NOTICE.

A report on samples of rubber from the East Africa Protectorate has been received from the Imperial Institute, of which the following is an extract :—

"The specimens from Takaungu and the Shimba Hills were described by the brokers as nice, hard, red rubber which would sell well at about 2s. 6d. to 2s. 7d. per, lb., ex warehouse

in London, if not sticky. The samples from Nandi are described as a rather softer rubber, Nyasa character and dark coated, which if not heated would be worth about 2s. 3d. to 2s. 4d. per 1 lb. The brokers add that all the samples appear to have been externally heated, but suggest that this may possibly have occurred during transit, and that larger consignments might not show this defect. The market is very good at present, and, as medium rubbers are scarce, such qualities as represented by the samples would sell readily."

C. ELIOT,

His Majesty's Commissioner.

NOTICE.

The attention of owners of gharis is called to No. 5 of the Tramline Rules published in the "Official Gazette" of April 15th 1903. As it is extremely difficult for the police to gauge accurately the rate at which gharis are travelling, owners are earnestly requested to use their best efforts to regulate their speed within legal limits and to instruct their boys to do the same.

NOTICE.

I, EDUARDO AGUSTO MARQUES, Captain on the Staff, and Acting Governor of the District of Lourenço Marques &c., do hereby make known as follows:—

THAT Epizootia pyroplasmose dos bovidos, known in the neighbouring Colonies by the name of "Redwater," having broken out in this District, and it being necessary to take immediate steps to check the spread of the said disease:—

1. The territories which are infected with this Epizootia are:—

(a.) All the area of the first sub-district of the Crown Lands.

3. When the existence of the disease in a herd has been officially confirmed, the owner or his representative, is bound to fill in a sanitary bulletin as to the condition of the animals and forward it weekly to the Administrator of his District.

4. It is forbidden to take cattle from one place to another in the District without the previous written permission of the Administrative Authority, which permission can only be granted if the places from which they come, through which they will pass, and to which they are going, are free of epizootic disease.

(Signed) EDUARDO AGUSTO MARQUES,

Acting Governor.

Reuter's Telegrams.

MAY 31ST.—The correspondent of the "Daily Telegraph" at Bohotle telegraphs that by the 15th of next month Galkayu will be evacuated, that scurvy is raging amongst the Native Troops and that many British Officers have been invalidated home.

The Liberals are actively preparing for a general election. Mr. Herbert Gladstone has written a letter urging all Liberals to put their house in order as it is impossible to assume the general election can be long delayed.

JUNE 1ST.—The Governor-General of Algeria approached Figuig to-day and found that the town was strongly fortified. While riding away the party was fired upon from the town, but although an incessant fusillade was kept up, they retired safely.

Mount Pelee again shows signs of activity and the Council General at Martinique is urging the evacuation of the whole northern side of the Island.

JUNE 2ND.—Jonnart, who was on a tour of inspection which included the consideration of measures that could be taken to prevent the raids by Moorish tribes across the frontier, when near a narrow pass, was attacked by six hundred men from Figuig who were ambuscaded. They were repulsed with heavy loss by Jonnart's escort and two companies of the Foreign Legion whose casualties in the action amounted to seventeen wounded.

In view of the impotence of the Moorish Authorities at Figuig, the French Government has authorised Jonnart to take repressive action across the frontier. Jonnart in announcing this fact said that the Moorish Governor would benefit therefrom quite as much as France and that no occupation of territory was contemplated. Two and a half batteries besides other reinforcements have been despatched to Benionnif near Figuig.

Lord Dalmeny, the eldest son of Lord Rosebery is to contest the seat of Midlothian at the next election.

One of the Master's houses at Eton was burned down last night. A number of the boys escaped by jumping out of the windows, but two were burned to death.

JUNE 3RD.—Jonnart in the course of a speech declared that France and the whole world preferred to leave the punishment of the raiders to the Moorish Government, but under the circumstances, France was perfectly justified in making reprisals herself.

A French Column is to proceed to Figuig on the 9th instant while two other columns will simultaneously round up the troublesome tribes. Jonnart proposes to keep the force in the District of Figuig as long as the Moors are unable to preserve order.

JUNE 4TH.—In the semi official explanation of the Customs duties between Canada and Germany published at Berlin it is declared that at no stage had Germany any idea of interfering with the internal relations between Great Britain and her Colonies but merely gave effect to a provision of the existing law.

The Pacific Steam Navigation Coy's s.s. "Arequipa" together with several other vessels has foundered during a hurricane at Valparaiso. Out of the "Arequipa's" crew of 90 only 17 were saved.

It is noteworthy that the German Press evidently as the result of official influence has abstained after its first outcry from any provocative language concerning Mr. Chamberlain's Tariff Scheme. Count von Buelow appears to be anxious to avoid anything which by fanning anti-German feeling in England would promote Mr. Chamberlain's ideas. The reserve of the German papers is regarded as showing how much the scheme alarms them.

JUNE 5TH.—The Johannesburg "Standard" of the 3rd June states that the Dutch have decided to take an active part in the politics of the Transvaal. This marks the inauguration of a period of great political unrest.

It is understood that Spain has received verbal assurances from France with regard to Morocco, but nevertheless the Madrid papers have a presentiment that France is taking the first step towards obtaining a preponderant influence in Morocco.

Owing to the difficulty of adjusting dates in view of the King's visit to Ireland, it is now arranged that M. Loubet arrives in London on the 6th July and remains in England for three days.

The Council adopted the clause in the Ordinance mentioned in Reuter's of 20th March referring to coloured persons by 15 votes to 13, but as the unofficial members almost unanimously opposed the granting of a franchise in any shape at present, the Government withdrew the clause and reconsidered the matter.

JUNE 6TH.—It is officially stated that their Majesties the King and Queen will arrive in Ireland on the 21st July.

The French Senate has adopted the two years military service system.

After two months drought, vast forest fires are raging in Eastern Canada, New England, and New York State. In part of New Jersey the dense smoke causes darkness impeding the traffic in New York City and Harbour.

For the purpose of disarming the suspicion which any military movement in Morocco would be calculated to excite, the French Government has carefully assured Great Britain and the other Governments interested, that the forthcoming expedition against Figuig in consequence of the attack of the 1st June is merely punitive and that no occupation is intended.

Reuter's Agent at Bloemfontein states that the Customs Convention will be presented to-day for ratification by the Legislatures of the South Africa Colonies. The principal rates are only slightly altered but a 2½ per cent *ad valorem* duty has been imposed on machinery, rail and tramway materials manufactured outside Great Britain.

JUNE 8TH.—Sir Henry Campbell Bannerman speaking at Perth condemned Mr. Chamberlain's proposals as wanton and premature. He declared that we have tested free trade for fifty years, that every day evoked fresh testimony to its blessings and advised the Government to take heed less in its recklessness it should set the Empire ablaze and reduce its prosperity to ashes.

Replying to an anti-Asiatic deputation Lord Milner insisted upon the exemption of superior classes of Asiatics from restrictions, he stated it was undesired that Asiatics should take bread with the whites, but recommended their temporary employment in the mines and in the Public Works.

Messrs. Fraissinet & Coy's steamers "Insulaire" and "Liban" collided yesterday afternoon off Marseilles. The "Liban" was sunk and 29 corpses have been recovered.

Their Majesties the King and Queen, the Prince and Princess of Wales and other Royalties attended the Hospital Sunday service in St. Paul's Cathedral yesterday afternoon.

The following is the result of the Grand Prix de Paris:—

- 1st. Quo Vadis.
- 2nd. Caius.
- 3rd. Vinicius.

A young bacteriologist at present in hospital at Berlin is being suspected of suffering from Plague.

It is officially announced that the King of Italy will visit Paris on the 16th July and London on the 15th of November.

The forest fires in Canada and New England continue, and are particularly alarming in the Canadian Maritime Provinces around Ottawa and Montreal and the people in the lumbering villages are seeking refuge. The Archbishop of Montreal has ordered prayer meetings to be held to supplicate for the averting of the danger.

The permanent Sugar Commission under the Brussels Convention is now sitting at Brussels and has been engaged for the last week discussing the legislation that is necessary with regard to the different countries.

JUNE 9TH.—It is believed that there were between 200 to 250 persons on board the "Liban" half of whom have perished. The steamer sank twenty minutes after she was struck. The passengers who were lunching at the time of the accident were panic stricken and endeavoured to seize the boats, but managed to lower only one. Many passengers were rescued by boats from steamers in the vicinity.

Sir Henry Campbell Bannerman having withdrawn the motion he intended to make with regard to Mr. Chamberlain's proposals, to-day in the House of Commons the debate will be on Mr. Chaplin's Amendment to the Finance Bill which condemns the remission of the Corn Duty. This will afford occasion for a general discussion on Fiscal Policy of the Government, and it is expected that the Division will be an important one.

The French Artillery bombarded Figaig for two hours yesterday and the troops surprised and occupied two crests above the town. The French had no casualties and the effects of the bombardment are unknown.

With reference to the Ordinance announced in Renter's of the 5th inst. the Government amendment confines the franchise to British white subjects and excludes from it all coloured races and aliens.

The Commander of the Abyssinian column acting against the Mullah has learned that there are several English prisoners in the Mullah's camp, and it is thought that these may be wounded officers from Colonel Plunkett's column.

JUNE 10TH.—The Transvaal Legislative Council has adopted a clause excluding all coloured persons and aliens from holding a municipal vote.

The French bombardment of Figaig lasted six hours, six hundred shells were fired and much damage was done to a Mosque and Zenaga was destroyed. The troops have now been withdrawn to await the effect of the bombardment on the population.

The "Standard" states that the Cabinet Council which was held yesterday considered certain objections raised by certain Ministers to Mr. Chamberlain's proposals.

In the debate on Mr. Chaplin's amendment advised in Renter's of yesterday Sir Michael Hicks-Beach declared that Mr. Chamberlain's scheme would rather disunite than unite the Empire, and would destroy the Unionist Party, he appealed to Mr. Balfour and to Mr. Chamberlain to reconsider the position. Mr. Ritchie stated that if the speeches of Ministers who had touched on the subject of preferential Tariffs were deliberately read, it would be clearly understood that such Ministers had only spoken for themselves and not for the Government, also that they only proposed that preferential treatment should be discussed and enquired into, that he would be surprised if any enquiry should result in any practicable means being found for applying such a policy. He himself was a firm believer in Free Trade and that it would be impossible for him to support a preferential policy which he believed would be detrimental both to England and the Colonies.

JUNE 11TH.—The "Standard" understands that Mr. Ritchie's statement in the House on Tuesday embodied the result of the compromise adopted at the Cabinet Council held on Monday whereby the question raised by Mr. Chamberlain should be subject to discussion and enquiry while Free Trade members of the Government would be allowed to hold their own views as there is no immediate intention of proposing any measure to give the Colonies preferential treatment.

It is also believed that Mr. Ritchie was prepared to make his continuance in office conditional on liberty being given him to define his personal attitude towards the new policy. The debate stood adjourned, neither Mr. Balfour nor Mr. Chamberlain being present during the debates.

The "Daily News," the "Chronicle" and the "Mail" consider the present political situation an impossible one, that Mr. Chamberlain is confronted with the alternative of either submitting to the majority in the Cabinet or resigning and in either case they do not see how the Government can last.

The "Daily Telegraph" states that the Government have not yet committed themselves to an alteration in our Fiscal Policy, they also consider that an enquiry into our present tariffs is impossible should a general election be rushed on now.

Mr. Balfour and Mr. Chamberlain were only absent during the later and less important part of the debate in the House.

The Fignigians have tendered absolute submission to the French.

Mr. Chaplin's amendment was rejected by 424 votes to 23, and the debate on the Finance Bill was adjourned. All the Liberals and Nationalists supported the Government while some Unionists abstained from voting. Mr. Balfour in the course of the debate denied that the Government had broken their pledge in repealing the Corn Tax which had not been imposed with a view to benefit the farmer but to raise money. He stated that it was not his duty to express an opinion now on certain great Fiscal, Colonial and International problems recently raised. The subject must first be thoroughly examined and that he would be ill performing his duty if he professed certain convictions while none existed.

JUNE 12TH.—The "Standard" states that Mr. Balfour's speech is regarded as disposing of the suggestion that the differences amongst members of the Government had led to anything in the nature of a Cabinet crisis, that there is reason to believe that Mr. Chamberlain while favouring an enquiry and a discussion does not intend entering into an active crusade which the Opposition apparently thought. It is however probable that Mr. Chamberlain will seek to obtain the views of Colonial Governments in the matter.

The King and Queen of Servia were assassinated at midnight in their palaces by troops. The army have proclaimed the Pretender Peter Karageorgevitch King of Servia.

The Queen of Servia's brother and two sisters, the King's Aidcamp, one General, the Premier, two Ministers and twelve palace guards were shot at the same time as the King and Queen were assassinated. A proclamation has appeared signed by a long list of the new Ministers appointing Avakumovici as the new Premier and mentioning tersely that the King and Queen have been shot. The National Assembly is convened for the 15th of the month and no mention in the proclamation is made of Karageorgevitch.

Karageorgevitch who is at the moment at Geneva professes astonishment at the events that have occurred in Belgrade.

JUNE 13TH.—The British Press are horrified at the crime perpetrated in Belgrade and exhort the Powers to refuse to recognise Karageorgevitch as successor to the throne as he is unable to prove his innocence of complicity in the foul deed.

In a semi official statement from Vienna the authorities there appear to regard the establishment of the Karageorgevitch dynasty as the best solution for the country's peace.

The remains of the late King Alexander and Queen Draga were unceremoniously buried last night at Obrenovitch in the family vault.
