G. E. POWTER,

Honorary Treasurer.

Mombasa, May 13th, 1903.

Reuter's Telegrams.

MAY 1st.—M. Loubet has started on his return journey to France after inspecting the fortifications at Bizerta.

The Coal mining townlet of Frank at the entrance of Crowsnest Pass to the Rocky Mountains has been overwhelmed by the fall of an immense mass of the mountain which towers above it. A hundred persons have been buried in the ruins.

A band of a dozen individuals attacked last night the premises of the Ottoman Bank at Salonika with dynamite and bombs. The sentries were overpowered and the Bank burned. Two of the robbers were killed, three have been arrested and the remainder escaped. Simultaneous attacks were made on the Turkish Post Office and other buildings resulting in several being killed and wounded: numerous arrests have been made.

Mr. Brodrick speaking in the House of Commons stated that all General Manning's demands had been promptly met, and that the Government while recognizing the valuable assistance given by Italy consider that they have not received all the assistance which they were given to understand they would. With reference to Mudug, since we occupied the place doubtless difficulties had arisen which Italy had not foreseen. However he did not criticize in any way the action of Italy who throughout had shown the greatest friendship. The object of the advance was to strike a blow against the Mullah's prestige by expelling him from Mudug and this object had been fully accomplished.

MAY 2ND.—The German Emperor has started for Rome.

King Victor Emanuel and the Italian Princes accompanied King Edward to the station where their Majesties took a cordial farewell of one another.

Besides the atrocities reported in Renter's of yesterday, a band of miscreants attacked the Ottoman Bank at Mitylene, drove in three carriages throwing bombs into the Cafés en route. Two thousand troops have arrived at Salonika and the panic has been allayed.

The following is the result of the One thousand Guineas:—

Quintessence.

Sun Rose.

Skyscraper.

King Edward arrived in Paris yesterday afternoon, the weather being fine.

His Majesty's reception was highly gratifying. He together with M. Loubet drove to the Embassy through densely packed streets where a profusion of bunting and other decorations were displayed. The reception throughout was of the heartiest.

MAY 4TH.—M. Loubet received King Edward at the Elysée on Saturday and had an interview lasting twenty minutes.

His Majesty then returned to the Embassy receiving there an address from the British Chamber of Commerce. In reply His Majesty trusted that the days of conflict between England and France were happily over.

All the festivities in honour of King Edward in Paris have been attended with perfect success culminating in a Banquet at the Elysée and a gala performance at the opera. M. Loubet in toasting His Majesty referred to the desire of France for closer relations, King Edward responded expressing his desire for a *rapprochement*.

MAY 5TH.—M. Loubet and the French Ministers took a cordial farewell of King Edward at the station. His Majesty warmly thanked them for the cordial reception accorded him which he said he will never forget as he had been enchanted with the visit.

Mr. Wyndham moved in the House of Commons the second reading of the Land Bill. Mr. John Redmond severely criticised the details and entreated the Government to adopt essential amendments about which both landlords and tenants agreed otherwise he said that the Nationalists would not support the Bill.

MAY 6TH.—His Majesty passed Monday night on board the Royal Yacht at Cherbourg. He entertained the Officers from the French and English squadrons at dinner: both the squadrons were illuminated.

King Edward has arrived in London. His Majesty received an exceptionally enthusiastic greeting emphasizing the appreciation of the public at the result of his tour.

There is a rumour at Aden that the Mullah attacked the column at Geladi but was repulsed with heavy loss. The British losses are reported to be considerable.

The French Government have consented temporarily not to close the Church of Lourdes which belongs to an unauthorized order owing to the blow to the local trade should pilgrimages be stopped.

MAY 7TH.—Fourteen unofficial members have been added to the Transvaal Legislative Council. They include prominent British and Boer leaders.

The Prussian Minister of Commerce speaking at Magdeburg urged the necessity for the concentration of capital which he said was the only weapon wherewith to fight the United States.

The House of Commons have passed an undivided resolution guaranteeing the Transvaal a loan of 35 millions sterling the bulk of which is to be devoted to the development of the country, including the acquisition and construction of Railroads, irrigation works, land settlement, and the conversion of the old Transvaal Debt. Mr. Chamberlain in introducing the resolution said that great security for the future peace of South Africa consisted in the development of its prosperity.

At a fight near Serres between the Turkish Troops and a Bulgarian band, sixty of the latter and five of the Turks were killed.

Sir Henry Campbell Bannerman speaking in the House of Commons said that he thought that the account Mr. Chamberlain had given of the origin of the transaction culminating in the loan resolution would convince the country that the interests of Great Britain had been well regarded by him.

MAY 8TH.—In consequence of the recent outrages at Salonika the Porte has sent a strong note to Bulgaria protesting against the ineffectual surveillance kept on the frontier.

Thirty millions out of the thirty five sanctioned for the Transvaal loan have already been issued at par, interest will be payable at the rate of three per cent.

The Bulgarian Government have requested the Porte to withhold their note of the 6th inst. which was not formally presented, pointing this out in terms so strong as to be almost offensive.

MAY 9TH.—The second reading of the Irish land Bill was carried by 413 votes against 26 Votes, the minority consisting of Radicals and a few Conservatives. Mr. John Morley while taking exception to some of the provisions supported the Bill which meant the abolition of landlordism, and marked the collapse of the system under which Ireland has been governed since the Union.

Reuter's Agent at Peking states that a large force of Russians have reoccupied Newchwang, also the Forts at the mouth of the Liao river and that they are making extensive warlike preparations.

The Government of Victoria have summoned the State Railway employees Union which consist of 11,000 Members to secede from the central Labour Union designated Trades Hall by the 12th instant. The Government have also called a special Session of Parliament to meet on the 13th ultimo.

Mwanga one of the ex-Kings of Uganda died at Seychelles.

Reuter's Agent at Peking wires that the Russians have brought back to Newchwang a large number of troops that they recently had withdrawn to Port Arthur and other points of the Railway. They have also sent heavy guns and a quantity of stores to Newchwang and have ordered a large force to reoccupy Tienchuangtai. There are 14,000 troops between Liao and Port Arthur who are constructing forts with a view of resisting operations against them from Manchuria.

The Railway Strike has commenced in Melbourne and troops are patrolling the streets. There have been several demonstrations before newspaper offices, otherwise everything is quiet.

MAY 10TH.—It is stated in Washington that Mr. Hay has requested President Roosevelt to authorise joint action on the part of United States, Great Britain and Japan against the Russian aggression in Newchwang.

Reuter's Agent at Peking states that Russia's latest manoeuvre is interpreted as a declaration that she is prepared to fight for the maintenance of the possession of Manchuria. There have been reports for sometime past that Russia has been accumulating great quantities of stores, provisions, and war materials.

The Transvaal Loan List closed with unprecedented success, the subscriptions amounting to between twelve hundred and fifteen hundred millions.

Reuter's Agent at Peking states that the official at Newchwang who sent yesterday's news telegraphs that the occupation of the forts at the mouth of the Liao River was only temporary. The Russians have again withdrawn and consequently there is a disposition in Peking to question the gravity of the situation.

MAY 11TH.—The Mahomedans at Monastir exasperated by the action of the Bulgarians in throwing bombs into their Mosques attacked the Christian population in and around the town. A number were killed and a panic occurred. Christian houses and shops are all now closed.

The Porte being desirous of averting a conflict with Bulgaria has modified the terms of her note.

Almost immediately before the Cunarder "Umbria" left New York the Police seized a box containing a hundred pounds of what is supposed to be dynamite, together with complicated machinery which was working in the box. This box had been delivered to the steamer the night before by some Italians, and it is supposed to be a plot to destroy an English Liner.

Their Majesties King Edward and Queen Alexandra leave London to-day on a three days ceremonial visit to Scotland. They stay to-night at Dalkeith Castle from where they make a state entry into Edinburgh tomorrow and hold a levée and drawing-room at Holyrood Castle.

MAY 12TH.—Lord Cranborne stated in the House of Commons that Russia in reply to the friendly communications made during the last few days by the American and British Governments has intimated that she adheres to her engagements regarding the evacuation of Manchuria although the evacuation has been temporarily delayed.

MAY 13TH.—A limited train service has now been established between Melbourne and her suburbs. A few trains also are now running to the chief towns. The position as far as the running of the trains are concerned is improving daily.

Their Majesty's King Edward and Queen Alexandra entered Edinburgh in state yesterday. Troops and an immense crowd lined the nine miles route between Dalkeith and Holyrood. Their Majesties held a court at Holyrood Castle. It is eighty years since a function of this kind has taken place there.

The Embassies in Constantinople have called the Porte's attention to the grave situation in Monastir owing to the intense feeling of the populace against the Bulgarians, twenty-five of the latter having been killed quite lately, and they urge that measures should be taken to prevent further massacre.

The French Government will introduce next week a Bill to disestablish 400 female religious Orders, which Orders possess and administer 2,000 Public Schools for girls. It is understood that this suppression will involve the State in an expenditure of two millions sterling.

MAY 14TH.—Owing to recent attacks on different posts, and Caravans in the Southern Oran Province, France has sent a punitive Expedition, and it is stated that she will utilize her treaty rights to pursue the marauding tribes across the Moorish frontier.

Tetuan is closely besieged by 10,000 tribesmen and the position is considered grave. A passing steamer reports hearing heavy firing on Monday night and the sight of burning houses on the outskirts of the town. A steamer with 120 troops has left Tangier.

Mr. William Hill Irvine the Victorian Premier in moving the second reading of the Suppress Strike Bill declared that the country was face to face with a long meditated revolt against the established authority and that the Government intended fighting the battle to a finish. The Bill provides most stringent penalties against strikers.

The ironclad "Commonwealth" was launched yesterday on the Clyde. She is the largest battleship in the world, and has been completed in ten months which is a world's record.
