THE KENYA NATIONAL EXAMINATIONS COUNCIL ACT

(No. 29 of 2012)

APPOINTMENT

IN EXERCISE of the powers conferred by section 4 of the Kenya National Examinations Act, 2012 and section 51 (1) of the Interpretation and General Provisions Act, Chapter 2 of the Laws of Kenya, the Cabinet Secretary for Education revokes* the appointment—

ERIC OKOTH OGUR (PROF.)

as a member of the Kenya National Examinations Council Board, with effect from the 24th April, 2020.

Dated the 24th April, 2020.

GEORGE A. O. MAGOHA,
Cabinet Secretary for Education.

*G.N. 1618/20

GAZETTE NOTICE NO. 3241

THE NATIONAL ADVISORY COMMITTEE TO ADVISE AND OVERSEE THE SUPPLY AND UTILIZATION OF BLOOD AND BLOOD PRODUCTS

APPOINTMENT

IT IS notified for the general information of the public that the Cabinet Secretary, Ministry of Health has constituted a National Advisory Committee to advise and oversee the supply and utilization of Blood and Blood Products, which shall be a multi-disciplinary technical advisory body to provide clinical leadership in assisting, identifying, designing and implementing cost-effective blood utilization management initiatives for the optimization of patient care.

1. The Advisory Committee shall comprise of—

Chairperson

Abass Gullet;

Members

Kibet Peter Shikuku (Dr.)
Elizabeth Wala (Dr.)
Bharat Thakrar
Patricia Murugami (Dr.)
Bitange Ndemo (Prof.)
Joe Wang’endo

Joint Secretaries

Charles Rombo
Kiprono Chepkok
Thuranira Kaugiria (Dr.)

2. The chairperson and other members of the Advisory Committee shall, prior to assuming their office, subscribe to the declaration prescribed in the Schedule.

3. The terms of reference of the Advisory Committee shall be to—

- (a) advise on matters pertaining to blood supply, including those directly affecting the practice of transfusion medicine in hospitals and health facilities;
- (b) design of communication and social mobilization/marketing in donor mobilization;
- (c) facilitate knowledge management and the availability of information and data on blood and blood products utilization management practices;
- (d) play a supportive role in the development of guidelines and manuals for the use of blood products;
- (e) identify opportunities to optimize transfusion medicine practices;
- (f) provide leadership in the identification, design and implementation of blood utilization management initiatives for the optimization of patient care;
- (g) design a data management framework with the capability of computing disaggregate needs for blood and blood products in every hospital or health facility;
- (h) develop a system to resolve the perennial shortage of blood and blood products in Kenya to overcome the challenges facing many patients requiring blood and blood products by ensuring adequate and safe supply of blood and blood products;
- (i) institutionalize blood management in support of county governments’ participation;
- (j) monitor standards in respect of blood donor recruitment, collection, testing, processing, storage, imports, exports, issuance and distribution of blood and blood products as well as disposal of waste blood; and
- (k) conduct any other matter ancillary to or in furtherance of any of the foregoing terms of reference.

4. In the execution of its mandate, the Advisory Committee shall—

- (a) carry out or cause to be carried out such studies or research necessary in furtherance of its mandate; and
- (b) prepare and submit quarterly reports of its activities to the Cabinet Secretary, Ministry of Health through the Principal Secretary.

5. In addition, the Advisory Committee shall—

- (a) submit as appropriate, interim reports to the Principal Secretary/Ministry of Health as the Advisory Committee may find fit and necessary or as the need arises;
- (b) within a period of twelve (12) months, submit its final report to the Cabinet Secretary; and
- (c) in consultation with the Principal Secretary in the Ministry of Health, have the power to co-opt or to appoint any person as it deems fit only for specialized aspects of its terms of reference.

6. The deliverables and the Advisory Committee shall be expected to produce the following outcomes:

- (a) A legislative and regulatory report setting out rules, regulations, orders and other legislation required to give into effect the proposed reforms including a Bill of Parliament on the proposed Kenya National Blood Transfusion Service;
- (b) A reform action plan and roadmap for the Kenya National Blood Transfusion Service, detailing and initiating key reform interventions;
- (c) The development of data architecture and framework for blood management, information and logistics system;
- (d) A business re-engineering concept to ensure fiscal sustainability and future projections for the sector; and
- (e) A fiscal sustainability and projected expenditure report giving a detailed analysis of viable and feasible financial and service coverage options for the financing of blood and private sector participation.

7. The Advisory Committee shall regulate its own procedure and may issue guidelines with respect to the orderly conduct of its proceedings, quorum for the transaction of its business and other related matters.

8. The Advisory Committee may establish standing or ad hoc technical sub-committees to advise on specific matters that may arise from time to time, due to its specialized nature.

9. The Advisory Committee shall develop a work plan as may be required.

10. The term of office of the Advisory Committee shall be a period of one (1) year commencing on the first day immediately following gazetting of the Advisory Committee.

11. A person with any claim or complaint against the Government on the utilization of blood and blood products or blood supply shall be required to submit such claim or complaint to the Advisory Committee for consideration.

12. The Secretariat of the Advisory Committee shall be based at the Ministry of Health, Afya House, P.O. Box 30016-00100, Nairobi and shall be responsible to the Advisory Committee for:-

- (a) providing appropriate background briefings;
- (b) preparing the Advisory Committee's reports and disseminating any information deemed relevant by the Advisory Committee; and
- (c) undertaking research and liaising with relevant Government agencies or departments and any other institution in order to gather relevant information necessary in furtherance of the Advisory Committee's mandate.

SCHEDULE

NO CONFLICT OF INTEREST DECLARATION

I, do hereby confirm that in consideration for this assignment, I have no conflict of interest whatsoever arising in my professional or personal capacity.

I confirm that I have not engaged, in any act of commission or omission, in the past or present that would render me unfit in any professional, moral, legal or ethical way, from carrying out my duties under this assignment.

In this regard, I wish to confirm that:

- (a) I have never been convicted of any criminal offence.
TRUE/NOT TRUE
- (b) I have no pending civil or criminal case against me.
TRUE/NOT TRUE
- (c) I am not and have never been adjudged or declared bankrupt.
TRUE/NOT TRUE
- (d) I have a valid current professional practicing certificate and have no pending complaint against me before any professional body.
TRUE/NOT TRUE
- (e) I am not under investigation and know of nothing in my past or present, which may bring me under investigation by the Directorate of Criminal Investigations, the Ethics and Anti-Corruption Commission or the Kenya Revenue Authority.
TRUE/NOT TRUE
- (f) That no firm in which I have or have had an interest in has ever been blacklisted by the Auditor-General.
TRUE/NOT TRUE
- (g) In cases of a partnership, that the above applies equally to the firm and to all my fellow partners.
TRUE/NOT TRUE
- (h) In the cases of any other kind of business, firm or entity, that the same applies equally to all my business partners, colleagues and associates.
TRUE/NOT TRUE

If the answer to any of the above questions is NOT TRUE, provide details herein below —

.....
.....
.....
.....

I confirm my readiness to furnish any further details that may be needed in assessing whether I am fit and proper for this assignment. I will also provide any other information to confirm that I have no conflict of interest in any matter, likely to come before me in this assignment and that I shall be bound to answer any pertinent questions, now and/or in the future as the case may be.

I certify that I am fully aware of the legal consequences of this declaration and that my engagement may be terminated if any of the information I have provided herein is incorrect in any material respect.

PETER MUNYA,
Cabinet Secretary for Agriculture, Livestock, Fisheries.

GAZETTE NOTICE NO. 3263

THE SEEDS AND PLANT VARIETIES ACT

(Cap. 326)

THE SEEDS AND PLANTS VARIETIES (PLANT BREEDERS' RIGHTS) REGULATIONS, 1994

(L.N. No. 482 /1994)

APPLICATION FOR GRANT OF PLANT BREEDERS' RIGHTS

PURSUANT to regulation 16 of the Seeds and Plant Varieties (Plant Breeders' Rights) Regulations, 1994, the Cabinet Secretary for Agriculture, Livestock and Fisheries notifies the public of:

(a) The applications for grant of Plant Breeders' Rights for the sixty seven Plant varieties set out in the Schedule.

(b) The changes concerning applicants, holders of breeder's rights or their representatives.

Any breeder, successor in title to the breeder or any person who has substantial interest or is in a position to adduce material evidence relating to the applications may make representation regarding any of the applications.

The presentations may be made by lodging the original or certified copy of the deed of assignment or lodging the original or certified copy of letters of administration of the grant or such documentary evidence as will satisfy the authorized officer.

The presentations or requests for a hearing concerning the applications or any matters on which the authorized officer should be satisfied shall be made by the person applying for the opportunity to make presentations to the Cabinet Secretary or the Authorized officer within sixty days of this notice, failure to which the authorized officer will proceed with processing of the applications.

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED RUPINGAZI WERU IRRIGATION
SCHEME IN MBETI SOUTH LOCATION, MBEERE SOUTH SUB-
COUNTY IN EMBU COUNTY

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent, Rupingazi Weru Irrigation Scheme, is proposing to develop Rupingazi Weru Irrigation Scheme. The project will comprise of: an intake on Rupingazi River; a conveyance system consisting of UPVC and GI pipes involving installation of 19 sub-mainlines with a total length of 60.68km, 38 feeder lines to 746 small holder farms, sprinkler heads, fittings and accessories; and other associated facilities and amenities. The project will be located in Kiamuringa, Gachuriri and Gachoka sub-locations of Mbeti South Location, Mbeere South Sub-County in Embu County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Compromise with the efficiency of construction work and project	<ul style="list-style-type: none"> Acquire all relevant approvals and licenses to avoid construction work held. Seek qualified personnel for various works including licensed engineer and contractor. The approved designs followed in all stages of the project development. The institutions that concern this kind of development should be liaised where need be.
Soil erosion	<ul style="list-style-type: none"> Rehabilitation of degraded environment undertaken to stabilize the soil and therefore reduce rate of soil erosion and siltation. Soil conservation measures should be constructed especially at stockpiled areas.
Health and safety of workers and local community	<ul style="list-style-type: none"> Protect/Provide safe access to the unstable excavated sites through use warning signage, stable access to depths and heights. Supply workers with potable water and washrooms. Recruit workers from local area as much as possible and mainstream gender; Provide PPE such as overalls, boots, goggles, dust masks and others. Carry out awareness creation on dangers associated with HIV/AIDS. Display clear and visible warnings e.g. "No Access to the site for an unauthorized person" or "Danger/Hatari" at the area prone to these dangers and use language that is

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Noise and excessive vibrations	<p>understood by all.</p> <ul style="list-style-type: none"> Provide earmuffs for those working with noise producing equipment. Combine noisy operations so that they occur at the same time. Construction to take the shortest time possible.
Loss of vegetation	<ul style="list-style-type: none"> Where possible, the clearing of vegetation more so the indigenous trees need to be avoided during construction as much as possible. Establish tree nurseries and replant trees. After work is complete, the riparian area should be conserved.
Pollution of river	<ul style="list-style-type: none"> Cart waste generated near water away as soon as possible. Apply sediment control procedures to prevent sediment returning into the rivers. Don't block the river flow in a way to obstruct aquatic movements. Washing should be carried out far from the water course. The construction works should follow WRUA by laws.
Dust emissions	<ul style="list-style-type: none"> Strict measures are to be applied for the handling of construction materials in powder form. Excavation, handling and transport of erodible materials shall be avoided under high wind conditions.
Construction wastes	<ul style="list-style-type: none"> promote the reuse, recycling and reduction of wastes including waste containment. Use of durable, long-lasting materials that will not need to be replaced often. Potential pollutants should be stored, kept and used in such a manner that any escape can be contained to avoid degrading the water table. Any pollution incidents on site should be resolved speedily.
Oil spillage	<ul style="list-style-type: none"> The maintenance of vehicle and other machineries should be on designated locations. Provide oil spill at containment and clean-up equipment designated areas. Provide PPE for workers.
Accidents and hazards during construction	<ul style="list-style-type: none"> Should an accident occur: The injured person given first aid and immediately taken to the hospital, an investigation be initiated and preliminary findings released within 12 hours.
Water quality downstream	<ul style="list-style-type: none"> The river flow should not be blocked in a way to obstruct aquatic life movements. The construction works should follow WRUA by laws. Cart away waste generated as soon as possible.
Loss of biodiversity during pipe laying in the forest	<ul style="list-style-type: none"> Liaise with KFS on conditions of working in the forest.
Occupational safety and health impacts during pipeline laying outside forest	<ul style="list-style-type: none"> Sensitize the migrant workers on sexual behavior risk. Have VCT services on site and encourage workers to undergo the same. Provision of protective devices such as condoms.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Conflicts between members and non-members	<ul style="list-style-type: none"> Provision shall be made for employee facilities including shelter, toilets and washing facilities. Develop an MoU with non-members at planning stage. Ensure road signs (men at work) posted when working on such areas.
The full report of the proposed project is available for inspection during working hours at:	
(a)	Principal Secretary, Ministry of Environment and Forestry, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
(b)	Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
(c)	County Director of Environment, Embu County.
The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process regarding this plan.	
MAMO B. MAMO, Ag. Director-General, National Environment Management Authority.

GAZETTE NOTICE No. 3271

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED ELECTRIC FENCING OF MAASAI MAU
FOREST, NAROK COUNTY

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kenya Water Towers Agency, proposes to construct an electric fence around the Maasai Mau Forest. The forest block lies within Narok County and is situated 21km to the Northern part of Narok Town. The northern part of Maasai Mau is bordered by Ol Pusimoru Forest Reserve and Transmara Forest Reserve lies to the north west of the project forest area. The fence shall be of Intermediate Design type and shall consist of between five and ten strands. It shall have a combination of live wires and earth wires. The bottom earth wire shall be looped to the upper earth wire and later to a tight lock underground mesh. At 200m interval, the wire shall be attached to a 2m earth peg with a joint clamp. All live wires shall be attached to strain insulators at strainer assemblies and tied by joint clamps and looped across king post to the next wire tied in the same way. Galvanized staples shall be used to attach earth wires and insulators to the posts. All wires shall be strained to a tension of 180kg. Standard galvanized joint clamps shall be used to join the wire along the main fence line and at corners where looping shall be necessary. All joints shall be tight and of figure 8 or reef knot joint.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Impacts on local air quality	<ul style="list-style-type: none"> Spraying water on soil before excavation and periodic access road wetting to reduce nuisance dust levels. Visual inspection of dust pollution from roads and the construction site and appropriate intervention if dust levels are high. Speed restriction of construction vehicles to a speed of 30 km/h or less on the site and on the access roads to the site.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Noise and vibration	<ul style="list-style-type: none"> Maintenance and servicing of machines and engines off-site. Grievance procedure for dust complaints. The use of appropriate Personal Protective Equipment (PPE) such as dust masks, in particular, for construction workers. All construction materials will be transported in designated trucks which will be covered.
	<ul style="list-style-type: none"> Conduct construction activities during day time. Select equipment with lower sound power levels. Install silencers for fans used by construction machinery. Restrict engine idling of equipment and vehicles. Regular maintenance of construction equipment.
	<ul style="list-style-type: none"> Segregate and store in a designated waste management area. Deliver to licensed recyclers. Segregate and store in a designated waste management area. Deliver to licensed recyclers. Fuels will be stored on site in temporary aboveground storage tanks placed on a bonded area. Trucks and construction vehicles will be serviced off site. Recovery and re-use to be explored and where it is not feasible they should be disposed in a NEMA. Segregate and store in a designated waste management area. Deliver to licensed recyclers. Segregate and store in a designated waste management area. Deliver to licensed recyclers. Segregate and store in a designated waste management area. Eliminate excess packaging. Repair items such as pallets so that they can be re-used.
	<ul style="list-style-type: none"> Minimize works during rainy season. Excavated materials to be removed and disposed at designated disposal facility. Fuel and other chemicals storage area to be paved and bonded to avoid leakage and contamination of surface or ground waters. Restore and seed temporary access road. Maintain erosion controls.
Solid waste	<ul style="list-style-type: none"> Segregate and store in a designated waste management area. Deliver to licensed recyclers. Segregate and store in a designated waste management area. Deliver to licensed recyclers. Segregate and store in a designated waste management area. Deliver to licensed recyclers. Segregate and store in a designated waste management area. Eliminate excess packaging. Repair items such as pallets so that they can be re-used.
	<ul style="list-style-type: none"> Minimize works during rainy season. Excavated materials to be removed and disposed at designated disposal facility. Fuel and other chemicals storage area to be paved and bonded to avoid leakage and contamination of surface or ground waters. Restore and seed temporary access road. Maintain erosion controls.
Surface water	<ul style="list-style-type: none"> Minimize works during rainy season. Excavated materials to be removed and disposed at designated disposal facility. Fuel and other chemicals storage area to be paved and bonded to avoid leakage and contamination of surface or ground waters. Restore and seed temporary access road. Maintain erosion controls.
Wastes and effluents	<ul style="list-style-type: none"> Preparation and implementation of a Waste Management Plan (WMP). Store fuels on site in temporary aboveground storage tanks. Service trucks and construction vehicles off site. Adhere to Kenyan laws and regulations applicable to waste management and the MSDS. Provide temporary ablution facilities and

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>	<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
	ensure treatment and/or removal of sewage wastes of.		(warning tape and keep off signs).
Solid waste	<ul style="list-style-type: none"> • Suitable facilities for the collection, segregation and safe disposal of the waste, and ensuring wastes are not blown off site by winds; • Waste collection by approved waste contractors and transferred to an appropriately NEMA licensed) waste management facility; • Dispose them offsite through approved waste contractors and transferred to an appropriately NEMA licensed) waste management facility; • Deliver to licensed recyclers; • Dispose them offsite through approved waste contractors and transferred to an appropriately NEMA licensed) waste management facility. 		<ul style="list-style-type: none"> • Inform all personnel of the Chance Find if access to any part of the work area is restricted. • Establish a localized no-go area needed to protect the Chance Find. • The National Museum of Kenya will be contacted to perform a preliminary evaluation to determine whether the Chance Find is cultural heritage and if so, whether it is an isolate or part of a larger site or feature; • Artefacts will be left in place when possible; if materials are collected they will be placed in bags and labelled by an archaeologist and handed over to the National Museum of Kenya; no Project personnel are permitted to take or keep artefacts as personal possessions. • Document find through photography, notes, GPS coordinates, and maps (collect spatial data) as appropriate. • If the Chance Find proves to be an isolated find or not cultural heritage, the specialists brought in from the National Museum of Kenya will authorize the removal of site protection measures and activity in the vicinity of the site can resume. • If the archaeological specialists from National Museum of Kenya confirm the Chance Find is a cultural heritage site, they will inform the project team and initiate discussions with the latter about treatment. • Prepare and retain archaeological monitoring records including all initial reports whether they are later confirmed or not. • Develop and implement treatment plans for confirmed finds using the services of qualified cultural heritage experts. • If a Chance Find is a verified cultural heritage site, prepare a final Chance Finds report once treatment has been completed. • While investigation is on-going, co-ordinate with on-site personnel keeping them informed as to status and schedule of investigations, and informing them when the construction may resume. • If mitigation is required, then expedient rescue excavations will be undertaken by the National Museum of Kenya specialist, except in the case that the chance find is of international importance (i.e. Critical Cultural Heritage). If an archaeological site of international importance is encountered special care will be taken and archaeologists with the appropriate expertise in addressing the find will be appointed.
Destruction of vegetation (cover, species and population)	<ul style="list-style-type: none"> • Minimal clearing of trees should be practiced. • Avoid felling large trees where necessary. • Avoid using heavy mechanization which would easily cause severe clearing of vegetation. 		
Potential destruction of population of threatened plant species	<ul style="list-style-type: none"> • Totally avoid felling large trees listed in the red list of threatened species. • Avoid using heavy mechanization which would easily cause severe clearing of tree species threatened. 		
Pit falling of small mammals, herpatofaunal and crawling invertebrates	<ul style="list-style-type: none"> • Conduct search and rescue of Shrews, lizards and skinks trapped by trenches and pit holes every day in the morning. • Establish a ramp for the species to climb outside from trenches. • Trenches and pit holes should not be left unattended for long to avoid. 		
Introduction of Alien Invasive Plant (AIP) species along the fence alignment	<ul style="list-style-type: none"> • The earth moving machines should be cleaned by cleaning them before they leave their departure points. • Monitoring of AIPS should be observed closely to identify and control their population before they start reproducing. 		
Disruption of connectivity and seed dispersal on the landscape	<ul style="list-style-type: none"> • Grading should be avoided in sloppy (steep) areas to allow free movement of seeds downslopes. • The bottom wire should be spaced considerably high to allow cross-movements of small to medium mammals that disperse seeds. • Controlled grazing of livestock should be enhanced. 		
Fatal electrocution of small mammals and birds	<ul style="list-style-type: none"> • Vary voltage of lower layers of wires to levels that only excite the medium size birds (CP). • Creating a ground clearance (without electric wire) for ground movement by some bird species in between the forest and outside (CP). 		
Restricted movement across the landscape	<ul style="list-style-type: none"> • Complete fencing across riverine areas should be avoided to allow for movements of elephants and other large mammals across the landscape. 		
Impacts on Cultural Heritage	<ul style="list-style-type: none"> • A chance find can be reported by any member of the Project. Accordingly, if a chance find is encountered, the first course of action is to stop work in the vicinity of the find. Then the following steps will be undertaken. • Inform site supervisor/foreman. • Install temporary site protection measures 	Increased Transmission of HIV/AIDS and STIs	<ul style="list-style-type: none"> • The Contractor should develop and implement pre-employment screening measures for workers, which should include applicable diseases. Individuals found to be suffering from these diseases will need to be sensitized on prevention of transmission to others and management of the disease prior to mobilization to site. • The Contractor should develop and implement a HIV/AIDS and other STIs policy and an information document for all workers directly related to the Project. The information document should address factual health issues as well as behavior change issues around the transmission and infection of HIV/AIDS and other STIs.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>	<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
	<ul style="list-style-type: none"> The Contractor will make condoms available to employees and communities neighboring the site office during construction. All project personnel should be inducted on a Code of Conduct that gives guidelines on worker-worker interactions, worker-community interactions and development of personal relationships with members of the local communities. As part of the Code of Conduct, the Proponent should explicitly forbid all Project personnel as well as the Contractor staff from engaging in illicit activities including procuring of commercial sex workers which could affect the reputation of the Agency and or its relationship with communities. Anyone caught engaging in illegal activities should be subject to disciplinary action. If workers are found to be in contravention of the Code of Conduct, which they will be required to sign at the commencement of their contract, they will face disciplinary action including dismissal from duty. 		<p>aim of generating their socio-economic profile to determine which alternative intervention can be suitable to help them cope with their loss.</p> <ul style="list-style-type: none"> Consider implementing suitable alternative livelihood options as supported by local conditions and as proposed by the affected communities would entail: job opportunities in the project, setting up tree nurseries, tea farming, bamboo plantation, bee keeping for honey production, dairy farming, establishing medicinal herb garden. The local leaders including special interest groups such as village elders, women, youth and indigenous peoples should be involved and consulted in identification of interventions and restoration of community livelihoods. The proponent should purpose to build the capacity of local communities in sound forest management by way of training on participatory forest management, constitution of a Community Forest Association; offering apprenticeship to instil basic skills that can be employed in project implementation; hire local youth to work as forest scouts for income and as well as to portray community involvement in conservation and for sustainability. Positive interventions geared towards capacity building and restoration of livelihoods may attract those who were not affected and these may in turn lead to competition for limited slots in the various opportunities. For this reason, the Proponent should work closely with the local leaders to ensure a fair, transparent and inclusive process. Establish a community grievance redress mechanism to address concerns arising from the community.
Impacts on Employment, Procurement and the Economy	<ul style="list-style-type: none"> The Project should prioritize the employment of labour from the local villages in the first instance especially for unskilled and semi-skilled positions. In the event the position cannot be filled from the project area, labour should be sourced in order of preference from neighboring communities within the Counties. The Proponent should adopt a fair and transparent employment and procurement strategy to avert any potential favoritism. The strategy should be well understood by local communities. Employment should be fairly distributed among the local ethnic representations to avoid any conflict over the project. KWTA should notify identified representatives of the County Government and Public Administration (i.e. the County Commissioner's office) of the specific jobs and the skills required for the Project, prior to the commencement of construction. This will give the local population time, prior to the commencement of construction, to identify persons with the relevant skillset to be employable in the Project. The Project should prioritize the procurement of goods and services from within Narok County. In the event that goods and services cannot be procured from within the Counties, then preference should be given to regional companies. The Contractor should however aim at procuring locally available materials where feasible and use local suppliers where appropriate. Job advertisements on employment and procurement opportunities during construction phase should be placed at the Public Administration notice board and applications to be done through this office. In the event that the position cannot be filled from within these villages and towns it should be advertised further afield (County-wide in Narok). 	Insecurity	<ul style="list-style-type: none"> Employment should also be equal between all local communities, especially between the Maasai and Kipsigis ethnicities to avoid any conflict within the Project Area. KWTA and the Contractor will need to liaise with the local security operatives and develop a security plan to protect the Project material, equipment and workers. The Proponent should continue to undertake engagement and consultation, with the local stakeholders, in line with its stakeholder engagement strategy. During construction, an Emergency Preparedness and Response Plan should be prepared and implemented by the Contractor.
Loss of property and livelihood sources	<ul style="list-style-type: none"> An inventory of affected properties including cost of purchase of land, land acreage under crop production and expected amount of crop harvest should be prepared to determine the level of loss and enable costing/valuation. Further the process should identify persons who have been affected in this regard, with an 		<p>The full report of the proposed project is available for inspection during working hours at:</p> <ol style="list-style-type: none"> Principal Secretary, Ministry of Environment and Forestry, NHIF Building, Community, P.O. GAZETTE NOTICE NO. 3272

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED ESTABLISHMENT OF SUSTAINABLE
TILAPIA CAGE CULTURE AROUND NYACHEBE WATERS ON
LAKE VICTORIA, SUBA-NORTH SUB-COUNTY, HOMABAY
COUNTY

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Global Tilapia Husbandry Ltd, is proposing to establish a commercial sustainable and responsible tilapia cage culture that shall comprise of 250 round cages each measuring 5m diameter and 10m depth in the waters of Lake Victoria, around Nyachebe beach area, Suba- North Sub-County in Homabay County.

*Impacts**Proposed Mitigation Measures*

Eutrophication of the lake from Nutrient Enrichment from excess feeds and waste

- Avoid overfeeding by monitoring feed rates.
- Acquire quality floating pellets that can easily be washed to the shore.

Flow regimes/water currents

- Jump nets that extend above the water line should be constructed to prevent overtopping by storm surges or waves.
- Install cages away from major currents and areas with aquatic vegetation.

Escape of non-native culture species could lead to :-

- Interbreeding and gene pool alteration of the local fish populations
- Disease transmission
- Competition

- Install screens on all inlet and outlet points to minimize escape.

- Cages should be made of sturdy non-corrosive material.
- Thoroughly inspect the nets before deployment.

- Follow protocols when transferring, changing nets or harvestin.;
- Trained staff must periodically inspect cages for holes, rips, or tears.

Contamination of the environment through waste disposal – air pollution and waste water

- Recycling, Re-use and transfer to approved sites.

Water flowing through the cages is affected by drag forces exerted by the framework and netting

- Construct jump nets that extend above the water line to prevent overtopping by storm surges and waves.
- Install cages away from major currents and areas with aquatic vegetation.

Increased waste accumulation rate in the immediate cage vicinity
Fish escapes

- Recycling, Re-use and transfer to approved sites.
- Install screens on all inlet and outlet points in the fish farm to minimize the escape of fry, juveniles and brood stock.
- Filter screens in fish farm shall be designed to retain the smallest life stage present.
- Filter devices should be capable of screening all water.

*Impacts**Proposed Mitigation Measures*

- Cages should be made of sturdy, non-corrosive material.

- Follow protocols when transferring, changing nets or harvesting fish from the cages e.g. use of fish boxes.

- Trained staff must periodically inspect cages for holes, rips or tears.

Habitat preservation

- Place ponds above the flood level.
- Area occupied by ponds should be smaller that of natural vegetation.
- Place ponds well apart.
- Retain vegetation as much as possible.

Spread of diseases to wild population

- Practice good husbandry.
- Quarantine introductions.

Deterioration of road access due to congestion

- Assist in road maintenance.

Conflict with other lake users over reduced space
Reduced capture fish prices and fishers income

- Accommodate issues as they arise.
- Employ those involved in capture fishing as unskilled workers.

Boat accidents at night

- Install self-extinguishing navigation equipment, lights and technology.

Spread disease
Contamination of the environment through waste disposal :-

- air pollution
- waste water;
- attracting scavengers,
- injure wildlife,

Water flowing through the cages is affected by drag forces exerted by the framework and netting

- Construct jump nets that extend above the water line to prevent overtopping by storm surges and waves.

- Install cages away from major currents and areas with aquatic vegetation.

Increased waste accumulation rate in the immediate cage vicinity

- Recycling, Re-use and transfer to approved sites.

Fish mortalities results in the excretion of ammonia in lake waters (through bacterial action and autolysis of dead fish), predation by other fish, lizards, crocodiles and birds

- Conduct a routine of collecting mortalities on the farm.
- All mortalities should be decomposed at a designated area.

Incidence of disease through evolution of drug resistant fish pathogens

- Limit use of chemicals.
- Use footbaths and restrict entry to cage farm.

Fish losses due to predation

- Putting nets over cages to deter birds.
- Putting predator nets.

Accidents, health issues and occupational safety

- Annual inspection of the facility by government approved agents.
- Consider having a resident health staff.

Encroachment into fishing grounds and conflict with other lake users

- Restrict expansion to the currently agreed areas.
- Accommodate conflict issues as they arise.

Impacts

Improved scenery of the area due to cages and lake based storage facilities

Proposed Mitigation Measures

- Allow tourists, school children to look and learn from the prescribed distance.

The full report of the proposed project is available for inspection during working hours at:

- Principal Secretary, Ministry of Environment and Forestry, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
- Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- County Director of Environment, Homabay County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process regarding this plan.

MAMO B. MAMO,
Ag. Director-General,

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the National or County Governments. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly, Senate or County Assemblies.
- (4) *Act Supplement* contains Acts passed by the National Assembly, Senate or County Assemblies.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typed with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
