THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED DEVELOPMENT OF JARAJILLA REFUGEE CAMP IN JARAJILLA DIVISION OF FAFI DISTRICT, NORTH- EASTERN KENYA

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA), has received an environmental impact assessment study report for the implementation of the proposed development of Jarajilla Refugee Camp in Jarajilla Division of Fafi District, North-Eastern Kenya.

UNHCR intends to construct a refugee camp at Jarajilla Division. The proposed site is an area measuring 4x5km (2,000ha in total), near Alinjgur in Jarajilla Division of Fafi District in North-Eastern Kenya. The camp is envisaged to accommodate 120,000 refugees in four zones of 30,000 refugees each. The zones would be separated from each other by firebreaks and green belts that extend up to 1km wide. The proposed project intends to:

- Set up warehousing facilities (Rubb Halls) for storage of food and non-food items.
- Procurement and distribution of parabolic and other types of solar cookers.
- Drill and equip 8 boreholes.
- Installation of rainwater harvesting structures (roof catchments and surface runoff).
- Laying of piping for water reticulation.
- Erecting over head steel water storage tanks.
- Construction of family and communal pit latrines.
- Installation of equipment for shredding and processing waste plastics into pellets Excavation and fencing of landfills for solid waste disposal.
- Constructing and equipping health centers.
- Procurement of medical drugs.
- Construction of incinerators for disposal of bio-medical waste.
- Procurement and distribution of shelter construction materials.
- Harvesting of soil for fabrication of shelter construction sun dried mud bricks in designated sites that will in turn serve as water harvesting dams.
- Improvement of road from Hagadera to Alinjgur trading centre and proposed camp site.
- Grading of access roads.

- Construction of community resource and training centers.
- Construction and equipping of education facilities.
- Provision of support to the Alinjgur community tree nursery to act as source of seedlings for planting in the proposed camp.
- Establishment of woodlots in designated areas.
- Planting of live fence around the camp.
- Build capacity of community based organizations to undertake environmental management activities and environmental awareness campaigns.
- Construction of reception centres.
- Construction of field office at Jarajilla center.

The project anticipates the following impacts and mitigation measures:

Possible Impact	Mitigation Measures
Pressure on natural resources arising from high population of refugees	<ul style="list-style-type: none"> • Relocation of over 12,000 refugees to Kakuma refugee camp in Turkana West District. • Proposed camp at Jarajilla is expected to ease prevailing congestion of refugees in the Dadaab refugee camp complex.
De-vegetation in search of shelter construction and compound fencing material	<ul style="list-style-type: none"> • Refugees to be provided with materials for roofing (GCI sheets & timber) and construction of shelter superstructure. • Refugees to be supported in fabrication of sun dried mud bricks for shelter construction. • Residential compounds to be live fenced. • Support to be provided to the Divisional Environment Committee to establish a cadre of natural resource use monitors / rangers drawn from the host community. • The green belt approach of rehabilitating degraded land will be implemented vigorously.
Land degradation arising from unplanned harvesting of soil for fabrication of mud-bricks for shelter construction	<ul style="list-style-type: none"> • Sites for soil harvesting to be designated jointly with the Divisional Environment Committee. • Support provided to host communities in transforming the soil harvesting sites to serve as water pans.
Deforestation in search of firewood	<ul style="list-style-type: none"> • Unregulated foraging of firewood by refugees in the camp periphery will be banned. • The ongoing organized and eco-friendly procurement of firewood from the host community for distribution to refugees will be extended to the new camp. • Monitoring of the ecological status of the firewood harvesting zones will be undertaken on a regular basis by an inter agency team. • Refugees will be provided with the Maendeleo and Rocket energy saving stoves that are fabricated for the Dadaab refugee programme. This initiative will be complemented by an awareness promotion of proven energy saving methods (ESD). • Measures to harness solar energy (provision of training and cooking devices) will be put in place.

<i>Possible Impact</i>	<i>Mitigation Measures</i>
Over abstraction of water from the Merti Aquifer	<ul style="list-style-type: none"> • A comprehensive study of the Merti Aquifer will be undertaken as a follow up on the one that was commissioned by UNHCR in 2003 to determine effects of abstraction by refugee camp boreholes. • One borehole will be dedicated for regular monitoring of the aquifer. • Harvesting of rain water through roof and surface run-off catchments will be facilitated.
Conflict between refugees and host community over pasture	<ul style="list-style-type: none"> • Census of livestock owned by refugees to be carried out. • Livestock management to be a component of the Comprehensive Environmental Management Plan for the Dadaab Refugee Camp Complex and its environs.
Pollution associated with unsanitary disposal of garbage and other solid wastes	<ul style="list-style-type: none"> • An Inter Agency Task Force on Camp Sanitation will be formed and supported. • Specific sites for garbage dumping will be designated, excavated and fenced. • Refugees will be rallied at house-hold and block levels to maintain camp cleanliness. • School going children will be sensitized on garbage management. • Communal camp clean up days to be designated. • Specific areas for dumping animal waste will be set aside, excavated and fenced. • The on-going project in Hagadera camp of re-cycling low density plastic wastes will be extended to cover the new camp.
Pollution arising from poor sanitation	<ul style="list-style-type: none"> • Each family will be supported with materials for construction of hygienic pit latrines. • Livestock will be slaughtered at purpose built slabs where meat will be inspected routinely. • Vermin will be controlled on a routine basis through spraying using icon. • Incinerators for disposal of medical waste will be put up in each medical facility.
Marginalization of host community interests	<ul style="list-style-type: none"> • Host community will be supported in rehabilitation of degraded land, either around the new camp or in the firewood harvesting zones, through implementation of projects on afforestation and range re-seeding. • Capacity of the Alinjgur Community Tree Nursery to enable it produce tree seedlings for sale to the refugee assistance programme will be enhanced. • Support will be provided to local Community Based Organizations expected to implement environmental management activities in the region. • A study on the Socio-economic impact of the refugee camp on the host community will be undertaken. This will inform appropriate measures to be implemented in support of host community livelihoods.

<i>Possible Impact</i>	<i>Mitigation Measures</i>
Need for effective coordination of environmental management activities	<ul style="list-style-type: none"> • An Environment Coordinator for the Dadaab refugee camp complex will be designated. • A comprehensive Environment Management Plan (EMP) for the Dadaab Refugee Camp complex and its environs will be developed jointly by the key stakeholders. • An Environmental Audit (EA) of the refugee assistance programme in the Dadaab refugee camp complex will be undertaken on an annual basis and recommendations arising there-from implemented.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED DEVELOPMENT OF LIQUEFIED PETROLEUM GAS (LPG) FILLING PLANT ON PLOT NO. 1271/611 ALONG MOMBASA ROAD MAVOKO MUNICIPALITY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Development of Liquefied Petroleum Gas (LPG) Filling Plant.

The proposed project involves the installation of 1No. Storage tank (35 metric tons) and an LPG Cylinder filling shed. The project is located on L. R. No. 1271/611 along Mombasa Road, Mavoko Municipality.

The project anticipates the following impacts and mitigation measures:

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Regulatory requirements	<ul style="list-style-type: none"> • Comply with the Energy Act, 2006, The Energy (Liquefied Petroleum Gas) Regulation, 2009, Scheme of Supervision and Control for Storage and filling of LPG according to KS 1938-4:2005 (Kenyan specifications for the construction, handling, storage and distribution of petroleum products KS 1938 as set out by the Kenya Bureau of Standards (KEBS)

<i>Possible Impact</i>	<i>Mitigation Measures</i>	<i>Possible Impact</i>	<i>Mitigation Measures</i>
Changes in hydrology/ impended drainage	<ul style="list-style-type: none"> • Proper Installation of drainage structures • Install cascades to break the impact of water flowing in the drains • Ensure efficiency of drainage structures through proper design and maintenance • Provide gratings to the drainage channels • Regular checks on any sludge along drainage channels • Visual checks of oil interceptors and drainage channels for any leaks 	Road safety	<ul style="list-style-type: none"> • Enforce speed limits for construction vehicles especially along road links leading to the site • Provide bill boards at the site/entrance to notify motorists about the development
Soil erosion	<ul style="list-style-type: none"> • Control any earthworks • Rehabilitate degraded environment to avoid siltation and wash offs. • Compact loose soils • Landscaping • Ensure management of excavation activities • Control activities especially during rainy conditions • Provide soil erosion control and conservation structures where necessary. • Proper disposal of excavated loose soil (black cotton soil) 	Public health and occupational safety	<ul style="list-style-type: none"> • Ensure proper solid waste disposal and collection facilities • Ensure effective wastewater management • Design of sewerage system should be as provided in the plans • Provide First Aid kits on the site • Sensitize residents/workers on environmental management • Ensure there is no poding to eliminate breeding of mosquitoes during construction • Workers should be trained on occupational health & safety and first Aid administration • Train staff on LPG handling • Sensitise workers on HIV and AIDS
Air pollution through dust and gaseous emissions	<ul style="list-style-type: none"> • Prohibit idling of vehicles • Water should be sprayed during the construction phase of excavated areas • Regular maintenance of construction plant and equipment • Engage sensitive construction workers. • Proper use of PPEs 	Fire safety training/ Emergency response procedures (ERPs)	<ul style="list-style-type: none"> • To enhance health and safety preparedness among stakeholders • Ensure equipment is in good working condition. • Put up emergency response contacts • Put up ERP notification instructions • Put up simple instructions on how to handle fires, product spills, LPG incidents, armed robbery and product contaminations
Noise pollution	<ul style="list-style-type: none"> • Maintain plant equipment (if present/used) • Construction activities to be restricted to daytime • Workers in the vicinity of or involved in high-level noise to wear respective safety & protective gear i.e. earplugs & earmuffs • Appropriate selection of machinery 	Record Keeping	<ul style="list-style-type: none"> • Collection and analysis of relevant environmental data at the site • Data of maintenance of fire fighting equipment • Monthly product reconciliation (stock loss control) • Staff Training records • Incidents and accidents registers • Weekly inspection records of oil water interceptor and drainage systems
Oil pollution	<ul style="list-style-type: none"> • Proper storage, handling and disposal of new oil and used oil and related wastes • Maintain plant and equipment to avoid leaks • Provide oil interceptors along the drains leading from LPG filling area 	Internal Audits	<ul style="list-style-type: none"> • Monitoring will involve measurements, observations, evaluations, assessment of changes in water quality, waste management, Noise levels, contractor safety etc
Water resource	<ul style="list-style-type: none"> • Management of water usage. • Recycling of water at the construction phase where possible • Use of water conservation signs at the wash rooms and install water conserving taps 	Fire outbreak	<ul style="list-style-type: none"> • Install fire-fighting equipment as provided by Municipal fire department. • Sensitize the residents on fire risks i.e. conduct regular fire drills • Adapt effective emergency response plans • Provide emergency numbers at strategic points
Contractors lay down area	<ul style="list-style-type: none"> • Special attention should be paid to the sanitary facilities on site especially disposal of human waste. • Garbage should be disposed off in accordance with Municipal Council requirements 	Water Quality/Waste Management	<ul style="list-style-type: none"> • Follow NEMA regulations
		Security	<ul style="list-style-type: none"> • Provide security guards and facilities during construction period • Security men should always be available to alleviate cases of robbery.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED W & K WATERFRONT COMPREHENSIVE DEVELOPMENT ON PLOT NO. 12239 & 12240, NYARI ESTATE, RED HILL ROAD NAIROBI

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed W & K Waterfront Comprehensive Development.

The proposed project involves construction of 2 office parks, a five Star hotel, hotel suites, a large shopping mall with an office tower, petrol station, a nursery school, a community hall with playgrounds and a Sewer treatment plant and various residential units. The proposed project will be located on land measuring approximately 120 acres. The proposed project is located along Redhill road, Nyari Estate Nairobi.

The project anticipates the following impacts and mitigation measures:

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Air pollution	<ul style="list-style-type: none"> Control speed and operation of construction vehicles. Prohibit idling of vehicles. Spray water on excavated areas. Maintenance of construction plant and equipment. All bare areas should be landscaped after construction. Workers should be provided with dust masks if working in sensitive areas.
Water course (river)	<ul style="list-style-type: none"> The proponent has proposed a 30m riparian zone from the course of the river. Conservation of the existing dam.
Noise pollution	<ul style="list-style-type: none"> Construction should be carried out only during daytime. Workers to wear ear muffs if working in noisy section. A silencer to be installed on machinery as is necessary. Shield the site and avoid /reduce the use of very noisy equipments.
<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Ecological considerations	<ul style="list-style-type: none"> During the decommissioning stage the

(flora & fauna)

proponent shall rehabilitate the land by removing any unnecessary materials that shall be covering the land and preventing the natural biodiversity.

- Rehabilitate the land by planting trees and ornamental flowers on the disturbed areas.
- There are also scattered exotic trees within the proposed plot to be cut although a selective strategy will be applied in that those not interfering with the construction layout plans will be left intact. Also after the construction phase landscaping will be done.

First aid

- A well stocked first aid kit shall be maintained during construction and occupational phases.

- Presence of a certified nurse.

Soil erosion & compaction

- Provide soils conservation structures on the areas prone to soil erosion to reduce impact of run-off.
- All bare areas should be well landscaped after completion.
- The proponent at the decommissioning phase will rehabilitate the land by loosening the soil which would be compacted by the project.
- The contractor will always use a predetermined route to the site
- Unnecessary heavy machines will be avoided.
- Provide soil conservation structures on the areas prone to soil erosion mostly to reduce impact by the run-off.
- Re-surface open areas after completion of the project and introduce appropriate vegetation.
- Provide suitable storm water drainage channels to effectively discharge water to safe areas. Channels need to be regularly maintained and repaired to avoid point discharge incase of breakages or blockages.
- Conduct landscaping after the project completion to maximally control any possible chance of soil movement.

Solid waste

- Construction debris should be collected by a privately contracted waste collection company or by Nairobi City council.
- Debris resulting from demolition process should be disposed off appropriately
- Domestic waste should be collected by a privately contracted waste collection company or by the council.
- Proponent should ensure the construction of a central waste collection point with bulk storage facilities.
- The site should have waste receptacles at convenient points to prevent littering during occupation.
- During operation phase the proponent should ensure waste is collected and disposed appropriately.

Possible Impacts

Effluent disposal

- Routine check ups and monitoring on the sewer treatment plant to avoid

	leakages and blockages.
Waste water (run off)	<ul style="list-style-type: none"> • Proper construction of the sewer treatment plants will be done to meet the standards required by Nairobi City Council. • Quality building materials will be used to meet the standards of Kenya Bureau of Standards (KEBS). • Monitor effluent quality regularly to ensure that the stipulated discharge rules and standards are followed. • Construction of well maintained drains to effectively manage surface run-off. • Presence of well maintained sanitary facilities for the workers and visitors to the site. • During construction, the design of the drainage system should ensure that surface flow is drained suitably into the public drains provided to control flooding within the site. • Drainage channels should be installed in all areas that generate or receive surface water such as car parking, drive ways and along the building block-edges of the roofs. • Channels should be covered by approved materials to prevent occurrence of accidents and entry of dirt that would compromise flow of run-off. • Paving of the side walkways, driveways and other open area should be done using pervious materials to encourage recharge and thus reducing water run-off volume. • During construction and operation phase the proponent should ensure that liquid waste is disposed appropriately so that it doesn't get its way to the nearby river.
Oil leaks and spills	<ul style="list-style-type: none"> • Machinery should be well maintained to prevent oil leaks on the ground. • Contractor should have a designated area where maintenance is carried out and that is protected from rain water that would carry the oil to the river. • All oil products should be stored in a site store and handled carefully.
Fire preparedness	<ul style="list-style-type: none"> • Fire fighting drills to be carried out regularly. • Fire fighting emergency response plan. • Ensure fire fighting equipments are in place and regularly maintained, serviced and inspected. • Fire hazard signs and directions to emergency exit, route to follow and assembly point in case of any fire incidence.
Traffic density and management	<ul style="list-style-type: none"> • Proper signage put in place to notify neighbours of the activity and presence of heavy vehicles and to direct traffic. • Enforce speed limits for vehicles entering and exiting the site. • Provide bill boards to notify motorists of the development. • During operation phase indicate speed limits within the park to notify motorist.
Possible Impacts	<i>Mitigation Measures</i>
Occupational health and safety	<ul style="list-style-type: none"> • All workers should be provided with full protective gear. These include working

boots, overalls, helmets, goggles, earmuffs, masks and gloves.

- Construction crew at the site will be sensitized on social issues such as drugs, alcohol diseases.
 - A first aid kit should be provided within the site. This should be fully equipped at all times and should be managed by qualified person.
 - The contractor should have workmen's compensation cover. It should comply with workmen's compensation Act, as well as ordinances, Regulations and Union Agreements.
 - Adequate sanitary facilities should be provided and standard cleanliness maintained.
 - Food handlers preparing food the workers at the site should be controlled and monitored to ensure that food is hygienically prepared.
- Security
- Provide security guards and facilities during construction and operational phases.
 - Control of secondary businesses.
 - Adequate lighting and an alarm system installed at strategic points.

The full report of the proposed project is available for inspection during working hours at:

- Director General, (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Permanent Secretary, Ministry of Environment and Natural Resources, N.H.I.F. Community, P.O. Box 30521, Nairobi.
- Provincial Director of Environment, Nairobi Province.
- District Environment Officer, Nairobi West District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director General, NEMA, to assist the authority in the approval process of this project.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED MICRO-HYDROELECTRICITY PROJECT, RUIRU RIVER AT MUGUTHA, RUIRU DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Micro-hydroelectricity project.

The proposed project will entail construction of a 20kw off-grid small hydropower station on the perennial Ruiru River, at Riverside village, Mugutha Sub-location, Ruiru Location, Ruiru Division in Ruiru District.

The project anticipates the following impacts and mitigation measures:

<i>Possible Impacts</i>	<i>Mitigation Measures</i>	<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Soil erosion and Siltation	<ul style="list-style-type: none"> The contractor shall undertake to rehabilitate the degraded environments especially the reconstructed/redeveloped part of the station. The dug-out areas and resulting loose spoil, which are prone to erosion shall be rehabilitated to include grass planting, as the construction progresses to avoid the soil being washed down slope. 		<p>be taken should the design integrity be compromised by unavoidable natural circumstances.</p> <ul style="list-style-type: none"> Likely flooding shall also be checked as a result.
Air pollution from Dust	<ul style="list-style-type: none"> Dust generation shall be much localized and care shall be taken to ensure health and safety of the workers is not compromised. Water shall be sprinkled on to the disturbed soil to reduce flying dust. Employees/construction workers shall be provided with personal protective equipment(PPE), to reduce possible dust inhalation. 	Unaesthetic derelict land	<ul style="list-style-type: none"> Proper site restoration or reconstruction measures shall be carried out in the event of complete phase-out of the project. Landscaping and plant enrichment shall be done at phase-out. Environmental, health and safety legal requirements shall be followed.
Noise pollution and vibration	<ul style="list-style-type: none"> The contractor shall ensure that the require noise thresholds are not exceeded during the construction phase. Noise surveillance instruments shall be availed periodically to check on any excesses. Much of the vibrating works such as boring shall be worked off site and only if necessary will such works be done on site, but within limited time. The public shall be adequately notified through notices and community meetings. 	<p>The full report of the proposed project is available for inspection during working hours at:</p> <p>(a) Director General, (NEMA), Kapiti Road, off Mombasa Road, P.O. IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
