GAZETTE NOTICE NO 711

THE INDUSTRIAL COURT

CAUSE No 40 OF 1969

The City Council of Nairobi and

The Mombasa Municipal Council

Issues in dispute —

- 1 Acting allowance
- 2 Overtime
- 3 Subsistence allowance
- 4 Maternity leave
- 5 Termination after criminal offence
- 6 Pecuniary embarrassment
- 7 Housing allowance in Nairobi
- 8 Duty house
- 9 Gradings in certain posts
- 10 Effective date

1 The Kenya Local Government Workers' Union shall hereinafter be referred to as the Claimants and the City Council of Nairobi and the Mombasa Municipal Council shall hereinafter be referred to as the Respondents

2 The parties were heard in Nairobi on the 14th, 15th and 16th day of January 1970, and relied on their written and verbal submissions

AWARD

3 Since the formation and creation of the requisite machinery for carrying out national negotiations between the local authorities in the country and the Claimants, negotiations have taken place between the various committees of the Association of Local Government Employers and the Claimants. The Respondents comprise committee No 1 and in July 1969 negotiations began between the parties and although there were 42 different items for discussion agreement was reached on 32 and the remaining 10 are for adjudication before the Industrial Court. The parties signed the notification of dispute form on 29th September 1969

During the lengthy discussions which took place at the joint meetings on 23rd July, 18th and 19th August and finally on 24th September 1969, agreement was reached on joint scales between Nairobi and Mombasa and a common salary structure was evolved. At present there are 24 scales starting from £195 to £3,800. The parties have also agreed on the job categories related to joint salary scales for both the councils at Nairobi and Mombasa and during the hearing the Court was informed that job categories shown against joint scale No 18 in respect of Mombasa Municipal Council had been moved up to joint scale No 17

The Court has noted with satisfaction that the co-ordination of terms of service agreement applicable to the Respondents has progressed so well and that in the case of Mombasa Municipal Council salary increases have resulted as scales have been assimilated with those in Nairobi. The Court further notes that a 10 per cent increase was agreed for Mombasa staff solely as a housing element in their salaries. The Court is also aware that the Claimants and the Nairobi City Council had appeared before it in Cause No 3/67 when a consent order was made by the Court awarding new salary scales 5 to 24 to be implemented with effect from 1st May 1966

The parties argued at length on the various issues in dispute and in addition to the lengthy written submissions which contained detailed information they produced as exhibits numerous documents and the various relevant minutes of the council meetings in Nairobi and Mombasa

Acting allowance—The difference between the parties on this issue is essentially on three points: the length of the period after which a worker will be entitled to an acting allowance, the scales to which this allowance will apply and finally the amount which should be paid by way of acting allowance

The Court has very carefully considered the submissions put forward by the parties and awards as follows —

- (a) An officer shall be entitled to be paid an acting allowance if he is temporarily appointed by the Establishment Committee to act for a period of at least one month in the salary scales 1-24
- (b) An acting allowance shall be half the difference between the minimum of the officer's substantive salary scale and the minimum of the salary scale appropriate to the post in which he acts

Overtime—Here again the parties differed on three points as to which officers would be entitled to overtime, when overtime should be paid and the rates to be paid for such overtime work

After a careful consideration of all the submissions made by the parties the Court awards that—

- (a) payment of overtime in accordance with the arrangements approved by the head of the department after normal working hours for officers in salary scales 6-24 in Nairobi and 10-24 in Mombasa inclusive shall be paid as overtime provided that such overtime has been specifically authorized in writing by the officer's section head,
- (b) overtime shall be payable at the following rates calculated daily on a *pro rata* basis —
 - (i) In respect of week days at one and one-quarter time the normal hourly rate,
 - (ii) in respect of Sundays one and one half time the normal hourly rate,
 - (iii) in respect of public holidays at twice the normal hourly rate

Subsistence allowance—The difference here between the parties is very minor as there is no dispute over the wording of the clause. The purpose of this item is to enable the Respondents to pay an allowance to those officers in the grades not entitled to overtime allowances

The Court makes the following award —

An officer in salary scales 1-5 in Nairobi and 1-9 in Mombasa who works outside his normal working hours will be entitled on each such occasion to a subsistence allowance at such rates as may be approved from time to time by the council

Maternity leave—The Claimants strongly submitted that as the main object of having national negotiation with the local authorities was to evolve uniformity they felt that the Respondents should grant paid maternity leave because at least 20 county councils in the country granted paid maternity leave to their female employees. They stated that the Kisumu Municipal Council allowed maternity benefits to the extent of one third salary for three months and Nakuru and Kitale Municipal Councils paid half month's salary for three months and Thika Municipal Council half the salary for two months

The Claimants argued that accumulation of leave for the purposes of maternity was not desirable as female employees needed rest like other employees and that the ILO recommendations on the subject, while advocating that maternity leave should be the State responsibility, had not laid down a rule that paid maternity leave should not be granted. They drew the Court's attention to the fact that teachers in Kenya were allowed paid maternity leave and the fact that they were Government employees amounted to acceptance by the Government of the principle of paid maternity leave. Finally they stated that in Uganda women employees were granted paid maternity leave

The Respondents on the other hand very strenuously resisted this demand on the ground that if municipal councils and county councils had agreed to grant paid maternity leave it was no reason to require them to grant it as well. They stated that internationally it was accepted that maternity leave was not an employer's responsibility and that women's organizations all over the world wanted equal pay for equal work and in pursuance of this objective they had dropped their demand for paid maternity leave. The Respondents submitted that the Kenya Government paid maternity benefits to teachers only because they had always got it even before the ratification of the relevant ILO recommendation. They stressed that they accepted the principle of equal pay for equal work

The Court has very carefully considered this matter and has come to the conclusion that paid maternity leave should not be awarded. The Court has no doubt that in due course the State will take over this responsibility. Accordingly the Court awards as follows —

If a female officer waiting to take maternity leave has not at that time accrued paid leave amounting to three months, the council will grant additional unpaid leave to make her total absence entitlement three months, and such leave must begin at least one month prior to the expected date of delivery

The Court notes that under the agreement reached on sick leave under clause 20 (d) it is stated as follows —

"Sick leave will not be granted to a female officer nor will any medical expenses be paid during any period of absence due to pregnancy or confinement, but while an officer is on pregnancy leave she shall be entitled to sick benefits for any illness not due to pregnancy"

The Court feels that this is not fair and accordingly rules that female workers shall be entitled to sick leave if there are complications arising from the pregnancy as a result of which the female employee concerned becomes ill or sick, the provisions in force regarding sickness shall apply in respect of the period of sickness involved

In view of its award on maternity leave above, the Court further rules that the aforesaid paragraph 20 (d) on sickness shall be deleted *in toto* and shall no longer apply. This means that there will be complete equality of treatment in respect of sickness as between both male and female employees of the two councils

Termination after criminal offence—On this item the Respondents have asked for an additional para (f) to be added to clause 25 under the heading "Termination of Employment"—

"Where an officer has been found guilty of a criminal offence not involving the council's interests his appointment may be terminated in the manner provided in paragraphs (a) or (b) hereof as the case may be"

The Respondents asked the Court to bear in mind that these negotiations are in respect of salaried grades employed in the two principal local authorities in Kenya and it was of utmost importance that persons employed in these positions shall be above reproach and their character should be free from any criminal taint

The Claimants very strongly resisted the inclusion of this para in clause 25 on the ground that the existing provisions were adequate to meet the cases which the Respondents had in mind and the Court agrees with this view. The Court therefore rejects the Respondents' demand for inclusion of this paragraph in clause 25 of the negotiated agreement

Pecuniary embarrassment—On this item again the Respondents proposed to have the following clause in the agreement—

"(a) Pecuniary embarrassment occurs where an officer's salary is subject to legal attachment

(b) Pecuniary embarrassment will be regarded as impairing the efficiency of an officer and render him liable to disciplinary proceedings at the discretion of his Head of Department in accordance with rule 26"

In support of their demand they stated during the hearing that there were over 1,000 attachments in operation as at December 1969, but subsequently withdrew this statement and agreed with the Claimants' contention that the figures for the attachments in operation for the last four months in 1969 were as follows—

	Attachments
September	124
October	123
November	120
December	93

The Respondents submitted that an employee who received attachments to his salary more than three times in any one year could not be expected to devote his full time and thought to his job. In addition there was always a temptation to get out of his difficulties by some other means which could lead to more serious trouble

The Claimants stated that in their view the situation was not serious at all requiring the inclusion of this clause in the agreement. This was obvious from the fact that out of 2,000 Nairobi salaried staff the attachments in operation in December 1969 were only 36, the remaining 57 being in respect of manual workers. In any case they pointed out that the Respondents were adequately covered to deal with any cases in the existing terms and conditions

In view of the evidence that was produced before the Court during the hearing the Court is satisfied that there is no need for including the Respondents' proposal in the agreement and it is accordingly rejected

Housing allowance in Nairobi—This was by far the most important item in this dispute and the parties addressed the Court at great length and supported their arguments with documentary evidence like the relevant council minutes. Very briefly the Claimants' contention is that housing allowance was never consolidated into the current salary scales. Therefore there was no housing element in the present salary scales. They gave the historical background to the salary structure in the Nairobi City Council and argued that nowhere was it mentioned that housing allowance was being consolidated into the salary. On the other hand they referred the Court to various minutes since 1960 where housing allowance has been paid to officers in addition to their salaries and where it was discussed at various meetings in respect of various officers

The Claimants compared their salary scales with that of the Government and asked the Court to find that the Nairobi City Council scales were lower than those of the Government. They could not support the Nairobi City Council's contention that their financial viability was unlikely to improve significantly as Nairobi was a fast growing city both in population and economic stability. They stated their original proposal on housing allowance was as follows which had subsequently been modified—

Housing allowance (original demand)

Scale (£ p a)	Sh p m
1,839 and over	950
1,398-1,838 inclusive	850
1,068-1,397	700
828-1,067	600
648-827	400
396-647	310

Modified demand

Officers on salaries of—

£	Sh p m
1,389 p a (basic) and over	730
1,050 p a (basic) and less than £1,389 p a (basic)	620
816 p a (basic) and less than £1,056 p a (basic)	510
633 p a (basic) and less than £816 p a (basic)	370
597 p a (basic) and below	310

The Claimants referred the Court to the Central Rift County Council whose rates of house allowance to its officers are as follows—

Officers on salaries of—

£	Sh p m
1,389 p a (basic) and over	730
1,050 p a (basic) and less than £1,389 p a (basic)	620
816 p a (basic) and less than £1,056 p a (basic)	510
633 p a (basic) and less than £816 p a (basic)	370
597 p a (basic) and below	310

The Claimants conceded that their demand if accepted by the Court would cost the Nairobi City Council about £385,000 a year

The Respondents on the other hand very strongly resisted this demand on the ground that when a salary structure was worked out in June 1960, house allowances had been merged with salaries and in support thereof produced minutes of the finance committee meeting held on 28th June 1960. They maintained that no case had been made out for breaking up the house allowance after it had been consolidated or for introducing it as a new fringe benefit

The Court notes that in the aforesaid minute of the finance committee meeting it is recorded as follows—

"(b) The Report on Salaries and Terms of Service dated 27th June 1960, dealing with—

- (i) the formation of a non racial scale of salaries for all posts in the Council's service,
- (ii) the review of salaries, leave for senior staff and merging of house allowances with salaries,
- (iii) the elimination of any anomalies which may exist in the grading and salary of individual officers or posts,
- (iv) the unification of terms of service to cover staff,
- (v) the establishment of contract scales and terms for posts filled from overseas,
- (vi) the question of reintroducing an Appointments Committee"

After the above it is recorded that after considerable discussion it was noted that a copy of the report was signed by the representatives of the Staff Associations and the Union, it was further noted that the cost of implementing the proposals contained in the said report would approximately be £55,000 p a. It is further recorded that after considerable discussion it was resolved to recommend to Council that—

"1 The report of the Salaries and Salary Scales Committee be adopted and the following salary scales and scale of leave entitlement set forth in the said report be approved"

In view of the foregoing the Court cannot accept the Claimants' submission that house allowance was not merged in the salary scales. Were it not so it is very surprising indeed that the Claimants have not taken up this matter of house allowance for almost nine years when as recently as June 1966 they negotiated new salary scales for the Nairobi City Council employees which was the subject matter of Industrial Court award in Cause No 3/67. Another surprising feature of this demand is that the Mombasa salary scales have now included in them a 10 per cent salary increase and 10 per cent housing allowance element which is consolidated in the salary scale. This clearly shows that the Claimants appear to be pursuing an illogical policy. In any case, even if the house allowance was not consolidated in the current salary scales in Nairobi the Court is satisfied that no case has been made out for introducing the house allowance for Nairobi City Council employees as a new fringe benefit. The Court has given this matter very anxious thought and has come to the conclusion that this demand should be rejected

Duty house—The Claimants demanded that the Respondents should not lay down as a condition of employment for certain posts like superintendent of estates, assistant medical officer, maternity hospital, matron, children's day nurseries, chief fire officer, assistant chief fire officer, sewage disposal works superintendent and a few other posts, that the officers should undertake to live in houses provided at their place of work and also require them to pay rent in respect of such accommodation. They maintained that it would be grossly unfair to require these officers to pay rent for living in accommodation provided, in most cases, in unpleasant surroundings where no person of his own free will would choose to live. They maintained that if an officer had to pay rent for such an accommodation then he should be entitled to live in an area which he preferred but if the Respondents required these officers to live at the place of their work then it was only fair that houses should be provided free of any rent

The Respondents on the other hand felt that the old custom whereby a number of senior officers had in Nairobi received the privilege of a duty house as it was necessary for them to live practically on top of their jobs should gradually disappear on new appointments being made, and that adequate arrangements could be made for deputies to be available when the senior officer himself is not available

The Court awards that the old practice of providing a free duty house should continue. The Court feels that the least the Respondents can do for officers who have to be on duty, in many cases in most unpleasant surroundings and circumstances, is to provide them with free houses if they want them to live there. The Court would like to make it clear that its award is not to be taken beyond this special item as had there not been special circumstances to warrant it the Court would not have made its award.

Gradings in certain posts—During the hearing the Court made it very clear to the parties that it was not prepared to turn itself into a grading or job evaluation committee as for obvious reasons it could not do so. It should be noted that numerous discussions had taken place between the parties over the question of gradings and a large measure of agreement had been reached. The Claimants have however referred to the Court other requests for regrading which may be divided into two categories —

- 1 Equality between Nairobi and Mombasa
- 2 Up-grading in individual posts

The Claimants accepted the Respondents' suggestions which they made in their supplementary memorandum on the following posts —

Mayor's Secretary
Personal Secretary
Kabete Treatment Works Superintendent
Assistant Chief Auditor
Printing Assistant

The Claimants further asked the Court to finalize the grading of certain posts which they submitted the Court could quite easily do and asked the Court to refer the remaining posts to a committee of experts to go into the question of gradings.

The Court is not inclined to take the risk of embarking on a grading exercise, however simple it may be, without going into the matter most thoroughly. It should be remembered that a job evaluation exercise is very scientific and complicated and needs a lot of time for detailed study. The parties gave the Court very scant information and the Court feels that the best course for sorting this matter out and removing any anomalies that might exist is for the parties to set up a committee of experts to go into this question. The parties should nominate an equal number of members on such a committee under an independent chairman. If after such an exercise has been carried out, differences still remain on one or two matters the parties can by all means refer them to the Court for final settlement. For these reasons the Court is not prepared to make any award on this issue but directs the parties to set up a committee as stated hereinabove to go into this question.

Effective date—This is the first agreement co-ordinating the existing terms of service as far as is possible between the two Respondents. Most of the alterations which have been made either applicable to one council has been the result of correction of anomalies already existing between the two. The Court finds that the effective date of the agreement as far as Nairobi City Council employees are concerned should be 1st January 1970, but in the case of Mombasa Municipal Council employees the Court awards that their new salaries which incorporate the agreed salary increases including a housing element should be effective from 1st January 1969. All the other items for Mombasa Municipal Council should be effective from 1st January 1970.

The Court finds that there is ample justification for awarding back-dating to 1st January 1969, to employees of Mombasa Municipal Council because the 10 per cent salary increase was in fact agreed in 1966 but as the Ministry of Local Government had turned down the estimates it was not paid to them. On the other hand the Nairobi City Council employees benefited from new salary scales 5-24 as a result of Industrial Court award in Cause No 3/67 which has been referred to hereinabove effective from 1st May 1966.
