## 3.0 Background

The Constituency Development Fund (CDF) was established in 2003 through the CDF Act in the *Kenya Gazette* Supplement No. 107 (Act No. 11) of 9th January, 2004. The main objective of establishing the fund was to fight poverty and shift planning/identification of projects to the local communities, hence a bottom-up planning approach to development.

The CDF comprises an annual budgetary allocation equivalent to 2.5% of the government's ordinary revenue. 75% of the Fund is allocated equally amongst all 210 constituencies. The remaining 25% is allocated as per constituency poverty levels and population derived by the Kenya National Bureau of Statistics.

The Fund currently has four (4) tier management structures under the overall oversight of the Ministry of State for Planning, National Development and Vision 2030. These are: the Constituencies Fund Committee (CFC) of Parliament charged with oversight and legislative role; Constituency Development Fund Board charged with the policy administration and disbursements; District Projects Committees (DPC) charged with co-ordination of district projects; and the Constituency Development Fund Committee (CDFC) charged with the identification and implementation of the projects at the constituency level.

The Constituency Development Fund Board, which is also responsible for public awareness and education on the fund, is allocated 3 per cent of the total CDF budget to cater for its operations. In November 2007, the CDF Act (2003) was amended and the National Management Committee was converted into a Board thus becoming semi autonomous.

## 4.0 CDF Implementation Challenges

The Implementation of CDF has encountered a number of operational and policy challenges which include:

- (a) Low utilization of completed facilities especially educational and health institutions and cattle dips due to lack of collaboration with line ministries especially on staff requirements;
- (b) Weak capacity to identify viable projects;
- (c) Low technical capacity to implement development projects;
- (d) Poor management of transition during elections;
- (e) Low utilization of technical officers in the implementation of projects; and
- (f) Too many small projects thinly spread with little or low impact.

## 5.0 Terms of Reference:

- (a) To consider the appropriateness of the existing CDF allocation criteria including the poverty indexes and their application and assess the adequacy and usage of the 2.5

percent CDF allocation and review the coverage of eligible projects and programmes.

- (b) To consider the existing institutional framework and how it can be strengthened in order to promote accountability and transparency in the administration of the CDF.
- (c) To analyze and define specific roles and responsibilities of the key players for effective coordination and management of the fund. These are Fund Account Managers, District Accountants, Members of Parliament, various CDF Committees, District Development Officers, other Ministries Officers, Local Authorities Officers and Community members.
- (d) To establish the interface between CDF and other devolved funds and make recommendations on how they can leverage or reinforce each other for maximum impact. This should include the role of CDF (and devolved funds in general) in the realization of the Kenya Vision 2030 and the District Development Plans.
- (e) To consider and recommend optimal staffing levels and capacity needs to adequately design, execute and monitor CDF projects including the Terms and Conditions of Service for the CDF staff as well as the existing compensation structure and criteria at all CDF levels.
- (f) To establish why some completed projects remain idle and make recommendations on how to ensure they are put to use for the intended purpose so as to benefit the people at the grass root level.
- (g) To study the current CDF Act, 2003 and CDF (Amendment) Act, 2007 and identify areas that require review and/or amendments including a review of CDF operations and procedures that are not addressed or adequately covered by the Acts and propose amendments and enhancements/coverage for inclusion in the Act and draft amendment bill.
- (h) To study and recommend how the overall management of the CDF can be strengthened and its absorption and that of other devolved funds can be scaled up.

## 6.0 Reporting

The Team will be expected to submit to the Minister of State for Planning, National Development and Vision 2030 a report with specific recommendations for amendments to the existing CDF legislation and regulations.

## 7.0 Duration of the Assignment

The assignment will last for a period of sixty (60) days.

Dated the 22nd June, 2009.

W. A. OPARANYA,  
*Minister of State for Planning,  
 National Development and Vision 2030.*

## THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

### ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED KULALU BIO-ENERGY PROJECT

#### INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Kulalu Bio-energy Project.

The proposed project will involve establishment of a 29,000 ha. plantation, to grow a bio diesel crop of pongamia intercropped with castor and extract oil from the seeds for export or for local consumption.

The project is located at Agricultural Development Corporation (ADC) Kulalu Ranch (situated south of Galana River) in the Northern Ranching Zone of Malindi District.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Pollution from labour camps	<ul style="list-style-type: none"> <li>Use suitable human waste disposal systems.</li> <li>Segregate solid wastes in the RE, Contractor and labour camp units and arrange for subsequent disposal through either efficient incineration or disposal in a sanitary landfill.</li> </ul>
Unplanned settlements	<ul style="list-style-type: none"> <li>Sensitize the local community and the relevant Government agencies and the local authority on the negative impacts of unplanned settlements.</li> </ul>
Reduction of the Utilization of Wood Resources	<ul style="list-style-type: none"> <li>The developer will explore the use of pre-fabricated material.</li> </ul>

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
	<ul style="list-style-type: none"> <li>Supply at subsidized rate the alternative source of energy to workers.</li> <li>Introduction of wood briquettes from biomass generated.</li> <li>Efficient kilns and use of efficient stoves including Kuni Mbili/Kuni Moja stoves.</li> </ul>
Waste Management	<ul style="list-style-type: none"> <li>Use of a combination of septic tanks, pit latrines and solar toilets as found appropriate.</li> <li>Pit latrines should be kept free of fly and mosquito nuisance.</li> <li>Promote on-site waste recycling system.</li> <li>Ensure aerobic decomposition by the time they reach the final storage chamber.</li> </ul>
Reduction of unplanned settlements	<ul style="list-style-type: none"> <li>Management will sensitize, educate and raise awareness among the local community on dangers of unplanned settlements.</li> <li>Establish a canteen, provision store and a recreation centre where the plantation workers can buy food, drinks, other provisions and have some recreation after work.</li> </ul>
Reduction of Visual intrusion	<ul style="list-style-type: none"> <li>Landscaping and replanting should blend with the environment.</li> <li>Adopt a proper design with regard to construction of the workshops, stores, pumping stations and other project buildings.</li> <li>A buffer of natural vegetation will be retained around the entire plantation site.</li> </ul>
Noise	<ul style="list-style-type: none"> <li>The developer will invest in modern and appropriate technology in the acquisition of machinery with low noise levels.</li> <li>Use of hearing protective devices such as ear plugs and ear muffs particularly when noise levels exceed 85-90 dBA.</li> </ul>
Occupational health and safety	<ul style="list-style-type: none"> <li>Provision of personal protective equipment (PPE) including where applicable overcoats, overalls, headgear, safety boots, earmuffs, safety goggles and swim gear and floats.</li> <li>Install proper and appropriate road traffic signs, markings and road furniture in the constructed or rehabilitated road sections of the project area.</li> <li>Establishment of an appropriate preparedness programme.</li> <li>Training of relevant personnel, and provision of relevant spill mitigation equipment including adsorbent material, leakage plugging devices, foam cover spraying equipment, oil skimmers and water spraying equipment among other measures to contain accidents.</li> <li>Installation of sirens and fire-fighting (water and CO<sub>2</sub>) equipment at strategic points.</li> <li>Provision of a fully equipped first aid kits.</li> <li>Provision of medical cover for all staff.</li> <li>Put in place mechanisms aimed at acquiring ISO 14001 certification.</li> </ul>

ENVIRONMENTAL IMPACT ASSESSMENT STUDY

REPORT FOR THE PROPOSED MASINGA-KITUI  
WATER SUPPLY AND SANITATION PROJECT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Masinga-Kitui Water Supply and Sanitation Project.

The proposed project will involve development of sewerage system for Kitui town and expansion of the existing water supply to serve the following trading and urban centres; Matuu, Masinga, Kaewa, Migwani, Katutu, Kithioko, Tulia, Kwavonza Trading Centre, Matinyani Trading Centre, Itoleka, Malulu, Wikililye, Kwa Kinyai, Kavisuni and Kitui Urban Centre.

The project anticipates the following impacts and mitigation measures:

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Destruction of physical environment	<ul style="list-style-type: none"> <li>• Develop soil erosion management measures.</li> <li>• Limit the circulation of heavy machinery to minimal area.</li> <li>• Locate access roads perpendicularly or diagonally to the slope rather than along steep slopes.</li> <li>• At the end of the drilling works, level off the soils and facilitate plant regeneration.</li> <li>• Plan work in sections to avoid opening up areas that are left undeveloped.</li> <li>• Control flow of storm water in rivers, dams, weirs or develop silt trapping structures.</li> </ul>
Waste management	<ul style="list-style-type: none"> <li>• Encourage separate treatment for industrial and domestic effluent.</li> <li>• Conduct awareness on need of appropriate waste management practices including reduction, reuse, recycle, segregation, pre-treatment among others.</li> <li>• Develop appropriate budgets for purchase of raw materials to reduce wastage through exposure to weather elements, cutting to size etc.</li> <li>• Avoid open dumping of solid waste on wind ward side of the sewage works.</li> <li>• Construction of waste screens and sediment traps.</li> </ul>
Increased water demand/supply and water quality	<ul style="list-style-type: none"> <li>• Observe the Water Act, 2002 and the 30% water rights for downstream users.</li> <li>• Use of metering methods including v-notches and sluices.</li> <li>• Construction of sediment traps.</li> <li>• Keep natural water channels free from obstruction.</li> <li>• Conduct water quality monitoring at river recharge points.</li> <li>• Incorporate biological treatment methods in sewage ponds to improve water quality.</li> <li>• Develop monitoring strategies and penalties for 15 individuals diverting sewers and water from lines.</li> </ul>
Destruction of flora/fauna and wildlife-human	<ul style="list-style-type: none"> <li>• Avoid constructing at animals drinking points.</li> </ul>

*Possible Impacts*

conflict

*Mitigation Measures*

- Avoid selecting sites sheltering or frequented by wildlife.
- Preserve migration corridors for wild and domestic animals.
- All trees uprooted to pave way for weir and access construction should be replanted.
- Avoid interference with wildlife breeding sites.
- Control introduction of invasive plants and animals species in forest, sewage ponds and water bodies.
- Promote the development of community nurseries
- Environmental conservation measures should be instituted.

Air quality/noise

- Operate equipments equipped with air pollution control gadgets
- Insulate noisy machines when working near animal habitats
- Maintain vehicles and machinery in good condition in order to minimize gas emissions and noise
- Ensure continuous maintenance of sewerage treatment plant and develop appropriate sludge handling procedures
- Avoid construction of sewage plant on the windward side to avoid spread of pathogens, odour

Social and economic concerns

- Conduct continuous public awareness and encourage participation throughout the project span to discuss contentious issues including compensation to Project Affected Persons.
- Communicate on project progress to community members and alert on sections to be developed to reduce destruction and interference.
- Accord local community employment and business opportunity as priority
- Implement HIV/AIDS and other communicable diseases programmes in conjunction with relevant ministries.
- Establish labour camps at reasonable distance from villages.
- Where possible offer women equal employment opportunities as men.
- Develop secondary uses of weir including fish farming to generate income.

Occupation/public health and safety concerns

- Complying with work place legal requirements.
- Provision of protective professional equipments.
- Employment of competent work force.
- Instituting safety drills, disaster preparedness and management programmes.
- Develop appropriate structure of the weir that meet recommended standards.
- Control disease vectors using

ENVIRONMENTAL IMPACT ASSESSMENT STUDY  
REPORT FOR THE PROPOSED CONSTRUCTION AND SALE  
OF FOUR (4) AFFORDABLE RESIDENTIAL APARTMENTS  
INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed construction and sale of four (4) affordable residential apartments.

The new apartments will comprise of four blocks each having five floors. The accompanying basic residential amenities includes: business centre, car parks, swimming pool, drive ways and landscaping.

The proposed project is located at L.R. Nos. MN/1/8719, MN/1/8718, MN/1/8717, and MN/1/8716 in Mkomani Mombasa North overlooking Fort Jesus directly across the ocean.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Solid Waste	<ul style="list-style-type: none"> <li>• Ensure that construction materials left over at the end of construction will be used in other projects rather than being disposed off.</li> <li>• Donate recyclable/reusable or residual materials to local community groups, institutions and individual local residents or home owners.</li> <li>• Use of durable, long-lasting materials that will not need to be replaced as often, thereby reducing the amount of construction waste generated over time.</li> <li>• Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements.</li> <li>• Provide solid waste handling facilities such as waste bins and skips.</li> <li>• Ensure that solid waste generated at the apartments is disposed off appropriately at authorized dumping sites on a daily basis.</li> <li>• Ensure that occupants of the apartments manage their waste efficiently through recycling, reuse and proper disposal.</li> </ul>
Security	<ul style="list-style-type: none"> <li>• Ensure the general safety and security at all times by providing day and night security guards and adequate lighting within and around the premises during night hours.</li> <li>• Put in place security lights along the road where the project site lies.</li> </ul>

Sewage/human waste	<ul style="list-style-type: none"> <li>• Install an alarm system within the premises to improve security around and within the premises.</li> </ul>	trees of fast maturity period within the site.
	<ul style="list-style-type: none"> <li>• Provide adequate and safe means of handling sewage generated at the apartments to ensure that no sewerage generated at the site gets into the ocean.</li> <li>• Conduct regular inspections for sewage pipe blockages or damages and fix appropriately.</li> <li>• Ensure regular monitoring of the sewage discharged from the project to ensure that the stipulated sewage/effluent discharge rules and standards are not violated.</li> </ul>	<ul style="list-style-type: none"> <li>• Design and implement an appropriate landscaping programme to help in re-vegetation of part of the project area after construction</li> <li>• Introduce mangrove trees along the jetty/walkway to ensure ecosystem sustainability within the ocean.</li> </ul>
Water usage	<ul style="list-style-type: none"> <li>• Sensitize the residents of the apartments to conserve water by minimizing any necessary wastage within the apartments.</li> <li>• Recycle the used water to be reused again in activities such as flushing of toilets and irrigating of the flowers.</li> <li>• Ensure taps are not running when not in use</li> <li>• Install a discharge meters at water outlets to determine and monitor the amount of water used from the apartments.</li> </ul>	<ul style="list-style-type: none"> <li>• The project proponent should plant flowers along the road to improve the aesthetic quality of the neighborhood</li> <li>• The proponent must employ a gardener to help in maintaining the flower beds and the landscaped gardens within the project site.</li> </ul>
Jetty/walkway	<ul style="list-style-type: none"> <li>• The existing jetty/walkway into the sea must be upgraded to avoid any incidence of polluting the ocean water and to avoid occurrence of any accidents such as people falling into the ocean as a result of the timber used for construction being worn out and general pollution of the sea.</li> </ul>	<ul style="list-style-type: none"> <li>• Ensure that construction machinery are kept in good condition to reduce noise generation.</li> <li>• Construction activities should only be undertaken during the day i.e. 8.00 a.m. to 5.00 p.m.</li> <li>• Ensure that workers are provided with the necessary personal protective equipment.</li> <li>• Ensure that all generators and heavy duty equipment are insulated or placed in enclosures to minimize ambient noise levels.</li> </ul>
Drainage	<ul style="list-style-type: none"> <li>• Create storm water management practices, such as piping systems or retention tanks which can be carried over after the building is complete.</li> <li>• Construction of a good drainage system is necessary to avoid incidences of flooding.</li> <li>• Sewer lines and drains from the kitchens, washrooms and laundry areas of the apartments should not be directed into the ocean.</li> </ul>	<ul style="list-style-type: none"> <li>• Ensure proper planning of transportation of materials to ensure that vehicle fills are increased in order to reduce the number of trips done per vehicle or the number of vehicles on the road</li> <li>• Construction trucks removing soil from the site and delivering construction materials to the site should be covered to prevent material dust.</li> <li>• Sprinkle the construction site with water to keep dust levels down.</li> </ul>
Soil erosion	<ul style="list-style-type: none"> <li>• Apply soil erosion control measures such as leveling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil.</li> <li>• Ensure that any compacted areas are ripped to reduce run-off.</li> <li>• Excavations of the site will be confined only within the sections upon which construction is taking place.</li> <li>• The excavated earth will be disposed off on sites where it will not be washed into the ocean by storm water.</li> <li>• Re-vegetate exposed areas on the site through proper landscaping.</li> </ul>	<ul style="list-style-type: none"> <li>• Provide the construction workers with personal protective equipments that will protect them from direct inhalation of dust during the construction period.</li> <li>• No burning of waste at the construction site should be allowed.</li> <li>• Retain the existing trees and plant more trees within the site to act as purifiers.</li> </ul>
<i>Possible Impacts</i>	<i>Mitigation Measures</i>	
Ecosystem disturbance	<ul style="list-style-type: none"> <li>• Ensure proper demarcation and delineation of the project area to be affected by construction works.</li> <li>• Designate access routes and parking within the site.</li> <li>• Preserve the existing trees within the project site and if possible plant more</li> </ul>	<p>The full report of the proposed project is available for inspection during working hours at:</p> <p>(a) Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. **IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

*Kenya Gazette*

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
