NATIONAL STEERING COMMITTEE ON THE REVIEW OF THE IMPLEMENTATION OF THE UNITED NATIONS CONVENTION AGAINST CORRUPTION

APPOINTMENT

WHEREAS Kenya is a State Party to the United Nations Convention against Corruption (UNCAC) having signed and ratified the Convention in Merida, Mexico, on 9th December, 2003;

WHEREAS Kenya is obliged under the Vienna Convention on the Law of Treaties, 1969, and Articles 2(6), 132(1) (c) (iii), and 132(5) of the Constitution of Kenya, 2010, to implement her international obligations;

WHEREAS the Conference of States Parties to UNCAC in its Resolution 3/1, entitled "Review Mechanism", adopted during the 3rd Session of the Conference of States Parties to UNCAC held in Doha, Qatar, 9-13 November, 2009, established the Implementation Review Group (of UNCAC) as an open-ended intergovernmental group of States parties to operate under its authority and report to it, and that the Group is charged with having an overview of the UNCAC review process in order to identify challenges and good practices and to consider technical assistance requirements in order to ensure effective implementation of the Convention;

WHEREAS the Implementation Review Group of UNCAC held its inaugural session in Vienna, Austria, from 28th June to 2 July, 2010, and *inter alia*: adopted the Terms of Reference of the Review Mechanism and the Guidelines for Governmental Experts and the Secretariat; resolved that the first review cycle will cover Chapter III (Criminalization and Law Enforcement), and IV (International Co-operation) of the Convention; drew lots for the States parties to be reviewed in the first review cycle (2010-2015), and that Kenya, among other States parties, was slotted for review during the fourth year of the current review cycle;

AND WHEREAS Kenya has been drawn for review in 2013/2014, by Cape Verde and Papua New Guinea, on its implementation of the Convention in accordance with the Implementation Review Mechanism of the Convention, and the resolutions of the 4th Session

of the Meeting of the Implementation Review Group of UNCAC held in Vienna, Austria, 27-31 May, 2013;

IT IS notified for general information that the Attorney General, in consultation with the relevant ministries, agencies, departments and other stakeholders, has appointed a National Steering Committee on the Review of the Implementation of the United Nations Convention against Corruption consisting of the following members—

Maryann Njau-Kimani (Ms.)—Secretary, Justice and Constitutional Affairs, Department of Justice, Office of the Attorney-General and Department of Justice—(*Chairperson*).

Michael Mubea—Deputy Secretary, Ethics and Anti-Corruption Commission—(*Vice-Chairperson*).

Dorcas Achapa (Ms.)—Deputy Solicitor General, Officer of the Attorney and Department of Justice.

Joash Odhiambo Dache—Secretary, Kenya Law Reform Commission.

John Kithome Tuta, HSC—Chief Legal Officer, Department of Justice, Office of the Attorney—General and Department of Justice.

Peter K. Ndung'u—Manager (Compliance), Public Procurement and Oversight Authority (PPOA).

Tobias Konyango—Deputy Commissioner (Ethics and Integrity Division), Kenya Revue Authority.

Emily W. Kamau (Ms.)—Senior Assistant Director of Public Prosecutions Office of the Director of Public Prosecutions.

Morris Odhiambo—Executive Director, Centre for Law and Research International (CLARION)

Dalmas Okendo—Head of Programs, Transparency International (Kenya).

John Opondo, Public Service Commission.

James Manyonge, Financial Reporting Centre (FRC).

Chrisantus Makokha, Kenya Prisons Service.

Yuvinalis Angima, Commission on Administrative Justice.

David Gathii, National Anti-Corruption Campaign Steering Committee.

Mary M. Wairagu (Ms.), Deputy Chief Legal Officer, Department of Justice, Office of the Attorney-General and Department of Justice—(*Joint Secretary*).

David Kaboro—Attorney, Ethics and Anti-Corruption Commission—(*Joint secretary*)

Generally, the Committee will facilitate the conduct of a review of Kenya's implementation of UNCAC by, *inter alia*, undertaking a review of Kenya's anti-corruption laws, institutions, policies and administrative measures or other arrangements and assess the impact of the same in relation to the country's obligations under Chapters III and IV of UNCAC.

Specifically, the Committee shall—

- (a) Undertake the necessary technical preparatory work for Kenya's review on the implementation of its obligations under UNCAC;
- (b) Co-ordinate the completion of the comprehensive self-assessment checklist under Chapter III (Criminalization and Law Enforcement), and IV (International Co-operation) of UNCAC;
- (c) Discuss with concerned parties and stakeholders and plan a schedule of meetings between the UNCAC Review Experts from the reviewing States and Kenyan authorities for purposes of preparing the UNCAC country review report on Kenya;
- (d) Make recommendations for new legislation or review of existing legislation and regulations to address some legislative gaps;
- (e) Undertake technical needs assessment, identify potential providers of technical assistance for consideration by the Government and provide guidance on the provision of technical assistance to the relevant or appropriate stakeholders;
- (f) co-ordinate activities to ensure timely submission of UNCAC comprehensive self-assessment checklist and the supporting documentation (including but not limited to: laws; reports;

policies or administrative instruments; case statistics, etc) to the UNCAC Secretariat by 1st October, 2013;

- (g) Facilitate the provision of support and training to Ministries, Departments, Agencies and other stakeholders on the requirements of UNCAC for purposes of ensuring efficiency and effectiveness in compliance and implementation;
- (h) Advise the Government on measures necessary to comply with Kenya's obligations under UNCAC, and shall in this regard, work with the relevant ministries, Government departments, public bodies, civil society and other stakeholders to co-ordinate the collection, collation, documentation and updating of information relevant to Government in order for the concerned body or person to meet and implement their obligations in accordance with the Constitution of Kenya, and UNCAC, and,
- (i) Facilitate the publication of comprehensive self-assessment checklist on the implementation of UNCAC for public comments and debate before such reports are submitted to the Attorney General for eventual submission to the UNCAC Secretariat (the United Nations Office on Drugs and Crime, Vienna, Austria).
- (j) Upon receipt, from the UNCAC Secretariat, of the UNCAC Implementation Country Review Report on Kenya, prepare an analysis of the Report, identifying, inter alia, the extent to which Kenya has implemented its obligations under UNCAC, the challenges faced, technical assistance needs, and recommendations for remedial action, and,
- (k) Prepare an Action Plan for the implementation of the UNCAC Implementation Country Review Report.

In the performance of its duties the committee shall:-

- a) Be responsible to the Attorney General through the Secretary, Justice and Constitutional Affairs, Department of Justice, and the Solicitor General, Office of the Attorney-General and Department of Justice.
- b) Hold meetings in places and at times as the Committee may consider necessary for the discharge of its functions.
- c) Co-opt any persons that it may consider necessary and expedient for the proper performance of its functions.
- d) Have all the power necessary for the expedient discharge of its mandate including the power to regulate its procedure.

The term of the Committee shall be one (1) year from the date of appointment or the date of the 5th Session of the Meeting of the Implementation Review Group of UNCAC, to be held in Vienna, Austria, June, 2014, during which Meeting a report on Kenya's implementation of UNCAC is expected to be considered, whichever is earlier.

The Secretariat of the Committee will be based at the Ethics and Anti-Corruption Commission (EACC) and will be responsible to the Committee for—

- (a) Providing appropriate background briefing to the Committee;
- (b) Preparing the Committee's report and disseminating any information deemed relevant to the Committee;
- (c) Undertaking research and liaising with the relevant government ministries, departments, commissions, independent offices, and any other institution in order to gather relevant information necessary for informing the Committee, and,
- (d) Organizing consultative forums and meetings for purposes of ensuring that the Committee delivers on its mandate, and,
- (e) Facilitating the provision of the necessary administrative support to the Committee.

The Committee shall submit to the Attorney-General, Kenya's comprehensive self-assessment checklist and the relevant supporting documentation on Chapters III and IV of UNCAC, on or before 23rd September, 2013, an Interim Report on its work by 30th October, 2013, and a final report within one month of receipt, from the UNCAC Secretariat, of the final UNCAC Implementation Country Review Report on Kenya.

Dated the 24th July, 2013.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED CEMTECH LIMITED 15 X 2 MEGAWATT COAL POWER PLANT IN SEBIT, WEST POKOT COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (CEMTECH Limited) is proposing to construct a coal-fired power plant that intends to generate 15 X 2 MW of electrical energy of which 15MW will run the operations of the Proposed Cement Manufacturing Plant, while the remaining 15MW will be uploaded to the national grid.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impact Source/ Aspect</i>	<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Coal Ash (Fly Ash, Bottom Ash), Flue Gas Desulfurization, Sludge (FGDS), Fluidized Bed Combustion Waste (FBC)	<ul style="list-style-type: none"> Release traces of toxic elements into the environment. Respiratory diseases due to inhalation, water pollution. 	<ul style="list-style-type: none"> Harness coal ash and dispose it in carefully selected areas, put it to beneficial use such as ground stabilizer, mined out areas reclamation material, soil conditioner (apple orchards, acidic soils), acidic water treatment, aggregate or spraying material, and cavity filler/embankment material.
SOX, NOX, COX	<ul style="list-style-type: none"> Contributes to global warming (Climate change). Contributes to acid rain. Respiratory diseases. 	<ul style="list-style-type: none"> Selective catalytic De-NOX process; wet flue gas desulfurization (FGD). For COX, plant trees as carbon sink or apply carbon capture and storage technology.
Cooling Water and Turbine Steam	<ul style="list-style-type: none"> Thermal pollution. Contamination of Sebit river water in case of spillage. 	<ul style="list-style-type: none"> Proper aeration of plant area to disperse heated air. Continuous monitoring and maintenance of cooling and turbine steam systems.
Noise	<ul style="list-style-type: none"> Damage to ears, difficulties in communication within plant area. 	<ul style="list-style-type: none"> PPE for ears (wear ear plugs). Adopt the latest turbine technology.
Air Quality	<ul style="list-style-type: none"> Dust during construction phase. Fly ash and gases that may pollute air. 	<ul style="list-style-type: none"> Sprinkle construction area, and truck paths in the construction area with water. Ensure plant system filters dust and emits acceptable levels of gases.
Species Richness	<ul style="list-style-type: none"> Loss of species during construction phase and due to likely acid rain. 	<ul style="list-style-type: none"> Ensure construction is confined within the set construction area. Create walking paths to prevent people from walking everywhere in the compound.
Socio-Economic and Cultural	<ul style="list-style-type: none"> Settlement of foreign workers. Increased disease such as HIV/AIDS. Acculturation. 	<ul style="list-style-type: none"> Provide health facilities. Create education and awareness. Boost housing standards for local community to minimize congestion in family houses.

The full report of the proposed project is available for inspection during working hours at:

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED WASTE OIL HANDLING YARD ON PLOT
L.R. NO. 118/3/MOMBASA SOUTH ALONG UKUNDA
HIGHWAY LIKONI AREA, MOMBASA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Pwani Trading Ark) is proposing to:

- Set up overhead storage tanks.
- Construct additional interceptor channels to the already existing ones.
- Construct bund walls for storage tank.
- Construct a drainage channel for storm water.
- Set up an operational site office.
- Transport waste oil from the Port of Mombasa to the waste oil handling yard.

- Separate water from waste oil.

The following are the anticipated impacts and proposed mitigation measures:

<i>Environmental Impact</i>	<i>Mitigation Measures</i>
Traffic congestion and obstruction	<ul style="list-style-type: none"> Vehicles delivering materials to be given different delivery times. Trucks to be parked inside the yard.
Potential increase in road incidences	<ul style="list-style-type: none"> Signage at the proposed site's entrance to notify other motorists in the area about the project. Marking of the road to be done along the access road. Drivers of the trucks to be trained to observe road safety rules and comply with traffic regulations such as speed limits at the site especially while driving in and out of the yard.
Noise disturbance to the neighbors from machineries	<ul style="list-style-type: none"> Construction work to be restricted to day time to minimize noise disturbance. The contractor to be advised to use well serviced machines to avoid generation of unnecessary noise.
Dust disturbance	<ul style="list-style-type: none"> Building materials especially ballast that are likely to produce dust to be sprinkled

	with water before use.
Increased demand for water	<ul style="list-style-type: none"> • Water for construction to be brought in to the proposed site. • Avoid wastage. • Recycle water when possible.
Littering by solid waste	<ul style="list-style-type: none"> • Transportation of such waste to follow the laid down regulations to prevent scattering of waste while in transit to disposal sites. • Workers handling the waste to be provided with appropriate protective clothing.
Occupational health and safety risks	<ul style="list-style-type: none"> • Employees to be provided with appropriate personal protective clothing such as helmets, safety boots, gloves, nose muffs and overalls. • First aid services and sanitary facilities to be readily available on site.
Oil spillages	<ul style="list-style-type: none"> • Appropriate siphoning equipment is to be used at the port to avoid oil spills. • Transportation tankers and reception/storage tanks to be checked for any leakages at the start of operations and at regular intervals and the necessary precautions taken. • The operations area including the floor beneath storage tanks to be built of reinforced concrete slab. • Use of pipes to flow waste oil from storage tanks to decanting chambers and back.
Potential fire hazard	<ul style="list-style-type: none"> • Provision of fire fighting appliances and clearly marking the fire points at the yard. • Workers to be trained on how to operate the fire fighting appliances.
Pollution by waste water	<ul style="list-style-type: none"> • Waste water to be stored in one of the chambers in the yard and to be discharged to a designated facility from time to time by a contracted waste handler registered by NEMA.
Occupational health and safety risks	<ul style="list-style-type: none"> • Employees to be provided with appropriate personal protective clothing such as helmets, safety boots, gloves, nose muffs and overalls. • Regular medical check-ups • First aid services and sanitary facilities, including water for drinking and bathing, to be readily available on site.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED PETROL SERVICE STATION FOR GULF ENERGY LIMITED IN THIKA, PLOT L.R. NO. 12861/223 (14360), KIAMBU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Gulf Energy Limited) is proposing to construct a fully equipped service station with auxiliary facilities on Plot L.R. No. 12861/223 (14360) Thika, Kiambu County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Environmental Impacts</i>	<i>Mitigation Measures</i>
Vegetation disturbance	<ul style="list-style-type: none"> • Ensure proper demarcation and delineation of the project construction area. • Specify locations for vehicles and equipments, and areas of the site which shall be kept free of traffic, equipment and storage. • Designate access routes and parking area within the site. • Introduction of vegetation (trees, shrubs and grass) on open spaces and around the project site and their maintenance. • Design and implement appropriate landscaping program to help on re-vegetation.
Erosion control	<ul style="list-style-type: none"> • Earthworks should be controlled so that land that is not required for the construction works is not disturbed. Wherever possible, earthworks should be carried out during the dry season to prevent soil from being washed away by the rain. • Excavated materials and excess earth will be kept at appropriate sites approved by the supervising engineer and the earth dumping sites designed in such a manner as to facilitate natural water discharge. • The Contractor shall protect areas susceptible to erosion by installing necessary temporary and permanent drainage works as soon as possible.
Waste water and waste oil management practices	<ul style="list-style-type: none"> • Carefully collect used oil in drums and dispose of by licensed refuse contractor. • Adhere to wastewater management regulation of the legal Notice 121 and Water quality regulations of the Legal Notice 120. • Conduct wastewater monitoring to check compliance. • Document and train staff in the emergency spill response plan.
Sewer	<ul style="list-style-type: none"> • Sewer line from the station will be connected to council sewer line across the road.
Poor housekeeping at dispensing	<ul style="list-style-type: none"> • Pave the Pump Island and remote filling area with reinforced concrete. • Regular training of staff on pump island operations.

Leakage of tanks and product lines	<ul style="list-style-type: none"> The tank and lines will be used as per their design life of 30 years and a UST / line replacement program put in to ensure tanks and lines are replaced prior to failure. Monitor daily reconciliation of wet stock and inventory records. In case of suspect losses, institute tank and line integrity testing; and Conduct a soil gas survey to check the extent of contamination from the leaks. 	<ul style="list-style-type: none"> materials containing Lead; Vermiculite, unless it is established as being fiber-free; Any product containing Cadmium.
Increased solid waste generation	<ul style="list-style-type: none"> Comply with the requirements of the Environmental Management (Waste Management) Regulations Legal Notice 120. Use of an integrated solid waste management plan through a hierarchy of 3R. Use durable materials that shall not need to be replaced as often. Waste should not be burned on site or dumped in undesignated waste disposal areas. Provide facilities for proper handling and storage of construction materials. Designate and construct an appropriate waste collection facility or refuse skips. Use building materials that have minimal or no packaging to avoid the generation of excessive packaging waste. Reuse packaging materials e.g. cartons, cement bags, empty metal etc. Segregate waste at source. Contract licensed waste contractors to collect waste. Waste collection bins to be provided at designated points on site. 	<ul style="list-style-type: none"> Develop an energy management plan. Noise level is within acceptable limits and construction activities shall, where possible, be confined to normal working hours. All construction machinery are maintained and serviced in accordance with the contractor's specifications. Sensitize construction vehicle drivers and machinery operations to switch off engines of vehicles or machinery not being used. Sensitize construction drivers to avoid revving vehicle engines or hooting. Sound barriers to be erected around the construction areas. No grey water runoff from the site/working areas shall be permitted. Potential pollutants of any kind and in any form shall be kept, stored and used in such a manner that any escape can be contained and the water table not endangered. Take reasonable measures to control storm water and the erosive effects. No construction materials shall be stockpiled within areas that are at risk of flooding. Plastic sheeting, sandbags or geo-fabric approved by the
Dust emission	<ul style="list-style-type: none"> Ensure strict enforcement of on-site speed limit regulations. Sprinkle water during excavation works by heavy machines. Sprinkle water on graded access roads when necessary to reduce dust generation by construction vehicles. Provide masks to be provided to employees and worn. 	<ul style="list-style-type: none"> Public health and occupational health and safety Develop a site safety action plan. Daily site inspections should be done to ensure safe work practices are adhered to. All workmen should be provided with personal protective equipment. Appoint a foreman with knowledge on health, safety and environment regulations. Record all site incidents and accidents and take corrective and preventive action. Report and record all near misses.
Fire and accident	<ul style="list-style-type: none"> Provision and placement of appropriate fire extinguishers and training of personnel. Provision of fully equipped First Aid box on site at all times. Display warning signs at suitable locations. Prohibit unauthorized persons at the station. Weatherproof all lighting and power points located outside the fuel station. 	<ul style="list-style-type: none"> Traffic management Implement a traffic management program on daily basis. Comply with applicable legislation and by-laws on regard to road safety and transport. Movement of construction vehicles timed to avoid peak periods. Ensure adequate entry and exit lane design and appropriate signage.
Air pollution	<ul style="list-style-type: none"> Ensure that the generator is maintained to manufactures specifications. Ensure that tank vents are located away from sensitive receptors. 	<ul style="list-style-type: none"> Archaeological findings The Contractor should secure the location 'as is' and immediately call the National Museums of Kenya's Archaeology Section.
Construction material sourcing	<ul style="list-style-type: none"> Construction materials shall be from approved sources. Procure environmentally friendly and sustainable materials. Do not use the following materials for construction of the building: Asbestos in any form; Lead, Lead paint or other 	<ul style="list-style-type: none"> Water utilization The Contractor should monitor water consumption and utilization. Sensitize construction workers on the importance of proper water management. Energy utilization: Develop an energy management plan; Construction machinery and vehicles should be maintained and used in accordance with manufacturer's specifications, to maximize efficiency

and lower use of energy.

- Construction workers should be sensitized on the importance of energy management.

COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Gulf Energy Limited) intends to construct on a 0.101 hectare plot; a petroleum service station consisting of three underground storage tanks each with a capacity of 40,000 liters for diesel, gasoline and kerosene respectively. There will also be dispensing pumps, car wash, tyre centre, shops and stores, an ablution block, acceleration and deceleration lanes and other associated civil and electrical works.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impacts	Proposed Mitigation Measures
Increased energy demand	<ul style="list-style-type: none"> • Develop an energy management plan; • Construction machinery and vehicles should be maintained and used in accordance with manufacturer's specifications, to maximize efficiency and lower use of energy; • Construction workers should be sensitized on the importance of energy management.
Waste water and waste oil	<ul style="list-style-type: none"> • Carefully collect used oil in drums and dispose of by licensed refuse contractor; • Adhere to Water quality regulations - Legal Notice 120 Wastewater of 2006; • Conduct wastewater monitoring on monthly basis and submit the results to NEMA; • Document and train staff in the emergency spill response plan.
Air and Noise pollution	<ul style="list-style-type: none"> • Workers shall be trained on management of air pollution from

vehicles and machinery.

- All construction machinery shall be properly maintained and serviced;
- Cover vehicles delivering soil materials to reduce spills and windblown dust.
- Dust generating activities shall not be carried out during times of strong winds;
- Water shall be applied whenever dust emissions are visible at the site.
- Ensure that the generators are maintained to manufactures specifications
- Ensure that tank vents are located away from sensitive receptors;
- Conduct solvent vapour monitoring.

Loss of vegetation

- Design and landscaping for flower beds.
- Preparation of the flower and ornamental tree beds.
- Planting of appropriate flowers and trees.
- Employ a flower gardener to keep and maintain the flowers and trees

Water and soil contamination

- No grey water runoff or uncontrolled discharges from the site shall be permitted;
- Water containing pollutants such as cements, concrete, lime, chemicals and fuels shall be discharged into a conservancy tank for removal from site;
- Potential pollutants of any kind and in any form shall be kept, stored and used in such a manner that any escape can be contained and the water table not endangered;
- Wash areas shall be placed and constructed in such a manner so as to ensure that the surrounding areas (including groundwater) are not polluted;
- Reasonable measures shall be taken to control storm water and the erosive effects;
- No construction materials shall be stockpiled within areas that are at risk of flooding;

Soil erosion

- Plastic sheeting, sandbags or geofabrics shall be used to prevent the migration of fines.
- Earthworks should be controlled so that undeveloped areas are not disturbed.
- Wherever possible, earthworks should be carried out during the dry season to prevent soil from being washed away by the rain.
- Excavated materials and excess earth will be kept at appropriate sites approved by the supervising engineer in such a manner as to facilitate natural water discharge;
- The Contractor shall protect areas susceptible to erosion by installing necessary temporary and permanent drainage works as soon as possible.

Waste generation

- Develop a solid waste management plan prior to project commencing,
- Waste should not be burned on site or dumped in undesignated waste disposal areas;

Public, occupational health and safety	<ul style="list-style-type: none"> Minimize waste production by utilizing best available techniques for site preparation; Clearly designate and construct an appropriate waste collection facility; Re-use construction waste to the maximum extent possible; Proper handling and storage procedures for hazardous ; Segregate waste at source; Monitor waste volumes; Identify licensed waste disposal contractor to remove from site. Carefully collect used oil in drums and dispose of by licensed refuse contractor. Develop a site safety action plan detailing safety equipment, emergency procedures, restrictions on site, safety inspections and controls; All workmen should be provided with personal protective equipment; The Contractor shall have a foreman with knowledge on health, safety and environment regulations; All injuries that occur on site must be recorded in the accident registers and corrective actions for their prevention be instigated as appropriate; Site personnel should be encouraged to report "near-miss incidents" in order to avoid potential problems and increase safety awareness; The contractor shall take an active role in civic and public health education HIV/AIDS awareness campaigns to his employees and the community. 	<p>timed to avoid peak periods.</p> <ul style="list-style-type: none"> Provide temporary road signs or notices to indicate on-going works; Provision of security at all the times by security guides. INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (National Housing Corporation) is proposing to construct six (6) three (3) storey residential blocks comprising of thirty (30) two-bed roomed houses and eighteen (18) three-bed roomed houses all totalling to forty eight (48) residential units; at NHC Changamwe Estate on Plot No. MN/VI/2584, Changamwe, Mombasa County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Environmental Impacts</i>	<i>Mitigation Impacts</i>		
Structural stability of the buildings	<ul style="list-style-type: none"> • Ensure the building and structural plans are approved by CGM. • Ensure the right construction and quantity of materials are used • Ensure the premise construction is supervised by qualified personnel • Ensure the inspection and structural design are done by a registered engineer • Segregate waste by separating hazardous waste from non-hazardous waste • Provide adequate and suitable solid waste collection containers • Containers for storing hazardous waste including used oil should be securely banded, labeled and disposed as required by Waste Management Regulations • Contract a NEMA licensed waste company or CGM to collect solid waste from the site for appropriate disposal at approved sites. • Contract a scrap metal dealer with a valid license for appropriate disposal • Minimize waste generated by adopting cleaner production methods such as conserving raw materials, enabling recovery and re-use of the waste 	Storm-water drainage	<p>serviceable condition and no service is carried out on site.</p> <ul style="list-style-type: none"> • Ensure that no fuels or oils are stored on site but procure them when needed. • Construct storm water drains • Contractor should avoid heaping excavated soil around adjacent residential houses this will minimize soil from block the drainage systems and avoid health risks. • Provide workers with insurance cover for such as workmen's compensation. • Provide proper scaffolds for construction at high level • Document and display on-site emergency procedures. • Use appropriate signage to direct and control flow of traffic • The construction site should be registered as per OSHA 2007 and the DOHSS should be notified of the construction works before commencement • A general accidents register should be kept on-site
Management of construction waste and efficient sourcing and use of raw materials	<ul style="list-style-type: none"> • Use durable, long-lasting materials which will not need to be replaced as often, thereby reducing the amount of construction waste generated over time. • Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure • Use building materials that have minimal packaging to avoid generation of excessive packaging waste • Source building materials from companies that have undergone satisfactory environmental impact assessment/audit and received NEMA approval. • Ensure that wastage, damage or loss (through run-off, wind, etc) of materials at the construction site is kept minimal. • Provide dust screens to minimize air pollution especially to the adjacent residential buildings • Dust emissions from piles of soil or from any other material during earthwork, excavation, and transportation should be controlled by wetting surfaces. • Piles and heaps of soil should not be left over after construction is completed. 	Occupational Health and Safety	<ul style="list-style-type: none"> • Provide and enforce use of personal protective equipments • Ensure proper storage of materials and equipments to avoid accidents • Provide temporary sanitary facilities during construction • Water surfaces during excavation and construction to reduce dust generation • Restrict unnecessary movement of the public to the site in order to avoid accidents. All access to the hazardous areas should be secured with a fence • Ensure portable fire extinguishers are provided and in working condition near probable ignition sources. • Provide adequate and clean water for drinking. • Maintain environmental management records on site at all times • Sensitize staff to switch off equipments and lights when not being used • Consider the possibility of using alternative sources of energy especially renewable ones such as solar
Dust generation and exhaust emissions	<ul style="list-style-type: none"> • Excavated sites should be covered with suitable solid material • Strictly enforce on-site speed controls and limit unnecessary traffic within the site. • Ensure that traffic routes on site are sprinkled with water regularly to reduce amount of dust generated by the construction trucks. • Sensitize truck drivers to avoid unnecessary racing of vehicle engines at loading/offloading areas, and to switch off or keep vehicle engines 	Energy consumption	<ul style="list-style-type: none"> • Monitor energy use during construction activities and set targets for efficient energy use • Have proper planning of transportation of materials in order to save on fuel • Any water leaks through damaged pipes should be fixed promptly.
Oil spills	<ul style="list-style-type: none"> • Ensure that all transport and construction equipments are in good 	Water use	<ul style="list-style-type: none"> • Sensitize the staff to use water efficiently/sparingly. • Enhance rain water harvesting by use of tanks and other containers. • Install automatic water taps
		Traffic impacts	<ul style="list-style-type: none"> • Ensure strict enforcement of on and off-site speed limits as well as limiting unnecessary traffic within the project site • Provide parking areas for the trucks and avoiding parking on the road sides.

- Provide entry and exit points into the sites.
- Erect proper warning signs at a safe distance on the access roads to warn motorists of heavy vehicle turning.
- Ensure trucks do not damage road structures and drainage systems.
- Ensure only serviceable trucks are used during transportation
- Transport most construction materials during off peak hours
- Connect the premise to MWSC sewer line.
- Ensure proper maintenance of internal sewer network.
- Ensure that sewage pipes are not blocked or damaged since such vices can lead to release of the effluent, resulting in land and water contamination
- There must be a well designed and documented emergency preparedness plans including fire emergency procedures.
- Regular inspection and servicing of the extinguishers should be undertaken by a reputable service provider and records maintained
- Fire safety signs should be prominently displayed within the buildings
- Residents should be sensitized on fire safety
- Circuits must not be overloaded
- The circuitry of the distribution board switches must be clearly marked
- There should be no live exposed connections
- Electrical fittings near all potential sources of ignition should be flame proof
- All electrical equipments should be earthed
- Provide day-night security guards and adequate lighting within and around the estate
- All buildings, foundations, equipments, structures and partitions that will not be used for other purposes shall be removed and recycled/reused
- Dispose reusable demolished facilities as prescribed by public procurement and disposal Act 2005, Cap 412C
- Where recycling/reuse of the equipments, implements, structures, partitions and other demolition waste is not possible, the materials should be taken to a licensed waste disposal site

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.
- (c) County Director of Environment, Mombasa County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the

Director-General, NEMA, to assist the Authority in the decision making process of the plan.
