5. Title.—PROGRAMME SPECIALIST (Agricultural Education).

Post No.—ED-935.

Category and level.—Professional category (P-5).

Organizational location.—Educational Financing Division, Education Sector.

Duties and responsibilities.—The incumbent will work with the co-operative programme between Unesco and the World Bank. This programme was established in 1964 by formal agreement between the two institutions. Its main purpose is to promote the financing of education projects in developing countries that are members of both institutions. Specifically, Unesco and the bank co-operate in the following fields:

(1) Assisting countries of common membership in the process of sector studies, identification and preparation of education projects.

(2) Appraisal of such projects.

(3) Supervision of implementation of projects.

(4) Final evaluation (project audit).

In the execution of this programme, staff members participate primarily in the various missions required for the work indicated in (1) and occasionally in (2), (3) and (4).

The work to be done varies with the type of mission. The most frequent and important tasks are sector studies, identification and preparation. Sector studies and project identification missions serve the same basic purpose of identifying priority areas and project items for external financing but with different degrees of detail and depth of study.

A sector study is the fullest of studies and should pay particular attention to the long-term perspectives for educational development and pre-investment studies of particular aspects of types and/or levels of education to pave the way for further external financing. A project identification mission concentrates more on an analysis of the government's proposals for educational development, with a view to making recommendations

for alternative approaches if necessary, and identifying project items suitable for external financing. Both sector studies and project identification require a period of inquiry in the country and analysis at headquarters to prepare a report.

Mission members study a government's development plan, its educational policies and long-term objectives, analyse trends in enrolments, unit costs, graduation, possibilities of employment or further education. Based on these studies they make recommendations on alternative policies or immediate measures for improvement of the education and training system and propose projects suitable for educational reform and development.

Project preparation as the next state involves detailed study and description of each project item in terms of location and size, curriculum, teacher supply, schedule of accommodation and as reliable a cost estimate as possible of both capital and recurrent costs of the project. The document is written in the country and will constitute its formal request for a loan or credit.

Members of the division are expected to travel at least four months a year and work as a team consisting usually of four to five specialists. They may also be required to participate in bank appraisal or economic survey missions involving studies similar to the above though with greater emphasis on economic and financial aspects. They may also be required to participate in supervision missions or in a final project audit.

While under the supervision of the director of the division, members are responsible for the professional content of their work. Questions arising during project preparation are settled by them on the spot. They decide as a team on projects identified, subject to revision after a discussion with their colleagues in the division and other interested sectors in the secretariat. Each member of the division may, with sufficient experience, be called upon to act as mission leader.

Sector survey work generally requires two to three weeks' mission in the country while project preparation work may be completed during a single mission of four to five weeks, but may also spread out over a longer period of time with more frequent but shorter missions.

Within the framework of the above general duties, the agricultural educator has the following specific tasks:

(i) To review and propose improvements in existing facilities and organization of educational programmes in agriculture, including pedagogic methods, curricula and course content.

(ii) To make proposals for reforms and innovation, particularly with regard to non-formal education schemes.

(iii) To justify proposed expansions or new construction, establish schedules of accommodation and forecast teacher requirements.

(iv) Propose and prepare projects in out-of-school education in rural areas, particularly farmer training and agricultural extension, with the same degree of detail.

(v) When necessary he may also be called upon to carry out similar functions (i)-(iv) in other areas of natural resources (forestry, veterinary, fisheries, etc.).

Qualifications and experience required:

(1) Candidates should have maturity, breadth and variety of educational experience over a period of some years, having passed through successively more difficult and responsible assignments in education or training systems. Relevant experience in high-level planning offices would be an asset. Experience in developing countries is essential.

(2) In addition, candidates should have a high level of competence and experience in at least one area of educational specialization such as teacher training, curriculum construction, or agricultural extension.

(3) Candidates must have an advanced university degree in agriculture or a related subject and experience in the organization and administration of agricultural education programmes.

(4) Ability to negotiate and to work co-operatively with different cultural groups; ability for team work is essential.

(5) Candidates should be fluent in English, French or Spanish but have a good working knowledge, including ability to draft, in at least one of the other two languages.

Salary and allowances.—Initial appointment will be at P-5 grade with a net salary equivalent to US\$33,318 (\$30,776 if without dependants) per annum, payable mainly in French francs, plus the prescribed annual allowances, e.g. post adjustment, at present \$18,256 for staff members with dependants,

GAZETTE NOTICE No. 160

THE INDUSTRIAL COURT
CAUSE No. 48 OF 1981

Parties:

Kenya Chemical Workers' Union
and
Simbarite Limited

Issue in dispute:**Redundancy.**

1. Messrs. Simbarite Limited shall hereinafter be referred to as the Claimant and the Kenya Chemical Workers' Union shall hereinafter be referred to as the Respondents.

2. The parties were heard in Nairobi on 27th October, 1981, when the Court made the following ruling.

RULING

Notwithstanding any prior irregularities in the reporting of the trade dispute the fact remains that the Labour Commissioner has issued a certificate as required under the provisions of the Trade Disputes Act before the Industrial Court can accept and register a trade dispute. Furthermore, the Minister for Labour himself has referred the dispute to the Industrial Court under section 8 of the Trade Disputes Act. Under these circumstances it would not be proper for the Court to reject this dispute at this stage.

The Court, however, is satisfied that the parties have not met to discuss the matter of redundancy. The Court feels that they ought to meet and discuss this sensitive issue with a view to reaching an amicable settlement.

The Court has decided to give the parties a chance to do so and the Court accordingly lays down the following timetable to be strictly followed after which if the dispute is not settled, hearing will proceed:

- (1) Parties to meet together on or before 6th November, 1981.
- (2) If dispute not settled parties meet under the chairmanship of Chief Industrial Relations Officer before 17th November.
- (3) If dispute still not settled Respondents to file a detailed reply on or before 30th November, 1981. Hearing on 15th December, 1981, at 10 a.m.

The parties appeared again before the Judge of the Court on 15th and 30th December, 1981, when they informed the Court that they had reached a settlement and requested the Court to make an award by consent.

AWARD

3 By consent of the parties the Court makes the following award:

- (1) That 56 unionisable employees affected will be declared redundant in accordance with Clause 25 of the Collective Agreement signed between the parties on 31st October, 1980. Redundant employees will be given prior consideration for re-engagement by the company should a vacancy arise.
- (2) That the names of those affected will be in accordance with the attached list of employees.
- (3) That the case of nine other employees proposed for redundancy will be submitted to the Minister for Labour for appropriate action.

GAZETTE NOTICE No. 161

THE TRADE MARKS ACT

(Cap. 506)

NOTICE is given that any person who has grounds of opposition to the registration of any of the trade marks advertised herein according to the classes may, within 60 days from the date of this Gazette, lodge notice of opposition on Form TM. No. 6 (in duplicate) together with a fee of Sh. 50.

Notice is also given that official objection will be taken under Rule 21 (3) to all applications in which the specification claim all the goods included in any class unless the Registrar is satisfied that the claim is justified by the use of the mark which the applicant has made, or intends to make if and when it is registered. Where an applicant considers that a claim in respect of all the goods included in a class can be justified it will save unnecessary delay in examining applications if a claim is filed simultaneously with the application, accompanied in appropriate cases by supporting documents.

The period for lodging notice of opposition may be extended by the Registrar as he thinks fit and upon such terms as he may direct. Any request for such extension should be made to the Registrar so as to reach him before the expiry of the period allowed.

Formal opposition should not be lodged until after reasonable notice has been given by letter to the applicant for registration so as to afford him an opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Where it is stated in the advertisement of the applicant that the mark, upon its registration, is to be limited to certain colours, the colours are, as far as possible, indicated in the accompanying representations of the mark in the usual heraldic manner.

Representations of the marks advertised herein can be seen at the Trade Marks Registry, State Law Office, Nairobi.

Applications for registration in Part A of the Register are shown with the official number unaccompanied by any letter. Applications for Part B are distinguished by the letter B prefixed to the official number.

The sixteen applications appearing hereunder are proceeding in the name of HOUSE OF MANJI LIMITED, registered in Kenya, manufacturer, of Likoni Road, Industrial Area, P.O. Box 78032, Nairobi.
