THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT
AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY
REPORT FOR THE PROPOSED MASINGA-KITUI
WATER SUPPLY AND SANITATION PROJECT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Masinga–Kitui Water Supply and Sanitation Project.

The proposed project will involve development of sewerage system for Kitui town and expansion of the existing water supply to serve the following trading and urban centres; Matuu, Masinga, Kaewa, Migwani, Katutu, Kithioko, Tulia, Kwavonza Trading Centre, Matinyani Trading Centre, Itoleka, Malulu, Wikililye, Kwa Kinyai, Kavisuni and Kitui Urban Centre.

The project anticipates the following impacts and mitigation measures:

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Destruction of physical environment	<ul style="list-style-type: none"> Develop soil erosion management measures. Limit the circulation of heavy machinery to minimal area. Locate access roads perpendicularly or diagonally to the slope rather than along steep slopes. At the end of the drilling works, level off the soils and facilitate plant regeneration. Plan work in sections to avoid opening up areas that are left undeveloped. Control flow of storm water in rivers, dams, weirs or develop silt trapping structures.
Waste management	<ul style="list-style-type: none"> Encourage separate treatment for industrial and domestic effluent. Conduct awareness on need of appropriate waste management practices including reduction, reuse, recycle, segregation, pre-treatment among others. Develop appropriate budgets for purchase of raw materials to reduce wastage through exposure to weather elements, cutting to size etc. Avoid open dumping of solid waste on wind ward side of the sewage works. Construction of waste screens and sediment traps.
Increased water demand/supply and water quality	<ul style="list-style-type: none"> Observe the Water Act, 2002 and the 30% water rights for downstream users. Use of metering methods including v-notches and sluices. Construction of sediment traps.

Destruction of flora/fauna
and wildlife-human
conflict

Air quality/noise

Social and economic
concerns

- Keep natural water channels free from obstruction.
- Conduct water quality monitoring at river recharge points.
- Incorporate biological treatment methods in sewage ponds to improve water quality.
- Develop monitoring strategies and penalties for 15 individuals diverting sewers and water from lines.
- Avoid constructing at animals drinking points.
- Avoid selecting sites sheltering or frequented by wildlife.
- Preserve migration corridors for wild and domestic animals.
- All trees uprooted to pave way for weir and access construction should be replanted.
- Avoid interference with wildlife breeding sites.
- Control introduction of invasive plants and animals species in forest, sewage ponds and water bodies.
- Promote the development of community nurseries
- Environmental conservation measures should be instituted.
- Operate equipments equipped with air pollution control gadgets
- Insulate noisy machines when working near animal habitats
- Maintain vehicles and machinery in good condition in order to minimize gas emissions and noise
- Ensure continuous maintenance of sewerage treatment plant and develop appropriate sludge handling procedures
- Avoid construction of sewage plant on the windward side to avoid spread of pathogens, odour
- Conduct continuous public awareness and encourage participation throughout the project span to discuss contentious issues including compensation to Project Affected Persons.
- Communicate on project progress to community members and alert on sections to be developed to reduce destruction and interference.
- Accord local community employment and business opportunity as priority
- Implement HIV/AIDS and other communicable diseases programmes in conjunction with relevant ministries.
- Establish labour camps at reasonable distance from villages.
- Where possible offer women equal

employment opportunities as men.

- Occupation/public health and safety concerns
- Develop secondary uses of weir including fish farming to generate income.
 - Complying with work place legal requirements.
 - Provision of protective professional equipments.
 - Employment of competent work force.
 - Instituting safety drills, disaster preparedness and management programmes.
 - Develop appropriate structure of the weir that meet recommended standards.
 - Control disease vectors using appropriate methods.
 - Conduct education and awareness on effects of cultivating using sewage water, interference with water supply etc.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, N.H.I.F. Community, P.O. Box 30521, Nairobi.

(c) Provincial Director of Environment, Eastern Province.

(d) District Environment Office, Makueni District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY
REPORT FOR THE PROPOSED EXECUTIVE
APARTMENTS BY NATIONAL HOUSING CORPORATION

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed executive apartments by National Housing Corporation.

The proposed project will include construction of five storied executive apartments. The project comprises of seven blocks of executive apartments, each with five floors. There will be six residential units on each floor however the fifth floor of each building shall have two penthouse units. The proposed project is located on L.R. No. 209/6491 next to Kileleshwa Police Station along Mander Road.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Hydrology and drainage	<ul style="list-style-type: none"> • Provide appropriate drainage structures. • Sewer lines and drains from the kitchens, washrooms and laundry areas of the apartment blocks should not be channelled into the open drains
Soil erosion	<ul style="list-style-type: none"> • Excavations of the site will be confined only within the sections upon which construction is taking place. • Excavated earth will be held away from existing drainage channels. • The earth removed for external disposal will require to be deposited on sites without the risk of being washed down during rains. • Extra precautions on control of soil erosion will be required on construction during periods of heavy rainfall. • Re-vegetate exposed areas on the site. • Landscaping.
Noise and vibrations	<ul style="list-style-type: none"> • Ensure that construction equipments are maintained. • Construction activities should only be undertaken during the day (preferable between 8.00am and 5.00pm). • Ensure workers are provided with the necessary personal protective equipment. • Power generators should be installed in acoustically designed structures.
Air quality	<ul style="list-style-type: none"> • During construction, any stockpiles of earth should be enclosed/covered/watered during dry or windy conditions to reduce dust emissions. • Construction trucks removing soil from the site, delivering sand and cement to the site should be covered to prevent material dust. • Sprinkle the construction area with water to keep dust levels down. • Personal protective equipment (PPE) should be provided. • Drivers of construction vehicles must be supervised so that they do not leave vehicles idling. • Maintain all machinery and equipment,

	including the boiler and generators.		Compensation cover as required by law (The Workmen's Compensation Act), as well as other relevant Ordinances, Regulations and Union Agreements.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY

REPORT FOR THE PROPOSED CONSTRUCTION AND SALE

OF FOUR (4) AFFORDABLE RESIDENTIAL APARTMENTS

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed construction and sale of four (4) affordable residential apartments.

The new apartments will comprise of four blocks each having five floors. The accompanying basic residential amenities includes: business centre, car parks, swimming pool, drive ways and landscaping.

The proposed project is located at L.R. Nos. MN/1/8719, MN/1/8718, MN/1/8717, and MN/1/8716 in Mkomani Mombasa North overlooking Fort Jesus directly across the ocean.

The project anticipates the following impacts and mitigation measures:

<i>Possible Impacts</i>	<i>Mitigation Measures</i>	
Solid Waste	<ul style="list-style-type: none"> • Ensure that construction materials left over at the end of construction will be used in other projects rather than being disposed off. • Donate recyclable/reusable or residual materials to local community groups, institutions and individual local residents or home owners. • Use of durable, long-lasting materials that will not need to be replaced as often, thereby reducing the amount of construction waste generated over time. • Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements. • Provide solid waste handling facilities such as waste bins and skips. • Ensure that solid waste generated at the apartments is disposed off appropriately at authorized dumping sites on a daily basis. • Ensure that occupants of the apartments manage their waste efficiently through recycling, reuse and proper disposal. 	<p>again in activities such as flushing of toilets and irrigating of the flowers.</p> <ul style="list-style-type: none"> • Ensure taps are not running when not in use • Install a discharge meters at water outlets to determine and monitor the amount of water used from the apartments.
Security	<ul style="list-style-type: none"> • Ensure the general safety and security at all times by providing day and night security guards and adequate lighting within and around the premises during night hours. • Put in place security lights along the road where the project site lies. • Install an alarm system within the premises to improve security around and within the premises. 	<p>Jetty/walkway</p> <ul style="list-style-type: none"> • The existing jetty/walkway into the sea must be upgraded to avoid any incidence of polluting the ocean water and to avoid occurrence of any accidents such as people falling into to the ocean as a result of the timber used for construction being worn out and general pollution of the sea.
Sewage/human waste	<ul style="list-style-type: none"> • Provide adequate and safe means of handling sewage generated at the apartments to ensure that no sewerage generated at the site gets into the ocean. • Conduct regular inspections for sewage pipe blockages or damages and fix appropriately. • Ensure regular monitoring of the sewage discharged from the project to ensure that the stipulated sewage/effluent discharge rules and standards are not violated. 	<p>Drainage</p> <ul style="list-style-type: none"> • Create storm water management practices, such as piping systems or retention tanks which can be carried over after the building is complete. • Construction of a good drainage system is necessary to avoid incidences of flooding. • Sewer lines and drains from the kitchens, washrooms and laundry areas of the apartments should not be directed into the ocean.
Water usage	<ul style="list-style-type: none"> • Sensitize the residents of the apartments to conserve water by minimizing any necessary wastage within the apartments. • Recycle the used water to be reused 	<p>Soil erosion</p> <ul style="list-style-type: none"> • Apply soil erosion control measures such as leveling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil. • Ensure that any compacted areas are ripped to reduce run-off. • Excavations of the site will be confined only within the sections upon which construction is taking place. • The excavated earth will be disposed off on sites where it will not be washed into the ocean by storm water. • Re-vegetate exposed areas on the site through proper landscaping.
		<p>Ecosystem disturbance</p> <ul style="list-style-type: none"> • Ensure proper demarcation and delineation of the project area to be affected by construction works. • Designate access routes and parking within the site. • Preserve the existing trees within the project site and if possible plant more trees of fast maturity period within the site. • Design and implement an appropriate landscaping programme to help in re-vegetation of part of the project area after construction • Introduce mangrove trees along the jetty/walkway to ensure ecosystem sustainability within the ocean.
		<p>Aesthetic quality of the area</p> <ul style="list-style-type: none"> • The project proponent should plant flowers along the road to improve the aesthetic quality of the neighbourhood • The proponent must employ a gardener to help in maintaining the flower beds

- and the landscaped gardens within the project site.
- Noise and vibrations
- Ensure that construction machinery are kept in good condition to reduce noise generation.
 - Construction activities should only be undertaken during the day i.e. 8.00 a.m. to 5.00 p.m.
 - Ensure that workers are provided with the necessary personal protective equipment.
 - Ensure that all generators and heavy duty equipment are insulated or placed in enclosures to minimize ambient noise levels.
- Air quality
- Sensitize truck drivers to avoid unnecessary racing of vehicle engines at loading/offloading points and parking areas
 - Ensure proper planning of transportation of materials to ensure that vehicle fills are increased in order to reduce the number of trips done per vehicle or the number of vehicles on the road
 - Construction trucks removing soil from the site and delivering construction materials to the site should be covered to prevent material dust.
 - Sprinkle the construction site with water to keep dust levels down.
 - Provide the construction workers with personal protective equipments that will protect them from direct inhalation of dust during the construction period.
 - No burning of waste at the construction site should be allowed.
 - Retain the existing trees and plant more trees within the site to act as purifiers.

The full report of the proposed project is available for inspection during working hours at:

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED MANGU FUNERAL HOME IN MANGU LOCATION

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Mangu Funeral Home.

The proposed project will involve construction and utilization of a comprehensive funeral home with the following components: Offices, washing and preparation rooms, cold rooms, toilets, septic tank, parking bay.

The project is located on L.R. No. Ngenda/Mangu/398, Mangu Location, Kamwari Division, Gatundu District.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Biological diversity	<ul style="list-style-type: none"> • Tree species to be planted to rehabilitate the destroyed tree species to improve the aesthetic value of the funeral home compound are as follows: Pinus patula, callianda, gravellia robusta, cypress among others.
Waste disposal	<ul style="list-style-type: none"> • Wastes disposal containers will be placed at strategic places where wastes will be sorted out in to biodegradable and non biodegradable. • Solid wastes such as plastics, papers, and water containers collected for recycling. While papers and other wastes that cannot be recycled are burned in the incinerator. • Wastes such as green leaves will be used to produce composed manure for flower gardens to improve soil fertility and also planting tree and flowers later at the funeral home compound. • Dirty water to be disposed in the septic tank and collected by local authority.
Occupational health and safety hazards during construction for dust	<ul style="list-style-type: none"> • Provision of adequate personal protective gear to workers such as gloves and gum boots to workers during construction work. • Use of water to reduce effect of dust on the workers.
Water quality	<ul style="list-style-type: none"> • Provision of portable water within the proposed facility should be as per WHO standards. • Ensuring effective discharge of water in to the septic tank.

- Digging terraces will be done and planting of the suitable trees and shrubs and grass to control water around the site.
- Air quality
 - There will be use of low sulphur and unleaded fuels for the emergency generator.
 - Measures are put in place to ensure use of biodegradable hydrant.
 - Smell-not objectionable to the nose.
 - Dust mask to be provided to workers to limit inhalation of dust.
 - Contractor will give prior notice of activities and time durations to communities.
 - Watering dusty grounds before excavation begins.
- Psychosocial impact to the community
 - People will be sensitized on the importance of this project to them. Example of Bishop Okoye Funeral Home in Thika borders Joy Town Primary School, Kimathi Estate and ACK Cathedral, Thika District hospital next to Thika Technical.
 - Construction of three metres wall especially the side facing the road and homesteads.
- Noise pollution
 - Measures have been put in place to ensure use of serviced and greased equipment and ear muffs by operators.
- Land degradation
 - Terraces to be constructed at appropriate places at the site and suitable plants and grass species planted.
 - Footpaths to be protected with appropriate grass species, stones or appropriated environmentally friendly measures that would prevent soil erosion.

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
