TASKFORCE ON WILDLIFE SECURITY

APPOINTMENT

IT IS NOTIFIED for the general information of the public that the Cabinet Secretary for Environment, Water and Natural Resources has appointed a taskforce consisting of the following—

Nehemiah Rotich (Amb.)—(*Chairperson*);

Members:

Stephen Manegene,
Peter Musanga Pamba,
Tom Lalampaa,
Samuel Muraya Kariuki (Major (Rtd.)),
Peris Boit,
Patrick Kiswi,
Lucy Ambasi,
Samson Silatoi,
Simon Mwangi,
Christopher Ombega Mosot,
Nigel Hunter,
Helen Nzainga,

Joint Secretaries:

Benson Ochieng,
Faith Tabu Pesa,

Terms of Reference:

1. The terms of reference of the taskforce are to—
 - (a) identify and profile the various security threats to wildlife and their habitats;
 - (b) examine the implementation of security programmes in relation to all protected areas and wildlife areas across the country;
 - (c) assess the adequacy and effectiveness of the security arrangements, equipment and facilities vis a vis the emerging challenges;
 - (d) assess the staffing strength of the security personnel deployed to provide intelligence and security for wildlife and the protected areas;
 - (e) assess the management and security implications of other agencies present in jointly managed areas;
 - (f) examine the implementation of the anti-poaching intelligence system or procedures and constraints thereof;
 - (g) assess the work environment for wildlife management and security personnel including remuneration;
 - (h) assess the operational strategies of the Kenya Wildlife Services in relation to community and private sector engagement, public image and conservation approach; and
 - (i) make appropriate recommendations on strategies for the strengthening of the security management of wildlife and their habitats, including systems re-engineering.
2. In the performance of its functions, the Taskforce—
 - (a) shall hold such number of meetings in such places and at such times as the taskforce shall, in consultation with the Cabinet Secretary, consider necessary for the proper discharge of its functions;
 - (b) may use official reports of any previous investigations, policies and legislation relevant to its mandate;
 - (c) shall conduct public hearings and open forums and receive views from members of the public and receive oral and written submissions from any person with relevant information; and
 - (d) may carry out or cause to be carried out such studies or researches as may inform the taskforce on its mandate.
3. The taskforce shall regulate its own procedure.
4. The Taskforce shall prepare and submit to the Cabinet Secretary, its work plan and progress report within the first week and third week of its appointment respectively, and its final report within three months from the date of its appointment.
5. The Secretariat of the Taskforce shall be based at the State Department of Environment and Natural Resources, the National Hospital Insurance Fund Building, 12th Floor, Ngong/Ragati Road, P.O. Box 30126, Nairobi.

Dated the 13th January, 2014.

JUDI W. WAKHUNGU,
*Cabinet Secretary,
Ministry of Environment, Water and Natural Resources.*

GAZETTE NOTICE No. 508

THE COUNTY GOVERNMENTS ACT

(No. 17 of 2012)

THE COUNTY GOVERNMENT OF NYAMIRA

NYAMIRA PUBLIC SERVICE BOARD

PROGRESSIVE REPORT

Introduction:

The County Public Service Board is a creature of the County Governments Act (No 17 of 2012), section 57. The County Governments Act emanates from various Articles of the Constitution

and in particular Article 235 which states that “A County Government is responsible within a jurisdiction of uniform norms and standards prescribed by an act of parliament for—

- (a) Establishing and abolishing offices in its public service;
- (b) Appointing persons to hold or act in those offices, and confirming appointments, and
- (c) Exercising disciplinary control over and removing persons holding or acting in those offices;

Section 57 of the County Governments Act then establishes the County Public Services Board in accordance with the provisions of Article 235 of the Constitution of Kenya 2012.

The Composition of the Board

The Nyamira County PSB comprises of seven members namely

- | | |
|----------------------|-------------------|
| (1) Peter Nyakundi | —Chairman |
| (2) Beatrice Siribah | —Vice Chairperson |
| (3) Robert Mochache | —Secretary |
| (4) Steven Oboso | —Member |
| (5) Daniel Osebe | —Member |
| (6) Mary Nyamwaro | —Member |
| (7) Peter Muga | —Member |

Assumption of Office and Board Activities to Date

The County Public Service Board took office on 7th June, 2013 when the members were sworn in alongside the Executive Committee Members (ECMs). The board was faced with several challenges especially in acquiring office space and finding suitable working tools and personnel.

(1) The Boards Activities:

The first in-house induction cum orientation program was undertaken alongside the Executive Committee Members and other department heads on 17th June, 2013 within the county and in which occasion the PSB seized the moment to highlight the values and principles of good governance.

- (2) Training for Chiefs, Department directors, members of the county Assembly, ECMS & Transition Authority officers on values and principles that guide the public officers as enshrined under Acts 10 and 232 of the Constitution of Kenya took place at Kisumu in Conjunction with Results for Africa Institute (RAI) in early August 2013. The Public Service Board took an active role in this two weeks training programme.

(3) Second Induction:

The Public Service Commission in conjunction with the Transition Authority inducted the Public Service Board members from four (4) counties at the Kisii staff Training Institute in early September for a two days training. The participants included all Public Service Board members from Kisii, Bomet, Migori and Nyamira. The facilitators were drawn from Public Service Commission, Transition Authority and Retirement Benefit Authority.

(4) The County Bonding Retreat:

In mid-October 2013, The Nyamira Public Service Board, participated in a bonding retreat held by the county in Mombasa in which powerful speakers, for the Ministry of Devolution and Kenya School of Government trained the officers on various issues ranging from Human Recourse Management issues to etiquette

(5) Strategy Formulation Workshop:

The Nyamira Public Service Board in early October 2013 took one week in-house retreat to draw up its strategic plan and work plan. The roadmap for the Board has now been drawn for the entire financial year.

(6) The County Public Service Boards Consultative Forum:

All the Nyamira PSB members participated in a consultative forum organized for all Service Boards held in Mombasa

under the auspices of Laptrust and Transition Authority from 19th to 22nd November, 2013. In the said work shop, the members of the board took an active role in discussing the thematic areas and challenges which the Boards country-wide is facing.

Meeting the Board's Mandate:

The main mandate and functions of the County Public Service Boards are enshrined under Section 59 of the County Government Act, 2012.

The very core mandate is largely “*To establish, abolish and exercise disciplinary controls over and persons deemed fit or unfit to hold offices in the public sector within the County.*”

Despite several challenges The Nyamira County Public Service Board has been facing, the Board has however managed within the duration it came to office to December 2013, to advertise and recruit competitively able persons to hold various key offices as per the demands of various devolved ministries. The positions so far filled by the Board include the following:

To advertise and recruit competitively:

- (a) Ten Chief officers,
- (b) Principal Finance Officer.
- (c) Head of Human Resource Management.
- (d) Head of Supply Chain Management.
- (e) Head of Treasury (accounts).
- (f) Head of Treasury (audit)
- (g) Chief Human Resource Management officer.
- (h) Various Technical Officer like:
 - Civil Engineers
 - Quality Surveyors
 - Architectural Assistants
 - Physical Planners
 - Land Valuers etc.
- (i) Senior Personal Secretaries
- (j) Personal Secretaries and,
- (k) Town administrators.

The above urgent Key positions having been filled, several other positions have been advertised and currently interviews are ongoing; for Community Policing Officers.

The other positions which have been advertised and which are awaiting interviews includes:

- (a) ECD Teachers.
- (b) Agricultural Assistants and Technicians.
- (c) Youth and village Polytechnic instructors.

CHALLENGES.

The Board is currently faced with the following challenges:-

- (i) Lack of proper or sufficient office space.
- (ii) Insufficient office equipment
- (iii) Internet connectivity.
- (iv) Insufficient official transport.
- (v) Lacks of fully operational secretariat to enable the board deliver its mandate.
- (vi) Insufficient budget to meet all its activities.

RECOMMENDATIONS

So as to be able to fully deliver its mandate without hitches, we recommend that the above challenges be tackled:

- The Board to be availed sufficient and conducive premises for where it shall operations.
- The Board to be facilitated with sufficient official transport for the officers to be able to roll out to all sub counties to practically disseminate the values and principles of good public servantly as enshrined in the constitution.
- Political goodwill and support from all quarters on the Board activities.
- Sufficient budgeting for the board's activities such as training, induction and continuous human resources development which are very pertinent and critical to the boards mandate to be met.

Dated the 17th January, 2014.

MR/37948855

ROBERT M. MOCHACHE,
Board Secretary/CEO.

GAZETTE NOTICE No. 583

THE COMPANIES ACT

(Cap. 486)

IN THE MATTER OF GALAXY PHOTO STUDIO LIMITED

SHAREHOLDERS' VOLUNTARY WINDING-UP

NOTICE is given that at the extraordinary general meeting of the company held on Monday, 31st December, 2013, the following resolutions were passed.

Special Resolution:

"That the company be wound up voluntarily".

Ordinary Resolution:

That Ndungi Mungai & Company, P.O. Box 64194-00620, Nairobi, is appointed liquidator for the purposes of such winding-up.

Any claimants of the company are required on or before Friday, 1st April, 2014, to send full particulars of all claims they may have against the company addressed to the undersigned, the liquidator of the company, in default thereof they will be excluded from the benefit of any distribution made.

Dated the 17th January, 2014.

NDUNGI MUNGAI & COMPANY,
Liquidator.

GAZETTE NOTICE No. 584

THE CO-OPERATIVE SOCIETIES ACT

(Cap. 490)

APPOINTMENT OF LIQUIDATOR

(Extension Order)

WHEREAS by an extension order dated 25th January, 1999, George Ngigi Kinyanjui of Ngigi & Partners, Certified Public

Accountants (K), of P.O. Box 50281, Nairobi, was appointed to be liquidator of Kagunduini Coffee Growers Co-operative Society Limited (CS/391).

And whereas the said George Ngigi Kinyanjui, of Ngigi Partners have not been able to complete the liquidation.

Now therefore, I extend the period of liquidation with effect from 20th January, 2014, for another one (1) year for the said liquidator to act as liquidator in the matter of the said Co-operative Society.

Dated the 20th January, 2014.

P. L. M. MUSYIMI,
Ag. Commissioner for Co-operative Development.

GAZETTE NOTICE No. 585

THE CO-OPERATIVE SOCIETIES ACT

(Cap. 490)

APPOINTMENT OF LIQUIDATOR

(Extension Order)

WHEREAS I, appointed Samwel Wambugu, Senior Co-operative Auditor, of P.O. Box 362, Maua, to be liquidator of Igembe Farmers Co-operative Society Limited (CS/412) (in liquidation) and whereas the said Samwel Wambugu, has not been able to complete the liquidation.

Now therefore, I extend the period of liquidation with effect from 6th January, 2014, for another period not exceeding one (1) year for the said liquidator, to act as liquidator in the matter of the said Co-operative Society.

Dated the 6th January, 2014.

P. L. M. MUSYIMI,
Ag. Commissioner for Co-operative Development.

GAZETTE NOTICE No. 586

THE KENYA INFORMATION AND COMMUNICATIONS ACT
(Cap. 411A)

APPLICATION FOR LICENCES

NOTICE is given that the following applicants have, pursuant to the provisions of the Kenya Information and Communications Act, made applications to the Communications Commission of Kenya for the grant of licenses as appears against their respective names.

<i>Name and Address</i>	<i>License Category</i>
Higher Heights Limited, P.O. Box 6038-00100, Nairobi	Intra City Postal/Courier Systems and Services
Foresight Ventures Limited, P.O. Box 25929-00100, Nairobi	Intra Country Postal/Courier Systems and Services
Satima Sacco Society Limited, P.O. Box 238-20319, South Kinangop	Intra Country Postal/Courier Systems and Services

The reason for the grant of the license is to enable the applicants to operate and provide Postal/Courier Systems and Services as indicated above against their respective names. The grant of the licenses may affect public and local authorities, companies, persons or bodies of persons within the country.

Any public or local authority, company, person or body of persons desirous of making any representation on or objection to the grant of that license as aforesaid must do so by letter addressed to the Director-General, Communications Commission of Kenya, Waiyaki Way, P.O. Box 14448 00800, Nairobi indicating the "License Category" on the outside of the cover enclosing it on or before expiry of thirty (30) days from the date of this notice and must forward to the applicant a copy of such representation or objection.

Dated the 28th January, 2014.

FRANCIS W. WANGUSI,
Director-General.

GAZETTE NOTICE No. 587

THE PHYSICAL PLANNING ACT

(Cap. 286)

COMPLETION OF PART DEVELOPMENT PLAN

(PDP No. W95/2013/01 for Existing Site for Butere Law Courts and Magistrate Residence)

NOTICE is given that the above-mentioned development plan has been completed.

The development plan relates to land situated within Sub-county of Butere, Kakamega County.

Copies of the part development plan has been deposited for public inspection at the offices of the County Physical Planning Officer, Kakamega and Sub-County Administrator's office, Butere Sub-County.

The copies so deposited are available for inspection free of charge by all persons interested at offices of County Physical Planning Officer, Kakamega and Sub-County Administrator's office, Butere Sub-County, between the hours of 8.00 a.m. to 5.00 p.m. Monday to Friday.

Any interested person who wishes to make any representation in connection with or objection to the above-named part development plan may send such representations or objections in writing to be received by the County Physical Planning Officer, P.O. Box 767, Kakamega, within sixty (60) days from the date of publication of this notice and such representation or objection shall state the grounds on which it is made.

Dated the 6th December, 2013.

MR/3794836
J. K. NGETICH,
for Director of Physical Planning.

GAZETTE NOTICE No. 475

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED NAMANGA-MESHANANI-AMBOSELI
ROAD (C103)

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Kenya National Highways Authority (KENHA)) intends upgrade to bitumen standard the Namanga-Meshanani-Amboseli Road (C103), which is approximately 117.78 kilometers long and bypasses the Amboseli National Park on the northern side to link up with the Kimana-Loitoktok road at the Lemongo junction.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Environmental, Socio-economic and Ground Survey	<ul style="list-style-type: none"> Create sufficient awareness on the proposed Road to the Local Community to prevent conflicts between the contractor and the residents. Avoid environmentally sensitive areas such as swamps and riparian areas. Traverse virgin land only when necessary.
Land Acquisition (conflicts between contractor and land owners, destruction of structures, separation of families)	<ul style="list-style-type: none"> Create sufficient awareness on the proposed road to the community. Sufficient negotiation on compensation for loss of land or property. Adequate time to be given to the community members to move. Design of foot bridges. Preparation of a Resettlement Action Plan (RAP).
Clearing of Vegetation (loss of flora and fauna, increased soil erosion, interference with wildlife dispersal area)	<ul style="list-style-type: none"> Control earthworks. Install drainage structures properly. Install erosion control measures such as grouted stone pitching and rock fill gabion works to protect culvert inlets and outlets. Landscape embankments and re-vegetate gravel sites with grass and indigenous shrubs. Ensure excavation activities on sections with high filling and deep cutting, slopes are covered by stone walls and planted with grass and shrubs. Damaged existing drainage systems should be rebuilt or rehabilitated by suitable methods. Map wildlife corridor areas.
Solid Waste Production	<ul style="list-style-type: none"> Solid wastes should be stored in properly maintained and covered sanitary bins or pits. Solid wastes should be separated onsite before disposal offsite. Waste Earth material, should be reused as earth fills by the contractors or community members. Creation of awareness to the general public on the risks posed by such wastes. A record of movement of wastes generated by the project should be made

	available for inspection.
Liquid waste production	<ul style="list-style-type: none"> • A NEMA licensed waste disposal contractor should be contracted to remove wastes from the project site to designated waste disposal sites. • Sanitary latrines should be constructed within the staff quarters. These should be at least 100m away from any water body. • Kitchen effluent should be disposed of either in the latrines or in sanitary pits dug into the ground with adjacent soak away pits.
Emissions into the Atmosphere (dust, exhaust emissions)	<ul style="list-style-type: none"> • The construction workers to be provided with dust masks. • Watering of dusty areas should be at least five times a day. • Ensuring that un-roadworthy vehicles are not used by motorists.
Injuries and fatalities from speeding of motor vehicles	<ul style="list-style-type: none"> • Erecting road furniture such as road signs, guard rails, and road markings. • Bumps and rambles should be put in residential areas or near schools, hospitals etc. • Creating awareness to local residents on proper use of the road, when and where to cross.
Adjacent Land fragmentation	<ul style="list-style-type: none"> • The owner of the land should ensure that they have the original land ownership documents from the Ministry of Lands. • Thorough land search by land owner, potential buyer and Ministry of land personnel.
Security	<ul style="list-style-type: none"> • Tightening of security within the area. • Setting up of a centralized police and KWS post along the proposed project route to minimize poaching. • Sensitizing locals on security and insisting that they take security measures such as always locking their doors, installing alarm systems, having the contacts of the nearest police station and hospitals in case of any emergency.
Borrow-pits and rock quarries	<ul style="list-style-type: none"> • Implementation of the reinstatement plan, which should include: removal, stockpiling, protection measures, e.g., reseeding with creeper grasses or covering with tarpaulins, and subsequent replacement of topsoil and overburden. Inert construction rubble, oversize rock and other non-biodegradable, non-hazardous materials may be used for infilling excavation site. Woody materials and waste bitumen asphalt is not to be used for infilling. • Restoring by reshaping to original contours and restoring natural drainages, to the degrees feasible, and compacting replaced overburden and topsoil. The final face must not be a safety hazard to trespassers or livestock. • Scarifying access-road surfaces prior to reseeding. • Free-flowing drainage at and within reinstates sections and sites. • Soil erosion control. • Re-vegetation plan to include lists of indigenous grass, shrub and tree species. • Operational safety measures. • A decommissioning plan at closure, specifying procedures for removing all

work-related machinery and equipment/supplies and cleaning the site/environs.

- Inspect and repair spill-retention systems to assure their structural integrity and impermeability.
- Inspect and repair all closure fences.
- Inspect and repair storm water retention systems to assure their effectiveness in retaining sediments onsite.
- Approval of final borrow-pit and quarry.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Kajiado County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

B. M. LANGWEN,

for Director-General,

MR/3794705

National Environment Management Authority.

GAZETTE NOTICE NO. 476

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED COMMERCIAL DEVELOPMENT ON PLOT L.R. NO. 1/109 ALONG GEORGE PADMORE ROAD, KILIMANI AREA, NAIROBI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Jomo Kenyatta University of Agriculture and Technology Staff Retirement Benefits Scheme) is proposing a commercial development consisting of three basement floors that will provide over 250 parking spaces for the tenants and visitors, ground plus fifteen typical floors above, two wings office spaces per floor with a central lobby, common lift shaft and double staircases on either side of the wings, slab roof top that shall have water storage tanks and a communication room.

Below is a summary of the anticipated impacts and the proposed mitigation measures:

<i>Impact</i>	<i>Mitigation Measures</i>
Solid waste management	<ul style="list-style-type: none"> • Construction waste to be separated and disposed off appropriately • Construction areas to be kept clean with waste disposal facilities at strategic locations • All litter and waste to be removed on completion of the construction phase • Promotion and creation of awareness among the workers and residents to embrace reusing, reduction and recycling of the generated waste

- Proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements
- Construction of proper drainage systems within the site
- Erection of siltation barriers
- Prevention of pollution during construction activities to minimize effects that may arise during surface runoff
- The drainage systems must be properly maintained to ensure no solid waste is carried away downstream to protect other ecosystem
- Limit construction traffic movement and operation to necessary activities only
- Routine maintenance of vehicles and other machinery to reduce emissions
- Minimizing transportation activities to between 8am and 5pm only
- Construction drivers and machinery operators to switch off engines not being used
- Sprinkle the construction site with water to keep dust levels down
- Excavating only necessary areas
- Containment of soil heaps to prevent erosion caused by runoff
- Use of light machinery at the site during construction process
- Re-vegetate exposed areas on the site through proper landscaping
- Effluent discharge shall be channeled to the main sewer line that serves the area
- Recycle waste water from the estate and reusing it before direct disposal
- All effluent to meet NEMA standards for discharge
- Provide a riparian site of thirty metres from the river that can be converted into a recreational park to protect the ecosystem from possible pollution.
- Ensure that all the drainage systems within the estate are properly maintained and cleaned to avoid solid waste being washed away into Athi river
- Ensure proper demarcation and delineation of the project area to be affected by construction works
- Designate access routes and parking within the site
- Preserve the existing trees within the project site and if possible plant more trees of fast maturity period within the site
- Design and implement an appropriate landscaping programme to help in re-vegetation of part of the project area after construction

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Nairobi County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

Z. O. OUMA,
for Director-General,
National Environment Management Authority.

GAZETTE NOTICE NO. 477

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED UPGRADING OF LODWAR– LOKICHOGIO–NADAPAL (A) ROAD IN TURKANA COUNTY INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent (Kenya National Highways Authority) is proposing to upgrade Lodwar–Lokichogio–Nadapal (A) road in Turkana County. The project road commences at Lodwar, at the roundabout on the road from Kitale, and ends at Nadapal at the border with South Sudan. Lokichogio – Nadapal road has a total length of 240km. From Lodwar the road runs in a north westerly direction generally traversing flat to rolling terrain. It passes through the settlement of Uki and the towns of Kakuma and Lokichogio.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Drainage and Soil erosion	<ul style="list-style-type: none"> • Optimized new drainage structure positions and improved capacities of the structures used in combination with specific erosion protection works. • Culvert outfall should be lined for at appropriate distance, especially after Lokichogio towards Nadapal. • Scour checks should be constructed alongside drains on steep slopes.
Air quality	<ul style="list-style-type: none"> • Use dust suppressants as far as possible, especially within the towns. • All workers should wear dust masks at sites of high dust generation. • Warn the neighbourhood of dust generation beyond normal levels.
Soil pollution	<ul style="list-style-type: none"> • Mitigation actions will mainly involve maintenance of machinery, bunding the garage, and directing spills to an oil sump which should be emptied into a designated final disposal site.
Construction water sources	<ul style="list-style-type: none"> • Acquire WARMA permit for water abstractions. • Water abstraction to be subjected to separate EIA. • A set of factors to consider for identifying water sources to be handed over to the community have been presented. These are to avoid future conflicts.
Flora	<ul style="list-style-type: none"> • Use of firewood by the workers housed in camps, should be controlled. • Workers should be encouraged to use

alternative sources of cooking fuel.

- Construction workers are allowed to use cleared vegetation materials for firewood.
- Management of *Prosopis juliflora*, an invasive weed that colonizes the road edges following soil disturbance could be managed by incorporating labour based clearance of the weed on a regular basis.
- Fauna
 - Awareness creation amongst the local people and the construction workers of laws that relate to wildlife hunting and consumption, and the importance of wildlife as a natural resource and heritage.
 - Prudent management of construction waste.
- Noise and ground vibration
 - Minimize noise, especially noise from heavy equipment when construction is ongoing through Lodwar, Kakuma and Lokichogio.
 - Special care should be taken when construction is taking place near sensitive receptors such as schools and hospitals (most sensitive sites – Lodwar, Kakuma, and Lokichogio).
 - To the extent possible, heavy vehicles should not be used at night across populated areas (Lodwar and Lokichogio).
- Visual intrusion
 - Progressively rehabilitate quarries and borrow pits as work progresses.
- Waste Management
 - Develop a waste management plan for use during the entire construction period.
- Urbanization
 - Proactive physical planning in the area.
- Public Health
 - Integrate HIV AIDS and STIs awareness programme amongst the workers.
- Road safety
 - Install elaborate road safety signs along the entire road; mount road safety awareness campaigns amongst the locals.
- Conflicts
 - Involve the local communities while selecting material sites

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Turkana County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

Z. O. OUMA,
for Director-General,

MR/3794704

National Environment Management Authority.

GAZETTE NOTICE No. 478

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT
(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED MALEWA BAY SERVICE STATION ON
LAND BLOCK NO. 20/17/NAIVASHA/MARAIGUSHU IN
NAKURU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Malewa Investment Company) is proposing to construct a petrol service station with the following components:

- Four pump isles
- Oil Interceptor
- Air and water points
- An office section
- Sanitary facilities
- A septic tank and a soak pit
- Firefighting equipment
- Associated piping work
- Compressor Generator Room
- Two underground petroleum storage tanks (UPSTs)
- A heavy duty covered manhole for each of the UPSTs
- Mini market and Fast
- Car wash open to sky

Below is a summary of the anticipated impacts and the proposed mitigation measures:

Impacts	Mitigation Measures
Air Pollution & Dust Generation	<ul style="list-style-type: none"> • Sprinkle water on dusty spots & use dust nets to reduce spread of generated dust • Use well maintained vehicles & machinery that does not produce excessive fumes
Soil Disruption	<ul style="list-style-type: none"> • Excavation will be limited to targeted areas earmarked for construction. • Other areas will be improved • Proper drainage structures will be installed
Oil Spills & Leaks	<ul style="list-style-type: none"> • Oil tanks fitted with overfill prevention devices to be installed • Continuous inventory monitoring of stock to help detect leaks • Provide adequate supply of dry sand for containing spills • Proper training for employees on oil spill management
Fire Risk	<ul style="list-style-type: none"> • Install fire detection & control systems as well as properly maintained fire extinguishers • Ensure warning & information notices are in place & legible
Noise and vibration	<ul style="list-style-type: none"> • Usage of manual labour as much as possible and avoid unnecessary hooting of vehicles. • Ensure all generators and heavy machinery are insulated or placed in enclosures to minimize noise levels. • Comply with L.N. 25: Noise prevention & control rules, 2005 & L.N. 61: noise & vibration pollution regulation, 2009
Solid waste generation	<ul style="list-style-type: none"> • Use of an integrated waste management system options including source reduction, recycling, composting, reuse & incineration • A private NEMA licensed waste handler to be contracted to handle waste
Worker accidents and	<ul style="list-style-type: none"> • All workers will be sensitized & trained on occupational safety & health issues &

- health risks on how to handle accidents
- A comprehensive contingency plan will be prepared on accident response
 - Adherence to safety procedures will be enforced
 - All workers to be Provided With Personal Protective Equipment

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.
- (c) County Director of Environment, Nakuru County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED 224 APARTMENTS ON PLOT L.R. NO. MN/II/69 IN MISHOMORONI AREA, MOMBASA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Akshardham Apartments Limited) is proposing to construct 224 low cost apartments for residential purposes. The apartments will be in four blocks. Each block will rise up to the fourteenth floor and will consist of parking at the ground floor and fifty six apartments with each floor having four apartments. The project will also include rehabilitation of the existing dilapidated Municipal storm water drainage to an elaborate storm water drainage channel of adequate capacity that will drain storm water from the upper areas of Mishomoroni and Kisauni in general into the Tudor creek without eroding sections of the proposed project site. The third component of the proposed project is the construction and installation of a sewage treatment plant that will handle and treat all sewage and resulting wastewater from the apartments to environmentally acceptable standards as provided for in the Environmental Management and Coordination (Water Quality) Regulations 2006 before discharge into the environment.

Below is a summary of the anticipated impacts and the proposed mitigation measures:

<i>Impact</i>	<i>Proposed Mitigation Measures</i>
	Construction phase
Vegetation clearance	<ul style="list-style-type: none"> • Appropriate landscaping, planting of trees, grasses and other vegetation in all open areas of the project site once construction is complete • Project proponent to support planting of trees in public areas outside the project site to cater for net vegetation loss in the area.

Increased vehicular traffic	<ul style="list-style-type: none"> • Vehicle idling time during delivery of construction of materials to be reduced. • All users of Mshomoroni road to always observe traffic rules this will give pedestrians and cyclist their space and safety while using the road. • Marking of the roads to be clearly done; • Speed limits for all traffic along Mshomoroni road to be observed.
Dust disturbances	<ul style="list-style-type: none"> • Covering the construction site with dust screen. • Sprinkle water regularly on open surface and dust grounds until paving is done. • Provide employees with PPE such as dust masks etc. • Enforce strict use of personal protective equipment.
Noise disturbances	<ul style="list-style-type: none"> • Noise levels at the construction site to be within the prescribed limits as provided for in Noise and Excessive Vibration Control Regulations, 2009. • Appropriate engineering controls on all construction equipment. • Servicing of construction equipment on schedule. • Use of appropriate noise attenuates. • All construction work to be limited to daytime only. • Immediate neighbours to be notified in writing on the date of commencement of construction work at least two weeks in advance. • All employees likely to be exposed to high noise to be provide with ear protectors. • Contractor to ensure strict enforcement on user of ear protectors.
Solid waste	<ul style="list-style-type: none"> • Construction solid waste to be handled managed and disposed according to the provisions of the Waste Management Regulations, 2006. • Waste handling bins to be provided for workers onsite. • Colour code to be used to distinguish waste bins of different waste; • Waste to be sorted at source. • Ensure no scattering of construction waste during transportation to disposal site. • Solid waste to be disposed only at licensed disposal sites.
Occupational injuries	<ul style="list-style-type: none"> • Provide workers with appropriate working tools and equipment that are appropriately serviced. • Providing workers with appropriate personal protective equipment and ensuring their appropriate use. • Training all workers in safety and individual safety obligations. • Ensuring all rotating parts of machine and equipment being used are appropriately guarded to reduce risk of human contact. • Ensure lifting equipment and pressure vessels are inspected and certified by an authorized inspector before use.
Pollution of marine environment	<ul style="list-style-type: none"> • All solid waste to be managed according to the Environmental Management and Coordination (Waste Management)

	<p>Regulations, 2006.</p> <ul style="list-style-type: none"> • All liquid waste to be collected handled, managed and disposed according to the Environmental Management and Coordination (Water Quality) Regulations, 2006. • Prohibit disposal of any solid or liquid waste within the riparian or in the creek. • Waste receptacles to be provided at the construction camp for food based waste. • The project proponent to hire the services of a NEMA registered waste collection and disposal company. 			<ul style="list-style-type: none"> • Residents of the apartments to be sensitized on appropriate water use and conservation technologies applicable at household level. • Energy saving bulbs to be used in lighting in all apartments and associated facilities. • Generator to be installed to be automatic to safe on fuel consumption • Use solar energy for heating water. • Security lighting including street lighting within the premises of the apartments to be solar powered. • Electric fence to be solar powered.
Sedimentation of the Tudor creek	<ul style="list-style-type: none"> • Construction of silt traps and/or catch basins along the storm water channel. • Regularly de-silt the storm water drainage channel and silt traps and catch basins. • Planting of trees and other vegetation such as grasses upstream. 	Increased vehicular traffic		<ul style="list-style-type: none"> • Provide ample parking space per unit within the compound of the apartments. • Management to provide for adequate internal parking, each apartment to be allocated at least one parking. • All users of said roads to always observe traffic rules this will give pedestrians and cyclist their space and safety while using the road. • Marking of the roads to be clearly done. • Speed limits to be strictly observed.
Impacts of sewage and wastewater	<p>Operational phase</p> <ul style="list-style-type: none"> • Install an efficient sewage and wastewater management system (bio-digester). • Regularly maintain the sewage and wastewater treatment system and infrastructure. • Regular monitoring of wastewater after treatment to ensure conformity with Environment and Coordination (Water Quality) Regulations 2006. • Obtain an effluent discharge license. • Local ground water quality to be monitored periodically by sampling and testing water from wells within the facility. 	Reduced privacy		<ul style="list-style-type: none"> • Ensure that the proposed apartments are consistent with the existing buildings (height) in the area and more so the area zoning plan. • Design of the proposed apartments to take into consideration of the location of windows, balconies and terrace of existing buildings.
Impacts of solid waste from the apartments	<ul style="list-style-type: none"> • Solid waste to be handled managed and disposed according to the Environmental Management and Coordination (Waste Management) Regulations 2006. • Management of apartments to contract a NEMA licensed waste collection company to be collecting all solid waste from the apartments; • Solid waste to be collected daily from the apartments for disposal at NEMA licensed disposal sites only. • Use NEMA licensed vehicles to collect and transport waste from the facility. • Provide waste handling bins • Colour code to be used to distinguish waste bins of different waste; • There should be no scattering of waste during transportation to disposal site. • In a case where kitchen waste is to be held for a day or more before disposal, then cold room facility to be provided for temporally handling to avoid decomposition. 	Density and height		<ul style="list-style-type: none"> • The proposed development to conform to the zoning specifications of the area. • Change of user to be carried out for the proposed development as appropriate.
		Pressure on groundwater resources		<ul style="list-style-type: none"> • Adhere to the recommended quantity of water to be abstracted per specified period. • Minimize water wastage such as spillage and running taps. • Maximize on the usage of all water abstracted • Plant trees upstream to conserve ground water resources in the area. • Plant trees and other vegetation in all open areas within the catchment area. • Stick to the recommended abstraction rate to avoid chances of salinization.
		Noise		<p>Decommissioning phase</p> <ul style="list-style-type: none"> • Demolition works and other decommissioning activities to be limited to day time. • Provide appropriate ear protective devices to be provided to workers working in noisy environment. • Engineering controls on plant and equipment used in decommissioning to reduce noise. • Noise control and hearing conservation programme to be developed. • Audiometric tests to be carried out to workers exposed to • Post notices and signs in noisy areas. • Education and training for workers on importance and proper use of PPE.
Increased demand for water and electricity	<ul style="list-style-type: none"> • Recycle wastewater after treatment to reduce overall water use. • Approximate volumes of water to be required per apartment in a specified time period to be computed in order to put in place mechanisms of reliable supply. • Water saving devices such as push taps to be installed to minimize lose through leakage and spillages. 			

- Dust
- Appropriate acoustic barriers around areas generating noise to be provided.
 - Noise attenuators such as trees on site to be preserved.
 - Appropriate personal protective equipment to be provided to all workers.
 - Appropriate use of PPE provided to be enforced.
 - The site to be secured with dust screens.
 - Water sprinkling on dusty grounds to be done.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Mombasa County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

Z. O. OUMA,
for Director-General,

MR/3792732 National Environment Management Authority.

GAZETTE NOTICE No. 480

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED PETROL FILLING STATION ON PLOT L.R. NO. NGONG/NGONG/57829, NKOROI, KISERAIN, KAJIADO COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Longterm View Capital Limited) is proposing to construct a petrol filling station with 8 dispensing pumps, 3 underground storage tanks, a canopy, carwash, service bay, mini supermarket, restaurant, and an office block.

Below is a summary of the anticipated impacts and the proposed mitigation measures:

Negative Impacts	Proposed Mitigation Measures
Hydrology and drainage	<ul style="list-style-type: none"> • Construction of proper drainage • Prevention of pollution during construction
Flora and fauna	<ul style="list-style-type: none"> • Avoid clearing areas that will not be affected by the project • Landscaping
Noise pollution	<ul style="list-style-type: none"> • Construction during day time • Provision of ear muffs to construction workers exposed to high noise levels • Full compliance with noise and excessive vibrations pollution (control) regulations, 2009

- Health and safety
- Use of appropriate PPEs by construction workers
 - Provision of first aid facilities on site
 - After commissioning of the project, the management should ensure all health and safety requirements for workplaces e.g. fire exits, fire extinguishers, etc. are installed
 - Staff training of occupational health and safety
 - Routine medical check-ups
 - Risk analysis of all activities
 - Formulation of an emergency response plan
- Dust/air quality
- Water sprinkling of driveways to reduce dust emission during construction
 - Routine maintenance of vehicles, plant and other machinery to minimise emission of NOx and SOx from vehicle exhaust systems
- Waste management
- Waste reduction during construction
 - Recovery and re-use of wastes
 - Provision of sanitary facilities
 - Regular inspection and maintenance of waste disposal system
 - Fit hoses with quick-acting leak-proof cock or improved nozzle to minimize spillage of fuel
 - Construction of proper and efficient drainage system including an oil interceptor
- Traffic flow
- Prohibit parking of construction vehicles along the road
 - Provide separate vehicle entry and exits for smooth traffic flow
 - Erect sign posts at least 150m from the station to warn motorists
- Regulatory compliance
- Obtain all necessary permits and licenses prior to commencement of operations

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Kajiado County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

Z. O. OUMA,
for Director-General,

MR/3790531 National Environment Management Authority.

GAZETTE NOTICE No. 481

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED RUAI JUNCTION SERVICE STATION ON
PLOT L.R. NO. V. 13106 & V. 13101 NAIROBI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Gulf Energy Limited) is proposing to construct a petrol service station with the following facilities and amenities; parking bay, washrooms, offices, four filling pumps, three 40,000 lt. underground tanks, service bay, convenient store, Oil Interceptors, Air and water points, and associated piping works.

Below is a summary of the anticipated impacts and the proposed mitigation measures:

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
	<i>Constructed phase</i>
Water and soil contamination	<ul style="list-style-type: none"> • ERP to be developed with emphasis on protection of the environment. • No uncontrolled discharges. • Pretreatment of effluents before joining the mains.
Increased fire and safety risks	<ul style="list-style-type: none"> • Place fire extinguisher at conspicuous sites. • All emergency fire exits to be clearly marked. • Ensure safety warnings are conspicuously displayed. • Provide and enforce the use of personal protective equipment. • Ensure that operational and adequate fire extinguishers are on site. • Install fire alarms. • Maintain an accident register at the premises.
Safety and obstruction	<ul style="list-style-type: none"> • Movement of construction vehicles timed to operate during off-peak hours. • Observe and comply with traffic regulations and other bylaws. • Contracts to peak and implement a traffic management plan. • Provide of the necessary road signs and cautions.
Air and Noise pollution	<ul style="list-style-type: none"> • Notify residents prior to project commencement. • Train workers on the management of air pollution from vehicles and machines. • Machines and vehicles to be serviced and maintained as per the manufacturers specifications. • Vehicles delivering soil materials shall be covered to reduce dust. • Dust generating activities not to be carried out during times of strong winds. • Frequent watering of the site to reduce dust. • Stand by generator rooms to be re-enforced with sound proof materials.
Public health deterioration	<ul style="list-style-type: none"> • Develop a site health and safety plan, safety procedures, restricted sites etc. • A sign personal responsible for safety standards and precautions. • Provision of safety protective equipments. • Qualified personnel to supervise and enforce safety standards.

Production of waste	<ul style="list-style-type: none"> • Record all incidences and take appropriate action. • Take an active role in HIV/AIDS sensitization of workers and the community. • Comply with the requirements of the Environmental Management (Waste Management) Regulations, 2006. • Develop a solid waste management plan prior to project commencing. • Designate and construct an appropriate waste collection facility. • Re-use construction waste to the maximum extent possible. • Proper handling and storage procures for hazardous wastes e.g. fuel oil.
Energy utilization	<ul style="list-style-type: none"> • Develop an energy management plan. • Construction machinery and vehicles should be maintained as appropriate. • Sensitize construction workers on energy management. • Install energy saving devices. • Institute alternative sources of energy e.g. solar panels.
Waste utilization (Water wastage; Increase in project costs)	<ul style="list-style-type: none"> • Monitor water consumption and utilization. • Sensitize construction workers on proper water management. • Develop alternative sources, e.g. rain harvesting.
Product spillage	<i>Operational Phase</i> <ul style="list-style-type: none"> • Training of staff daily proponent.
Leakage of tanks and product lines	<ul style="list-style-type: none"> • Take insurance spill contaminating groundwater or soil; • Monitor daily reconciliation of wet stock and inventory records • In case of suspect losses, institute tank and line integrity testing; and • Conduct a soil gas survey to check the extent of contamination from the leaks.
Waste water and waste oil management practices	<ul style="list-style-type: none"> • Carefully collect used oil and dispose of by licensed refuse contractor; • Adhere to the Water quality regulations, 2006 on waste water management. • Conduct wastewater monitoring to check compliance on monthly basis • Document and train staff in the emergency spill response plan.
Solid waste generation and disposal; (littering, soil and surface water pollution)	<ul style="list-style-type: none"> • Comply with the Waste Management Regulations, 2006; • Designate and construct an appropriate waste collection facility. • Segregate waste at source and monitor waste volumes. • Engage the services of a licensed waste disposal contractor. • Carefully collect used oil in drums and dispose of by licensed refuse contractor.
Fire and accident	<ul style="list-style-type: none"> • Provide firefighting equipment and train staff on their usage. • Display warning signs at suitable locations. • Prohibit unauthorised persons at the station. • Instal weather-proof fittings for all external lighting and power points.

Air pollution	<ul style="list-style-type: none"> • Ensure that the generators are maintained to manufactures specifications, • Ensure that tank vents are located away from sensitive receptors. • Conduct solvent vapor monitoring.
Increased waste water	<ul style="list-style-type: none"> • Maintenance of constructed sewer and wastewater handling systems.
Increase socio-economic activities	<ul style="list-style-type: none"> • Adhere to Local Authority regulation on provision of public utilities.
Anticipated risk/impact	<ul style="list-style-type: none"> • Notification of intent to all other relevant regulatory agencies. • Consulting with relevant consultants such as architects, physical planners, engineers and environmentalists in abide to ascertain guidelines, anticipated decommissioning impacts and mitigation measures.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Nairobi County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

SALOME MACHUA,
for Director-General,

MR/3792957 National Environment Management Authority.

GAZETTE NOTICE No. 588

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED RECYCLING AND SAFE DISPOSAL OF BULBS IN GODOWN NO.5 ON PLOT NO. 209/10850 OFF MOMBASA ROAD, NAIROBI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Sintmond Group Limited) is proposing collect, recycle, and dispose incandescent and energy saving bulbs. A lamp crusher and separation equipment will be installed in a building at Embakasi off Mombasa road, Nairobi County for this process.

Below is a summary of the anticipated impacts and the proposed mitigation measures:

Impact	Proposed Mitigation Measures
Noise pollution	<ul style="list-style-type: none"> • Workers will be provided with appropriate PPEs. • Machines not in use will always be switched off. • Operations will be scheduled in such a

	<p>way that noisy operations are carried out at the same time.</p> <ul style="list-style-type: none"> • Equipment and machinery fitted with mufflers will be used where applicable. • Maintenance and repair of machinery • Installation works will be done during the day
Increased dust and Gaseous emission	<ul style="list-style-type: none"> • Use of well maintained vehicles and machinery. • Water will be sprinkled regularly to arrest dust emission on the access route. • Low sulphur and unleaded fossil fuel would be used to reduce sulphur dioxide and lead oxide emissions respectively. • Workers shall wear nose masks/respirators when necessary
Solid waste	<ul style="list-style-type: none"> • Provide solid waste handling facilities such as waste bins and skips. • Ensure that solid waste generated at the facility is regularly disposed of appropriately at authorized dumping sites • Manage waste efficiently through recycling, reuse and proper disposal procedures. • Donate redundant but serviceable equipment to charities and institutions
Poor sewage disposal	<ul style="list-style-type: none"> • Minimize risks of sewage release into environment by providing adequate and safe means of handling sewage generated at the facility. • Conduct regular inspections for sewage pipe blockages or damages and fix appropriately. • Ensure regular monitoring of the sewage discharged from the project to ensure that the stipulated sewage/effluent discharge rules and standards are not violated • Engage exhaustor services to dispose sewage
Increased energy consumption	<ul style="list-style-type: none"> • Minimize energy consumption by:- • Switching off electrical equipment, appliances and lights when not being used. • Installation of occupation sensing lighting at various locations such as storage areas which are not in use all the time. • Install energy saving fluorescent tubes at all lighting points within the building instead of bulbs which consume more energy. • Monitor energy use during the operation of the project and set targets for efficient energy use. • Sensitize the staff to use energy efficiently
Increased pressure on water resources	<ul style="list-style-type: none"> • Ensure efficient and safe water use by:- • Prompt detection and repair of water pipe and tank leaks. • Water conservation e.g. by avoiding unnecessary toilet flushing. • Ensure taps are not running when not in use. • Use of water conservation taps that turn off automatically when not in use.
Risk of injury to project personnel	<ul style="list-style-type: none"> • Implement all necessary measures to ensure health and safety of workers and

the general by:

- Operation and maintenance of the equipment in accordance with the instructions and documentation provided by the manufacturer.
- Routine service, repair and preventive maintenance on the equipment will always be executed only by personnel that have been trained by the manufacturer /SG's own service personnel authorized by the manufacturer to do such work.
- Providing a fully equipped first aid kit within the building.
- Operation of equipment by skilled workers only
- Workers should get food that is hygienically prepared.
- There shall be a changing room for the employees

Decommissioning phase

- | | |
|----------------------------------|--|
| Increased solid waste generation | <ul style="list-style-type: none"> • Collect, segregate and dispose waste responsibly. • Contract a licensed waste handler to dispose the wastes |
| Communication | <ul style="list-style-type: none"> • Inform the stakeholders and general public |
| Site restoration | <ul style="list-style-type: none"> • Restore site to its original condition as much as possible |

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Nairobi County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

Z. O. OUMA,
for Director-General,

MR/3794910

National Environment Management Authority.

GAZETTE NOTICE No. 589

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED OIL PETROL STATION CUM WASTE OIL
/ SLUDGE RECYCLING FACILITY ALONG MURANG'A ROAD,
PANGANI, L.R. NO. 209/1622, NAIROBI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Range Construction Company Limited) proposes to set up an oil petrol station cum waste oil / sludge recycling facility in Pangani Area on a parcel of land L.R No. 209/1622 located along Murang'a road in Nairobi County. The oil petrol station section shall consist of a 6m high canopy, 4 pumps (3 for PMS and 1 for AGO) and a cash desk while the waste oil / sludge recycling facility shall consist

of one waste oil distillation equipment, 3 horizontal waste oil underground storage tanks of a depth of 12.5m and capacity of 20,000L each (for PMS, AGO and DPK), 3 underground storage tanks for the recycled oil (PMS, AGO and DPK), loading pumps for the already recycled fuel and loading area for evacuation tankers/trucks.

The following are the anticipated impacts and proposed mitigation measures:

<i>Anticipated Impacts</i>	<i>Mitigation Measures</i>
Noise pollution	<ul style="list-style-type: none"> • Provision of barriers such as walls around the site boundaries to provide some buffer against noise. • Installation of portable barriers to shield compressors and other small stationary equipment where necessary. • Silenced machinery and instruments should be employed. • Workers working with machinery, vehicles and instruments that emit high levels of noise should be provided with ear plugs and ear muffs. • Construction activities must be limited between 0800hrs and 1700 hrs.
Air pollution/ particulate matter (dust)	<ul style="list-style-type: none"> • Stockpiles of earth should be sprayed with water or covered during dry seasons. • Provide PPE such as nose masks to the workers in dust generation areas. • All raw materials must be sourced as close as possible to the construction site thus reducing the emissions from vehicular traffic. • Machines must not be left idling for unnecessary periods of time. • The construction contractor will water the site with exposed soil surfaces twice daily during dry seasons. • Avoid pouring dust materials from elevated areas to ground. • Cover all trucks hauling soil, sand and other loose materials. • Provide dust screen where necessary.
Waste water disposal	<ul style="list-style-type: none"> • Conduct inspections for drainage pipe blockages or damages and fix them. • All waste water should be channeled to the existing NWSC sewer line.
Increased solid waste	<ul style="list-style-type: none"> • Waste disposal should be through licensed private solid waste handlers and Nairobi County Government. • The materials should be properly segregated to encourage recycling of some wastes. Demolished stones can be used as backfills. • Excavation waste should be re-used or backfilled.
Loss of biodiversity	<ul style="list-style-type: none"> • After project completion, proponent should rehabilitate the site by planting local trees, grass and ornamental flowers at all disturbed areas.
Soil erosion	<ul style="list-style-type: none"> • Control earthworks especially during rainy seasons. • Ensure that the drainage plan proposed is implemented as stipulated on the plan. • Landscape exposed surfaces to maximally control any possible chance of soil movement.
Increased water usage	<ul style="list-style-type: none"> • Avail storage tanks. • Roof catchments should be provided with water harvesting systems to

enhance collection and storage of rain water

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.
- (c) County Director of Environment, Nairobi County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

KODIA BISIA,
for Director-General,

MR/3792634 National Environment Management Authority.

GAZETTE NOTICE No. 590

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED BEER BREWING PLANT ON PLOT L.R.
NO. EMBU/ KITHUNTHIRI/2170, 2171 & 2413 IN KIRITIRI
MARKET, EMBU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Dang'ai Herbal Limited) is proposing to construct a light industry for opaque beer brewing. The plant will consist of a production hall (brewing area, cold storage, laboratory, technical room, store and records room, offices, board room, loading and offloading area, washrooms, septic tank and its soak pit, gate house and a parking bay. A perimeter stone wall will be erected around the plant in addition to waste water system for treatment, purification and recycling of waste water.

Below is a summary of the anticipated impacts and the proposed mitigation measures:

Impact	Proposed Mitigation Measures
Soils erosion and siltation of water bodies	<ul style="list-style-type: none"> Site excavation works to be planned such that a section is completed and rehabilitated while another section begins. Apply soil erosion control measure such as leveling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil
Noise pollution	<ul style="list-style-type: none"> The noisy construction works will entirely be planned to be during daytime. Ensure that all generators and heavy-duty equipments are insulated or placed in enclosures to minimize ambient noise levels Workers' operating noisy machines to be provided with ear muffs or plugs. Noise hazard signs should be put displayed where necessary. Iron sheets or other suitable means should be used to reduce noise exposure to neighbor or passersby. Noisy machinery should be modified or replaced with better machinery, well

lubricated and serviced

Disturbances of soil and destruction of soil structure by excavation	<ul style="list-style-type: none"> Excavation material will be loaded into trucks and be transported to designated disposal sites. Design and implement an appropriate landscaping program to help in re-vegetation of part of the project area after construction. Reuse of the topsoil in landscaping
Waste generation and scattering by workers	<ul style="list-style-type: none"> Provide waste collection bins or skips and empty them frequently. Ensure that construction materials left over at the end of construction are used in other projects rather than being disposed off. Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure. Minimize waste through accurate estimation of the sizes and quantities, rather than cutting materials to size. Collect non-toxic solid water for proper disposal
Damage to utility cables	<ul style="list-style-type: none"> Contractor should consult, KPC, Orange, EWASCO and CCM on the presence of utility cables
Oil Spills	<ul style="list-style-type: none"> Ensure that all transport and construction equipment are in good service condition and no service is carried out on sites. Ensure that no fuels or oils are stored on sites but procure them when needed.
Strom- water drainage	<ul style="list-style-type: none"> Open drains adjacent to site will be used. Construction of water storage tanks to collect storm water for domestic uses
Security	<ul style="list-style-type: none"> Ensure that there is general security at all times by providing day and night security guards and adequate lighting within and around the premises
Occupational diseases due to excessive dust, noise, contact and poor sanitation	<ul style="list-style-type: none"> Provide adequate sanitary conveniences and in a clean state. Provide wholesome drinking and bathing water and facilities for workers. Ensure that all workers obtain an insurance cover. Appoint qualified safety supervisors. Involve the Directorate of Occupational Health and Safety services Inspections / audits. Ensure that all lifting equipments have undergone statutory inspections and are well maintained. Provide side netting and sheets to protect workers, pedestrians and motorists from falling objects. Provide and enforce the wearing of personal protective equipments such as helmets, hand gloves and overalls where needed. Provide first aid facilities under trained first aid attendants and contract Ambulance and hospital services. Ensure that all form work and scaffolds are made using materials and workmanship of the highest quality and under the supervision of safety supervisors. Employ only experienced workers only in critical numbers to avoid unnecessary overcrowding.

- Road signs should be displayed to warn motorist of heavy vehicles and equipments turning.
 - All moving parts of equipments should be guarded.
 - All electrical equipments should be handled and fitted by qualified persons and serviced regularly.
 - Use of live electrical equipments should be closely supervised.
- Waste water management
- Construction of proper and well maintained waste water treatment facility.
 - Provision of adequate wastewater drainage systems
 - No discharge of wastewater into the nearby runoff path
 - Use of the purified wastewater for irrigation of grass and flower beds.
 - Regular inspection of wastewater drainage system
 - Carrying out regular wastewater test for BODs, CODs, TOCs, turbidity and pH levels.
 - Staff awareness on proper water usage to minimize waste.
 - Construction soak pits
- Deterioration of air quality
- Ensure all rooms are well ventilated.
 - Use of quality and approved raw materials
 - Observe OSH and Public Health conditions
 - Observe cleaner production methods and carry out batch quality control
 - Ensure no alcohol vapor emissions

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Embu County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

Z. O. OUMA,
for Director-General,

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
