Appendix I

THE ENERGY ACT

(No. 12 of 2006)

IN EXERCISE of the powers conferred on him by sections 63 and 110 of the Energy Act, 2006, the Minister for Energy makes the following Regulations:

THE ENERGY (ELECTRICITY TARIFFS) REGULATIONS, 2013

- These Regulations may be cited as the Energy (Electricity Tariffs) Regulations, 2013.

- (1) These Regulations shall apply to—

(a) The Commission ; and

(b) any person who has a licence or permit issued under section 27 of the Act for the generation, importation or exportation, transmission or distribution of electrical energy or for the supply of electrical energy to consumers.

- (2) These Regulations shall not apply to the Kenya Defence Forces.

3. Any word or expression defined for the purposes of the Act shall unless the context otherwise requires, have the same meaning ascribed thereto when used in these Regulations.

“Act” means the Energy Act, No 12 of 2006.

“Commission” means the Energy Regulatory Commission established by Section 4 of the Act.

“connection point” means the agreed point of supply established between a network service provider, electric power producer and/or consumer as appropriate.

“control formulae” means the formulae specified by the Commission that permit the computation of a tariff constraint for a tariff year,

“control period” means the period of validity of control formulae

“fiscal year” means a year in respect of which a licence holder prepares statutory accounts

licence holder “material” means, in relation to a requirement of these Regulations and in the judgement of the Commission, the matter is significant in relation to the objectives of tariff control

“Minister” means the minister for the time being responsible for energy.

“Regulatory Asset Base” means a deemed regulatory valuation of the net investment in business assets attributable to a tariff controlled licence holder.

“separate businesses” means the separate businesses of a licence holder specified in the Energy (Electricity Regulatory Accounts) Regulations, 2012.

“statutory accounts” means accounts laid before the company in general meeting in accordance with the Companies Act.

“tariff” means a written statement of rates, terms and conditions for service relating to use of electricity.

“tariff control” means the process of tariff constraint specified in these Regulations.

“tariff constraint” means the maximum allowable level for a tariff control measure.

“tariff control framework” means the processes involved in the determination and periodic review of control formulae, the monitoring and enforcement of tariff constraints, and the operation of incentives.

“tariff controlled licence holder” means the activities of any licence holder subject to a framework for tariff control in accordance with Regulation 5.

“tariff control measure” means a financial indicator derived from the books and records of a licence holder used to indicate compliance with a tariff constraint.

“tariff year” means any one period of a series of periods, usually of one fiscal year, specified by the Commission for the purpose of Regulation 6(1).

“revenues” means revenues accounted for in accordance with the Energy (Electricity Regulatory Accounts) Regulations, 2012.

“licence holder” means a person who holds a licence or a permit issued under Section 27 of the Act for the generation, importation or exportation, transmission or distribution of electrical energy or for the supply of electrical energy to consumers.

(1) In these Regulations, unless the context otherwise requires:

(a) any reference to a numbered Regulation or Schedule is a reference to the Regulation or Schedule bearing that number in these Regulations;

(b) any reference to a numbered paragraph is a reference to the paragraph bearing that number in the Regulation in which the reference occurs;

(c) words importing the singular include the plural and vice versa;

(d) and words importing a gender include any gender;

(2) Any reference to a statute shall include any statutory amendments, modification or re-enactment thereof and subsidiary legislation made hereunder after the date when these Regulations come into force

4. (1) In exercising its power to set, review and adjust electric power tariffs and tariff structures under the Act, and in furtherance of its objects and functions in the Act, the Commission shall endeavour to carry out its activities to:

(2) Provide reasonable assurance that an efficient, well managed and appropriately financed tariff controlled licence holder will, taking one year with another, receive revenues that will cover the net costs of providing the services to which tariffs relate.

(3) Provide economic and reputational incentives on the owners and managers of tariff controlled licence holders to deliver better outcomes, where appropriate through competition, but otherwise through the design of a tariff control framework that provides economic and reputational incentives signalled in advance and honoured after the event.

(4) Avoid undue discrimination between users or suppliers of services, with reference to the principles of cost relatedness and to social objectives directed by the Minister.

(5) Avoid abuse of dominant position or undue restriction of competition by any licence holder licence holder.

(6) Ensure that the Commission’s process of regulation is transparent, that it follows principles consistently and that its decisions are evidence-based and informed by effective consultation with interested parties.

5. In respect of each tariff controlled licence holder.

(1) The Commission shall maintain a tariff control framework in respect of all sales of electrical energy or provision of transmission, distribution or system operation services, except where:

(a) the sale of electrical energy or provision of transmission or distribution services is subject to contracts approved by the Commission under Section 43 of the Act, or

(b) subject to Regulation 7 and principles that may be prescribed in accordance with the Act, and after taking into account the effectiveness of competition in the relevant markets and the materiality of the sales involved, the Commission judges that tariff control would not materially further the objects of the Act.

(2) Tariff control shall apply to relevant sales and services between the separate businesses of a tariff controlled licence holder as well as to sales and services to external customers.

6. In respect of each tariff controlled licence holder:

(1) The Commission shall define a control period and prior to the conclusion of each control period define a new control period that starts immediately after the conclusion of the preceding control period

(2) Except in exceptional circumstances and subject to Regulation 7, a control period shall be no shorter than three years and no longer than seven years.

(3) In respect of, and as far as practicable prior to the start of, each control period, the Commission shall carry out a tariff control review to define tariff control measures and specify corresponding control formulae for the calculation of tariff constraints for the following tariff categories:

(a) System operation tariffs

(b) Fuel cost tariffs

(c) Non-fuel power procurement tariffs

(d) Electricity transmission tariffs

(e) Electricity distribution tariffs

(f) Retail activity tariffs

(4) Control formulae shall incorporate such variables as the Commission considers necessary or desirable to further its objectives provided that such variables can be derived from published or otherwise publicly available information

(5) The Commission shall specify control formulae to secure that the sum of the Commission’s forecasts for revenues, as subjected to tariff constraints, of the respective businesses over the respective control period equate to the sum of the Commission’s assumptions for efficiently incurred operating expenditure, regulatory depreciation allowances and allowances for profits over that period in accordance with Regulation 10.

(6) The method of summation in paragraph (4) may involve discounting with reference to the fair rate of return determined under Regulation 9.

(7) The Commission shall determine regulatory depreciation allowances on a basis that systematically provides for the return of past investment included in the Regulatory Asset Base with reference to asset lives or otherwise

(8) The Commission shall take into account, and shall endeavour to procure, good quality evidence to inform its decisions

(9) The Commission shall, through its system of tariff control or otherwise, effect economic and reputational incentives towards its objectives and provide a balance between rewards for out performance and penalties for underperformance

(10) The Commission may review and re-determine a tariff control formula before the expiry of the period of validity if, in its judgement and subject to Regulation 7:

(a) Exceptional circumstances have caused the tariff control formula to be inconsistent with the Commission’s objects and functions, and

(b) The scope of the review is limited as far as reasonably possible to the matters affected by the exceptional circumstances.

7. (1) The Commission shall ensure that tariff control is a transparent, evidence-based process, informed by effective consultation.

(2) The Commission shall publish a consultation timetable for any material decision, ensure consultation material is readily

accessible and allow no less than 40 days, for responses to be prepared and submitted.

(3) Prior to any material decision, the Commission shall secure that interested parties have an opportunity to consider and comment on the rationale for that decision.

(4) In reporting any material decision, the Commission shall set out the evidence basis for its decision.

8. (1) The Commission shall determine and account for a Regulatory Asset Base for each tariff controlled licence holder.

(2) For the first determination of tariff formulae for a tariff controlled licence holder under these Regulations, the Commission shall make a just and reasonable initial valuation of the Regulatory Asset Base that reflects, where appropriate, the prevailing basis for tariff regulation.

(3) The Commission shall adopt a systematic method for rolling forward the Regulatory Asset Base with reference to information reported in regulatory accounts prepared in accordance with Energy (Electricity Regulatory Accounts) Regulations, 2012 from tariff year to tariff year that allows for:

- (a) Additions in respect of all investment in non-current business assets incurred in good faith in whole or in part for the purpose of delivering services subject to tariff control
- (b) Deductions in respect of regulatory depreciation allowances specified under Regulation 6(7)
- (c) Deductions in respect of customer capital contributions
- (d) Deductions in respect of asset disposals, such that the amount deducted represents the proceeds of disposal or the fair value of disposed assets if higher
- (e) Adjustments necessary to effect incentives.

9. (1) The Commission shall make allowances for profits in determining control formulae for a tariff controlled licence holder that provide for a fair rate of return on that licence holder's Regulatory Asset Base.

(2) The Commission shall endeavour to ensure that allowances for profits are consistent with attracting debt and equity capital and maintaining the finance ability of the tariff controlled licence holder's investment programmes.

(3) The Commission shall make an assessment of a fair rate of return with reference to a computation of the Weighted Average Cost of Capital for an efficiently financed business.

(4) The Commission shall make an assessment of the cost of debt that reflects

- (a) the interest rate terms and other terms of prudently incurred financial obligations that the tariff controlled licence holder has at the time of making the assessment, and
- (b) reasonable forecasts for interest rates for new debt financing and refinancing.
- (5) The Commission shall make an assessment of the cost of equity
 - (a) with reference to the Capital Asset Pricing Model unless, in its judgement and subject to Regulation 7, the Commission considers another methodology that has widespread support from regulatory or academic authorities better meets its objectives,
 - (b) with reference to objective criteria based on comparable benchmarks,
 - (c) with reference to evidence of relevant investor risks
 - (d) with reference to the levels of tax that will be payable on profits made by the tariff controlled licence holder.

(6) The Commission shall allocate allowances for profits to the categories of tariffs in Regulation 6(1) on a basis that reflects the usage of assets and is consistent with the cost allocation methods specified in the Energy (Electricity Regulatory Accounts) Regulations, 2012.

(7) The Commission may compute a fair rate of return on a pre-tax or post-tax basis, accounting for tax costs under Regulation 4 (1) 1 (1) appropriately in each case. It shall compute and publish an equivalent pre-tax rate of return.

10. (1) No later than 45 days before the start of each tariff year, a tariff controlled licence holder shall furnish the Commission with a materially complete proposed statement of tariffs and charges.

(2) licence holder at any time during the tariff year, a controlled licence holder may furnish the Commission with a materially complete proposed statement of revised tariffs.

(3) The proposed statement of tariffs in paragraph (1) or (2) of this regulation shall not be materially complete unless it is accompanied by:

- (a) Evidence acceptable to the Commission that the proposed tariffs would not be expected to cause tariff control measures to exceed the relevant tariff constraints;
- (b) Evidence acceptable to the Commission that the proposed tariffs comply with any tariff structure condition communicated to the tariff controlled licence holder by the Commission;
- (c) Where for any reason other than a tariff structure condition the structure of tariffs is materially different from the prevailing structure:
 - (i) justification for the proposed changes with reference to principles of cost relatedness and the avoidance of undue discrimination, abuse of dominant position or undue restriction of competition; and
 - (ii) evidence of informed consultation with users, the results of that consultation and the steps taken by the tariff controlled licence holder to address any concerns expressed during that consultation.

(4) Where a tariff controlled licence holder is engaged in retail activities, it may propose a bundled tariff in place of a retail tariff.

(5) Where a bundled tariff is proposed, for the purpose of demonstrating compliance with tariff constraint in respect of retail activity tariffs, the retail activity component of the bundled tariff will be defined as the residual after taking into account tariffs in respect of all other activities.

(6) The Commission may at any time communicate to a tariff controlled licence holder, and at the same time publish, a tariff structure condition that specifies characteristics of the tariff structure for any future statement of tariffs, together with the reasons for the condition.

(7) The Commission may make amendments to the proposed statement of tariffs or revised tariffs that it considers appropriate, provided that the reasons for such amendments are material, explained in writing to the tariff controlled licence holder.

(8) The Commission shall approve a proposed or amended statement of tariffs prior to the later of the start of each tariff year or 45 days after the submission of a materially complete proposed statement under paragraph (1) or (2).

(9) The Commission shall publish the approved statement of charges in the Kenya Gazette.

11. (1) Each tariff controlled licence holder shall submit to the Commission, within six months after the end of each tariff year, a tariff control compliance statement demonstrating compliance with the tariff control formula

(2) The tariff control compliance statement shall disclose:

- (a) A computation of the tariff constraints
- (b) A statement of the corresponding tariff control measures
- (c) A statement of any variances between (a) and (b)

(3) Where tariffs for sales and services to retail customers relate to more than one tariff category specified in Regulation 6(1), the computation of tariff control measures shall be consistent with Regulation 11(4).

(4) A tariff controlled licence holder that is subject to the requirements of the Energy (Electricity Regulatory Accounts) Regulations, 2012 shall secure that each tariff control compliance statement is incorporated in regulatory accounts and subject to audit.

12. Any tariff controlled licence holder aggrieved by a decision by the Commission under these regulations may appeal to the Energy Tribunal.

13. These regulations come into effect immediately.

KIRAITU MURUNGI,
Minister for Energy.

EXPLANATORY SCHEDULE

1. Regulation 4 (2): The net costs of providing the services to which tariffs relate will include:

- (a) The costs of procuring electric energy and standby electricity generating capacity,
- (b) Expenditure incurred in managing and operating electricity networks, electricity systems and the supply of electricity to customers,
- (c) Other expenditure necessary to support the relevant services, including the costs of public service obligations, including but not limited to those required to meet environmental and social objectives, where these obligations are imposed by empowered authorities in accordance with relevant legislation,
- (d) The costs of maintaining, renewing and replacing business assets, generally accounted for as depreciation,
- (e) Allowances for profits to provide a reasonable expectation for a fair rate of return on investment in business assets, represented by a Regulatory Asset Base, that is consistent with attracting debt and equity capital and maintaining the financial ability of the licensee's investment programmes.
- (f) Less any other income arising from or otherwise reasonably attributable to the activities and assets of the licensee.

2. Regulation Error! Reference source not found: Better outcomes may include:

- (a) Lower costs for consumers in due course than would otherwise be the case through improved operating efficiency, improved planning, improved procurement, improved system operation and dispatch, improved management and negotiation of power purchase agreements, improved management of assets, improved energy efficiency by licensee, improved demand management, more efficient use of energy by consumers, improved management of investment and other programmes, improved business and investment strategy and improved management of financial risks,
- (b) Services that better meet the needs of existing and potential electricity consumers, including improved short-term and long-term reliability or security of electricity supply, and
- (c) The furtherance of economic, social, environmental and other objectives directed by the Minister.

3. Regulation 6 (7): Variables in a tariff control formula may include:

- (a) A base year value for the respective tariff constraint
- (b) Adjustments for inflation
- (c) Pass-through adjustments
- (d) In respect of outputs, incentive adjustments for:
 - (i) variances in service levels
 - (ii) variances in asset performance
 - (iii) achievement of milestones in the delivery of outputs, investment or other objectives
- (e) In respect of tariff control compliance (for other than fuel cost tariffs)
 - (i) variances disclosed in a tariff control compliance statement

(ii) compensation for financing costs or benefits associated with under-recovery or over-recovery

(f) In respect of fuel cost tariffs:

(i) releases of any accumulated surplus from a regulatory fuel cost provision in the event that a provision exceeds thresholds determined by the Commission after due consultation in accordance with Regulation 7

(ii) any accumulated deficit on a regulatory fuel cost provision.

(g) Any other variables that the Commission considers necessary or desirable to further its objectives.

4. Regulation 6(5): Published information would include information published under the Energy (Electricity Regulatory Accounts) Regulations, 2012

5. Regulation 6(8): Where it considers it appropriate, the Commission should seek independent verification or undertake analysis to ensure the evidence base for its decisions is of appropriate quality. Evidence pertinent to the objectives of tariff control in Regulation 4 may include:

- (a) Evidence on historical and forecast costs, investment needs, outputs, risks, user demand and user preferences
- (b) Evidence on the performance and costs of comparable licensees within and outside Kenya

6. Regulation 6(9): In recognition of the role of reputational incentives in incentive-based regulation.

7. Regulation 6(9): To avoid undue asymmetrical risk for licensees.

8. Regulation 8(3)(a): Non-current business assets will generally include tangible fixed assets and software licences but exclude financial investments, purchased goodwill and other intangible assets unless the Commission otherwise agrees.

9. Regulation 8(3)(b): The method should ensure that amounts deducted correspond to, or are computed on a consistent basis with, amounts included in the determinations of the control formulae for the relevant period in accordance with Regulation 4(2).

10. Regulation 8(3)(c): Customer capital contributions would include capital grants and any capital component of connection charges.

Appendix II

IN EXERCISE of the powers conferred on him by Sections 63 and 110 of the Energy Act, 2006, and of all other powers enabling him in that behalf, the Minister for Energy hereby makes the following Regulations:

THE ENERGY (ELECTRICITY REGULATORY ACCOUNTS) REGULATIONS, 2013

1. These Regulations may be cited as the Energy (Electricity Regulatory Accounts) Regulations, 2013.

2. (a) These Regulations shall apply to any person who has a licence or permit issued under Section 27 of the Act for the generation, importation or exportation, transmission or distribution of electrical energy or for the supply of electrical energy to consumers.

(b) These Regulations shall not apply to the Kenya Defence Forces.

3. Any word or expression defined for the purposes of the Act shall unless the context otherwise requires, have the same meaning ascribed thereto when used in these Regulations.

"Act" means the Energy Act, No 12 of 2006;

"activity-based" means a methodology for the allocation of costs in relation to the way resources are consumed and with reference to the causation of cost at the level of business activities, as described in Kaplan, Robert S. and Bruns, W. 'Accounting and Management: A Field Study Perspective' (Harvard Business School Press, 1987)

"bundled retail tariffs" means tariffs levied on electricity customers for the sale of electricity that relate to more than one tariff category specified in the Energy (Electricity Tariffs) Regulations, 2012

“Commission” means the Energy Regulatory Commission established by Section 4 of the Act;

“fiscal year” means a year, or any other period, in respect of which a holder of a licence prepares statutory accounts;

“licence” means a document or instrument authorising any person to import, export, generate, transmit, distribute and/or supply electrical energy, in the manner described in such document or instrument;

“licence holder” means a person who holds a licence or a permit issued under Section 27 of the Act for the generation, importation or exportation, transmission or distribution of electrical energy or for the supply of electrical energy to consumers;

“Minister” means the minister for the time being responsible for energy

“power purchase agreement” means an agreement for the generation and sale of electricity;

“regulatory financial performance” means financial performance in relation to the form of tariff control and any forecasts and assumptions made and disclosed by the Commission at the time of determining that tariff control;

“separate businesses” means business activities referred to in Regulation 4;

“single buyer” means the power procurement activity of a licence holder who is the single or dominant or residual procurer of electric power in Kenya or is otherwise designated by the Commission as the single buyer;

“statutory accounts” means accounts laid before the company in general meeting in accordance with the Companies Act, Chapter 486;

“tariff controlled licence holder ” has the meaning defined in the Energy (Electricity Tariffs) Regulations, 2012

“tariff year” means any one period of a series of periods, usually of one year, specified by the Commission for the purpose of the Energy (Electricity Tariffs) Regulations, 2012

4. A licence holder shall keep or cause to be kept, for a period of seven years, such accounting and other records as are necessary to ensure that all of the revenues, costs, assets, liabilities, reserves, and provisions of, or reasonably attributable in accordance with these regulations to, any of the following business activities of the licence holder are separately identifiable as such in those records:

- (a) System operation
- (b) Single buyer
- (c) Electricity generation
- (d) Electricity transmission
- (e) Electricity distribution
- (f) Retail activities
- (g) Corporate activities

5. Subject to the exemptions in Regulation 6, in addition to statutory accounts required under any other written law:

- (a) A licence holder shall prepare regulatory accounts from the accounting and other records referred to in Regulation 4 in the form and with the content specified in Regulation 8.
- (b) A holder of a generating licence shall prepare generation summary statements from the accounting and other records referred to in Regulation 4 in the form and with content specified in Schedule 11 in respect of each installation within the generating plant for which a licence or permit would be required under Section 27 of the Act.

6. The following exemptions apply:

- (a) A licence holder need not prepare regulatory accounts for a regulatory reporting period if, during that period, the licence holder was not a tariff controlled licence holder and was not engaged in any of the activities specified in Regulation 4 other than electricity generation and corporate activities.
- (b) The Commission may, in writing and subject to due consultation, specify modifications of or exemptions from the requirements of these regulations in respect of any regulatory

reporting period for any licence holder that, during the regulatory reporting period:

- (i) Was not required to hold a licence issued under Section 27 of the Act for the generation, importation or exportation, transmission or distribution of electrical energy or for the supply of electrical energy to consumers, or

- (ii) Was not a tariff controlled licence holder.

7. Regulatory reporting periods shall be determined as follows:

- (a) A regulatory reporting period shall start at the end of any previous regulatory reporting period and end at the start of any subsequent regulatory reporting period.
- (b) Unless otherwise specified in writing by the Commission:
 - (i) For a tariff controlled licence holder, regulatory reporting periods shall coincide with that licence holder's tariff year.
 - (ii) For any other licence holder, regulatory reporting periods shall coincide with that licence holder's fiscal years.
 - (iii) A regulatory reporting period shall not start before the commencement of these regulations.

8. (1) The form and content of regulatory accounts shall be as follows:

- (a) Except where otherwise required or permitted by these Regulations, regulatory accounts shall comply with standards appropriate for the preparation of statutory accounts.
- (b) Regulatory accounts shall be prepared to present fairly, in all material respects and in accordance with these Regulations:
 - (i) the regulatory financial performance for the regulatory reporting period of each of the licence holder's separate businesses and, in aggregate, of the licence holder;
 - (ii) the financial position at the end of the regulatory reporting period of the licence holder;
 - (iii) the tangible fixed assets and Regulatory Asset Base at the end of the regulatory reporting period of each of the licence holder's separate businesses; and
 - (iv) the cash flows of the licence holder for the regulatory reporting period.
- (c) Regulatory accounts shall comprise:
 - (i) a segmental statement of regulatory financial performance, which may take the form of a segmental statement of comprehensive income, analysed with reference to the business activities referred to in Regulation 4 and in the form of Schedule 2;
 - (ii) a statement of the financial position for the licence holder;
 - (iii) a statement of changes in equity for the licence holder;
 - (iv) a statement of cash flows for the licence holder;
 - (v) a segmental statement of tangible fixed assets in accordance with Regulation 9 and in the form of Schedule 8;
 - (vi) a segmental statement of the Regulatory Asset Base prepared in accordance with the Energy (Electricity Tariffs) Regulations, 2012, analysed with reference to the business activities referred to in Regulation 4 and in the form of Schedule 8;
 - (vii) related notes, where appropriate in the form of Schedules to these regulations.
- (d) Regulatory accounts shall be accompanied by:
 - (i) a directors' report;
 - (ii) a regulatory corporate governance statement;
 - (iii) a regulatory business review;
 - (iv) a report of the auditor on the regulatory accounts;

- (v) a statement of the accounting policies adopted;
 - (vi) a tariff control statement disclosing, in respect of the fiscal year;
 - (e) the values of all tariff control measures, specified by the Commission in accordance with the Energy (Electricity Tariffs) Regulations, 2012;
 - (f) the computation of all tariff control constraints, specified by the Commission in accordance with the Energy (Electricity Tariffs) Regulations, 2012;
 - (g) the monetary value of any material variances, distinguishing between variances in fuel cost tariffs and other variances, in the form of Schedule 10;
 - (h) Other statements providing statistics relating to service performance, asset performance, asset condition, other asset characteristics, operational matters, users as the Commission may from time to time, and subject to due consultation, specify.
- (2) The Commission may permit adaptations of the format and presentation of regulatory accounts to reflect International Financial Reporting Standards and other conventions familiar to users or potential users of regulatory accounts.
- (3) In presenting the regulatory financial accounts, the licence holder shall provide comparative information which shall include:
- (a) information relating to the prior regulatory reporting period; and
 - (b) information relating to forecasts and assumptions in respect of the regulatory reporting period made and disclosed by the Commission at the time of determining any relevant tariff control.
- (4) The licence holder shall give prominence to comparative information under (3) (b) in relation to the regulatory financial performance of each of the licence holder's separate businesses and, in aggregate, of the licence holder.
- (5) Unless otherwise provided for in these regulations, regulatory accounts shall be prepared on a basis that is consistent with the licence holder's statutory accounts and a reconciliation of consolidated income and equity with amounts disclosed in the licence holder's statutory accounts shall be presented in respect of any material differences.
- (6) Where there are any material differences between the basis of preparation, the presentation of information or allocation of costs in the regulatory accounts and any information used by the Commission when determining the relevant tariff basis, regulatory accounts shall disclose sufficient information to permit users of regulatory accounts to understand the impact of these differences on the regulatory financial performance of the licence holder and its separate businesses and on the financial position of the licence holder.
- (7) For the purpose of preparing a segmental statement of fixed assets, the value of the licence holder's fixed assets in the company's statutory accounts shall be allocated to the separate activities referred to in Regulation 4 in relation to the dominant purpose or function of the asset.
- (8) The purpose or function of a fixed asset should be assessed in relation to its role, if any, in the licence holder's electrical systems, the purpose for which the asset was acquired and its expected use over its economic life.
- (9) Where the dominant purpose or function of a fixed asset is to support a single business activity referred to in Regulation 4, or derives from such a business activity, that asset shall be allocated to that activity.
- (10) Where a fixed asset relates to the conveyance of electrical energy from one business activity to another, such as a transformer, it shall be treated as supporting the upstream activity.
- (11) Where a fixed asset does not have a dominant purpose or function that relates to a single business activity:
- (a) If the asset forms part of the licence holder's electrical systems, it shall be allocated to the upstream business activity that it relates to;
 - (b) Otherwise, it shall be allocated to corporate activities.

(12) For the purpose of this regulation, fixed assets include all non-current assets that would, were they to be acquired during the currency of these regulations, be eligible for inclusion as additions to the Regulatory Asset Base in accordance with the Energy (Electricity Tariffs) Regulations, 2012.

9. For the purpose of preparing a statement of financial position, unless the licence holder considers that the financial position of its separate businesses can be considered as distinct from its financial position and it would be misleading to a reader of the regulatory accounts not to do so, liabilities and non-fixed assets need not be allocated to the licence holder's separate businesses.

10. (1) Operating costs, including depreciation, shall be allocated to the separate businesses referred to in Regulation 4 in relation to the way resources are consumed and with reference to the causation of cost at the level of business activities (activity-based).

(2) Costs which are incurred in respect of more than one activity, or which are not readily attributable to a single activity, shall be allocated objectively using a reasonable methodology, having regard to the materiality of the allocations, on

(a) a cost-allocation methodology that materially meets best practice standards of activity-based allocation, or

(b) where an activity basis cannot be computed at a reasonable cost, an alternative basis that provides a reasonable proxy for an activity-based allocation of costs in the light of best available information about the causation of cost.

(3) Subject to due consultation, the Commission may require licence holders to develop activity-based cost allocation systems.

(4) The costs incurred by a single buyer for the procurement of energy, whether under Power Purchase Agreements or otherwise, shall be allocated to business activity 4(b); the costs incurred by any other holder for the procurement of energy, whether through payment of fuel cost tariffs and non-fuel power procurement tariffs or otherwise, shall be allocated to the other activities of the licence holder, activities 4(a) and 4(d) to 4(f) as appropriate.

(5) Except where costs do not relate to services supported by regulated tariffs, costs of corporate activities, activity 4(g), shall be fully allocated to the other activities of the holder, activities 4(a) to 4(f) as appropriate.

(6) The allocation of depreciation of fixed assets will reflect the usage of assets and will not necessarily reflect the balance sheet allocation of fixed assets under Regulation 9, as inter-activity recharges of depreciation.

11. Revenues shall be allocated as follows:

(1) In respect of licence holders defined as tariff controlled licence holders for the purposes of the Energy (Electricity Tariffs) Regulations, 2012, revenues from tariffs regulated under those regulations shall be allocated as follows:

(a) System operation tariffs – 4(a)

(b) Fuel cost tariffs – 4(b)

(c) non-fuel power procurement tariffs –

(d) Electricity transmission tariffs – 4(d)

(e) Electricity distribution tariffs – 4(e)

(f) Retail activity tariffs – 4(f)

(2) Other revenues shall be allocated in relation to the nature of the services provided and the allocation of the costs that are associated with providing those services.

(3) Bundled retail tariffs shall be allocated to tariff categories in accordance with the provisions for tariff control compliance in the Energy (Electricity Tariffs) Regulations, 2012.

12. (1) In order to ensure the regulatory accounts present fairly the regulatory financial position of the licence holder and of its separate business activities:

(2) The regulatory accounts balance sheet shall include adjustments to reflect any material difference between the book values of the licence holder's net assets, excluding financing liabilities, and

the Commission's assessment of the Regulatory Asset Base under the Energy (Electricity Tariffs) Regulations, 2012.

(3) The regulatory accounts balance sheet shall incorporate any balance on any regulatory fuel cost provision maintained in accordance with the Energy (Electricity Tariffs) Regulations, 2012, treating any accumulated surplus as a liability and any accumulated deficits (negative balance) as an asset.

13. The regulatory accounts shall include a note disclosing the following.

(1) The nature and scale of transactions with related or affiliated licence holders, analysed by party and in enough detail for a user of regulatory accounts to understand components of the regulatory financial performance and statement of financial position that would be mainly affected.

(2) Confirmation, where appropriate and material to the regulatory accounts, that transactions with related or affiliated holders are negotiated on an arm's length basis and on normal commercial terms.

(3) Whether such transactions were subject to competitive tendering.

(4) Estimates of the effects on the comprehensive income, balance sheet and cash flows of any material transactions or groups of transactions that are not negotiated on an arm's length basis and on normal commercial terms.

14. (1) The licence holder shall prepare a directors' report, a regulatory corporate governance statement and a regulatory business review.

(2) Subject to the following, the licence holder may include summarised extracts of the corresponding statements in the licence holder's statutory accounts.

(3) The regulatory business review shall include commentary on the holder's financial performance in relation to the Commission's forecasts and other assumptions made and disclosed at the time it determined the relevant tariff control, any major events and changes to the business environment not anticipated in those assumptions and the impact on the position of investors and users.

(4) The regulatory corporate governance statement shall provide a description of the licence holder's approach to generating value for investors and users under the incentive arrangements established by the Commission.

15. (1) The licence holder shall procure an audit of regulatory accounts and generation summary statements.

(2) In respect of generation summary statements prepared in accordance with Regulation 5(2)(2), the licence holder shall procure a report by a person duly qualified under the Companies Act as an auditor for a company, addressed to the Commission, that states

whether in his opinion the summary accounts have been properly prepared in accordance with these Regulations.

(3) In respect of regulatory accounts:

(a) The auditor shall be a person duly qualified under the Companies Act as an auditor for a company, appointed by the licence holder following consultation with the Commission and confirmation that the Commission consents to the appointment, such consent not to be unreasonably withheld.

(b) The licence holder shall endeavour to procure the audit under a tripartite audit engagement arrangement in which the auditor acknowledges a duty of care to the Commission.

(c) The licence holder shall procure a report by that auditor, addressed to the Commission, that states whether in his opinion:

(i) the regulatory accounts and accompanying statements have been properly prepared in accordance with these Regulations,

(ii) the regulatory accounts present fairly, in all material respects and in accordance with these Regulations, the regulatory financial performance of the licence holder and of its separate businesses, the financial position of the licence holder, and the cash flows of the licence holder.

(d) The Commission may specify and communicate to the auditor, with supporting reasons, particular factors that it considers to be material in the context of the regulatory accounts and the auditor's report.

(e) After due consultation with the licence holder, the Commission may agree with the auditor a list of procedures that the auditor will perform and the form of a separate report to the Commission on the findings of those procedures.

(4) The licence holder shall deliver regulatory accounts and generation summary statements, including auditor's reports required by Regulation 16, to the Commission as soon as is reasonably practicable and in any event before six months after the end of the regulatory reporting period to which the regulatory accounts and generation summary statements relate.

(5) These regulations commence upon their publication in the Gazette.

Dated the 7th January, 2013.

KIRAITU MURUNGI,
Minister for Energy.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED SERGOIT GOLF AND
WILDLIFE RESORT, IN ELDORET UASIN GISHU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Sergoit Golf and wildlife Resort in Eldoret, Uasin Gishu County.

The Proponent (Sergoit Holdings Limited) of the proposed project is proposing to put up a golf and wildlife resort within Eldoret in Uasin Gishu County

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Dust emissions	<ul style="list-style-type: none"> Start excavations and grading only when the sod farm is 90% ready. Re-vegetate cleared areas with turf and other vegetation in the rough areas of the golf. Install siltation traps within the drainage design to collect silt and sediments ensuring that they do not end up in adjacent aquatic areas. Ensure strict enforcement of on-site speed limits. Avoid excavation works in extremely dry weathers. Sprinkle water on graded access routes when necessary to reduce dust. Avoid vehicle idling and sensitise truck

Noise and vibration

drivers to avoid unnecessary racing of vehicle engines at loading/offloading points and parking areas, and to switch off or keep vehicle engines at these points.

- Sensitise construction vehicle drivers and machinery operators to switch off engines of vehicles or machinery not being used.
- Sensitise construction drivers to avoid gunning of vehicle engines or hooting especially when passing through sensitive areas such as churches, residential areas and hospitals.
- Ensure that construction machinery are kept in good condition.
- Ensure that all generators and heavy-duty equipment are insulated or placed in enclosures to minimize ambient noise levels.
- The noisy construction works will entirely be planned to be during daytime when most of the neighbours will be at work.
- Comply with the provisions of Environmental Management and Coordination (Noise and Excessive Vibration Pollution).
- (Control) Regulations, 2009 regarding noise limits at the workplace and provide PPE.

- Increased energy consumption.

- Ensure electrical equipment, appliances and lights are switched off when not being used.

- Install energy saving fluorescent tubes at all lighting points instead of bulbs which consume higher electric energy

- Ensure planning of transportation of materials to ensure that fossil fuels (diesel, petrol) are not consumed in excessive amounts.

- Monitor energy use during construction and set targets for reduction of energy use.

solid wastes

- Use of an integrated solid waste management system i.e. through a hierarchy of options:

- Source reduction.
- Recycling.
- 3.Composting and reuse.
- Combustion.
- Sanitary land filling.

- Provide solid waste handling facilities such as waste bins and skips.

- Engage licensed solid waste private handlers and ensure that solid waste generated is regularly collected disposed of appropriately at authorised dumping sites.

Liquid wastes

- Provide adequate and safe means of handling liquid waste at the premises

- Conduct regular inspections for pipe blockages or damages and fix appropriately.

- Ensure regular monitoring of the sewage discharged from the project to ensure that the stipulated sewage/effluent discharge rules and standards are not violated.

Safety, health and

- Develop, document and display

environment	<p>prominently an appropriate SHE policy for construction works.</p> <ul style="list-style-type: none"> • Ensure that provisions for reporting incidents, accidents and dangerous occurrences during construction using prescribed forms obtainable from the local Occupational Health and Safety Office (OHSO) are in place. • Enforcing adherence to safety procedures and preparing contingency plan for accident response in addition safety education and training shall be emphasized.
surface and ground water	<ul style="list-style-type: none"> • Locate storage sites away from water bodies; storage sites be contained in bunded areas; Containers properly labeled. • Provide workers with toilets in the ratio of 8 workers to one • Proper management of golf grass, and channel storm water at lower side into open drains.

The full report of the proposed project is available for inspection during working hours at:

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed construction of additional lanes on JKIA-Likoni-James Gichuru-Rironi road (A104); dualling of airport south road; access to JKIA widening; construction of access road proposed barabara plaza; and improvement of access to inland container depot.

The Proponent (Kenya National Highways Authority) of the proposed project is proposing to construct additional lanes on JKIA - Likoni - James Gichuru-Rironi road (A104); dualling of airport south road; access to JKIA widening; construction of access road proposed barabara plaza; and improvement of access to inland container depot. The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Terrestrial habitat	<ul style="list-style-type: none"> • Re-vegetation of disturbed areas with

alteration	<p>native plant species.</p> <ul style="list-style-type: none"> • Use human labour as opposed to heavy machinery. • Vegetation management should not eradicate all vegetation. • Excessive vegetation maintenance may increase likelihood of the establishment of invasive species.
Air pollution (dust, fuel emissions)	<ul style="list-style-type: none"> • Control speed of construction vehicles. • Water should be sprayed during the construction phase on excavated areas. • Regular maintenance of plant and equipment. • Provision of dust masks for use when working in dusty conditions.
Soil erosion	<ul style="list-style-type: none"> • Soils excavated for the erection of towers should be used for re-filling and should not be left exposed to wind or water for long periods. • Riverine vegetation should be minimally disturbed during the construction phase to reduce soil erosion and safeguard riverbank protection. • Re-plant degraded areas with local species to improve ground cover.
Hazardous substances	<ul style="list-style-type: none"> • Use of designated areas for repair and maintenance of vehicles and powered machinery to avoid oil spills.
Management of solid waste	<ul style="list-style-type: none"> • provide solid waste collection facility (disposal container) for the temporary storage of waste prior to disposal at an appropriate and designated location. • The storage yards should also be provided for the disposal of large mounds of waste rock and other earth material.
Noise pollution	<ul style="list-style-type: none"> • Noise reduction/hearing protection devices when working with noisy equipment. • The right-of-way or way leave must be strictly adhered to mitigate the effects of the unwanted noise.
Working at heights	<ul style="list-style-type: none"> • Testing structures for integrity prior to undertake work • Implementation of a fall protection program that includes training in climbing techniques and use of fall protection measures. • Inspection, maintenance, and replacement of fall protection equipment. • Use of helmets and other protective devices will mitigate against scratches, bruises, punctures, lacerations and head injuries due to dropping objects.
Physical hazards	<ul style="list-style-type: none"> • Appropriate hand and foot protection (PPE) during the manual clearing of vegetation • Adopting ergonomic work flow designs that fit physical tasks to employees and not vice versa while maintaining a balance with productivity.
Sites of cultural heritage	<ul style="list-style-type: none"> • Conduct a cultural heritage impact assessment survey in the project area. • In the event of chance finds of physical cultural resources, notify the National Museums of Kenya immediately—the resource must be protected from any interference or manipulation of any land.

- Land acquisition and resettlement
- Ensure that the displaced persons are:
- informed about their options and rights pertaining to resettlement.
 - consulted on, offered choices among, and provided with alternatives.
 - provided prompt and effective compensation at full replacement cost for losses of assets attributable directly to the project.
 - offered support after displacement, for a transition period, based on a reasonable estimate of the time likely to be needed to restore their livelihood and standards of living.
 - provided with development assistance in addition to compensation measures.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED PETROLEUM FUEL DEPOT ON L.R. NO. 4689/VI/MN, PORT REITZ AREA OF MOMBASA COUNTY.

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Petroleum fuel depot on L.R NO. 4689/VI/MN, Port Reitz area of Mombasa County

The Proponent is proposing to construct a fuel depot comprising of Seven (7) fuel tanks all with a capacity of 23 million litres and one (1) fresh water tank with a capacity of 10 Million Liters that will store fire water.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Biodiversity loss	<ul style="list-style-type: none"> • Undertake re-vegetation of the pipeline route to stabilize soils and regenerate soil profiles. • Obtain permits to cut trees along the trench line. • Obtain permits to cut trees along the trench line.
Security, safety and convenience	<ul style="list-style-type: none"> • Adhere to Health and Safety Regulations pertaining to personal protective clothing, first aid kits being available on site, warning signs, etc, in compliance

with the Occupational Safety and Health Act No. 15 of 2007.

- Devise and submit a traffic management programme
- Submit a public communication plan indicating how and when, during the programme, the public will be informed of the construction of the pipeline, the construction hours, the proposed route and schedules;
- Employ security personnel to prevent the Public from entering or approaching the pipeline trenches site;
- Sections of the trench to be closed continuously and immediately as work are completed.

Potential to impact on the integrity of the existing KPC pipeline

- Obtain written authority from KPC for connecting to their Tee and use of their way leave.
- KPC to endorse the plans for the pipeline
- KPC to have an oversight role on the pipeline works of at the cost of the proponent.
- The proponent to exercise due diligence and caution in laying the new pipeline system.
- Only certified/qualified professionals to be involved in the laying of the pipeline.

Noise pollution

- Construction work and delivery of raw materials will be limited to day time hours only.
- Delivery of raw materials will be done so as to exclude weekends.
- Concrete mixers will be located as far as practical from the existing residential compounds.
- The contractor shall inform neighbors in writing prior to commencement of the development so that they are prepared psychologically at least two weeks in advance.
- Employees using equipment that produce peak sounds shall be provided with earmuffs
- The contractor will endeavor to comply with Noise Regulations, 2006.

Traffic concerns

- This will be mitigated by ensuring that both the excavations and the laying of the pipeline are localized to the demarcated trench area only.
- In case of any potential for road closure the proponent will have to liaise with the local police authorities and agree on a plan and alternative route for vehicular traffic.
- Test any abstracted waters for quality.

Pollution of water resources

- Polluted water to be disposed off in accordance with Legal Notice No. 120 of 2006.

Dust generation

- Regular dust suppression should be included in the construction phase, as and when dust becomes an issue.
- The contractor will secure the site using appropriate dust screens.
- Building materials that are likely to produce dust such as ballast should be

- sprinkled with water before use.
- Access road and dust surfaces at the construction site should be sprinkled with water twice a day.
 - Employees will be provided with appropriate dust masks and their use enforced by the site supervisor.
- Solid wastes
- The contractor will segregate the solid wastes arising from construction and tanks installation for conveyance to licensed recycling companies
 - The contractor will source the services of a NEMA licensed contractor in management of construction wastes.
 - Comply with the Waste Management Regulations.
- Potential for leakages and pollution
- Conduct regular checks and inspections for pipeline leaks.
 - Develop and implement a plan for repairs and maintenance.
 - Determine end life of the pipelines as per the manufacturers specifications and replace when due.
 - The pipes will be factory coated to minimize corrosion and shall also have cathodic protection to also minimize corrosion.
 - Pipes shall be made of steel to API and ASME requirements.
- Fire and explosion hazard
- Risks from fire and explosions can be minimized through implementation of buffer zones.
 - Ensure the development and deployment of a fire and explosion management plan and equipment.
 - Integrated fire prevention plan should be drafted before "start-up" of the facilities.
 - An automatic shut down valve between the depot and KPC depot should be included in the design at the pipeline linkages between the two.
 - Fire inspection certificate to be issued by the Municipal Council of Mombasa annually.
 - Staff training in fire fighting skills to be undertaken
 - Fire drills to be conducted quarterly.
- The full report of the proposed project is available for inspection during working hours at:
- (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
