THE WATER ACT, 2016
(Sections 77 and 139)

PUBLIC CONSULTATION MEETING ON LICENCING OF MAVOKO WATER AND SEWERAGE COMPANY

The Water Services Regulatory Board (WASREB) has received licence applications from Mavoko Water and Sewerage Company to provide water services within Machakos County.

The licence application has been made pursuant to the Water Act, 2016 (section 85 (1).-' A person shall not provide water services except under a licence issued by the Regulatory Board, upon submission of an application and such supporting documents as the Board may require.'

Therefore, in compliance to the Water Act, 2016, section 139 on the mandatory requirement for public consultation and WASREB principal object under section 70 (1) of the Water Act, 2016, protection of the interests and rights of consumers in the provision of water services', we wish to advise that a public consultation meeting shall be held at the venue stated below to get stakeholders concerns on services provided, licencing conditions and proposals for services development going forward.

Please note that due to the challenge posed by the COVID-19 Pandemic, the Water Service Provider will hold a hybrid public consultation meeting; a face-to-face meeting for few stakeholders and a virtual meeting for the rest of the stakeholders as outlined below;

Water Service Provider	County	Venue		Day, Date and Time
Mavoko Water and Sewerage Company	Machakos	Physical Meeting:	Pride Inn Hotel, Signature Mall along Mombasa Road, Athi River	21st April, 2023 10.00 am
		Virtual Meeting:	MAVWASCO to provide links	

Participants should be seated by 10.00 a.m. Personal identification of participants will be required. Members of the public in respective areas are invited to make oral and written submissions and ask any questions that may relate to the provision of water services in their areas.

Comments on the application shall be emailed to info@wasreb.go.ke or send in hard copy to:

The Chief Executive Officer,
Water Services Regulatory Board,
5th Floor, NHIF Building,
Ngong Road,
P.O. Box 41621-00100,

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED SOIT SUGAR FACTORY ON PLOT L.R.

NO. TRANSMARA/OLOMISMIS/1690 AT ESAIE SUB-LOCATION, OLOMISMIS LOCATION IN KILGORIS WARD, TRANSMARA WEST SUB-COUNTY, NAROK COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above-proposed project.

The proponent, Soit Sugar Company Limited proposes to establish a sugar factory with crushing capacity of 1250 TCD which is expandable to 2500TCD. The company operations will include production of sugarcane in its nucleus estate and out growers fields processing mill white/brown sugar and generating 3MW captive power for factory use in nucleus estates. The project will be located on plot L.R. No. Transmara/Olomismis/1690 at Esaie Sub-location, Olomismis Location in Kilgoris Ward, Transmara West Sub-county, Narok County.

The following are the anticipated impacts and proposed mitigation measures:

Potential Impacts	Mitigation Measures
Occupational health and safety	<ul style="list-style-type: none"> Provision of appropriate Personal Protective Equipment. (PPE) to construction workers. Safety education and training for workers. Barricading the construction area appropriately and posting public warnings. Provision of appropriate onsite sanitary convenience for workers. Establishing emergency procedures against hazards and ensuring the workers stay aware/educated on following them and commensurate to the magnitude and type of emergency, by conducting regular drills and involving the neighbouring people. Display signage warning of potential hazards at various sections of the plant.
Local increase of construction traffic	<ul style="list-style-type: none"> Construction vehicles to enter and leave the site through designated paths only. Posting traffic warning signs on both approaches to the construction site to warn other road users of traffic risks. Strict adherence to speed limits near the construction area of 10 km/hr. Clearly marking parking spaces, installation and maintenance of traffic guide signage.
Impact on air quality (exhaust and dust, discharge from duct/distillery)	<ul style="list-style-type: none"> Watering all active construction areas as and when necessary to lay dust. Avoid excavation works in extremely dry weathers. A speed limit of 10km/hr shall apply to all construction vehicles to limit dust. Avoid overloading the bagasse for efficient burning. Planting appropriate trees, shrubs and flowers to compensate for emissions. Use acceptable emission control technologies. ESPs proposed for stack pollution control. Conduct routine air quality sampling for analysis to comply with the set standards.
Noise pollution and vibration	<ul style="list-style-type: none"> Restriction of the work hours during the construction phase from 7 a.m. to 6 p.m. Monday to Saturday.

<i>Potential Impacts</i>	<i>Mitigation Measures</i>	<i>Potential Impacts</i>	<i>Mitigation Measures</i>
	<ul style="list-style-type: none"> All machinery used during construction shall be maintained in a sound mechanical condition with regular servicing. Limit pick-up trucks and other small equipment to a minimum idling time and observe a common-sense approach to machine use, and encourage workers to shut them off whenever possible. 		<ul style="list-style-type: none"> A designated garage section of the site fitted with oil trapping equipment to be planned for changes. Prompt cleaning of oil and fuel spills.
Disposal of solid waste	<ul style="list-style-type: none"> Designate a waste disposal site for spoil soil and other construction waste. Segregate waste and recover reusable materials for reuse, recycle. Use of durable, long-lasting materials that will not need to be replaced as often, thereby reducing the amount of construction waste generated over time. Construction waste will be recycled or reused to ensure that materials that would otherwise be disposed of as waste are diverted for productive uses. Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements. Consider the use of recycled or refurbished construction materials where feasible. Use of bagasse as fuel in boilers for steam and power production; making mechanical paper, drying of sediments for use as fertilizer. 	Incidents, accidents and dangerous occurrences.	<ul style="list-style-type: none"> Ensure that provisions for reporting incidents, accidents and dangerous occurrences during construction using prescribed forms obtainable from the local Occupational Health and Safety Office (OHSO) are in place. Reporting should also be as stated in section 21 of the Occupational Safety and Health Act, 2007.
		Labour influx effects	<ul style="list-style-type: none"> Employment priority will be given to the local people within the factory area. Security will be enhanced in and around the project site to reduce cases of material theft and any other uncalled-for occurrences. A GRM committee will be constituted. Security agencies will be requested to beef up the current small police post in the area.
		Sexual exploitation and abuse (SEA)	<ul style="list-style-type: none"> Integration of SEA in job descriptions, employments contracts, performance appraisal systems, etc.; development of contract policies related to SEA, including whistle blower protection and investigation and disciplinary procedures.
Effluent management	<ul style="list-style-type: none"> Install effluent treatment plant and monitor the efficiency of the ETP to ensure that wastewater released from the factory do not pollute the environment and affect the general public. Conduct quarterly sampling and analysis and apply for Effluent Discharge License from NEMA. Ensure constant monitoring of the quality of the treated water to ensure it meets water quality standards of NEMA. 	Increased energy demand	<ul style="list-style-type: none"> Sensitization of staff to conserve non-renewable fossil energy by switching off machinery and equipment when they are not being used. Proper planning of transportation of materials to ensure that fossil fuels (diesel, petrol) are not consumed in excessive amounts unnecessarily. Monitoring energy use during construction/welding and operation and setting targets for reduction of energy use; and conducting routine energy audits. Installation and use of energy efficient welding and lighting equipment during construction and operation, respectively.
Increased water demand	<ul style="list-style-type: none"> Immediately drill 2 boreholes and a dam to supplement current dam water from Olchoro lentim dam. Sweep with a broom and pan where possible, rather than hose down external areas. Quick fixing of leaking pipes and toilet cistern. Reduce water delivery in taps, through the installation of low flow devices or aerators on taps. 	Food insecurity	<ul style="list-style-type: none"> The proponent will ensure that sugarcane farming does not replace maize farming which is the main food crop in the area. This will be done in collaboration with relevant County Government departments.
		Cane spillage	<ul style="list-style-type: none"> Sensitization of sugarcane loaders on proper sugarcane loading to avoid loss and inconveniencing other road users. The proponent will also institute measures of collecting all the spilled cane on the feeder roads.
Soil disturbance and erosion	<ul style="list-style-type: none"> Levelling the disturbed site areas to reduce run-off velocity and increase infiltration of rain water into the soil. Construction vehicles will be restricted to designated paths to avoid soil compaction within the Project site. Stockpiling materials along the road shall be avoided. 	HIV/AIDS	<ul style="list-style-type: none"> The proponent in partnership with the Ministry of health and county government will undertake sensitization campaigns against the spread of HIV/AIDS among the factory works and with local community members.
Oil spills/discharge of waste oil	<ul style="list-style-type: none"> Minimization of oil spillage, burning of waste oil in boilers, installation of waste oil separator. 	VMGs involvement	<ul style="list-style-type: none"> VMGs and less fortunate in the society should be considered in this project. The proponent during public consultation promised to integrate all workers to benefit including the VMGs.

The full report of the proposed project is available for inspection during working hours at:

- (a) Principal Secretary, Ministry of Environment and Forestry, NHIF Building, 12th Floor, Ragati Road, Upper Hill, P.O. Box 30126-00100, Nairobi.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED CONSTRUCTION OF SOCIAL HOUSING
DEVELOPMENT LOCATED IN KIBERA ON PLOT L.R. NO.
NAIROBI/BLOCK 106/1484, SOWETO EAST SUB-LOCATION,
LANGATA SUB-COUNTY, NAIROBI CITY COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above-proposed project.

The proponent, Intex Construction Limited proposes to construct 18 residential blocks(A-R) containing a total of 4054 units, a primary school, and a commercial Centre as follows, one room units 1740, two room units 1690, three room units 624. The residential blocks consist of storey building ranging from the least being 10 floors to 17 floors. Other associated facilities are perimeter wall, parking arrangement and paved internal roads and landscaping of green areas, on Plot L.R. No. 106/1484, Soweto East Sub-location, Langata Sub-county, Nairobi County.

The following are the anticipated impacts and proposed mitigation measures:

Potential Impacts	Mitigation Measures
Waste management (construction wastes)	<ul style="list-style-type: none"> Waste materials will be segregated on-site into appropriate containers and removed from site by suitably permitted waste contractors to authorized waste landfills. Where possible, reusable waste materials will be reused on-site to minimize raw material consumption. All construction staff will be provided with training regarding the waste management procedures. All waste materials will be stored in color coded bins or other suitable receptacles in designated, easily accessible locations. The contractor will adhere to the provisions of Environmental Management and Coordination Act

Potential Impacts	Mitigation Measures
	EMCA (Waste Management Regulation 2006) and Sustainable Waste Management Act, 2022..
Noise and vibration	<ul style="list-style-type: none"> Construction working hours will be restricted to daytime. Vehicles and machineries will be maintained in a good and effective working order and operated in a manner to minimize noise emissions. All pneumatic tools will be fitted with silencers/mufflers. Vehicles should be prohibited from waiting within the site with their engines running or alternatively, located in waiting areas away from sensitive receptors. Local hoarding, screens or barriers should be erected to shield noisy activities.
Air quality (increased atmospheric particle concentrations)	<ul style="list-style-type: none"> Water misting, or sprays shall be used as required if particularly dusty activities are necessary during dry or windy periods. Any access site roads with the potential to give rise to dust will be regularly watered. Material handling systems and site stockpiling of materials shall be laid out to minimize exposure to wind. Ensure that all vehicles are suitably maintained to ensure that emissions of engine generated pollutants is kept to a minimum. Fully enclose specific operations where there is a high potential for dust production. Impose and signpost a maximum-speed-limit of 20Kph (surfaced) and 10Kph (unsurfaced) access roads and work areas
Transport, movement, and access (traffic)	<ul style="list-style-type: none"> Construction traffic routing will be generally confined to major highways, avoiding residential narrow local slum access routes. Appropriate parking facilities for site operatives and visitors within the site will be provided with all parking areas clearly marked; Temporary warning signage will be installed, as necessary. Ensure construction machineries are not parked on the road shoulders.
Social impacts	<ul style="list-style-type: none"> The contractor will implement a non-discriminatory hiring and wage policy (clearly stating that the company will not discriminate in hiring and salaries based on gender, age, religion, ethnicity or place of origin). Prioritize employment of local people for construction works. The contractor will strictly implement zero tolerance for sexual harassment at the work place.
Generation of solid waste	<ul style="list-style-type: none"> The proponent will abide by the Nairobi County (Solid Waste Management Act, 2015), Environmental Management and

Potential Impacts	Mitigation Measures
	Co-ordination Act EMCA (Waste Management Regulation 2006) and Sustainable Waste Management Act, 2022 in managing and disposing solid wastes from the housing units.
	<ul style="list-style-type: none"> Spent oil from the backup Diesel Generator (DG) sets should be stored in HDPE drums in isolated covered facility and disposed of as per the Hazardous Wastes regulations. Waste management awareness Programme will be up scaled amongst the residents.
Community health and safety	<ul style="list-style-type: none"> Contractor shall provide regular health and safety training to their workers which will include sessions on social and cultural awareness. The Contractor will liaise with Health institutions and health workers to develop and implement an HIV/AIDS/early pregnancy policies and information document for all workers directly related to the project. The Contractor shall develop an induction program, including a Code of Conduct, for all workers directly related to the Project. Awareness raising regarding sexually transmitted diseases (STD) should be provided to workforce.
Effluent discharge (sewerage and waste water)	<ul style="list-style-type: none"> All waste water and sewerage will be channelled into the existing sewerage system provided by NCWSCo and supplemented with bio-digester.
Prevalence of flooding (storm water and drainage)	<ul style="list-style-type: none"> Provision of adequately sized storm water drainage system to prevent over flooding of the site and nearby facilities. Storm water collection system has been designed so as to accommodate the entire amount of outflow, that may occur after development consisting of box culverts measuring (10m by 4m by 3m). Storm water shall be channelled into an existing storm water drainage system (Kibera Canaan drainage system).
Fire outbreaks	<ul style="list-style-type: none"> Firefighting systems should be designed in compliance with the Factories & Other Places of Work (Fire Risk Reduction) Rules, 2007. All hydrant outlets should be provided with protective caps to help prevent vandalism. Training and awareness programs will be rolled out at household-level, with focus to use of equipment (overloaded electric sockets, positioning of the stove; high risks of LPG gas cylinders). Fire alarms should be placed in every floor of each units. Upscale public education and fire prevention measures.
Occupational health and safety	<ul style="list-style-type: none"> Adherence to Occupational Health and Safety Act 2007 and Employment Act, Cap. 226.
Increased energy use	<ul style="list-style-type: none"> The project proponent should provide guidelines to the users to ensure conservation of energy. In-house

Potential Impacts	Mitigation Measures
	environmental awareness campaigns should be carried out at regular intervals to ensure energy conservation measures are followed.
	<ul style="list-style-type: none"> Use of energy efficient electrical systems should be promoted and encouraged. High efficiency lamps with electronic ballasts should be used. The power cabling shall be adequately sized as to maintain the distribution losses not to exceed 1% of the total power usage. The project proponent should incorporate solar energy at least for street lighting and other common place. Use of energy efficient lighting systems e.g. High Pressure Sodium Vapour (HPSV) Lamps, LED etc. shall be used and promoted.
Soil erosion and sedimentation	<ul style="list-style-type: none"> The contractor shall stabilize stream banks as early as possible including installation of principal runoff conveyance system with runoff-control measures (Ngong River lining) using gabions and stone pitch. The contractor will install and stabilized discharge points and downgradient perimeter controls such as silt trap fence. The contractor will stabilize all disturbed areas, slopes, and drainage systems within fourteen (14) days.

The full report of the proposed project is available for inspection during working hours at:

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the National or County Governments. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly, Senate or County Assemblies.
- (4) *Act Supplement* contains Acts passed by the National Assembly, Senate or County Assemblies.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typed with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.
