THE COUNTY GOVERNMENT OF TAITA TAVETA

TAITA TAVETA COUNTY PUBLIC SERVICE BOARD

SECOND ANNUAL REPORT SUBMITTED TO THE COUNTY ASSEMBLY OF
TAITA TAVETA DECEMBER, 2014

THE COUNTY PUBLIC SERVICE BOARD SECOND REPORT TO
THE COUNTY ASSEMBLY

Preamble

This report is prepared in accordance with the Constitution and section 59 (1) (d) and (f) and subsection (5) of section 59 of County Government Act No. 17 of 2012 which states that the County Public Service Board shall:

59 (1) (d) prepare regular reports for submission to the county assembly on the execution of the functions of the Board;

59 (1) (f) evaluate and report to the County Assembly on the extent to which the values and principles referred to in Articles 10 and 232 are complied with in the county public service;

It is a requirement under section 59 (5) (a) of the County Governments Act (2012) that each County Public Service Board must deliver a report to the respective County Assembly in the month of December each year. The scope of the report which is itemized in the section 59 (5) (b-f) (Annex I) is primarily on the extent to which the county is implementing the promotion and protection of the principles and values elicited in Articles 10 and 232 of the Constitution. This report meets all the requirements in section 59 sub section (5) of the county Government Act. However it is noted that subsection 6 of section 59 may not be complied with at this time because the County Government has not yet established the County Gazette in which this report is supposed to be published within seven (7) days after the report has been delivered to the County Assembly. This report shall be gazzeted in the *Kenya Gazette*.

Introduction

Taita Taveta County Public Service Board is under County Government of Taita Taveta. It is established under Article 235 of the constitution and section 57 of the County Government Act No. 17 of 2012. It is a board corporate with perpetual succession and capable of suing and being sued. It comprises of a Chairman and five Members of Board and a secretary as per section 58 of County Government Act. The Members of the board are at 50 per cent gender balance. In terms of regional balance we have:

Mwatate—1, Margaret Mwachanya (Mrs.).

Voi—1, Evelyn Shighi (Mrs.).

Wundanyi—2, Rhoda Mwashighadi (Mrs.) and Basil T. Ngoma.

Taveta—2, Isaac Makange and Stanely Kidondi.

The function and powers of County Public Serviced Board are stipulated in section 59 of County Governments Act.

The Board in the execution of its mandate operated in committees which were set out in the draft Bill and as guided by the Public Service Commission. The four committees namely are:

- Human Resource Planning, Recruitment and Selection, Capacity and Capability Development Committee, chaired by Margaret Mwachanya (Mrs.).
- Finance, Planning General Purpose and Staff Welfare, chaired by Everlne Shighi (Mrs.).
- Audit, Governance, ICT and Risk Management, chaired by Stanely Kidondi.
- Conditions of Service, Compliancy and Quality Assurance, chaired by Isaac Makange.

Section 59 subsection (5).

This report is delivered to the County Assembly in December;

STEPS TAKEN AND DECISIONS MADE BY THE BOARD

Recruitment of County Public Officers

The board received indents from the Executive and discussed the same in the Human Resource Committee.

Some of the adverts were released in the national newspapers as a requirement in section 66 of the County Government Act No. 17 of 2012 while others were not due to financial constraints but were placed in the County website. In exceptional cases where the Board felt that the target audience was at the grassroots and not likely to read the daily newspapers this was augmented with announcements and talk shows in some of the local radio stations with wide following in the County, the County website and religious institutions. For the senior positions where issues of integrity must come to play, candidates were asked to come with the necessary clearance from Ethics and Anti-Corruption Commission (EACC), Higher Education Loans Board KRA etc.

Positions like those of Chief Officers, Directors and Chief Finance Officer carry immense responsibility and should only be occupied by people of outstanding integrity.

The appointments were done on merit, professionalism, gender, minority, disability and regional balance.

The CPSB is mandated to ensure adequate staffing levels in the County Public Service. Based on Indents received the County Public Service Board advertised 66 positions for the following positions based on the received indents from various departments during the year 2014 (ANNEX 1).

Advertisements of positions to be widely publicized

The board faced budgetary challenges in which it was allocated only Two (2) Millions for advertisement and hence could not advertise all vacant posts in the newspapers as required by law. Treasury also issues a circular advising that all adverts be done through the County Government website due to huge debts in procurement adverts. Copies of every advert released have been forwarded to the Assembly with a request to the Clerk to produce copies for all the Members of the County Assembly. Copies of the adverts have been sent to the Sub County Administrators with instructions to ensure that they are displayed in all strategic areas in the County. Despite all these attempts to ensure that the positions are given adequate publicity, it has come to the notice of the Board that some people within the County have not seen some of the adverts. The board will look into more innovative methods of ensuring that the adverts get more publicity through other channels including the use of ICT.

Positions for which interviews have been done

Various positions were successfully filled while others are to be re-advertised because they did not attract qualified candidates (ANNEX 1).

Recruitment of ECDE Teachers

The process of recruiting teachers for Early Childhood Development and Education (ECDE) level in the County had started but was stopped by a court order. Interviews had been conducted except phase II shortlists.

Community Policing Authority

Twelve (12) names were forwarded to the Governor after competitive sourcing through interviews conducted by the Board. There was adequate gender and regional representation to meet the requirements of Article 232 of the Constitution. However when the names were forwarded for vetting to the County Assembly a petition was raised by the public and the exercise was stopped. The Assembly later requested for the whole process to start again.

Re-advertised Positions

The Board has to re-advertise 48 posts which were not filled due to lack of attracting qualified candidates.

Applicants who are not from the County

It is important to have the face of Kenya among the County employees as one way of achieving national unity. Applicants who are not from the County have been very few indeed but the board has recruited those who met the minimum requirements. This indeed is a key motivational force to ensure that the County should be able to generate its own manpower. It should be self-reliant in the event that there are skills gaps where local personnel are not available and Kenyans from other parts of the Country are not willing to take them. As one of the principles of the public service under Article 232, therefore, the Board has clearly done all it can to ensure that the members of all ethnic groups are reached. Quality of course cannot be compromised and affirmative action has got minimum benchmarks with the key requirement being one's ability to perform.

Qualifications which are seen to be too high by the residents

Complaints have been raised in various forums to the effect that the requirements set by the Board for various positions have been rather high pitched. It should be noted that requirements for a particular position are set by the consumer department. It is however important to recognize that a strong workforce can only be made up of individuals with the right competencies critical of which are academic capability, experience and skills. The County will not be doing itself any good if it recruits a KCSE graduate for a job which can only be done by a degree holder who has worked for a minimum of ten years. At the level of a Chief Officer for example, one is supposed to be very conversant with several government procedures in transacting business both in theory and practice. Someone who has just left college for example may not perform very well in a senior managerial position for which he will require skills in managing people, work, money, time, crises etc.

It is therefore standard practice for some positions to only be filled by individuals with some minimum levels of competence and experiences with specific minimum levels of academic qualifications.

It is noted that there are career progression structures in practically every sector including the private sector which define promotion opportunities on the basis of what one can do at a certain level before being promoted to the next. It is further acknowledged that the people of the county as tax payers are key stakeholders in available national positions which are normally advertised in the national papers. The citizens should be encouraged to apply for the national jobs too.

County Government website

The County Government website has been very important to the board. It can be used to provide information on what the government is doing, what it intends to do, why it has not done certain things and when it will do them. The advertisements which are costing the County Government some millions of shillings have been released through the website with only short advisories referring the reader to the website being released through the print media at minimal costs. The board had no option but to use the website when funds were not available.

Board to maintain records of applicants

Section 68 of the CGA states Subject to the relevant legislation, the County Public Service Board shall, for a specified period, maintain a record of all applications received in response to advertisements inviting applications and such record may be inspected by any person. The board has facilitated inspection of documents by the public.

Summary of Recruitment (ANNEX 3)

The Board has employed a total of 258 employees as indicated below:

It should be noted that:

- In terms of Gender, out of the 258 appointments, males are slightly more at 50.77% while females are at 49.22% which is over and above the a third gender rule

Critical Decisions Made by the Board

- Driving test for drivers—The board decided to include practical tests for drivers. This was done in collaboration with the mechanical Engineers from the Roads department.
- Inclusion of experts in the panels for short listing and interviews.
- Give offer letters for only one month.
- The board recommended LAPFUND pension Administrator for the county.
- NHIF was recommended for officer from Job group A–P
- Delegation of powers. The board has appointed authorized officers by delegating as per section 86 of the CGA.

Policy Documents

The board intends to develop the following policy documents.

- Disciplinary policy, codes of conduct and codes of ethics documents, training policy and recruitment policy.
- Develop and adhere to Citizens Service Delivery Charter.
- Develop recruitment and selection policy.
- Develop training and development policy.
- Domesticated and develop officer's code of ethics and integrity.
- Develop and implement work plans.

Strategic plan and Service Charter

The importance of having strategic plans to guide strategic operations of any organization is cannot be overemphasized. The County and the Board have developed the documents already. Using consultants for the exercise was an option but most departments used National Government officers. Alongside the strategic plans it is now standard practice to have citizens' service charters to indicate the services provided by the Government. These are documents which should be produced in the first half of 2015.

Performance Contract

It is now standard practice in Government and in many countries cross the world to account for the resources and time one has been allocated to document the achievements after a certain period. Performance contracting is not new in Kenya and it has been practised over a number of years. This is about the principle of accountability in the public service. Performance contracting in a simplified form to be designed by the County should be introduced.

County establishment and organization of Government

One great challenge the Board is facing is that of having a clear establishment for each department and cumulatively an establishment

for the County. Section 46 of the County Governments Act, 2012 states that "the County Executive Committee shall determine the organization of the county and its various departments". This will then lead on to each department coming up with its personnel requirements. The Board should be filling positions against clear establishments. Even if the County intends to use a consultant to do it, this should be done as a matter of urgency. The absorption of the casuals can only depend on an establishment of the vacant positions to be filled. The new challenge of absorbing staff carrying out duties under devolved functions with clear evidence that some departments may be having bloated staff needs to be resolved. The number of persons to be absorbed and the number to be surrendered for deployment to other needy counties under devolved functions will only be determined through an agreed establishment which will be guided by an acceptable budget ceilings on personal emoluments among other variables. To this end the Board has co-ordinated all departments to come up with organograms with optimal staffing levels of all carders. It has worked with CARPS and a final report will realize this goal.

Include specific recommendations that require to be implemented in the promotion and protection of the values and principles.

The board has issued a circular to all professional staff to ensure that they have the requisite practicing certificate from their professional bodies. These specific recommendations require to be implemented in the promotion and protection of the values and principles.

The board has not made any specific decisions on particulars of persons or public body who have violated the values and principles, including action taken or recommended against them. The county departments have developed their strategic plans as recommended earlier by the board.

The major impediment in the promotion of the values and principles is lack of unbundling of the values and principles. The board has written to transition Authority to assist in capacity building on the same.

Programmes the board is undertaking or has planned to undertake in the medium term towards the promotion of the values and principles.

The board has prepared its strategic plan. The strategic objective 1.2: To promote and enhance values and principles referred to in Articles 10 and 232 of Constitution of Kenya, the board strategy is to create awareness of the same to the public service. This will be done by developing manuals on Civic education in the county and Conduct awareness and sensitization programs on values and principles to County Public service officers. The board will also collaborate with other departments in the County Government in promotion of programs on values and principles to County Public Service officers and prepare and disseminate a code of conduct for the officers in the county.

Public Meetings

The County Public Service Board has conducted awareness campaigns in the four sub counties for the staff and the public.

Citizens' Satisfaction Surveys

It is standard practice to carry out surveys as a way of getting feedback from citizens on service delivery by the Government. Reputable firms should be sourced competitively to carry out citizen's satisfaction surveys as a way of identifying areas for improvement on service delivery.

STAFF MATTERS

Non Conducive Working Environment

One reason which can contribute to poor performance is the nature the environment one works in. The Board has worked in an environment which can be described as difficult. The board has been allocated offices at Maghamba building but the partitioning has not been completed hence some board members are sitting in the board room which does not have good furniture. The board does not have enough space for Registry. The Board must now recruit a records manager as it is increasingly becoming difficult to trace a document without the support of a records management officer as a result of the continuous.

The board also requested for work environment reports from all departments and gave advice on the basic facilities to be provided by the authorized officers.

The Government ought to source for funds to construct the County Headquarters so as to provide a good working environment for all for efficient and effective service delivery.

Discipline Cases

Very few cases of violation of the Articles have been brought to the notice of the board. The Board has therefore handled one case of indiscipline since taking office and investigation is going on.

County Government Human Resource Management and Development Advisory Committee (CGHRMDAC)

One of the principles listed in articles 10 and 232 is that of fairness. In a move to achieve this, the Board is recommended the establishment of the committee cited above so that some functions can be delegated as explained in the County Governments Act. The body deals with minor disciplinary issues for staff on the lower cadres. Only appeals are presented to the Board so that officers on these cadres have a chance for a second opinion. In disciplinary processes, an employee will appeal to the Board if he is not satisfied with the verdict of the committee. He will still have another opportunity to appeal to the Public Service Commission as given in section 77 of the County Governments Act 2012 if he is not satisfied with the decision of the Board. Promotions for some cadres at lower levels may also be delegated to the committee which will then forward recommendations for ratification by the Board if the process is deemed to be fair. This indeed is promoting the values of fairness and efficiency in handling staff discipline and promotions. This model borrows from the national level where Ministerial Human Resource Management Committees carry out some functions on delegation by the Public Service Commission.

Promotions

No officers have been promoted yet. The focus for the County government has been on recruiting essential staff to carry out duties for which there are no qualified personnel currently.

Many promotion letters have been received from National Government back dated as far as 2010 especially for health department. The board is verifying the data in collaboration with the department to ascertain which officers are still working in the County how to get funds for payment of salary arrears.

FUTURE PLANS

The board has the following future plans in the strategic plan

- (1) Establish procedures for handling disciplinary cases.
- (2) Establish complain and compliments reporting and feedback mechanisms.
- (3) Conduct awareness and sensitization programs on values and principles to County Public Service officers.
- (4) Provide strategic leadership and oversight on matters relating to county public service performance.
- (5) Carry out staff satisfaction surveys and address the feasible recommendations.
- (6) Recruiting and maintaining competent Public Service within the county.

- (9) Ensuring that qualified expertise are attracted and retained within the county by offering attractive remuneration.
- (10) Ensuring that principles and values are upheld by the staff within the county for the purpose of having professionalism in service delivery.
- (11) Policies on human resource management and development to guide several operations in the County staff within the national guidelines.

- (j) ICPSK on governance, integrity and investments on 26th to 27th September, 2014.

CHALLENGES

Constitutional gender balance requirements

This illustrates the gender imbalances among the applicants which at times make it difficult to achieve the required proportions. As much as it is a constitutional requirement therefore, it will not be possible to meet the requirement for each particular position. The Board will therefore look at the totality of all appointments and much as possible ensure that the gender requirement is met in the entirety of officers on senior grades and those on the lower grades.

Limited Budgetary Allocations

The Board has continuously faced financial challenges as a result of inadequate funding. Its unfortunate that the Board is never called by the Assembly to defend its budget in the Assembly. The Boards Budget has continuously been slashed without consultation which has negatively affected its operations. Among those hit hard has been advertisement. The Constitution provides that a job advert should appear in at least two dailies with wide national circulation. With such inadequacies, the Board has resulted to advertisements in the Website which has not been effective.

Political Interference

The legislative arm of the County, the (County Assembly) has failed to recognize the independence of the Board and its activities. It stopped recruitment processes for the Board at interview level for various medical positions which were to take place from 16th September 2014. Attempts by the Board to get copies of petitions as alleged in the letter bore no fruits. This left the board with no option but to restart the process where it had reached because no specific issues were raised on the legality of the process.

Mainstreaming of People with Special Needs

The Constitution provides for inclusiveness in employment. The Board has found it challenging to achieve this threshold since the said category does not respond to the adverts posted by the Board, in cases when they respond, they either do not attain the minimum qualification or the jobs are not favorable.

Specialized Competencies

In ability to attract and retain competitive staff especially in technical areas like medical positions is a real challenge in the county.

Board Secretariat.

The Board however appreciates the constraints the County is facing as it addresses the challenge of managing a huge pay roll. With this background therefore, the board will in the meantime use the services of the County Government legal officer.

Comprehensive Capacity Building Plan

With the new dispensation, it is essential to orient the county workforce on several new developments. It is for example important to give an orientation to all workers on Articles 10 and 232 of the constitution. It is important to educate the workforce on the transition from Local Government Act to the new County Governments Act, 2012. The board therefore requires adequate funds for capacity Building. Human capital with no capacity is a liability to a County.

The County should develop well planned capacity building programmes for its staff. It is the duty of a government to develop its staff so that service delivery improves. As a county it is time to come out with capacity gaps and approach local, national and international agencies like CIDA, DFID, GIZ, JICA which Fund training to start supporting the County to build capacity for its staff.

Conclusion

The County Public Service Board is extremely grateful for the support it has received from the office of the Governor in undertaking its mandate. It has indeed been an extremely cordial working relationship. The Board is also grateful for the support it has received from the County Assembly. The forums for which the Board has been invited have been cordial and specifically they have resulted in fruitful consultations being made. The Board reiterates its resolve to continue offering services to the County within its mandate and as per the oath the members took. The Board reiterates its tenacity to deliver services to the people of the County transparently, impartially, objectively and professionally.

Promotion of the National values and Principles of Governance in the Public Service (Article 10 and 232 of the Kenya Constitution 2010).

The Murang'a County Public Service Board was constituted on 16th August, 2013 and since then, in accordance with its mandate and powers; has undertaken the following successfully;

In readiness to offer effective and efficient services including compliance with the national values and principles of governance, the Murang'a county public service board made decisions to recruit for various cadres during the year ended 31st December 2014 as shown in Table 1.

The Board consists of the following Committees:

- Promotion of Values & Principles Committee
- Recruitment and Restructuring Committee
- Performance Management Committee
- Training & Development Committee
- Industrial Relations and Disciplinary Committee

The Board in the course of executing its mandate undertook the following:

- (a) Utilized the resources available to the board with efficiency, effectiveness, transparency and accountability.
- (b) The Board has endeavoured to have a good working relationship with two arms of Government.
- (c) Mainstreamed values and principles in performance management by including it in the performance management appraisal tool.
- (d) The Board has also rolled out the wealth declaration forms to all county employees for filling and submission to the public service Board.

Upcoming and On-going Programmes

- (a) The Board intends to develop and launch a strategic plan to guide its future activities.
- (b) The board will in the second half of year 2014/2015 visit all the (8) sub counties of Murang'a with a view to;
 - Evaluate and report the extent to which the National values and principles referred to in articles 10 and 232 of the Constitution are complied with in the County Public Service.
 - Enforce steps taken and decisions made by the board vis a vis compliance to the National Values and Principles.
 - To promote the values and principles within the County.
 - To investigate and act on any impediments in the promotion of the values and principles and
 - Formulate realistic medium term plans towards the promotion and compliance to the values and principles.

Impediments faced by the Board in the Promotion of the National Values and Principles of Governance and Public Service.

In the performance of its function of promotion of national values and principles of governance in the public service, the board has experienced the following challenges:

Gender Balance

The Board has faced challenges in attaining gender balance due to;

- Male and female candidates excelling in different professional skills and capacities.
- Technical professions such as accounts, engineering and driving which attracts fewer female applicants than their male counterparts.

In conclusion the Board envisages that gender balance will be attained gradually. However, the Board continues to encourage female applicants in the advertisements for vacancies.

Residence by Marriage Vis-A-Vis Birth

Capturing data of applicants' especially female applicants during data entry and short listing per Sub-county and wards creates confusion. At short listing, a candidate's identification documents may indicate that she is from a particular County, whereas at the time of interview she clarifies that she is from a different County. Such claims require proof such as Affidavit of Marriage Certificate which candidates normally lack.

Such confusion affects the allocation of appointments and balancing in the wards and Sub counties.

Regional Balancing

Whereas the board would want to uphold the requirement of regional balancing within the County, there have been challenges when it comes to meeting minimum requirements as per the advertised vacancies across the county.

Sometimes the Board finds out that during the shortlisting, there are no applicants from some regions in the Country.

The board supplements adverts on print media with posters within the County so as to reach a wider audience.

Diverse Communities

Murang'a County is largely not cosmopolitan. People from other ethnic communities are present in the county mostly as public servants, students or members of the minority business community and applicants for various vacancies from diverse communities are few.

The law require that the Dominant Ethnic Group be 70 percent and non- Dominant Ethnic Group be 30 per cent according to section 55(1) (e) of the County Governments Act, No.17 of 2012. However, certain vacancies do not attract applicants from outside the Dominant Ethnic Group. The Board has strived to ensure this through advertisements that persons from other communities apply by indicating at all times that Murang'a County is an equal opportunity employer.

Political Environment

The Board recognizes the fact that it operates with in a political environment amongst others. This therefore can affect certain aspects of recruitments and selection exercise and by extension the board's activities. The board however strives to remain non-political while at the same time encourage consultation and consensus building in the discharge of its duties and delivering on its mandate.

Inadequate Infrastructure

Inadequate infrastructure is still a challenge in Murang'a County as a whole and therefore by extension affects the Board's intention to attract competitive candidates and qualified personnel in its Public Service. Some of the neighboring Counties are better off when it comes to infrastructure development thereby attracting applicants due to the same. The Board has noted that even some successful candidates are still compelled to seek residence in other Counties due to this challenge particularly when it comes to educational institutions, residential houses, ICT, medical facilities and road networks.

Persons with Disability

Advertised positions have so far attracted few people living with disabilities. The Board is currently seeking ways and means of capturing data on disabilities among the applicants; such initiatives may include requirements that enable the board to ascertain as at the time of short listing, information that can capture Persons Living with Disability.

Inadequate Funding

This has posed a challenge in the efficient delivery of services.

Recommendations to be implemented in the Promotion of Values and Principles

The board recommends the following be applied in order to make the national values and principles of governance and of public service

be adhered to and assist in having an efficient and effective County Public Service.

- The County Government place Suggestions Boxes in all offices to ensure transparency in its' operations.
- The Board needs more training and capacity building programs in the area of good governance.
- The Board be facilitated in terms of resource to enable it undertake its mandate.

Conclusion

The Board would wish to conclude by assuring all stakeholders that it is committed to ensuring that the National Values and Principles of Governance in the Public Service are adhered to: -

- Undertaking a vigorous campaign to promote them among the public officers and the general public.
- Formulating effective measures to promote the values and principles.
- Formulating and implementing programs intended to inculcate in the county public officers the duty to uphold the values and principles.
- Advising the County Government on its obligation under international treaties and conventions on good governance in the County Public Service.
- Visiting any county public office or body with a view to assessing and inspecting the status of compliance with the values and principles.
- Prompt investigation of any violation of values and principles and recommending to the relevant authorities for the necessary action to be taken.
- Cooperating with other institutions working in the field of good governance in the Public Service.

THE COUNTY GOVERNMENTS ACT

(No. 17 of 2012)

BUSIA COUNTY GOVERNMENT

BUSIA COUNTY PUBLIC SERVICE BOARD

Executive Summary

This report provides an account of performance progress attained by the County Public Service Board of the County Government of Busia in 2013/14 financial year. The County Public Service Board is established under Section 57 of the County Governments Act 2012 to establish and abolish offices in the county public service, appoint persons to hold or act in offices in the county public service including the Boards of Cities and Urban areas and exercise disciplinary control over human resource in the county public service. In addition, the County Public Service Board is required to prepare regular reports and submit the same to the County Assembly, as well as evaluate and report to the County Assembly the extent to which national values and principles expressed in Articles 10 and 232 of the Constitution are complied with in the public service. Moreover, the County Public Service Board is required to facilitate the development of coherent integrated human resource planning, make recommendations to the Salaries and Remuneration Commission on behalf of the County Government on, remuneration, pension and gratuities of county public service employees.

During the current reporting period, the Board undertook several approaches to achieve its mandate that was accomplished through regular fortnightly Board sittings, special meetings and ad hoc meetings. Key accomplishments included staff recruitment to fill the vacant positions of Chief Officers, Sub-County Administrators and Ward Administrators. It is important to emphasize that recruitment to fill the said positions was carried out transparently and competitively, taking into account to the extent possible, ethnic and gender diversity as well as consideration for people with disabilities. At the same time, the Board acting on departmental staff needs assessment, presided over the competitive recruitment and eventual appointment of various cadres of staff in the county public service to provide essential operational service at the County Treasury, Supply Chain Management Office, Payroll Office and ICT Office among others.

The Board also conducted suitability interviews that culminated in consideration for regularization of appointment for 10 medical doctors, two pharmacists and 172 Economic Stimulus Programme staff in the Departments of Health and Sanitation and of Agriculture and Animal Resource. Similar suitability interviews were conducted by the Board for staff that originated from the defunct local authorities with a view to placing such staff appropriately based on their competencies, skills and qualification, a process is soon expected to be completed.

More recently, and guided by Section 66 of the County Governments Act 2012, the Board advertised for the Position of County Secretary, shortlisted and interviewed qualified candidates through a process that is expected to be completed soon. Similarly the Board advertised for ninety three (93) positions of different cadres from the Department of Health and Sanitation whose shortlisting is nearing completion.

During the current reporting period, the Board facilitated staff training targeted at induction of newly recruitment staff and also on a sensitization of staff on national values, principles of public service. In particular, the Board held a workshop to sensitize senior staff including County Executive Committee Members, Chief Officers and the Public Service Board Members on obligations of the County to International Treaties and Conventions. This was in line with Section 59 (1) (e) and (4) (d) of the County Governments Act, 2012. The sensitization provided a benchmark for the Board to monitor and evaluate compliance on the National Values and principles of public service in every department in future.

Finally, the Board was able to develop a number of guideline documents to standardize and streamline human resource management and training operations. The Human Resource Development and Training Guidelines and a document on Functions, Organization Structure and Staffing for the County Government of Busia, serve to illustrate this point. In addition, the Board prepared the Draft Strategic Plan which when finalized, will form the basis of guiding the Board's activities over the next five years thereby ensuring that the County

Public Service moves towards a cohesive strategic direction. The Board through this Strategic Plan intends to inculcate national values, institutional capacity and professionalism for improved citizen-centred service delivery by ensuring a vibrant and productive work force that is able to spur economic growth in the County.

The Article 1 of the Constitution of Kenya, 2010, provides that all sovereign power in Kenya belongs to the people of Kenya and is exercised at two levels, the national and county levels. Office of the County Secretary

Section 56 of the County Governments Act provides that every county shall, in accordance with Article 235 (1) of the Constitution, have its own public service headed by the County Secretary. The office of the County Secretary is established under section 44(1) of the County Governments Act in respect of each county. The functions of this office are set out in section 44(3) of the Act and are central to the effective and efficient functioning of a county government. The County Secretary is appointed in accordance with section 44(2) of the Act.

Since the constitution of Busia County Government following the general elections of 4th of March 2013, Busia County did not have a substantive holder of the office of County Secretary. An Interim Secretary held the office pending appointment of a substantive holder thereof.

By a notice published in The Standard and The Daily Nation Newspapers of 23rd and 24th 2013 respectively, CPSB invited applications for position to the office of County Secretary for Busia County. Applications were received and, on evaluation, were short-listed. Of the short-listed applicants, only one was interviewed and H.E. the Governor nominated and submitted her name to the County Assembly for approval before appointment as required by law.

Unfortunately, this nomination raised quite some controversy both within and outside the County Assembly. Nevertheless, the County Assembly approved the nomination and H.E. the Governor duly appointed her to the office. However, hardly a month after the appointment, the County Secretary tendered her resignation and it became necessary to re-start the process of recruitment and appointment of the County Secretary.

By a notice published in the Standard Newspaper of 15th October 2014, CPSB advertised a vacancy in the office of the County Secretary and invited applications there-for, which were received and shortlisted by CPSB. By notices published in the Standard and the Star newspapers of 10th and 11th November 2014 respectively, the short-listed applicants were invited to attend interviews on 25th November 2014.

CPSB has prepared its report on the interviews results for forwarding it to H.E. the Governor for further action as he may deem necessary.

Other Appointments

Further, CPSB acting on departmental staff needs presided over the competitive recruitment and eventual appointment of various cadres of staff in the county public service to provide essential operational service at the County Treasury, Supply Chain Management Office, Payroll Office and ICT Office among others during the year under review. The table below shows the distribution of appointees by gender, ethnicity, youth and disability;

The Department of Health and Sanitation had 155 of such public officers to be interviewed while Agriculture and Animal Resources had seventeen (17) them.

DOCUMENTS DEVELOPED

During this reporting period, the Board engaged in development of important documents to facilitate its operations which includes amongst other things the need to (1) Align the HR Management and to aspirations of Busia County Integrated Development Plan; (2) Seek value and competence-based, results-oriented and citizen-centred approach in formulation of policies, process and management systems; (3) Develop and sustain a professional brand, image and public relations strategy; and (4) Facilitate transformative leadership, values and ethics in empowering leaders/ decision makers through provision of high level policy advisory services and coaching to County leadership and staff with managerial and supervisory positions, Towards this end, the following document were prepared:

- County Public Service Board Annual Work plan 2014/2015 financial year to guide the board on its operations during the year under review.

- Draft Strategic Plan for the County Public Service.
- Draft Citizens Service Charter to inform the citizenry of Busia county mandate of the Board, what citizenry should expect from the board and what the board expects from them.
- Strategic Plan for the County Public Service.

The County Public Service Board of Busia realizes that without a clearly defined and articulated strategy, success in service delivery may be a pipe dream and could inadvertently drive the fledgling County Government of Busia on costly path to failure. Thus the Board has noted the need to develop a shared vision and strategy on how to meet its mandate and provide institutional leadership necessary for improved service delivery.

To this end, the Board is about to finalize a Strategic Plan which forms the basis of guiding the Board's activities over the next five years thereby ensuring that the County Public Service moves towards a cohesive strategic direction. The Board through this Strategic Plan intends to inculcate national values, institutional capacity and professionalism for improved citizen-centred service delivery by ensuring a vibrant and productive work force that is able to spur economic growth in the County.

- Low response to advertisement from people living with disability.
- The Board noted some irregularities in the applications of procedures that have been addressed by invoking Section 75 of the County Government Act.
- Motor vehicles for the Board not yet purchased.
- Secretariat for the Board not yet recruited.

CONCLUSION

The County Public Service Board would have wished to undertake more activities especially sensitization of staff on the national values and principles of public service but is constrained by budgetary allocations that are not sufficient.

RECOMMENDATIONS AND THE WAY FORWARD

- The County Assembly to fast-track the passage of Village Administrators for purposes of their recruitment.
- Allow funding for staffing of the County Public Service secretariat for the Board to discharge its mandate effectively and efficiently.
- Improve budgetary allocation for purposes of training and sensitizing public officers on the national values and principles of public service.
