ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED PIPWAYS LTD RESIDENTIAL FLATS PROJECT ON PLOT NO. L.R. 9042/128, EMBAKASI, NAIROBI EAST DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) regulations, the National Environmental Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed residential flats project.

The proposed project shall have five storey blocks with 210 units of 3 bedrooms, lounge, dining, kitchen and balcony each. The project shall also have security walls all round, driveways, green areas with appropriate landscaping and a car park with a capacity of 213 vehicles for the occupants and visitors.

The project area is situated on plot number L.R. no. 9042/128, Embakasi, Nairobi East district. The plot is approximately 1 Km. off the main Embakasi Road. It is in the midst of a developed area and in the neighbourhood of Nyayo Highrise Embakasi.

The following are the anticipated impacts and proposed mitigation measures

Possible impacts	Mitigation measures
General occupational health and safety	<ul style="list-style-type: none"> Provision of PPEs to workers A permanent security fence already in place Erect scaffoldings and dust screens Install safety signs Document and display on site emergency procedures Create health and safety awareness Switch of equipment not in use Carry out activities with high noise and vibration levels during the day Water the ground and access roads adequately on a need basis and ensure no dust is generated at any time. Develop and implement health and safety plan Provide on sit first aid capacity Provision of first aid facilities
Inappropriate solid domestic waste disposal	

Possible impacts Mitigation measures

	<ul style="list-style-type: none"> • Ensure only authorized persons shall use the risky equipment • Provide onsite waste bins • Ensure waste is collected daily by a registered waste handler • Connect project to city council sewerage system and ensure all ablution waste to be channeled into the system
Storm water drainage	<ul style="list-style-type: none"> • Authority to improve the storm water drainage in the neighbourhood has already been given by the city council. • Construct both interior and exterior drainage systems and ensure only storm water flows. • Clear drainages at least ones every 6 months
Inappropriate sanitary waste disposal	<ul style="list-style-type: none"> • Waste handlers shall provide sanitary bags ones a week • Sanitary waste shall be collected, stored and disposed off separately.
Failure to use personal protective gear	<ul style="list-style-type: none"> • Provision of protective gear and ensure used at all appropriate times
Fire risk and other emergencies	<ul style="list-style-type: none"> • Install an alarm system that is accessible on each floor and test condition every 2 months • Provide adequate fire extinguishers and hose reels • Ensure exit routes are clear all the time • Establish and train a formal safety team • Conduct emergency preparedness verification every 6 months
Poor construction quality	<ul style="list-style-type: none"> • Confirm the quality of all materials before use. • Conduct scheduled site inspection visits and maintain records • Facilitate statutory site visits as required.
Air transport related safety concerns	<ul style="list-style-type: none"> • Facilitate site inspection by Kenya Civil Aviation Authority and get approval
Compliance to environmental and other requirements	<ul style="list-style-type: none"> • Conduct annual environmental self audits and submit report to NEMA

The full report of the proposed project is available for inspection during working hours at:

- Director-General, National Environment Management Authority, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.
- Provincial Director of Environment, Nairobi Province.
- District Environment Officer, Embakasi.

NEMA invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

PROPOSED NORTHERN CORRIDOR TRANSPORT IMPROVEMENT PROJECT (NCTIP) OF THE BEST ALTERNATIVE ROUTE LINKING LAKESIDE NORTHERN TANZANIA TO NAROK TOWN

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) regulations, the National Environmental Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed best alternative route linking lakeside Northern Tanzania to Narok town.

The best alternative route has been identified for the proposed Best Alternative route linking lakeside Northern Tanzania to Narok Town. The assessment process examined the corridor through two main alternatives (Alternative 1 & 2).

- Alternative 1: 134km traversing from Kaboson – Kilgoris – Osinoni – Kehancha.
- Alternative 2: 131km and to pass from Kaboson – Muntekur – Lolgorien – Kehancha.

Alternative 1 has been identified as the best alternative route. The proposed main trunk road is being designed for class “A” road, the highest in Kenya since it is an international connection. It is generally a 2x2 carriageway with an average right of (Row) of 60m, apart from section that call for climbing lanes or off side parking spaces. In addition to the trunk road, the project will also comprise of link roads that are being designed as they are, i.e. class C for Kabason – Kiongon (C14) Kilgoris – Lorgorian (C17), Lorgorian – Kenhacha – Suna – Muhuru Bay (C13). Class “D” is being provided for Kilgoris – Awendo (D203), and Awendo – Kenhacha (D 202). Other classified earth road sections that constitute the main trunk road will automatically be upgraded to class “A” road.

Possible impacts	Mitigation measures
Siltation of surface water sources, dust emissions, soil erosion	<ul style="list-style-type: none"> • Close supervisory mechanism for excavations near sources of water. • Watering the road surfaces and diversions at all times during construction.
Water pollution	<ul style="list-style-type: none"> • Provide safe abstraction points for construction water away from the river banks, • Ensure no interference with wildlife and livestock watering areas • Avoid abstractions from or near sensitive community water points
Waste management	<ul style="list-style-type: none"> • Ensure acceptable sanitation at construction workmen operations camp sites, • Develop procedures for construction waste disposal and final destinations, • Ensure approved spoil dumping practices and destinations.
Noise and vibrations, Smoke and hydrocarbon residual emissions	<ul style="list-style-type: none"> • Information flow to the communities on unavoidable aerial emissions, noise and vibrations • Keep inevitable dusty and/or emissions as short as possible.
Possible impacts	Mitigation measures
Route clearing	<ul style="list-style-type: none"> • Minimise disruption of vegetated zones and livestock/wildlife zones.

- Establish a programme for re-vegetation of the road reserve and material sites.
- Confine on existing road reserve to the extent possible.
- Integrate micro-hydrology trends and design to the area with natural drainage,
- Integrate soil erosion control in the construction work (check dams and silt trap measures on the higher road reserve sections),
- Consider involving the landowners on maintenance and clearing of culverts and drains near their farms,
- Maintain runoff cascades and silt check dams in the higher side of road reserve.
- Disseminate information and awareness on health and safety to all workers and neighboring community.
- Liaise with KWS on safety from wildlife and poachers
- All workers be provided with PPEs and enforce application.
- Maintain all provisions for road safety including signage, information, speed bumps and condition of the road,
- Ensure road reserve is identified and respected by all respective land owners,
- Institute necessary clean-up regulation for polluting spills within the road reserve,
- Comply to parks rules (if the road traverses the parks)
- Carry out land survey of the route to establish extent of expansion or realignment,
- Identify affected social and economic facilities along the route,
- Undertake comprehensive Resettlement Action Plan for all victims of the project.
- Enhance valuation of affected landed property.
- Maintain adequate signage and information furniture specific to wildlife safety along the affected sections,
- Investigate suitable and safe speed reduction devises along the same sections
- Direct larger wildlife species to specific crossings into the dispersal areas. An electric fence could be used to achieve this plan
- Ensure speed limit within wildlife activity zones (e.g. Muntekuar-Lorgoriansection)

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, National Environment Management Authority, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.
- (c) Provincial Director of Environment, Rift Valley Province.

NEMA invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this

notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED FUEL STATION, GUEST HOUSE AND SHOPS IN MUTARAKWA LIMURU ON PLOT NO. LIM/KAM/817/8

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) regulations, the National Environmental Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed fuel station, guest house and shops.

The proposed development will contain the following main facilities: - two fuel tanks, fuel pumps, office, a hotel, shops, guest rooms and an ablution block among other facilities.

The proposed project site will be at Mutarakwa along Mai Mahiu/Narok Road about 3km off the Nairobi-Naivasha highway on plot No. LIM/KAM/817/8.

The following are the anticipated impacts and proposed mitigation measures

Possible impacts	Mitigation measures
Health and safety and fire risk	<ul style="list-style-type: none"> • The station shall be kept clean and free from fire hazards and litter • Install fire control appliances including a portable fire extinguisher • Conduct regular fire drills • Implement fuel leakage detection mechanism • Avoid naked fires within the station (post notices to prohibit smoking) • Electrical installations to be carried out by competent and licensed personnel • Hazard communication through signage, • Ensuring safety measures are adhered to and having safety meetings, hazards awareness, • Use of PPE, reporting near misses, incidents and accidents. • Medical certificates for workers in the café, first aid kit and first aider. • Changing room for staff should have lockers and be kept tidy
Oil spills/spillages	<ul style="list-style-type: none"> • Train and supervise staff to ensure minimal spillage of fuel • Interceptor management/oil water separator to be installed • Storage of waste oil in drums, • Ensure proper oil collection and disposal
Possible impacts	Mitigation measures
	<ul style="list-style-type: none"> • Surveillance and reporting any signs of leakage • Use only approved fuel tanks and monitor fuel quantities to detect

	leakages
Solid waste management	<ul style="list-style-type: none"> Fuel tanks should also be properly treated and installed Ensure proper waste collection, handling and disposal Sorting of waste, Storage of waste in closable dustbins, Regular disposal of waste by NEMA licensed waste handlers,
	Waste water
	<ul style="list-style-type: none"> Construct proper drainage system Treatment of waste water through oil interceptors prior to discharge to the septic tank Ensure adherence to standards as per water quality regulations 2006
	Noise
Air emissions	<ul style="list-style-type: none"> The proponent shall ensure adherence to Environmental Management and Coordination (Noise and Excessive vibration pollution Control) Regulations 2009. Area to be planted with trees/vegetated to act as carbon sinks and windbreakers to minimise raising of dust Drivers to put off engines when vehicles are not in motion Use clean energy in the kitchens

The full report of the proposed project is available for inspection during working hours at:

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED COBRAS CORNER LUXURY LODGE TRANS MARA/ENKU/ 27703 – MARA TRIANGLE TRANS MARA DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed tourist lodge.

The proposed project will consist of:

- 27 Cottages divided into three intimate camps (Safari camp, Bush camp, and Mountain camp). In addition, each camp will have an attached lounge for breakfast, lunch and dinner. This

will also serve as meeting places. There will also be a small library attached;

- Central reception area;
- Heated swimming pool;
- Wine cellar;
- Spa facility;
- Campfire site;
- Gift shop;
- Vehicle parking and minor service area;
- Staff quarters;
- Walkways and
- Septic tanks and waste water management areas.

The proposed site is about 6Km to the east of the Ngiro Area security outpost and about 1Km to the south from the main road along the Siria escarpment. The site is accessible by road from both Kilgoris through Lorgorian and Olololo gate or from Narok town through Aitong and Olololo gate, Transmara District.

The project anticipates the following impacts and mitigation measures:

Possible impact	Mitigation measures
Soil disturbance	<ul style="list-style-type: none"> Restrict use of heavy machinery for only the necessary activities and encourage use of manual labour and light machinery; Restrict vehicular movement to prescribed access routes; Reduce excavation to necessary areas only
Water pollution	<ul style="list-style-type: none"> Construction of adequate and up-to-standard septic tanks; Regular maintenance checks on septic tank system; Treatment and recycling of water.
Water wastage	<ul style="list-style-type: none"> Installation of water meters to monitor amount use Installation of water saving tap models
Air pollution	<ul style="list-style-type: none"> Installation of dust screens Regular watering of access routes to reduce dust Provision of dust masks to workers Use low sulphur diesel Use of mufflers on heavy equipment and vehicles Reduction in use of machinery to necessary requirement only
Noise pollution	<ul style="list-style-type: none"> Ensure construction activities are undertaken during daylight hours; Regular repair of silencers Use of modern low noise emitting generators Isolate and locate generators in a confined environment Provision of ear muffs to site workers
De-Vegetation	<ul style="list-style-type: none"> Minimal excavation to areas that are necessary for the construction.
Possible impacts	Mitigation measures
	<ul style="list-style-type: none"> Re-vegetation (planting of new grass and indigenous trees) of bare areas Establish concealed animal observation points

- | | |
|-----------------------------------|---|
| Petrochemical contamination | <ul style="list-style-type: none"> • Have fuel storage facility located away from other activities and fire sources; • Have fuel tanks constructed from standard globally accepted materials; • Pay attention to soil types when locating fuel tanks to ensure they are not sited where corrosion could easily occur; • Restrict movement around this facility by providing a perimeter fence and putting in place signage on facility use and safety procedures. |
| Solid and liquid waste management | <ul style="list-style-type: none"> • Segregate and categorize into reusable, those for resale and those for disposal; • Protect the designated disposal area from elements to reduce chances of them being carried away by wind or rain; • Use domestic biodegradable wastes will be used in the farm either as manure or as pig feed; • Waste oil from machinery and generator will be used in other activities such as the incinerator or wood preservation or returned back to supplier for appropriate disposal; • Ensure ash from incinerator is buried in pits; • Use septic tanks and soak away pits to dispose of liquid waste; • Use oil/grease interceptors to trap oily contents from wastewater from the kitchen. |
| Workers and public health | <ul style="list-style-type: none"> • Restrict vehicles and machinery movement to slow speeds both within the project site and its surroundings • Have signage posted within the project site and along the transportation route; • Provide workers with Personal Protective Equipment (PPE) • Have workers work in shifts to reduce incidence of loss of concentration while attending to machines; • Proper supervision to ensure equipment and machinery are only operated by qualified and appointed personnel. • Have adequate first aid kits placed at easily accessible points; • Have at least one first aid personnel and fire marshal in every project component area • Erecting dust screen during construction |
| Security | <ul style="list-style-type: none"> • Fencing of the project site and limiting movement and attraction of unwanted characters |

The full report of the proposed project is available for inspection during working hours at:

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED FUEL DEPOT ON L.R. NO. 209/10630, OFF
MOMBASA ROAD, NAIROBI

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed fuel depot.

The proposed project comprises of construction of a fuel depot, a business venture whose activities involve storage and selling of petroleum products. The fuel depot shall be handling diesel, kerosene and petrol. These products shall be stored in 50,000 litres above ground tank each. The tanks shall be three in numbers.

The proposed fuel depot will be located off Mombasa Road, behind Libra House on Park Road Avenue. This is on L.R No. 209/10630.

The following are the anticipated impacts and proposed mitigation measures.

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Dust and gaseous emissions	<ul style="list-style-type: none"> • Watering should be done where appropriate during construction • Control speed and operation of vehicle on site • Use environmentally clean fuels for the vehicles coming onsite
Solid waste generation	<ul style="list-style-type: none"> • A reputable solid waste handler will be contracted to regularly collect solid waste • There will be adequate provision of strategically placed waste bins at the facility to ensure that there is no idle litter • Use durable long lasting materials that shall not need to be replaced as often thereby reducing the amount of construction wastes generated over time
Loss of top soil cover	<ul style="list-style-type: none"> • Avoid unnecessary movement and disturbance of soil surface • Resurface/pave open areas after the completion of the project • Apply soil erosion control measures such as the leveling of project site to • Reduce runoff, velocity and increase infiltration of storm water into the soil
<i>Possible impacts</i>	<i>Mitigation measures</i>
Surface drainage system	<ul style="list-style-type: none"> • Drainage channels shall be installed in all areas that generate or receive • Surface water such as car parking and driveways • Drainage channels shall be covered with

	<p>gratings to prevent occurrence of</p> <ul style="list-style-type: none"> • Accidents and entry dirt that would compromise flow of run-off. • The channels shall be designed with regards to the peak volumes such as • Periods or seasons when there is high intensity of rainfall for avoid overflow. • The drainage channels shall be self-cleaning which means it should have a suitable gradient. • Provide suitable storm water drainage channels to effectively discharge water to safe areas. • Maintain existing drainage channels to avoid blockages.
Increased energy demand	<ul style="list-style-type: none"> • Switch off all electrical appliances when not in use • Put off all lights immediately when not in use/required or are not needed. • Use energy conserving electric lamps for general lighting
Accidents and occupational risks	<ul style="list-style-type: none"> • Implementation of safety measures and emergency plans to contain accident risks associated with the product being handled • A fully equipped first aid kit. • The contractor shall have workmen's compensation cover. • Adequate clean sanitary facilities shall be provided.
Noise	<ul style="list-style-type: none"> • Workers should be provided with Personal Protective Equipment such as earmuffs when operating noisy operations • There shall not be unnecessary honking of the trucks at the site. • Vehicle drivers and machinery operators to switch off engines of vehicles or machineries not being used • Noisy operations shall be done during the day
Leaks from installations	<ul style="list-style-type: none"> • Regularly tests to ensure integrity of the installations such as air separators, valves, couplings, dispensing hoses and storage tanks • Drops or wetness to ensure no leakage must be checked regularly • Inventory management / stock reconciliation shall be done daily to ensure no leakages and to monitor available stocks • Installations shall be made of strong material such as steel to ensure no leaks
Accidental spills	<ul style="list-style-type: none"> • Sound engineering must be put in place • Reliable operations and effective written operating procedures • Good preventive and predictive maintenance techniques • Commitment to safety • Oil interceptors shall be provided
Possible impacts	<i>Mitigation measures</i>
Risk of fire	<ul style="list-style-type: none"> • Install and maintain firefighting equipment located at strategic points • Sensitize the workers on fire risks and use firefighting equipment • Sand buckets shall be easily accessible,

full and ready to use

- Observe safety precautions during loading and offloading of trucks
- No blockages at the entrance and the exit.
- Forecourt should be clean, no litter, oil or spillage.
- "No Smoking" rule shall be observed and all signs displayed, clean and
- easily legible to the customer
- Engines shall not be running while the vehicle is at the loading bay.
- No use of mobile phones at the forecourt.
- All electrical components at the site shall be of appropriate quality to
- minimize risks associated with faulty electrical fittings
- All cables serving the pumps shall be well-insulated and in sealed conduits

The full report of the proposed project is available for inspection during working hours at:

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED DEVELOPMENT OF ABERDARE HILLS
GOLF ESTATE AND RESORT ON L.R. NO. 425/56 AND 25/58 IN
NAIVASHA TOWNSHIP

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Aberdare Hills Golf Estate and Resort.

The proposed project involves construction of 216 residential units, a club house and an 18-hole golf course layout of approximately 6,536m² constructed to full international and USGS championship specifications complete with a driving range, practice and tuition facilities. The residential units are classified as follows:

- Type A units occupying half an acre plot each.
- Type B units occupying an acre plot each.
- Type C (Custom designed) units occupying a two acre plot each.

The proposed land for development is located north of Lake Naivasha, delineated by the Nairobi-Nakuru Highway; Malewa River and the Eastern Escarpment. It occupies an area of 350ha on L.R. No. 425/56 and L.R. No. 425/58.

The project anticipates the following impacts and mitigation measures:

*Possible Impacts**Mitigation Measures*

- | | |
|------------------------|--|
| Creation of employment | <ul style="list-style-type: none"> • Consider adopting labour standards such as SA 8000, Fair trade, which integrate employee and community benefit. • Adopt a "local first", as far as possible, policy to maximise employment opportunities for the local communities, taking account of existing legislation and policies on professional procurement. • Employ a communication strategy that will clarify that preference will be given to locals as well as procedures to be followed by aspiring local applicants and employers e.g. procedures for advertising jobs, procedures for applying, procedures for notifying successful or unsuccessful applicants, etc. • Where possible, preference shall be given to labour intensive practises to encourage job creation. • Document skills required in each phase of the project and use this to determine level of local employment that can be achieved throughout the project. This information may be used to create a database accessible to applicants informing them of required skills. |
|------------------------|--|

*Possible impacts**Mitigation measures*

- Ensure compliance with the law on employment of children, children and young workers should be protected against the following hazards:
- Heavy lifting disproportionate to their

size

- Operating heavy machinery
- Working the night shift
- Any exposure to lead, toluene or other toxic chemicals.

Community involvement

- Constitute clear procedures and guidelines for handling community complaints.

Biodiversity

- Replant 50,000 indigenous trees of varying species in accordance with international golf design standards

HIV / AIDS

- Education and sensitisation of workers and the local communities on STI's including provision of condoms to the project team and the public.
- Where possible conducting of regular sensitisation campaigns and monitoring and evaluation of the modes used during the course of the project in liaison with the Municipal Council.
- Working closely with various HIV/AIDS organisations working in the project zone of influence in order to achieve the best results.

Clearing of vegetation /
loss of habitat

- Establish nurseries where indigenous tree seedlings are raised for afforestation and rehabilitation of disturbed sites.
- Keep area of natural vegetation cleared to a minimum.
- Routine monitoring of the abundance and diversity of natural vegetation.
- Landscaping should be undertaken in correspondence with a biodiversity study detailing indigenous species to the areas.

Soil erosion

- Exposed soils should be covered with grass or other ground cover as soon as possible.
- Areas of exposed soils should be monitored during periods of heavy rains throughout the construction phase to capture any incidences of erosion and quickly initiate control.
- Runoff loaded with sediment and other suspended materials from the site/working areas should be prevented from discharging to adjacent watercourses and/or water bodies.

Water supply &
consumption

- Liaison with the local WRUA in order to realise satisfactory management of water supply issues.
- Ensure provision of adequate water storage facilities on the construction site to meet project needs during periods of high demand externally and refill of storage tanks during periods of low demand (e.g. late at night).
- Monitor water consumption and utilisation in co-ordination with the building contractor through strict supervision of construction works involving water use.

*Possible impacts**Mitigation measures*

- Sensitise construction workers on the importance of proper water management.
- Ensure that a comprehensive water monitoring program is implemented that includes monitoring of local surface

	water and groundwater resources within the project work site while project related construction phase water withdrawals are occurring as well as project installed ground water sources.		and windblown dust;
Construction traffic	<ul style="list-style-type: none"> • Provide temporary road signs or notices to indicate on-going construction works. • Regular maintenance of delivery and dispatch trucks. • Constant monitoring of pedestrian routes to ensure they are not blocked. • Site traffic shall only park in designated areas and obey the speed limit. 		<ul style="list-style-type: none"> • Any complaints received by the Contractor regarding dust should be recorded and communicated to the Project Manager • All construction machinery are maintained and serviced in accordance with the contractor's specifications, manufacturer's standards • Maintain noise levels to permissible limits. • Monthly monitoring of noise levels from construction areas.
Construction material sourcing	<ul style="list-style-type: none"> • Construction contract shall stipulate that the materials are sourced from an approved site. • Tender documents shall specify required standards and certification for procurement of all materials and appliances. • Construction materials shall be from approved sources; for example, hardstone for building should be obtained from bona fide commercial quarries. • Procure environmentally friendly and sustainable materials. • Do not use the following materials for construction of the buildings: <ul style="list-style-type: none"> • Asbestos in any form; • Asbestos substitutes or any naturally occurring or man-made mineral fibres; • Lead, lead paint or any other materials containing lead which may be inhaled, ingested or absorbed; • Vermiculite, unless it is established as being fibre-free; • Any products containing cadmium that are regarded as being injurious substances; • Any other substances regarded as being deleterious building materials which are not in accordance with statutory requirements or with current accepted good building practice at the time of specification or construction. 	Solid waste	<ul style="list-style-type: none"> • Ensure that all the necessary waste disposal permits or licences are obtained prior to the commencement of the construction works. • Wherever practicable, the excavated soil should be segregated from other wastes to avoid contamination, and then reused on-site for the site formation works to reduce the amount of construction waste to be disposed off-site. • Ensure that no waste, spoil or excavated materials arising from the project will be improperly dumped in the project area. Wastes should be disposed in NEMA licensed disposal areas.
		Occupational safety and health	<ul style="list-style-type: none"> • Register of the workplace by the Director, Directorate of Occupational Safety and Health Services (DOSHS). • Establish a Health and Safety Committee for the project team • Annual health & Safety Audit • Annual Fire Audit • Risk Assessment • Provide PPE (See Section 7.4.13 (a)) • Provide a First Aid kit • Have trained First Aiders within the project team. • Cordon, or have signs to demarcate works which pose hazards to humans and domestic animals. • Provide fire fighting equipment (See Section 7.4.13 (a)) • Maintain material safety datasheets for flammable gases and flammable combustible liquids.
Air, dust and noise	<ul style="list-style-type: none"> • Ensure that all works are conducted during the day. • Provide dust masks to all personnel on work site. • Ensure that periodic water spraying is carried out to suppress dust during excavations and backfilling. • Ensure that dust generating activities (excavation, handling and transport of soils) are not undertaken during times of strong winds. 	Occupational safety and health	<ul style="list-style-type: none"> • Develop an emergency procedure and place in strategically visible locations. • Train project staff in fire safety. • Demarcate a fire assembly point. • Clearly mark fire exits. • Conduct annual fire drills. • Provide and prominently display safety warnings.
Possible impacts	<p><i>Mitigation measures</i></p> <ul style="list-style-type: none"> • Ensure that earthwork operations are suspended wherever visible dust is affecting adjoining activities. • Ensure enforcement by the contractor in the provision of vehicles delivering soil materials with covers to reduce spills 	Possible impacts	<p><i>Mitigation measures</i></p> <ul style="list-style-type: none"> • Install temporary fire alarm. • Maintain an incident/accident register and report incidences to the Nakuru Safety Officer and Directorate of Occupational Safety and Health (DOSH)

- Instruct the contractor is instructed in the use of all materials that may have negative environmental (including health) effects.
- Replace material or substance used that is at any point in the future deemed to be deleterious to health, with an acceptable alternative.
- Ensure strict safety management through close attention to design, work procedures, materials and equipment.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, National Environment Management Authority, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.
- Provincial Director of Environment, Rift Valley Province.
- District Environment Officer, Naivasha District.

NEMA invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director General, NEMA, to assist the Authority in the approval process of the project.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED APARTMENT ON PLOT L.R. NO.
1870/111/136 ALONG BROOKSIDE DRIVE, WESTLANDS

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed apartments.

The proposed project involves construction of 48No. apartments and other major components such as a driveway and car park.

The proposed project will be located along Brookside Drive Westlands, Nairobi. The project is on land parcel L.R. No. 1879/111/136 opposite the Hindu temple along Brookside Drive.

The following are the anticipated impacts and proposed mitigation measures.

Possible Impact	Mitigation Measures
Solid waste	<ul style="list-style-type: none"> • Waste minimization by avoiding unsustainable construction practices • Provision of dustbins onsite to temporarily hold the waste before disposal • Reuse where possible or sale to authorized waste handlers/collectors

COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed luxury tented camps.

The proposed project involves construction and operations of:

- Accommodation units of: 30 visitor beds at Burqueque and 30 beds at Malkarobia.
- Plunge pool in both camps at both each sites;
- A kitchen and dining at both sites;
- A fully stocked book library and video library with reading material and audio visuals on conservation, reserve history and cultural information at both sites;
- Viewing decks in rooms and public areas.
- An office with reception at both sites
- 10 bed driver accommodation – dormitory style
- Six senior staff accommodation units
- 20 staff accommodation
- Staff canteen and recreation facility
- Ablution block/staff and drivers

The proposed project will be located in two sites: Burqueque and Malkarobia. Both sites are within Bisanandi National Reserve, Garbatulla District, Isiolo County.

The following are the anticipated impacts and proposed mitigation measures

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
