ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED MAU EBURU FOREST ELECTRIC FENCE
PROJECT, NAIVASHA DISTRICT, NAKURU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Mau Eburu forest electric fence project, Naivasha district, Nakuru County.

The Proponent (Kenya Wildlife Service) is proposing to construct an electric fence around Mau Eburu forest in Naivasha district, Nakuru County.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Restricted access to resources	<ul style="list-style-type: none"> Need to sensitize and educate the adjacent community on alternative livelihoods. Initiate pilot projects such as alternative sources of energy e.g. biogas and farm forestry.
Loss of vegetation and	<ul style="list-style-type: none"> Restrict clearing only to fence

- soil erosion alignment section.
- Fence line to follow forest boundary as much as possible.
 - Human labour to be used during fence clearance.
 - Undertake backfilling of excavated sites after fence installation.
 - Return soil to site after post are erected.
 - Confine activity within the cleared area.
 - Apply the 3Rs (Reduce, Reuse, Recycle).
 - Encourage use of human labour instead of heavy machines.
 - Limit camp operations to a small area
 - Undertake planting of indigenous tree species on these areas.
- Solid waste generated during construction
- Dispose waste at licensed disposal sites.
 - Limit the number of people staying in the camp.
- Potential for fence vandalism
- Ensure KFS security rangers conduct regular patrols along the fence perimeter.
 - Train fence attendants to ensure that the fence is checked for effectiveness.
 - Maintain the fence cut line regularly.
 - Ensure regular replacement of broken down fence equipment.
 - Ensure that the energizer houses have security to mitigate theft of energizers and electric wires.
 - Sensitize the community to appreciate and participate in ensuring fence sustainability.
 - Support community enterprise projects.
 - Encourage community policing.
 - Intensify patrols in along the fence line.
 - Establish a fence maintenance Kitty.
 - Form a fence committee.
- Potential accidents emanating from electrical shocks
- Conduct awareness and sensitization programmes.
 - Install clearly labeled warning signs every 100 meters written 'HATARI' to the electric wires to caution of danger.
 - Five meters fence outline clearance should be maintained.
 - Farmers encouraged retaining their own farm fences and barriers.
- Dust pollution
- Control vehicle speeds to minimize dust.
 - Encourage use of serviceable vehicles.
- Occupational health and safety
- Always provide a well equipped First Aid Kit at the project site.
 - Carry out an induction course on safety precautions.

The full report of the proposed project is available for inspection during working hours at:

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED FILLING STATION ON PARCEL NO.MBEERE/KIRIMA/556, MBEERE SOUTH DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed filling station on parcel No. Mbeere/Kirima/556, Mbeere South district.

The Proponent (Genando Nyaga Mwaniki) of the proposed project is proposing to install 2No. Storage tanks, a fully automated filling plant, a canopy over pump island for (kerosene, diesel and petrol super tanks), loading and offloading area, Office block, washroom for both men and women, and a fire fighting system.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impact</i>	<i>Mitigation measures</i>
Loss of Vegetation	<ul style="list-style-type: none"> • Cut only those trees that are directly affected by the citing of the filling station
Air pollution through dust and gaseous emissions	<ul style="list-style-type: none"> • Periodic watering of the non-paved parts and the murrum roads of access during dry seasons • Control speed and operation of construction vehicles • Sensitize the construction workers on the environmental issues
Health and safety of the workers	<ul style="list-style-type: none"> • Provide cleaning drinking water • Provide protective gear for instance ear muffers, helmets and aprons • Provide sanitary facilities for the workers • Ensure all health and safety requirements e.g. fire exits and firefighting equipment are installed. • Workers should be given the appropriate protective attire (aprons, dustcoats). • Provide First aid kit • All wastes should be properly disposed at council designated sites • Employ cleaners to ensure general cleanliness of the premises • Workers should be trained on occupational health & safety and first Aid • Train staff on petroleum product handling
Waste management	<ul style="list-style-type: none"> • Garbage should be disposed off in accordance to the councils requirements • Provide refuse waste bins at strategic points. • Recommend suitable disposal methods if contracting a third party to dispose off waste.

- Encourage waste separation by the tenants in different coloured polythene bags.
- Disposal of all liquid waste into septic tanks
- Proper storage, handling and disposal of new oil and used oil and related wastes
- Maintaining plant and equipment to avoid leaks
- Noise pollution
 - Maintain plant equipment if present/used
 - Construction activities to be restricted to day time
 - Appropriate selection of machinery
- Road safety
 - Enforce speed limits for construction vehicles especially along road links leading to the site.
 - Provide billboards at the entrance to notify motorists about the development
- Air Emissions
 - Engines are switched off when waiting refueling.
 - Introduction of unleaded oils and low sulfur diesel as demand raises that has less harm to the environment
- Traffic Hazards.
 - Construction of 100 m long acceleration and deceleration lanes.
 - Clear marking of 'Exit' and 'Entry' points.
 - Discourage roadside parking along Embu-Kiritiri Road.
 - Provide adequate lighting at the entry and exit points.
 - Seek permission of access to Mombasa road from the Chief Engineer (Roads) before commencement of construction
- Pollution to surface water
 - Develop a storm water drainage system and linkage to natural drains.
 - Ensure efficiency of drainage structures through proper design and maintenance
 - Construct drains to standard specifications
 - Regular inspection of oil interceptors and drainage channels
- Increased energy Demand
 - Switch off electrical appliances when not in use
 - Provide for adequate natural lighting in facility to reduce consumption.
 - Use energy saving bulbs including those for street and security lights
 - Explore the use of solar energy
 - Provide standby generator for instances of power cuts
- Outbreak of fire
 - Underground fuel storage tanks fitted with leakage sensors
 - Install "No smoking" alert signs to avoid accidental ignition of fire.
 - Provision of three fire extinguishers
 - Place 'fire outbreak advisory' notices at strategic locations
 - Windows on the buildings should not be fitted with grills
 - Undertaking periodic fire drills for the

workers.

- Educating workers on fire prevention and fighting control tricks.
- Regular inspection of fire extinguishers by a registered agency
- Increased water demand
 - Recycling of wastewater where appropriate.
 - Install water taps which turn off automatically when water is not in use.
 - Provide on-site water storage tanks to harness rainwater and therefore reduce demand on tap water sources especially after the completion of the development.
 - Put up notices advising users on need to conserve water e.g 'turnoff after use.'

The full report of the proposed project is available for inspection during working hours at:

DRAFT STRATEGIC ENVIRONMENTAL ASSESSMENT (SEA) REPORT FOR THE UPPER TANA NATURAL RESOURCES MANAGEMENT PROJECT (UTaNRMP)

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 42 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received a draft Strategic Environmental Assessment (SEA) Report from the International Fund for Agricultural Development, Kenya County Office on Upper Tana Natural Resources Management Project (UTaNRMP) funded by the Government of Kenya and IFAD. The SEA findings are also expected to influence policy development in Natural Resource Management in Kenya.

The programme has the following key objectives;

1. To identify key linkages between rural poverty and the environment.
2. To provide key environmental and social opportunities and recommendations to influence IFAD support to UTaNRMP development efforts towards environmental sustainability and climate smart development.
3. To ensure the full consideration of alternative programme/project options including the do nothing option, at an early stage when there is still greater flexibility.
4. To identify environmental impacts and opportunities of mitigation measures into programme designs during the formulation stage of programmes and in the process enhance environmental management plans.

5. To ensure the cumulative, indirect or secondary impacts of diverse multiple activities are considered including their unintended consequences.
6. To obviate the needless reassessment of issues and impacts at project level where such issues could have been more effectively dealt with at a strategic level and offer time and cost savings.
7. To ensure environmental principles such as sustainability, polluter pays and the precautionary principle are integrated into the development, appraisal and selection of programme options.
8. To provide an early opportunity to check whether or not a proposal complies with national and international environmental policy and consequent legislative obligations.

The key findings of the detailed SEA are summarized below.

The SEA established that the Upper Tana Natural Resources Management Project (UTaNRMP) is relevant in the implementation of the current Plan, Programme and Policy (PPPs) in Environment and Natural Resources Management (ENRM). However, the programme can be strengthened in order to enhance the positive impacts to the environment and livelihoods. The following policy gaps and weaknesses were identified as areas in which the programme could contribute through lobbying, advocacy and capacity building by NSAs;

- Accelerating the approval of pending environment and natural resources policy and legal frameworks such as Draft Environment Policy, Draft Wetlands Policy, Draft ASALs Policy
- Formulation and implementation of important policies which are non-existent especially the following:
 - National Land Use Policy
 - National Charcoal Policy
 - National Groundwater Policy
 - National Green Energy Policy
 - Advocacy for the establishment of a Climate Mitigation Fund,
 - Advocacy for the development of county climate mitigation strategies

In addition, a number of gaps were identified in other on-going programmes. The SEA recommends that the International Fund for Agricultural Development Kenya County Office should get involved in these areas in order to improve the Environment and Natural Resources Management (ENRM) sector in Kenya. They include the following;

- Sustainable land management
- Management of invasive species
- Sustainable forestry including dry land forestry
- Integrated water resources management
- Sustainable agricultural development
- Domestication of Multilateral Environmental Agreements (MEAs)
- Promotion of Cleaner Development Mechanism (CDM) projects

The SEA also identified some areas that Upper Tana Natural Resources Management Project (UTaNRMP) can engage in as stipulated in the current National Plans and Strategies especially Vision 2030 under the Land Sector; Water Sector; Agriculture and Rural Development; Environment and Climate Change

The full DRAFT SEA report on the implementation of the Upper Tana Natural Resources Management Project (UTaNRMP) is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision

making process regarding the SEA. Comments can also be e-mailed to dgnema@nema.go.ke.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED CHURCH DEVELOPMENT AT LAVINGTON AREA IN NAIROBI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed church development at Lavington area, in Nairobi County.

The Proponent (The Redeemed Christian Church of God) is proposing to construct a church at Lavington area, in Nairobi County.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Structural demolition and soil disturbance	<ul style="list-style-type: none"> • Demolition of the existing structures within the site, transportation and dumping of the generated wastes as per the laid down rules and regulations of the Building Code. • Site excavation works to be planned such that a section is completed and rehabilitated while another section begins. • Apply soil erosion control measures such as leveling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil. • Excavation materials be loaded into trucks and transported to designated disposal sites. • Design and implement an appropriate landscaping programme to help in re-vegetation of part of the project area after construction. • Reuse of the top soil in landscaping.
Loss of environmental services	<ul style="list-style-type: none"> • Do not remove trees unnecessarily especially those unaffected by the construction works. • Replant trees on completion of construction. • Carry out landscaping of open spaces. • Participate in tree planting exercises outside whenever there is an opportunity.
Generation of Noise, Dust and Vibrations	<ul style="list-style-type: none"> • The noisy construction works will entirely be planned to be during day. • Noise control measures will be implemented at the site area if the noise levels exceed 85 dBA for a continuous 8 hours exposure. • Noise absorbers/acoustic designs to be installed within the church building. • Trees along the boundary lines, acting as noise buffers to be preserved. • Ensure that all generators and heavy duty equipment are well maintained, insulated or placed in enclosures to

	<ul style="list-style-type: none"> minimize surfeit noise levels and Sensitize the users/drivers against unnecessary hooting and raving of engines but switch them off when not in use. Sprinkle water on graded access routes whenever necessary to reduce dust generation by construction vehicles. Adhere to Noise Pollution and Vibration Control Regulations 2009 	<ul style="list-style-type: none"> Use approved, strong & durable materials sewer system connections Use suitable manhole covers Strictly abide by the provisions of the Environmental Management (Water Quality) Regulations Follow the prevailing NEMA regulations on waste collection, storage, transportation and disposal. Connect sewerage to the NWSC sewer system. Waste water management installations (e.g. Sewers) be isolated from public water pipes to avoid contamination of the later.
Storm water and other water wastes	<ul style="list-style-type: none"> Open drains connected to NCC storm water drains will be provided on site. Construction of water storage tanks to collect storm water for domestic uses. Provision of suitable facilities for wastewater disposal (such as a conservancy tank which can be exhausted) Ensure wastes are properly disposed of or re-used systematically 	<ul style="list-style-type: none"> Employ efficient use of and identify water saving schemes by regularly monitoring the utilization trends. Explore alternative sources of water in case of insufficiency Proper harnessing and storage of rain water techniques be employed to remedy the scarcity problems.
Occupational Health and Safety & Security Impacts	<ul style="list-style-type: none"> Engagement of competent personnel coupled with health and safety awareness campaigns among the workers. Provision of suitable and adequate personal protective equipments to the staff. Use of correct and well maintained tools, equipment and machinery. Provision and availability of fully stocked first aid kit at site Periodic safety inspections and an insurance policy to cover any injured worker in case of eventuality. Strict adherence to the provisions of OSHA, 2007. INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed used oil refinery/ recycling facility and an office block on plot L.R No. 209/9814, off falcon road, industrial area adjacent to Nairobi bins services Embakasi district, Nairobi County.

The Proponent (Zhongken Petrochemical Limited) of the proposed project is proposing to construct used oil recycling facility and an office block.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
-----------------	---------------------

Air pollution	<ul style="list-style-type: none"> • Sprinkling water where necessary, sensitize construction workers, and plant more vegetation to arrest any fugitive dust.
Noise pollution	<ul style="list-style-type: none"> • Sensitize drivers of construction machinery on effects of noise. • Avoid playing heavy music. • Implementation-on activities to be restricted to day time. • Workers in the vicinity of or involved in high levels noise to wear safety protective gear.
Oil pollution	<ul style="list-style-type: none"> • Proper storage handling of pure oil, and recycling of oil wastes. Maintain project tanks and equipment to avoid leaks.
Changes in hydrology /impeded drainage	<ul style="list-style-type: none"> • Proper installation of drainage structures .Install cascade to break the impact of water flowing in the drains. • Ensure efficiency of drainage structure through proper design and maintenance. • Provide gratings to the drainage channels.
Soil erosion	<ul style="list-style-type: none"> • Control Earthworks and compact loose soils. • Install drainage structure properly. • Ensure management of excavation activities. • Control activities especially during rainy conditions. • Provide soil erosion control and conservation structure where necessary. • Efficiency of erosion control measures, pave the site to avoid soil contamination. • Cement the proposed site to avoid underground water contamination
Water resources	<ul style="list-style-type: none"> • Adopt sound water conservation measures. • Recycle water at the implementation phase where possible. • Make use of roof catchments to ;provide water i.e. for general purpose, install automatic taps.
Road safety	<ul style="list-style-type: none"> • Limited speed along roads leading to site. • Provide bill boards at the site / entrance to notify and warn motorists.
Public health and occupational safety.	<ul style="list-style-type: none"> • Train construction workers on occupational health and safety. • Ensure staff are medically fit and regularly examined. • Provide full protective gear and Workmen's Compensation cover in addition to the right tools and operational instruction manuals. • Adopt sound waste management system to ensure proper solid waste disposal and collection facilities. • Adopt sound development keeping practices. • Ensure effective wastewater management. • Sensitize staff on environmental management. • Ensure good working condition of the sewerage system always and sanitary facilities should be clean and disinfected.

Vegetation	<ul style="list-style-type: none"> • Engage the services of qualified personnel and or ensure training. • Landscaping of the site and vegetation (trees and flouwers) in areas.
Fire safety and preparedness	<ul style="list-style-type: none"> • Conduct training on the fire fighting evacuation and emergency response. • Sensitize the residents on fire risks and conduct regular fire drills. • Adopt effective emergency response plans. • Maintain/service fire fighting machinery regularly. • Provide emergency numbers at strategic points.
Security	<ul style="list-style-type: none"> • Provide security guards and facilities durig the entire project cycle.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED PROJECT ORE PROCESSING AND TAILINGS STORAGE FACILITY, LOLGORIAN, TRANS MARA

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed project ore processing and tailings storage facility, Lolgorian, Trans mara.

The Proponent (Kilimapesa Gold {Pty} Ltd) of the proposed project is proposing to build an ore processing and tailings storage facility, Lolgorian, Trans mara.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Noise and vibration	<ul style="list-style-type: none"> • Reduction of noise levels to those stipulated as acceptable occupational exposure levels as per general EHS guidelines will be instituted. • The large earth moving equipment e.g. excavators, dozers, drills are equipped with sound proofing driver cabs. • Use of personal hearing protection gear will be ensured. • Exposure to vibration of the hand to arm type or those affecting whole body will be adequately controlled through the

	<p>selection and maintenance of equipment to meet occupational vibration exposure standards.</p> <ul style="list-style-type: none"> • Discussions with public to minimize nuisance. • Good maintenance of machinery. 		<p>damming.</p> <ul style="list-style-type: none"> • Collect and recycle water in seepage trenches. • Monitor water levels in adjacent land.
Ventilation hindrances	<ul style="list-style-type: none"> • Implement confined space entry programme as per GEHS guidelines. • Ensure surface ventilation units and auxiliary equipment are managed so as to eliminate hazards that may interfere with smooth ventilation equipment performance. • Ensure fast evacuation of miners where ventilation may accidentally fail. • Barricading all areas which are not ventilated. • Auxiliary exits or refuge chambers which are not more than 15 minutes from the online portal. • That the tunnels are of sufficient size to accommodate all persons working in the local vicinity. • The auxiliary chambers are equipped with independent connections to the surface for speedy access to air supply, water and first aid facilities. 	Occupational health and safety impacts	<ul style="list-style-type: none"> • On hand emergency response plans which will cover provision and making available the necessary emergency responses and rescue equipment. • Having a well trained workforce on specialized first trained response team. • Personnel training on worksite safety management to include an effective communication programme. • Training the workforce on the recognition and prevention of occupational hazards. • Installation of illumination systems in underground tunnels on mobile systems or rail carriages. • Installation of clear signage in hazardous or risky areas and at emergency areas. Use of contrast colouring on equipment/machinery including provision of reflective markings so as to enhance visibility will be implemented. • Use of moving equipment and machinery with improved operation sight lines will be adapted. • Issuing workers with high visibility clothing will be ensured. • Appropriate illumination in the immediate operating areas especially where there is turning or reversing of machinery or equipment will be carried out. • Installation of reflective markings on structures, traffic junctions where the potential for accidents is high will be addressed.
Loss of biodiversity	<ul style="list-style-type: none"> • Environmental conservation measures. • Adequate dismantling and disposal of abandoned equipments. • Consultation & accommodating of views on conservation. • Re-vegetation where necessary. • Rehabilitation where possible. • Landscaping and re-vegetation of dumping areas. • Reclamation of dumps. 		<ul style="list-style-type: none"> • Installation of safety barriers in high risk locations especially in transport corridors or roads will be ensured.
Waste generation	<ul style="list-style-type: none"> • Implement good disposal practices. • Treatment of poor quality water prior to discharge. • Use of manmade wetlands with densely planted reed beds to neutralize acidity and precipitate metals. • Use of waste as backfill in underground mines. • Recovery of effluent for recycling as process water. • Treatment of process effluent solutions (e.g. cyanide destruction) prior to release into tailings dams. • Maximize use of recycled process water. • Chemicals handling, storage and disposal procedures should be enhanced. • Design of closed circuit to recycle leaching solutions. • Treatment of waste solutions to breakdown cyanide. • Construction of septic tanks. • Construction of solid waste dump site. • Construction of an incinerator. 	Chemical hazards and safety impacts	<ul style="list-style-type: none"> • Adequate ventilation should be ensured. • Dust and fume extraction systems should be installed. • Eye wash and emergency shower systems should be installed. • Rapid treatment supplies should be close at hand for handling chemical poisoning if it should ever occur.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED GALANA OIL PETROL STATION, ON PLOT L.R. NO. EMBU MUNICIPALITY/1556, EMBU WEST DISTRICT, EMBU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Galana oil petrol station, on plot L.R. No. Embu Municipality/1556, Embu west district, Embu County.

The Proponent (Galana Oil Limited) of the proposed project is proposing to construct and operate a fuel service station and stock petroleum products and related services which will include petrol, diesel, kerosene, motor oils, service bay, tyres and tubes, compressed air, water, shop and restaurant

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Impact on excavated soils	<ul style="list-style-type: none"> • Service machines regularly and at designated point. • Control construction activities especially during rainy/wet conditions. • Landscaping. • Compact loose soil. • Dispose excavated loose properly.
Compromising safety and health of workers, neighbors pedestrians and visitors	<ul style="list-style-type: none"> • Construction of formwork to support structures. • Fence off the site • Display warning signs of construction work. • Construct scaffolds as per the standards with safe means of access to prevent falls and should be placed strategically. • Issue workers with safety appliances. • Ensure safe access to the site through culverts • Remove and cart away earth works as soon as it's generated and do not let it obstruct workers. • Maintain a regular inspection schedule with the Municipal Council engineers. • Provide first aid kit. • Avail pit latrine and bathing facilities. • Wet all dust generating activities. • The OSHA 2007 should be used.
Traffic and transport Impacts	<ul style="list-style-type: none"> • Construct acceleration and deceleration lanes • Deliver materials on need basis. • Ensure workers observe road safety. • The personnel on the ground should guide traffic movements. • Provide first aid facilities. • Damaged drainage should be repaired

Increased human activities-increased solid waste generation	<ul style="list-style-type: none"> and maintained after construction Hire a critical numbers of laborers. Place litterbins at the site. Source materials on need basis. Ensure that there are elaborate programs of waste removal frequently. Avail first aid facilities. Waste generated should be contained appropriately. Encourage segregation of waste.
Impact on air quality	<ul style="list-style-type: none"> Wet or cover dust generating activities. Provide PPE to the workers. Switch off vehicle engine and machinery when not in use. Dispose off solid waste generated in accordance instead of burning.
Noise and vibration levels	<ul style="list-style-type: none"> Use of manual labor. Noise assessment should be done. Use of PPE. Mark areas where hazardous noise is suspected. Work with machinery should be limited to day time only. Ensure all construction equipment are well maintained.
Damage to underground utility facilities	<ul style="list-style-type: none"> Consulting relevant companies for underground utilities. Liaise with Municipal Council for drainage maintenance. Protect underground PVC water pipes/replace exposed PVC pipes with GI pipes.
Impacts on surface water geology	<ul style="list-style-type: none"> Employ the most efficient labor/equipment mix. Use serviceable machinery and equipment. Service machinery and vehicles at designated areas. Avoiding use of machinery and instead employ manual labour where possible
Solid waste generation	<ul style="list-style-type: none"> Ensure all the waste, damaged and unused building materials are removed safely from the site and sold out, reused or disposed properly. Landscape the site and road reserve especially drainage system. Ensure general cleaning of the compound and disposal of solid wastes. Use oil receptors for containing waste oil. Provide litter bin for trash and solid wastes. Encourage segregation of waste. Ensure regular disposal of solid wastes. Waste water should be directed to septic tank. Liaise with waste handlers especially tyres recyclers to collect worn out tyres for disposal or retread. Service vehicles at the service bay to minimize oil spills. Recover waste and split oil into oil receptors.

- Emergency preparedness • Provide suitable fire extinguishers including ABC or CO2 and place them near probable source of ignition.
- Warning signs should be in place
 - Instruct workers on how to put off fires.
 - Store flammable substances in a well lit and labeled site.
 - Sources of fire should be restricted to all.
 - Smoking and disposal of cigarette waste should be limited to designated facilities and areas far from the fuel dispensing canopy.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Embu County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
