ELECTRIC POWER ACT
(Cap. 314 of the Laws of Kenya)

APPLICATION BY TANA RIVER DEVELOPMENT COMPANY LIMITED FOR A BULK SUPPLY LICENCE UNDER THE ELECTRIC POWER ACT TO INCLUDE A LICENCE TO CONSTRUCT CERTAIN GENERATING STATIONS AND GIVE POWER FOR THE COMPULSORY ACQUISITION OF CERTAIN LANDS FOR THE PURPOSES THEREOF

NOTICE

NOTICE IS HEREBY GIVEN THAT TANA RIVER DEVELOPMENT COMPANY LIMITED, a liability limited company having its registered office at Shell and BP House, Harambee Avenue, Nairobi, Kenya (hereinafter referred to as "the Applicant"), will on the Fifth day of April 1965 apply to the Minister for Works, Communications and Power or other the Minister who for the time being shall be the Minister for the purposes of the above-mentioned Act for a BULK SUPPLY LICENCE authorizing the Applicant during a period of fifty years from the date of commencement of the Licence:—

- TO GENERATE in such generating stations as the Applicant may be authorized by the Licence or otherwise from time to time to construct, erect, acquire or operate within the area of supply hereinafter described electrical energy in such quantities and at such pressures as the Applicant may from time to time require and determine;
- TO PURCHASE from the holders of bulk supply licences issued under the said Act who are authorized to give or to take and who for the time being are giving or taking or have agreed to give or take a supply of electrical energy in bulk to or from the Applicant electrical energy in bulk in such quantities, at such pressures, for such periods and subject to such terms and conditions as may be mutually agreed upon from time to time by the Applicant and such bulk supply licensees or any of them;
- TO TRANSMIT within the said area of supply electrical energy in bulk in such quantities and at such pressures as the Applicant may from time to time determine.
- TO SUPPLY within the said area of supply to such bulk supply licensees as aforesaid and to authorized distributors under the said Act who are authorized to take and are for the time being taking or have agreed with the Applicant to take a supply of electrical energy from the Applicant electrical energy in bulk in such quantities, at such pressures, for such periods and subject to such terms and conditions as may from time to time be agreed upon by the Applicant and such respective bulk supply licensees and authorized distributors: Provided always that the supply of electrical energy by the Applicant under the Licence shall be permissive with respect to the entire of the said area of supply and accordingly that the provisions of section 11 of the said Act shall not have application to the Applicant and that the Applicant shall not be compelled to give a supply of electrical energy to any person;
- TO PURCHASE FROM AND TO SUPPLY to persons outside Kenya electrical energy in such quantities, at such pressures, and generally upon such terms and conditions as may from time to time be agreed between the Applicant and such persons;
- TO ACQUIRE COMPULSORILY as provided by the said Act at any time within three years from the date of commencement of the Licence for all or any of the purposes of such generating station or generating stations, substation or substations, or switch station or switch stations as the Applicant may at any time desire to construct or operate the whole or such portion or portions as the Applicant may from time to time determine of the lands hereinafter described;
- TO CONSTRUCT on the lands above referred to such generating station or generating stations as the Applicant may from time to time require for the generation of electrical energy for the purposes of the Licence or any of them as are hereinafter described.
- TO PURCHASE, CONSTRUCT, MAINTAIN AND OPERATE all such other works and plant within the said area of supply as may in the opinion of the Applicant be necessary or expedient for the purposes aforesaid or any of them.

2. THE PURPOSE for which the Licence is required is to enable the Applicant to generate, purchase, transmit and supply electrical energy and to acquire, purchase, construct, maintain and operate all such lands, works and plant as aforesaid and to do all things and take all steps which may seem to it to be necessary, appropriate or expedient (including all ancillary acts and things whatsoever) in connexion therewith.

3. THE PROPOSED AREA OF SUPPLY is the whole of the area within the territorial limits of Kenya.

4. Initially the Applicant does not intend to install, erect or operate any electric supply lines outside the precincts of the said generating station or stations nor does it seek authority therefor.

5. THE LANDS which it is proposed that the Applicant should be empowered compulsorily to acquire in whole or in part at any time within three years from the date of the Licence consist of those portions of the lands situate in the Eastern Region and the Central Region of Kenya as shown on the map below and as more particularly designated on Boundary Plan 514, copies of which are available for inspection at the offices mentioned in paragraph 11 hereof.

6. GENERATING STATIONS. The points within the lands referred to in the next preceding paragraph at which it is proposed that the Applicant should be empowered to construct three generating stations (together with any necessary switching stations) are as follows:—

- (a) Kindaruma Power Station to be situated on the Tana River about three miles downstream from the Seven Forks Rapids as shown on the map below and as more particularly designated on Boundary Plan 514, copies of which are available for inspection at the offices mentioned in paragraph 11 hereof.
- (b) Reservoir Power Station to be situated on the Tana River about three miles up-stream from the confluence with the River Thiba as shown on the map below and as more particularly designated on Boundary Plan 514, copies of which are available for inspection at the offices mentioned in paragraph 11 hereof.
- (c) Gtaru Power Station to be situated mainly underground at a depth of about 500 feet and about two miles west of the Seven Forks Rapids as shown on the map below and as more particularly designated on Boundary Plan 514, copies of which are available for inspection at the offices mentioned in paragraph 11 hereof.

7. THE REASONS why the said lands should be so acquired are to enable the Applicant to construct thereon the generating stations works and plant referred to above and to provide water storage to be used in connexion with such generating stations.

8. THE MACHINERY proposed to be installed in the said generating stations is as follows:—

- (a) Kindaruma Power Station: Three generating sets each comprising a vertical axis Francis turbine driving direct a 10 MW alternator with an output of 50 cycles per second and 11 KV. Each turbine will be complete with a governor and butterfly inlet valve. The power-house will have a 55-ton overhead travelling crane and the power will pass to the transmission system via two 25 MVA 11/132 KV transformers in an adjacent outdoor switching station. The power station will be provided with a small auxiliary set to maintain power station supplies in case of emergency;
- (b) Reservoir Power Station: Four generating sets each comprising a vertical axis Francis turbine driving direct a 10 MW alternator with an output of 50 cycles per second and 11 KV. Each turbine will be complete with a governor and butterfly inlet valve. The power-house will have a 55-ton overhead travelling crane and the power will pass to the transmission system via two 25 MVA 11/132 KV transformers in an adjacent outdoor switching station. The power station will be provided with a small auxiliary set to maintain power station supplies in case of emergency;
- (c) Gtaru Power Station: Four 42.5 MW sets consisting of vertical axis Francis turbines directly driving alternators of 50 cycles per second and 11 KV output. Each turbine will be complete with a governor and butterfly valve and there will be an 80-ton overhead travelling crane. The surface works will include four 25 MVA 11/132 KV transformers, a 30-ton winch for the machinery access shaft, and lifts, etc., for the personnel access shaft. The power station will be provided with a small auxiliary set to maintain power station supplies in case of emergency.

9. It is intended that the machinery referred to at paragraph 8 above shall generally be operated during the day-time to cover the peak-load periods. It may however be opportune at times of high river-flow, or in case of difficulties elsewhere in the Applicant's generating system, to use the machinery at other times of day or night and it will be regarded as available for service at all times.

10. (a) Places where there exist generating stations equipped with machinery similar to that referred to in paragraphs 8 (a) and 8 (b) above for the purposes of general supply include Grudie Bridge, Scotland; Falcon, California/Mexico; Atiamuri, New Zealand.

(b) Places where there exist generating stations equipped with machinery similar to that referred to at paragraph 8 (c) above for the purposes of general supply include Soverzene, Italy; and Randens (Isère-Arc), France.

11. PRINTED OR TYPED COPIES of the Draft Licence so to be applied for and of the LICENCE when granted, and of Boundary Plan 514 (referred to above) showing the area which it is proposed that the Applicant should be empowered compulsorily to acquire, and of ANY OTHER PARTICULARS required by the Electric Power Act may be INSPECTED by the PUBLIC during business hours at the office of the Applicant, Shell and BP House, Harambee Avenue, Nairobi, and at the offices of the East African Power and Lighting Company Limited in Mombasa, Nakuru, Eldoret, Kisumu, Kitale, Nyeri and Nanyuki.

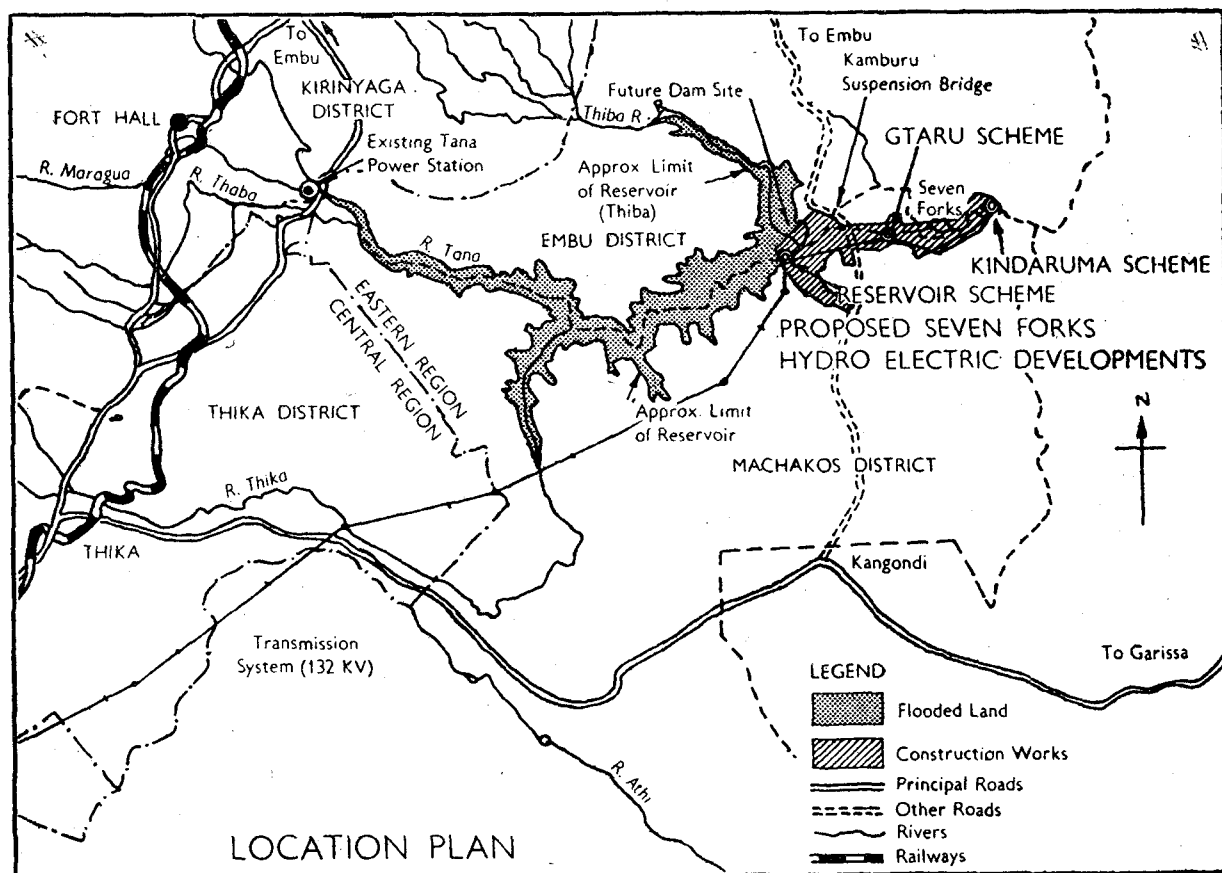

ANY PUBLIC OR LOCAL AUTHORITY, COMPANY, PERSON OR BODY OF PERSONS desirous of making any representation on or OBJECTION to the application for or to the grant of such Licence or of the said powers of compulsory acquisition or the grant of a Licence to construct the said generating stations or with respect to the proposed works must do so by letter addressed to the Minister for Works, Communications and Power and marked on the outside of the cover enclosing it "Electric Power Act" on or before the expiration of SIXTY DAYS from the DATE OF APPLICATION as stated in this notice, and a copy of such representation or objection must be forwarded to the Applicant, TANA RIVER DEVELOPMENT COMPANY LIMITED, at its office, Shell and BP House, Harambee Avenue, P.O. Box 7936, Nairobi.

Dated this 22nd day of January 1965.

B. H. KYLE-BOWYER,

Secretary,

TANA RIVER DEVELOPMENT CO. LTD.,
Shell and BP House, Harambee Avenue, Nairobi.
