The Proponent (National Oil) proposes to construct the following infrastructure:

Restaurant, Prayer room, Rainwater storage underground tank, Elevated water tank, Biodigester, Convenience shop, Borehole, Shops, Bank space, Office block for service station Service bay, Wash bay, Tyre centre, LPG storage Compressor/Generator room and Lube store.

The following are the anticipated impacts and proposed mitigation measures:

Environmental Impacts Mitigation Measures

Geology and soils	<ul style="list-style-type: none"> All quarry sites shall be clearly indicated on the plan and approved by the local authority for use. To prevent erosion all non-built up areas should be landscaped.
Decreased water quality	<ul style="list-style-type: none"> Ensure all spills from the construction plant are cleaned and treated before discharge.
Air quality	<ul style="list-style-type: none"> Develop and implement effective measures for minimization of dust, ensure the construction equipment is in good condition.
Increased fugitive dust emissions	<ul style="list-style-type: none"> Ensure that construction and demolition take into account the need to prevent and minimize release of fugitive.
Air pollution from incidents	<ul style="list-style-type: none"> Ensure the design, monitoring and safety systems installed for the facility comply with established industry standards practice. Implement, audit and regularly improve HSE measures for emergency response to air pollution incidents during the operation phase.
Pollution from waste generation	<ul style="list-style-type: none"> Develop and implement procedures for safe and appropriate disposal of waste for the all project phases.
Noise and vibration	<ul style="list-style-type: none"> Implement measures during the construction, operation and decommissioning phases to prevent and manage noise and vibration.
Increased employment opportunities	<ul style="list-style-type: none"> Implement where feasible measures to employ local. Community members during both construction and operational phase.
Occupational health and safety related injuries	<ul style="list-style-type: none"> Develop, and implement measures to promote the health and safety of contractors and employees during construction and operational phases.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED PETROL STATION DEVELOPMENT ON
PLOT L.R.NO. 631/1183, KERICHO MUNICIPALITY, KERICHO
COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Shajanand Hardwares Limited) is proposing to develop a Petrol Station on Plot L.R.No. 631/1183, Kericho Municipality, Kericho County

The project will comprise of; Five pump isles (two for super, two for diesel and one for kerosene), Three underground steel petroleum storage tanks (USTs), A heavy duty covered man hole for each of the UPSTs, Service bay, Car wash bay, Compressor room, Generator room, Lubricant Mart, Oil receptor tank, Store, Changing rooms, Storm Water Drains, Canopy over pumps, Station shop, stores and offices, Air and water point, Sanitary facilities, a conservancy tank, Associated piping and wiring work, Parking bay, a four storey commercial block, with basement and a four storey residential block .

The following are the anticipated impacts and proposed mitigation measures:

<i>Impact</i>	<i>Proposed Mitigation Measure</i>
Solid waste	<ul style="list-style-type: none"> Reuse of construction debris will be encouraged. Separate waste appropriately to recover re-usable prior to disposal. A licensed private contractor will be engaged to appropriately dispose off all the solid waste that shall not have been reused on completion of the work. Train workers on risk associated to inhalation of dust and appoint at least one person to ensure proper dressing and waste handling by the workers. Provide workers with appropriate protective gears including nose and mouth masks. Appropriate bill of quantity will be prepared to minimize left over. Reduce the amount of waste generated by accurate budgeting to cut off on excesses that may expire before use. Separate waste appropriately to recover re-usable prior to disposal. Ensure bins are erected appropriately, labeled and regularly being emptied and cleaned. Engage a licensed private contractor to appropriately dispose off on a regular basis the anticipated solid waste.
soil erosion	<ul style="list-style-type: none"> Stage site clearance works so as to minimize the area of exposed soil at any given time. Re-cover exposed soils with grass and other ground cover as soon as possible. Temporarily bund exposed soil and redirect flows from heavy runoff areas that threaten to erode or result in substantial turbid surface runoff to adjacent drainage waters. Monitor areas of exposed soil during periods of heavy rainfall throughout the

	<p>construction phase of the project to ensure that any incidents of erosion are quickly controlled.</p> <ul style="list-style-type: none"> • Leveling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil. • Building of physical barriers to prevent mass movement where necessary. • The immediate surrounding area should be kept as clean as possible to enhance monitoring. • Avoid soil extractions during rainy periods. 				
waste management	<ul style="list-style-type: none"> • A site waste management plan should be prepared by the contractor prior to commencement of building. This should include designation of appropriate waste storage areas, collection and removal schedule, identification of approved disposal site, and a system for supervision and monitoring. • Preparation and implementation of the plan must be made the responsibility of the building contractor with the system being monitored independently. • Special attention should be given to minimizing and reducing the quantities of solid waste produced during site preparation and construction. • Any vegetation and combustible waste must not be burned on the site. • Reusable inorganic waste (e.g. excavated sand/soils) should be stockpiled away from drainage features and used for in filling where necessary and/or possible. • Unusable construction waste, such as damaged pipes, formwork and other construction material, must be disposed of at an approved dumpsite. Chemical waste should be handled as per their Material Safety Data Sheet (MSDS) requirements. 				
Noise pollution	<ul style="list-style-type: none"> • Appropriate dressing of workers which will include: ear muffs / plugs. • Maintain excavation equipment in accordance to manufactures specifications to ensure efficient operation. • Noise and vibration will be kept at acceptable levels and construction/Excavation activities confined to normal working hours. • Compliance to the environmental management and coordination (noise and excessive vibrations pollutions control) Regulations, 2009. Legal notice No. 61, 2009. • Workers exposed to excessive noise and vibration –drivers of excavator - should work in shifts with frequent breaks to minimize long hours of exposure. • Excavation activities to be limited between 8 a.m & 6 p.m. • Use of appropriate cushioning for heavy equipment. 				
Air Pollution	<ul style="list-style-type: none"> • Dampen work areas materials heaps and mulch bare ground to minimize dust emission. • Maintain low speed in the rural access routes during transportation activities. 				
		Soil Aeration			<ul style="list-style-type: none"> • Maintain equipment and machinery to manufacturer's specifications. • Minimize period of machinery idling. • Provide appropriate personal protective equipment to site workers. • Soil should be loosened up using ploughing techniques. • Soil with cement or other construction contaminants should be treated appropriately to enable growth capacity.
		Loss of terrestrial habitat & biodiversity–Re-vegetation			<ul style="list-style-type: none"> • Protecting the existing individual vegetation as much as possible; and • Set a replanting and landscaping programme that focuses on increasing "green area". • The proponent will ensure proper demarcation of the project area to be affected by the construction works. This will be aimed at ensuring that any disturbance to flora is restricted to the actual project area and avoid spillover effects on the neighbouring areas. • In the same vein, there will be strict control of construction vehicles to ensure that they operate only within the area to be disturbed by access routes and other works. • Advice from relevant departments will be sought before clearing any major tree species if need arises.
		Liquid Waste			<ul style="list-style-type: none"> • Connect to KEWASCO sewer line. • Advise tenants to install mini bins in rooms and advise patrons to only use soft tissue in toilets to avoid blockage of sewer line. • Prompt unblocking and repair of stalled sewer lines. • Channel storm water appropriately to avoid mixing and outburst of sewer.
		Energy Loss			<ul style="list-style-type: none"> • Install an energy-efficient lighting system in the building. • Maximize on use of natural light during the day. • Switch off all light and equipment when not in use. • Use energy efficient cooking stoves and gargets to conserve energy. • Purchase essential items in bulk to cut on the number of trips to stockers.
		Water Loss			<ul style="list-style-type: none"> • Install water-conserving automatic taps, shower heads and toilets. • Harvest rainwater from roof in an elevated tanks. • Store adequate amount of water from the municipal supply. • Promptly fix damaged/leaking pipes, faulty taps and associated facility within the building. • Sensitize workers and patrons on need for efficient utilization of scarce water resources.
		Fire Hazard and Insecurity			<ul style="list-style-type: none"> • Install firefighting equipment at convenient locations within the premise. • Train employees on precautionary measures to avoid fire accidents. • Fix damaged electrical systems and gargets promptly. • Proper supervision should be ensured to avoid open fire.

- Fire disaster evacuation plan posters to be developed and posted appropriately.
 - Provide for first aid facilities as per the OSHA.
 - Ensure that the site is always guarded by a reputable security firm.
 - Constant site patrol.
 - Collaboration with existing security machinery.
 - Partnership with neighbours and police in community policing.
- Oil spills and leakages
- The potential contaminant source areas such as forecourt, pump islands, parking areas will be properly paved to contain oil spills from impacting the environment.
 - The construction of the forecourt and parking areas will be done using reinforced concrete to avoid seepage of any fugitive petroleum spills into the soil system as well as draining the generated surface run-off into the oil/water interceptor.
- Electrical Safety
- An emergency power control switch will be strategically installed in order to facilitate general power cut of the entire service station in case of emergency.
 - An adequately stocked "First Aid Box" will be provided and the service station employees will be properly trained on how to administer first aid.
- Timber scaffolding and form support – forest depletion
- The use of local timber should be kept to a minimum with such sources being approved by the relevant authorities such as Kenya Wildlife Service and the Forestry Service.
 - Steel scaffolding should be used in preference to timber and the Contractor should ensure that sufficient quantities of scaffolding are available for hire at the time of construction.
- Materials stockpiling and storage
- The stockpiling of construction materials should be properly controlled and managed. Fine-grained materials (sand, marl, etc.) should be stockpiled away from any surface drainage channels and features.
 - Low perimeter berms should be placed around the piles of sand and marl and/or tarpaulin used to cover open piles of these materials to prevent them from being washed away during rainfall.
 - Safe storage areas should be identified and retaining structures put in place prior to the arrival and placement of material to limit fugitive dust.
 - Materials to be delivered on site in installments.
- Occupation Accidents
- Ensure warning signs on road safety are erected at appropriate location during excavation and transportation.
 - Speed limit of transport vehicle to be kept low.
 - Personnel training on workforce safety
 - Control access to working sites- Secure the work area.
 - Plan stabilization and evacuation of the injured.
 - Liaise with the district Occupation Health and Safety department to provide for appropriate induction training and regular updating of workers skills on

occupational health and Safety matters.

- Provide for appropriate signage and warnings at work site.
- Use personal protective equipment (PPE) to workers and any visitors.
- Provide for first aid facilities as per the OSHA.
- Provide and clearly display emergency contacts.

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED SUPPORT TO AND EXPANSION OF MALINDI BIO FUEL CLUSTER-JATROPHA FARMING PROJECT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Comitato Internazionale Per Lo Sviluppo Dei Popoli) is proposing to expand the Malindi Bio Fuel Cluster-Jatropha farming Project in Mida Sub-location in Gede Location, Mijomboni Sub-location in Gede Location, Kakuyuni Sub-location in Goshi Location and Marikebuni Sub-Location in Magarini Location (the first three clusters are in Malindi District while the latter is in Magarini District) in Malindi and Magarini Sub-.

The project entails the establishment of *Jatropha curcas* as a hedge by 1200 farmers organizing them in SHG found in four clusters in Mida, Mijomboni, Kakuyuni and Marikebuni areas of North Constituency, Kilifi County. Although the core business of the proponent will be to skill the local farmers establishing *Jatropha* Plants as a live fence around their farms and later harvest the seeds for oil production, and briquette from biomass, the growing of other food crops will continue on the same piece of land un-interfered, all these will take place without destruction of the native vegetation

The following are the anticipated impacts and proposed mitigation measures:

Impact

Impact on biodiversity along the farm boundaries

Mitigation Measure

- Site specific preparation for *Jatropha* planting.
- Selected farms should have few trees

	along their boundaries to avoid any felling down of indigenous trees.
Invasiveness	<ul style="list-style-type: none"> • Farmers to use existing fallow areas to plant Jatropha. • Close monitoring of the plant growth throughout its life cycle by researchers. • Transportation of seeds in closed bins. • Remove and burn Jatropha plants and seeds.
Host to diseases	<ul style="list-style-type: none"> • Remove all infected cassava or other host plants from within and around sites to be used for new plantings. • Use virus-free stem cuttings for all new plantings. • Encourage farmers to get materials available on the farms and KARI Msabaha station. • Remove diseased plants from within crop stands (rouging) Continuous research work.
Health hazards to man	<ul style="list-style-type: none"> • Clearly label jatropha products as “Not fit for human consumption”. • Sensitization of farmers on the dangers of the plant. • Research work on how to overcome the hazards. • Farmers advised to take care of their children’s safety.
Health hazards to livestock	<ul style="list-style-type: none"> • Farmers to be advised not to use JSC as animal feed. • Awareness creation. • Natural mitigation- jatropha is hardly fed on by animals.
Solid waste management	<ul style="list-style-type: none"> • Take un-reusable plastic bags to a recycling plant. • Make eco-charcoal from JSC waste. • Make compost from other organic wastes. • Reuse plastic bags.
Demoralization of farmers	<ul style="list-style-type: none"> • Education and awareness.
Resentment from people	<ul style="list-style-type: none"> • Education and awareness. • JGA constitution to allow inclusiveness.
Conflicts within JGA	<ul style="list-style-type: none"> • Constitution to be adhered to strictly. • Proponent to monitor Association’s activities. • Project stakeholders to mediate and reconcile group members.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
