**COUNTY GOVERNMENT OF UASIN GISHU**  
**DEPARTMENT OF EDUCATION, CULTURE, YOUTH**  
**AFFAIRS, SPORTS AND SOCIAL SERVICES**  
**COUNTY PERSONS WITH DISABILITY FUND POLICY 2017**

**Policy Statement**

This Policy is prepared by the County Government of Uasin Gishu to address some of the challenges facing persons with disability and to also act as a guide to planning on how to address the needs of persons with disability.

**Background**

Persons with disability face a myriad of challenges that cut across all spheres of the society. All persons including those who do not fall within this definition are predisposed to disability. As a consequence of such a predisposition, the Kenyan authorities have put in place initiatives for organized care for them.

The provision of services to persons with disability dates back to the missionary era. The Salvation Army in 1946, for example, established programs to rehabilitate men blinded during the Second World War. Later the program became the country's first school for the visually impaired, marking the commencement of provision of formal education for visually impaired children in Kenya and East Africa. Other similar initiatives have been undertaken by the Catholic, Presbyterian, Anglican and Methodist churches which established schools and institutions for children with visual, hearing and physical disabilities in various parts of the country.

**Executive Summary**

The County Government of Uasin Gishu is aware that persons with disability are a distinct group that has in the past been marginalized; hence the need to develop various strategies to empower them and to enable them improve their livelihoods.

The County Government of Uasin Gishu is committed to providing services and offering protection to persons with disability to allow them to enjoy their freedoms and liberties as enshrined in law.

**Definition of Terms**

"Disability" According to section 2 of Persons with Disability Act No. 14 of 2003, disability means a physical, sensory, mental or other impairment including any visual, hearing, learning or physical incapability which impacts adversely on social, economic or environmental participation.

The Constitution of Kenya 2010 under Article 260 defines disability as any psychological or other impairment, condition or illness that has or is perceived by significant sectors of the community to have a substantial or long term effect on an individual's ability to carry out ordinary day to day activities.

"Persons with disability" Means persons who have disability within the meaning of the Article 260 of the Constitution and section 2 of Persons with Disability Act No. 14 of 2003.

**1. INTRODUCTION**

Chapter Four Article 54 (1) of the Constitution of Kenya 2010 on specific application of rights states that:

- (1) A person with any disability is entitled—
  - (a) to be treated with dignity and respect and to be addressed and referred to in a manner that is not demeaning;
  - (b) to access educational institutions and facilities for Persons with disability that are integrated into society to the extent compatible with the interests of the person;
  - (c) to reasonable access to all places, public transport and information;

- (d) to use sign language, Braille or other appropriate means of communication; and
- (e) to access materials and devices to overcome constraints arising from the person's disability.

(2) The State shall ensure the progressive implementation of the principle that at least five percent of the members of the public in elective and appointive bodies are persons with disability.

The County Government of Uasin Gishu recognizes that local, global, historical and negative cultural predispositions and beliefs have slowed the development and progress of persons with disability. This has hindered their desire to fully exploit their potential and participate in Nation building. However, efforts are being made to reverse these trends by initiating programmes and involving persons with disability in the county planning so as to address their challenges.

The project will comprise of the island terminal with four berths, located slightly inland capable of importation and exportation of five different hydrocarbon products; crude oil, heavy fuel oil and three types of white oil products (DPK – aviation fuel, AGO – diesel and PMS – petrol); Top side (initial implementation of topside will be for three berths but layout will recognize the need for implementation of the fourth berths at a later date); subsea pipeline (the subsea pipeline corridor and associated number of pipelines will have an element of pre-investment to accommodate all four berths); On-shore pipeline to a designated tie-in location; SCADA and control system. The subsea pipeline is 1.15 km long while the on shore pipeline is 1.05 km long.
