GAZETTE NOTICE NO. 6930

THE EAST AFRICAN COMMUNITY CUSTOMS MANAGEMENT
ACT, 2004

GUIDELINES FOR APPOINTMENT/OPERATING SPECIAL ECONOMIC
ZONES (SEZ)

PURSUANT to the provisions of section 12 of the East African Community Customs Management Act, 2004, the Commissioner of Customs and Border Control (herein referred to as the commissioner) prescribes the Guidelines set out hereto as the conditions to be fulfilled by an applicant to operate a Customs Area carrying on the business of a Special Economic Zone:

PART A-SEZ DEVELOPER

1. The developer shall make an application to the Chief Executive Officer (CEO) of Special Economic Zones Authority (SEZA) for the gazettelement and licensing of a Special Economic Zone (SEZ) otherwise known as Zone.

2. A site visit shall be made by the CEO of SEZA and Commissioner and/or their representatives to assess the suitability of a zone before gazettelement and licensing by the Cabinet Secretary for the Ministry responsible for SEZs and SEZA, respectively.

3. Once gazetted by the Ministry and licensed by SEZA, the developer shall make an application to the Commissioner for appointment as a Customs Area. The application shall be supported by the SEZ license, the Gazette Notice, layout map highlighting areas to be declared as Custom controlled, architectural drawings, co-ordinates, survey (satellite) map, Title or lease documents, Tax Compliance Certificate (TCC) for the company and all directors, current List of Directors (CR12) and any other document the Commissioner may deem necessary.

4. Once the SEZ has been appointed as a Customs Area and ready to commence development/ operations, the developer shall be issued with a facility code to enable them access the Customs Systems.

5. The developer shall submit to SEZA, and the Authority shall share the submission with the Commissioner, a development plan which shall include phased development where applicable, a detailed Master List, and the Bills of Quantities for the materials to be used in the development of the SEZ or the projected phase.

6. The developer shall execute a Particular Security Bond CB16 for every shipment to cover the construction materials which shall be retired upon confirmation that all the materials have been fully utilized for the particular project subject to extension after one year if the project is not yet completed.

7. The developer shall also execute a General Security Bond CB21 to cover the entire goods/ equipment/ materials within the Zone.

8. The developer shall ensure that the Zone has access to a National Highway and/or Railway line.

9. Upon completion of construction, whether phased or complete, the Developer shall ensure the following before SEZA and the Commissioner can allow operations:

- (a) A properly graveled and /or paved road or railway connection between the zone/developed area and the national highway or railway line.
- (b) A strong perimeter fence of at least 2.5 meters from the ground made from:
 - (i) Masonry/concrete blocks
 - (ii) Chain link
 - (iii) Steel mesh
 - (iv) Electric fence

(v) A combination of any of the above

(c) All designated entry and exit points at the Zone are manned at all times (during and after the specified hours of business) by armed government security or a reputable security service provider, own employed security personnel, and covered by CCTV cameras.

(d) Reasonable functional floodlights are installed to light up the Zone.

(e) A suitable one-stop-shop office accommodation including proper sanitation facilities for use by the Kenya Revenue Authority (KRA) officers and staff from other relevant Government Agencies as well as other authorized users of the facility.

(f) Computer facilities that are compatible with the KRA online/electronic systems and other suitable office equipment for use by the resident KRA officers. The offices or spaces shall include but not be limited to main office, entry and exit gate offices, CCTV surveillance room and parking space.

(g) A customs gatehouse in and out of the gazetted Customs Area to enhance customs operations.

(h) A customs warehouse of a minimum of 3000 square feet, with spacious office space, computer facilities, internet connectivity, CCTV cameras, strong room and washrooms.

(i) Weighbridge or such other suitable weighing scales or machines as appropriate.

10. The Commissioner shall hold the Developer liable for any non-compliance to the customs laws and regulations arising from the activities of his or her appointed Operator.

11. An SEZ Operator appointed by the Developer and licensed by SEZA shall assume the roles, responsibilities, and functions of the Developer.

12. A Zone will not qualify for gazettelement as a Customs Area if the Developer being a person or company have been found to engage in tax fraud activities or found to have outstanding tax liabilities. These conditions shall apply alongside any other condition that the Ministry responsible for SEZs may impose from time to time.

13. Upon application for de-gazettelement of the Zone by the Developer to SEZA and the due process being undertaken, the application will be forwarded to the Commissioner, to process, approve and notify SEZA after payment of taxes. The taxes shall cover input and materials used in the development of the Zone, raw materials, semi and finished products, plant, machinery, and any other item allowed into or used in the establishment of a Zone.

14. Companies already licensed by SEZA before this Gazette Notice shall make an application to the Commissioner in accordance with these guidelines before the Commissioner can approve their operations.

15. The Commissioner may review in consultation with SEZA and revise the above conditions from time to time.

PART B-SEZ ENTERPRISE

1. The Zone Enterprise shall make an application to SEZA for the licensing of an Enterprise.

2. Once licensed by SEZA, the Enterprise shall make an application to the Commissioner for issuance with a facility code to operate within a gazetted Customs Area. The following documents shall support the application; Zone license, Enterprise license, copy of gazette notice for the Customs Area where the Enterprises wants to locate, copy of the executed letter of offer for space or Lease document, current List of Directors (CR12), Tax Compliance Certificate for the company and all directors and any other document the Commissioner may deem necessary.

3. The Enterprise shall be issued with a facility code to enable them access the Customs Systems and execute the relevant Security Bonds; CB21 to cover the taxes and duties of the goods in the Enterprises warehouse and CB20 to cover movement of goods into and out of the Enterprises.

4. The Enterprise that wishes to carry out their own development shall submit to SEZA, and the Authority shall share the submission with the Commissioner, a development plan which shall include phased development where applicable, a detailed Master List, and the Bills of Quantities for the materials to be used in the development of the SEZ or the projected phase. The Enterprise shall execute a Particular Security Bond CB16 for every shipment to cover the construction materials which shall be retired upon confirmation that all the materials have been fully utilized for the particular project.

5. The Enterprise shall ensure the provision of adequate security for the goods and personnel in the facility and shall take all necessary measures to ensure their security. CCTV surveillance and a reputable security service provider shall keep the premises and means of access under permanent security.

6. The Enterprise shall ensure that the facility has suitable office accommodation, where necessary. The offices shall be furnished with suitable office equipment for use by the resident KRA officers and installed with computer facilities compatible and with access to the KRA online/electronic systems.

7. Once the operations commence, the Enterprise shall keep a record of all goods therein and shall at all times make available these records for examination by the Customs Officer.

8. The Enterprise shall maintain stock records of all receipts and removals including raw materials and finished products (where applicable) in a monthly returns register of finished and semi-finished goods and a raw materials register or any other approved manner.

9. The Enterprise shall submit quarterly returns on the stocks held to the Proper Officer, on or before the 15th day after the end of the quarter. Where, on inspection of the records and physical stocktaking, goods are found missing and the Enterprise cannot give a satisfactory explanation to the Proper Officer, the Enterprise shall be liable to taxes on the missing goods as well as penalties as will be determined by the Commissioner.

10. The Enterprise shall comply with the conditions and guidelines issued by the Commissioner including proper accounting for the goods, security checks, spot checks, stop and search of any person or vehicle entering or leaving the Enterprise.

11. Goods entering, leaving, or being transferred from one Enterprise to another shall be entered using the appropriate Customs entry forms.

12. Goods subject to customs control entering or leaving an Enterprise shall be transported in sealed vehicles except in the case of exceptional loads. 'Exceptional load' meaning one or more heavy or bulky objects which because of weight, size or nature cannot be carried normally in a closed or sealed vehicle or transport unit and which are readily identified to the satisfaction of the Customs Officer; or those goods authorized by the Commissioner.

13. Goods exported to the Customs Territory from the SEZ Enterprise shall be treated as if the goods were imported and shall be entered using the appropriate Customs entry forms and taxes due fully paid.

14. Disposal or destruction of wastes and residues resulting from a manufacturing process shall be carried out within the SEZ Enterprise under the supervision of the proper officer. Where proper facilities of disposal do not exist within the SEZ Enterprise, the wastes may be destroyed at the Customs Territory or another site on approval by the Proper Officer.

15. Upon the destruction of the wastes, the proper officer shall issue a Certificate of Destruction.

16. Where wastes and rejects are sold in the Customs territory, the movement of the wastes or rejects shall be subject to the normal importation procedures in the customs territory and the appropriate taxes paid.

17. In consultation with SEZA, The Commissioner may impose conditions on the activities carried out by an SEZ Enterprise, having regard to the nature of the goods concerned or the requirements of Customs control

18. A person shall not be qualified to operate as an SEZ Enterprise if that person, or where the applicant is a company, the company or its director(s) have been found to engage in tax fraud activities or found to have outstanding tax liabilities.

19. The SEZ Enterprise shall notify the Commissioner in writing of its intention to wind up.

20. The SEZ Enterprise intending to wind up shall be required to provide manual stock levels and estimated values of all assets including, but not limited to, raw materials, finished goods and machinery. The same will be confirmed and validated through the customs system.

21. The assets shall be disposed of in either of the following ways;

- (i) Entered for home use
- (ii) Re-Exported
- (iii) Transferred to another Zone Enterprise
- (iv) Any other way the Commissioner may approve.

22. Upon completion and accounting for all taxes and cancellation of relevant Security Bonds, the Commissioner will issue a clearance letter, which shall be presented to SEZA. The Zone Enterprise will be suspended in the system.

23. These conditions shall apply alongside any other condition that the Ministry responsible for SEZs may impose from time to time.

24. The Commissioner may review and revise the above conditions from time to time.

Dated the 9th June, 2022.

LILIAN NYAWANDA,
Commissioner, Customs and Border Control.

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED SOLAR PV POWER PLANT (14.5MWAC)
AND 3KM, 33 kV LONG TRANSMISSION LINE (TL) IN
BAMBURI LOCATION, KISAUNI SUB-COUNTY, MOMBASA
COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Momnai Energy Limited proposes to install 14.5MWac of PV power plant that will be evacuated through a 3km long, 33kV transmission line to an existing substation within the Bamburi Cement Plant, Mombasa and will be solely used by Bamburi Cement, in Bamburi Location, Kisauni Sub-county, Mombasa County. The Plant will be composed of a total of 46,683 solar PV modules covering an area of 101,500m² (approx. 10.15 Ha). It will make use of 145 inverters each rated at 100 KW (ac) that will convert the DC current to AC. A total of 7 x2.0 MVA (415 Volts/33KV) step up transformers that will step up the power to 33kV ready for transmission to the substation. The TL infrastructure will comprise powerline poles, cables and accessories.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impacts	Mitigation Measures
Hazardous waste on site	<ul style="list-style-type: none"> Carry out a risk assessment of the waste. Develop a Hazardous Waste Management Plan. Remove hazardous waste from site by a NEMA registered firm for hazardous waste disposal.
Change in land use	<ul style="list-style-type: none"> Construction activities should be restricted to the project footprint. Restoration of the land to original stage after project life cycle.
Loss of trees and vegetation	<ul style="list-style-type: none"> Tree planting activities should be enhanced in affected areas without interfering with the Solar Plant. Only cut down tree that must be cut.
Solid waste generation	<ul style="list-style-type: none"> Identify and pave waste collection points. Engage a NEMA approved waste disposal firm for waste management. Contractor to prepare a detailed waste management plan for the management of solid waste at the site. Provision of waste bins on site.

<i>Possible Impacts</i>	<i>Mitigation Measures</i>	<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Labour influx into the project area	<ul style="list-style-type: none"> The contractor to develop and implement a Labour Influx Management Plan and Workers' Camp and Accommodation Management Plans as part of C-ESMP; and Monitor all mitigation measures, including codes of conduct signed by all with physical presence on site, prioritization of local recruitment, induction of workers on GBV-SEA/SH, GRM for staff., avoid child and forced labour and enforce sub-contractor compliance of the same. 	Hazardous material spillage (hydraulic fluids, engine oils and other chemicals)	<ul style="list-style-type: none"> Store hazardous materials in a secured area for proper management. Provide the storage area with a paved surface with containment. Maintain a chain of custody form for each hazardous material for accountability.
Occupational health and safety	<ul style="list-style-type: none"> Provide condoms. Contractor to prepare a detailed Occupational Safety and Health Management Plan (OSHMP) that will provide all the required health and safety measures needed for the project activities. Workers to be provided with appropriate PPE. All workers to undergo health and safety induction before embarking on any work. Contractor to provide for regular toolbox talks on environmental protection and safety. Provide adequate and appropriately stocked First Aid kits for site workers. 	Social vices GBV, VAC and SEA	<ul style="list-style-type: none"> Contractor to develop and implement a GBV- SEA (Sexual Exploitation and Abuse and workplace Sexual Harassment (SH) Management Plan, (including plans for prevention, response and GRM). Contractor to ensure that a code of conduct is developed and signed by all with physical presence on site. Contractor to train and create awareness to local communities and workers on GBV. Contractor to ensure that the project GRM provides confidential reporting, safe and ethical documenting of GBV cases. Contractor to ensure that the project does not trigger or exacerbate other forms of GBV at the community level by reviewing specific project components that are known to heighten the GBV risk, and ensure effective and on-going community engagement and consultation, particularly with women and girls, among others. Contractor can refer to the World Bank's Good Practice Note for Addressing Gender-Based Violence in Investment Project Financing involving Major Civil Works (Sept 2018) for further guidance. Establish sensitization initiatives /programs targeting locals e.g. on HIV/AIDS prevention. Establish a grievance redress mechanism (GRM) for the project and to ensure effective management of emerging issues. Mainstream issues of gender, persons with disability into the overall project framework. Priorities employment of local labour where possible.
Community health and safety	<ul style="list-style-type: none"> Make protective measures like condoms available. An invasive species management programme should be developed by Bamburi's Lafarge Ecosystems experts for monitoring and control of the species. Waste disposal bins with secure lids should be provided at the site. Construction waste should be sorted and properly stored before proper disposal. Restore other areas in Bamburi where mining of cement construction materials has been decommissioned to help compensate for lost habitat to mammals. Clear vegetation from north to south sequentially in order to allow rodents etc to gradually migrate towards the nearby existing areas that are not active. Mount solar panels on raised pile, allowing room for vegetation growth below the panels. Where overhead transmission lines are used, attach bird flight diverters (typically flappers, balls or spirals) to transmission grounding wires to increase their visibility. Reptiles and amphibians are expected to move between habitats. The fence type should include under-passes that allow movement of crawling animals. Design for the project to consider including buffer zones between solar panel arrays. Mount solar above ground on post support spikes, rather than heavy foundations, maintaining habitats for both below and above-ground invertebrates. Use of white boarder or grids to break the polarized solar panel surfaces in order to reduce water invertebrate egg laying behaviours. THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED CONSTRUCTION OF A STUDENT HOSTEL IN PLOT L.R. NO. 209/8904 IN PARKLANDS, NAIROBI CITY COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Best View Holdings Limited, is proposing to construct a student hostel on plot L.R. No. 209/8904 in Parklands area, Nairobi City County. The proposed development will comprise of 258 bed capacity housing units and associated ancillary. The project is divided into two blocks that can be accessed independent of each other through elevators. The development will aim at providing habitable student housing infrastructure and/or increase the utility of the land in the area.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Dust emission	<ul style="list-style-type: none"> Watering all active construction areas as and when necessary to lay dust. Cover all trucks hauling soil, sand and other loose materials or require all trucks to maintain at least two feet of free board. Pave, apply water when necessary, or apply (non-toxic) soil stabilizers on all unpaved access roads, parking areas and staging areas at construction sites. Sweep daily (with physical sweepers) all paved access roads, parking areas and staging areas at construction sites. Cover construction site with hessian cloth/ scaffolding netting to contain the dust within the premises and plant trees around the site upon construction completion.
Noise	<ul style="list-style-type: none"> Use of noise suppressors or silencers on noisy equipment or noise shields i.e. corrugated iron sheet structures. Construction works should be carried out only during the specified time i.e. from say 0800hrs to 1700 hrs. During this time of the day a majority people are away and also the outside environment is noisy. Machineries should be maintained regularly to reduce noise resulting from friction. Workers should be provided with suitable Personal Protective Equipment (PPE) such as earmuffs when operating noisy machinery and when in noisy environment.

<i>Possible Impacts</i>	<i>Mitigation Measures</i>	<i>Possible Impacts</i>	<i>Mitigation Measures</i>
	<ul style="list-style-type: none"> Drivers delivering materials should avoid unnecessary honking of the trucks/vehicles. Provision of a bill board at the construction site/gate notifying of the construction activity and timings. Drivers to switch off vehicle engines while offloading materials. 		<ul style="list-style-type: none"> A First Aid Kit should be provided within the site and during construction phase. Adapt a suitable emergence response plan to manage occurrence of anticipated hazards during construction phase. Safety awareness may be gained through regular safety meetings, safety training or personal interest in safety and health.
Flora and fauna	<ul style="list-style-type: none"> Propose restoration programs early such as. Landscaping and rehabilitation proposals and their role in mitigating impacts for the affected areas. Manage the introduced vegetation on completion of the development to restore or improve the site. Landscaping as proposed in the designs should be done by specialists. 		<ul style="list-style-type: none"> The contractor should have Workmen's compensation cover. It should comply with Workmen's Compensation Act, as well as other ordinances, regulations and union agreements. Sanitary facilities should be provided; and maintain standard cleanliness of the facilities.
Soil erosion	<ul style="list-style-type: none"> Provide soil erosion control measures for instance, suppressing open surfaces with water or use of soil erosion control structures on soil-erosion prone areas within the site. Avoid unnecessary excavations and other soil disturbances that can predispose it to the agents of erosion. Avoid unnecessary movement of soil materials from the site. Control over excavation works especially during rainy/wet conditions. Re-surface open areas on completion of the project and introduce appropriate vegetation. 		<ul style="list-style-type: none"> Local individuals preparing food for the workers at the site should be controlled, monitored, and evaluated to ensure that food is hygienically prepared. Workers should always be sensitized on social issues such as drugs, alcohol, diseases such as HIV/AIDS and STIs. Ensure provision of safe drinking water for the workers on site.
Oil leaks and spills	<ul style="list-style-type: none"> All machinery should be keenly inspected not to leak oils on the ground. This can be ensured through regular maintenance. Maintenance should be carried out in a well-designed and protected area and where oils/grease is completely restrained from reaching the ground. Such areas should be covered to avoid storm from carrying away spilled oils into the soil/water systems. All oils/grease and materials should be stored in a site's store, in the contractor's yard. Proper disposal of oil handling materials such as drums, oily clothes/papers/materials, and cans. 	Insecurity	<ul style="list-style-type: none"> The project site should be enclosed using suitable walls to beef-up security and to control movement within the site. There should be guard houses at the gate. Security guards should always monitor the gate of the facility to keep away the intruders and to control movement within the site. Contractor should provide adequate security during the construction period when there are no works on the site. The guards stationed at the gates should document movements in and out of the site/property.
		Increased energy demand	<ul style="list-style-type: none"> Turn off machinery and equipment when not in use. Put off all lights immediately when not in use or are not needed. Use energy conserving electric lamps for general lighting. Make use of alternative source of energy such as solar power.
Solid waste	<ul style="list-style-type: none"> Efficient use of building material to reduce waste and recycling where possible. Engage the services of registered waste handlers to transport waste to designated disposal sites. Use of an integrated solid waste management system; through a hierarchy of options: source reduction, recycling, composting and reuse, will facilitate waste handling during occupation phase. Provision for dustbin cubicles. Segregation of waste at the source. To manage waste in line with the Environmental Management and Co-ordination (Waste Management) Regulations, 2006. 	Increased water demand	<ul style="list-style-type: none"> Drill a borehole to supply water for the development in both construction and occupation phase. The contractor should use water bowsers and tankers to bring in water for construction activities such as during periods of high-water demand. Install water conserving taps that turn-off automatically when water is not in use. Encourage water reuse/recycling during construction and occupation phases. Roof catchments of building blocks should be provided with rainwater harvesting systems (gutters, down pipes and water storage facilities) to enhance collection and storage of the resulting run-off. Such water can be used in watering flower gardens, general cleaning, etc.
Public health and safety	<ul style="list-style-type: none"> Workers will require using properly fitting personal protective equipment (PPE) to avoid injuries and illness. 		

Possible Impacts Mitigation Measures

Fire

- Provide notices and information signs to sensitize on means and needs to conserve water resource for instance Keep/Leave the Tap Closed.
- Hire competent and properly authorized electrical contractor to do the wiring and other electrical works.
- Install fire alarm system for entire project.
- Install smoke detectors in kitchens.
- Installation of firefighting equipment following County Fire requirements.
- Conduct regular firefighting drills within the site.
- Develop and adapt an (fire) emergency response plan for the project during construction and occupation stage.
- Ensure that all firefighting equipment are regularly maintained and serviced.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the National or county Governments. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly, Senate or county Assemblies.
- (4) *Act Supplement* contains Acts passed by the National Assembly, Senate or county Assemblies.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typed with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.
