ORDINANCE

RULES

IN EXERCISE of the powers conferred upon him by section 10 of the Agricultural Produce Export Ordinance (Chapter 98 of the Revised Edition), His Excellency the Governor in Council has been pleased to make the following Rules —

1 These Rules may be cited as the Grading of Maize Rules, 1929", and shall come into operation as from the first day of January, 1930

2 The grades of maize, together with their class and description, shall be as set out in the Schedule to these Rules

3 The maize shall be delivered in a manner suitable for purposes of inspection at the wharf at Kilindini or Mbaraki Pier or at such other places at the Coast or elsewhere as the Director of Agriculture may from time to time approve and prescribe and at places away from the Coast the owners shall supply to the satisfaction of the inspector all labour required for the purpose of placing into proper position and removing all maize submitted for inspection

4 (a) When the Administration of the Kenya and Uganda Railways and Harbours stores graded maize under the block-stacking system, each block-stack shall be composed of one grade of maize, but without regard to the ownership of the maize

(b) The maize shall be block-stacked subject to any charges, rules, regulations or conditions not inconsistent with the said Ordinance or with these Rules, which the Administration of the Kenya and Uganda Railways and Harbours may see fit to impose

(c) Owners of maize intended for export, or their accredited agents, may be required to enter into a separate agreement with the Administration of the Kenya and Uganda Railways and Harbours concerning the method and conditions of block-stacking

(d) No person shall export or cause or permit to be exported or attempt to export maize without having first stored it as may be required, except as provided for by Rule 25

5 The owner or shipper shall notify the inspector giving particulars of the consignment, i.e. name of ship on which space has been provided, consignee destination, number of bags

6 Such notification shall be given at least four clear days before shipment is due and delivery at the places mentioned in Rule 3 shall, if required, be made at least two clear days before shipment

7 Inspection shall ordinarily be made within fourteen days of shipment, if in the opinion of the inspector it is necessary, re-inspection may be made at any time after the original inspection and the grade may thereupon be altered

8 The exportation certificate shall be delivered to the shipper only on production of the shipping order or bill of lading, which shall be delivered to the inspector within seven days of the departure of the steamer concerned

9 Every bag of maize in a consignment shall be examined before a certificate is granted in respect of such consignment, and all maize so examined at any place away from the Coast shall be submitted for inspection at the Coast and shall be examined in such manner as the inspector may determine before the issue of an exportation certificate

10 It shall be lawful for the inspector to abstract, remove and retain samples from each bag examined, provided that the sample from any one bag shall not exceed one-half of one per cent of the total contents of that bag

11 No maize shall be permitted to be exported which contains more than 12.5 per centum of moisture as determined by the Brown-Duval Moisture Tester, nor maize which is 'weevily', but the exportation of "slightly weevily" maize shall be permissible

12 No certificate of grade shall be issued in respect of any consignment of maize found on examination to be wet, unripe, or badly developed, musty or weevily, for the export of maize which is defective in these respects, but whose export is not prohibited under Rule 11, an inspection certificate shall be issued

13 Maize intended for export shall be contained in new twill bags, "A" quality, $2\frac{1}{2}$ lb weight, 8 x 8 (Porter and Shot), in good condition, and securely doubly sewn with overlapping edges

14 The inspector may refuse to grade any consignment of maize when the average weight of each bag is less than 200 lb net, and grading fees as prescribed in Rule 23 shall be charged in respect of any such maize rejected and again when re-submitted for grading. It shall be lawful for the Administration of the Kenya and Uganda Railways and Harbours or for the inspector to determine the weight of maize offered for grading at any one time by any one person by weighing ten per centum of the number of bags offered for grading

15 Each bag of maize graded in accordance with these Rules shall be branded with a 'K', and the number of the grade within a ring, and any brand so marked on a bag at a place away from the Coast may at the discretion of an inspector at the Coast be obliterated and the grade mark altered

16 The consignor of weevily maize to be carried by the Administration of the Kenya and Uganda Railways and Harbours to any of the places mentioned in Rule 3 or to the Government Conditioning Plant shall clearly state on the consignment note that the maize referred to thereon is weevily

17 Upon receipt of notice from the inspector, maize which is found to be weevily on re-inspection, or which has been railed as sound but is found on arrival at the port to be weevily, shall be removed forthwith by and/or at the expense of the owner or owners to a place set aside for such produce.

18. All maize rejected by the grader shall be removed by and/or at the expense of the owner from the wharf sheds not later than the fourth day after such rejection, provided that maize rejected on account of dampness or weevils may be re-conditioned for inspection

19 Weevily maize shall be stored separately from other maize, or at the Government Conditioning Plant pending treatment

20 All bags of maize treated for the destruction of weevils shall be marked with the letter " C " in addition to the grade mark and the certificate of grade or inspection shall be endorsed with the words ' treated by heat for the destruction of weevils '

21 Maize which has been treated at any conditioning plant shall not bear the grade mark No 1

22 In the event of any consignor electing to store maize rejected for export in private sheds away from the wharf, such action shall be permitted, but should the owner of such maize thereafter decide to dispose of it locally he may do so on payment of the difference between the special export railway rate and the ordinary rate obtaining between the station of origin and the port. If the maize rejected is not re-submitted for grading and exported within a period of thirty days from the date of rejection, payment of such difference must then be made

23 A charge shall be made by the inspector at the rate of five cents per bag in respect of all maize submitted direct at the Coast for grading under these Rules, similarly, the rate shall be six cents per bag in respect of all maize submitted for inspection at places away from the Coast, and payment therefor shall be made prior to issue of certificate or removal of maize. If maize has been removed and later re-submitted for inspection the same charge shall again be levied

24 The Government shall not be held responsible for any loss which may be sustained in connexion with maize forwarded for export, and shall not undertake any responsibility in respect of any certificate which may be issued under these Rules

25 These Rules shall not apply to maize exported to any port on the eastern coast of the continent of Africa south of Port Said and north of Bena, or to any port of Arabia

26 Notwithstanding anything contained in Rules 4 and 13, and subject to Rule 18, maize for shipment in bulk may be contained in second-hand bags that have been previously used only for maize, provided that—

- (a) before the first part of the consignment is placed on rail, notice shall be given to the inspector by the shippers of the quantity of maize to be shipped in bulk, the grade, and the name of the ship on which space has been booked,

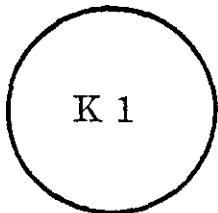

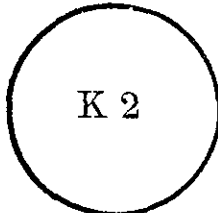

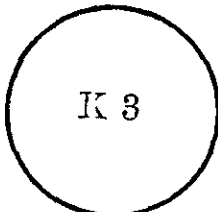

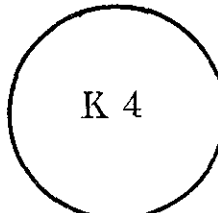

- (b) maize railed to the Coast in second-hand bags which is found on arrival by the inspector not to be of the grade previously described by the shipper, shall be re-bagged in new bags of the type required by Rule 13 within twenty-four hours of inspection by and/or at the expense of the shipper,
- (c) the inspector may refuse to accept maize for grading if he is not satisfied that the shipper has made satisfactory arrangements for the expeditious re-bagging mentioned in paragraph (b), and the Administration of the Kenya and Uganda Railways and Harbours may levy charges for accommodation if such re-bagging is not completed within twenty-four hours (excluding Sundays and public holidays) from the time of refusal of acceptance by the inspector. The Administration of the Kenya and Uganda Railways and Harbours may, at its discretion, require the owner or shipper to remove any such maize not re-bagged within twenty-four hours of such refusal.

27 The Grading of Maize Rules, appearing at page 915 of the Revised Subsidiary Legislation, are hereby revoked

By Command of His Excellency the Governor in Council

DEPARTMENT OF AGRICULTURE

LOCUST REPORT TO 27-12-29

Hopper destruction in infested areas is now in full swing, and the situation is rapidly coming under control. Baiting is being employed exclusively and proving most effective.

HOPPER AREAS

Northern Frontier Province—Great destruction has been carried out, although weather conditions hamper operations. Three Locust Officers are operating within a forty-mile radius of Archer's Post and in one vicinity of Marsabit. Reports state that each officer is killing on an average 20 acres of hoppers per diem.

Mara—Two officers have been transferred from the Northern Frontier Province to deal with the infestation in Tharaka.

Luhya—There are now three Locust Officers working in this district as well as the Agricultural Officer who is controlling operations. It is considered that very few hoppers will reach the flying stage as the work of destruction has been efficiently carried out.

Kitui—One Locust Officer is operating at each of the following places: Mivukoni, Katse, Tseikuru, and others, whilst there are two on the Yatta Plains, in the vicinity of Kamipyia Faro. Throughout the district good results are being obtained.

Loi—The infestation here is now slight, and the area should be clear of hoppers in a short period.

South Masai Reserve—Laying grounds have been discovered between Lake Ambroseli and Taveta. A Locust Officer is on the spot, and operations will commence when hoppers appear.
