JOHN AINSWORTH,

H. M.'s. Sub-Commissioner.

Nairobi, July 2nd, 1903.

UGANDA PROTECTORATE.

NOTICE.

CIRCULAR No. 13, 1903.

It is hereby notified that on ivory, rubber, and hides, imported into the Protectorate from the adjoining territories of German East Africa and the Congo Free State, and not declared for Transit, the duty chargeable on export will be reduced by the amount of the duty paid on import, on proof of payment of the import duty being furnished.

(Signed) J. HAYES SADLER,

H. M. Commissioner.

Entebbe, Uganda, 25th June, 1903.

Reuter's Telegrams.

JULY 1ST.—The Cape Assembly has ratified the Convention establishing the South Africa Customs Union. An amendment opposing the preferential treatment in Great Britain was rejected by the casting vote of the speaker.

During the Tariff debate in the House of Lords, Lord Lansdowne stated that it was impossible for the Government not to consider that the position which is threatening us is serious. He, however, declared that it was possible that the withdrawal of the "favoured nation treatment" mentioned in Reuter's of 17th June would be actually hinted at in an official document which would shortly be published.

Colonel A. N. Rochfort telegraphs from Biyaads on the 6th June that the Abyssinians after several forced marches surprised the Mad Mullah's Horse spearmen at Jeyd on the 31st May. After some slight resistance the Horsemen fled and the Mad Mullah's uncle together with a thousand spearmen are reported to have been killed and all their live stock including a thousand camels captured. In consequence of this reverse the Mad Mullah with his footmen has moved to Gumburm.

JULY 2ND.—The total Revenue for the Quarter ending 30th June amounts to £34,410,913 showing a decrease of £654,168 as compared with the corresponding quarter of last year.

Mail advices from Aden refer to a possible interval of four months which may take place before active operations in Somaliland are resumed and in the meantime plans for the future are being determined on.

Relations between Turkey and Bulgaria are again causing a certain amount of anxiety. Extreme resentment has been excited throughout Bulgaria both by the incessant persecution of the Bulgarian by Turkey's pretext for searches for arms and explosives, and by the concentration of a large force on the Bulgarian Frontier.

JULY 3RD.—The Bulgarian Government in a Circular Note issued to the Powers alleges that Turkey is thwarting its efforts in Bulgaria to pacify the Macedonians evidently seeking to provoke a catastrophe. It asks the Powers to take vigorous steps with the Government at Constantinople to prevent the concentration of Turkish Troops on the Bulgarian Frontier and to insist on their carrying out reforms.

Fifty-four members were present at a Unionist Meeting of Commoners who are opposed to the "protection scheme" yesterday Sir Michael Hicks-Beach declared that it was their duty to save the party from the crushing defeat which was inevitable if it committed food to taxation. Viscount Goschen who was also present said that these most dangerous fiscal proposals must be resisted.

Speaking in the House of Commons Mr. Arnold Forster announced that the Admiralty did not propose to renew the existing subsidies to Merchant Cruisers during the time of war.

Sir Michael Hicks-Beach has accepted the chairmanship of a Unionist Committee of Free Traders and proposed to appoint a paid Secretary and to establish a Central Office.

JULY 4TH.—The House of Lords have again discussed the Tariff question, Lord Rosebury demanding more information with regard to the Government enquiry, the existence of which he doubted. The Duke of Devonshire replying stated that all the members of the Government agreed with Mr. Chamberlain, that the time was ripe for investigation and that the Cabinet were at present conducting the enquiry.

The Porte has denied the Bulgarian allegations concerning the concentration of troops and says that the renewed activity on the part of the Revolutionaries necessitates the continuous moving of troops on the Frontier Districts. Bulgaria in replying to this denial charges the Porte with attempting to deceive the Public by false reports regarding the intentions of Bulgaria. The latter state is prohibiting the exportation of horses and mules.

King Edward replying to Peter Karageorgean's announcement of Accession to the Throne of Servia expressed his personal good will and good wishes for his reign. He hoped he would succeed in restoring Servia's good name on which the recent occurrences had left a regrettable stain.

Major-General Egerton and staff have left Aden for Berbera.

JULY 6TH.—The transports "Hardinge" and "Canning" have sailed from Bombay with the 27th Punjab Infantry on board for Somaliland. It is expected that the strongest Military measures will be adopted for the suppression of the Mad Mullah on the arrival of Major-General Egerton.

President Loubet arrives in England to-day. Extraordinary preparations have been made for his reception and the King has promised that it shall be one such as has never been given to the Head of a Foreign State in London before. The principal thoroughfares are elaborately decorated with garlands, bunting venetian masts and an abundance of flowers. Apart from the troops stationed in London two Brigades will be camped in Regents Park for lining the Streets and other duties.

Alarming reports are current with regard to the health of the Pope. It is stated that he is suffering from congestion of the lungs and although the Vatican Circles endeavour to minimize the danger, the latest news tends to show that his condition is grave. Any how, the tone of the present reports is distinctly more serious than any previous ones.

The illness of the Pope has been confirmed. This morning's Bulletin says that he is suffering from senile pulmonary hepatization, and that his condition in view of his great age is serious though not alarming. Prayers were offered in the churches for his recovery yesterday, but according to the afternoon report the illness tends to develop.

JULY 7TH.—His Holiness the Pope takes nourishment, and holding his own mind still clear realizes that the end is approaching. He says that he feels tranquil and conscious of having done his duty. King Edward and other Sovereigns have made enquiries.

The condition of His Holiness the Pope remains unchanged.

President Loubet accompanied by the Duke of Connaught from Dover, where there was a splendid Naval reception, arrived at Victoria Station in the afternoon. The King, the Prince of Wales, and other members of the Royal family were present at the Station. His Majesty and the President exchanged a prolonged and hearty handshake and drove together with an escort of Life-Guards to York House where M. Loubet resides during his stay. The huge crowds who were assembled at the Station and were thick along the line of route cheered with genuine heartiness. President Loubet on his arrival at York House told the King that he was delighted with his reception both at Dover and in London. The weather is sunny and breezy.

JULY 8TH.—Extreme Unction was administered to His Holiness the Pope late on Monday evening in the presence of the Papal Functionaries and Noble Guards. The Pope made his responses clearly and his intelligence was unimpaired.

At a Banquet at Buckingham Palace the King toasting M. Loubet said that his reception by all the classes of the population showed their really friendly sentiments towards France which was the nearest country to England and consequently ought to be England's best neighbour. President Loubet replying said that he was certain that the King's visit to France would have the happiest effects and would serve to tighten the relations of the two nations and thus guarantee the peace of the world.

Monday evening's Bulletin states that the Pope's weakness has increased slightly since the morning. The pulmonary conditions are unchanged but his breathing is somewhat rapid and the pulse weaker. His Holiness was perfectly conscious at 8-45 in the evening and the Sacristan heading a procession of Cardinals, Prelates and Papal functionaries carrying lighted candles proceeded to the bedchamber and administered the last Sacraments at the Pope's request.

JULY 9TH.—His Holiness the Pope is restless and drowsy and becomes ever weaker.

The general consensus of opinion is that President Loubet's visit has proved to be an unqualified success both socially and politically. The German Press affects indifference.

M. Loubet placed a wreath on the late Queen Victoria's tomb yesterday morning and visited Aldershot in the afternoon with the King reviewing 16,000 troops who were mostly old South Africans Commanded by General French. Lord Roberts and a brilliant staff were present.

M. Delcasse has had prolonged conversations with Lord Lansdowne and it is understood both were well satisfied. It was remarked that M. Delcasse and Mr. Chamberlain conversed absorbedly and uninterruptedly during the banquet at the French Embassy yesterday evening.

JULY 10TH.—At a Conference in Brussels the Sugar Manufacturers of Russia, Austria Hungary Germany, France, Belgium, and Holland resolved to restrict their exports to Great Britain with the object of maintaining the prices in Europe and raising English prices by one to two francs.

Wednesday evening's Bulletin states that the Pope's pulse is stronger and his general condition easier. His Holiness the Pope really appears to be rallying and the relief from the operation continues. The Doctors are amazed and conferred for a long time to-day with Cardinal Rampolla who is dealing with important affairs with perfect lucidness and giving orders concerning them.

President Loubet left London yesterday morning. His Majesty the King, the Prince of Wales, and a distinguished assemblage were present at the Station to say farewell despite the early hour of his departure. M. Loubet's farewell telegram to the King from Dover speaking of France as the friend of England expresses the key note of the whole visit.

The King replying to M. Loubet's telegram said :—

"I am deeply touched by the kind words in your telegrams and delighted that your visit has been a pleasurable one. My most ardent desire is that the *rapprochement* of the two countries may be durable."
LATER—After consultation with Professor Rossoni a Bulletin was issued at 5 o'clock yesterday evening which characterises the Pope's condition as grave. Pleuritic liquid is again accumulating, but nevertheless His Holiness afterwards conversed with his nephews for three quarters of an hour and held a reception of the Cardinals talking lucidly and in good spirits. Ecclesiastics profess surprise at the gravity of the Bulletins but no slackening in the preparations for the Conclave is taking place.

JULY 11TH.—The latest news regarding His Holiness the Pope is that the pleura was again successfully tapped yesterday morning by Professor Rossoni who however thinks that the end is not far distant.

The Bulgarian bands in Macedonia are reorganising under officers sent from Sofia. There are large concentrations on the hills, the Turks are also concentrating and hostilities appear to be imminent.

EAST AFRICA AGRICULTURAL AND HORTICULTURAL SOCIETY.

Great efforts are being made by the local Committee of the above Society to render the forthcoming Show a success. The Prize and Expenses Fund has now reached Rs. 700 but a considerably larger sum is required, the prizes alone amounting to Rs. 2,500. There are many ways however in which residents of Mombasa can help apart from making donations or becoming members and it is hoped that the public will cooperate with the Committee so as to ensure a creditable result.

The Secretary has power to reduce the entrance fees to a nominal sum in the case of *bona fide* native Exhibitors who are unable to pay the full amount, and ladies and gentlemen interested in the native poor are especially invited to bring forward deserving cases. It is suggested that there must be many who could show embroidered caps, mats, coir rope and similar articles if the fees are reduced.

The number of tables required for the show is very large and it would materially assist the Committee if those who can do so would lend some. Offers should be made either to the Hon. Secretary or to Mr. Baty.

Finally it is hoped that the Public will Exhibit freely without scrutinizing too closely the chances of securing a prize. It is in this way only that the numerous classes, comprizing almost every article of farm and garden produce, can be satisfactorily filled and the show made a credit to the town.
