1. The cause was heard in Nairobi on 27th and 28th January 1965. The parties, the Kenya Motor Engineering and Allied Workers' Union, hereinafter referred to as the Claimant, and the Motor Trade and Allied Industries Employers' Association, hereinafter referred to as the Respondent, relied on their written memoranda and oral submissions in support thereof.

GENERAL BACKGROUND

2. An agreement dated the 25th day of February 1963, made between the parties hereto exists governing terms and conditions of employment of unionizable employees. This agreement contains the following clause on the duration of agreement:—

With the exception of the wage rates given in clause 3 (a) this Agreement shall be for a period of one year commencing on 1st January 1963.

The wage rates listed in clause 3 (b) are retrospective to 1st September 1962, the minimum wage for unskilled labour given in clause 3 (a) is retrospective to 1st January 1963.

After 1st August 1963, either party, the Association or the Union, may give the other one month's notice in writing of its desire to reopen negotiations on minimum wages for all employees listed in Appendix "F". In this event both parties will enter into negotiations on this clause. Any agreement so reached will be effective from 1st September 1963.

After 1st December 1963, either party, the Association or the Union, may give the other one month's notice in writing expressing its wish for this Agreement to be renewed or modified. In this event both parties will enter into negotiations on the terms and conditions of a new agreement, and, until such time as this is finalized, the present Agreement will continue in force. In the event of neither party expressing its wish to renew or modify this Agreement then it will continue in force.

In accordance with the above clause the Union on 31st December 1963, gave notice to the Respondent of its intention to renew the agreement with the exception of wages. On 3rd January 1964, the Respondent acknowledged this and invited proposals from the Union. The Union's proposals were forwarded to the Respondent's Association towards the end of March 1964. A series of meetings of the Joint Industrial Council on 13th May 1964, 19th June 1964, and 2nd July 1964, could not resolve the Union demands and resulted in deadlock. On 17th July 1964, the Union reported a Trade Dispute to the Minister for Labour and Social Services. On 12th August 1964, the Labour Commissioner advised the Union to refer the dispute to the Industrial Court. On 22nd October 1964, the Union gave to the Respondent a notice of general strike:—

The first paragraph of this letter states—

I am directed to inform you that due to your Association's negative attitude towards the Union demands at negotiations and because of various dismissals of our members by your Association company members and bad attitudes employed by some managements of your Association member companies an 11 days' notice is given to you from this date after which a protest strike will be summoned in the Motor Trade and Allied Industries through Kenya. Our demands include promotion to African employees in your industry and other demands on improved terms and conditions of service with reference to the agreement signed on 25th February 1963, by the two parties.

This was followed by letters being exchanged between the Ministry of Labour, the Union and the Respondent Association. Finally on 20th November 1964, Form "A" (Notification of Dispute to Industrial Court) was signed listing the aforesaid 19 items in dispute. These included additional demands submitted by the Union on 22nd October 1964.

It should be noted that item 18 which deals with security staff minimum wages arose due to the following circumstances:—

The present minimum rates of pay for security staff appear in Appendix A1 to an agreement signed on 3rd July 1963. This agreement was deemed to be an integral part of the earlier agreement signed on 25th February 1963, mentioned hereinabove. These rates of pay were retrospective to 1st February 1963. The Union omitted to put forward demands on behalf of security staff when new minimum wage rates were being negotiated in the latter half of 1963. For this reason the parties agreed on 9th January 1964, that discussions on the minimum wage rates for security staff would be held as soon as possible. On 26th March 1964, the Union submitted proposed new minimum wage rates for security staff. These demands were discussed at the Joint Industrial Council meetings but deadlock was reached on 2nd July 1964. Hence this item dealing with wages is also before the Industrial Court.

MAIN SUBMISSIONS ON BEHALF OF THE UNION

3. (1) *Annual increment.*—The Union submits that the fact that a rate of the job has been fixed does not mean that annual increments should cease. In fact some members of the Respondent Association have granted increments to those employees who are not Union members. The Union demands a 10 per cent annual increment for its members.

(2) *Acting allowance.*—The Union states that employees should get acting allowance for the number of days they so act even though it is less than 30 days and that the person so acting should get full pay for the grade of the man relieved.

(3) *Probationary period.*—The Union submits that in the case of unskilled jobs the probationary period should be of one month only and for other jobs it should be for two months. This should be so because during probationary period an employee can be dismissed immediately without any warning.

(4) *Overtime.*—The Union submits that some employees have been penalized for not agreeing to work overtime. The Union states that the employees who do overtime should be adequately compensated. They should get from Mondays to Saturdays double overtime and for Sundays and Public Holidays three times per hour. Free transport should also be provided to take them home.

(5) *Annual leave.*—The Union demands 30 consecutive days' local leave with pay and states that some members of the Respondent Association are giving more than 20 consecutive days. Further that 19 days' leave is not enough to refresh the minds of the workers and to restore their strength. The Union submits that some of the other industries in the country are getting 30 days' leave every year.

(6) *Long leave.*—The Union submits that instead of overseas leave, long leave, to be spent locally, should be granted to employees so that they could be at home for a long period.

(7) *Sick leave.*—The Union wants sick leave on half pay for a further period of hospitalization beyond the period of three months.

(8) *Medical benefits.*—The Union maintains that this is a very important item for any human being, and, as such, treatment to an employee when he or his family is sick is very essential, because one cannot work properly if any member of his family is sick with no treatment.

(9) *Maternity leave.*—The Union states that it has agreements with other employers whereby the female employees are entitled to six weeks' leave with pay and six weeks' leave without pay. Further, some members of the Respondent Association granted maternity leave with pay to non-unionizable female employees.

(10) *Safari allowance.*—The Union states that the safari allowance should be increased to Sh. 100 where the employee has to spend the night out because the standard of living has gone up and the hotel expenses are very high. Further, there was a security risk at the cheaper hotels.

(11) *Termination of employment.*—The Union submits that an employee should have a certain amount of security and demands the following notice for termination of employment:—

After completion of probation to 2 years—	1 month's notice
From 2 years to 6 years	—3 months' notice
From 6 years onwards	—4 months' notice

(12) *Gratuity on retirement or resignation.*—The Union maintains that in the Motor Industry it has been very hard for any employee to obtain any benefit for his long service with a company. Many old employees are forced to retire and are paid nothing for having served the company loyally and for

long periods. Sometimes the Union's representatives are forced to resign. Some members of the Respondent Association have in the past made *ex-gratia* payments for length of service.

(13) *Redundancy*.—The Union wants proper procedure to be laid down which should be followed when employees are declared redundant. As employers can use this to dismiss employees whom they do not like. Further, severance pay should be paid according to the length of service of an employee.

(14) *Protective clothing (uniforms)*.—The Union claims that two sets of uniform for all its members should be provided free of charge by the Respondent Association.

(15) *Leave travelling allowance*.—The Union submits that as this allowance is being paid in other industries the Motor Industry should also pay it to enable an employee to travel quickly and safely from and to his home.

(16) *Provident Fund*.—The Union submits that some members of the Respondent Association operate Provident Fund schemes and that as the Association promised to investigate the question of implementing a Provident Fund scheme for all its members it should now do so. The Union contends that when the National Provident Fund Scheme starts then the Motor Industry scheme can be changed.

(17) *Working hours*.—The Union asks that working hours be reduced to 42 hours per week on the grounds that some companies have reduced their working hours without suffering any hardship. Further that the present hours are onerous.

(18) *Security staff minimum wage increase*.—The Union maintains that as watchmen work more time during the nights than ordinary employees their wages should be increased more than the others. The Union demands that the security staff should also get the increase that was awarded to other employees in various grades and such increases should be payable from 1st September 1963.

(19) *Effective date and duration*.—The Union maintains that the current agreement expired on 31st December 1963, and as the Union gave notice of review, as required under this agreement, the effective date of the award should be from 1st January 1964, and be up to 31st December 1965.

MAIN SUBMISSIONS ON BEHALF OF THE RESPONDENT ASSOCIATION

4. (1) *Annual increment*.—The Respondent Association submits that an annual increment would cut right across the principle of job classification and rate for the job which have been accepted by the Union and the Association. In any case an annual increment would be an increase in wages and therefore contrary to the agreed 12 months' standstill on wages as provided for in the Tripartite Agreement.

(2) *Acting allowance*.—The Respondent Association considers that the present agreement is fair. Artisans, who are required to act in the next higher grade, receive with one exception the rates for the next higher grade. In the case of clerical workers the position is different as the job of the person on leave is split between a number of other employees. The minimum acting period of one month seems fair, in view of the fact that time is required for the management to ascertain whether the man concerned can do the job and for the man himself to be able to grasp the job.

(3) *Probationary period*.—The Respondent Association submits that it would be wrong specifically to restrict an employee's probationary period to one month. One month would be a very short time for a new employee to demonstrate his full capability and suitability to his employer, and, he might well find himself suffering as a result.

(4) *Overtime payments*.—The Respondent Association submits that the present agreement is equitable and in line with current practice.

(5) *Annual leave*.—The Respondent Association states that since 1st September 1963, due to a Wages Council Order, leave was increased to 19 consecutive days and that this was a reasonable period. It further submits that the existing arrangements for accruing and accumulating leave are not only reasonable but are also already more beneficial to the employee than is the case in some other industries.

(6) *Long leave*.—The Respondent Association states that all its members have ceased or have announced that they are in the process of ceasing to grant long leave to unionizable employees. To reintroduce long leave would be a retrograde step.

(7) *Sick leave*.—The Respondent Association submits that the present arrangement is adequate in that employees get 30 days' sick leave on full pay and in the case of proven hospitalization up to a maximum of three months.

(8) *Medical expenses*.—The Respondent Association states that it investigated the establishment of a Medical Insurance Scheme but found it far too costly. Further, that, apart from recognizing the legal obligation in respect of medical expenses, it was not prepared to meet medical expenses.

(9) *Maternity leave*.—The Respondent Association maintains that following the institution of job classification the Association has recognized the principle of paying a rate for the job irrespective of the sex of the worker. The Association states that maternity leave should be unpaid leave and would be in accordance with Maternity Protection Convention No. 103 of International Labour Organization.

(10) *Safari allowance*.—The Respondent Association submits that the existing rates of safari allowances for unionizable employees are adequate. Provision is made to reimburse employees for meals taken at regular intervals and a further amount is paid when an employee has to spend a night away from his home. The Respondent Association produced vouchers to support that Sh. 18 and Sh. 18/25 were paid at Nyeri and Nakuru respectively by an employee on safari who had to spend a night out.

(11) *Termination of employment*.—The Respondent Association submits that one month's notice of termination of employment is fair and reasonable and in line with current practice in Kenya.

(12) *Gratuity on retirement or resignation*.—The Respondent Association contends that:—

- (a) The payment of any gratuity is the prerogative of management;
- (b) with the establishment of the National Provident Fund and a fixed retirement age both employee and his employer will be making provision for the employee's old age;
- (c) an employee who resigns does so of his own free will.

(13) *Redundancy*.—The Respondent Association states that it has followed and will continue to follow the principles of redundancy as set out in the Industrial Relations Charter. It considers that the amounts of redundancy pay provided for in the existing agreement are fair and reasonable.

(14) *Protective clothing (uniforms)*.—The Respondent Association submits that protective clothing (uniform) is only required by manual workers, to protect their own clothes from getting dirty as in most cases they perform potentially dirty jobs. It seems to be inappropriate to require such protective clothing for "white collar" workers.

(15) *Leave travelling allowance*.—The Respondent states that it has never accepted the principle of travelling allowances when proceeding on leave and no member of the Association pays any such allowance to its employees. It further submits that the vast majority of workers are employed from the area or town in which they work.

(16) *Provident Fund*.—The Respondent Association states that it has suspended its own inquiries to establish a Provident Fund in view of the proposed establishment of a National Scheme.

(17) *Working hours*.—The Respondent Association submits that the current agreement is still reasonable, also, that any decrease in the number of working hours would be equivalent to an increase in wages.

(18) *Security staff minimum wages*.—The Respondent Association admits that this matter was raised before the signing of Tripartite Agreement. However, it submits that when compared with the wages paid to security staff by other organizations, the current rates are very favourable.

The Respondent Association also points out that professional security organizations are already being employed by member companies to combat ever rising costs.

(19) *Effective date and duration*.—The Respondent Association draws the Court's attention to the clause in the current agreement which states that until such time as new terms and conditions are negotiated, the present agreement will continue in force, and submits that the effective date should be the date of the award and the duration should be for a minimum period of two years.

AWARD

Once again the Court is presented with a position where it has to adjudicate on an omnibus claim. This reflects poorly on the parties' attitude in that one side puts forward demands and the other side refuses to give in on any point and declares deadlock. In this case a full year was lost and resulted in absolutely nothing despite the fact that demands came up for discussion at various Joint Industrial Council meetings during 1964. This sort of approach should be discouraged and the Court should only be resorted to when negotiations conducted, genuinely, in the true spirit of good industrial relations reach a point beyond which there can be no bargaining. The Court hopes that the various unions and industry in general will bear this in mind in the future.

We have considered very carefully the various points urged by both parties and award as follows on the various items in dispute.

- (1) *Annual increment*.—Nil award.
- (2) *Acting allowance*.—Present agreement to continue except that an employee shall be entitled to this allowance if he so acts for 15 days or more.
- (3) *Probationary period*.—For unskilled workers the probationary period shall be two months and for skilled workers the probationary period shall be three months.
- (4) *Overtime payment*.—Nil award.
- (5) *Annual leave*.—Annual leave of 21 consecutive days shall be granted on the conditions already agreed upon.
- (6) *Long leave*.—Nil award.
- (7) *Sick leave*.—Nil award.
- (8) *Medical expenses*.—All those employees who earn a salary of Sh. 400 or less shall be reimbursed the medical expenses incurred provided that they receive their treatment at City or Municipal Council clinics or Government hospitals and on production to the employer of the official receipt for such expenses.
- (9) *Maternity leave*.—The Court rules that maternity leave shall be considered as "sickness", and the female employees shall be entitled to the balance of any sick leave given under the current terms and conditions of service and which is unexpired in the year of employment. Any further period of absence from a total of 12 weeks in respect of childbirth shall be without pay. The aforesaid female employees shall be entitled to this award after completion of one year of unbroken service.
