INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proposed project entails the design, construction and operation of a 90.5 km buried water pipeline and ancillary infrastructure. The pipeline is designed to transport water from the Turwel Gorge Reservoir (referred to as the "Turwel Dam") in the West pokot to the central processing facility, located adjacent to the settlement of Nakukulas in Turkana County. Water abstracted from the dam will be pumped to a break tank close to Lokichar town and then gravity fed to the central processing facility.

The topography of the proposed site slopes up gently, an approximate grade of 8% from the south of the site where the current entrance is located for about 250 meters from the southern site boundary to a relatively flat plateau.

The following are the anticipated impacts and proposed mitigation measures:

Impacts	Proposed Mitigation Measures
Land degradation, excavations and soil erosion	<ul style="list-style-type: none"> • Excavated materials shall reasonably be covered or removed if not re-used. • Ensure natural revegetation following construction reinstatement and rehabilitation. • Proper handling of soil to preserve different soil layers to enhance natural revegetation and protect stockpiles. • Segregate waste and appropriately store on-site before final disposal.
Biodiversity impacts	<ul style="list-style-type: none"> • Have site a specific biodiversity management procedures or Biodiversity Management Plan, overseen by a Biodiversity Officer. • Liaise and consult with all relevant authorities for the effective implementation of biodiversity mitigation measures. • Workers shall be sensitized on biodiversity/ Wildlife protection awareness during inductions and anti-poaching policy to be implemented fully. • An access procedure for livestock and wildlife will be developed and implemented. • Implement rescue procedures for wildlife trapped in the trenches.
Solid wastes generation	<ul style="list-style-type: none"> • A Waste Management Plan should be prepared by the Contractor. • Procure the services of a NEMA licensed waste handler. • Skips and bins should be strategically placed at the campsite and contents disposed of at an approved disposal site.
Water quantity, quality and pollution	<ul style="list-style-type: none"> • Proponent shall continue working in collaboration with Kerio Valley Development Authority (KVDA) and KenGen to ensure that water volumes abstracted will not impact river flows.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>	<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
