THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED DEVELOPMENT OF A LIQUEFIED
PETROLEUM GAS (LPG) DISTRIBUTION TERMINAL ON

PLOTS NOS. MN/1515, MN/V/1798, MN/V/1673 AND MN/V/1674
IN MIRITINI DIVISION, KILINDINI DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the proposed liquefied petroleum gas distribution terminal.

The project entails the development of an LPG distribution facility. This will comprise a depot off-take which will primarily be via a proposed LPG distribution terminal to be built adjacent to the LPG storage facility.

The distribution terminal will have both road and rail loading facilities and possibly an LPG cylinder filling and bottling plant in the Miritini area of Kilindini District, Mombasa on plots Nos. MN/1515, MN/V/1798, MN/V/1673 and MN/V/1674.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Soil compaction	<ul style="list-style-type: none"> In order to prevent irreversible construction compaction effects arising from construction plant and equipment, ensure that to the extent possible, construction is undertaken during dry periods. On completion, all non-built up areas should be landscaped.
Soil erosion	<ul style="list-style-type: none"> To prevent soil erosion all non-built up areas shall be landscaped and appropriate soil bind grass planted.
Run-on deposition	<ul style="list-style-type: none"> As the mounded LPG storage tanks will be constructed on top of a hill, construct and maintain retaining walls, stone pitching, gabions, etc. to prevent upstream run-on deposition of soils.
Piping and gully formation	<ul style="list-style-type: none"> Grout all existing pipes after excavation of the 5m high topsoil. Thereafter ensure that no water enters the LPG storage tanks' footprint area that can initiate new piping and gully formation.
Surface water (Impact on flow and Water quality)	<ul style="list-style-type: none"> If possible undertake initial construction activities during the dry season to prevent water/soil run-off especially on side slopes. Water should also be diverted away from the project footprint areas through properly constructed drainage channels; Ensure that spills emanating from construction plant and equipment are cleaned immediately; Any petroleum products stored on site must be stored in bunded areas to prevent contamination of surface water; Contractor to adhere to Construction HSE management plan during the construction phase.
Impacts on terrestrial ecology	<ul style="list-style-type: none"> Set up measures to ensure that during preconstruction and construction, impacts on sensitive ecological areas and individual protected biota are minimized and that good management is exercised during operation so as to prevent ecological impacts
Air quality	<ul style="list-style-type: none"> Develop and implement effective measures for minimization of dust during the preconstruction and construction phase, followed by rehabilitation in a timely manner;

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
	<ul style="list-style-type: none"> Contractor to ensure that construction plant and equipment is in a good state of repair at all times to prevent adverse exhaust air emissions.
Waste management	<ul style="list-style-type: none"> Develop and implement safe procedures for management of non-hazardous and hazardous wastes in accordance with L.N. 121: Waste Management Regulations, 2006. Contractor is responsible for this during the construction phase and the Proponent during the operational phase of the project.
Noise and vibration	<ul style="list-style-type: none"> Contractor's plant and equipment shall comply as a minimum with requirements of L.N. 25: Noise Prevention and Control Rules, 2005; Implement measures to manage noise levels of trucks entering and leaving the facility during the operation phase.
Traffic	<ul style="list-style-type: none"> Develop and implement measures to repair regularly used roads to the project site especially the Magongo Road turn-off to the project site; Ensure that contractor vehicles comply with axle load limits; Develop and implement a traffic management plan to take advantage of off-peak hours for delivery of construction materials and abnormal loads during the construction phase; Contractor drivers shall possess defensive driving skills gotten from a reputable training consultancy.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED SUBDIVISION OF L.R. NO. 398/15 AND SUBSEQUENT DEVELOPMENT OF HOLIDAY HOMES AND ASSOCIATED FACILITIES IN NAIVASHA MUNICIPALITY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the proposed implementation of the proposed holiday homes.

The proponent proposes to subdivide the land into half acres, service the plots and sell them for development of holiday homes from a choice of 3 designs. 2.230 hectares have been set aside for development of a hotel and conference facility; 1.230 hectares set aside for a commercial centre and 1.230 hectares set aside for recreation. Each of the residential plots shall measure approximately 0.202 hectares (0.5 acres) and approximately 120 in number.

The project site will be located on L.R Number 398/15 in Naivasha Municipality, measuring approximately 33.19 hectares (82 acres).

The project anticipates the following impacts and mitigation measures:

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Energy resources	<ul style="list-style-type: none"> Switch off electrical equipment, appliances and lights when not in use and install energy saving bulbs. Installation of solar systems to complement heating and lighting.
Surface drainage	<ul style="list-style-type: none"> Proper design and installation of drainage structures; harvesting of rain water to reduce runoff.
Soil disturbance and pollution	<ul style="list-style-type: none"> Control earthworks and installation of drainage structures properly and landscaping. Proper storage, handling and disposal of oil and oil wastes.
Air pollution	<ul style="list-style-type: none"> Enclosing the site with dust-proof net; controlling speed and operation of construction vehicles and discouraging idling of vehicles. Spray water to dry soils/access roads to suppress dust. Provide barriers to provide some buffer against dust propagation.
Water resources	<ul style="list-style-type: none"> Installation of rainwater harvesting systems and water reservoirs and sinking a borehole. Install water conserving taps that turn off automatically & recycling of water where possible.
Public health and occupational safety	<ul style="list-style-type: none"> Train staff/workers on occupational health and safety and provide full protective gear. Sound waste management system. Ensure use of standard & approved construction materials and to the specifications. Sensitized workers on social/health issues such as drugs.

Possible Impacts *Mitigation Measures*

Fire safety and preparedness	<ul style="list-style-type: none"> • Strict adherence to the Factories and Other Places of Work Act. • Provision of fully equipped First Aid kits & trained staff. • Fence off the site from the public.
	<ul style="list-style-type: none"> • Installation of appropriate firefighting equipment at strategic points. • Conduct training on fire fighting, evacuation and emergency response plan & conduct regular fire drills; display emergency numbers at strategic points.
Solid and liquid Waste Management	<ul style="list-style-type: none"> • Septic tanks for each house/facility and prompt exhaustion. • Reduction of waste at source and recycling; Incorporation of suitable facilities for collection, segregation and safe disposal of solid wastes. • Installation of grease traps for water the kitchens and regular. • Continuous review of waste management procedures with changing technology and regulatory changes.
Visual intrusion	<ul style="list-style-type: none"> • Erect suitable perimeter walls & Retain existing trees in areas not affected by the construction. • Landscaping.

FOR THE PROPOSED LIQUEFIED PETROLEUM GAS (LPG)
FILLING PLANT ON PLOT L.R. NO. 9042/680, EMBAKASI
AREA, NAIROBI

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the proposed LPG filling plant.

The proposed project involves of 4 No. storage tanks (60 metric tons each), LPG Cylinder filling shed, offloading / loading area and related offices and equipment. The project is located on L.R. No 9042/680 in the Embakasi area of Nairobi.

Possible Impacts

Mitigation Measures

Regulatory requirements	<ul style="list-style-type: none"> • Comply with the Energy Act, 2006, the Energy (Liquefied Petroleum Gas) Regulation, 2009, Scheme of Supervision and Control for storage and filling of LPG according to KS 1938 -4 : 2005 (Kenyan Specifications for the construction, handling, storage and distribution of petroleum products KS 1938 as set out by the Kenya Bureau of Standards (KEBS).
Changes in hydrology / impended drainage	<ul style="list-style-type: none"> • Proper installation of drainage structures. • Install cascades to break the impact of water flowing in the drains. • Ensure efficiency of drainage structures trough proper design and maintenance. • Provide gratings to the drainage channels. • Regular checks on any sludge along drainage channels. • Visual checks of oil interceptors and drainage for any leaks.
Soil erosion	<ul style="list-style-type: none"> • Control any earthworks. • Rehabilitate degraded environment to avoid silitation and wash off. • Compact loose soils. • Landscaping. • Ensure management of excavation activities. • Control activities especially during rainy conditions. • Provide soil erosion control and conservation structures where necessary. • Proper disposal of excavated loose soil (black cotton soil).
Air Pollution through dust and gaseous emissions	<ul style="list-style-type: none"> • Prohibit idling of vehicles. • Water should be sprayed during the construction phase of excavated areas. • Regular maintenance of construction plant and equipment. • Engage sensitive construction workers. • Proper use of PPEs.
Noise Pollution	<ul style="list-style-type: none"> • Maintain plant equipment (if present/ used). • Construction activities to be restricted to daytime. • Workers in the vicinity of or involved in high level noise to wear respective safety and protective gear i.e earplugs and ear muffs. • Appropriate selection of machinery.
Oil Pollution	<ul style="list-style-type: none"> • Proper storage, handling and disposal of new oil and used oil and related wastes. • Maintain plant and equipment to avoid leaks. • Provide oil interceptors along the drains leading from LPG filling area.

Possible Impacts

Mitigation Measures

Water Resources	<ul style="list-style-type: none"> • Management of water usage. • Recycling of water at the construction phase where possible. • Use of water conservation signs at the wash rooms and install water conserving taps.
Contractors lay down area	<ul style="list-style-type: none"> • Special attention should be paid to the sanitary facilities on site especially disposal of human waste. • Garbage should be disposed off in accordance with Municipal Council requirements.
Road Safety	<ul style="list-style-type: none"> • Enforce speed limits for construction vehicles especially along road links leading to the site. • Provide bill boards at the site / entrance to notify motorist about the development.
Public health and occupational safety	<ul style="list-style-type: none"> • Ensure proper solid waste disposal and collection facilities. • Ensure effective waste water management. • Design of sewage system should be as provided in the plans. • Provide First Aid Kits on the site • Sensitize residents/workers on environmental management. • Ensure there is no poding to eliminate breeding of mosquitoes during construction. • Workers should be trained on occupational health and safety and first Aid administration. • Train staff on LPG handling. • Sensitive workers on HIV and AIDS.
Fire safety training / Emergency response procedures (ERPS)	<ul style="list-style-type: none"> • To enhance health and safety preparedness among stake holders. • Ensure equipment is in good working condition. • Put up emergency response contacts. • Put up ERP notification instructions. • Put up simple instructions on how to handle fires, products spills, LPG incidents, armed robbery and product contaminations.
Record keeping	<ul style="list-style-type: none"> • Collection and analysis of relevant environmental data at the site. • Data of maintenance of fire fighting equipment. • Monthly product reconciliation (stock loss control). • Staff training records. • Incidents and accidents registers. • Weekly inspection records of water interceptor and drainage systems.
Internal audits	<ul style="list-style-type: none"> • Monitoring will involve measurements, observations, evaluations, assessment of changes in water quality, waste management, noise levels, contractor safety etc.
Possible Impacts	Mitigation Measures

Fire outbreak	<ul style="list-style-type: none"> • Install fire monitoring equipment. • Install fire fighting equipment as provided by Municipal fire department. • Sensitive the residents on fire risks i.e conduct regular fire drills • Adapt effective emergency response plans. • Provide emergency numbers at strategic points
Water quality/waste management	<ul style="list-style-type: none"> • Follow NEMA regulations.
Security	<ul style="list-style-type: none"> • Provide security guard and facilities during construction period. • Security men should always be available to alleviate cases of robbery.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED KILIMAMBOGO-THIKA-GITHAMBO –
KIGANJO (NYERI) AND THIKA-KIGANJO (GATUNDU) 132 KV
TRANSMISSION LINES AND ASSOCIATED SUB-STATIONS

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed 132kv transmission lines and associated sub-stations.

The proposed project involves construction of a 170 km of 132kV power transmission line from Kilimambogo in Thika through Githambo in Murang'a to a terminal station in Kiganjo (Nyeri) and Thika-Kiganjo (Gatundu). A section of the proposed transmission line, from Kilimambogo to Mangu will be a double circuit which will be separated to proceed to the Githambo-Kiganjo (Nyeri) route while the other line to Kiganjo in Gatundu where a terminal substation will be constructed.

The main components of the proposed project include:

(a) Construction a total of 170km 132kV transmission line in 175 mm² conductor comprising:

- Approximately 15km double circuit between Kilimambogo and the proposed Thika substation and further 5km from the substation to the junction at Makwa.

- 50km single circuit between the proposed Thika substation and Githambo
- (b) Construction of new 132kV substation at Thika. The substation shall be double bars equipped with five 132kV bays and two 30MVA 132/66 transformers shall be connected to a new 66kV double bus bar substation which shall be equipped with four outgoing 66kV feeder bays.
- (c) Construction of a 132/33kV substation equipped with 23MVA 132/33kV transformers and four outgoing 33kV feeder bays.
- (d) Construction of a 50km 132kV transmission link between Githambo and Kiganjo 132kV substation equipped with a takeoff bay at Githambo substation and an entry bay at Kiganjo 132kV substation.
- (e) Construct a 50 km 132kV transmission link between Karakuta and Kiganjo (Gatundu).
- (f) Construction of a 132kV/33kV terminal substation at Kiganjo.

Possible Impacts	Mitigation Measures
Air pollution by dust generated during construction process	<ul style="list-style-type: none"> • All personnel working on the project shall be trained prior to starting construction on methods for minimizing air quality impacts during construction. • Construction of heavy earth moving vehicle drivers shall be under strict instructions to minimize unnecessary trips, refill petrol fuel tanks in the afternoon and minimize idling of engines. • Careful screening of construction site to contain and arrest construction-related dust. • Exposed stockpiles of e.g. dust and sand, shall be enclosed, covered, and watered daily, or treated with non-toxic soil binders. • All workers on the site shall be required to wear protective clothing while on duty.
Noise pollution by construction activities	<ul style="list-style-type: none"> • Use of equipment designed with noise control elements will be adopted where necessary. • Trucks used at construction site shall be routed away from noise sensitive areas where feasible. • Idling time for pickup trucks and other small equipment shall be minimized to limited. • All workers operating in noisy areas or operating noisy equipment shall be provided with earpieces to protect against extreme noise.
Excessive solid waste	<ul style="list-style-type: none"> • Wastes to be collected regularly to control air pollution and vermin/insects etc. • Receptacles shall be provided for waste storage prior to collection. • Resource recovery shall be encouraged once the project takes off so as to shrink waste stream and recover non-recyclables. • Refuse collection vehicles shall be covered to prevent scatter of wastes by wind. • Wastes will be collected by a licensed operator to avoid illegal final dumping at unauthorized sites. • All persons involved in refuse collection shall be in full protective attire.
Visual Intrusion and	Power transmission pylons to be erected

Possible Impacts	Mitigation Measures
obstruction	away from residential areas
Pollution from Hazardous waste	<ul style="list-style-type: none"> • Avoidance of numerous angle points during construction • Handling of the materials using the material safety data provided by the manufacturers • Appoint a safety officer to ensure that proper disposal guideline are observed • Ensuring that maintenance and/or piece of work carried out on any piece of equipment or construction work is undertaken by qualified personnel • In case of spillage emergency spillage control measures to be instituted • Containerization of any wastes and disposal through a licensed waste handler
Danger of accidents from electrocution	<ul style="list-style-type: none"> • Sensitisation of the locals of the dangers of tampering or high voltage lines • Provision of warning sign on the transmission towers • Provision of cordoning of the pylon area • Retain teams to monitor transmission line
Loss of vegetation cover during construction	<ul style="list-style-type: none"> • Avoidance of unnecessary vegetation clearing and reinstating cleared vegetation • Replanting of trees where possible
Workers accidents during construction process	<ul style="list-style-type: none"> • All workers shall be sensitized before construction begins, on how to control accidents related to construction. • A comprehensive contingency plan shall be prepared before construction begins, on accident response. • Accordingly, adherence to safety procedures shall be enforced. • All workers to wear protective clothing during construction, including helmets. • Construction work shall be limited to daytime only

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed TSS petrol station.

The proposed development entails construction of a petrol station complete with a parking bay, toilets, offices and filling pumps.

The proposed project is located along Kangundo Road off Outering Road in Umoja Estate on plot L.R. NO. 209/9491. The site is located fifty metres away from Petrocity petrol station and about one hundred metres away from total Kenya petrol station along Kangundo Road.

Possible Impact	Mitigation Measures
Solid waste	<ul style="list-style-type: none"> Segregation of solid waste and collection into bins should be observed Disposal of waste should be done through the laid down council procedure Reuse where possible or sale to authorized waste handlers/collectors
Occupational health and safety	<ul style="list-style-type: none"> All workers shall be provided with protective clothing i.e. overalls, helmets, gloves and safety boots among others to guard against injuries and other bodily harm Clean water shall be provided to the workers for drinking In the unlikely event of accidents, the labour laws governing reporting and management of the same i.e. OSHA 2007, will be applied Adequate safety signs shall be provided on site to prevent all workers and the general public of any dangers Adequate lavatories shall be provided for both ladies and gents separately Speed limits shall be observed and designated entry and exit routes observed without exception
Air and noise pollution	<ul style="list-style-type: none"> Limiting construction traffic movement and operation to efficient and necessary activities Routine maintenance of vehicles and other machinery to be used during construction process to reduce any chances of emissions Minimizing transportation activities to day time only Limiting construction activities to day time only Sprinkle the construction site with water to keep dust levels down

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed 84MW medium speed diesel engine power plant.

The proposed project involves the development of an 84mw medium speed diesel power plant along the Nairobi – Mombasa highway in Athi River of Mavoko Municipality in Machakos district.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
------------------	---------------------

Soil compaction	<ul style="list-style-type: none"> In order to prevent irreversible construction compaction effects arising from construction plant and equipment, ensure that to the extent possible, construction is undertaken during dry periods; On completion, all non-built up areas should be landscaped.
Soil erosion	<ul style="list-style-type: none"> To prevent soil erosion all non-built up areas should be landscaped and appropriate soil bind grass planted.
Impact on flow	<ul style="list-style-type: none"> If possible undertake initial construction activities during the dry season to prevent water/soil run-off especially on side slopes; Water shall also be diverted away from the project footprint areas through properly constructed drainage channels
Impact on water quality	<ul style="list-style-type: none"> Ensure that spills emanating from construction plant and equipment are cleaned immediately; Any petroleum products stored on site must be stored in bunded areas to prevent contamination of surface water; Contractor to adhere to Construction HSE management plan during the construction phase.
Impacts on terrestrial ecology	<ul style="list-style-type: none"> Set up measures to ensure that during preconstruction and construction, impacts on sensitive ecological areas and individual protected biota are minimized and that good management is exercised during operation so as to prevent ecological impacts
Decreased air quality due to dust and VOC emissions	<ul style="list-style-type: none"> Develop and implement effective measures for minimization of dust during the preconstruction and construction phase, followed by rehabilitation in a timely manner; Contractor to ensure that construction plant and equipment is in a good state of repair at all times to prevent adverse exhaust air emissions.
Stack emissions	<ul style="list-style-type: none"> Set up an air quality monitoring station about 10km east of the project site to collect SO₂ and NO_x data; Regularly monitor stack emissions using the inbuilt stack continuous emission monitoring system.
Waste	<ul style="list-style-type: none"> Develop and implement safe procedures for management of non-hazardous and hazardous wastes in accordance with L.N. 121: Waste Management Regulations, 2006; Contractor is responsible for this during the construction phase and the Proponent during the operational phase of the project.

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed development of a petrol filling Station.

The proposed project intends to construct a petrol filling station on Kisii Municipality Block III/351 within Kisii town. The project will comprise a cafeteria, carwash, service bay, office, six dispensing pumps, underground kerbside tanks, lubricant shop and toilets.

The project anticipates the following impacts and mitigation measures:-

Possible Impacts Mitigation Measures

Vehicular emissions	<ul style="list-style-type: none"> Employees undergo regular medical check-ups (every six months) Vehicles are switched off to minimize emissions Proper aeration within the premises
---------------------	--

- Health and Safety
- Fence off construction site from members of the public
 - Provide adequate PPE/C to all construction workers
 - Provide first aid facilities to construction workers
 - Employees undergo regular medical check-ups (every six months)
 - Vehicles are switched off to minimize emissions
 - Proper aeration within the premises
 - Provide protective clothing to employees
 - Install first aid facilities
 - Fire emergency response plan
- Fire risk
- The compound shall be kept clean and free from fire hazards and litter
 - Install fire control appliances (portable fire extinguisher; both CO₂ and water type, and sand buckets) and employees be adequately instructed periodically in the use of the various fire appliances.
 - Conduct regular drills
 - Regular repair and maintenance program for all equipment
 - Implement leakage detection mechanism
 - Gas cylinders shall be kept in an open area (not inside a building) and conduct daily leakage checks.
 - Observe safety measures e.g use of mobile phones, lighting -notices
 - Avoid naked fires (post notices to prohibit smoking within the station)
 - Electrical installation be carried out by a competent and licenced electrician
- Oil spills
- Fit hoses with quick-acting leak-proof cock or with an approved nozzle
 - Train and supervise staff to ensure minimal spillage of fuel.
- Solid Waste Management
- Proper waste collection, handling and disposal
- Wastewater
- Construct proper drainage system
 - Treatment of water through oil interceptors prior to discharge into the environment.
 - Ensure adherence to standards as per water quality regulations of 2006
- Leakages
- Use of approved fuel tanks and monitor fuel quantities to detect leakages.
 - Tanks will be properly treated.
 - A layer of clay shall be used to encase the tanks during installation.
 - The underground tanks shall meet the national standards.
- Noise
- Ensure adherence to Environmental management and Coordination (Noise and Excessive Vibration pollution Control) Regulations 2009.

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
