hydrocarbons Spill Prevention Mitigation and Management Plan. Development of a detailed Oil Spill Response Plan, based on the findings of this EIA, integrated with DSM-1 operational management plans. Provision of Tier 1 oil spill response capacity on DSM-1 to contain minor spills of fuel from the vessels, and Tier 2 oil response in country, and international Tier 3 capacity engaged. Clean-up and removal of synthetic oil based mud from cutting to achieve 5% by weight oil content. Implement Waste Mitigation and Management Plan. Implement Fisheries and Wildlife Mitigation and Management Plan.
Noise impacts on the avifauna and marine fauna	<ul style="list-style-type: none"> Ensuring equipment is maintained in good working order to minimise the generation of excessive noise which may be transmitted to the marine environment. Implement Noise Mitigation and Management Plan. Implement Fisheries and Wildlife Mitigation and Management Plan.
Introduction of marine alien invasive species	<ul style="list-style-type: none"> Mobilisation from neighbouring country (Tanzania), combined with compliance with MARPOL guidelines and DSM-1 operational management plans. Implement Fisheries and Wildlife Mitigation and Management Plan. Implement Waste Water Mitigation and Management Plan
Strains on the local infrastructure	<ul style="list-style-type: none"> Overall impact of the Project on the general business of Mombasa and the surrounding will be minimal in scale. The wastes generated by the drilling however could comprise wastes which the local infrastructure (waste disposal routes) is unable to manage. Implement Waste Mitigation and Management Plan
Water Quality	<ul style="list-style-type: none"> Mobilisation from neighbouring country (Tanzania), combined with compliance with MARPOL guidelines and DSM-1 operational management plans. Implement Fisheries and Wildlife Mitigation and Management Plan. Implement Waste Water Mitigation and Management Plan
Impact of released drill cuttings on pelagic and benthic fauna and flora	<ul style="list-style-type: none"> Clean-up and removal of synthetic oil based mud from cutting to achieve 5% by weight oil content. Implement Waste Mitigation and Management Plan. Implement Fisheries and Wildlife Mitigation and Management Plan.
Loss of contents of fuel bunker through collision	<ul style="list-style-type: none"> Implement Chemicals and Hydrocarbons Spill Prevention Mitigation and Management Plan. Development of a detailed Oil Spill Response Plan, based on the findings of this EIA, integrated with DSM-1

operational management plans.

- Provision of Tier 1 oil spill response capacity on DSM-1 to contain minor spills of fuel from the vessels, and Tier 2 oil response in country.
- Worker briefing on appropriate behaviour when in Mombasa/Nairobi as part of H&S briefing for all workers.
- Supported by Community Grievance System

The full report of the proposed project is available for inspection during working hours at:

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED JAFFERY COMPLEX IN MBARAKI, MOMBASA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (K.S.I Jamaat – Trust Board Development Committee) is proposing to construct Jaffery Complex in Mbaraki, Mombasa, Kenya.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Mitigation Measures</i>
Hydrology and Water supply quality Degradation	<ul style="list-style-type: none"> Hazardous substance control and emergency response plan that will include preparation for quick and safe cleanup of accidental Identify areas where refueling and vehicle maintenance activities and storage of hazardous material is well maintained and protected.
Dust and exhaust emission	<ul style="list-style-type: none"> Ensure strict enforcement of onsite speed limit regulations Sprinkle water on graded access routes when necessary to reduce dust generation by construction vehicles Personal protective equipment shall be used Equipment shall be properly tuned and maintained
Noise pollution and vibration	<ul style="list-style-type: none"> Sensitive construction vehicle drivers, machinery operators to switch off vehicles or machinery not in use.

- Ensure that construction machinery is kept in good condition to reduce noise generation.
 - Buffer the site against noise propagation.
 - Construction to be undertaken during the day when most of the neighbors are at work
- Incidents, accidents and dangerous occurrences
- Ensure that provisions for reporting incidental and dangerous occurrences during construction using prescribed forms obtained from the local occupational health and safety office (OHSO) are in place.
 - Enforcing adherences to safety procedures and preparing contingency plan for accidental response in addition to safety education and training shall be emphasized.
 - Ensure the premises are insured as per statutory requirements (Third party and workman's compensation).
 - Develop, efficient, clean well-lit and adequate sanitary conveniences have been provided for construction workers.
- Oil spills
- A designated garage section of the site fitted with trapping equipment to be planned for changes. Such an area shall be well protected from contaminating the soil
- Solid waste generation
- Use of an integrated solid waste management system i.e. recover, recycle and reuse
 - Through accurate estimation of the sizes and qualities of materials required, order materials in sizes and qualities of materials
 - Ensure that damaged or wasted construction materials are recovered for refurbishing and use in other projects
 - Donate recyclable/ reuse or residual materials to local community groups, institutions, and individual local residents or home owners.
 - Provide facilities for proper handling and storage of construction material to reduce the amount of waste caused by damage or exposure.
 - Use building materials that have minimal or no packaging to avoid the generation of excessive packaging waste.
 - Reuse packaging materials such as cartoons, cement bags among others
 - Dispose waste more responsibly by dumping at designated points on site or landfill only
 - Waste collection bins to be provided at designated points on site.
 - Running educational campaign amongst residents
- Increased storm water runoff and soil erosion
- Roof water harvesting and storing in underground reserves for use in cleaning common areas and watering gardens
 - A storm water management plan that minimizes impervious area infiltration by use of recycled areas and use of detention and / or retention with graduated outlet control structures shall be designed

- Apply soil erosion control measures such as leveling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil
 - Ensure those construction vehicles are restricted to existing roads to avoid soil compaction within and around the project site.
 - Ensure that any compaction areas are ripped to reduce run-off.
- Generation of waste water
- Provision of means for handling sewerage generated by construction workers
 - Conduct regular checks for sewage pipe blockages or damages since vices can lead to release of the effluent into the land water bodies
 - Monitor effluent quality regularly to ensure that the stipulated discharge rules and standards are not violated
- Vegetation
- Landscaping, and planting of all disturbed area
 - Planting flowers/ exotic trees and grassing
- Security
- Secure site by providing security guard
 - Build a buffer/ security wall and provide entrance to the area

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Mombasa County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED PETROL STATION ON PLOT L.R. NO.
GITHUNGURI/GITHUNGURI TOWNSHIP/422 IN GITHUNGURI
TOWNSHIP ALONG KIAMBU-GITHUNGURI ROAD, KIAMBU
COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Penko Refillers Limited) is proposing to construct and operate a fuel service station. The proposed petrol station shall involve the construction of underground fuel storage tanks, fuel dispenser pumps under the cover of a canopy, a building accommodating four small shops, a coffee shop, tyre changing area, a generator & compressor room, lubricant shop, sales and management offices and cloak rooms, acceleration and deceleration lanes, vehicle

parking, a wastewater treatment system, and an oil interceptor on Plot L.R. No. Githunguri/Githunguri Township/422 in Githunguri Township along Kiambu- Githunguri Road, in Kiambu County.

The following are the anticipated impacts and proposed mitigation measures:

Environmental Impacts Proposed Mitigation Measures

Changes in hydrology/ impended drainage	<ul style="list-style-type: none"> • Proper Installation of drainage structures • Install cascades to break the impact of water flowing in the drains • Ensure efficiency of drainage structures through proper design and maintenance • Provide gratings to the drainage channels • Regular checks on any sludge along drainage channels • Visual checks of oil interceptors and drainage channels for any leaks
Soil erosion	<ul style="list-style-type: none"> • Control earthworks • Rehabilitate degraded environment to avoid siltation and wash offs. • Compact loose soils • Landscaping • Ensure management of excavation activities • Control activities especially during rainy conditions • Provide soil erosion control and conservation structures where necessary. • Proper disposal of excavated loose soil
Air pollution through dust and gaseous emissions	<ul style="list-style-type: none"> • Control speed and operation of construction vehicles • Prohibit idling of vehicles • Water should be sprayed during the construction phase of excavated areas • Regular maintenance of construction plant and equipment • Engage sensitive construction workers. • Proper use of PPEs
Increased Human Activities and Increased Solid Waste Generation	<ul style="list-style-type: none"> • Hire a critical numbers of workers. • Place litterbins at the site. • Source materials on need basis. • Ensure that there are elaborate programs of waste removal frequently. • Avail first aid facilities. • Waste generated should be contained appropriately. • Encourage segregation of waste.
Noise pollution	<ul style="list-style-type: none"> • Sensitize drivers of construction machinery on effects of noise • Maintain plant equipment (if present/used) • Construction activities to be restricted to daytime • Workers in the vicinity of or involved in high-level noise to wear respective safety & protective gear i.e. earplugs & earmuffs • Appropriate selection of machinery
Oil pollution	<ul style="list-style-type: none"> • Proper storage, handling and disposal of new oil and used oil and related wastes • Maintain plant and equipment to avoid leaks • Maintenance of construction vehicles

	<p>should be carried out in the contractors yard</p> <ul style="list-style-type: none"> • Provide oil interceptors along the drains leading from car wash, service bays, oil storage areas and dispensing pump islands
Increased Water use	<ul style="list-style-type: none"> • Management of water usage. • Avoid unnecessary wastage especially at the car washing bay • Recycling of water at the construction phase where possible • Use of water conservation signs and installation of water conserving taps
Contractors lay down area	<ul style="list-style-type: none"> • Provide sanitary facilities on site especially for disposal of human waste. • Garbage should be disposed of in accordance with Municipal Council requirements
Road safety	<ul style="list-style-type: none"> • Enforce speed limits for construction vehicles especially along road links • Provide bill boards at the site/entrance to notify motorists about the development
Public health and occupational safety	<ul style="list-style-type: none"> • Ensure proper solid waste disposal and collection facilities • Ensure effective wastewater management • Design of sewerage system should be as provided in the plans • Provide First Aid kits on the site • Sensitize residents/workers on environmental management • Ensure there is no ponding to eliminate breeding of mosquitoes during construction • Train workers on occupational health & safety and first Aid administration • Train staff on petroleum product handling • Sensitize workers on HIV and AIDS
Fire safety training/ Emergency response procedures (ERPs)	<ul style="list-style-type: none"> • Training in firefighting and regular drills • To enhance health and safety preparedness among stakeholders • Ensure equipment is in good working condition. • Put up emergency response contacts • Put up ERP notification instructions • Put up simple instructions on how to handle fires, product spills, LPG incidents, armed robbery and product contaminations
Fire outbreak	<ul style="list-style-type: none"> • Install fire-fighting equipment as provided by municipal council fire department. • Sensitize the residents on fire risks i.e. conduct regular fire drills • Adapt effective emergency response plan • Provide emergency numbers at strategic points
Security	<ul style="list-style-type: none"> • Provide security guards and facilities during construction period • Security men should always be available to alleviate cases of robbery.
Water Quality and Waste Management	<ul style="list-style-type: none"> • Construct oil interceptors and monitor daily

- Strict adherence to the provisions of Waste Management and Water Quality Regulations
- Construct adequate and standard wastewater treatment plant/system
- Reduce waste at source, recycling and disposal in approved dumpsites.
- The proponent should explore engaging the services of a registered waste handler

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Kiambu County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED CONSTRUCTION OF OFF-GRID DIESEL POWER GENERATING STATION AND ASSOCIATED SUBSTATIONS IN BANISSA TOWNSHIP, MANDERA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Rural Electrification Authority) is proposing to an off-grid diesel power generating station, constructing a power house, fuel storage facility, water supply and storage, substation and electricity distribution network as well as installation, operation and maintenance of diesel generators in the power houses.

The following are the anticipated impacts and proposed mitigation measures:

Environmental Impact Mitigation Measures

Solid Waste Generation	<ul style="list-style-type: none"> • Use of an integrated solid waste management system options including source reduction, recycling, composting, reuse and incineration. • Ensure that wastes generated at the plant are efficiently disposed of. • A private solid waste handler to be contracted to handle solid waste.
Release of Sewage into the Environment	<ul style="list-style-type: none"> • Proponent to construct onsite sewage treatment facility that treats wastewater to meet the set NEMA standards.
Air Pollution	<ul style="list-style-type: none"> • Drivers of heavy earth moving vehicles will be under strict instructions to minimize unnecessary trips, and minimize idling of engines. • All workers on the site will be required to wear protective clothing.

Traffic and Transport	<ul style="list-style-type: none"> • Suitable wet suppression techniques shall be utilized in all exposed areas. • Use of low sulphur fuel to run the engines. • The stack chimney of the generators will be constructed to a height of 32 meters and stack emissions regularly monitored using the inbuilt monitoring system. • Set up an air quality monitoring stations at 1.0 and 5 Km west of site to collect SO₂ and NO_x data. • Limit delivery to off-peak hours to reduce disruption of transport links, delays and congestion. • Provide warning lights and other signs to reduce risk of accidents along delivery roads and at the site. • Keep the earth access road dump to reduce dust. • Adequate maintenance of trucks to reduce emissions.
Pollution from Hazardous Waste	<ul style="list-style-type: none"> • Handling of the materials using the material safety data sheets. • Appoint a safety officer to ensure proper disposal guidelines are observed. • Ensure that maintenance and repairs of equipment or construction work is undertaken by qualified personnel. • In case of spillage; emergency spillage control measures to be instituted. • Containerization of any wastes and disposal through a licensed waste handler pursuant to L.N. 121: Waste Management Regulations.
Workers Accidents	<ul style="list-style-type: none"> • All workers will be sensitized and trained on occupational safety and health issues and on how to control accidents related to construction. • A comprehensive contingency plan will be prepared on accident response. • Adherence to safety procedures will be enforced.
Noise and Vibration Pollution	<ul style="list-style-type: none"> • Installation of silencers on the generators. • Provision of personal protective equipment for workers. • Conduct annual noise measurements. • Carry out employee medical examination. • Comply with L.N. 25: Noise prevention and control rules, 2005 and L.N. 61: Noise and vibration pollution regulation, 2009.
Traffic and Transport	<ul style="list-style-type: none"> • Carry out fuel deliveries during the day to avoid noise and disruption of sleep to the residents.

Impacts during the decommissioning phase

Air Pollution During Demolition Process.	<ul style="list-style-type: none"> • Demolition exercise will be limited at day time only. • All personnel will be trained prior to commencing the demolition exercise on methods for minimizing negative impacts on air quality. • Construction vehicle drivers will be under strict instructions to minimize unnecessary trips and minimize idling of engines. • All active demolition areas will be watered to reduce dust. • All trucks hauling demolition
--	---

debris/wastes shall be covered.

Noise Pollution by Disassembly Activities

- Screening to contain and arrest demolition related dust will be adopted.
- Exposed demolition debris of e.g. dust and sand, will be enclosed, covered, and watered daily before transported to disposal site.
- All workers on the site will be required to wear protective gear.
- Portable barriers will be installed to shield compressors.
- Use of equipment with noise control elements as appropriate.
- Trucks used during demolition exercise on site shall be routed away from noise sensitive areas in the neighborhood, where feasible.
- Idling time for pickup trucks and other small equipment will be minimized.
- Use of very noisy equipment will be limited to daytime only.
- All workers operating in noisy areas or operating noisy equipment will be provided with earpieces to protect against extreme noise.
- The demolition exercise will be limited at day time only.

Demolition Debris and Related Wastes

- Private contractor will be engaged to collect demolition debris/wastes.
- All debris shall be collected regularly to control air pollution and injury etc.
- A licensed operator will collect demolition debris for safe disposal.
- All persons involved in refuse collection shall be in full protective gear.

Workers Accidents During Demolition Process.

- All workers will be sensitized before the exercise begins, on how to control accidents related to the demolition exercise
- A comprehensive contingency plan will be prepared before demolition begins, on accident response.
- Adherence to safety procedures will be enforced at all stages of the exercise.
- All workers, pursuant to labour laws, shall be accordingly insured against accidents.
- All workers will be provided and instructed to wear protective attire during demolition, including helmets.
- Demolition work will be limited to daytime only avoid workers accidents due to poor visibility.
- Provision of mobile clinics.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Mandera County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED CONSTRUCTION OF OFF-GRID DIESEL POWER GENERATING STATION AND ASSOCIATED SUBSTATIONS IN DADAAB TOWNSHIP, GARISSA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Rural Electrification Authority) is proposing to an off-grid diesel power generating station, constructing a power house, fuel storage facility, water supply and storage, substation and electricity distribution network as well as installation, operation and maintenance of diesel generators in the power houses.

The following are the anticipated impacts and proposed mitigation measures:

<i>Environmental Impact</i>	<i>Mitigation Measures</i>
Solid Waste Generation	<ul style="list-style-type: none"> • Use of an integrated solid waste management system options including source reduction, recycling, composting, reuse and incineration. • Ensure that wastes generated at the plant are efficiently disposed of. • A private solid waste handler to be contracted to handle solid waste.
Release of Sewage into the Environment	<ul style="list-style-type: none"> • Proponent to construct onsite sewage treatment facility that treats wastewater to meet the set NEMA standards.
Air Pollution	<ul style="list-style-type: none"> • Drivers of heavy earth moving vehicles will be under strict instructions to minimize unnecessary trips, and minimize idling of engines. • All workers on the site will be required to wear protective clothing. • Suitable wet suppression techniques shall be utilized in all exposed areas. • Use of low sulphur fuel to run the engines. • The stack chimney of the generators will be constructed to a height of 32 meters and stack emissions regularly monitored using the inbuilt monitoring system. • Set up an air quality monitoring stations at 1.0 and 5 Km west of site to collect SO₂ and NO_x data.
Traffic and Transport	<ul style="list-style-type: none"> • Limit delivery to off-peak hours to reduce disruption of transport links, delays and congestion. • Provide warning lights and other signs to reduce risk of accidents along delivery roads and at the site. • Keep the earth access road dump to reduce dust. • Adequate maintenance of trucks to reduce emissions.
Pollution from Hazardous Waste	<ul style="list-style-type: none"> • Handling of the materials using the material safety data sheets. • Appoint a safety officer to ensure proper disposal guidelines are observed. • Ensure that maintenance and repairs of equipment or construction work is

- undertaken by qualified personnel.
- In case of spillage; emergency spillage control measures to be instituted.
- Containerization of any wastes and disposal through a licensed waste handler pursuant to L.N. 121: Waste Management Regulations.
- Workers Accidents
 - All workers will be sensitized and trained on occupational safety and health issues and on how to control accidents related to construction.
 - A comprehensive contingency plan will be prepared on accident response.
 - Adherence to safety procedures will be enforced.
- Noise and Vibration Pollution
 - Installation of silencers on the generators.
 - Provision of personal protective equipment for workers.
 - Conduct annual noise measurements.
 - Carry out employee medical examination.
 - Comply with L.N. 25: Noise prevention and control rules, 2005 and L.N. 61: Noise and vibration pollution regulation, 2009.
- Traffic and Transport
 - Carry out fuel deliveries during the day to avoid noise and disruption of sleep to the residents.

Impacts during the decommissioning phase

- Air Pollution During Demolition Process.
 - Demolition exercise will be limited at day time only.
 - All personnel will be trained prior to commencing the demolition exercise on methods for minimizing negative impacts on air quality.
 - Construction vehicle drivers will be under strict instructions to minimize unnecessary trips and minimize idling of engines.
 - All active demolition areas will be watered to reduce dust.
 - All trucks hauling demolition debris/wastes shall be covered.
 - Screening to contain and arrest demolition related dust will be adopted.
 - Exposed demolition debris of e.g. dust and sand, will be enclosed, covered, and watered daily before transported to disposal site.
 - All workers on the site will be required to wear protective gear.
- Noise Pollution by Disassembly Activities
 - Portable barriers will be installed to shield compressors.
 - Use of equipment with noise control elements as appropriate.
 - Trucks used during demolition exercise on site shall be routed away from noise sensitive areas in the neighborhood, where feasible.
 - Idling time for pickup trucks and other small equipment will be minimized.
 - Use of very noisy equipment will be limited to daytime only.
 - All workers operating in noisy areas or operating noisy equipment will be provided with earpieces to protect against extreme noise.

- Demolition Debris and Related Wastes
 - The demolition exercise will be limited at day time only.
 - Private contractor will be engaged to collect demolition debris/wastes.
 - All debris shall be collected regularly to control air pollution and injury etc.
 - A licensed operator will collect demolition debris for safe disposal.
 - All persons involved in refuse collection shall be in full protective gear.
- Workers Accidents During Demolition Process.
 - All workers will be sensitized before the exercise begins, on how to control accidents related to the demolition exercise
 - A comprehensive contingency plan will be prepared before demolition begins, on accident response.
 - Adherence to safety procedures will be enforced at all stages of the exercise.
 - All workers, pursuant to labour laws, shall be accordingly insured against accidents.
 - All workers will be provided and instructed to wear protective attire during demolition, including helmets.
 - Demolition work will be limited to daytime only avoid workers accidents due to poor visibility.
 - Provision of mobile clinics.

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.
- (c) County Director of Environment, Garissa County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

SALOME MACHUA,
for Director-General,

MR/3113661 National Environment Management Authority.

GAZETTE NOTICE NO. 12817

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT
(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT
AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED CONSTRUCTION OF OFFICE BLOCK
AND STEEL WORKS PLANT ON L.R. NO 12715/211 ALONG
MOMBASA ROAD, MACHAKOS COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Endmor Steel Millers Limited) is proposing to construct new premises comprising a two storey office block, a cafeteria, a dispensary, scrap yards, and parking areas on LR No 12715/211 along Mombasa Road Machakos County. The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Metal dust during preparation for smelting	<ul style="list-style-type: none"> Do not use drills & grinders or any power tools. All workers on the production line must wear Personal Protective Equipment at all times. Do not water blast or scrub with a stiff broom. Only use a manually controlled low pressure course garden horse.
Metal dust/ fibers during transportation	<ul style="list-style-type: none"> All vehicles transporting scrap metal should be covered. All workers involved in the loading and offloading should wear PPE's.
Air Emissions	<ul style="list-style-type: none"> A 35 meter stack will be used. Wet scrubbing of gases from the furnace to be employed so as to avert emission of NOx and Sox. Machines to be used fitted with scrubbers, cyclones, and fabric filters, for filterable dust & particulate matter. Ensure that transport vehicles are well serviced to reduce tailpipe emissions. Use solar energy for powering computers & lighting to offset grid emissions.
Air pollution and dust generation during construction	<ul style="list-style-type: none"> Strict enforcement of on-site vehicle speed limit regulations. Use of dust nets to reduce spreading of generated dust. Sprinkling of water on dusty spots. Use well maintained vehicles and machinery that do not produce excessive fumes.
Noise and vibration	<ul style="list-style-type: none"> Usage of manual labor as much as possible. Avoid unnecessary hooting of vehicles. Ensure all generators and heavy machinery are insulated or placed in enclosures to minimize noise levels. Comply with L.N. 25: Noise prevention and control rules, 2005 & L.N. 61: noise and vibration pollution regulations, 2009.
Increased water demand	<ul style="list-style-type: none"> Water for cooling & rolling is re-cycled throughout the process without release. The volumes are only lost due to evaporation. Buildings to have roof rainwater harvesting and storage facilities.
Solid waste generation	<ul style="list-style-type: none"> Use of an integrated waste management system options including source reduction, recycling, composting, reuse & incineration. A private NEMA licensed waste handler to be contracted to handle waste.
Increased energy demand	<ul style="list-style-type: none"> Provide solar lighting and water heating systems. Installation of standby generators. Provide energy saving (low power consumption) lighting bulbs.
Worker accidents and health risks	<ul style="list-style-type: none"> All workers will be sensitized & trained on occupational safety & health issues & on how to handle accidents. A comprehensive contingency plan will be prepared on accident response. Adherence to safety procedures will be enforced.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Machakos County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

B. M. LANGWEN,

for Director-General,

MR/3113912

National Environment Management Authority.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
