THE TRUTH, JUSTICE AND RECONCILIATION ACT

(No. 6 of 2008)

TRIBUNAL APPOINTED TO INVESTIGATE THE CONDUCT
OF THE CHAIRMAN OF THE TRUTH, JUSTICE AND
RECONCILIATION COMMISSION, AMBASSADOR
BETHWELL KIPLAGAT

RULES OF PROCEDURE

WHEREAS in exercise of powers conferred by section 17 (2) of the Truth, Justice and Reconciliation Act, 2008, His Lordship the Chief Justice, through Gazette Notice No. 15894 of 2010, appointed a Tribunal to investigate the conduct of the Chairman of the Truth, Justice and Reconciliation Commission, Ambassador Bethwell Kiplagat; and through Gazette Notice No 15895 of 2010, appointed Counsel to assist the Tribunal, and also appointed joint secretaries to the Tribunal;

AND WHEREAS Gazette Notice No. 15894 mandates the Tribunal to regulate its own procedure;

NOW THEREFORE the Tribunal makes the following Rules of Procedure:

1. The Tribunal shall sit on such days and such times and venues as shall be determined by the Tribunal.

2. The Tribunal as duly constituted shall sit to carry out its proceedings, provided that the absence of a member shall not limit its competence to discharge its mandate.

3. The hearings of the Tribunal shall be held in public unless the Tribunal at its own discretion or upon a request by the subject of the investigation which request is subject to the approval of the Tribunal otherwise directs.

4. The Tribunal may exclude any person or class of persons from all or any part of the investigation if satisfied that it is desirable to do so for the following reasons:

(a) The preservation of order; or

(b) The due conduct of the investigation; or

(c) For the protection of a person, property or reputation of any witness in the investigation or any other person referred to in the investigation, and may, if satisfied that it is desirable to do so for any of the foregoing purposes, order that no person shall publish the name, address or photograph of any such witness or person or any evidence or information whereby she or he would likely be identified.

5. The subject of the investigation shall be present during the proceedings and may be represented by legal counsel.

6. The Counsel assisting the Tribunal shall draw up a list of the allegations against the subject of the investigation and shall serve the said list of the allegations on the subject of the investigation at least fourteen (14) days before the date of commencement of the Tribunal hearings.

7. The Tribunal shall serve on the subject of the investigation a hearing notice, at least seven (7) days before the date of the hearing as per Form 1 of the Schedule hereto.

8. (a) The Tribunal may summon any person or persons to testify before it on oath or affirmation or to produce such document(s) as the Tribunal may require, and the person so summoned shall be obliged to attend and testify or produce the required document(s).

(b) A witness summons under this rule shall be as per Form 2 of the Schedule hereto.

9. The Counsel assisting the Tribunal shall present the evidence relating to the conduct of the subject of the investigation and any matter relevant to the investigation.

10. The Tribunal shall be guided by the basic rules applicable to fair trial, including rules of natural justice and relevance, but shall not be bound by the provisions of the Evidence Act (Cap. 80) of the laws of Kenya.

11. Every testimony made before the Tribunal shall be given either under oath or affirmation.

12. The subject of the investigation shall have the right to cross-examine any witnesses in the investigation:

Provided that cross-examination shall be conducted with a consciousness for time and relevance, and as may be directed by the Tribunal.

13. The subject of investigation shall be entitled to call evidence to rebut any allegations made against him.

14. (a) The Counsel assisting the Tribunal shall be entitled to cross-examine the subject of the investigation and his witnesses.

(b) Any party shall be entitled to re-examine any of its witnesses.

15. The Tribunal may call for further evidence on any relevant point or matter before it and may recall any witness for further examination.

16. Evidence may be presented orally or in the form of memoranda, affidavits or other documentation and the Tribunal shall be entitled to receive such documents and use the contents thereof in forming its opinion:

Provided that the subject shall be furnished with copies of any such documentary evidence and may seek leave to address the Tribunal thereon.

17. At the close of all the evidence adduced before the Tribunal, Counsel assisting the Tribunal, and the subject of investigation, or if represented, his Counsel may make final submissions.

18. The Tribunal may, from time to time, by notice in the Gazette, amend any of these Rules.

19. Nothing contained in these Rules shall be deemed to limit or otherwise affect the powers of the Tribunal which are necessary for the proper execution of its mandate as set out in Gazette Notice.No15894 of 2010.

20. The Truth, Justice and Reconciliation Commission Rules of Procedure, 2011 are revoked*.

*G.N. 435/2011.

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED MUSAGA-WEBUYE 132 KV TRANSMISSION LINE

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed transmission line.

The proposed development entails installation and commissioning of a metal based (steel pylon) 132kV transmission line to replace the existing 132kV transmission line on wooden poles whose lifespan has almost elapsed.

The proposed project will cover a distance of 16.35 km. with ROW of 30m which is equivalent to 48.9 hectares parcel of land between Musaga and Webuye.

The following are the anticipated impacts and proposed mitigation measures

Possible environmental impacts Suggested mitigation measures

- | | |
|---|---|
| <p>Soil and geological impacts (soil erosion, soil contamination, soil instability)</p> | <ul style="list-style-type: none"> • Avoid steep slopes. • Areas susceptible to erosion shall be properly sloped and compacted to reduce the effect of runoff, and shall be seeded immediately; • Rehabilitation of exposed sites as soon as practicable • In case of contamination, scoop and dispose off soil appropriately • Ensure that the proposed project does not cause increase in erosion and sedimentation. • The site preparation activities should be scheduled to take place in dry season. |
| <p>Impacts of farm forest and vegetations</p> | <ul style="list-style-type: none"> • Limit wayleave areas to 30m within farm forests. • KPLC will estimate Total Economic Value of lost forest resource, & allocate equivalent monies to support initiatives by community. • Construct new transmission line immediately adjacent to existing line to minimize fragmentation effects. |

<i>Possible environmental impacts</i>	<i>Suggested mitigation measures</i>	<i>Possible environmental impacts</i>	<i>Suggested mitigation measures</i>
Air quality and dust	<ul style="list-style-type: none"> • Ensure Proper demarcation and clear only necessary areas. • Specify Parking, Loading and Off loading Zones within the site. 		<ul style="list-style-type: none"> • The Contractor shall formulate noise management plan for minimizing the generation of noise and vibration from construction activities occurring on site and its impact on surrounding residents, businesses and workers. • All internal combustion equipment will have properly functioning silencers or mufflers. • Landowners along the routes to be notified about the construction schedule & activities, including blasting, should it be required. • Noise generating activities that take place near residential or sensitive institutional receptors will be restricted to between 0600- 2000hrs, which is defined as 'daytime' in the Kenyan noise regulations.
	<ul style="list-style-type: none"> • The Contractor to protect stockpiles of friable material subject to wind-throw by wetting, or with a barrier, vegetation, or windscreen. • Cover loads of friable material during transportation. • Restrict speed on loose surface roads during dry or dusty conditions; incident • Suppress dust during dry periods by use of water sprays. • Maintain equipment in good running condition – no vehicles to be used that generate excessive black smoke. • Enforce vehicle load restrictions to avoid excess emissions from engine overloading. • Burning of woody debris & construction waste to be prohibited within the wayleave • The Contractor shall institute appropriate measures to minimize or avoid air quality impacts. This can be achieved through formulation of air quality management plan. • The Contractor to minimize/control emission of dust due to traffic movement and wind erosion of stockpile material and exposed soil • The Contractor to ensure that all equipment used and all facilities erected on site are designed and operated to control the emission of smoke, dust, fumes and any other air impurity into the atmosphere. 	Visual and aesthetic impacts	<ul style="list-style-type: none"> • Review visual intrusiveness of current tower design. • Maximize straight-line runs to reduce the need for angle towers. • Locate new towers adjacent to already existing high-impact visual features, such as forests or cliffs. • Where possible, locate the new line adjacent to existing power lines.
Pollution from waste generation	<ul style="list-style-type: none"> • Develop and implement procedures for safe and appropriate disposal of waste for all project phases. • Any service/Repair of vehicles to be done offsite in approved garages or service stations 	Fire hazards	<ul style="list-style-type: none"> • The Contractor shall take all necessary precautions to prevent fires caused either deliberately or accidentally during construction process. • The Contractor shall prepare a fire prevention and fire emergency plan as a part of the Environmental Plan to be submitted to K.P.L.C. • The Contractor shall provide adequate fire fighting appliances at specified localities on the worksite to meet any emergency resulting from ignition of a fire. • No burning of any litter/ cleared vegetation on site. • Avoid Careless handling of cigarette butts.
Water resources and water quality	<ul style="list-style-type: none"> • Measures shall be instituted to minimize erosion and sediment transport, especially during construction activities. • These measures should include: limiting areas cleared of vegetation, stabilizing the soils on the sloppy areas with stone pitching and planting of grass. • Remedial measures shall be implemented by the Contractor in the event of erosion resulting in the sedimentation of surrounding areas after due consideration of the costs and benefits of such removal activity. • Infrastructure shall be designed to ensure that contaminated run-off does not reach watercourses. • In the event of an oil spill the procedures contained in the emergency response plan will come into effect. 	Wetland ecosystems	<ul style="list-style-type: none"> • Span towers across wetlands. • Footings of towers will be built to address wet season conditions. • Fine tuning of tower locations in consultation with local communities.
Noise and vibration	<ul style="list-style-type: none"> • The Contractor shall comply with the legal requirements for the management of noise impact specified in the recently gazetted noise quality regulations. 	Impacts on archaeological, cultural and historic sites	<ul style="list-style-type: none"> • Diversion of the Right of Way for the proposed transmission line, to minimize the impacts of these sites if they are present. • Selective tower placement to span archaeological site if any. • Establishment of procedures for chance find and protection of Archaeological sites and contact with the National Museums of Kenya (NMK).
		Traffic congestion/road tear and wear	<ul style="list-style-type: none"> • KPLC and contractor should choose traffic routes to reduce the impact in the neighbourhood avoiding , as far as practical any sensitive areas. • Where traffic is anticipated, the contractor in close consultation with KPLC should ensure.

Possible environmental impacts *Suggested mitigation measures*

- | | |
|--------------------------------|--|
| | <ul style="list-style-type: none"> • Effecting of traffic routes depending on delivery and dispatch to reduce the congestion impact in the neighborhood. • Due regard of drivers to traffic regulations which should be insisted upon at all times, with courtesy shown to other road users. • Employment of a road safety coordinator to oversee implementation of the traffic controls. • Regular maintenance of delivery and dispatch trucks. |
| Occupational health and safety | <ul style="list-style-type: none"> • Locate Right-of-Way (RoW) away from human receptors. • Staff Training and regular equipment service and testing. • Only trained and certified workers to install, maintain or repair electrical equipment. • Use of signs, barriers and education/public outreach to prevent public contact with potentially dangerous equipment. • Community policing to be encouraged to reduce vandalism of towers. • Ensure provision and proper use of Personal protective Equipments. • Follow safe work procedures. |
| Avifauna | <ul style="list-style-type: none"> • Proposed line to avoid significant bird breeding and staging areas. • Use of conspicuous reflectors placed at intervals along conductor for greater visibility. • Transmission line to be located adjacent to prevailing natural obstacles to prevent collision. • Regular Monitoring and record any Avi – Fauna deaths. |

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED DEVELOPMENT OF A HOUSING ESTATE
ON L.R. NO. 10426/45, 46, 47 AND 48, MAVOKO
MUNICIPALITY, ATHI RIVER DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed housing estate.

The proposed development comprises construction of 736 units with 512 units being two bedroomed and 224 units being three bedroomed apartments/flats (grand total of 736). The development will comprise 92 blocks of flats, constructed to four levels (ground floor and three upper floors) with two flats on each floor, thus a total of 8 flats in each block. The low cost development will be carried out in eight phases.

The proposed project comprises of four plots registered on L.R. Nos. 10426/45, 46, 47 and 48 and is located just outside Athi River town, Athi River district.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impacts</i>	<i>Suggested Mitigation Measures</i>
Air pollution, dust generation and noise pollution	<ul style="list-style-type: none"> • Spray water during construction work. • Control speed and movements of construction vehicles noting that access to project site is off a busy highway. • Use of low-sulphur diesel for diesel-operated machinery. • Use of appropriate PPE by construction workers. • No unnecessary hooting by project and residents vehicles. • Restriction of construction activities to day time. • Use of equipment designed with noise control elements. • Temporarily fencing off noisy machinery such as vibrators.
Clearing of vegetation	<ul style="list-style-type: none"> • Planting of ornamental trees along perimeter fence and within site. • Where possible retain some of the natural vegetation as part of the built landscape. • Planting of grassed lawns. • Establishment of flower gardens within project site. • No disturbance to areas not affected by the project so as to minimise impacts on environment.
Destruction of habitat	<ul style="list-style-type: none"> • Discourage off-road driving. • Control of earthworks.
Generation of solid waste	<ul style="list-style-type: none"> • Re-use of construction debris and other wastes. • Proper containment and disposal of solid waste at all project phases. • Contracting a licensed waste collection and disposal company. • Awareness raising on proper solid waste disposal. • Reuse of timber off-cuts and wooden supports for fuel. • Waste to be properly segregated and separated to facilitate re-use.
Increased demand for water	<ul style="list-style-type: none"> • Conservation (wise use) of water and electricity. • Provision of adequate water storage facilities. • Installation of rainwater harvesting structures. • Re-use of water where possible. • Install water conserving taps.
Increased demand for electricity	<ul style="list-style-type: none"> • Use of energy saving bulbs within the houses.

<i>Possible Impacts</i>	<i>Suggested Mitigation Measures</i>
Occupational health and safety risks	<ul style="list-style-type: none"> • Inclusion of a solar water heating & lighting systems to reduce on use of electricity. • Make use of natural lighting in the houses. • Energy conservation measures to be practised. • Use of suitable personal protective equipment (PPE). • Insurance of all workers. • Site to be sprinkled with water to minimize dust. • Use of stable ladders and other climbing/support structures. • Sensitize workers on construction safety measures. • Cleanliness and organization at the construction site. • Fencing or covering of risky areas such as deep pits. • Safety signage. • Use of permit-to-work authorizer for risky jobs. • Engagement of skilled labourers. • Food handlers to be monitored for hygienic practises.
Fire hazards and accidents	<ul style="list-style-type: none"> • Acquire fire fighting equipment. • Sensitize workers on fire safety. • No storage of inflammables at site. • Keep well stocked first aid box. • Proper handling and use of tools and machinery. • Have a trained first aider on site.
Increase in traffic flow	<ul style="list-style-type: none"> • Adequate road warning signs to traffic regulations. • Erection of speed bumps.
Security	<ul style="list-style-type: none"> • Guarding of site and estate by a reputable security firm. • Constant site patrol. • Adequate screening of visitors to the site and estate. • Collaboration with existing security machinery. • Partnership with neighbours and police in community policing. • Keep a record of visitors to the construction site and estate.
Generation of waste water	<ul style="list-style-type: none"> • Proper collection and directing of waste water and connection of sewerage system to existing Municipal sewer system as per approved design. • Provision of storm water drains. • Proper decommissioning of waste water and sewer system.
Public health and safety	<ul style="list-style-type: none"> • Ensure use of provided pit latrines by construction staff. • Proper handling and disposal of solid waste. • Operation of noisy machinery at daytime only. • Control of visitors to the site. • Safe decommissioning of buildings and connections thereof. • Installation of adequate water supply. • Controlled developments around the facility.

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED PETROL OIL KENYA, VOI SERVICE STATION ON L.R. NO. 25020, VOI TOWN

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Voi service station.

The proposed service station to be constructed will include the following:

- An administration block comprising of changing rooms, parts shop, store, toilets, service bay, car washing bay and tyre centre.
- A building block comprising of generator house, service bay, toilets and stores.
- Underground storage tanks (USTs), product lines, vents and dispenser system located on two islands.
- Parking area and drive ways.
- Drainage system, sewer system, septic tank, soak away pit and oil interceptors.
- Pressurized air and water points.
- Entrance and exit signage and price display sign board.
- Perimeter fence.
- Deceleration and acceleration lanes.
- Flower verges.
- Eating and resting stands.

The proposed service station is to be located at the junction of Nairobi-Mombasa Highway and road to Voi Town about 1km to the south of the town on Plot No. LR. 25020.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Environmental Impacts</i>	<i>Suggested Mitigation Measures</i>
Vegetation disturbance	<ul style="list-style-type: none"> • Ensure proper demarcation and delineation of the project area to be affected by construction works. • Specify locations for vehicles and equipments, and areas of the site which shall be kept free of traffic, equipment and storage.

<i>Possible Impacts</i>	<i>Environmental</i>	<i>Suggested Mitigation Measures</i>	<i>Possible Impacts</i>	<i>Environmental</i>	<i>Suggested Mitigation Measures</i>
Erosion control		<ul style="list-style-type: none"> Designate access routes and parking area within the site. Introduction of vegetation (trees, shrubs and grass) on open spaces and around the project site and their maintenance. Design and implement appropriate landscaping programme to help on revegetation of part of the project area after construction. Earthworks shall be controlled so that land that is not required for the construction works is not disturbed. Wherever possible, earthworks shall be carried out during the dry season to prevent soil from being washed away by the rain. Excavated materials and excess earth shall be kept at appropriate sites approved by the supervising engineer and the earth dumping sites designed in such a manner as to facilitate natural water discharge. The Contractor shall protect areas susceptible to erosion by installing necessary temporary and permanent drainage works as soon as possible. 			<ul style="list-style-type: none"> Clearly designate and construct an appropriate waste collection facility or provide covered refuse skips. Use building materials that have minimal or no packaging to avoid the generation of excessive packaging waste. Reuse packaging materials such as cartons, cement bags, empty metal and plastic containers to reduce waste at site. Segregate waste at source. Monitor waste volumes. Identify Licensed waste disposal contractor to remove from site and monitor performance. Waste collection bins to be provided at designated points on site.
Waste water and waste oil management practices		<ul style="list-style-type: none"> Carefully collect used oil in drums and dispose of by licensed refuse contractor. Adhere to wastewater management regulation of the legal Notice 121 and Water quality regulations of the Legal Notice 120. Conduct wastewater monitoring to check compliance and submit the results to NEMA. Document and train staff in the emergency spill response plan 	Dust emission		<ul style="list-style-type: none"> Ensure strict enforcement of on-site speed limit regulations. Sprinkle water during excavation works by heavy machines. Sprinkle water on graded access roads when necessary to reduce dust generation by construction vehicles. Provide masks to be provided to employees and worn.
Leakage of tanks and product lines		<ul style="list-style-type: none"> The tank and lines shall be used as per their design life of 30 years and a UST / line replacement programme put in to ensure tanks and lines are replaced prior to failure in timely fashion. Monitor daily reconciliation of wet stock and inventory records. In case of suspect losses, institute tank and line integrity testing. And Conduct a soil gas survey to check the extent of contamination from the leaks. 	Air pollution		<ul style="list-style-type: none"> Ensure that the generator are maintained to manufacturers specifications, records maintained and availed whenever there is need. Ensure that tank vents are located away from sensitive receptors.
Increased solid waste generation		<ul style="list-style-type: none"> Comply with the requirements of the Environmental Management (Waste Management) Regulations Legal Notice 120. Use of an integrated solid waste management plan i.e through a hierarchy of options:- 1. Reduction of source, 2. Recycling, 3. Reusing, 4. Incineration, 5. Sanitary landfilling. Use durable, long-lasting materials that shall not need to be replaced as often, thereby reducing the amount of construction waste generated over time. Waste shall not be burned on site or dumped in undesignated waste disposal areas. Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements. 	Noise and vibration		<ul style="list-style-type: none"> Noise level is within acceptable limits and construction activities shall, where possible, be confined to normal working hours. All construction machinery are maintained and serviced in accordance with the contractor's specifications. Sensitize construction vehicle drivers and machinery operations to switch of engines of vehicles or machinery not being used. Sensitize construction drivers to avoid revving vehicle engines or hooting. Sound barriers to be erected around the construction areas.
			Water and soil contamination		<ul style="list-style-type: none"> No grey water runoff or uncontrolled discharges from the site/working areas (including washdown areas) shall be permitted. Potential pollutants of any kind and in any form shall be kept, stored and used in such a manner that any escape can be contained and the water table not endangered. The Contractor shall take reasonable measures to control stormwater and the erosive effects. No construction materials shall be stockpiled within areas that are at risk of flooding. Plastic sheeting, sandbags or geofabric approved by the Supervising Engineer shall be used to prevent the migration of fine grained soil particles.

<i>Possible Environmental Impacts</i>	<i>Suggested Mitigation Measures</i>
Public health and occupational health and safety	<ul style="list-style-type: none"> • Develop a site safety action plan detailing safety equipment to be used, emergency procedures, restrictions on site, frequency and personnel responsible for safety inspections and controls. • Daily site inspections should be done to ensure safe work practices are adhered to. • All workmen shall be provided with personal protective equipment. • The Conditions of Contract in the tender documents should stipulate health, safety and environment regulations and work procedures. • The Contractor must appoint a foreman with knowledge on health, safety and environment regulations. • All injuries that occur on site must be recorded in the accident registers and corrective actions for their prevention be instigated as appropriate. • Site personnel shall be encouraged to report "near-miss incidents" in order to avoid potential problems and increase safety awareness.

The full report of the proposed project is available for inspection during working hours at:

- (e) Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT
(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
STRATEGIC ENVIRONMENT ASSESSMENT REPORT FOR THE
TAVETA TOWN EXPANSION, TAVETA

INVITATION OF PUBLIC COMMENTS

1. Proposed developments in the Taveta master plan

The proposed developments include: Residential; high, medium and low density, industrial; light and heavy industrial, education; nursery, public primary, public secondary and private school, polytechnic and media training, recreational; public parks, stadium and playgrounds, public purpose; town hall, cultural centre, library, health centre, provincial administration, law court, children's home, community centre, police posts, churches, mosques, dispensary, KPLC, fire station tree planting, Christian cemetery, Muslim cemetery, immigrations department, KRA inland depot, public utilities; water reservoir (dams), sewerage treatment plant waste dumpsite and extension to air strip, commercial, business cum residential, hotels, business cum residential and open air market, transportation, petrol station and bus station.

2. Alternative options

The strategic environmental assessment considered the following alternatives:

- (a) Enterprise and employment alternatives: Balance brownfield and greenfield development will meet the combined development and environmental objectives with the population needs best served while minimizing environmental impact.
- (b) Town centre alternatives: Emphasis on the vibrancy and vitality of the town centre to achieve compactness and appropriate population benefits while best using material assets.
- (c) Waste water management alternatives: Use of septic tanks and waste water treatment plant.
- (d) Analysis of alternative construction materials and technology: The proposed infrastructure projects will be constructed using modern, locally and internationally accepted materials to achieve public health, safety, security and environmental aesthetic requirements.
- (e) Solid waste management alternatives: Source reduction, recycling, reuse and composing of the waste, combustion and sanitary land filling.

3. Affected parties consulted

The following list outlines the parties that may be affected and interested in the proposed Taveta Town expansion.

- (a) Government institution/officials and NGOs.
- (b) Ordinary citizens, local community representatives (Community leaders and community members).

4. Affected areas

- (a) Human health: Human health can be impacted upon by the lack of provision of community facilities, amenities and infrastructure to support new developments.
- (b) Wildlife sites and rivers/lakes:
 - (i) The water quality status of Tsavo River, Lumi River and Lake Jipe catchments in Taveta and the possibility of future pollution may significantly impact upon the biodiversity, flora and fauna of lake.
 - (ii) Increased development pressures as a result of the growth of Taveta Town may also impact upon the wildlife sites, significantly adversely impacting upon the ecological connectivity among these sites.

5. Anticipated impacts and mitigation

Environmental Impacts Mitigation Measures

Air quality (air pollution and dust generation and climate change)	<ul style="list-style-type: none"> • Ensure that transport is managed appropriately to minimize adverse effects on air quality and climate change by. • Control speed and movements of construction vehicles noting that access to the project site is off busy roads. • Use of low sulphur diesel for diesel operated machinery. • No unnecessary hooting by the project and tenants vehicles sprinkling. • Sprinkle water during construction work.
Material assets (generation of liquid waste)	<ul style="list-style-type: none"> • Project the environment from adverse affects of the wastewater discharge. Providing satisfactory wastewater treatment facilities to serve existing and future populations. • Recycle construction and demolition waste and reuse aggregate and other materials.
Material assets (generation of solid waste)	<ul style="list-style-type: none"> • Re-use of construction debris and other wastes. • Proper containment and disposal of solid waste at all project phases. • Contracting a licensed waste collection and disposal company.

Environmental Impacts Mitigation Measures

- Awareness raising on proper solid waste

	disposal.
	<ul style="list-style-type: none"> • Re-use of timber off cuts and wooden supports for fuel. • Waste to be properly segregated and separated to facilitate re-use and recycling sanitary land filling.
Traffic congestion during peak hours and noise pollution	• Traffic impact assessments to be done for any additional development or utilization alternative.
Economy and residential utilization (increase demand for electricity)	Compatible town utilization with the predominantly residential surrounding land use. <ul style="list-style-type: none"> • Diversify the economy of the rural areas. • Improve access to jobs. • Use of energy saving bulbs within the buildings. • Make use of natural lighting. • Energy conservation measures be practiced.
Cultural heritage	<ul style="list-style-type: none"> • Maintain and improve the quality of conservation areas. • Use appropriate design on street, lighting, road signs, safety features, public transport facilities (bus stops) and by reducing street clutter.
Biodiversity (flora and fauna)	<ul style="list-style-type: none"> • Avoid loss of habitats and flora and fauna in designated wildlife sites. • Incorporate all relevant plans and programmes in conservation and enhancement of the natural and built environment.
Soil	<ul style="list-style-type: none"> • Maintain the quality of soil. • Minimize sustainable re-use of brownfield lands where possible. • Promote development and management of waste.

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED KENYA MEDICAL ASSOCIATION ESTATE ON L.R. NOS. 28183, 28184 AND 28185, MLOLONGO AREA—OFF MOMBASA ROAD, MACHAKOS DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Kenya Medical Association housing estate..

The proposed development is a residential estate consisting of 154 housing units, a commercial centre, a health club and a nursery school.

The proposed project site is located on L.R. Nos. 28183, 28184 and 28185 in Mavoko, off Mombasa Road. The property (plots) covers approximately 11.188 Hectares (28 Acres). The plots are generally rectangular in shape. Each housing unit will occupy approximately 400 – 1000m².

The following are the anticipated impacts and proposed mitigation measures:

<i>Environmental Impacts</i>	<i>Suggested Mitigation Measures</i>
Changes in land use- extent	<ul style="list-style-type: none"> • Ensure compliance with existing planning policy landscaping and introduction of vegetation. • Maintenance of landscaped gardens, conservation and management of vegetation and gardens.
Changes in hydrology/ impended drainage	<ul style="list-style-type: none"> • Proper Installation of drainage structures • Install cascades to break the impact of water flowing in the drains • Ensure efficiency of drainage structures through proper design • Provide gratings to the drainage channels • Ensure efficiency through sound maintenance and cleaning.
Soil disturbance	<ul style="list-style-type: none"> • Control earthworks. • Install drainage structures properly. • Compact loose soils. • Landscaping. • Ensure management of excavation activities. • Control activities especially during rainy conditions. • Provide soil erosion control structures on the steep side during construction phase.
<i>Environmental Impacts</i>	<i>Suggested Mitigation Measures</i>
	<ul style="list-style-type: none"> • Ensure maintenance and efficiency of erosion control measures.

Air pollution	<ul style="list-style-type: none"> • Enclose the site with dust-proof net. • Control speed and operation of construction vehicles. • Discourage idling of vehicles. • Spray to dry soils in excavated areas to suppress dust. • Regular maintenance of construction plant and equipment. • Engage sensitive construction workers. • Use of clean fuels. • Provide barriers such as walls and trees around site boundaries to provide some buffer against dust propagation. • Encourage use of clean fuels. 	Waste management	<ul style="list-style-type: none"> • Ensure adherence with the legal requirements- Factories Act. • Sensitize residents on environmental management. • Ensure MCM certifies and issues occupation certificates. • Sensitize residents on environmental management. • Strictly abide by the provisions of the Water Act and the Environmental Management (Water Quality) Regulations; and Waste Management Regulations. • Follow the prevailing NEMA regulations on waste collection, storage, transportation and disposal. • Construct adequate and standard Biobox Enpura sewerage system. It must be monitored for timely exhaustion. • Waste management installations (e.g. Biobox Enpura) be isolated from public water pipes to avoid contamination of the later. • Incorporate suitable facilities for collection, segregation and safe disposal of solid wastes. Provide a waste collection centre and appropriately labelled bins preferably colour code for various categories of waste into organic (biodegradable), food remains, plastics and polythene, glass, paper, metal, wood etc. Organic wastes should be composted for use in the gardens while all other categories should be sold or given out to various respective approved recyclers. Wastes should be reduced and segregated at source and suitable bins properly labelled to facilitate recycle and/or sound disposal. Biodegradable materials shall be composted for use in the gardens while debris should be used in backfilling & the rest should be sold or given out for recycle or appropriate disposal. • Dustbin cubicles must be protected from animals and rain. • Bins should be regularly cleaned and disinfected. • Provide possibilities for waste recycling options - in-house and off-site. • Identify suitable solid waste disposal arrangements. • Ensure a continuous review of waste management procedures with changing technology and regulatory changes.
Noise pollution	<ul style="list-style-type: none"> • Sensitize drivers of machinery on effects of noise. • Maintain plant equipment. • Construction activities to be restricted to daytime. • Workers in the vicinity of high-level noise to wear safety & protective gear. • Organize social activities in a way not to cause nuisance to both internal and bordering residents. • Install silencers in standby generators. • Control events, points or sources of noise. 		
Oil pollution	<ul style="list-style-type: none"> • Proper storage, handling and disposal of oil and oil wastes • Maintain plant and equipment to avoid leaks • Maintenance of construction vehicles should be carried out in the contractors yard off the site • Ensure sound working of oil interceptors along the drains leading from car wash and parking bays 		
Public health and occupational safety	<ul style="list-style-type: none"> • Train staff/workers on occupational health and safety. • Provide full protective gear & workmen's compensation cover in addition to the right tools and operational instructions & manuals. • Adopt sound waste management system to ensure proper solid waste disposal and collection facilities. • Adopt sound housekeeping practices. • Engage the services of qualified personnel and/or ensure training. • Ensure use of standard construction materials and to the specifications. Avoid undesirable, substandard, hazardous or unauthorized materials during construction and maintenance. • Sensitized staff on social/health issues such as drugs. • Ensure machinery and equipment servicing and maintenance as per schedules & legal requirements. • Post strategically the Factories and Other Places of Work Act Abstract and provide material safety data sheets. • Post clear warning signs e.g. 'No unauthorized use of machines', ensure there are guards on moving parts etc. 		
Environmental Impacts	Suggested Mitigation Measures		
	<ul style="list-style-type: none"> • Provide fully equipped First Aid kits & train staff on its use 		

The full report of the proposed project is available for inspection during working hours at:

- Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Permanent Secretary, Ministry of Environment and Mineral Resources, N.H.I.F. Community, P.O. Box 30521, Nairobi.
- Provincial Director of Environment, Eastern Province.
- District Environment Officer, Machakos District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED TULAGA FILLING STATION ON L.R. NO.
NYANDARUA/KITIRI/1347, NYANDARUA

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Tulaga filling station.

The proposed filling station will consist of:

- Structural steel canopy.
- Concrete driveway to provide access into and from the petrol station.
- A service bay, service yard and a tire centre for vehicles' maintenance
- 4 no. of toilet-rooms for men and ladies.
- A parking for six vehicles.
- Store.
- Septic tank.
- An interceptor tank.
- Underground storage tanks as follows: for Diesel-30,000 litres, Super Petrol-20,000 litres and Kerosine-10,000 litres.
- 4 no. of fuel-dispensing pumps.

The proposed Tulaga Oil Service Station will be located at Engineer Shopping Centre, along Njabini-Ol Kalou road and about 100 Km from Nairobi. It will be located on plot number Nyandarua/Kitiri/1347, measuring 1.02 ha.

The following are the anticipated impacts and proposed mitigation measures:

Environmental Impacts Suggested Mitigation Measures

Changes in hydrology/ impeded drainage	<ul style="list-style-type: none"> • Proper Installation of drainage structures • Install cascades to break the impact of water flowing in the drains. • Ensure efficiency of drainage structures through proper design and maintenance. • Provide gratings to the drainage channels. • Regular checks on any sludge along drainage channels. • Visual checks of oil interceptors and drainage channels for any leaks.
Soil erosion	<ul style="list-style-type: none"> • Control earthworks; rehabilitate degraded areas and compact loose soils • Provide soil erosion control and conservation structures where necessary and landscaping • Proper disposal of excavated loose soil.
Air pollution through dust and gaseous emissions	<ul style="list-style-type: none"> • Control speed and operation of construction vehicles. • Prohibit idling of vehicles. • Water should be sprayed and dust generating areas/ activities. • Regular maintenance of construction plant and equipment. • Proper use of PPEs.

Environmental Impacts Suggested Mitigation Measures

Noise pollution	<ul style="list-style-type: none"> • Maintain plant equipment (if present/ used).
-----------------	--

Pollution from oil and petroleum products	<ul style="list-style-type: none"> • Construction activities to be restricted to day time. • Provision of appropriate PPEs. • Appropriate selection of machinery. • Proper storage, handling and disposal of new oil and used oil, petroleum products and related wastes. • Concrete handstand floors for all areas handling oil/ grease/ petroleum products • Maintain plant and equipment to avoid leaks. • Provide oil interceptors along the drain leading from car wash, service bays, oil storage areas and dispensing pump islands. • Regular scheming of the interceptor and regular tests on waste water leaving the interceptor to ensure compliance with set standards. • Monitoring of leakages and spills
Water resource	<ul style="list-style-type: none"> • Management of water usage. Avoid unnecessary wastage especially at the car washing bay and installation of conserving taps • Rain water harvesting • Recycling of water where possible.
Road safety	<ul style="list-style-type: none"> • Enforce speed limit. • Provide bill boards at the sites/ entrance to notify motorists about the development. • Provide clear views of acceleration and deceleration as approved by the town engineer.
Public health and occupational safety	<ul style="list-style-type: none"> • Sound solid and liquid waste management. • Design of sewerage system should be adequate and conservancy and septic tanks constructed. • Provide first aid kits on the site. • Training on occupational health and safety and first aid administration. • Train staff on petroleum products handling. • Sensitize workers on HIV and AIDS.
Fire safety training/ Emergency response procedures (ERPs)	<ul style="list-style-type: none"> • Training in fire fighting and regular drills. • Install firefighting equipment and ensure fire equipment is in good working condition. • Emergency response plan including contacts and simple instructions on how to handle fires, products spills, LPG incidents and product contaminations. • Keep gas cylinders in a well ventilated section outside building.
Water Quality/Waste Management	<ul style="list-style-type: none"> • Construct oil interceptors and monitor daily
<i>Environmental Impacts</i>	<i>Suggested Mitigation Measures</i>
	<ul style="list-style-type: none"> • Strict adherence to the provisions of waste management and water quality

regulations

- Construct adequate and standard conservancy tanks and/ or septic tanks as advised by the engineer
- Reduce wastes at source, recycling and disposal of unrecyclable wastes in approved dump sites.
- The proponent contract a registered waste handler.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
